NATIVE ETHIOPIAN SPEAKS TO STUDENTS

Dr. Checkizli, on Third Visit to America, Advocates Racial Peace

Is RENOWNED EDUCATOR

"Let the black man be grateful to the white man who has given him his chance. If the white man has helped him, let him be thankful.

"The Christian religion is not a black man's religion. It is the white man's religion. It is an attribute of the white man. It is not an attribute of the black man.

"We must live in the communication of the evangelism of Christ. The white man must live in the communication of this idea.

"If the white man has helped you, let him be thankful. If the black man has helped you, let him be thankful."
HE was known as Charm School. The Register is the official organ of A. & T. College. It is published monthly during the college year by the students of A. & T. College.

The Register should be an inspiration to the loyal students and a correction to the disloyal ones:

"If you want to go to the kind of a college that's the kind of a college you needn't slip your clothes in a grip and start on a long, long hike. You'll find yourself elsewhere when you left behind.

For there's nothing that's really important in life. It's a knob at yourself when you knock the college; it isn't the college, it's you.

Real colleges aren't made by students afraid to do mischief. You've got to develop your ideas, your ideals, your goals, and work toward making the college what you want it to be.

In this present day and time we are facing many problems, and we, the students of A. & T. College, must face them. We must be the leaders, not just followers.

What Shall We Do About It?

Dear Editor:

I believe that there should be an honor code at all colleges and universities, and I think this code should be enforced to the fullest extent.

I am very interested in the objectives of the said organizations, and am aware of the lack of knowledge that has happened to me.

It is commonly supposed that all should know how to act after having reached college age, but there are yet a few who are in college and apparently not out of college age.

I wonder why?

Good evening, Editor:

As I am going to college to pursue my studies at the same time, I want to be able to do the things I enjoy.

I never can enjoy myself on the campus. I am often asked what I can do to make myself more interesting to the students.

I am aware of the value of education, and I want to challenge you to do your utmost to make the college a more enjoyable place.

I am a student of the world, and I want to make the most of my college experience.

I hope to see you in the near future.

The College Library

By Martha V. White

All of us go to the library to study. We seek information, read books, and find a place to escape from the world. The Library is a place of quiet, peace, and stillness. It is a place where we can find answers to our questions. The Library is a place where we can learn and grow.

For the entertainment we have novels by the leading contemporary authors; and books may be gotten by a little consultation with our efficient librarians. Miss F. B. Hurl, who has been determined, or see one of the numerous desk assistants.

Please let us brighten your space moments by using them to the best advantage.

Visit your college library for any information which you may be in need.

INHERITANCE, Phyllis Bentley

"The novel deals with the rise and fall of one family through a series of circumstances. The theme, very well told, is quite entertaining and philosophical. It is the story of a family whose fortunes have been gauged from the very beginning. The plot involves the study of the people's lives in the larger portions of Africa. Through his own efforts and a little assistance given by various foreign missionaries, he has made himself successful and is now a member of the American Missionary Commission.

While reading this novel, one is completely in sympathy with the hero. His experiences are amusing and some rather unique, but they are all thoroughly entertaining.

A biography of this sort should receive consideration from all intelligent people. It is a story of adventure and excitement. Romance is woven so beautifully into the plot that it makes for a captivating read.

Between You and Me

K. M. Harris says, "A Georgia man and his girl" is the story of a young man who has been led astray by his own desires. He is a city boy who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. He is a young man who has come to the country to see the world. The mighty Lincoln.

One of the longest runs in football history for this term was made by Goings, whose run was 92 yards, with a kickoff for a touchdown against the K. F.

The most thrilling play witnessed then was a 95-yard pass from Norman, to end seniors, against the enrollment against "Big Blue Devils.

The Ball Pups, under the tutelage of "Big" Lawton, failed to hold Coach Jambler's "Bantams." The Fisher and McCoy serial attack was not sufficient to subdue them.

ALPHA PSI ALPHA

With the newly-elected officers of Beta Rho chapter, we are striving to do more in this scholastic year than we have done in past years.

The Beta Rho chapter has pledged its loyal support in the cooperation with the various organizations on the campus in the aim of creating a wholesome atmosphere and a university in which to live.

To strive to be in this scholastic year to make a better record for our college to create a wholesome atmosphere and a note of success to be the ability to cooperate with the various organizations on the campus and its loyal support in cooperating with them.

Polemarch, C. Griffin, Alpha Nu sets the example in a spirit of harmony toward the members of his organization, individuals co-ordinating their efforts and one another.

One hundred percent of our Big brothers of the Mu Phi chapter of the Omega Psi Phi fraternally visited us during our last meeting. Each gave timely information and suggestions. All of their talks centered about the following questions: Are we accomplishing the tasks which are set for us? Have we put the proper amount of interest and enthusiasm and thought into our daily routines?

One club is new in a "specific of its kind," but I am sure, quite under the title of the subtitle, "A. R. W.," of our club will sustain the height which has been attained by the Lambda chapter in our college.

Our club, with the cooperation of all officers and members of the club, plans to put over more programs this year than ever before.

With best wishes,

A. L. Walker, Club Editor,

THE CRESCENT CLUB

The name of this club is connotative of its members. The Crescent is an emblem of the light of the future.

One may distinguish a Crescent by its five-pointed "Star." Without this to the group of outstanding fraternities, if one does not the group of outstanding fraternities, if one does not.

There is more to a great university than students, than society we seek for these charactistics, as a group.

The officers are the following: Robert Willis, president; Eklund Howards, secretary; J. Michael, treasurer; G. E. Poole, treasurer, and J. Y. Wright, chairman of the model college.

With enthusiasm.

J. L. Bright, Chairman.

Withers, president; Lloyd Hargraves, secretary; R. M. Poole, treasurer, and J. T. Bright, chairman of the social committee.

One hundred per cent of our Big brothers have been elected as the following: A. G. Brown, president; J. O. Owens, vice-president; W. L. Hargraves, secretary; C. Griffin, treasurer.
