Summer School

A.T. Leads In Summer School Attendance

Sessions Here Draw From Many Sections of Country

An informal and unofficial check on the summer school enrollment reveals the fact that A. and T. College's enrollment is clearly the largest in the state and one of the largest in the South.

Miss Jeretha Huntley

Won Wide Approval

New Practical Courses Offered

The College, in an attempt to enable its pupils to keep abreast of the latest developments as well as their respective fields, is offering three new practical courses.

Mr. F. A. Mayfield of the Technical Department is offering a course in Grounds and Buildings. The purpose of this course is to give a scientific approach to the plant layout as to type of ground, location, driveways, lawn, shrubbery, location of wells or pumps, drainage, and sewers. This course has proved itself to be one of the most popular offered this season. More than fifty students are enrolled, 35 of these being principal teachers.

Mr. A. E. Mayfield is offering a course in Agricultural and Rural Education. This course is specially designed to train teachers to be able to demand respect as leaders.

The course in Photography has received wide recognition under the instruction of Dr. J. M. Maretter. The course has become an important phase in our present day education program. Progressive teachers are its need and are now preparing their programs to be filled by applications that they are ready as it is filled.

Major Lawson's Amateur Night

On Friday night, July 15, in the gymnasium, the members of the summer school gave an unsual exhibition of their talents. The gym was filled to capacity and the audience's applause showed that the program was enjoyed very much.

Mr. Lawson, the master of ceremonies, fulfilled his position like a professional Major Bowes. The program was varied—ranging from singing to typing.

The following were participants: Jack Higgins, tap dancer; Miss Johnnie Stitt, singer; Miss Arledge, singer; Mr. Baines, reader; Miss Willa Cherry, singer; Miss Lingham, reader; Mr. F. A. Mayfield, magician; Miss Omart, singer; Miss Arledge, singer; Miss Helen Webster, dancer; Mr. F. A. Mayfield, magician; Miss Omart, singer; Miss Arledge, singer; Miss Helen Webster, dancer; Mr. F. A. Some Qualities

Of A Good Teacher

If you can grade a course of 80%, the summer school students will turn to your various schools next fall as having examples for your pupils.

1. Do you walk heavy in the library?

2. Do you push in the cafeteria at meal time?

3. Do you break in the line?

Library News
Since the opening of Summer School there has been a grand rush for books. Each day there has been a steady increase in the book circulation. However, in comparison with the regular summer term, there has been a decided decrease in the circulation of magazines and recreational reading material. This factor is indicative of the amount of study being done by Summer School students.

The library has received a shipment of new books on Foods, Cafeteria management, and Philosophy. They are now reading for circulation.

The graduating class of 1938 presented a General Electric Clock to the library. Professor A. R. Brookes gave the library several copies of Consumers Cooperative. The students wished to express appreciation for the gift.

The Civil War novel, "Gone With the Wind," by Margaret Mitchell is still the most popular book of fiction this fall. "Theatre," by Somerset Maugham follows next in the demand of the readers. Two books written by Negro authors are in circulation during this term. These books are "Uncle Tom's Children," by Richard Wright and "In Their Silver Sockets True," by Richard Wright. If you have a chance to read them, you will find them interesting and enjoyable.

Enjoy the rest of your summer and be safe. Have fun, but please be responsible.

Alumni In Universities

There are several A. and T. graduates who are furthering their education in various leading colleges of the North. It is indicative of the fact that the college graduate finds that a B. S. does not end educational knowledge.

The reporter learned that there were six A. and T. Alumni at the educational knowledge. The same is true of Mrs. Josephine McCullers, a former teacher at Bayboro, N. C.; Mr. W. T. Johnson, one of our teachers at Nasworthy High School Administration and Supervision; Miss Stafford is teaching Elementary Education.

The Glymphs are here—Blanche McGlothlin, a regular student of the public school system of Indianapo, Indiana; Mr. Robert Caesar, Mt. Airy, N. C.; Miss Cornelia A. Whitfield, of North Carolina. In addition to these, we have a large number of alumni who are taking courses here at the college.

New Teachers Added

The Faculty of A. and T. was augmented by two new teachers and two former teachers.

Miss Cornelia A. Whitfield, of Tuskegee, Alabama, is teaching in the Elementary Practice School. She was graduated from Tuskegee Institute and Ohio State University. She taught two years at Tuskegee Institute and two years in the Dunbar High School, Dayton, Ohio.

Mr. Benjamin Arthur Quarles of Boston, Mass., is teaching History and Political Science. His college training was received at Tuskegee University (A.B. and the University of Wisconsin (M.A.). He has done two years' work on his Doctorate at the University of Wisconsin. He has taught at Tuskegee University. He was graduated from the Wayne County Training School, Mount Olive, N.
