Doctor Proctor Takes A & T College Helm

Summer School Enrollment Is Over 1,000

BY LORINA SUGGS

Mr. Calvin R. Stevenson, Director of Summer School, announced that the Summer School enrollment for the six week session was 1,081, Mr. Stevenson stated that the breakdown showed that there were 750 graduate and 336 undergraduate students.

There are 30 students enrolled in the In-Service Training and 26 enrolled in the Language Workshop.

The two courses were planned so that all of the colleges of North Carolina were represented, as well as many colleges throughout the United States.

He pointed out that most of the graduate students were here to review their teaching certificates for the legal jurisdiction.

The In-Service teachers are persons who are changing their certificates, rather than persons without baccalaureate degrees.

Dean Holmes On Tour Of Europe, Asia

The dean of women at A & T College is touring western Europe and Asia this summer.

She left the country on July 10 for a tour of Britain, Germany, Switzerland, Austria, the Netherlands, Belgium, and the USSR.

Army ROTC Program To Be Revitalized

The Army ROTC program at A & T College and other colleges and universities will undergo extensive revitalization during the coming school year.

Major Lawrence J. Spencer, professor of military science at the college, said that beginning with the 1960-61 school year, advanced ROTC classes will be offered at A & T.

The college had 50 students in its Army ROTC program last school year, and this year it is expected to have 100 students.

Sixty teachers from six states are participating in the A & T College Summer Institute for High School Science Teachers.

The Institute, sponsored by the National Science Foundation, began on Monday, June 13, and will continue for six weeks through July 22. It offered concentrated courses in chemistry, physics, zoology and biology.

Students from North Carolina are: Samuel H. Copeland of Rockingham, Roy L. Goodnight of Statesville, William A. Meier of Wake Forest, James M. Ammons of Raleigh, and Joseph A. Lannom of Southport.

In an interview with him, Gibbs stated that an increasing recognition of the importance of the service rendered by the college has been followed by increased appropriations by the State of North Carolina.

He said this will be his foremost objective to enhance the growing reputation of the college as a center of scientific and technological knowledge related functionally to the social sciences and humanities.

Gibbs: Bright Future Ahead For College

That is the opinion of Dr. Warmoth T. Gibbs, president emeritus of the college, who has served as teacher, dean and president over a span of 34 years. He was succeeded by Dr. Samuel DeWitt Proctor, president of Virginia Union University, Richmond, Va.

The prediction is based, not only on trends and developments he has observed in these 34 years, now and outside the A & T community, but also the two recent precedent situations, one which has tremendous bearing on the increase in effectiveness of the college's program.

For Science Teachers

Dr. Samuel Proctor, new president of A & T College as shown when he takes the helm as the fifth president of A & T College on July 1, 1960, has a twofold objective: "to enhance the growing reputation of the college as a center of scientific and technological knowledge related functionally to the social sciences and humanities."

He stated that his foremost objective will be "to enhance the growing reputation of the college as a center of scientific and technological knowledge related functionally to the social sciences and humanities."

Gibbs: Bright Future Ahead For College

At 38, Dr. Proctor becomes College's Fifth President

The new president of A & T College has sounded a challenge for a continuing increase in the emphasis at the institution on academic excellence.

Dr. Samuel DeWitt Proctor, the former president of Virginia Union University, Richmond, Va., on Friday, July 1, assumed duties as fifth president of the 68-year old institution.

"Doctor Proctor takes A & T College helm at 38, Dr. Proctor becomes College's Fifth President."

"He pointed out that most of the graduate students were here to review their teaching certificates for the legal jurisdiction."
Two Party System

The Democratic National Convention, promising at first to be a dull, cut and dry affair with Kennedy the top beneficiary, brought forth many surprises. However, Sanford left North Carolina saying that either Johnson or Kennedy would be nominated at the convention. He did not say, however, which one.

In the background, and in a very good position to observe the action and capitalize on any possible hangovers made by the state's democrats was Roberts Gavin, the Republican nominee for governor of North Carolina.

Solid South

North Carolina, along with the rest of the Southern states, is traditionally democratic. However, with the changing currents in this area of the United States clearly evident, anything can happen.

What Terry Sanford did at the Democratic Convention - a sort of betrayal of many Tar Heels - could very well be gone down in history as a very good move for the party. If democratic voters in Tar Heels have become so influenced by Sanford's shunning of Johnson, who comes from the South, it is very possible that these votes would be shifted to Gavin's coffers.

The result could be the innovation of a two-party system in North Carolina.

If this same feeling is strong enough in other areas of the South, the possible positions for the long-sentence Republicans below the Mason-Dixon line will at last come to the forefront.

Students Participate In Summer Program

By Myra Spencer

Under the direction of Dr. G. C. and G. W. Young, the students were the Undergraduate Research Participants selected and supervised by the National Science Foundation.

The object of their work is to obtain greater understanding of the processes of life and to observe the conditions under which the processes occur. The students are as follows: Misses J. W. and L. J. Wood, majoring in Chemistry; Misses Mary Bowen, of50, majoring in Biology; and Mrs. J. L. Thompson, majoring in Education.

In the second year of the program, the students are working on problems in various phases of the research field, including the study of enzymes, the metabolism of carbohydrates, the synthesis of amino acids, and the development of new methods for the identification of proteins.

Team Approach Spurs Home Ec. Research

By MYRA SPENCER

At the end of the fourth year of a five-year grant, comes to a close the ttist program, sponsored by the National Institute of Home Economics and the National Science Foundation.

The program has been under the supervision of Dr. G. C. and G. W. Young, of the University of North Carolina at Chapel Hill, and is being carried out in various locations throughout the United States.

The research team is made up of Drs. G. C. and G. W. Young, of the University of North Carolina at Chapel Hill, and is being carried out in various locations throughout the United States.

Hairston To Head N. C. Pharmacists

A Winston-salem druggist will assume the position of chairman of the State Board of Pharmacy in the near future.

Rufus Hairston, a native of Guilford County, has been appointed to fill the vacancy caused by the retirement of Dr. T. A. Taylor, who has served as chairman for the past ten years.

Dr. Taylor, a pharmacist since 1940, has been active in the pharmacy profession for many years, and has served on various committees and boards.

He is widely traveled, both in the United States and abroad, and is well known for his contributions to the field of pharmacy.

In addition to his professional activities, Dr. Taylor has been an active member of various organizations and has served on many committees.

He is the recipient of numerous awards and honors, and has been recognized for his contributions to the field of pharmacy.

Proctor Takes Helm As A&T College Prexy

(Continued from page 1)

An excellent speaker, Dr. Proctor, has been a top platform man. Last year, he was an important part of the team that traveled both in Europe, the Near East, India and was called to many countries in the Americas.

During the coming school year he will deliver speeches to be heard by many of the world's leaders, both in business and government.

Among the visiting lecturers were Mr. C. M. McPherson, Dr. W. J. Woodard, and Dr. A. V. Allen, all of State College, Raleigh; Mr. W. L. Kennedy, chairman of the Department of Agriculture, and Mr. E. W. McAlpin, chairman of the Department of Economics.

**The Literary Scene**

**Late Frost: Witty, Wise & Young**

(NEW YORK TIMES, July 4, 1961)

"Most of my ideas occur in verse," Robert Frost once said. "But I believe the idea is there in life itself. For example, I wrote 'Mending Wall' in the morning and in that talk I heard I might never have used because I was too lazy to write more."

The poet, who has written more than 200 books, said that his ideas are often inspired by things he sees around him. "I've been writing for so long, it's as if I were writing with my hands," he said.

"You can learn a lot by watching nature and by observing people," he added. "And poetry is more than just words on a page. It's a way of expressing ideas and feelings, and it can help us understand ourselves and the world around us."

Dreams Of Love

**Sweet dreams of love, why haunt me so?**

With things I shouldn't love,

For so that needs you too,

Is it if it's now,

That your limbs you're false to?

Be that your limbs you're false to?

And your limbs you're false to?

Why make me long for her caress

Thou time has been well spent.

Of all her many charms?

Why make me long for her caress

Thou time has been well spent.

Of all her many charms?

Why make me long for her caress

Thou time has been well spent.

Of all her many charms?

Why make me long for her caress

Thou time has been well spent.
Proctor Is Speaker In Lecture Series

Following the general theme, "Implications for Changing and Improving the Curricula and Instruction of Our Schools in Keeping with Current World Changes", A&T has presented some of the most outstanding lecturers of our time in the fields of Science and Education and General Studies during the college's summer school lecture series. The participating lecturers and their chosen topics for the current series are as follows:

Dr. Samuel D. Proctor, the newly elected President of A&T and Secretary the President of Virginia Union University, "Provisionalism and Individualism in Education.

Dr. James Myers, formerly a professor at Western Reserve University and presently professor of History at A&T, "International Relations, and the Vietnam War."

Dr. W. J. Long, presently Director of Student Teaching at A&T, "Student Teaching in the Classroom and the Community."

Dr. N. B. Jackson, formerly taught at Connecticut College, "The Importance of Science to the Modern World."

Prof. I. H. Brown, Professor of Psychology at A&T, "Intellectual and Spiritual Values in the Changing World."

Dr. Charles L. Hayes, associated with the Guidance and Testing Center at A&T, in the capacity of Secretary of the Teacher's College, "The Support of the Teachers of History."

Dr. R. Bode, Professor of African Studies at A&T, "The African Experience in the Entering Freshman."

Dr. J. R. A. Galloway, Professor of Psychology at A&T, "Adult Education and Guidance in the Entering Freshman."

Dr. A. R. Brown, Professor of Psychology at A&T, "TheBeatnik Generation and the Challenge to Education."

Dr. Marie Rivers was the coordinator of the lecture series.

Horne To Work On Ph. D At Penn State

V. Anthony Horne, Jr., Assistant Professor of History at A&T College, plans to do further study toward the Ph.D. Degree at Pennsylvania State University. Horne did his undergraduate work at New York University and Tougaloo Southern Christian College, Tougaloo, Mississippi. He received his B.A. degree from Tougaloo in 1956.

IN SUMMER SCHOOL

Graduates Outnumber Regular Students

By GLORIA BROWN

There are approximately 900 graduate students currently enrolled at A&T College this summer according to Dr. F. A. Williams, Dean of the graduate school. Most of these graduates come from among the ranks of the 16,000 elementary and secondary school teachers in North Carolina.

Among the faculty members recently discovered that fifty percent of the graduates fall into the middle group of their underclassmen elected while twenty three per cent were among the top rank students, and the remaining twenty three per cent were among the lowest rank in their respective classes.

In the area of employment, fifty six per cent are engaged in teaching of the elementary and secondary schools. This group includes thirty one students; twenty per cent are secondary teachers, with thirty one students; thirty one percent the remaining four per cent remain unemployed while forty six of the graduates have been active in community activities. Some of our graduates upon completion of their Masters Degree plan to work in some area of social work.

There are also twenty four per cent who have taught in the School of Agriculture and twenty three per cent who are students of the School of Education.

Scholarships Awarded Six A&T Students

Sears Roebuck Foundation scholarships have been awarded to six outstanding students at A&T College.

The names of the winners are: Mrs. Virginia M. Smith, Raleigh; Mr. B. E. O'Brien, Alamance High School; Mr. W. L. Shaver, North Carolina State University; Mr. J. A. McCaffery, College High School; Mr. W. L. J. Miller, Greensboro and Mr. W. T. Cooper, Cleveland.

A&T Placement Officer

James A. Herbert, former assistant dean of men at A&T College has been very successful in placing students as the open season begins, according to Dr. F. A. Williams, Dean of the graduate school.

Logan To Lecture At 2 India Schools

A professor of history at A&T College has accepted an invitation to lecture at two Indian universities in India.

Dr. Franko Logan has been awarded a Fulbright award by the U. S. State Department, to lecture on American history at the University of Allahabad, both in India.

The University of Allahabad will house Logan's lectures, and he will then travel to various locations where he will lecture at various institutions. Logan has accepted this opportunity with great enthusiasm, and is looking forward to the challenge of teaching American history to a new audience.

Extracting Teeth Not Enough, Dentists Told

Delegates attending the 20th annual meeting of the North Carolina Dental Society at A&T College were told that extracting and reconstructing teeth is but one of the many responsibilities they have in their communities.

Dr. J. J. Wilson, High Point, retiring president of the North Carolina Dental Society, said this as he delivered the keynote address at the opening business session, Wednesday afternoon, June 16.

"The dental profession," he said, "Carries the responsibility of public interest and public health, because we exist as a profession, agree to apply our knowledge and skills for the common good and for the benefit of the community in which we live."

He urged his fellow practitioners to use the present opportunity in developing a closer community awareness of the responsibilities of dentists. He said that dentists not only have a responsibility to use the ballot, but also to encourage others to vote in the elections.

Dr. Wilson warned that members of the dental profession must also consider their individual professional interests. He spoke especially on the need for dentists to be aware of the importance of good citizenship. He said that dentists not only have a responsibility to use the ballot, but also to encourage others to vote in the elections.

Horne to Work on Ph.D at Penn State

V. Anthony Horne, Jr., Assistant Professor of History at A&T College, plans to further study toward the Ph.D. Degree at Penn State University in Pennsylvania. Horne did his undergraduate work at New York University and Tougaloo Southern Christian College, Tougaloo, Mississippi. He received his B.A. degree from Tougaloo in 1956.
Mr. and Mrs. Paul Swann admire one of their gifts following their marriage ceremony yesterday afternoon. The bride is the former Miss Catherine Bruner of Greensboro and the groom is Paul A. Swann, a rising senior, who is now attending the Canadian Professional Football League.

**A&T Staff Worker Goes To Nigeria**

A poultry specialist with the A&T College Extension Service is now serving as secretary for the Government of Nigeria in West Africa.

Charles J. Davis was recently granted leave to accept a position with the U.S. Government Administration to handle the Nigerian assignment. He has been employed by the college since December 1960.

Davis, a native of Greensboro, Major of the West Virginia High School, holds the master of science degree from Tuskegee Institute, Alabama and is completing his studies at Iowa State College. He has held teaching positions at North Carolina College, the Maryland State College and Tuskegee Institute.

He is a member of the Sigma Phi Miss College Foster of Glen Cove, L.I.N.Y.

**Charlotte Youth Heads 4-H Club Organization**

Eddie Hoover, 15, of near Charlotte, who is a rising junior and honor student at the Plato Price High School, was the best ball handler of the squad. This boy is one of the key men of the five lettermen to deaden the Aggie assault. This boy is the best ball handler of the squad.

North Carolina College, holds the master of agriculture degree. He is a native of Charlotte and a rising senior and honor student at the Plato Price High School. He is a member of the Sigma Phi Miss College Foster of Glen Cove, L.I.N.Y.
