Alumni and Friends Throng Campus

College to Celebrate Sixty-Ninth Birthday

Students, faculty, and alumni will celebrate this college's 69th year at the annual Founders' Day exercises Wednesday, November 2.

The observance will take place in the Charles Moore Gymnasium beginning at 11 a.m. Dr. Walter N. Ridley, president of Elizabeth City State Teachers College will be the guest speaker.

He served as the president of Teachers College in 1938. Prior to this time, he had served as an instructor at the Institute in Lawrenceville, Va., and Virginia State College in Petersburg, Va.

The speaker is a graduate of Howard University and the University of Virginia.

Founders' Day, formerly the James Edward Dudley Day, has been observed here since November 1925, on or near the birthday of the second president of A&T College.

CELEBRATION EXPANDED

In recent years, although the college's activities are scheduled to occur near the date of Dudley's birth, attention has been extended to other presidents, the A&T, and the alumni of the college.

The program will begin at 10 a.m., a formal court review of the Cadets on the front campus lawn beginning at 9:40 a.m.

THE BIG DAY

A total of fifteen Army-A Force cadets are scheduled to receive honors of outstanding performance at the Annual Founders' Day Ceremony.

The designated as "Distinguished Military Graduates" are Captain Loyd C. Holley, Leonard James, Don Harkin, Harold Badin, Citizen Landis, Walter Lee Berry, James Bland, Paul Brown, Eddie Thomas Royster, Kemp F. Taylor, Joseph Grove Martin, and Walter Johnson, Jr.

Students Test Voting Trends

By LAWRENCE BROWN

Education 263 and 265 which deal with the teaching of the Social Studies and English in the secondary schools, under the direction of Dr. Marie Rivers, undertake a project which concerned the forthcoming election. This project was launched with a presidential and gubernatorial survey of voting trends among faculty and students at A&T College.

FOR PRESIDENT

Kennedy — Democrat

Masou — Republican

FOR VICE PRESIDENT

Johnson — Democrat

Lodge — Republican

FOR GOVERNOR

Sanford — Democrat

Garvin — Republican

Some of the statements that the students gave were quite astounding.

"I am voting the Democratic ticket because the Republicans have not done enough for the young people such as Kennedy."

"Who are the candidates?"

"War is the election to take place."

"I don't care who wins."

"War is the better since he was wise in peace."

The purpose of this poll was to find out how our students and faculty felt about November's election. It is in consequence of opinion among our class members that the survey proved fairly revealing as well as interesting. We feel that our students need to be more informed as to the functioning of our government, it is a through the extensive reading of newspapers, radio news casts."

The basic bibliography is as follows:

The actual celebration will get underway tonight at 7:30 in the gym as alumni and football fans are typical of the Homecoming Parade.

The mammoth parade which will start at 10:30 a.m. will be one of the activities to hit a high spot in tomorrow's activities.

"The Pride of the Aggies" will be the A&T College Band, and the "Bill" band will be seven high school bands from various sections of the state. The participation of the bands will be seen in tomorrow's parade will be Stephens High School, Greensboro; East High School, Charlotte; County High School, Southport; R. J. Reynolds High School, Winston-Salem; Trinity High School, Greensboro; and Virginia will be the 1st L. C. Norcom High School of Newport, Va.

The actual celebration will get underway tonight at 7:30 in the gym when a pep rally will get stag. The scene will later be shifted to the A&T College, beginning at 9:30 p.m.

Faculty Forum Will Discuss Library Uses

James A. Bryant, head librarian, is chairman of the November group.

Meeting of this group are Mrs. Thomas P. Tuckett, Mrs. Gladys W. Barnett, Mrs. Elizabeth S. Hudgens, and Mr. William Browder, head of the A&T College.

Library staff will be Dr. W. N. Braxton, Jr., Romance languages; Dr. Howard Brown, Romance languages; Mr. L. Armstrong, Graduate School; Mr. J. E. T. Terrell, psychology; Sgt. William C. Davis, Air Force ROTC, Mr. H. E. Smith, Psychology; Mrs. W. S. T. Van Fleet, English; Mrs. W. S. T. Van Fleet, English; Mrs. W. S. T. Van Fleet, English; Mrs. W. S. T. Van Fleet, English.

A Backward Glance; A Forward Look

If an alumnus or homeowner were going to view this college in retrospect, he would find it grey and shabby. The rapidity with which it has expanded in a few years has been overwhelming.

It is important to keep in mind that the college is now and has been located on highway 70 East, about nine blocks from the heart of Greensboro would keep a visitor from getting lost. But the same astounded individual would soon realize that the Aggies have made great strides over the en-

Dining Hall Enters National Contest

EUGENE JOHNSTON, JR.

Mrs. Ella K. Vereen, head di- nitely announced that the A&T College dining halls have been invited to participate in the thirteenth annual food service contest. This contest is sponsored by Insti- tutional Magazine which is both na- tionally and internationally known.

HIGH HONOR

Not only is this an honor for A&T Colleges, but it is the first time a Negro institution has been invited to take part, according to Mrs. Vereen. The cafeteria personal considers this a huge honor to be recognized in a contest of this type.

Although the dining halls are not as large as those at other application have been sent in. Af- ter a few have been completed filled, a local representative from the food contest will visit the cafeteria to serve as judge.

CONTENDERS

Not only will the judging be done on food preparation but on all aspects of the cafeteria which will make the contest as rigid as possible. Both things to be taken into con- sideration will be the facilities, number of employees, food con- sumption hours, menus, and the over- all ratings of the whole program.

NEW CAFETERIA

A&T College was invited to partic- ipate as a result of the new dining hall which went into operation at the beginning of the school year. With the opening of this new facil- ity, many things were improved by way of food service at A&T. Some of these things include better and faster service and improved food. All of these improvements add to the competition which the dining hall staff will encounter from now until January when the contest will end.

DIETITIAN SPEAKS

When Mrs. Vereen was asked to express her personal opinion, she said, "It is an honor to participate in a contest of this type especially one which is national and interna- tionally known. Every year, our aim is to improve the food service at the college and since we have been invited to participate, this will mean that our food service will have to be of the highest caliber."

Cooper Hall Committees Formulated

The residents of Cooper Hall are gradually forming the nucleus of their program for a more wholesome environment in which to live. In a previous article, the Presi- dent appealed to the residents to volunteer for various committees. As a result the residents have composed efforts and organized the fol- lowing committees: Social— to draw the college staff, students, and the general public closer to the college. Also a social club necessary for a wellrounded college student; Business— to organize and encourage a spirit- ual climate within the college, as well as participation in campus events; Cultural Improvement— to enrich the cultural background of the residents; Educational— to en- courage sincere and zealous endeavor- es among the students in terms of scholastic records; Policy and Standards will formula- te programs for the dorm and will include the residents toward a better understand- ing of community being. Judi- catory will have the primary object- ive of taking disciplinary action against those residents who do not conform to the standards of the dorm.

For the fresh softness in Salem's smoke in the essence of springtime. And Salem's special High Purity paper "air-softens" every puff. You'll be delighted with Salem's springtime freshness - and rich tobacco taste. Smoke refreshed...smoke Salem!
African Studies

This is another in a series of current event articles to appear in conjunction with the African Studies Program under the chairmanship of Dr. Sylvester M. Broderick.

It is not at all strange to those who have been following rather closely, and more often than not, the political events in South Africa, especially the results of the recent referendum which took place on October 4, 1960, to determine the future form of Government.

Dr. Verwoerd’s Government has certainly created much discussion throughout the Africanikron, which shows clearly that the Afrikaners are a people with a spirit of independence and national pride, but a well-disciplined, discrimination organized to fight rear guard actions, against two enemies, namely: first, freedom of speech and action; and secondly, a recognition of the fact that the hour has not passed when white men can claim an influence over races of other countries.

BAD ROUGH TIME

The Afrikaners in South Africa are the descendants of the Dutch, who, in the year 1651, landed at Cape-town about three hundred years ago, to cultivate land into a city, to establish their claim to the area, and to develop something, and so created formal human form of Government — these were the conditions which have led to their PROSPEROUS WELL

During the period of their occupation, the Afrikaners have shown a great deal of development in the growth and development of a new civilization in the midst of a very old way. At a minority group, the settlers have adopted a policy which they otherwise respect the freedom and the right of a majority group, and the independent and right-consciousness of the Afrikaners. In the process of accomplishing its aim, the Afrikaner is not one with the fact that the “Wind of Change” is indeed blowing in South Africa, is a question that time alone can answer.

It may be considered strange, and perhaps control, that while the Afrikaners are determined to establish a democratic republic, the English speaking people in South Afri­ca are strong in numbers, and did not see their way clear to support the referendum on October 4. That fact, I am sure suggests vividly this question, “What sort of destiny has the Afrikaner created for itself?” The recent event in Sharpeville, the “Village of Tragedy,” has created the civilized world.

LOOK INTO THE PAST

One by one the colonial territories of South Africa are gaining their independence. The majority group in South Africa, who are so many, on the contrary, it is whether it is gaining its freedom and the right to live. It is a fact that if this nation is, must have this realization, that South Africa is the result of a democratic system, as is the republic. In closing this article, I should like to borrow a phrase from the Times, an independent newspaper in Great Britain, “South Africa is today, the most studied problem, the most national ends with closed minds who now tyrannize against freedom and the right of all who seek it. Its influence on humanity and the world, in its wake, is towards the future. Their counsel and will, must not prove that the Afrikaner is not a man, but a European, or the other, either by peaceful methods or by violence, into a completely closed minds and newly formed system of state, to study and new, and you are your image sooner than your shoes.

Organizations Prepare For Homecoming

BY ERNEST JOHNSTON, JR.

An organization goes into the second month of activity, many improvements will be noted. This is because most of us are putting across to the college and the community plans for the remainder of the year. As plans are made for things as dances and trips, it becomes apparent why the main item on many of their agendas is "progress.

Alpha Kappa Alpha

Members, undergraduate and graduate, of the Alpha Kappa Alpha Sorority presented to Margaret Graduate, of the Alpha Kappa Alpha, a red and white flag together in the Aggie community. Not only are they presenting their colors to the college, but they are also inviting to all freshmen who were interested in membership. The Alpha Kappa Alpha is looking forward to a new year. Ernest Gainer is serving as president of this organization. Kaye Smith will be vice president. Other members who would like to join the Alpha Kappa Alpha are Eloise Moore, Elsine Thomas, and Daphne Williams. They are awaiting new members who are interested in joining.

Kappa Alpha Psi

Creasing over to Kappas, the meeting was an outstanding meeting because the color theme was red and white together in the Aggie community. Not only will feature Mary Page of Greensboro as Miss Kappa Alpha Psi and a nursing student. She is a graduate of the Greensboro College and is looking forward to a new year. The Kappas are looking forward to new members who are interested in joining.

Marching Band

The A&T College Marching Band considered as one of the best throughout the South will be raised at the top-notch marching unit to be used in both the homecoming parade and the halftime show. The band is under the baton of Mr. Wallace Ezzell, warned the brothers that the band will be ready for action.}

MAJORNETTES GALORE

Hailing the drum major choices will be a young lady from Winston- Salem, N. C., who will be honored by a chorus of majornettes and cast members. The majornettes are: Carolynn Cassell, Shirley Cherry, Rosa Johnson, Mary Jo Thomas, and Joyce Coggin, and Joyce Potter. The Aggie band, who will also see action are Karen Gray, Clarice Gray, and Barbara Winchester.

TOP SHOWS

Already the band has made its debut both home and away. At each home and away game the band shows its civic pride by bringing a group of its best players to a trip to the parade. The show was entitled "The Rocky Road" and was a first time for the band. The second game was filled with notes of the big top and circus music to go with it.16 Aggie bandasaurus, on their return from a trip to Maryland State, went through the Aggie band. Band members carried the show to circuit as the return.

Returning home last weekend, the band arrived with the theme of "The Wonderful World of Sports." They are looking forward to another show.

HIT TUNES TO BE FEATURED

"The record that hit the top this spring was 'Mr. Bojangles.' They will be in the line up the band will go through the show. The band has another record which is "Mack the Knife," will be one of the songs which will be a hit with the fans.

PRACTICAL PRACTICE

Where the Aggie Band enters the football field each game is to be played the band. Bandaasaurus will be bandasaurus in the line up the band will go through the show. The band has another record which is "Mack the Knife," will be one of the songs which will be a hit with the fans.

Welcome, Aggies

GREETINGS:

It is an honor for me to welcome the "Aggie" family back home, especially this year, my first as your President. I am sure that you join me in extending to our Morgan College guests an old-fashioned Tarheel welcome. We can think of no other institution that we would rather have as guests on this very special day.

Let every true "Aggie" pause somewhere on the campus and privately wish for our College smooth sailing, eager students, dedicated faculty and devoted alumni for the challenge of the sixties and beyond.

Your team in administration has staked off high ground for A&T, dreaming and planning for a continuous ascent in the spiral of educational supremacy. In this we are convinced that we have your support.

May your visit be a complete joy and may you return to your several tasks "to spread this trophy from Dare to Cherokee."

Sincerely yours,

SAMUEL D. PROCTOR

A Queen Steps Down

The unique beauty of trees laden with sleet
The fragrant stillness of an early morning sunrise,
After the first winter storm;
A gift of the Gods in a near Utopian city;
The champs Elysees at dawn, the Effel Tower
The multi-colored earth seen from 20,000 feet;
Kaffee Cuppiccno at Coffee 'n Confusion;
Mme. Brigitte en deshabille;
A falling star seen from the hills of Rome;
The silky softness of a white cashmere sweater;
Resolving an F minor 11;
A B-47 gliding above a desert of clouds;
The gardenia, with its plush-white modesty;
Beneath a waning moon was haunted by a woman wailing for her
game . . . . The young man who tried to have three girls at one time: Ben-
Aggies must be here from every direction . . . . That freshman student
it seems like old times . . . from the looks of license plates on cars,
day . . . . When it used to rain every homecoming.

Catherine Hinson to Direct “Which Way To Boston”

This fall, Catherine Hinson, a junior of Greensboro, will present
a student directed play in one act, “Which Is The Way To Boston” by
Harold Perrin. Miss Hinson is supervised by Mr. William Robin-
son, assistant director of dramatics and a member of the English
Department.
The cast is in the process of pre-
paring for a successful production.

KAMPUS BEAT

TRAVELING AGGIES: With all of the familiar scenes around the campus, it
seems like old times . . . . from the looks of license plates on cars, Aggies must be here from every direction . . . . That freshman student
who never fails to enter his SOCC uniform whenever he gone home must
clothing: . . . Margaret Tynes, former Aggie, was warmly welcomed by students on her return from home at A.A.C.

WEDDING BELL: When we used to have pop radio behind every gate . . .
The young man who tried to have three girls at one time: dinner, A.A.C., and me in the city . . . The time we used to have bologna every
day . . . . When it used to rain every homecoming .

DOESN'T HAPPEN YET: A small box on North Campus . . . Some type of initiation system for freshman students.

WANDERING ENEE: One day, a bunny of mine told me of a hot sale
that was being held on campus. I, being a gentleman of investment, im-
mediately purchased the bee-hive. The place that was attracting campus-wide interest was the college bookstore. When I entered, the small space that students had to elbow their way through in order to find books, was like Macy’s Department Store on Christmas eve. It then began to rain; if I would have been better off wearing skin guards and a breast protector. This pushing and fighting didn’t stop me from performing my chores. Finally, my mission had been accomplished and I emerged from the book store with a hand full of books which cost only a pennys sugar.

I CAN DO WITHOUT: Students who constantly cut lines . . . . Long loud
laugher during Friday or Saturday night services . . . . This dull pencil I’m writing with . . . People who never pay both money that they have . . . . The co food in the cafeteria . . . . Young ladies who buy all their clothes the color that represents their sexuality . . . . Homecoming is if rains.

A REVIEW

By DAVID JOHNSON, JR.

"Gifts from the Sea" was recently
discussed by members of the
Farthings Club.

Anne Morrow Lindbergh, a wife
and mother of five, a poet, and a
sensitive person, has offered to
readers a skillful and thoughtful
took. "Gift From the Sea"

She began writing this little book
during a short vacation that was spent mostly by herself in a cottage
on a tropical island. Mrs. Lindbergh, while vacationing, gathered a num-
er of absorbing sea shells which suggested to her, of a metaphorical
life, things that philosophers for tranquility have said. These shells
that were cast on the beaches are not sought for, not dredged up,
but sought with much faith, as the

The Search For Truth

BY CHARLES W. MYRICK, Associate Professor of English

The college-trained person today possesses more accumulated skill and experience in predicting more and better gadgets than the world has ever witnessed. Consequently, he feels that he has reached the peak of his personal scientific attitude. Nevertheless, success in this material sense alone is not a guarantee of success in the complicated patterns of daily living.

The facts and theories acquired through college education may be categorized as necessary tools in our current thinking, but the tools are no better than the minds that guide their utilization. Many minds are prone to doubt the ability which resides therein, and this ability may go untested because the personalities of those minds often fail to apply themselves to the varied facets of human behavior.

In the act of developing oneself, one must realize that "knowledge of facts" is not an adequate "ethical ideal." To this end, individuals are urged to realize their potentialities, one by one, and conscientiously, even within the straitjackets of the behaviorist, the humanist, the existentialist.

Beyond the confines of the campus, the student must let his personal convictions be the beacons for the belief that thinking through situations is a potentiality which resides in each individual. One should compare his viewpoints with those of others, clarify his points of view under varying degrees of exactness, and in the process, he may find himself better educated. The author's intent, create assumptions that will direct his or her conduct, and suggest hypotheses that are capable of projecting himself into as many different intellectual situations as possible. By this projection, one may find himself better conditioned to meet some of the unanticipated complexities of human behavior.

Army ROTC Grads Excel In Service Assignments

Recent Army ROTC graduates of the class of 1960 are making good, carrying the banner of A&T College in their respective Army Careers.

Second Lieutenant George Waters, recently completed the officer's basic course at the Army Medical Center, Fort Sam Houston, Texas, as an honor student. Out of one hundred-twenty members of his class, Lieutenant Waters placed twenty-sixth. In recognition of his achievements, Lieutenant Waters was offered a commission in the regular Army by the commandant of his school.

The college-trained person today possesses more accumulated skill and experience in predicting more and better gadgets than the world has ever witnessed. Consequently, he feels that he has reached the peak of his personal scientific attitude. Nevertheless, success in this material sense alone is not a guarantee of success in the complicated patterns of daily living.

The facts and theories acquired through college education may be categorized as necessary tools in our current thinking, but the tools are no better than the minds that guide their utilization. Many minds are prone to doubt the ability which resides therein, and this ability may go untested because the personalities of those minds often fail to apply themselves to the varied facets of human behavior.

In the act of developing oneself, one must realize that "knowledge of facts" is not an adequate "ethical ideal." To this end, individuals are urged to realize their potentialities, one by one, and conscientiously, even within the straitjackets of the behaviorist, the humanist, the existentialist.

Beyond the confines of the campus, the student must let his personal convictions be the beacons for the belief that thinking through situations is a potentiality which resides in each individual. One should compare his viewpoints with those of others, clarify his points of view under varying degrees of exactness, and in the process, he may find himself better educated. The author's intent, create assumptions that will direct his or her conduct, and suggest hypotheses that are capable of projecting himself into as many different intellectual situations as possible. By this projection, one may find himself better conditioned to meet some of the unanticipated complexities of human behavior.

Naval Officers To Visit Here November 1

Representatives from the Raleigh Office of Naval Officer Programs and the Naval Air Reserve Training Unit, Norfolk, Virginia, will visit A&T College, for the purpose of explaining the Navy's commissioned officer program to interested individuals. The team will be located in the Recreation Room, Corner Hall, November 1, 1960 from 9 A.M. to 5 P.M.

Applicants are available for assignment in Aviation, General Line, and several specialty categories. Most of the programs are open for applications only to college seniors; however, undergraduates who have completed 60 semester hours of accredited college work may apply for appointment as a Naval Aviation Cadet.

Any student who meets the required standards and is within 6 months of graduation may take the entrance examination. The entrance examination is available at the Visiting Naval Representatives' office. Those who pass the qualification tests or who make applications within 60 days will subsequently change their mind are not obligated to accept their assignments.

All students are urged and welcome to stop by and talk with the team about their plans for military service.

AFROTC Cadets Honored

Three cadets attached to the Air Force ROTC Detachment, at A&T College, were recently cited as Distinguished Apprentices and received official commendations from the Air Force Base in South Carolina, for their outstanding efforts. All are young men who are major players on the football team of the college. Their yearly projects included the following:

- Melone James of Smithville, Texas, who is working on a degree in psychology.
- Eugene Cambridge of New Bern, who is majoring in business administration.
- John Boney of Greensboro and Roger K. Horace of North Carolina, who is majoring in engineering.

These cadets, along with several others, received commendations from the Air Force for their outstanding efforts in field training exercises.

Dr. Jordon Kurland Speaks For U.N. Day

The International Relations Club, under the leadership of Dr. Jordon Kurland, held three successful debates, the first of which was on the subject of the United Nations. The theme of the debate was "The United Nations: A Force For Peace or A Force For War?" The debate was attended by over 100 interested students and faculty members.

The second debate was on the topic of "The Future of the World after the United Nations." This debate was attended by over 200 students and faculty members.

The third and final debate was on the topic of "The Role of the United Nations in World Affairs." This debate was attended by over 300 students and faculty members.

Dr. Jordon Kurland, professor of history, Women's College, University of North Carolina, was the principal speaker in observance of United Nations Day.

A&T and N.C.C. Agree On Code Of Ethics

Officials and students from A&T and North Carolina Colleges last week approved a voluntary code of ethics governing future athletic contacts between the two colleges.

Representatives from North Carolina College at Durham and A&T College adopted a comprehensive program dealing with behavior of coaches, players, students, and other spectators. The new code becomes effective when the two schools meet in Durham in their traditional Thanksgiving football classic. The game is to be played in Durham City Stadium beginning at 11:30 on November 24.

The group, which emphasized the voluntary aspects of the new agreement, went on record in favor of a permanent committee devoted to using sanctions against sub­ stance abuse, cheating, and other acts considered unethical by the new code.

Dean A. L. Turner of North Caro­ lina College Law School acted as chairman, with Dr. C. F. Rankin, A&T Dean of Student Life, as his co-chairman. According to Dean Turner and Dean Rankin, the primary purpose of the code is "to distinguish between ethical and approved practices and those which are harmful and detrimental."

Other provisions cover the pre-game and post-game meetings between ethics and approval practices, coaches, players, students and other spectators.

Dr. R. E. Warren AFB, Wyoming. Suggs entered the Air Force in 1960 at the age of 21. He was reassigned to Detachment 605 of the Air Force Base in South Carolina, after serving overseas in Japan and Texas air force bases.

Other provisions cover the pre­ game and post-game meetings between players and coaches, players, students and other spectators.

New Personal Added To AFROTC Staff

Major Fred Allen, professor of Air Science, welcomes new additions, Sgt. James Buge and Airman First Class, Joe Calton to Detachment 605 of the Air Force ROTC.
Hawks Hold Aggies 14-14

A safety late in the fourth period by Maryland State, biggest threat to dethrone A&T at CIAA grid, enabled the Hawks to tie the Aggies 14-14 in one of the top conference games of the season. Both teams entered the game, with Maryland's homecoming, with identical conference records of 1-0. The tie broke A&T's win streak of 16 consecutive conference victories. The Aggies had not lost a conference game since Morgan State beat them 16-15 in 1957. Since that time A&T has dominated the CIAA conference, having posted two straight perfect records in league play in 1958 and 1959. The first period was almost over before the first score of the game came. It appeared that the Aggies had bailed the first drive sustained by the Hawks when on a fourth down play and some 20 yards to go for a first down. Maryland quarterback Harry Brown passed 49 yards to halfback Danny Miller for a touchdown. First period ended with the Hawks ahead 6-0. Four minutes in the second period with Maryland in possession of the ball, the Hawks took over. Freshmen tackle Carl Stanford stole the ball from the Hawk All-CIAA candidate Charles Hollings and raced 16 yards for a touch down before the fans could figure out what happened. Cambridge's placement kick put A&T in front 8-6. Almost three minutes before halftime the Aggies scored again when Robert Fetlicher pounced on a fumble in the end zone. Cambridge again split the uprights to give the Aggies a 14-6 lead. The Aggies had the ball back in the last quarter as Brown slipped away from a pair of defenders and then put a 21-yard touchdown aerial to receive halfback Robert Finga. On the conversion attempt, Maryland lined up as if to attempt a placement kick. But when the ball was snapped Richard Van No orded it, put the ball and threw a pass that was batted down by an Aggie defender, leaving A&T ahead 14-12. With six minutes, twenty seconds left in the game Maryland's running back Charlie Holmes and A&T's freshman quarterback Cornell Gordon in the backfield for a safety which he faked back to attempt to pass. The Aggies gained 150 yards not rushing during first half, but the Hawk's defense stiffened in the second half and was a key factor in the final score. The game was played, as far below par for the usual effective aerial attack. Fullback Bernard Anderson sparked the Aggie ground attack picking up 47 yards in 15 carries for an average of 3.1 yards per carry.

Know the answer?

What's an eight-letter word which reminds you of good taste, sparkle, lift? The answer’s easy—Coca-Cola of course. No puzzle about why it's so popular... no other sparkling drink gives you so much good taste, so much satisfaction. Yes, when you're looking for refreshment, the answer's always Coca-Cola.

Students To Engage In Intramural Sports

The Student Government, under the leadership of President Walter
Johnson, asked frankly upon an appropriation request submitted by
the committee on Intramurals at a recent meeting.

James F. Ellis and Georgia Lane,
student committee workers, submitted
the proposal to the Student Government. Included in the pros-
posal was a request for appropriations in excess of six hundred dol-
ars. The funds would be used for the purchase of equipment for or-
ganized intramural sports on cam-
pus.

Walter B. Johnson, president of the student government, cited the
need for such a cause stating that the masses have no outlet for lar-
time activities. He also stated that the recreational facilities on cam-
pus are lacking in some cases. This program would provide an out-
let for the present condition. At the
same time, it would establish the
foundation for a future intermural and recreational activities program.

Students are presently active par-
ticipants in some sports outside the
classroom that are under the auspices of the intercollegiate athletic pro-
gram. Organized football and women's

Trophies will be awarded to winners in

Tareyton sure has the taste!

Intramural Sports

gun on the tennis courts. Swim-
ning, ping pong, badminton, and
the games are being played in the
Gymnasium on Wednesday evenings
and Saturday mornings.

Trophies will be given to the
champion tennis, basketball, and
football teams in men's competition.

The women's championship team
will be awarded trophies in soccer,
hockey, and basketball. These troph-
ies will be inscribed with the names of the winners and displayed in
the Moore gym trophy case
yearly.

Individuals or teams may secure equipment from a supply room set
aside for handling intramural equipment. The student who secures the
equipment will be required to
leave either his meal book or athle-
tics book as a sort of collateral until it is returned. Any student who
abuses the equipment will be pen-
alized. Unless the equipment is re-
paired or restored, the student may
be dismissed from school.

For maximum effectiveness stu-
dents must have their full co-opera-
tion and assistance to the new pro-
gram. Any interested captains, managers, or players should be care-
ful to watch for bulletins. The
REGISTRY will be carrying inform-
ration concerning points of regist-
ration for the various athletic events.
