Sixty Scholars Participate In Confab

Captivating various curios from African nations and the worlds, sixty scholars participating in the North Carolina State College's African Agricultural Leaders Program are expected to begin their stay at the new Greensboro-High Point Airport on March 4.

The group is visiting the United States on the first of a two-year itinerary under the auspices of the International Cooperation Administration. They will spend a year studying American cultures before returning to their respective nations to help design and implement the programs.

Rhododendron and Azalea blossoms are expected to be in full bloom in Greensboro when the students arrive. It is one of many additional attractions for the visitors who will stay in the community.

Students are expected to take a variety of courses, including business administration, agronomy, horticulture, and other related fields.

African Agriculture Leaders Begin Study On Campus

Adorning the campus with native garments and instruments, the group presented the first of a series of cultural programs, which will continue throughout the year. The program was the first of several which the college has sponsored as a means of fostering cultural exchange and understanding.

According to Dr. W. E. Read, dean of the Agriculture Department, the program will provide an opportunity for students to learn about different cultures and to share their own cultural experiences with others.

The program was well received by the students, who expressed interest in learning more about the culture of the visitors.

AFROTC Group Places First In Festival

When the first group of 12-graduate students from the new nations of Nigeria and Ghana arrived to begin a 16-week course under a contract agreement between the college and the North Carolina Agriculture Department, Washington, D.C., on hand to welcome them at the Greensboro-High Point Airport were Mr. Sherrod, Wilson, 3.59; Annie R. Gordon, Belvidere, 3.67; Joseph Green, Florence, 3.74; and Earl Farrow, Greensboro, 3.74.

On the “B” honor roll were 65 students who earned a 3.0 GPA or better, and 14 freshmen.

AFROTC Group Places First In Festival

When the A&T Air Force ROTC Drill team left campus on April 6, it was well received in the A&T College of Agriculture and Science, where in the South, they had gained such wide acclaim.

The team, which has this spring concentrated on showing off its skills was accompanied by a group of students from various countries who came to see the competition.

The festival was sponsored by the Greensboro Junior Chamber of Commerce, the Greensboro Symphony Orchestra, and the North Carolina State Fair.

Golf Tournament Has First Negro Participant

Top Negro professional, Charlie Sifford, from New York, is the only to participate in the Greater Greensboro Open Golf Tournament, which commenced on Thursday and will end April 16.

Upon teeing off here on Thursday morning he became the first Negro to participate in a professional golf tournament. The tournament was held at the Sedgefield Country Club, the host club.

As a result of his participation, Sifford gained such wide acclaim.

He is considered one of the world's greatest players and has been ranked among the top 10 golfers in the world for several years.

He is scheduled for presentation in the A&T College Art Gallery in the spring of 1961.

The Breakdown, according to statistics, was 26 students, 18 juniors, 16 sophomores, and 4 freshmen.

Cadets Prepare For Annual ROTC Ball

Final plans for the Annual ROTC Ball are starting to come together. Many cadets are anxiously awaiting the ball.

Proposed in return entertainment will include a feature intro-duction of dances, which will be followed by a ball in honor of Miss Corps. Band members will be assisted by the physical education major of Greensboro.

This year's social attraction to the affair will be the presentation of the ROTC Ball promotion by President W. A. Proctor, with an honorary ball.

The highlight of the entertainment will be the presentation of the ROTC Ball promotion by President W. A. Proctor, with an honorary ball.

The event will be presented by the Greensboro High School dance group, which will be assisted by the physical education major of Greensboro.

Miss Corps will be represented by the DOMS, a group of students who have been chosen for their excellence in ROTC and their academic achievements.

Orders are being taken for the event, which will be held on April 16.

Personals taking the examination will be college seniors and will be selected by the North Carolina Teaching Certificate for the first time.

The examination will be given in accordance with the North Carolina State Board of Education at a specified time and date.

This marks the last year the examination will be given under the present system.

Persons taking the examination will be selected by their respective college officials.

A&T College is one of the many schools which will administer the test.

**Election Time!**

Who are the best candidates for the 1961-62 Student Government offices?

"The question that the entire campus will decide within the next three weeks."

Signs will be posted on every vacant space. Speechmaking will begin, and different organizations (especially, fraternities and sororities) will begin their canvassing and vote trading.

Who will be our student government officers? — A good question all will agree, but you must also agree that it is up to every student to choose the candidates who are the best qualified.

In doing this, some may run into a problem. There may be the problem of whether to vote for the best candidate or for a person who is a fraternity brother.

Fraternity and sorority loyalty is a fine thing; but when the time comes for college leaders, it might be wise to judge the candidates on their own merits and not on the popularity of the particular organization of which they are members.

Only by doing this can we be sure of getting the best person for a particular office.

As our Frat brothers and sorors say if we don't vote for a candidate today, who will be the next generation of robotics? Picture future students. They should understand that the choice of a candidate is entirely up to the individual making the choice.

What will our Frat brothers and sorors say if we don't vote for the best candidate? Just recently Montgomery, Ala., spent $100,000 on a piece. This could develop into a lightful change that has taken much effort to bring about the desired result.

The South will be the site for most of the centennial activities from every North Carolina county can be obtained from any legislator.

Teacher Shortages Present Problems

Editor's Note: Following are excerpts from a letter written by a teacher in a school where desegregation was being attempted, describing the conditions of the school and the influence of Federal support on the problems associated with desegregation.

We face educational problems of great magnitude—problems of the shortage of highly qualified teachers and administrators. The problem is not that of the subject of the sciences, the human sciences, or the arts. It is a problem of the need for upgrading the quality of the faculty and the skill of the curriculum. It is not a problem of the environment and the teaching methods and the employment of the faculties. It is a problem of the solution of current problems.

We must first of all face the problem of the social cohesion of the society in which we live. These problems and many others, are of grave national—since we are a nation of one people. In the past, we may expect that the Federal government will come in to aid in the solution of these problems. And, as in the past, we must be certain that Federal support does not discour- age our efforts to solve our problems. We must not let Federal support lead us to the conclusion that State and local governments and private agencies are responsible. Rather, Federal support should encourage the development of creative initiative and give them a greater opportunity to upgrade the human and economic resources to education.

It would be disastrous for us to attempt any solution that is inconsistent with the American democratic ideal. The problem should not be one of the implementation of the desegregation of the schools, but rather of the implementation of the full integration of the schools. The problem should not be one of the division of the schools, but rather of the education of the children.

I believe that desegregation must move forward in accordance with the law of the land. I recognize the difficulty inherent in changing a system that has been created for a different economic and social condition. However, I believe that the ultimate solution is to be found in the education of the children, and the development of the human and economic resources to education.

Science Symposium

3 in a series of polls conducted by L&M student representatives in over 100 colleges throughout the nation.

Question #1: Do you feel working wives can really have a happy, well-adjusted family life?

Answer: Yes. No help at all.

Question #2: How big a help to a college man is a car in building a successful future?

Question #3: Which of these fields do you believe provides the greatest opportunity for success, within ten years after entry into the field? (CHECK ONE)

Question #4: Do you prefer a filter or a non-filter cigarette?

Answer: Filter —— No filter.

Light up an L&M, and answer these questions. Then compare your answers with those of 1,183 other college students at bottom of page.

FORTY-SEVEN SENIORS BEGIN CADET TEACHING

By Ernest L. Johnston, Jr.

A total of 41 students began their training in the United States Army ROTC at the State University of North Carolina at Greensboro on April 21, 1961. These students will get actual classroom teaching experience for a two-year period.

The number of spring quarter students is larger than the number of fall quarter students, and the number of students increased in comparison with the expected 30 students.

Student teachers include, Larry H. Densmore, mathematics; Mattel Potter, social studies; Harvey Gravely, science; and Donald McCall, social studies. Students also include, James Hunter, social studies, Graham.

Atkins High, Winston-Salem; Marford Atkins, industrial arts, Greensboro; Redd Busch, mathematics, Laughlin High, Washington, High, Greensboro.

The process that extends beyond the teacher shortage.

CURTIS P. TODD

Social Science, Greensboro; Climent Mills, social studies, Caldwell, High, Summerfield; Tinnie Hooker, music, and English, Mary Potter, Oxford.

Education in Asian countries.

Establishment of mutually beneficial programs affecting education.

Federal programs affecting education.

The encouragement of quality education in the new nations of Africa.

The fostering of ideas on education by outside sources.

The strengthening of the Office of Education as a disseminator of accurate, automatic data processing, as a research center for current data on education, and as an information center for the dissemination of ideas on education by outside sources.

A clear definition of the mission and organization of the Office of Education, employing the report of a committee that was established by my immediate predecessor, Dr. Lawrence G. Derthick.

One of the best investments you'll ever make...
Organizational News

By ERNEST L. JOHNSTON, JR.

Now that Spring is in the air and less than a month and a half is left in this historic season, campus organizations are set to close the year out in great style. The sad part comes in when they realize that they have to part from their fellow officers with whom they have worked so diligently.

LINE TIME

For the Greek-letter organizations, spring means a time for planning to gear their activities to the spring line.

BELLO GLADIOLI

The agronomy club is in the process of selling Gladioli bulbs for fund raising purposes. Recently Mr. W. R. Grandy spoke to the club members on "How to Beautify Lawns by Using the Bulbs." When a purchase of bulbs is made, the individual who receives a special fertilizer free with the order. These bulbs are thoroughly treated and protected against insects.

If anyone is interested in further information about the sale of the bulbs, any member of the agronomy club will be glad to assist, or dial extension 30.

BIG THING

Although the YWCA has only been reactivated for less than a year, it has been a big thing since. Although the YWCA has only been reactivated for less than a year, it has been a big thing since.

Ink Toner for the Y.W.C.A.

Since this year is no exception, the YWCA is having a statewide citizenship conference. Such things which will be discussed in the YWCA conference include: the voter's rights and the sit-in movement. The YWCA will observe its first annual spring retreat in May with this theme.

On tomorrow, the YWCA is having a statewide citizenship conference. Such things which will be discussed in the YWCA conference include: the voter's rights and the sit-in movement. The YWCA will observe its first annual spring retreat in May with this theme.

The future plans of the campus organizations are set to close the year out in great style. The sad part comes in when they realize that they have to part from their fellow officers with whom they have worked so diligently.

INTO GREEKLAND

As we leave Clubland and travel overseas into Greekland, we see spring quarter quarters getting ready to come around.

April 29.

ELECTION TIME

Election time is near, and a lot of voters are looking forward to the coming election. The five members attending the meeting will include Paula Jansen, Beth Cowdren, Helen Lykes, Marnie Zachary, Cleveland Black, and Wilhelmina Harrison.

The conference will be held on April 29.

How Is Your Pronunciation?

How is your pronunciation? Why was the question asked students at the State Capitol Assembly March 21.

Mrs. Pearl G. Bradley, associate professor in English and Speech, was in charge of pronunciation habits by means of a grim device, "Either or Either," and a demonstration lecture.

Students were told that "pronunciation used by the majority of educated or cultivated speakers in a geographical region determines the correct or standard pronunciation.

"Pronunciation," said Mrs. Bradley, "not only determines the intelligibility or clarity of one's word meanings but also reveals one's educational and cultural status.

Members of the audience were invited to take an inventory of their pronunciation habits by scrutinizing five groups: the vowels, the diphthongs, the consonants, and the sentence stress.

They were asked to compare their habitual pronunciation with both the acceptable and the unacceptable pronunciation; to practice each word, and to post the list where it could serve as a daily reminder. They were also advised to add words of their own.

Errors were placed into four categories — omission of words observed over a period of years to be commonly mispronounced by A&T students.

"Either or Either," as a rule, is distributed at more than 700 critical times, including the formal comments are made; the publication is distributed at more than 700 critical times, including the formal announcement of the event.

AFT Group Placed First

Practically all the competing teams were both Air Force and Army teams combined. AFT was one of the few teams exhibiting a single unit, in giving their opinion of the uniqueness of their rivalry to the Register, AFT team leader has this comment to make: "After the AFT's, we had a combined both Army and Air Force units, we feel that next year's war is a matter of all the other categories if there was a combination of both units for the second time. As a result of their accomplishments, the unit has received invitations from other schools to perform. On the date of the first school competition, invitational teams have been extended from such schools as Pembroke, Rutgers, and Lehigh. Not only has the drill team been extended long range invitations to the drill team as well. The Air Force and Army ROTC units from the other schools have in- volved in participating in a match in Manhattan, Kansas.

Among the teams to the Cherry Hill, the Mayor Fred L. Allen, professor of Air Science. Captain James Haustin, advisor of the drill team; and Coach T/Sgt. J. K. Kren.

Members of the drill team included the following: Wesley Brown, instructor; capital; Leonard Law, instructor; William T. Miller, John Wesley Clark, Pantego; Captain James Hairston, advisor of the drill team; and Coach T/Sgt. J. K. Kren.

Air Force Captain W. W. Farmer Dies In Jet Bomber Crash

One of the five who died in the fiery crash of an Air Force B-52 Strato-fortress jet bomber near Borden, Ind., was a graduate of A&T College.

Captain William Woody Farmer, Jr., 29, a 1954 graduate of A&T, was co-pilot of the aircraft which, reportedly exploding in midair. The plane was on a flight from Minot to Florida and was said to be seeking a replacement for a rebelling Air Force bomber.

Farmer, the son of Mr. and Mrs. William L. Farmer Jr. of 502 W. Carroll Street, Wilson, had been commissioned as second lieutenant under the College's U. S. Air Force ROTC program.

A biology major, he was president of the Beta Kappa Chi Scientific and Honor Society, a member of the Pan Hellenic Council, and a basal cell basils of the Omega Psi Phi Fraternity Chapter. He held membership in the ROTC Officers Club, Geographical Society, Arnold Air Society, and Phi Delta Theta.

Following his graduation, Farmer worked as a chemist for the American Cyanamid Co., and was serving in the Air Force at the time of his death.

Funeral services were held for the body, which is in the Baptist Church in Wilson, on April 12. The Rev. W. H. A. Wilk, pastor, officiated.

A military detail from Seymour, Johnson Air Force Base at Goldsboro, N.C., is expected to guard the remains at the Rest Haven cemetery.

Also expected to attend the funeral service are Mr. and Mrs. Jean Farmer, of Savannah, Ga., and John Farmer of Wilson; one sister, Mrs. Jenny Farmer of Savannah; one brother, Mrs. William A. Farmer of Wilson; one sister-in-law, Mrs. Woodrow Farmer of Wilson; one aunt, Mrs. John H. Hester, of New York; and Bernard of Wilson.

---

Aggies Win Over Delaware By One Point

Lawrence Olds drove in the winning run with a ground ball single to right field in the 10th inning to give the A&T Aggies a 5-4 victory over Delaware State in a game played at Memorial Stadium on April 5. It was the first conference game of the season for the Aggies.

Robert Faulkner opened the tenth inning with a walk. He stole second, then went to third on a pass ball. After Hugh Evans struck out, Olds smashed a booming triple off the centerfield wall in Greensboro's Memorial Stadium against Del.

One of the five who died in the crash of Air Force B-52 Strato-fortress jet bomber near Borden, Ind., was a graduate of A&T College.

William W. Farmer, Sr., of 502 W. Carroll Street, Wilson, had been commissioned as second lieutenant under the College's U. S. Air Force ROTC program.

Joe Howell Joins Pa. Ball Club

Former Aggie basketball star, Joe Howell, recently signed a baseball contract with the Philadelphia Phillies farm system. He is currently in Florida in spring training camp.

Howell set a career scoring rec,

CLOD HOP MAY 5

700 TRACKMEN PARTICIPATE IN RELAYS

Over 700 trackmen have sent in names to compete in the 1961 Marine Corps Schools Relays to be held in Quantico, Va., today and tomorrow. Among this group will be representatives from A&T College.

The big events to watch in this year's meet will be the pole vault, 880-yard dash, mile and high jump. Outstanding competitors will be:

— Audrey Donley, former Oklahoma State vaulter, Pete Cline, 1960 Olympian, Ed Collymore, IC4A sprinter; Ed Collymore, IC4A erer in the 1,000-yard run; Bob Bardenhage, high jump; Josh Cutt, 440-yard hurdlers; Bob Robinson, broad jump, and many more make up this year's roster.

BATEN PITCHING AGAINST DELAWARE

Baten pitched 10 innings against Delaware to register his seventh victory of his career against no defeats. He walked 6, gave up 6 runs and 33 hits.

The junior from Washington, D.C., had a little off his usual performance but was still effective enough to keep the Delaware batters off balance.

Other members of the Aggie staff who will carry a big load are southpaw John Edwards and freshmen sensation Frank Pyatt, Ted French, Theodore Forman, Leroy Kongsley, and Roger Robertson.

LANG MOST VALUABLE

Handling those runners is one of the best catchers in the CIAA in Larry Johnson. He is team captain, Long whose masterful art of calling for the proper variety of pitches to keep batters off balance has kept the Aggie mound staff effective. He is backed up by the scrappy Carl Baten and Joe Edwards who is also catching.

Lang điểm up the confidence in the hurlers of the Aggie staff who will carry a big load of the Aggie pitching staff.

The infield is shaping up with Freddie Noyes at first, Evans at short, and Good at third. When Rowion is ready to play he may go back to his old position on the field or help strengthen the outfield forces.

Though the outfield has found a solution to its problem with Odds in right, Gordon in center, and Rutledge in left, A&T is still in the outfields to give the needed defensive strength.

Sports
BY ELBERT SLOAN

Lack of interest in track here at A&T College is the major reason the sport has not flourished as it should have in the school's athletic program.

There is no financial base to purchase the necessary facilities to promote the sport. The running track in very poor condition is the only track the people who hold the record do not take pains to improve. SLOAN

POOR TRACK

The track is poorly drained and requires four to five days to dry after being wet. It is unwise to make plans for a track that did not include proper drainage and adequate supplies and equipment needed to make the sport prosper and for A&T to host a meet have never been provided. There are no bleachers for spectators.

For these reasons, A&T cannot host a track meet. It is not a business and schools would dare run on poorly constructed track so that A&T might take its place in the upper laurels of competition.

SHARES ONE

A&T has only one track scholarship. If more were provided, there would be no need for A&T to construct a track. Thus, A&T is competitive in group events.

SPECTATORSHIP

The track is poorly drained and requires four to five days to dry after being wet. The track is poorly drained and requires four to five days to dry after being wet. It is unwise to make plans for a track that did not include proper drainage and adequate supplies and equipment needed to make the sport prosper and for A&T to host a meet have never been provided. There are no bleachers for spectators.

For these reasons, A&T cannot host a track meet. It is not a business and schools would dare run on poorly constructed track so that A&T might take its place in the upper laurels of competition.

SHARES ONE

A&T has only one track scholarship. If more were provided, there would be no need for A&T to construct a track. Thus, A&T is competitive in group events.
