## Fall Registration To Begin September Fifteenth

### FALL QUARTER

September 7, 8 — Thursday, Friday — Pre-Session Faculty Conference  
September 11, 12, 13 — Monday, Tuesday, Wednesday — Freshman Week Program  
September 14 — Thursday — Registration, Freshmen  
September 15, 16 — Friday, Saturday — Registration, Upperclassmen  
September 18 — Monday — Classes begin  
September 19 — Tuesday — Fall Quarter Convocation  
September 25 — Monday — Last day for making changes in schedules  
November 23, 24 — Thursday, Friday — THANKSGIVING HOLIDAYS  
November 30, December 1, 4 — Thursday, Friday, Monday — Fall Quarter Examinations

### WINTER QUARTER

December 8, 9 — Friday, Saturday — Registration, Winter Quarter  
December 11 — Monday Classes begin  
December 15 — Friday — Last day for making changes in schedules  
December 16 — Saturday, 12:00 Noon — CHRISTMAS HOLIDAYS BEGIN  
January 3, 1962 — Wednesday — Classes resume  
January 9 — Tuesday — Winter Quarter Convocation  
March 5, 6, 7 — Monday, Tuesday, Wednesday — Winter Quarter Examinations

### SPRING QUARTER

March 12, 13 — Monday, Tuesday — Registration, Spring Quarter  
March 14 — Wednesday — Classes begin  
March 20 — Tuesday — Spring Quarter Convocation (Honor's Day)  
March 21 — Wednesday — Last day for making changes in schedules  
April 20, at 1:00 P.M. — Friday — EASTER HOLIDAYS BEGIN  
April 30 — Monday — Classes resume  
May 18, 21, 22 — Friday, Monday, Tuesday — Examinations, Seniors  
May 22 — Tuesday — Senior Day  
May 27 — Sunday — Baccalaureate Exercises  
May 29, 30, 31 — Tuesday, Wednesday, Thursday — Spring Quarter Examinations  
June 2 — Saturday — Commencement Exercises

### SPECIAL DAYS

November 7 — Tuesday — Founder's Day  
November 5-11 — American Education Week  
January 21-24, 1962, inclusive — Religious Emphasis Week  
February 16 — Friday — Arbor Day  
February 18-24 — Brotherhood Week  
March 20 — Tuesday — Honor's Day

## Give A Pint

All members of the college community are asked to participate in the current Bloodmobile Recruit.

The Bloodmobile is located at the Infirmary and closes solicitation at 2:00 p.m. today.

An expected goal for blood this year is 300 pints which would twice surpass last year's total pints.

Major Lawrence D. Spencer, P.M.S. is chairman of the Bloodmobile Committee.

## Engineers Make Tour

Thirty engineering students departed from campus Monday morning, April 24, on the annual Engineering tour.

The tour centered around the industrial areas of Virginia and Philadelphia and Pittsburgh, Pa.

Plants which the "slide-rulers" invaded included Kerr Dam, Universal steel Atlas Cement Plant, Bethlehem Steel Company, Remington Rand, UNIVAC Division and Westinghouse Turbine Plant.

The program for engineers is designed to acquaint the senior engineering student with some of the problems associated with industry. It also serves as an indoctrination to the uses of basic engineering subjects.

In addition, the inspection tour gives the student a practical phase of engineering in industry.

Students majoring in mechanical, architectural, and electrical engineering participated in the tour.

Mr. William Street and Mr. Leo Williams, faculty advisers, accompanied the group.

## Professors Present Papers

A&T College professors of biology, chemistry, and nutrition presented papers at a meeting in Durham April 13-15.

It was the Eighteenth Anniversary Meeting of the National Institute of Science and the National Convention of Beta Kappa Chi Scientific Society. North Carolina College was the host college.

Three papers were presented at the biology section by members of the A&T faculty. The first of these papers was "Hepatoligation: A Technique for Short Term Biological and Nutritional Experiments Employing Rats" (Miss Evelyn L. Gadsden, Dr. Cecile H. Edwards, and Dr. Gerald A. Edwards).

Dr. Nityananda Pati's paper was concerned with "Effects of Vitamin B<sub>6</sub> in the Male Reproductive Organ."

One of his articles — "Butazolidin Therapy in Canine Distemper" — appeared in *The Indian Veterinary Journal*, vol. 36, no. 1, January of this year.

The third paper was "Biochemical and Immunological Status of Irradiated Mice Protected by Bone Marrow Treatments" (Dr. George C. Royal and Dr. Gladys W. Royal).

In the chemistry section, five papers were presented by representatives from A&T College. George A. L. Gant undergraduate research participant, read "Incorporation of Methionine-2-C<sup>14</sup> and Methionine-Methyl-C<sup>14</sup> into Plasma Proteins" (George A. L. Gant, Dr. Cecile H. Edwards, Miss Evelyn L. Gadsden, and Dr. Gerald A. Edwards).

Other A&T student participants were James O. Rice and John C. Holley.

## Col. Martin Is Banquet Speaker

Infantryman, Lt. Colonel John T. Martin, executive to the civilian assistant, office of the assistant secretary of defense (man power, personnel, and reserve), has been named principal speaker for the ROTC Banquet. He will speak tonight in Murphy Hall.

Colonel Martin is a person of varied experience having participated in many activities. In addition, he has traveled to many places. He served in World II with the "Old Historic 366 Infantry Regiment." His first overseas duty found him with the forces in Italy and Africa.

Colonel Martin is married and has five children. He has been awarded the Purple Heart, Bronze Star, and many other service medals. He is a graduate of Howard University, in Washington, D. C.

Following the banquet, a gala ball will be held in the Charles H. Moore Gymnasium for all cadets.

The officers club, a sponsor of the annual affair, is headed by Robert Sanders, president; Harold Daniels, vice president; Joe Holmond, secretary; and Clifton Headen, treasurer.

JAMES F. BLUE, JR.

## Blue To Study At Univ. N. C. On Grant

James F. Blue, Jr. has been offered a nine and one half month grant to study next year at the University of North Carolina.

Upon the advice of Dr. Leonard H. Robinson, dean of the School of Education and General Studies, Blue applied for a Danforth Fellowship. In the process, he was fortunate enough to be interviewed by Dr. Kenneth I. Brown, executive director of the Danforth Foundation.

Blue was not one of the 98 nominees selected to become Danforth Fellows—1,000 were nominated—but Dr. Brown was able to offer him a Special Study grant.

This grant includes tuition and fees for nine and one half months at the University of North Carolina, plus a \$2,000 stipend.

When Blue was asked about the grant, he said, "I am grateful to Dr. Robinson for insisting that I apply. In fact, he had been looking for me to tell me about the Danforth, when I checked with his office about another fellowship."

The Special Study grant provides a greater stipend than does the Danforth, but the recipient may not carry another fellowship concurrent with the Special grant.

Blue, a physical education major, has been a consistent honor student. He is a member of Alpha Kappa Mu National Honor Society and was named to Wh's Who in American Colleges and Universities. His ambition is to become a college teacher.

He is married to the former Miss Addie Walls of Pinehurst and is the son of Mrs. Barbara Wrencher of Carthage.

## Al Attles Returns To His Alma Mater For Brief Visit

## Vince Miller Persuades Attles To Play Professional Ball

By ERNEST L. JOHNSTON, JR.

"I have been planning this trip for a long time," said Al Attles as he returned to his Alma Mater last week.

This was Al's first trip back since he began playing professional basketball with the Philadelphia Warriors.

After a speaking engagement in Ashland, Virginia, Al decided to look in on his former school chums.

### DIDN'T WANT TO PLAY

When Al completed his studies last year, he had not thoughts of playing pro ball. Already he had applied for a job; and when his thoughts had drifted from the pros, that's when Vince Miller stepped in. Vince persuaded Al to try out for the Warriors.

Al said, "From then on, I put all I had into making the pros."

Although he finds pro ball lots rougher than college ball, he has managed to hold up against such stars as Bob Cousy, Sam Jones, and Bill Russell. Having found the players tough to play against, Al has had to exhibit all the skills he learned in high school and college.

### LET DOWN BY TWO

Al was very much disappointed over A&T's not winning the CIAA. When his own team, the Warriors, didn't win the crown, he was even more dismayed. He did make this comment though, "Wait until next year."

### GIVE VIEWS

"One of the greatest players in basketball is Wilt Chamberlain," said Attles. "I would much rather play with Stilt than against him."

Not only did he comment on his teammate, the "Big Dipper" but Cleo Hill and several of his Aggie teammates.

"Since I have played against Cleo in high school and all through college, it will be normal playing against him next year." Cleo was the number one draft choice with the St. Louis Hawks.

(CONTINUED ON PAGE 4)

## A&T Cops 1st In Regional Contest

A determined team from A&T beat off a fired up Florida A&M team to walk off with the first place trophy on the regional livestock judging contest held at Tuskegee Institute, Tuskegee, Ala. April 20-21.

A&T finished just seven points ahead of the Florida team with a score of 1219 points to FAMU's 1212 points.

The team was composed of four members: Herman Burnette, a sophomore, who has made the team for the past two years; Earnest Simmons, a sophomore; George Hill and James Chapman, who are both freshmen.

The team was coached by Mr. A. S. Totten of the poultry husbandry department. He was assisted by a two-time member of the team, Willie Riddick, a graduating senior; Dr. W. L. Kennedy, Mr. Talmage Brewer and Mr. J. E. Grier.

Other teams taking part in the contest were Tuskegee Institute, Alabama, A&M, Alcorn A&M, Fort Valley State, Tennessee A&I, South Carolina State and Southern University.

AL ATTLES

## Open Letter Is Written By Bramwell

Hon. Robert F. Kennedy  
The Attorney General of the  
United States of America  
Washington 25, D. C.

Dear Sir:

I have recently resigned as Assistant United States Attorney for the Eastern District of North Carolina after serving in both Civil and Criminal Divisions for more than seven years.

This letter is written requesting that you use your good offices to obtain increased Negro Personnel in Federal Investigative Agencies as Investigators and/or Agents. May I respectfully submit the following proposals:

- (1) The hiring of qualified Negro personnel in appreciable numbers in Federal Investigative Agencies, should be made established policy.
  - (2) The Agencies should be urged to obtain Negro Personnel by recruiting qualified and dedicated individuals from Colleges throughout the country.
  - (3) Federal Investigative Agencies should be urged to place qualified Negro Investigative Agents throughout the entire United States.
- These recommendations are based on the following:
- (1) The need to provide equal opportunity for Negroes in Federal Investigative Agencies.
  - (2) The present lack of an appreciable number of Negro Investigative Personnel in Federal Agencies.
  - (3) The large number of Negro Defendants apprehended by Federal Investigative Agencies, might, with greater understanding be interrogated and handled by Negro Investigative Personnel.
  - (4) The benefits to the Federal Agencies which will result from the hiring of skilled and qualified Negro Investigative Personnel.

The above information is based upon my experience as an Assistant United States Attorney, and an observation of the acute shortage of Negro Investigative Personnel. I trust that these recommendations may prove to be of value to you and your administration.

Henry Bramwell

## To Stand Or To Falter

How strong is our Student Government if it does not stand behind its rulings?

In a recent mass meeting, the decision by the government to rule an applicant for president ineligible was challenged by a few students.

The Government's ruling was made in accord with Article IV, Section 1 of the Constitution: "No student shall be eligible for the Presidency or membership on the council who has a condition or failure against him that has not been removed..." This applicant had what the government considered an unremoved failure on his record.

Those in favor of the applicant argued that it is impossible to actually remove a failure therefore that particular qualification should be invalid.

The Government members made their decision on the basis that the word "removed" might be a bit ambiguous but the meaning is generally understood by all students.

In addition to this general understanding, there is a section in the official college catalogue titled "removal of failures."

Seemingly these two factors would have given the Student Government sufficient strength for backing its ruling.

Thus it was surprising to hear prexy Walter Johnson, Jr. alter his original position of stating the Government's ruling as definite and suddenly a compromise to the mass group. He stated that a mass assembly could be held to decide whether or not the student body wanted to reverse the Student Government's ruling.

We aren't experts on the law but if such a thing as this could be done it makes one wonder: (1) wouldn't such a move mean that other applicants would have the right to ask the mass body to decide upon their eligibility? (2) Wouldn't this move also give leeway for other decisions of the Student Government to be reversed?

Of course we want our Government to be fair but we also want it to be strong.

## Four Troubled Areas

The Laotian crisis quiets; the Congo situation continues to revolve around the same questions; confused Cuba becomes more involved; and Algeria comes to a gigantic complication.

As one remembers, it was just four years ago when thousands of Cubans acclaimed the triumph of Fidel Castro. Since his victory, many agonies have been showered upon the people.

Fighting in Algeria has been periodical for more than six years. When an end to the fighting appeared to be finally in sight, much negotiated Algeria broke out into flames.

A troubled spot which has caused the greatest amount of world tension lately has been Laos—a country striving for neutrality, yet cornered between Communism and the free world.

Since the riots initiated by Lumumba in 1959, tragedy has been the mark of the Congo. Even though much of the violence has ended, the UN continues to debate the Congo crises.

Whatever answers are given to these questions, it is safe to presume that things will probably get hotter before they cool.

## Role Of Campus Press

(ACP)—"Should college newspaper journalists promote their own editorial policy? Should faculty, administration and student groups be exempt from published criticism? These are questions that arise in discussions of college journalistic practices, and which are often hotly disputed by those students who feel that their inherent liberties are being curtailed, and by the faculty and administrative officers, who feel that they are often put upon by irresponsible students looking for something about which to be controversial.

"Some say that one builds character by letting students take part in the conflict embodied in editorial spats with the fraternities, sororities, instructors and professors, and the administrative staff. This would be a boon to the sincere students of journalism and political science, working towards goals which they consider very real.

"There is one thing we believe a college paper can do through the use of a provocative editorial approach. It can cause the students to react to the written opinion and take a stand—aye or nay—drawing them away from the passive stand they normally take.

"Promotion of ideals and the criticism of ideals must be left to the students themselves. Pertinent questions can still be raised. Conflicting student groups can defend their own opinions. Interest groups can push for reforms. The student can be his own critic and his own defense."—Lewis and Clark College, PIONEER LOG.

## Report From The College Council

By Cleveland M. Black

Reports of various committees were made at a recent session of the College Council.

Mr. Sidney Evans, council member, presented the final criteria for determining the eligibility of campus organizations to sponsor movies.

The criteria are as follows:

- 1) Open membership—Membership in the organization should be open to all students.
- 2) The organization must be non-partisan and non-social—The organization's membership should not be restricted to any partisan or social group.
- 3) Contributions of the organization to the general welfare of the college through either or all of the following: scholarship, service and leadership.
- 4) That the organization be correctly defined as a student organization and registered with the Office of Dean of Students.

The committee also recommended that organizations meeting these requirements be assigned movies on a first come basis.

Other Council discussion included Dean W. H. Gamble's report on high school senior week. The plan was formulated to invite fifty seniors to the college campus April 28.

Dr. G. F. Rankin, secretary to the Council, suggested the possibility of the student leadership conference in September. The idea was endorsed and assigned to a committee headed by Dr. Rankin.

## Campus Pulse

### Seniors, Please!

Dear Editor:

As I remember, the present senior class came to A&T College in a mass of 600 some three years ago.

The class immediately took its stand and has since made many impressions. As a group not all of the class has been slothful and useless.

Over the years, many Gavins, Grays, Harrisons, Johnsons and Harpers have brought praise and honor to the class of '61.

Presently, the class is planning its last round of activities, among which are the senior class day, senior picnic, baccalaureate, and that most wishful day—graduation.

It would be gratifying to have the "full participation" of all as the seniors finish the last round. A final plea to seniors, "co-operate!"

Clyde Williams

## Jazz Concert Presented At A&T

Billy Taylor and His Trio presented a concert last night at A&T College giving the audience at the Charles Moore gymnasium a pleasant evening of modern jazz.

The group, including Roy Mosca on the drums, Doug Watkins with the bass, and Taylor at the piano, apparently was pleased with the warm reception from an appreciative crowd.

The Trio played five of Taylor's own compositions: These included: "Titoro" and "Soul Sister," two numbers in which Mosca all but stopped the show with drum solos: "Impromptu," "Just The Thought of You" and "One For The Woofers."

## Army Cadets Maneuver On Farm

In case you wondered what was happening with the muddy haggard looking cadets who staggered into the dining hall Saturday, April 22, those were just the advanced cadets.

These cadets had just come from maneuvers on the college farm, during which the juniors put what they had learned in the classroom into practice, and the seniors reviewed what they had done in summer camp.

Maneuvers consisted of a combat patrol mission and a platoon in the attack. Members of the senior class served as the aggressors and the junior class served as the friendly forces.

These maneuvers, planned by members of the senior class, served as a part of the pre-summer camp orientation exercises which are being administered to members of the junior class by the seniors.

This pre-summer camp orientation is being given to the juniors because those who were juniors last year realized their shortcomings and decided to try to prevent this year's junior class from having the same problem that they had encountered. After the completion of the exercises, members of the different groups were critiqued.

The maneuvers were supervised by Major Harold L. Lanier, Sgt. Harold Jordan, Sgt. David L. Mathis and Sgt. Gibson.

## KAMPUS BEAT

By Dee

**DEE'S DELIGHT:** As time goes by, so do different fads come and go . . . Remember the time girls use to wear clothes pins in their hair . . . Now something that used to take the spotlight was pony tails the girls used to wear. . . Boys looked even more studious with their Caesar hair cuts. . . Remember the time dirty bucks were the kicks. . . Not only do clothes and styles become popular, but dance crazes as well. . . Dances, such as the Slop, Madison, Shimmy, Twist, Continental, Camel Walk, Big Apple, Mash Potatoes, and many, many others were learned and soon forgotten.

**AT LINDSAY AND LAUREL STREETS:** That gang in front of the new canteen gets larger and larger with each warmer day. . . The young man ordering hot chocolate in 70 degree weather. . . Think we will get hot cakes for breakfast again before school closes. . . In another week or so, candidates will be making speeches for student government offices. . . Wonder who will win? . . . Tonight is an exciting one for ROTC cadets. . . The fun begins at 6:30 p.m. for advanced cadets at the banquet and everyone will jump at the big ball to follow. . . No wonder you girls are all in smiles.

**FACES SEEN RECENTLY ON CAMPUS:** Joe Jackson '58' who is in social work in New York City paid a visit to his Alma Mater. . . So did James Powers '60 peep in on the college family. . . Herman Daniels '60. Daniels is better known for his exploits in track.

**BROKEN LAWS:** Now I wonder just where I could have been when they passed that law? I mean the one requiring the door on the second floor in the library to stay closed. Oh, it all comes back to me now. It must have been while I was away attending the convention of the society opposed to having open house other than Mother's Day.

## Three Students Attend NSA Leadership Conference

Jack Ezzell, George Gant, and Tommy Gaddie recently attended the National Students Association Leadership conference held at Duke University.

The conference, held April 14 through April 16, was a meeting of students representing schools from Virginia, North Carolina, and South Carolina. The conference was designed to give students ideas on things that they could do to improve their schools and to try to help students with some of the problems encountered on their campuses.

## The Volunteer

What is the Peace Corps looking for in a Volunteer?

A specific "needed skill" is the first requirement. The Peace Corps was established to respond to requests from host nations.

The range of needed skills is great. Most nations requesting Volunteers will be industrially less developed than the U.S.A. They will want engineers, technicians, teachers, craftsmen, and administrators.

Other countries will seek to improve their agricultural system, creating a need for farmers who understand the land and the use of modern implements and for agricultural specialists with college degrees.

Government and political science majors may be in demand by a newly formed nation anxious to establish an effective administration.

Those with laboratory or sanitation skills will be needed in tropical areas where the threat of disease and pestilence is great.

Construction talents, electrical abilities, civil engineering skills, and the like are also in extremely short supply.

Second, the Volunteer must understand that he is not trying to remake the world in our image. He must sincerely appreciate the values, mores and traditions of the society in which he works.

Third, the Volunteer must be "adaptable" enough to undertake a different and sometimes frustrating assignment. A Volunteer's individual contribution will be small and may go unappreciated or unrecognized. Inner stamina and security are essentials if frustration and disillusionment are to be avoided. The Volunteer must not go abroad seeking to solve personal problems he cannot solve at home.

Fourth, the Volunteer should appreciate that the Peace Corps is a "two way street," that the Volunteer will learn as much as he teaches. His own horizons will be expanded and broadened while he works in harmony with his host nation counterpart.

Fifth, the Volunteer must understand the strengths of democracy and how our system functions. He must be able to answer both questions put to him by the sincere doubter and the professional agitator.

Sixth, the Volunteer must have a grasp of the host nation's language. Intensive language training will be part of the Peace Corps training program.

Seventh, the Volunteer must be in excellent physical condition. Living for two or three years in an underdeveloped rural tropical condition will require Volunteers to be in tiptop physical shape.

Eight, the Volunteer must understand what he is doing and why he is serving his country in the cause of world peace.

The conference was formally opened with dinner and a speech by Reverend Alvord Beardslee.

The main part of the conference was a series of workshops which students representing different facets of campus leadership were designated to attend.

Among the workshops attended by the delegation were the ones on Campus Programming, Editorial Affairs, and Student Government Presidents. In these workshops, members of the A&T delegation obtained ideas about things that could be done to improve A&T. These things included student evaluations of faculty members and courses.

Other things discussed during the conference included the duties of a college, the position of its editor, and the freedom of the college press.

It was brought out that a college newspaper should challenge the shortcomings of institutions, present facts, although they are offensive to some, and opinions of people who are not necessarily staff members.

The main part of the conference was brought to a close with the showing of the controversial film "Operation Abolition." After the showing of the film, Fulton Lewis, III was on hand to discuss the film. This discussion was based primarily around the controversial issues in the film. Included in these were the constitutionality of the House on un-American activities committee and the police brutality shown in the film.

## College Bursar, A Man Of Hobbies

By GLADYS MORRIS

With graduation only a short time away, some A&T students may be wondering whether or not they will be able to find the "right" job which will give themselves and their families the type of financial support they need; whether they will be liked or admired by their associates; whether they will be able to fit in a worthwhile social position in whatever community, city, or state they may be.

Mr. L. A. Wise, our college Bursar, proves that all the qualities mentioned above can be achieved. One of the most outstanding one, however, is that of being able to work with people.

Besides Mr. Wise's ability to master well the position he presently holds here at A&T, he spends a great deal of time and energy enjoying his favorite hobbies. These hobbies are photography, flower gardening, and church work. One unique feature about these hobbies, as told by him, is "they all work hand in hand."

With photography as his most recent hobby, Mr. Wise says he likes hobbies that can have both pleasure and profit. He enjoys it because it has something you can always look for. Yes, photography is an expensive hobby; but once the initial equipment, except for paper, is purchased other costs are minor ones. Mr. Wise speaks of photography as "boring unless there is a fundamental interest."

Not only must one be interested in a particular hobby; there has to be a thorough knowledge of a hob-

MR. L. A. WISE

by to insure perfection. Mr. Wise, in this case, is a graduate of New York Institute of Photography through a correspondence course. He is able to buy most of his supplies from the local Carolina Camera Center.

A second hobby of Mr. Wise's is that of artistically arranging shrubbery, flowers, small trees, and caring for the grass in his lawn.

"The most interesting feature of this hobby," he said, "is that it is restful."

He knows each plant individual-ly and can tell you practically any-

thing you wish to know about it. This knowledge is the result of library study.

The third hobby, as discussed by our Bursar is that of church work. This you may not think of in the sense of being a hobby, but it is for Mr. Wise. He considers his work with the church extra-curricular rather than simply rendering service.

Working with the church is the hobby he has been enjoying longer than those previously mentioned — practically all of his life. It has been more concentrated since he has been in Greensboro, especially since the building program of the church was established. He speaks of this hobby as being "inspirational."

Mr. Wise holds many positions at the Institutional Baptist Church here in the city. He is a member of the deacon board, trustee board, finance committee, the treasurer, and leader of ward No. 5. In addition, he is chairman of the men's day committee.

Mr. Wise was named "1960 Man of the Year" by his church. Mr. Wise has a very charming wife who is very active in church work but has only a critical interest in gardening and photography.

Since 1928, when Mr. Wise first came to A&T, he has had numerous jobs on the campus. One of these was that of advisor to the senior classes from 1931 through 1953.

In addition to these hobbies previously mentioned, Mr. Wise has a collection of over 600 books on various subjects and more than 25 fountain pens.

## Salem refreshes your taste — "air-softens" every puff

Created by R. J. Reynolds Tobacco Company

- menthol fresh
- rich tobacco taste
- modern filter, too

*Take a puff... it's Springtime!*

For the fresh softness in Salem's smoke is the essence of springtime. And Salem's special High Porosity paper "air-softens" every puff. You'll be delighted with Salem's springtime freshness — and rich tobacco taste. Smoke refreshed... smoke Salem!

# Romeo And Juliet — A Modern Concept

By LAVERNE MADISON

Romeo was a member of the Montague family which was stone against the family of Capulets. At the present time, Sweet Man thought he was in love with Rosaline, who was attending a party thrown by the Capulets the following night.

Romeo masked himself and tipped on the set. Once the party was on the way, Sweet Man peeped on Juliet, who was the daughter of old man Capulet. Dazzled by her fairness, Sweet Man moved unsteadily toward her. When Pretty screamed "Who art thou?" Tybalt, a Montaguian standing by checked him out and pulled his blade to do Romeo in because undoubtedly he was not invited to the party. Old man Montague broke the war up because the fellows had confused his pad with the dueling grounds.

### LOST THEIR COOL

Sweet Man asked Sweetheart for a kiss. Juliet, not being able to resist Pretty's charms, let him smack on her. Behind the transfer, Pretty and Sweetheart lost their chill. They were thrown into an ideal world where only the two of them existed. Sweet Man was all for Juliet and she for him.

After the party, Pretty went home but decided that it was cruelty, against his very being to stay away from Sweetheart. Finding the situation highly impossible, he stole his way back to the house and hid beneath the balcony that led to Sweetheart's room.

### NOSE OPEN

Juliet was leaning over the supporter on the balcony thinking aloud when she called her lover's name and expressed her longing and her love for him. Carried almost to ossification, Sweet Man answered her and climbed over the balcony. Sweetheart was shocked and embarrassed but happy at the sight of her lover. They expressed their need for each other and exchanged unbelievable vows. Pretty screamed matrimony, and Sweetheart accepted his proposal.

The Friar, a friend to Romeo, married them on the following day. Sweetheart went back to her pad after husband promised to meet her on the balcony that night.

### JAWS BECAME HARD

Meanwhile, Mercutio, a brotherly friend to Romeo was having an argument with Tybalt. When Romeo reached the scene, Tybalt called him a villain. Mercutio attacked Tybalt in defense of Sweet Man who refused to act when called a villain. Romeo didn't want a fight with a Montaguian because of his marriage to Juliet, but when Tybalt killed Mercutio he lost his chill. Pretty pulled his blade and did Tybalt in. By that time, a crowd had gathered and Romeo got some

hat. He was forced to flee the country because he was wanted by the brass buttons.

### PLAYED POSSUM

At that point, Juliet's old man, not knowing of her previous marriage to Romeo, planned her marriage to a suitor named Paris. Sweetheart checked on the Friar in resentment to the marriage, who gave her a taste of some sleep medicine that she was to drink the night before the wedding. The sleep medicine would cause her to appear to be dead until the Friar could contact Sweet Man. Juliet drank the temporarily dead medicine the night before the wedding and the body was placed in the tomb the following sunrise. Romeo did not get the letters from the Friar explaining the fake death of Sweetheart. He only rumored words that Juliet had kicked the bucket. After copping some poison to take with him, Sweet Man duffed to join his wife in the tomb. He found Paris standing near the body with his flood gate open. When Paris peeped on Sweet Man, he pulled his blade with the intention of sending Pretty to join his ancestors. Pretty Boy had his horns out when he did Paris in. When he realized that Paris dug his rib also, he pulled him near the body of Juliet. Then Sweet Man, who had gone for Pretty, kissed his supposedly dead wife and drank the poison. Our hero kicked the bucket.

### BECAME CHILLY

At that point, the sleep medicine that Juliet had taken was wearing off. When she awakened and found Paris and her lover dead, she lost her chill. At first she tried to kiss some of the poison from Romeo's lips, but there wasn't enough poison on his mouth to do her in. Unstrapping his holster, Juliet took Romeo's dagger and sank it deep into her breast. When the two families reached the tomb, the Friar told them the story of the love between Romeo and Juliet. He mentioned the fact that the only crime committed by Romeo and Juliet was the act of love. Behind the remarks by the Friar, the Montagues and Capulets swore over the bodies of their dead children never to feud again.

## Al Attles Returns

(CONTINUED FROM PAGE 1)

"Now about seniors Herb Gray and Walter Holtzclaw; they shouldn't have too much trouble making pro basketball." "Then about Henry 'Hank' Marshall, he has a great deal to learn and he knows it." Hank, who is also from Newark, is a junior and has been a standout since his freshman year.

Although Joe Howell switched his skills from basketball to baseball Al wishes he could have teamed up with Howell in the backcourt.

### ON THE MOVE

Because of the heavy Warrior schedule, Al is constantly on the move. He stays with an aunt while in Philadelphia. As a rookie, he finds traveling fun, but after you get the knack of it, it's really the roughest part of basketball. Several times Al has almost missed a plane.

During the summer, he will work as recreational director in a recreation center in New York. Already he has signed his contract for next year and he is looking forward to a greater season than last one.

Al has found out one thing, and that is wherever you go, you can't get away from an Aggie. He found Aggie-rooters from Convention Hall in Philadelphia to the west coast of California.

### THANKS FOR HELP

When asked to whom he attributes most of his success, he mentioned his high school coaches first. "Then I can't forget Cal Irvin who really put me on the stepping stone to the pros." "Next there was Vince Miller, whom I owe all the thanks and gratitude in the world for persuading and helping me to try out with the Warriors."

"I must not forget about the Physical Education Department for its faith and support." "I would like to thank all who had faith in my making the pros, especially my fellow Aggies who diligently sat in front of the T.V. screen whenever a Warrior game was televised and pulled for me and my teammates."

A&T was glad to have Al back and from that smiling face, Al was glad to be back.

## A&T Lyceum Committee Presents Racine's Phaedra

Spring is in the air — the typical time when the uppermost thought in most minds is love.

Racine's Phaedra will be presented May 10, 1961, by the Community Players Guild of Winston-Salem, in the Richard B. Harrison Auditorium at 8 P.M.

Racine's Phaedra is the tragic love story of Phaedra. She is married to Theseus, King of Athens, and falls in love with his son Hippolytus.

News of the death of Theseus reaches Phaedra and her nurse, Oenone, tells her she may now see her stepson without fear of reproach. Hippolytus, when told of her love for him by Phaedra, scorns her advances.

Later it is learned that Theseus is not dead. This frightens Phaedra, who wonders what Hippolytus will tell his father. Oenone advises Phaedra to accuse Hippolytus first of attempted advances to his father. Hippolytus is banished.

It is discovered, during this time, that Hippolytus loves Arcis, a girl who has been held a slave in the palace by Theseus. Theseus discovers that he has falsely accused

his son because of the lies of Phaedra and Oenone, but it is too late.

Theramenes tells him of the death of his son at the hand of a monster sent from the sea by Neptune. Theseus has to face his grief alone for Oenone kills herself after being denounced by Phaedra for giving ill advice. Phaedra decides to die also by committing suicide.

## Twenty-Eight Complete Course

Twenty-eight A&T College seniors recently completed a course in advanced first aid. The course is part of the physical education major which the students are taking. After finishing the advanced course, many students desired to continue training until completion of the instructor's course.

The training was continued through Dr. William M. Bell, director of physical education, and an authorized instructor-trainer for Greensboro Red Cross chapter.

Mr. Garland Murray, director of safety services for the Red Cross Chapter stated that native chapters of students may issue instructor authorizations and assign them to teach class.

All 28 students enrolled in the course completed the requirements and were assigned certificates.

# L&M

### L&M Campus Opinion Answers:

**Answer, Question #1:** Six highest scoring individuals: 1. Kennedy — 2. Eisenhower — 3. Stevenson — 4. Schweitzer — 5. Frost — 6. Sandburg

(This question was asked February 1961. Note: Dr. Schweitzer is not an American.)

**Answer, Question #2:** Yes 30% — No 70%

**Answer, Question #3:** Close my eyes 76%  
Don't close my eyes 11%  
Can't remember 13%

**Answer, Question #4:** A filter which is white inside and is wrapped in colored paper 21%

A filter which is dyed a color and is wrapped in white paper 5%  
A filter which is white inside and out 74%

L&M was first to offer you a pure white modern filter — the famous Miracle Tip — pure white inside, pure white outside. And L&M's modern filter enables you to fully enjoy the rich flavor of golden ripe tobaccos. So reach for flavor... reach for L&M.

The L&M Campus Opinion Poll was taken at over 100 colleges where L&M has student representatives, and may not be a statistically random selection of all undergraduate schools.

## 60 Students Attend Meet

Sixty high school sophomores and juniors were in attendance at the 1961 Junior Science Symposium held on this campus April 13-15.

The symposium had as its purpose the search for scientifically talented youth of high school age in the state of North Carolina. It also sought to promote the study of the sciences and mathematics at the high school level.

Dr. Samuel P. Massie of Fisk University, Nashville, Tenn., was the key speaker for the meet.

Throughout the three-day meeting, scientific lectures and demonstrations, all aimed at motivating the students, were presented. Among the guest lecturers were Dr. Herbert Speece, professor of Education and Science, North Carolina State College, Raleigh and Dr. E. G. Purdom, Guilford College, vice president of the North Carolina Academy of Science.

Other persons participating as lecturers were Dr. Artis P. Graves, chairman of the Biology Department; Dr. Cecile Edwards, professor of Nutrition; Dr. Donald Edwards, chairman of the Physics Department; Dr. Gladys Royal, professor of Chemistry; and Dr. Margaret Y. Jackson, professor of English — all of A&T College.

Dr. Robert S. Beale was director of the symposium which was sponsored jointly by the U. S. Army Research Office, Durham and the North Carolina Academy of Science.

By ERNEST L. JOHNSTON, JR.

### ALFREDA BROWN SEEKS LICENSE

Alfreda Brown, a physical education major, is awaiting results on acquiring officiating license. The WAA is sponsoring intramural softball games each evening in the Holland Bowl. Final plans are also being made for their annual camping trip. The trip which is usually held during the month of May for a day will find the members journeying to Virginia for their camping expedition.

### PLANS BALL

The Tender Loving Care Organization which is known as TELOCA is anticipating a gala affair at its annual Cotton Ball next month. Although plans are in the developmental stage all the nurses are looking forward to a grand time.

Like most other organizations, TELOCA is getting ready for election of officers.

### "Y" YEAR SUCCESSFUL

In what they term a successful year, members of the A&T College YWCA get ready to close this season out and lay their plans for 61-62. Officers for next year are Romonia Hargraves as president; Earlene Vines, vice president; Estelle Coley, secretary; Elmita Cogdell, assistant secretary; and Patricia Fulton, treasurer.

Committees include Madie Oliver, finance chairman; Bessie Rushing, recreation chairman; and Louetta Heckstall, religious life. Gloria Peacock, Marian Council, and Emily Gibbs make up the freshman "Y" committee.

### PROGRAM REVISED

The YWCA program will undergo a change for the next season. Working with the community services in Greensboro, the members plan to visit the L. Richardson Memorial Hospital, Old Folks Home, and the Rehabilitation Center. A Halloween party is being planned for welfare children. Also the group plans organized sports, such as, volleyball, ice skating, and bowling. All these sports will be incorporated with the community YWCA.

### CLOSER RELATIONSHIP

In order to establish a closer relationship with the faculty, the YWCA members are planning discussion groups between faculty and students.

When National YWCA Week was celebrated, the A&T members took part by visiting the Hayes-Taylor YWCA and exhibiting their skills in volleyball, table tennis and square dancing.

The YWCA members had their first retreat at the Pearson Street YWCA recently. At this retreat, next year's program was planned. Miss Geneva Holmes, dean of women was the guest at the luncheon.

### OPEN HOUSE PLANNED

With the high school seniors on campus this weekend, the Engineering Association is planning an open house for their benefit. This open house will include exhibits of the work students in the Engineering Association have done during the current season. The Association is looking forward to election of its officers.

### PRESENTS PROJECT

The society of Mechanical Engineers is in the process of developing a car. This car is an official project carried on by the members of the club.

Let us now take a fast swirl into Greekland, and leave our clubs to make their final plans for the year. On tap for the Greeks are spring quarter probates, dances, and picnics. The most talked about item on the Greek scene is the dances which the different Greek organizations sponsor.

### DELTA PROJECT BENEFICIAL

This year's Delta Sigma Theta probates will work on projects that will be beneficial to the college community at large.

The Deltas had Sylvia Dean and Edith Crowder as their representatives to South Carolina State College. The event was the regional conference of Delta Sigma Theta, Inc., April 7-9.

### ZETAS HAVE LONGEST LINE IN THREE YEARS

Producing the longest line in three years, the Zeta Phi Beta Sorority placed on line Jo Ann Carmen, Shirley Stickland, Gwendolyn Nelson, Alfreda Brown, Betty Barr, Cornelia Merrick, Glenda Mitchiner, Lillie Harding, and Philistine Nesmith.

The Zetas continue to stress their aims and goals toward finer womanhood.

All the big sisters and brothers got together last Saturday and gave all pledgees what was known as the little Mardi Gras. From all the talk, it was an event enjoyed by all the pledgees.

Over in Kappaland, the Kappa Alpha Psi Fraternity puts it S. S. Kappa afloat and went cruising down Kappaland. The scene was depicted aboard a boat with an outboard motor located in the gym to give a real sailing atmosphere. Mardi Gras, May 12.

# Aggie Track Team Finishes Second

The A&T College track team finished second in the Va. State College Relays which were held at Petersburg, Virginia last weekend.

Aggies' 53 point total was 8 points behind North Carolina's winning 61 point total. Virginia State had 42 points; Virginia Union had 25 points; and St. Paul managed to muster one point.

Miami speedster Eugene Cambridge won first place in the 100 yard dash with a time of 9.7 seconds. The junior flash finished a tenth of a second ahead of Foster of Va. Union.

Elbert Blanks easily won the high jump with a leap of 6'2". His closest rival was Harold Deane of Virginia State who leaped 5'8". Robert Urguhart was one of four men who tied for third place.

Lorenzo Stanford won the discus throw with a heave of 147' 11". Urquhart finished third and Lloyd Oakley was fourth.

Joe Taylor was runner-up in the javelin throw, with a toss of 162' 1 1/2" while John Thomas was third with 157' 5 1/2".

Bernard Haselrig took second place in the 880 yard run, and

Richard Wilson finished second in the mile run.

Frederick Keys finished third in both the high and low hurdles.

A&T took first place in the spring medley relays in a time of 342.9 seconds. This Aggie relay team consisted of Keys, Jerome Elps, Vernard Harris, and Wilson. Wilson was the anchor man on the team.

Richard Westmoreland finished second in the 220 yard run with a time of 22 seconds flat.

JOHNSTON your release of new officers, so how about letting us hear from you.

### SEABROOK - YOUNG TO HEAD WESLEY FOUNDATION

The Methodist Student Organization, which is better known as the Wesley Foundation is getting set for a good 61-62 school year. Initiating a new system, the Wesleyans have installed two presidents and vice presidents. Harold Seabrook and Paul Young are presidents with Patricia Fulton and Bobby Battle in the vice presidency spot. Aggie Martin was elected as secretary with Rosetta Blair as assistant secretary.

Jimmy Dowell was nominated to the post of treasurer and Ralph Holland, chairman of World Community.

The Foundation gave a social recently for its members in order to spread closer relationships among the Methodist students.

### BAPTISTS ELECT FENNEL

Another religious organization on campus that is widely known is the Baptist Student Union. The BSU members have Linnia Fennell as next season's president; Lawrence Price, vice president; Estelle Coley, secretary; Elaine Russell, assistant secretary.

Other officers of the BSU include Jerome Scippio as treasurer and Richard Robin, chaplain. When the BSU meets Sunday, the President, Linnia Fennell will be the speaker and emphasis will be focused on making the final plans for their social which will be held May 12.

### FORTNIGHTERS PLAN TRIP

The Fortnightly Club has planned a trip to Asheville before the school year terminates. They plan to visit the home of Thomas Wolfe.

On Tuesday, the fortnighters will hold a faculty symposium in the Bluford Lounge.

# Sports

BY ELBERT SLOAN

Although the A&T College baseball team has not played up to its potential thus far this season, it has been able to come through in clutch situations to keep its conference record clean. The defending CIAA champs, who have not lost in the last 27 straight conference games, are currently on top of the heap with a perfect 6-0 conference record.

Aggies have not lost a conference game since they bowed to Maryland State back in 1959 by a 9-1 score in Memorial Stadium. However, A&T avenged this defeat on the pitching of fireballer James Baten and Joe Cotton by a score of 5-4 in Princess Anne, Md. and went on to win the championship.

Last year, the Aggies won 12 of 13 games with one game ending in a 13-14 tie with Hampton. That game was called at the end of 11 innings because of darkness.

Aggie ace right hander Jim Baten is having the worst season of his career. However, he has posted a record of three wins and no losses. Baten has already given up six earned runs. In his first two seasons, he gave up only five earned runs. Last year, he posted an earned run average of 0.57. His career record is 9-00.

Baten has been able to pitch himself out of tight spots. In one game against Shaw he struck out two straight batters with the bases loaded.

Clean-up batter Hugh Evans is way off his hitting potential. On the other hand, Evans has always been able to get the big hit. His grand slam homer gave the Aggies a 9-6 victory over the Elizabeth City Pirates.

Robert Faulkner has fallen into a deep slump and his batting average has tumbled to .269. Cornell Gordon is also in a slump as his batting average has dropped all

## Evans' Homer Downs ECTC Nine To Six

Hugh Evans hit a grand-slam home run in the bottom of the eighth inning to lift the A&T Aggies to a 9-6 victory over a highly determined band of Elizabeth-City Pirates.

The Aggies were trailing 6-5 with two out and two strikes on Evans when the clean-up hitter unloaded a towering drive over the left field fence in Memorial Stadium.

Lefty John Edwards started on the mound for the Aggies. He hurled six innings, yielding 3 runs on 5 hits. Two of the runs were earned. He struck out six and walked two. James Baten relieved him and struck out seven batters in three innings. Baten was credited with the victory.

McAdoo and Faulkner each had three hits in four at-bats. McAdoo had three singles and drove in a pair of runs while Faulkner had a triple and two singles and three rbi's. Gordon and Sim Bowden each went 2 for 5.

	R	H	E	
Elizabeth-City	0	0	0	2 1 3 0 0
				-6 10 4
A&T	1	0	0	4 0 0 4 X
				-9 14 5

"STYLE" WITH BUILT IN "QUALITY"

### The Slack Shop

GUILFORD BUILDING

A&T Emblems Always on Hand

the way to .250. But Gordon and Faulkner both, like Evans, have been able to come through in the clutch. Their consecutive hits provided the winning margin in a 7-4 victory over Shaw.

Sim Bowden hasn't found himself at the plate either. Bowden, who hasn't batted under .400 in his college career, is batting at a .333 clip. He has the fastest pair of wrists on the team but his timing is off.

The brightest spot in the lineup has been Lawrence "Big O" Olds, whose .500 batting average paces the team. Olds drove in the winning run in the season's opener against Delaware State with a single to give A&T a 6-5 victory in 10-innings. Team captain Calvin "Chubby" Lang is hitting at a torrid .416 clip.

The Aggies have good defensive strength with James Proctor at third base and James McAdoo at the keystone position.

The base running has been exceptionally good with the Aggies making 34 thefts in just 6 games.

The mound staff is secure with fireballer Arnold "Moon" Davis, who has an assortment of pitches including a knuckle ball; John Edwards, Frank Perkins, and Theodore Foreman backing up Baten.

So, it seems logical to conclude that if the Aggie power hitters break out of their slump, A&T can expect to win its third straight CIAA baseball championship.

## Aggies Hand Shaw Bears Defeat

Ace righthander James Baten settled down after a shaky start to pitch the Aggies to a 7-4 victory over the stubborn Shaw Bears. The game was played at Finch Field in High Point.

Baten chalked up 13 strikeouts in going the distance for the win. He gave up three earned runs in the first three innings then settled down to allow only one unearned run in the last six frames. He gave up four hits and six walks and hit one batter.

The Bears scored twice in the third inning to go ahead 3-2. Aggies tied the score in their half of the third when Sim Bowden walked, stole second and scored on Calvin Lang's single.

A&T merged ahead again in the next inning when Baten singled and scored on Cedric Braswell's double.

Shaw tied the game again in the top of the sixth at 4-4. However, the Aggies tallied twice in their half of the sixth to go ahead 6-4. James McAdoo led off the inning with a walk. When Shaw pitcher Dan Carter threw wild to first in an attempt for a pick-off, McAdoo moved to third. After the second out Cornell Gordon walked and Robert Faulkner and Hugh Evans hit back-to-back singles to drive in a run each.

Braswell went 3 for 5 with two doubles and a single. Baten had two singles in four at bats.

## Aggies Triumph Over Fayetteville Twice In Hitting Olds Paces Aggies

A&T Aggies walloped Fayetteville State Broncos 10-3 at Fayetteville and 17-4 in Memorial Stadium by capitalizing on every scoring opportunity.

Freshman southpaw Frank Perkins got credit for the victory at Fayetteville. He hit a grand-slam home run in the second inning to put A&T ahead 8-0. Perkins pitched 6 2/3 innings, yielding 4 hits and 3 runs, only one of which was earned. He walked four and struck out six.

Robert Kornegay relieved Perkins and pitched 1/3 inning in the abbreviated 7 inning contest.

Hugh Evans hit a solo homer in the seventh inning to cap the scoring for A&T.

When the Broncos came to Greensboro, the Aggies wasted no time going to work. Starting pitcher Wilbur Jenkins walked four batters in the first inning before big Lawrence Olds hit a screaming in-drive double to drive in a pair of runs. The Aggies tallied five times in the frame.

Aggies scored two more in the third when Charlie Dillard led off with a single and moved to third on Olds' second straight double. Pitcher Arnold "Moon" Davis banged a single to left field to score both runners.

A&T pushed across 5 runs in the sixth. The inning was highlighted by Evans' booming triple that drove in two runs.

Davis chalked up the victory by easily disposing of the Fayetteville batters. He pitched 5 innings of the 7-inning game and gave up only one hit. He walked 3 and struck-out 5. The three runs that were scored off him were unearned.

*Maury Wills*  
fleet, nimble shortstop of the L.A. Dodgers, says...

"Taste—and plenty of it—is what won me over to Tareyton, and I'm sure going to stay with them. They give me a real good smoke every time."

## Tareyton delivers the flavor...

DUAL FILTER DOES IT!

HERE'S ONE FILTER CIGARETTE THAT'S REALLY DIFFERENT!

The difference is this: Tareyton's Dual Filter gives you a unique inner filter of ACTIVATED CHARCOAL, definitely proved to make the taste of a cigarette mild and smooth. It works together with a pure white outer filter—to balance the flavor elements in the smoke.

Tareyton delivers—and you enjoy—the best taste of the best tobaccos.

Product of The American Tobacco Company—Tobacco is our middle name—A.T.C. DUAL FILTER Tareyton
