Fall Registration To Begin September Fifteenth

FALL QUARTER

September 7-8 — Thursday, Friday — Pre-Session Faculty Conference
September 11-12 — Monday, Tuesday — Thanksgiving Week Program
September 14 — Thursday — Registration, Freshman
September 15, 16 — Friday, Saturday — Registration, Upperclassmen
September 19 — Tuesday — Fall Quarter Convo.
September 22 — Friday — Last day for making changes in schedules

Winter Quarter

December 20 — Tuesday — Fall Quarter Convocation (Honor's Day)
November 5-11 — American Education Week

Spring Quarter

March 6, 7 — Monday, Tuesday — Thursday, Wednesday — Winter Quarter Examinations

SPECIAL DAYS

November 1 — Thursday — Founder's Day
January 9 — Tuesday — Winter Quarter Convocation
January 3, 1962 — Wednesday — Classes resume
January 14, 15, 16 — Friday, Saturday — Registration, Upperclassmen
January 18 — Monday — Classes begin

ENGINEERS

The Engineers student newspaper is designed to acquaint the senior engineering student with some of the problems associated with industry. It also serves as an indoctrination for the students in basic engineering subjects.

In addition, the inspection tour gives the student a practical phase of engineering in industry.

Students majoring in mechanical, architectural, and electrical engineering participated in the tour.

Professors Present Papers

A&T College professors of biology, chemistry, and nutrition present papers at a meeting in Durham April 13-15.

The eighteenth anniversary meeting of the National Institute of Nutrition of the Convocation of Beta Kappa Chi Cosmetic Society, North Carolina College was the host college.

Three papers were presented at the college section by members of A&T faculty. The first of these papers was "Hypoglycemia: A Technique for Short Term Biological and Nutritional Experiments?" (Monica Evelyn L. Galadie, Dr. Curtis H. Edwards, and Dr. Gerald A. Edwards).

Dr. Nilsannda Ball's paper was concerned with "Efficiency of Vitamin B12 in the Male Experimental Organ." One of his articles, "Pharmacology of the Enzymes," appeared in the Indian Veterinary Journal, vol. 30, no. 1, January of this year.

The third paper was "Physiological and Metabolism of Substituted Mass Protected by Some Treatments." (Dr. George B. Brown, Dr. Gladys W. Royal).

In the chemistry section, five papers were presented by representatives from A&T College. George A. L. Grant undergraduate research participant read "Iron, Manganese, and Copper in Hemocyanin." (George A. L. Grant, Dr. Cecil H. Edwards, Miss Evelyn L. Galadie, and Dr. Gerald A. Edwards).

Other A&T student participants were James G. Rice and John C. Holday.

Col. Martin is Banquet Speaker

Industrialist, Lt. Colonel John T. Martin, is to deliver the keynote address at the annual dinner sponsored by the Kappa Mu National Honor Society.

Col. Martin is married and has five children. He attended the Purple Heart, Bronze Star and the Purple Heart Medal. He is a graduate of Howard University and the Virginia Military Institute. A member of the "Old Historic 262nd Infantry Regiment."

His first overseas duty was with the forces in Italy during World War II.

Colonial Martin is married and has five children. He has been awarded the Purple Heart, Bronze Star and the Purple Heart Medal. He is a graduate of Howard University and the Virginia Military Institute. A member of the "Old Historic 262nd Infantry Regiment."

His first overseas duty was with the forces in Italy during World War II.

To Stand Or To Falter

How strong is our Student Government if it does not stand behind its rulings?

In a recent mass meeting, the decision by the government to rule an applicant for president ineligible was challenged by a few students.

The government's ruling was made in accord with Article IV, Section 1 of the Constitution: “No student shall be eligible for the Presidency or membership on the council who has a condition or failure against him that has not been removed...” This applicant had what the government considered an unresolved failure on his record.

Those in favor of the applicant argued that it is impossible to actually remove a failure therefore that particular qualification should be invalid.

The government members made their decision on the basis that the word “removed” might be a bit ambiguous but the meaning is generally known by all.

In light of this general understanding, there is a section in the official college catalogue titled “removal of failure.”

Seemingly those two factors would have given the Student Government sufficient strength for backing its ruling.

It was surprising to hear proxy Walter Jordan Jr., alter his original position of stating the Government's ruling as definite and suddenly a compromise to the mass group. He stated that a mass meeting be held to decide whether or not the student body wanted to reverse the Student Government’s ruling.

We aren't experts on the law but if such a thing as this could be done it makes one wonder: (1) wouldn’t such a move mean that other applicants would have the right to ask the student body to decide upon their eligibility? (2) Wouldn't such a move also give leeway for other decisions of the Student Government to be reversed?

Of course we want our government to be fair but we also want it to be strong.

Four Troubled Areas

The Laos crisis quietens; the Congo situation continues to revolve around the same questions; confused Cuba becomes more involved; and Algeria comes to a gigantic complication.

It was just a few years ago when thousands of Cubans acclaimed the triumph of Fidel Castro. Since then Cuba has been surrounded by millions of people.

Fighting in Algeria has been periodical for more than six years. When an end to the fighting appeared to be finally in sight, Algeria broke out into flames.

A troubled spot which has caused the greatest amount of world tension lately has been Laos—a country striving for neutrality, yet cornered between Communism and the free world.

Since the riots initiated by Lumumba in 1959, tragedy has been the only experience which those who feel that the violence has ended, the UN continues to debate the Congo crisis.

Whatever answers are given to these questions, it is safe to presume that things will probably get hotter before they cool.

Role Of Campus Press

(ACP)—Should college newspaper journalists promote the cause of individual liberty, or the community? Should they be21 involved in political matters at all? These are questions that arise in discussions of college journalistic policies, and which often are hotly disputed by those students who feel that their inherent liberties are being curtailed, and by the faculty and administrative office, who feel that they are often censored by irresponsible students looking for something about which to be controversial.

Some say that one builds character by letting students correct the errors they have made. But that is the wrong thing to do. If the student body is allowed to correct the errors they have made, then they will not learn from those mistakes.

We believe that a college paper can do through the use of a provocative editorial approach. It can help cause the students to react to the written opinion and take a stance in favor or against—drawing them away from the passive stance they normally take today.

Any promotion of ideals and the criticism of ideals must be left to the students themselves. Pertinent things can still be raised. Conflicting student groups can defend their own positions. Interested groups can push for reforms. The student can be his own critic and his own defense.—Lowe and Clark College, PIONEER LOG.

Army Cadets Maneuver On Farm

In case you wondered whathape happened to the group of eager looking cadets who staggered into the dining hall Saturday night, I hope you were among the advanced cadets.

Those cadets had just come from maneuvers on the college farm, down on the farm, which seemed to indicate that they had learned in the classroom into practice, and the students reviewed what they had done in maneuvers.

Maneuvers consisted of a combat patrol mission and a platoon in the attack. Members of the senior class, under the leadership of the junior class, was the instructor of the maneuvers.

Those maneuvers, planned by members of the senior class, were designed to prepare that portion of the cadets which are being administered to members of the junior class by the seniors.

This pre-senior camp organization is being given an added impetus because those who were juniors last year realized their shortcomings and are determined to prevent this year's junior class from having the same problem that they had encountered. After the completion of the exercises, members of the different groups were critiqued.

The maneuvers were supervised by the following officers: Captain H. D. Davis, Jr., Harold Jenkins, Sgt. David L. Harris and Pvt. Gliff Gibson.

Report From The College Council

By Cleveland M. Black

Reports of various committees were made at a recent session of the College Council. There was a request to use Crosby Hall on the campus to go to the Coliseum for skating and other special events.

A proposal was as follows: 1) Permission for the young ladies on the campus to go to the Coliseum for skating and other special events. 2) Permission for all young ladies to wear slacks and shorts on Saturdays.

A request for financial assistance from the college to help the Student Council to purchase state and bicentennial souvenirs.

The above proposal was referred to a Council committee for discussion. A complete report will be given at the next scheduled Council meeting.

Jazz Concert Presented

At A&T

Bill Taylor and his Trio presented a concert last night at A&T College in the Charles Moore gymnasium a pleasant evening of modern jazz.

The group, including Roy Mora on the drums, Burt Williams on the bass, and Taylor at the piano, apparently pleased the students from the appreciative crowd.

The group played fire of Taylor's own compositions: These included "Jitterbug," "Primo," "Just The Two of Us" and "One That Got Away".

KAMPUS BEAT

By DeE

DEE'S DELIGHT: As time goes by, so do different fads come and go.... Now something that used to take the spotlight was pony tails the girls used to wear.... Boys looked even more studious with their Caesar hair cuts. Remember those were just the advanced cadets.....

At A&T... the time dirty ducks were the kicks. .... Not only do clothes and styles become popular, but dance crazes as well. .... Dance. songs, the Slop, Madison, Shimmy, Kentuckian, Continental, Camel Walk, Big Apple, Mahto Potatoes, and many, many others were learned and soon forgotten.

AT LINDSAY AND LAUREL STREETS: That gang in front of the new canteen gets larger and larger with each warmer day. .... The young man ordering hot chocolate in 70 degree weather, .... We will get hot cakes for breakfast again long before school closes. .... In another week or so, candidates will begin their mad rush to don their finest clothes and styles become popular, which was the senior class day, senior picnic, baccalaureate, and Mother's Day.

DANCE: As time goes by, so do different fads come and go.... Now something that used to take the spotlight was pony tails the girls used to wear. .... Boys looked even more studious with their Caesar hair cuts. Remember those were just the advanced cadets.....

FAB LOVERS: This month the boys are all on the dance floor. Everyone wants to be the big ball to top off the dance craze. Remember the time dirty ducks were the kicks. .... Not only do clothes and styles become popular, but dance crazes as well. .... Dance. songs, the Slop, Madison, Shimmy, Kentuckian, Continental, Camel Walk, Big Apple, Mahto Potatoes, and many, many others were learned and soon forgotten.

BROKEN LAWS: After one week I'm pretty sure where I could have been in December when the royalties came in. It is safe to assume that the royalties in the month of December were larger than the royalties in the month of January.

DANCE: As time goes by, so do different fads come and go.... Now something that used to take the spotlight was pony tails the girls used to wear. .... Boys looked even more studious with their Caesar hair cuts. Remember those were just the advanced cadets.....

Three Students Attend NSA Leadership Conference

Jack Ezzell, George Gant, and Tommy Gaddie recently attended the National Students Association Leadership conference held at Duke University.

The conference, held April 14 through 16, brought together students representing schools from Virginia, North Carolina, and South Carolina. The conference was designed to give students ideas on things that they could do to improve their college and to try to help students with some of the problems encountered on their campuses.

The Volunteer

What is the Peace Corps looking for in a Volunteer?

The Peace Corps is interested in searching for leaders. A student interested in serving as a Volunteer will be industriously less than their counterparts at home. This is the kind of individual requested by the Peace Corps.

In order to participate in the Peace Corps, the student must be at least 19 years of age. The student must be a citizen of the United States. The student must be a college student or have completed one year or more of college.

The Peace Corps is a volunteer organization. It is not a government agency. The Peace Corps is an independent, non-profit organization. The Peace Corps is a volunteer organization. It is not a government agency. The Peace Corps is an independent, non-profit organization. The Peace Corps is a volunteer organization. It is not a government agency. The Peace Corps is an independent, non-profit organization.

The Peace Corps is interested in searching for leaders. A student interested in serving as a Volunteer will be industriously less than their counterparts at home. This is the kind of individual requested by the Peace Corps.

The Volunteer will learn as much as he possibly can. He will learn from the people he works with. He will learn from the people he works with. He will learn from the people he works with. He will learn from the people he works with. He will learn from the people he works with.

The Volunteer must have a good sense of humor. He must have a good sense of humor. He must have a good sense of humor. He must have a good sense of humor. He must have a good sense of humor.

The Volunteer must be adaptable enough to withstand frustration. He must be adaptable enough to withstand frustration. He must be adaptable enough to withstand frustration. He must be adaptable enough to withstand frustration. He must be adaptable enough to withstand frustration.

The Volunteer must be able to fit in a worthwhile social position in whatever community, city, or state he may be. College Bursar, A Man Of Habbies

Mr. L. A. Wise

by to insure perfection. Mr. Wise, in this case, is a graduate of New York Institute of Photography through a correspondence course. He is able to buy most of his supplies from the local Carolina Camera Center.

A second hobby of Mr. Wise's is that of artificially arranging shrubbery, flowers, small trees, and caring for the grass in his lawn.

"The most interesting feature of this hobby," he said, "is that it is restful."

He knows each plant individual and can tell you practically anything you wish to know about it. This knowledge is the result of library study.

The third hobby, as discussed by Mr. Wise is that of church work. This you may not think of in the sense of being a hobby, but it is for Mr. Wise. He considers his work with the church extra curricular rather than simply rendering services.

Working with the church is the hobby he has been enjoying longer than those previously mentioned — practically all of his life. It has been more concentrated since he has been in Greensboro, especially since the building of the church was established. He speaks of this hobby as being "inspirational."

Mr. Wise holds many positions at the Institutional Baptist Church here in the city. He is a member of the deacon board, trustee board, finance committee, the treasurer, and leader of ward No. 5. In addition, he is chairman of the men's day committee.

In addition to these hobbies previously mentioned, Mr. Wise has a collection of over 400 books on various subjects and more than 25 fountain pens.
Romeo And Juliet — A Modern Concept

By Laverne Maddox

Alfred Brown seeks license

Alfred Brown, a physical education major, is awaiting results on acquiring officiating license. The WAC is sponsoring intramural softball games each evening in the Holston Field. Final plans are also being made for their annual camping trip. The trip which is usually held during the month of May for a day will find the members journeying to Virginia for their camping expeditions.

Plans Ball

The Tender Loving Care Organization, which is known as TELC, is undertaking a gala affair at its annual Cotton Ball next month. Although plans are in the developmental stage all the nurses are looking forward to a glad time.

Like most other organizations, TELC is getting ready for election of officers.

"Y" Year Successful

In what they term a successful year, members of the A&T College WYCA get ready to close this season out and lay their plans for '62. Officers for next year are Roseline Hanspaw as president; Barbara White, vice president; Estelle Coley, secretary; Anita Cowling, assistant secretary; and Patricia Fuller, treasurer.

Program Revised

The WYCA program will undergo a change for the next season. Working with the community services in Greensboro, the members plan to visit the Jefferson Memorial Hospital, Old Folks Home, and the Center. At this time of year, the Halloween party is being planned with very young children. Also the group plans organized sports, such as, volleyball, bowling, and soccer. All these sports will be incorporated with the community WYCA.

Closer Relationship

In order to establish a closer relationship with the faculty, the WYCA members are planning discussion groups between faculty and students.

National YWCA Week

Kappa Sigma Theta is the little Mardi Gras. From all over the South, the Kappas will turn out in force, including the Aggie relay team, and have their fun Monday night. The party will be held in the Blufford Lounge.

**Aggies Triumph Over Fayetteville Twice**

**In Hitting**

**Olds Paces Aggies**

Big Lawrence Olds is leading the first place Aggies in hitting with a .395 batting average. Olds has 7 hits in 18 at bats.

Team captain Calvin Lang has had 5 hits in 12 at bats for a .416 average.

Lang leads the team in hitting with a .375 clip. He has one double and one homer among his five hits. Right fielder in this department is Hugh Evans. Evans has a slugging average of .760 with a double, triple, and two home runs among his 17 hits. He has been at bat 23 times.

Robert Faulkner has the best batting average. He has committed only two errors in 51 chances for .960 fielding average.

Sim Bowden leads the team in doubles with 7 hits while Cornell Gordon has 6.

Jim Baten picks up the mound staff with three wins against no defeats. He has struck out 34 batters in 24 innings and yielded 6 earned runs for a 2.25 earned run average.

Arnold "Moon" Davis has pitched only 4 innings and has not given up an earned run. He has 5 strike outs. Frank Perkins has a 1.83 earned run average in 22.3 innings going to work. Starting pitcher Wilbur Jenkins walked four batters in the first inning before Lawrence Olds hit a screaming line drive double to drive in a pair of runs. The Aggies tallied five hits in the frame.

Aggies scored two more in the third when Charlie Dillard led off with a single and moved to third on Olds' second straight double. Pitcher Arnold "Moon" Davis bungled a single to left field to score both runners.

A&T pushed across 5 runs in the sixth. The inning was highlighted by Evans becoming triple that drove in two runs.

Davis chucked up the victory by easily disposing of the Fayetteville batters. He pitched 5 innings of the inning game and gave up only one run. He pitched 3 and struck out 5. The three runs that were scored off him were unearned.

---

**SLOAN**

Although the A&T College baseball team has 15 players, there is potential for this season, as they have been able to come through in clutch situations to keep their opponents at bay. The slugging CIAA champs, who have not lost in the last 27 straight conference games, currently are on top of the heap with a perfect 6-0 conference record.

Aggies have not given up a conference game since they lost to Maryland State 6-5 by a 5-1 score at the old Memorial Stadium. However, they have averaged this defeat of 2.91 runs in 2.1 innings.

The brightest spot in the lineup has been Lawrence "Big O" Olds, whose 300 batting average places him among the leaders. Olds drove in the winning run in the season's opener against Delaware State with a single to give A&T a 6-5 victory in 10 innings.

Team captain. Calvin "Chubby" Lang is hitting at a torrid .416 clip.

The Aggies have good defensive strength with James Preston at third base and James McAdoo at the keystone position.

The base running has been exceptionally good with the Aggies making 14 steals in just 6 games.

The mound staff is secure with Ace righthander James Baten leading the team in pitching for a 2.25 earned run average. He has 5 strike outs in 13 innings and yielded 6 earned runs for an earned run average of .537. His career record is 9-00.

Baten has been able to pitch himself out of tight spots. In one game against Shaw he struck out two straight batters with the bases loaded.

Clean-up batter Hugh Evans is off his hitting potential. On the other hand, Evans has always been able to get the big hit. His 3-run home run broke the heart of Greensboro, the Aggies wasted no time going to work. Starting pitcher Wilbur Jenkins walked four batters in the first inning before Lawrence Olds hit a screaming line drive double to drive in a pair of runs. The Aggies tallied five hits in the frame.

Aggies scored two more in the third when Charlie Dillard led off with a single and moved to third on Olds' second straight double. Pitcher Arnold "Moon" Davis bungled a single to left field to score both runners.

A&T pushed across 5 runs in the sixth. The inning was highlighted by Evans becoming triple that drove in two runs.

Davis chucked up the victory by easily disposing of the Fayetteville batters. He pitched 5 innings of the inning game and gave up only one run. He pitched 3 and struck out 5. The three runs that were scored off him were unearned.
