1027 Freshmen Choose To Join Aggie Family

A&T's Homecoming To Be Largest In History

The observance of annual homecoming to be held at A&T College on October 14-15 is expected to draw the largest turnout in the history of the College.

Jimmie Barber, dean of men and chairman of the event, said this week that delegations representing alumni chapters as far west as Detroit and Chicago and as far north as Buffalo, N. Y., have made reservations for the weekend activities.

FOOTBALL GAME

The football game, featuring the A&T Aggies and the Maryland State College Hawks, is the main event in the two-day celebration. The game has been set for the Memorial Stadium on Saturday afternoon beginning at 2:00 o'clock.

HOMECOMING BALL

The annual homecoming ball, featuring Bill Doggett and his Hammond Organ Group will be held at the Greensboro War Memorial Coliseum on Saturday evening. The annual worship service will be Sunday morning at 11:00 o'clock in the Harrison Auditorium.

Reunions have been arranged for all graduating classes with numerals ending in "one."

Activities will begin with a Coffee Hour sponsored by the local Gate City Alumni Chapter at 9:30 A.M. on Saturday in Cooper Hall. The reunion classes will hold meetings at 10:30.

PARADE

The longest homecoming parade in the history of the event is expected to leave the campus at 11:00 A.M., and to wind through downtown Greensboro, arriving at the stadium shortly before game time.

A pre-game show featuring ROTC drill teams and the A&T College Marching Band will begin at 1:00 P.M.

Miss W. Harrison Is Page Editor For Tribune

Wilhelmina E. Harrison, a 1961 graduate of A&T, has been named to edit a "Youth in Action" page for the PHILADELPHIA TRIBUNE.

The page, which will first appear October 3, is being called one of the most significant milestones in the 75-year history of the TRIBUNE.

The Page will appear every Tuesday in the twice-weekly newspaper and will be exclusively written and directed by young people.

Plans have been made to exploit every phase of youth activities. Included will be articles concerning student government meetings, weekend socials, teenage fads, book reviews, and sorority and fraternity activities. Also included will be scholarship news, honor students, information on how to apply for scholarships, and many other worthwhile facts.

As an undergraduate, Miss Harrison was involved in many activities. She was associate editor of THE REGISTER, a member and officer of the Alpha Kappa Alpha Sorority, a member of the Fortnightly Club, and a member of the Student Government.

Dr. Samuel D. Proctor, left, president of A&T College, welcomes Major Willis J. Hubert, the new professor of Air Science in charge of the College's Air Force ROTC Detachment, and Mrs. Hubert. Major Hubert will head the Joint Corps this year. A graduate of Hampton Institute, he holds the M.S. and Ph.D. degrees from New York University. Mrs. Hubert is the former Miss Evelyn Robinson, Abbeville, La. They have two children.

Major Hubert succeeds Major Fred L. Allen, who held the post for five years.

Faculty And Staff Changes For A&T Are Announced

Several promotions and shifts among key personnel and the addition of others were introduced at the Faculty-Staff Orientation Conference.

DEAN OF GRADUATE SCHOOL

Leading the list of promotions was the naming of Dr. George C. Royal, professor of biology, as the new dean of the Graduate School. Dr. Royal came to the College first in 1952. A graduate of Tuskegee Institute, he holds the M.S. degree from the University of Wisconsin and the Ph.D. degree from the University of Pennsylvania. He heads a research project sponsored at the College by the U. S. Atomic Energy Commission. Dr. Royal served as acting chairman of the Biology Department during the academic year, 1959-60.

He replaces Dr. F. A. Williams, currently on a one-year leave as a visiting professor at the University of Khartoum in Khartoum, Sudan, Africa. Upon his return to this country, Dr. Williams will assume the newly-created post, director of Extended Services.

REGISTRAR

Mr. William H. Gamble, dean of men since 1940, is the new director of admissions. A 1939 graduate of the College, Mr. Gamble served for one year as recorder in the office of the registrar. He succeeds Mr.

Alumni Club Sponsors Excursion Back To College

The A&T College Alumni Club of Philadelphia is sponsoring a train excursion to Greensboro for the A&T College homecoming celebration October 14-15.

The train will leave Philadelphia on Friday, October 13 at 9:17 P. M., and will return early Monday morning.

The excursionists will attend a special coffee hour, witness the A&T College-Maryland State College Hawks football game, attend the annual homecoming ball, both on Saturday, a closing worship service, and visit about the campus and city on Sunday afternoon.

Eugene H. Preston is president of the Club.

C. R. A. Cunningham who returns to his former position as associate professor of biology.

DEAN OF MEN

Mr. Jimmie I. Barber, a former assistant dean of men and director of placement for the past two years, is dean of men. He graduated from A&T College in 1957 and holds the Master of Science degree in guidance and personnel administration from New York University.

Mr. W. I. Morris of Burlington, a former public school teacher, principal and field representative for the North Carolina Teachers Association, was named the new director of placement. A 1933 graduate of A&T College, he holds the M.S. degree from New York University and has done further study at Harvard and Purdue Universities.

Raymond Crump Accepts Post In California

Raymond Crump, a 1959 A&T College graduate, recently accepted a post with the Engineering Department of the North American Aviation Corporation in Los Angeles, California.

Crump will do research work for the aircraft firm in its electrical laboratories. He will be working with a company which pioneered and developed the F-100 Saber jets, the X-15 research rockets, and power plants for the Atlas Thor, and Jupiter Inter-Continental Ballistic Missiles. North American Aviation Corporation is now producing the F-h rocket engine which the United States hopes to use in sending a man to the moon and back.

For the past two years, Crump has been an instructor in the Physics laboratories at the College of Engineering of New York University. While at NYU, he pursued studies leading to the Master of Science degree.

As a student at A&T, Crump actively engaged in debating and was associate editor of THE REGISTER.

Freshman Class Exceeds Class of Sixty-Four By Approximately 375

Undergrad Enrollment More Than 2500 Male-Female Ratio Becomes Two To One

When 1027 freshmen descended upon A&T September 10, it brought the largest freshman class to the A&T College campus since 1948.

Proctor Praises Land Grant College Idea

Dr. Samuel D. Proctor, president of the college, delivered the main address at the fall convocation in Moore gymnasium Tuesday, September 26.

Speaking from the subject, "Democracy In Education — The Land-Grant College Idea," he told the capacity audience that these colleges and universities have brought democracy into education.

PROGRAM SETS STAGE
The program was intended to set the stage for the A&T celebration of the Land-Grant College and University Centennial being observed during the 1961-62 academic year by similar institutions throughout the nation.

"First," he said, "the Land-Grant college and university idea has brought democracy into education by destroying the notion that only the children of the 'first families' should be educated and by spreading higher education over the whole population."

HOLDS UMBRELLA
He said the idea also includes wider areas of activity and interest and the Land-Grant college now "holds the umbrella of learning over every field."

"Finally," he said, "without saying it, this movement was designed also to level-off opportunity and to give more and more Americans a chance at equality."

SPECIAL SIGNIFICANCE
"The Land-Grant movement has had special significance to the American Negro in that it has brought to him a part of an underprivileged group at low cost, 'the biggest education bargain,' the world has ever known," said the speaker.

NEGRO ACHIEVEMENTS
Pointing with pride to the achievements of Negroes, products of the Land-Grant college and university, Dr. Proctor told the audience to look at the results. We have not only a vanguard of professionals, but we have developed what every strong people must have . . . a growing middle class of merchants, artisans, technicians, specialists, engineers, accountants and social workers."

(Continued on page 2)

New Science Grant Given To College

A&T College this week was awarded a Federal Health Research Facilities grant of more than \$88,000 to underwrite added construction and equipment costs for a proposed annex to its chemistry building.

The grant, authorized by the surgeon general of the National Institutes of Health, Washington, was announced Thursday by Dale R. Lindsay, chief, Division of Research Grants.

(Continued on page 2)

Sophomores enrolled total 566 with 402 men students and 164 women.

Seniors rank third with 441, and juniors are fourth with 370.

Part time students are 121, with 63 men and 58 women.

The freshman class this year exceeded last year's by approximately 374. This increased enrollment brought a new picture to the housing problem. Dormitories were crowded early.

For the first time in several years, it was necessary to assign students living quarters in the basement of Scott Hall.

DORMS FULL

Holland Hall, normally holding all of the freshman girls was filled early Sunday with the overflow filling Curtis Hall by Monday afternoon.

The freshmen engaged in a weeklong orientation program. They received physical examinations, took English and mathematics placement test and engaged in other activities.

They were entertained at an all-freshman party, the President's reception, and a regular weekly movie.

FRESHMAN WORSHIP

Another highlight was the annual Freshman Worship Service.

The speaker was Reverend Cleo M. McCoy, director of the Chapel who delivered the sermon at the annual Freshman Service on Sunday evening.

Speaking from the subject "What Do You Have in Your Hand?" he said, "You are living in a grand and awful time, an age in which the wonders of science and nuclear power are becoming understandable, and one fraught with the international and political tensions."

He listed four opportunities which face the college student today, including: being aware of the various resources available in the college community for intellectual, moral and spiritual development; the opportunity to prove that college-age youth are mature enough to face up to their duties and responsibilities; to realize that conformity is not necessarily a virtue, or good, and to strive for the "high way," rather than the "low way" of life."

Bond Election Will Provide Student Union

The Bond Issue Election that will take place in North Carolina on November 7, includes provisions of more than \$30,000,000 for facilities in higher education. A&T stands to gain better than \$1,500,000 from this Bond Issue if the vote is favorable.

Included in the funds for A&T will be money to be used in the proposed purchase of the Lutheran College property. A&T has not bought that property; however, in as much as Lutheran College is no longer operating, the A&T administration is hopeful of annexing this land and these buildings (especially the gymnasium) to A&T's campus.

This purchase can be offered only through funds provided by the Bond Issue.

(Continued on page 2)

College Gets New Grant

(Continued from page 1)

USE OF FUNDS

Dr. Samuel D. Proctor, president of the college, said Friday that \$77,995 of the funds is to be used for construction and fixed equipment and the balance of \$10,281 is earmarked for other research equipment. The grant is being given under matching funds received under a State appropriation.

STATE FUNDS

An appropriation of \$450,000 from state funds already had been approved for construction and equipment of the new annex to Hines Hall, the chemistry instruction building. The federal grant will supplement these funds.

NEW FACILITIES

Dr. Gerald A. Edwards, chairman of the Chemistry Department and author of the federal proposal, said the new health research facilities which include areas for the study of animal and human metabolism, constant temperature rooms, dark rooms, a radioisotope laboratory and counting rooms.

Dr. Edwards, a Durham native, is co-investigator with his wife, Dr. Cecile H. Edwards, in a research project underwritten by the National Institutes of Health.

In addition to providing space for the health facilities, the new annex will provide needed space for the expansion of the college's chemistry program and the strengthening of the graduate program in that area.

CONSTRUCTION TO BEGIN SOON

With the approval of the new grant, college officials said the actual construction is expected to begin soon.

Changes

(Continued from page 1)

DEAN OF WOMEN

Mrs. E. Bernice Johnson of Durham, is the new dean of women. A native of Livingston, Ala., she is a graduate of the Alabama A&M College and holds the B.S. and M.S. degrees from North Carolina College. She has done further study at Cornell University. She served until last June as teacher of vocational home economics and dean of girls at the Merrick-Moore High School in Durham.

She replaces Miss Geneva Holmes who becomes assistant professor of social studies and advisor to foreign students.

Other changes include the elevation of Dr. Charles Hayes, former senior counsellor in the Guidance Center, to chairman of the department of Education and Psychology; and Mr. S. Joseph Shaw, director of teacher training, to the post of director of Evening Classes.

NEW FACULTY MEMBERS

Among other new faculty members introduced at the meeting were professors — Maj. Willis H. Hubert, air science; associate professors — Mrs. Elouise McKinney Johnson, formerly at Morehouse College, Atlanta, Ga., English; Dr. Joseph B. Jowers, formerly at Benedict College, Columbia, S. C., sociology; Dr. Eugene Marrow, former science specialist at the Library of Congress, Washington, D. C., botany; Mr. Edmund Moore, Jr., formerly at Saint Augustine's College, Raleigh, mathematics.

Assistant professors included Mr. M. K. S. Moorthy, electrical engineering, formerly at the University of Tennessee, Knoxville, Tenn.; Miss Jewellean Smith, pediatric nursing, formerly at the Homer Phillips Hospital, St. Louis, Mo.; Mr. Morrell Thompson, agronomy, formerly with the U. S. Bureau of Indian Affairs, and Maj. William J. Goode, Knoxville, Tenn., military science.

Instructors were Mrs. Lucille Jewell, Mrs. Margaret E. Falkener, both of Greensboro, English; Mrs. Lois B. Kinney, English; Mr. John Henry Morris, mechanical technology, formerly of Charlotte; Mr. Isaiah Trice, Boulder, Colo., physical education; Mrs. Patricia J. Trice, Greensboro and Boulder, Colo., music; and Miss Annette P. Williams, former linguist with National Security Agency, Washington, D. D., German.

Two faculty members who have been away on study leave also have returned this fall. They are Mr. Alfred Hill, professor of biology, and Mr. James Pendergrast, professor of chemistry.

When the new freshman class at A&T College presented its annual Talent Show recently these young artists were among the performers. They are, from left to right: Edna Blanchard, Hertford, pianist; Dyanne Echols, Newport, R. I., vocalist; and Larry Hodge, Dayton, Ohio, electric guitarist.

A&T Freshman Talent Show Draws Appreciative Crowd

The annual Freshman Talent Show held last Thursday night at A&T College, drew a packed and appreciative audience.

Among the performers who drew extended applause were Evander Gilmer, Greensboro, and Lyanne Echols, Newport, R. I.; both vocalists; a singing group, The Warren Campbell Group of Wilmington; an interpretative dance number by Anna Maria Lima, Providence, R. I., and a piano selection by Alice Poe, Charlotte.

Moses Kamara of Sierra Leone, West Africa, drew unusual note with his interpretation of African folk song and folk lore.

Other numbers filling out the 18-number program included: interpretative readings by James Fuller, Maxine Murray, Ola Sneed, John Brown, and Mary Pickett; piano selection by Edna Blanchard

and Alfred Maloney; vocal numbers by Harry Babemore, Ben Carter, and Suvollie Knight; a trumpet rendition by Renee Price and vocal group, The Vandaleers.

The program began with greetings by Jack Ezell, Roseboro, president of the Student Government; Dianne Bell, Greensboro, "Miss A&T," James Fuller, Philadelphia, president of the freshman class, and Harriett Davis, Columbia, S. C., "Miss Freshman."

Jeff Davis, Rocky Mount, was master of ceremonies.

Margaret Tynes Opens As Heroine In Strauss Opera

"I didn't really want to make love to John the Baptist's head," declared singer Margaret Tynes after performance of Salome.

Miss Tynes recently opened in Spoleto, Italy as heroine in a new production of the Strauss opera. Singing the role of Salome, the former Aggie presented the greatest performance of Strauss' sixteen-year-old heroine ever witnessed by an audience, according to some critics.

Marie Wittish threatened to withdraw from the Opera at its world Premiere in Dresden because "she was a decent woman." Miss Tynes made the heroine into a not so indecent woman, but rather a cannibalistic Sex Kitten.

As the Virginia-born soprano moved about the stage with catlike grace, her rich voice zoomed with ease through the high, precarious lines. By turns, Miss Tynes was willful, vindictive and enraged.

In a gold leotard, Margaret moved about the stage with such sinuous authority through the Dance of the Seven Veils that critics could not determine whether she was more gifted as a singer or a dancer.

In her final scene where she kissed John the Baptist's head, The Clergyman's daughter murmured "I have kissed your mouth, Jakanan, perhaps it was the taste of love."

Miss Tynes is a 1941 graduate of A&T College where the year before she reigned as campus queen.

Since leaving A&T, Miss Tynes has had many notable achievements. Among them have been a tour of Russia with Ed Sullivan; several Broadway shows and the one that Miss Tynes is most proud of, her appearance on the Jack Parr Show.

It was on the Jack Parr show that she became the first vocalist to be applauded by the orchestra.

Proctor

(Continued from page 1)

He continued, "We cannot rise if we have a handful of physicians, dentists, lawyers and college presidents, with everyone else sweeping floors, bagging peanuts and hauling cement; however honorable these may be. If we are to rise, we need to take the lever of education and set it firmly on the fulcrum of intelligence and hard work. Then, when the pressures of youth and inspired leadership are applied the people will rise."

SOMETHING RARE AT A&T

Dr. Proctor urged his audience, to, "let the word ring around the State and nation and around the world that at A&T there is something rare. The teachers really teach, and one has to learn for the very bricks at A&T cry out to you to slough off your complacency, to lift up your heads, to step out of the fetters of ignorance and sub-culture mores that have already fallen loose about your ankles, and be men and women of dignity."

Bond Election

(Continued from page 1)

There is also in the Bond Issue funds for a \$780,000 Biology Building, which is expected to be one of the finest centers for scientific instruction in the South.

The other major item in the Bond Issue for A&T is \$500,000 for one-half the cost of a million dollar Student Union. The other \$500,000 will come from Federal Loan. The Student Union will include guest rooms for housing conferences that will frequent our campus, recreation facilities, music listening rooms, eating facilities, rooms for student groups, and a cluster of other facilities that will add culturally and socially to the college program.

Later, every student will be given a chance to share in this by a campus wide campaign to get parents to vote on November 7 throughout the State.

Every State institution will benefit greatly from these funds for the increase in student bodies everywhere will require additional facilities.

An Advisory Committee for the Student Union will be appointed by the President, with student participation, for the purpose of planning carefully to make maximum use of the proposed Student Union.

A&T Receives Additional Grants

A&T College has been granted the additional sum of \$6070 for the program of Undergraduate Research Participation sponsored by National Science Foundation in the Department of Home Economics. This brings the current award to a total of \$12,140 and extends the program, to May, 1963. The new program began in June of this year.

STIPENDS AWARDED

Stipends in the program were awarded as follows: Lawrence Seibles, Greensboro, a sophomore chemistry major, \$690 for summer and academic year research; Minnie Ruffin, Tarboro, a sophomore majoring in foods and nutrition, \$690 for summer and academic year studies; George A. L. Gant, Greensboro, a junior chemistry major, \$690 for summer research and academic year; and Ivy Woolcock, Jamaica, B.W.I., a sophomore majoring in foods and nutrition, \$150 for academic year participation.

OUTSTANDING STUDENTS

The program makes it possible for outstanding students to participate in metabolic experiments with animals, and provides training in techniques such as paper chromatography, electrophoresis, autoradiography, the handling and detection of radioactive substances, and other special methods in nutrition research.

The NSF sponsored program in the Department of Home Economics is under the direction of Dr. Cecile H. Edwards, professor of Nutrition and Research, with the assistance of Dr. Gerald A. Edwards, chairman, Department of Chemistry, and Miss Evelyn L. Gadsden, research assistant, Department of Home Economics. Mrs. Clara Evans is Chairman, of the Department of Home Economics.

Woodrow Wilson Chairman Returns To Virginia

Chairmanship of Region V of the Woodrow Wilson National Fellowship program has returned to the University of Virginia after an interval of two years.

Dean Irby B. Cauthen, Jr., associate dean of the College of Arts and Sciences and associate professor of English at the University of Virginia, will head the selection committee for Region V which embraces Virginia, Maryland, the District of Columbia, Delaware, West Virginia and North Carolina.

For the past two years the chairmanship was held by Professor Richard Bardolph, chairman of the history department at Woman's College.

Dean Cauthen and his committee will screen candidates nominated by faculty members in the colleges and university of his region. Last year the Committee interviewed 197 candidates chosen from 851 nominees and elected 96 as Woodrow Wilson Fellows for 1961-62. Dean Cauthen served on the Committee for the past two years. He has published numerous scholarly papers, among them studies of the poetry of Edgar Allan Poe and the plays of Shakespeare. At present, he is editing a play by Beaumont and Fletcher, "The Coxcomb."

Campus Woodrow Wilson chairman is Dr. Leonard H. Robinson, dean of the School of Education and General Studies.

FULBRIGHT

Scholarships Available For Graduate Research

Only a month remains to apply for over 700 Fulbright scholarships for graduate study or research in 31 countries in Europe, Latin America, and the Asia-Pacific areas. The applications will be accepted until November 1.

Applications for Inter-American Cultural Convention awards for study in Latin America, and for awards for study in Ireland under the Scholarship Exchange Program between the United States and Ireland have the same filing deadline.

Recipients of Fulbright awards will receive tuition, maintenance and round-trip travel. The terms of awards to Ireland are the same as those for the Fulbright grants. IACC scholarships cover transportation, tuition and partial maintenance costs.

Fulbright Travel Grants to supplement maintenance and tuition scholarships awarded from other sources are also available to American students receiving awards for study and/or research in universities in Austria, Denmark, France, Germany, Israel, Italy and The Netherlands.

General eligibility requirements for these programs are (1) United States citizenship at time of appli-

cation; (2) a bachelor's degree or its equivalent before the beginning date of the award; (3) knowledge of the language of the host country; and (4) good health. A demonstrated capacity for independent study and a good academic record are expected. Preference is given to applicants under 35 years of age who have not previously lived or studied abroad.

Applicants will be required to submit a plan of proposed study that can be carried out profitably within the year abroad. Successful candidates are required to be affiliated with approved institutions of higher learning abroad.

Students enrolled at A&T College should consult Mr. L. C. Dowdy, the campus Fulbright Program Adviser, for information and applications. Others may write to the Information and Counseling Division, Institute of International Education, 800 Second Avenue, New York 17, New York, or to any of IIE's regional offices (see Letterhead).

Competitions for the 1962-63 academic year close November 1, 1961. Requests for application forms must be submitted by November 1.

A&T Awarded Funds To Support Research In Home Economics

Funds have been granted by the National Institutes of Health to A&T College for continuation of nutrition research in the Department of Home Economics. The award of \$39,075 is earmarked for support of "Utilization of Methionine by the Adult Rat."

FIVE YEARS

The investigation, which has been in progress for five years, involves a study of the utilization of one of the essential amino acids in protein. It is anticipated that information gained from this work will open new approaches to the study of the metabolic use of amino acids in proteins from foods such as meat, eggs and milk, and offer a better understanding of their importance in the diet.

DR. C. H. EDWARDS SUPERVISES

The project is supervised by Dr. Cecile H. Edwards, professor of Nutrition and Research in the Department of Home Economics. Working with her are Dr. Gerald A. Edwards, co-investigator on the NIH study and chairman of the Department of Chemistry; Miss Evelyn L. Gadsden, research assistant, Department of Home Economics; and two student assistants, Myrna Spencer and Mrs. Annie Staton. Four other students participate in the study through a National Science Foundation-sponsored program of undergraduate research; Minnie Ruffin, Ivy Woolcock, Lawrence Seibles, and George A. L. Gant.

Work on the new phase of the project will begin this month. The

new award increases the total grant for support of the study to approximately \$100,000.

Poetry Association Announces Annual Competition

The National Poetry Association has announced its annual college students poetry anthology competition.

All students attending a junior or senior college are eligible for participation in this competition.

There is no limitation as to form and theme, but shorter works are preferred by the judges because of space limitations.

Teachers and librarians are invited to submit poetry for possible inclusion in the Annual National Teachers Anthology.

Each poem must be typed or printed on a separate sheet of paper and must bear the name and home addresses of the students as well as that of the college.

The closing date for students is November 5, 1961; and the closing date for teachers and librarians is January 1, 1962.

There will be no charges or fees for acceptance or submission of verse. All works will be judged and published on merit alone.

Interested parties should mail entries to the National Poetry Association, 3210 Shelby Avenue, Los Angeles 34, California.

Salem refreshes your taste

Dag Hammarskjold

Dag Hammarskjold, the Secretary General of the United Nations is dead.

The dimension of this threefold tragedy cannot be known yet; the world only knows that he is dead. It is still too soon to know just how much hope and chance for peace died with him.

Dag Hammarskjold died far short of the years of useful life that might have been his; but aside from its being a personal tragedy, Hammarskjold's death was a public and political tragedy as well. In the eight years that he was at the U. N., Hammarskjold met and helped to clear up some of the most important crises ever faced by man.

Hammarskjold's death brings to the world many calamitous situations, but his death may also have been the blow that the communist bloc of nations have been waiting for. For some time now, the communist bloc has been threatening to unseat the Secretary General and replace him by a three man directorate made up of one of the western powers, one neutral power, and one communist power with each having a veto power.

Though the task of unseating Mr. Hammarskjold would have had to wait until 1963 for the communist bloc, it now becomes of primary concern for all members of the U.N. To select a Secretary General suitable to both the western powers and the communist bloc would mean a reconciliation of nations who have been unable to reach any suitable agreements on any major issues.

If the plan of the Soviet nations is adopted, it will certainly mean the collapse of the U.N. and peace. The veto power now belonging to the members of the U. N. would cause the U. N. to come to a stand still because the Soviets would undoubtedly use their veto power against any actions that they did not like thus paralyzing the U. N. And a paralyzed U. N. is the same as no U. N.

As a special monument to the tremendous amount of hard work and peacemaking Mr. Hammarskjold has done, all nation not in the Soviet Bloc should work together and save the institution that is the ONE shield and ONLY protector that they have.

The smaller nations should work together and try to save their only protector because this is all that they have, and it should not be allowed to be destroyed by larger powers that don't really need it anyway.

Freshmen Survive

Now that the ordeal of registration has been completed, some of the confusion has cleared and after all of this we see that our dear freshmen have survived. Yes, they have survived their first taste of college life and seem to have done so with much energy to spare. Let us hope that their spare energy will be spent wisely and that it will be enthusiastically put to the task of reaching the initial goal set out upon.

This may be the largest freshman class we have witnessed at A&T since '48, but will it be the largest graduation class that we have ever seen in '65?

The size of our graduation class in '65 depends upon the will, ambitions, goals, and hopes of those of you who are now freshmen. Not only does the size of the class of '65 rest upon the shoulders of the freshmen, but also the future of the world.

You may ask — how can this be? Well, the growth and development of the world depends upon what you contribute; and chances are if you do not complete your education, your chances of contributing something really worthwhile will be very few.

Now is the time to prepare for '65. Hard work, midnight oil, and little play are all on the road that you will travel toward a 1965 graduation date.

HAMMARSKJOLD — MISSING PART OF THE WHEEL

Presidents Welcome Freshman

Greetings,

WELCOME TO AGGIELAND!

As you unpack your trunks and meet new friends, remember that you have made an important choice in life already. The vocation that you will follow and, perhaps, the person you will marry have already been influenced by your choice to come to A&T. You have placed great confidence in us and we will respond by trying to provide for you the atmosphere, the incentive, the faculty, and the program to lead you to achieve at your maximum level of accomplishment.

Have fun, but do not major in fun. Try to do your work with such perfection that it becomes fun in itself.

You can never become homesick here, for this is your new home and we hope you like it.

Sincerely yours,

SAMUEL D. PROCTOR,
President

Dear Class of '65

Dear Class of '65,

You have entered college at a time when world tensions are high, when the need for dedicated and qualified personnel is at an all-time peak. A college affords one the opportunity to play an instrumental part in the advancement of his society.

As we welcome you to our beloved institution, we invite you to take part wholeheartedly in the activities prepared for the benefit of our college family. Remember, however, that A&T College must maintain its position as a center of education and progress in this intellectual era. This position cannot be maintained without the co-operation of everyone here; therefore, join with us not only in the fun but also in the work.

Very truly yours,

JACK L. EZZELL
President, The Student Government

Freshman Look At A&T

By RICHARD E. BARBER

"A&T is a wonderful place." This is what Edna Blanchard, an engineering physics major from Hertford, had to say about A&T.

Other freshmen interviewed had similar remarks. Sandra West agreed that A&T is a nice school; but she added, "the freshmen boys are so silly." Sandra is a sociology major from Newport News, Va.

James Fuller of Philadelphia, Pa., recently elected president of the freshman class, said, "A&T has a wonderful atmosphere. It gives one the initiative to achieve." Fuller is an architectural engineering major.

Many students took a much different view. Jacqueline Ruffin, a Nursery School Education major from Windsor, said, "The meals are awful."

"Standing in lines during registration is what I disliked most about A&T," said Aletha Washington. Aletha, a secretarial science major, is from Englewood, N. J.

James Winslow, industrial arts major from New York City, said, "I like A&T, but it is much too large."

Glenda Jones and Greatha Savage share the same opinion.

"We like A&T, but the curfew hours are outrageous," they said.

Most of the freshmen who were interviewed felt that a friendly and an intellectual atmosphere prevail. Both of these are essential for success in college.

Land - Grant

College Centennial

1861 - 1961

From Dudley Building

When you walk through the renovated Dudley Building, remember that this is not just new tile and paint. It represents the organization of our College and a scheme of tight, well-organized administrative machinery.

The College is organized around three basic units of administration — the academic, the student personnel, and the fiscal. These units are headed up in offices on the first floor of Dudley Building and are coordinated by Dr. S. D. Proctor, President of the College.

ACADEMIC UNIT

The academic unit is headed up by Dean Lewis C. Dowdy. While each dean is in charge of the programs of his own school, Dean Dowdy bears the responsibility where all-college academic policies are concerned. He is also responsible for allied academic functions, such as the Guidance Center, the Library, the ROTC, Summer School, Evening Classes, and Admissions. The college officers who serve these functions are directly responsible to Dean Dowdy.

STUDENT PERSONNEL

The next unit, Student Personnel, is supervised by Dean Glenn F. Rankin. He is responsible for coordinating services to students, such as Health Services, assemblies, placement, student aid food service, housing, discipline, and student organizations. The offices of the dean of men and dean of women are directly under this office.

FISCAL UNIT

The other major unit is the fiscal or budgetary, supervised by Mr. Harvey R. Alexander, the Business Manager-Treasurer. He is responsible for all college funds, properties, purchases, budgets, buildings, and new constructions. In new constructions, he is assisted by Dean Gerald M. Martena, the Dean of the School of Engineering.

Thus, on the first floor of Dudley Building, the major policies affecting the life and work of the college are born.

THE PRESIDENT

The President has the responsibility of coordinating these three units and running a "shop" of his own. In his shop, he has direct supervision of the offices of Public Information and Religious Life, headed by Mr. E. F. Corbett and the Reverend Mr. Cleo M. McCoy respectively, and a miscellany of other matters regarding classified personnel, government loans and contracts, faculty personnel, and relations with state agencies.

In these matters, he is assisted by Mr. Vance E. Gray, whose office is located next to the President's.

Also, the President is constantly keeping watch of the total movement of higher education and scrutinizing our program for improvement and new directions. In this, he is aided by Dr. Robert S. Beale, Director of Institutional Research, who doubles also as a Chemistry Professor.

OTHER OFFICERS

The other college officers function under one or the other of the above offices. The faculty members are responsible to their Department Heads and, through them, to the Deans of the respective Schools.

Students Study

2 Common Courses

HUNTINGDON, Pa. — (L.P.) — Juniata College's "restructured" curriculum, which will go into effect this year, provides for every student to proceed through two basic courses, one in the freshman year and one in the senior year; a distribution of courses, in all divisions; and an area of concentration in one department.

In the first basic course, all freshmen will study man's cultural achievement in selected epochs of world history. The senior basic course will open "to the widest possible integration of the several fields of knowledge" which the student has studied in the segmented pattern of particular courses.

Organizations Begin Work With Great Anticipation

By CARY BELL

After a long and prosperous summer the "Aggies" are again at their books and activities. Most of the organizations are off to flying starts under their able leaders.

FRESH CATCH SWING

The freshman class got right into the swing of things at its organizational meeting. The man who will lead the class of '65 is James Fuller of Philadelphia, Pa. Backed by one of the largest classes in A&T's history, Fuller and his organization should really go places.

The sophomore class is expecting a successful year. Its newly elected officers, under the leadership of President Cary Bell, are presently making plans for the homecoming activities.

BIG PLANS FOR JUNIORS

Ezell Blair has made big plans for the junior class. He and his fellow officers are busily setting up the machinery and getting ready to roll.

Not to be left behind, the class of '62 is also busy with plans. At the last meeting of the 60-61 school year, Richard Barber was tapped as the man to pilot the seniors through their last year of collegiate life. With Barber at the helm, this should be one of the best senior classes in years.

PLAYERS HARD AT WORK

The Richard B. Harrison Players are among the other organizations getting down to hard work. The players have just elected officers and intend to make this one of their most successful seasons. The new officers are Edward Lewis, president; Bettye Pierce, vice president; Cennette Fisher, secretary; Harriett Neal, assistant secretary and reporter; and Herman Thomas, treasurer. Twenty - one new members were welcomed to the group.

Planned for the 61-62 season are three student-directed plays and three major productions. The Fall Quarter production, The Mousetrap by Agatha Christie, will be presented November 15 and 16.

Mrs. Sandra Motz is director, with Mrs. Lois Kinney as assistant. Cadet Lt. Col. John F. Gordon was named president of the Scabbard and Blade Society early this week. Gordon is also Battle Group Commander of the Army ROTC.

Scabbard and Blade is composed of advanced army cadets and pro-

poses to instill high qualities of leadership into the future army officers.

Members include John F. Gordon, Richard E. Barber, Donald McClure, Alphonso Zanders, Walter Matthews, Douglass McMillan, Robert T. Jones, Bobby Rogers, Gaither Rodgers, James Hines, Fentree Morris, Naclane Waugh, William Lewis, Perry Rainey, and Henry Turner.

Major Harold L. Lanier serves as adviser for the group.

MRS. LUCILLE PIGGOTT

Regional Director

Mrs. Lucille J. Piggott was elected director of the Mid-Atlantic Region of the Alpha Kappa Alpha Sorority at the Boule in Chicago last month.

In her new post, Mrs. Piggott will supervise 40 chapters located in North Carolina, Virginia, and Bluefield, West Virginia.

Mrs. Piggott is a 1954 Summa Cum Laude graduate of A&T College where she was active in numerous organizations. She was top ranking freshman, a charter member of Pi Omega Pi, a member of Alpha Kappa Mu, Who's Who in American Colleges and Universities, Grammateus and Basileus of both her undergraduate and graduate chapters of Alpha Kappa Alpha Sorority.

As Basileus of Beta Iota Omega Chapter, Mrs. Piggott led 78 members, the largest chapter in the Mid-Atlantic Region.

The new regional director serves at her alma mater as secretary to the dean of instruction. She is the wife of head football coach Bert C. Piggott.

These young women from four new, independent nations are studying at A&T College this fall.

They are from left to right: Malissa McCauley, Liberia; Hilda Tamakloe, Ghana; Freda Urasa, Tanganyika; Mrs. Lotitia Robertson, Jamaica; Judith Jumaa, Tanganyika; Mrs. Frances Abraham, Jamaica; Louise Fanuel, Tanganyika; Mrs. Enid Lawrence, Jamaica; Mary Mackeja, Tanganyika; Miss Myrtle Smith, instructor in home economics at A&T and technical advisor to the group, and Mrs. Herman Aris, Jamaica.

The young women came here under a contract between the institution and the International Cooperation Administration, Washington, D. C.

Nurse Vines To Study At UNC

Mrs. Thelma Waddell Vines, head nurse at the college infirmary since 1943, has been granted a year's leave of absence for study.

Mrs. Vines entered the University of North Carolina this month under a traineeship grant awarded by the U. S. Department of Health, Education, and Welfare, Community Health Division.

She hopes to complete requirements for the master of science degree in public health education.

SECOND LEAVE

This marks the second leave that Nurse Vines has taken to improve her skills. She was granted a leave in 1946, and a year later she was awarded a certificate in medical technology by Meharry Medical College, Nashville, Tenn.

A graduate of A&T College, Nurse Vines received her nursing training at L. Richardson Memorial Hospital.

HEAD NURSE

As head nurse at the infirmary, Nurse Vines used every opportunity available to place HEALTH in its proper perspective — as a vital part of one's college training.

Lawrence Winters To Headline Lyceum List

Lawrence Winters, concert singer, will be the first in a series of lyceum programs to be presented during the 1961-62 school year.

Mr. Winters will be presented here Friday, November 10 at 8:00 P.M.

Others to appear during the season include The Mitchell Ruff Trio in concert, December 9; Talley Beatty and Dance Company of New York, February 27; and Players Incorporated in Richard III, March 14.

All programs are scheduled for Harrison Auditorium at 8:00 P.M.

Foreign Coeds Are Enrolled At College

A group of young women from four countries which have recently gained independence are studying at A&T College this fall.

The party of eleven, which arrived in Greensboro September 5, appeared genuinely happy over the opportunity of studying in America. For three weeks they were in Washington, D. C., participating in an orientation program conducted at the United States Department of Agriculture.

SPECIAL PROGRAM

The group will pursue special programs, chiefly in home economics, under a contract agreement between the International Cooperation Administration, Washington, D. C. and A&T College.

Four of the coeds from Tanganyika, Africa—Freda Urasa, Louise Fanuel, Mary Mackeja and Judith Jumaa — will remain here for just six months. They will take courses in community development.

DEGREE IN HOME ECONOMICS

The others will pursue programs leading to degrees in home economics. Included in this group are Hilda Tamakloe, Ghana; Malissa McCauley, Lotitia Robertson, and Frances Abraham, Liberia, all of Africa and Mrs. Enid Lawrence, Mrs. Herman Artis, and Mrs. Pearle Cousins, all of Jamaica in the West Indies.

VISITING STUDENTS

These visiting students are being taught courses in the A&T Department of Home Economics, headed by Mrs. Clara S. Evans and in the A&T College Extension Service in which Mrs. M. M. Brown is assistant State home demonstration agent.

The group is under the supervision of Miss Myrtle Smith, instructor in home economics education at A&T and technical advisor to the young women.

Air Force Drill Team Travels To TSU

By TOMMY C. GADDIE

It was a bright sunny day last week when the A&T varsity rifle team and Air Force drill team left Greensboro for Tullahoma and Nashville, Tenn.

Beaming with school spirit and the ambition to show Tennessee A&I why the Aggies are so great with their drill and marksmanship, the cadets spent a very enjoyable day traveling to Tullahoma, Tenn.

STAYED OVERNIGHT

At Tullahoma, Tenn., the group stayed overnight at the Visiting Officers' Quarters at the Arnold Engineering Development Center. Although very tired from a long trip around, across and through the mountains of North Carolina and Tennessee, the cadets were very proud to learn that they would dine in the luxury of the Centers' Officers Club.

After dinner, the cadets retired to their quarters for a well earned rest.

TOURED AEDC

Friday morning, the second day away from A&T, the group went on a tour of the Arnold Engineering Development Center.

This tour proved to be very educational to all of the cadets and was especially true for the engineering majors who were in the group. For the engineering students, it was exceptionally important because at AEDC they were given an opportunity to see things that they had studied and heard about but had never seen.

At AEDC, the students saw some of the machinery that was received from Germany as a partial payment on their war debt.

ROCKET TEST FACILITY

First stop on the tour was the rocket test facility which was designed for development and evaluation testing of propulsion systems for advanced aircraft. This facility helps engineers and scientists to receive valuable information concerning the characteristics of rocket engines. It helps one to learn these capabilities without going to the expense of launching an actual rocket. Here the cadets were able to see actual tests being made on the Nike Zeus.

GAS DYNAMICS FACILITY

Next stop on the tour was the Von Karman Gas Dynamics Facility which is designed for aerodynamic testing. This facility simulates actual atmospheric condition that a space weapon or missile would encounter while in flight.

WIND TUNNEL

The final stop on the tour was the Propulsion Wind Tunnel. Here the cadets had an opportunity to walk around in the wind tunnel and to see what the inside of it really looks like.

After leaving the wind tunnel, the cadets boarded their bus and set out on the second part of their trip, Tennessee A&I and competition.

CADETS ARRIVE AT A&I

When the cadets arrived at A&I they received their quarter assignment and were given the night off. This gave them an opportunity to relax, attend the "Bloc Dance" given by A&I, and visit with "homies" and friends at A&I, Fisk, and Meharry.

Saturday morning the cadets began preparing their gear for a spectacular night performance.

RIFLE MATCH

While members of the drill team prepared their gear, the rifle team went down on the mats for the first taste of competition which they found not very stiff. The A&T varsity rifle team defeated A&I's rifle team with a score of 1761 to 1547.

Saturday night, the Aggie Football squad went out with the intention of winning the football game and during the first quarter of the game it looked as if they would do just that, but by some twist of fate they were defeated.

BAND NOT PRESENT

Although the Aggie band was not present, the AFROTC drill team

upheld that 'Ole Aggie Spirit' and gave a spectacular half-time performance. The extraordinary performance they gave left no one in doubt as to their being the best drill team in the nation.

Sunday morning with all of the events of a long week-end slowly fading behind, the Aggie cadets boarded their bus and started their trip back to A&T.

A&T Rifle Team Defeats TSU 1761 - 1547

The A&T College ROTC Rifle Team defeated the Tennessee State A&I University ROTC Rifle Team, 1761-1547, in a shoulder-to-shoulder matched conducted last week.

The match was conducted on the A&I campus prior to the football clash between the Aggies and the Tennessee State Tigers, Saturday, September 23.

High scorer for the day was A&T's Charles Richardson, Washington, D. C., who registered 359 out of a possible 400.

Other marksmen composing the winning team were Theodore Kennedy, Princeton, N. J.; Charles Crump, Raleigh; Henry Turner, Statesville; Bobby Rogers, Graham; Charles Dennard, Greensboro; Alonzo Blount, Washington, D. C.; Bobby Kittrell, LaGrange; and Charles Bates, Asheville.

The team, composed of cadets from both Army and Air Force ROTC units, is coached by SFC Allison Webb, with Sgt. Jesse L. Suggs as assistant.

Army Cadets Give Excellent Summer Camp Performances

BLOUNT SCORES HIGH

Cadet Alonzo Blount was able to stand among the elite in marksmanship. He was the highest scorer in the class of cadets from A&T. As a rifleman, Blount was able to qualify as an expert.

Cadet Clifton Koonce returned to A&T "the most improved cadet from his college." He came out in the upper tenth of his camp class.

Cadet John Gordon settled the question of who was to be Battlegroup Commander by his outstanding performance at summer camp.

These are just a few of the instances where the cadets from A&T "walked hard, talked loud, and stood tall" at summer camp. This year's senior class is planning a rigorous program for members of the junior class in the hope that this will enable them to perform well at camp.

As a result of the well-planned pre-summer camp training program set up and executed by the senior ROTC class last spring, this year's senior class was able to do exceptionally well at summer camp.

Inspired with the idea that every effort made at summer camp would help to raise the status of A&T, the cadets worked hard.

PRACTICAL WORK

Although a great deal of emphasis was placed on practical work, the Aggie cadets were ahead from the beginning.

Last spring quarter, the cadets spent much of their time preparing for camp. They worked out field problems and participated in classes and other activities which helped to boost the spirit of the cadets.

CAMP RECORD

Looking back over the A&T cadets' camp record, one can see outstanding performances. Several cadets were able to make the maximum score on the map reading examination.

Cadet Perry Raney, battlegroup S-3 was Colonel's orderly on the day that the representation from the colleges and universities having units at camp came down to visit the cadets.

Tigers Come From Behind To Defeat Aggies

With the 1961 football season upon us, one question pops up in the minds of Aggie fans and sport fans around the CIAA football circles — can A&T win another grid-iron championship this year?

A&T has not finished less than second place since Bert Piggott took over as head coach. In his four years as head mentor, A&T has won two championships and has been runner-up twice. Only a 14-13 loss in the final game of the season last year to North Carolina College kept A&T from winning its third straight championship.

The Aggies have a conference record of 19 wins, three losses and one tie under Coach Piggott. The tie came against Maryland State, the team that dethroned A&T as champs last year.

Many fans are eager to get their first peep at the Aggie squad to see how it has filled the gaps left by such stellar performers as Lorenzo Stanford, James Black, Charles Stiggers and Paul Brown.

CAPABLE PERSONNEL

Despite the fact that this is a mild rebuilding season, A&T still has the personnel capable of bringing the bacon home.

With the return of Wilbur Mapp, Luther Woodruff and Bennie Cooper and a fine corps of freshmen, the Aggies may be able to fill the gap left vacant by last year's seniors.

Contender for the crown other than A&T are the defending champions — Maryland State — and North Carolina College. Hampton Institute is expecting to have one of its best seasons in recent years. Morgan State College could be a "sleeper" after doing a considerable amount of rebuilding. Virginia State should be stronger and more troublesome this year.

A&T will play all of these teams except Hampton. This means that the Aggies will have a rugged schedule, playing all of the contenders for the crown except one.

This year's football race promises to be an exciting one in as much as there are teams to contend with other than A&T and Maryland State.

The 1960-61 Aggie squad is an aggressive group which struggles hard with much determination. This is the number one championship quality

A second quarter outburst in which Tennessee A&I scored 25 points gave the Tigers enough punch to turn back the A&T College Aggies by a score of 37-21 before 5,500 fans in Nashville, Tenn.

Penalties marred the game, with the Aggies getting 15 for 130 yards and Tennessee getting 11 for 143 yards, including a 43-yard pass-interference penalty. However, the Aggie penalties were far more crucial as they played a leading role in all except one Tiger touchdown. Tennessee was given five first downs by penalties all of which were key factors in a touchdown drive.

The Aggies drew first blood in the game when Bateman Jones intercepted a pass on A&T's 14 yard line and returned it 41 yards to Tenn.'s 45. A&T got its first firstdown with 3:27 left in the first quarter when quarterback James Mitchell rolled out for 11 yards.

Mitchell later completed a 21-yard pass to Eugene Cambridge on

the Tiger 12-yard line. After a five-yard penalty moved the ball back to the 17, Mitchell hit Cambridge again with a 16-yard aerial for a first and goal on the one. On a third down play, big bruising fullback Algustus Lee banged into end zone for the first score. Cambridge split the uprights with the placement kick to put A&T out front 7-0.

The roof caved in in the second quarter when numerous penalties kept Tenn. deep in Aggie territory. The Midwesterners scored four times during the period.

Sophomore quarterback Willie Ferguson ran the show for A&T in the second half by passing for one touchdown and directing the attack on the second one. Ferguson completed 10 of 16 passes for 119 yards.

His key targets were Cambridge, who caught 5 passes for 78 yards, and Richard Westmoreland who caught four passes for 48 yards.

Westmoreland scored two touchdowns. One came on a 13-yard

pass from Ferguson, and the other came on a one yard plunge.

Cambridge was the Aggie leading ground gainer with 27 yards in six carries for an average of 6.1 yards per carry.

Wilbur Mapp was defensive standout for A&T. Mapp blocked two of the Tigers' point after touchdown kicks and was in on numerous tackles.

Arthur Statum Is Trainer For Aggie Athletic Teams

BY E. F. CORBETT

A former star athlete, who often broke one important training rule, is the new athletic trainer at A&T College.

Arthur "Art" Statum, who excelled in football, boxing and track from 1949 through 1953, assumed duties on September 1, as head trainer for the A&T College Aggies.

During his athletic career at A&T, Statum was selected All-Conference end in football for three years in a row — 1950, 1951 and 1952 — won the NCAA heavyweight boxing title in 1953, after placing third for the two previous years and turned in fine performances in track and field events.

He accomplished these achievements despite his "breaking" an important training rule. "Art" loved candy bars, and he ate them constantly against the urging of his coaches. He learned later and remembers well that he won the national boxing title only after he had abandoned his candy eating habits.

A native of Bethlehem, Pa., Statum is a graduate of A&T. In 1958, he completed requirements here for the master of science degree in education. He is pursuing courses leading to a second master's degree in physical education at Springfield College.

Statum took on to Greensboro on the very first day he arrived in 1949 and, except for a two-year military stint, has lived here since. He comes to his new assignment from the post as physical director at the Greensboro Hayes-Taylor Y.M.C.A., a position which he had held since 1956. While in service, he was physical training instructor at Camp Gordon in Georgia and recreation specialist at Brooks Army Medical Center at San Antonio, Texas.

He was qualified as a first aid instructor in 1951, and water safety instructor in 1958, by the American Red Cross.

Statum succeeds Hornsby Howell who resigned to take a similar position at Southern University in Louisiana.

Coach Bert Piggott watches Aggies as they go through their pace.

Aggies Bow To Marines In First Game

Tigers Come From Behind To Upset Early Aggie Lead

Although the Aggies suffered the loss of several key players, they still have hopes for a bright football season this fall.

With the return of veteran players Wilbur Mapp, Luther Woodruff, and Bennie Cooper, who were out last season, and a fine corps of freshmen, who are fighting desperately for a spot in the lineup the Aggies seem to be shaping up into another fine ball club.

Even though the squad is going through some stages of rebuilding, it still has the personnel to give all opponents a good run for the title. This year's squad appears to be one of the most highly spirited squads in recent years.

Injuries have begun to plague the Aggies already. Star guard William Dixon may miss most of the season with an ankle injury. Quarterback Cornell Gordon may be out for two or three weeks.

Wylie Harris and Joe Taylor both missed the Tennessee game, but they will be ready for the first conference game against Shaw University.

Freshman sensation Willie Beasley, a big bruising 205 pound fullback, is expected to be ready for the Shaw game. Beasley has been nursing a slight injury.

Looking at the stronger side of things, we see such hard hitting tackles as Carl "Spike" Stanford, Woodruff, Carl Miller, and Horace Williams. Guards Joe Henderson, George "Thunder" McDowell, and Bennie Cooper will add to the woes of the opponents.

A&T has the three top centers in the conference. They are Mapp, Harris, and Paul Thompson. The Aggies will be looking for top defensive end Robert Faulkner to be ready for the Shaw game after having missed the Tennessee game

because of a back injury. Other Aggie ends John Brooks and Robert Urquhart have made considerable improvement.

There's plenty of strength in the backfield with the finest assortment of halfbacks ever assembled on one team. They are Taylor, Eugene Cambridge, Richard Westmoreland, Bateman Jones, and Harvey Keaton.

At fullback is one of the hardest runners in the conference in Augustus Lee, who has the big job of filling Bernard Anderson's shoes.

Quarterback Jim Mitchell should be a bigger threat this year after perfecting his ability to run the ball. Willie Ferguson has developed into a dangerous passer and is able to pin point his bullet-like aerials.

Among the promising freshmen who are expected to give the squad a lift are Beasley, a fleet footed fullback, who does the dash in 9.9, and Jerry Morgan, another fullback from Neptune, N. J.

Ronald Francis and Ernest Buggs have shown lots of promise at ends while Alex Gaines a 211 pound fast, rugged tackle is pressing the upperclassmen hard for a starting position. Charlie Reaves and Archie Haywood have looked very sharp at the guard positions and they give the Aggies the depth and strength in the line needed to carry them through the rugged schedule.

If injuries don't further plague the team we may expect the Aggies to be in the thick of the race for the title.

The Aggie eleven bowed to the Quantico Marines in the opening football game of the season by a score of 20-19.

Held to a 20-7 margin at the beginning of the final quarter, the determined Aggies "woke up" and came storming back to within one point of upsetting the Marines.

The Aggies' loss was attributed to their failure in completing two-pointers. Another factor was that Quantico took advantage of the Aggies' failure to score in the third period after the latter had copped a 7-6 half-time lead.

Jim Mitchell, engineering the Aggie gridgers, was the hero of the defeated squad. In addition to

scoring the first Aggie TD, Mitchell tossed to Gene Cambridge for the other two. His feat of breaking away for a 26-yard run set up one of the scores.

Quantico received its first score after a 14-yard pass connection from John Dietz to Glen Kirk, a halfback, finding refuge in the end zone. This score was the climax to a 72-yard trek in which John Prichard galloped away on two 19-yard runs and snagged a short pass.

One of the deciding moments of the game for the victors came when Quantico's Larry Stewart intercepted a Mitchell pass on the

Aggie 30. After two plays Prichard broke away for a 22-yard touchdown run. The Marines were able to score again in the third stanza on a 12-yard pitch from Dietz to Stewart. This play was followed by an intercepted pass by the Aggies' Cornell Gordon on their own 33.

Although they felt that they made a good showing in the duel, the Aggies are determined to make much more impressive displays with such clubs as Florida A&M University, Maryland State, and NCC.

The first home game will be played against Shaw University tomorrow at 2:00 p.m.

Plan Now To Enjoy The A&T College Homecoming Festivities

1. The longest parade in history beginning at 11:A.M.
2. Big new pre-game show featuring the Air Force & Army Drill teams and a spectacular pre-game show by the 130 piece A&T College marching band.
3. The football game between A&T and Maryland State.
4. The Homecoming Ball featuring Bill Doggett & his orchestra at the Coliseum.

Billy Bruton

star centerfielder of the Detroit Tigers, says...
"After the game, I look forward to lighting up a Dual Filter Tareyton. You sure can't top that Tareyton taste. Smoke after smoke, it's just great!"

Tareyton delivers the flavor...

Dual Filter does it!

Here's one filter cigarette that's really different!

The difference is this: Tareyton's Dual Filter gives you a unique inner filter of ACTIVATED CHARCOAL, definitely proved to make the taste of a cigarette mild and smooth. It works together with a pure white outer filter—to balance the flavor elements in the smoke.

Tareyton delivers—and you enjoy—the best taste of the best tobaccos.

DUAL FILTER Tareyton
