AFOQT-Test
To Be Given
Nov. 20-21

The Air Force Officer Qualifying Test (AFOQT) will be administered at A&T College in the Reserve Reading Room of Bostian Hall. The tests will be from 7:30 A.M. to 12:15 P.M. each day.

This test is the primary prerequisite for gaining acceptance into the Advanced Course for the purpose of pursuing a commission in the Air Force as a Second Lieutenant.

Male students falling within any one of the following categories are eligible to take this test: (1) sophomore cadets (Air Force or Army Basic ROTC); (2) a veteran of at least two years' active service in the second year of military service; and (3) juniors, who have been determined by the professor of Air Science to be test-eligible.

Although an over-all academic average of 2.0 has been established as the minimum for acceptance into the Advanced Course, there is no specific academic average required before taking this test.

Interested students should communicate with Captain R. E. Proctor, John C. Campbell or Airman First Class Obie Calton, Undergraduate Science Education Division, for Education and Training Office.

A & T College Receives $118,200 N.S.F. Grant

Dr. L. H. Robinson, president of the College, said that one objective of the new institute is to raise the level of science-subject-matter understanding of science teachers who have not recently completed an advanced science major, but who would otherwise be good prospects for the M.S. degree in chemistry. In addition, it is to improve their understanding of the scientific method through exposure to research techniques and to raise a few of the participants to the level of science supervisors.

A majority of the work is to be concentrated in chemistry with a limited amount of related science or mathematics.

The institute, to begin next September, is designed for participating high school chemistry teachers. The grant of $118,200 by the National Science Foundation for the operation of the institute will be made by Dr. Samuel D. Wilson, D. C, Maryland, Virginia, and James Stephenson.

The announcement was made by Mr. Deluce, outstanding war correspondent and Who's Who in American Colleges and Universities.

The institute will begin operations September 10, 1962 and extend for approximately 18 months, concluding in June, 1963.

Dr. Robinson, describing opportunities under the new institute, said that 20 superior applicants will be accepted for the program, and that credits earned during the one-year study may be applied to the Master of Science degree.

The participants will receive stipends of $3,500, allowances for personal needs, and up to four persons, and allowances for books and travel.

Inquiries concerning the new institute should be directed to Dr. G. A. Edwards, director, A&T College, Greensboro, N. C.

The National Science Foundation has assumed sponsorship of six such advanced course programs at A&T College. These include: in-service institute for high school science teachers, summer institute for high school science teachers, summer training program for high school science teachers, Wilson Fellowship grants.

School Marks 70th Year At Annual Founders' Day

A&T marked its Seventieth year of existence at its Annual Founders' Day celebration, Tuesday, November 7.

The speaker for the occasion was Dr. Lewis N. Pino, program director, Undergraduate Science Education Division, National Science Foundation, Washington, D. C.; Joseph Hunt, Greensboro, speaker of the North Carolina House of Delegates and a member of the A&T trustee board, and Dr. Samuel D. Proctor, president of the College.

In his address at the opening convocation, Mr. Deluce discussed the world problems of today and their possible solutions.

While at the conference the delegations had the opportunity to attend workshops, short courses, and discussions which were designed to present all facets of successful newspaper publishing.

Capitol McElveen Wins Senior Pilot Wings

Captain David H. McElveen, assistant professor of Air Science, has qualified to wear pilot wings with a star on top. These are known as Senior Pilot Wings. He received notification of this second-class rating last month.

Under the program, a senior pilot requires seven or more years of service as a rated pilot, and is a current green instrument pilot which is the highest of Air Force instrument ratings.

Captain McElveen maintains his flying proficiency by flying C-45's at Pope Air Force Base in Fayetteville, North Carolina.

Capt. McElveen has also received notification of his acceptance to George Washington University in the chemistry for the degrees in Engineering Administration. This course of study is one of the many being recommended and fully supported by the Air Force in its quest for higher education for desiring and qualified personnel.

A B.S. graduate of A&T, Capt. McElveen was a Distinguished Military Graduate of the Air Force ROTC.

In addition, he was president of his class for two years, a member of the Student Legislative Assembly, was a member of the Student Christian Association, the Interfraternity Council of Mu Alpha Phi, and the American Chemical Society, Kappa Alpha Psi, Mu Sigma Delta, and the Delta Kappa Epsilon. McElveen was a member of the Student Christian Association, the Interfraternity Council of Mu Alpha Phi, and the American Chemical Society, Kappa Alpha Psi, Mu Sigma Delta, and the Delta Kappa Epsilon.

70 Delegates

Seven hundred and sixty-nine students from colleges and universities from 37 states and the District of Columbia were in attendance at the conference.

Register staff members attending were: Mr. Deluce, in-chief; Clarence Richardson, Ta- template, business manager; Troy MacMillan, Fayetteville, advertising manager; Lonn Thomas, Radi- template, layout editor; and Cary P. Bell, news editor.

Next year's conference will be held in Detroit, Michigan.

A & T is Featured

In Finnish Newspaper

It would cost a student attending A&T College and who used Finnish as his native language 181 dollars per year, including board, lodging, tuition, and part-time work.

A T & T had the privilege of a half-page feature with an English interpretation.

The story was written by Marvin M. Chilton for the paper, who visited in Greensboro last week.

Chilton sent to the College last week a clipping of the article and a request for reproduction in the college newspaper.

The article, illustrated with four pictures of the A&T College campus, is a new feature of the A&T College, spreading in the VIIKKOLEHTI, a leading daily newspaper in Finland.

The VIIKKOLEHTI is published in Helsinki, capital of the country, and is the oldest newspaper in the country.
Greens Receive Unfavorable Criticisms

Patriotism and solidarity, in recent years, have been the most crucial elements of the Greek institution. Not only is this true in the United States. It is also true, one would have to involve himself in an analysis of the nationalities of virtuous as well as faults. The secrecy of these organizations contributes to their reputation for being efficient. Because of such suspicion, an individual can hardly be expected to join in unreservedly.

Students at A&T College participated in the recent observance of United Nations Day.

In the group from left to right are (kneeling) — Gordon T. Saddler, faculty advisor; Italians Fleming, president, Woodfield; Wilbert Dix, Ac- comac, Va.; Arthur McGowan, Youngsville; Luther Porter, Orlando, Fla.; Grady Dunn, Macon, Ga.; and (standing) Marva Whitley, William- ston; Ilka Bowditch, Asheville; Mary L. Mackeja, Tanganyika, East Africa; Linnie Russell, Wallace, Patricia Hinton, Raleigh; LaVerne Davis; Greensboro; and M. L. Robertson, Williamston.

United States Chamber Of Commerce Is Sponsoring Communism Course

WASHINGTON — What do communism leaders plan for your children? What can you do about it?

Your understanding of the answers to those questions can make a difference, the Chamber of Commerce of the United States believes, in determining whether this country can meet the communist challenge.

NEW COURSE

A new course designed for persons interested in studying the answers to these and other questions on communism has been prepared by the Chamber of Commerce of the United States. The course comprises principles and practices of democracy and communism. Major emphasis is on economics, but military, political, and ideological aspects of communism are also covered.

Title of the course is “Freedom vs. Communism: The Economics of Survival.” It involves eight discussion sessions for 10 to 20 people. Course leaders need no experience. A how-to-do-it manual shows them how to guide the participants through each session.

Material for the course is contained in this leader’s manual and in eight pamphlets for participants, one for each session.

EMPHASIS ON ECONOMICS

The Chamber says the emphasis is on economics because “an economic argument is the best.” Communism, it says, “is a complete economic system. It is the sum total of the work and the will of the people in it.”

Content of the course is revealed by the titles of the eight pamphlets: “The Communist Challenge,” “Wealth and Poverty of the Communist Consumers,” “Profit Motive or Market Failure?” “Geta Rich or Die Trying,” “The Rule of Government,” “The Big Picture,” “Meeting the Economic Challenge,” and “What You Can Do about Communism.”

MATERIAL TO BE MADE AVAILABLE

As with other Chamber courses, course material will be made available to interested groups. Responsibility for conducting the course will be with these groups.

Crowd Lauds Performance By Winters

By DONALD MORGAN

Promptly at 8:00 P.M. on Fri- day, November 10, Lawrence Winters stepped onto the stage in United States Auditorium, and for the seventy-five minutes that followed an appreciative audience with a wonderful evening of beauti- ful baritone singing.

Accompanied at the piano by Jonathan Bruce, Mr. Winters sang works from such well known com- posers as Franz Schubert, Rich- ard Strauss, and Verdi, among others. The rendition of “Great Spiritual” was heavily ap- plauded.

Mr. Winters quickly established a feeling of closeness with the audience by his magnificent choral- manship and stage presence.

After the last number was com- pleted, the approval for his fine sing- ing was shown by applause which brought Mr. Winters back to the stage for an encore.

The intensive Dr. Ralph Wooden of the Audio Visual Department gave recognition to the wife of Mr. Winters and to Dr. Samuel C. Smith, Dean of the Technical Institute who are an uncle of Mr. Winters.

Mr. Winters was presented with a plaque by Richard Barber honoring him as an outstanding brother of the Phi Beta Sigma Fraternity. Mr. Winters replied warmly to this occasion in his speech with “Great Days,” a Negro Spiritu- al arranged by Thomas Kerr.

Pilot courses have been held in several cities and towns.

The course was written with the help of communists, educators, and authorities on communism and Soviet Russia, both in and outside of the federal government.

At A & T College

Research Group To Measure Radioactivity In Milk

The recent Russian bombs released worldwide interest and concern over radioactive fallout. A research group at A&T College is conducting experiments to measure the extent to which levels will increase through early spring.

In studies being conducted by the Department of Home Economics, with the cooperation of Dr. W. L. Kennedy, chairman of the Department of Dairy Husbandry and Dr. Gerald A. Edwards, chair- man of the Department of Chemistry, levels of radioactivity detectable in campus milk will be meas- ured. It is not anticipated that there will be any danger as far as the food supply is concerned. The experiments are planned simply to determine the radioactivity de- tectable in the atmosphere and in the milk supply on campus as the result of the Russian tests.

Measurements of atmospheric radiation will be made weekly by use of a Geiger-Counter and more sensitive radiation detection equipment.

Weekly samples of milk from the school dairy will be obtained and their radioactivity measured. An activity chart will come- le the earth in rainfall, it is expect- ed to be deposited in the soil and plant life. Thus, cows and other animals consuming plants containing radioactive fallout will ingest the radioactivity, radioactive strontium 90 will be present in milk.

The tests on milk will be per- formed by Myrna Spencer, a senior in chemistry and nutrition. The measurements of environ- mental radiation will be carried out by Miss Evelyn L. Galston, research assistant, Department of Home Economics. Grap- phs indicating weekly changes in both will be posted in the Home Economics Research Laboratory, Career Hall, in the Department of Home Economics, Benbow Hall, in Ward Hall, and in Illinois Hall.

The United States Atomic Ener- gy Commission released this state- ment on October 31, 1961: "It is estimated that increasing the cur- rent level of strontium 90 in the United States by many fold would still result in less strontium 90 in the bones than permitted by radia- tion-exposure guidelines now in effect for the general public for normal peace-time operation."

The special project will be con- ducted under the supervision of Dr. Cecil H. Edwards, professor of Nutrition and Research and Dr. Gerald A. Edwards, Chairman of the Department of Chemistry.

No Buildings, Nothing
By JAMES GILL

The emphasis "No" voted by North Carolina's mayors and city leaders to even greater efforts to move ahead. Sometimes it is more effective than the words they use. The students vote "No" to the food on sale; they say "No" to the "jazz" on campus; they say "No" to being fed as they desire; they say "No" to being forced to wait half an hour or more waiting for more food to be prepared? Why shouldn't a student who has paid for his food at the cafeteria have his food prepared when he asks for it? Why shouldn't a student who has paid for his food at the cafeteria have his food prepared when he asks for it?

No Buildings, Nothing

KAMPUS BEAT

By LEWIE

LEWIE'S DELIGHT: How about that A&D? What a State game. Boy, that's what I call a real squeaker. . . . Think of it, 20 points in 13 minutes. . . . It wasn't long before we were thinking about the Thanksgiving table. . . . Before you take that first bite of turkey, remember to give thanks.

THINGS I REMEMBER: When students went to the Friday and Saturday night movies and acted more like college students than some students who had any trace of the college in them. . . . When the library was a place for study.

BROKEN LAW: Now I wonder where I could have been when they passed this law? I mean the one requiring female students to remain at a social affair until it is over. Oh, it all comes back to me now. I was away attending the convention opposed to the realization that college students should know the rules and be disciplined in and out of the presence of chaperons.

AT LINDSAY AND LAUREL STREETS: Would you believe it's true? . . . There's a policeman directing traffic everyday at this intersection. . . . Maybe I can get to class on time now. . . . The other day as I was waiting to cross the street, I noticed a very well-dressed man waiting to cross the street. . . . This young man fully dressed with hat, coat, shirt, tie, everything . . . that is, everything except his socks.

Department of English Sponsors Institute

By IRENA BOWDICH

The opening session was conducted in the Hodgin Hall auditorium with Dr. Darwin T. Turner, chairman, of English, presiding. The evening was given by Mrs. Gertrude Johnson, Dr. George A. Hodges, and Rhoda Monroe, Winston Salem, and Iris Wolfe, Evergreen.

The AKA's little sisters, the Ivy Leaves Interest Group, have bought another one of their many projects. The little men at the AKA's door have signs for their big sisters.

ALPHA PHI ARE BUSY

Both the Kappa Delta Chapter of the Alpha Phi Alpha Fraternity are busy making plans. The biggest item on the Alpha's agenda is their Founder's Day Program December 11.

The Brethren are also making preparations for their "A Day" to be held in mid-December.

To welcome the new sorors into the fold, the Kappa Delta's will be holding November 18. The Pan Hellenic Council is giving the Kappa's "Big" November 18. The Pan is also making plans for other activities to be sponsored during the year.

Founders Day (Continued from page 1)

The group hopes to donate toys and other items to the hospital. The Club has two projects in the making: keeping the campus clean and eliminating some of the noise in the library.

Members of the Appalachian Rifle Society recently welcomed five new members from the Law Enforcement, Fayetteville, R. E. O. W. N. S. S. S. S. on November 18.

GREEKS ARE BUSY

The Greeks are still busy over in Greece land.

The members of Alpha Phi recently initiated six new members into the chapter. The new members are:

The Phi Beta Sigma Fraternity elected the following officers for the year:

Donald McClure, president; Arthur Jones, vice president; Walter Wadsworth, corresponding secretary; George Seegers, recording secretary, and James Hines, treasurer.

During the past month the Sigmas have added two new members from our national college, Jake Gattner, head football coach at Fayetteville State College, and W. W. Thomas, head basketball coach at Central High, were welcomed into the organization.

THINGS TO COME: The Sigma Chi's will be holding November 18. The Pan Hellenic Council is giving the Kappa's "Big" November 18. The Pan is also making plans for other activities to be sponsored during the year.

AT LINDSAY AND LAUREL STREETS: Would you believe it's true? . . . There's a policeman directing traffic everyday at this intersection. . . . Maybe I can get to class on time now. . . . The other day as I was waiting to cross the street, I noticed a very well-dressed man waiting to cross the street. . . . This young man fully dressed with hat, coat, shirt, tie, everything . . . that is, everything except his socks.

SIC FLICS

"Thanks, Mr. Frobish—but I still think I'd rather have CHESTERFIELDS!"
Aggies Serve Their Country

Hospital at Fort Dix, N.J.

of Mr. and Mrs. Otha Leach, resident of Fuquay Springs Consolidated High School and a 1961 graduate of A&T College.

Maurice C. Lane, son of Mrs. Frances W. Lane, 1307 Hillisboro Street, Kernersville, recently was promoted to the rank of major in Germany, where he is a member of the 3rd Armored Division. Major Lane is the 2nd Armored Battalion, 3rd Infantry, 3rd Armored Division. Lieutenant entered the Army in June, 1960, and arrived overseas on 28th of June, 1961. The 32-year-old officer is a 1945 graduate of Central High School and a 1949 graduate of A&T College.

His wife, Catherine, is with him in Germany.

Army Captain David Graham, Jr., 28, and William V. Graves, 30, of Greensboro, recently completed the aviation officer course at The Infantry School, Fort Benning, Georgia. The course is designed to prepare the student to assume the increased command and staff responsibilities of a senior infantry officer.

The Infantry School, after more than 25 years of operation, continues to prepare the student to assume the increased command and staff responsibilities of a senior infantry officer.

Lieutenant Leach is a 1956 graduate of the A&T College, and the son of Mr. and Mrs. Herbert Worthy, 122 W. 7th Street, Mount Olive, recently was assigned as commandant of the 1st Battalion, 2nd Infantry, 101st Airborne Division, at Fort Campbell, Kentucky.

His wife, Catherine, is with him in Kentucky.

Army Captain A1A W. Anderson, Jr., whose parents live at 322 O’Connell Avenue, Philadelphia, Pa., recently completed the Basic Airborne Course at the U.S. Army Airborne Division, at Fort Benning, Kentucky.

Captain Anderson received two weeks of training in the various methods and equipment used by the U. S. Army, as well as the arms of other nations, for the waging of CBR warfare. He received instruction in CBR offense and defense and the employment of proper recovery methods. Cap­ tain Anderson is now assigned to the 101st Airborne Division and is in the unit in CBR warfare. The 1st, a major Strategic Army Corps (STARC), is now ready to be assigned to a field command for its immediate readiness force for air defense.

The 32-year-old officer is an intelligence officer in Headquarters and Headquarters Company, 522nd Field Artillery, 522nd Field Artillery, camps of the division’s 32nd Field Artillery at Fort Penn, Georgia.

He was graduated from A&T College in 1952 and is a member of Kappa Alpha Psi Fraternity.

Army 1st Lt. Daniel Womack, Jr., whose parents live at 306 Warren Street, Greensboro, recently was assigned as commander of the 50th Company Group at Fort Stewart, Ga. Lieutenant Womack entered the Army in January, 1959. The 19-year-old officer is a 1953 graduate of James B. Dudley High School and a 1956 graduate of A&T College.

Army Captain Everett Brown, Jr., whose parents live at 306 Warren Street, Greensboro, recently was assigned as commander of the Company Group at Fort Stewart, Ga. Lieutenant Womack entered the Army in January, 1959. The 19-year-old officer is a 1953 graduate of James B. Dudley High School and a 1956 graduate of A&T College.

In an action-packed fourth quar-
ter, the Florida A&M Rattlers
were down the A&T Aggies in an interconference football contest by
a score of 14-22, November 4.
The game, played at War Mem-
orial Stadium, was watched by a
crowd of 8,500 fans who saw the
visitors grab three quick touch-
der, the Florida A&M Rattlers
began to wear down the A&T Aggies in an
interconference football contest by

For the third quarter, guard Ro-

Carl Miller and end Robert Faulk-
ner, A&T took possession of the
ball on the Florida 22. Moving
two downs in the middle of the final
quarter after being held to a two-
down stand after Florida moved down
a 65-yard drive and a goal line stand.
A&M 24. Because of a pass inter-
fence, the ball was placed on the
A&T 41 and moved the ball to the 13. Pullback Ralph
Burns fumbled after having moved the ball to the 8. Hart recovered on
the A&T 2.
A&T FORCED TO PUNT
A&T could not move out of the
hole and was forced to punt. Flor-
da halfback Ronald Hart took the
kickoff on his own four and
marched the ball down to the two-
yard line. A&T quarterback Willie Ferguson's passes moved the
A&M 24. Because of a pass inter-
fence, the ball was placed on the
visitors' two. Willie Bradey went
over from the 1. Ferguson threw
for the extra point, but failed to
connect and tie the score. A&T did
not score anymore after this.

RATTLEST STRETCH SCORE
The Rattlers stretched their
score on three touchdowns with
less than 10 minutes to play. Willi-

The score was made after the Rat-
tlers gained possession of the ball
in the first quarter on their own 30 yard line.

William Wilson, Alton White, and
Robert Parmore, offensive Flori-
dia backs, moved the ball down to
eyard. Parmore plowed over for a
6-0 margin. Quarterback Eunice
colled tossed to end Aust-
us Wise for the PAT.

Aggie halfback Ronald Hart took the
kickoff on his own four and
made a sensational 60-yard dash
for the first A&T score. Hart was
assisted by center William Mingo
who threw a key block. A try for
the extra point failed. A&T trailed
8-6.

AGGIES TAKE POSSESSION
After a blocked kick by tackle
Carl Miller and end Robert Faulk-
ner, A&T took possession of the
ball on the Florida 22. Moving
down to the two-yard line, the
Aggies failed to score, and the first
quarter ended with Florida holding
the ball.

Punt exchanges by both teams
were made in the second quarter.
A&T successfully made a goal line
stand after Florida moved down
to the 6. The half ended at 8-6, in
favor of the Rattlers.

For the second quarter, guard Ro-

Halfback Robert Hayes, a speed-
ager, A&T successfully made a goal line
stand after Florida moved down

Local Gridders Pace CIAA Offense

The A&T Aggies are currently pacing the CIAA conference in total offense. N.C. State has piled up 1,455 yards rushing (average of 135.8 per game) and 1,632 yards passing (average of 148.4 per game) for a total of 3,087 yards in seven games for an average of 441.0 yards per game. The Aggie offense rolling in high gear, the two teams will be fighting for the CIAA flag race — the championship.

Willie Ferguson, sensational sophomore quarterback, has been the star in the Aggie offense. Ferguson has 765 yards passing and 545 yards rushing for a total of 1,310 yards in seven games for an average of 187.1 yards per game, tops in the conference. Ferguson has completed 55 of 100 passes for 56% accuracy and 6 touchdowns to rank high in the conference in passing.

Defensive Westmoreland has a good chance to win the pass receiving title. He has caught 17 aerials for 221 yards while Ronald Hart has caught 16 for 202 yards, and John Brooks, 10 for 153 yards.

Westmoreland has gained the most yards on the Aggie team with 219. He has carried the ball 30 times for 219 yards. Eugene Cambridge has carried 17 times for 122 yards while Ronald Hart has caught 16 for 202 yards, and John Brooks, 10 for 153 yards.
