A Likely Story

By JAMES PETTIFORD

It was a splendid night for racing, and a particularly splendid one for one group of people.

As the sun set, the drivers gathered at the track to talk about the coming race.

The race was going to be a bit different this year.

The drivers were all professionals, and the race was going to be a bit more challenging.

The track was going to be longer, and the weather was going to be a bit more unpredictable.

But the drivers were ready.

They were going to be ready to face whatever challenges the race had in store for them.

And as the sun set, they were ready to take on the challenge.

The race was about to begin.

The drivers were going to put their skills to the test.

And they were going to prove that they were the best.

The race was going to be a test of their abilities, and they were ready to take it on.

And as the sun set, they were ready.
