Six Students Achieve 4.00 Averages During Winter Quarter

Six students achieved 4.00 averages during the winter quarter with three of the students coming from the School of Engineering. Two students with 4.00 averages came from the School of Education and General Studies, and one came from the School of Agriculture.

The department of Mechanical Engineering, Electrical Engineering, Business, English, Biology, and Sociology were all represented with one student each making perfect scores.

Of the six students, two were seniors, two were juniors, one was a sophomore, and one was a freshman.

Out of the thirty-six students who were listed on the "A" honor roll, the senior class led the list with fourteen; the sophomore class followed with twelve. The junior class had eight of its members listed on the "A" honor roll, while the freshman class had four of its members listed.

A HONOR ROLL SENIORS

James E. Evans, Williamston, app. socio., 4.00; Grady E. Jamison, Charlotte, engr. phys., 4.00; Inez R. Gayle, Jamaica, W. I., home ec., 3.85; Cennette Fisher, Richlands, nursing, 3.69; Natalie J. Mack, Switzerland, S. C., nursing, 3.69; Alton B. Gunn, Winston-Salem, bio., 3.67; and Lillian Middleton, Mount Olive, bus. ed., 3.67.

In addition were Brenda Scar-

Students And Faculty Present Papers At National Science Meeting

A&T College was represented at the national meetings of Beta Kappa Chi Scientific Society and the National Institute of Science by ten individuals. The society meetings were held at Hampton, Virginia, April 3-6. Represented were the departments of Home Economics, Chemistry, and Biology.

Five of the fifteen papers in the Chemistry section were presented by A&T College staff and students. Dr. James Pendergrast, professor of chemistry, presented research on "Enthalpometric Titrations in Fused Alkali Nitrate Solvents." Dr. Robert C. Freeman, professor of chemistry, reported on the "Reaction of Nitrogen Bases with Ketanimines."

Student papers were given by Minnie Ruffin, a senior majoring in foods and nutrition, "Plasma Protein Concentrations of Rats Fed Methionine and Related Compounds;" Ivy Woolcock, a senior majoring in Foods and Nutrition, "Efficiency of Vegetable Protein Diets for Growth and Maintenance"; and Lawrence Seibles, a senior majoring in Chemistry, "Comparison of Radiocarbon Contents of Rat Tissues Determined as BaCl₄O₂ and by the Tissue Outline Method."

Miss Woolcock and Miss Ruffin represented the local chapter of Beta Kappa Chi Scientific Society and the Department of Home Economics.

Miss Evelyn L. Gadsden, research assistant, Department of Home Economics, reported on "Localization of Radiocarbon in Tissues of Rats Fed Methionine 2C¹⁴ and Methionine-methyl - C¹⁴" before the Biology Section of the National Institute of Science. Her paper was co-authored by Dr. Cecile H. Edwards, Dr. Alfreda Webb, and Dr. Gerald Edwards. Miss Gadsden, Dr. Cecile Edwards and Dr. Gerald Edwards were also co-authors of the papers by Misses Ruffin and Woolcock and Mr. Seibles, student participants on the program.

Also attending the meeting at Hampton Institute were Dr. Eugene Marrow, professor of biology; Dr.

Samuel von Winbush, professor of chemistry; Mr. Walter Wright, assistant professor of chemistry; and Mrs. Linda Lyons, research assistant, Atomic Energy Project.

DR. VIRGIL STROUD

A & T Professor Publishes Book On "Sit-Ins"

Dr. Virgil C. Stroud, acting chairman of the department of Social Sciences and a 1937 honor graduate of A&T College, is the author of a new book, *In Quest of Freedom*, which has been released by the Royal Publishing Company.

A study of the sit-ins and freedom rides of recent years, *In Quest of Freedom* is intended as a "Living monument" to the A&T students who initiated the sit-in movements. It presents in detail an account of the movements with an assessment of their accomplishments against the backdrop of the Negro's continuing fight for first-class citizenship.

NEWS BRIEFS

PROFESSOR RECEIVES TRAVEL GRANT

The American Institute of Nutrition has announced the awarding of a travel grant to Dr. Cecile H. Edwards, professor of nutrition, to attend the sixth International Congress of Nutrition, which will meet in Edinburgh, Scotland, August 9-15, 1963.

Dr. Cecile Edwards and Dr. Gerald Edwards will present research papers before the society. They will tour the continent of Europe before returning to this country in September.

ROTC BALL ON APRIL 26

The annual R. O. T. C. Ball will be held Friday, April 26. A formal affair, the ball has been scheduled for Moore Gym from nine until one. The Swingettes, an instrumental group from Portsmouth, Virginia, will provide music for the affair.

LT. JAMES M. HINES COMPLETES COURSE

Army 2nd Lt. James M. Hines, 22, son of Mr. and Mrs. Wiley Hines, 1413 W. Sixth Street, Greenville, N. C., recently completed the eight-week officer orientation course at the Southeastern Signal School, Fort Gordon, Ga. Lieutenant Hines was graduated from C. M. Eppes High School in 1958 and received his bachelor of science degree from A&T College in 1962.

DR. G. A. EDWARDS ATTENDS MEETINGS

Dr. Gerald A. Edwards, chairman, Department of Chemistry, represented the college at the recent meeting of the Directors of Academic Year Institutes held at New Highlands State University, Las Vegas, New Mexico, March 28-30. While there he served as chairman of one of the institute sessions and presented a report of a study of the academic year institute at the Agricultural and Technical College of North Carolina. Dr. Edwards is the director of the A&T College Academic Year Institute in Chemistry in which 20 students are participating.

He also represented the college at the meeting of the American Chemical Society in Los Angeles, California, March 31-April 5.

A & T Coed Receives Grant To Study In France

Information recently received from the Institute for American Universities in Aix-en-Provence, France, indicated that Bobbie J. Bailey has been awarded a scholarship to study there for the coming year.

The scholarship awarded on the basis of academic achievement will cover the tuition and expenses of the A&T College senior while she studies courses designed to fulfill the requirements for the masters degree in French.

Miss Bailey, a French major, and currently doing student teaching at Dudley High School, lists her home as Winston-Salem. While at the college she has been active in several campus activities and is currently president of the local chapter of the Pi Delta Phi National French Society. A member of the Alpha Kappa Alpha Sorority, she is a member of the French Club, the James B. Dudley Chapter of Student NEA and has been a majorette in the college band.

According to Miss Bailey, she is scheduled to leave for France sometime in July.

seeking Student Council and class positions in the coming elections as well as the deadline for submitting applications had been changed.

Actions taken last week resulted in extension of the deadline from 6:30 P.M. on Wednesday, April 17, to midnight, Monday, April 22.

The deadline extension was required due to a lack of applicants for the various positions. When the original deadline was reached last Wednesday, only two applications for the five Student Council positions and six for the twenty-one class positions had been received. A conference between Claude Airall, chairman of the Election Committee, and Dr. Glenn Rankin, dean of students, resulted in the deadline extension.

A check with the dean of students also revealed that the requirements for Student Council officers and Miss A&T which the committee had released last week were not in accord with the official constitution of the Student Government. It was thought that the changes were included in a constitutional amendment which was reported to have been made in the spring of 1958. No records of any such changes could be discovered; consequently, requirements for candidates revert to those included in the constitution printed in the Student Handbook of 1958-1960.

Information earlier released by the Election Committee had required candidates for the presidency to have an average record of 2.75 scholastically, be a member of the incoming senior class, and have been in attendance at this institution for at least two years.

Revised requirements, however, require an average record of 2.50 and membership in the junior class at the time of election and the senior class during the term of office. No mention is made of the amount of time in attendance at the institution.

Instead of the 2.75 average earlier listed by the committee, candidates for the position of vice president of the Student Council are required to have a 2.00 average record. As earlier required, however, he must be a member of the incoming junior or senior class.

"White Paper" — "Read And Think"

During the past several days there has been much discussion about the student body elections scheduled for this May 8.

"White Papers" have been circulated and articles entitled "Read and Think" have also been circulated. Some of the statements in these articles merit some attention. Some of them are true, but some of them have no basis. Some of them show ignorance on the part of their writers. Some of them are direct, unfair attacks on persons not guilty of the charges made against them; and some of them are exhibitions of the low, spineless, snakelike dealings of a third class politician.

Now, we do not deny the fact that an individual has the opportunity to say what he wants to say about a particular person or issue; but we do think that when an individual makes a statement about a person or a situation, he should be cognizant of the facts surrounding the issue that he is discussing.

In the last publication, "Read and Think", the question was asked, "Why has the standard in recent years of 2.75 for president of the student body been dropped to 2.50? It is obvious that the author of this question is not aware of the fact that there were no official changes in the standards of persons running for student body president and the fact that this is not known can be attributed to the nonchalant attitude of our student-body. Any person who had been interested in the student-body affairs would have questioned this before now.

The constitution of the Student Council, ratified by the student body April 19, 1958, clearly states that a person running for the presidency of the student body must have a 2.50 average. This constitution says nothing about the officers of the student body as far as grades are concerned, but it does say that a person must have been in attendance here at least two years in order to run for the office of president of the student body.

As far as the requirement of an average of 2.75 is concerned, no records of the students' having amended the constitution to this effect have been found.

As we see it, the constitution, ratified by the students in the spring of 1958, is the constitution of the student body; and any changes made in it should have been done or should be done with the knowledge of the student body.

There seems to be a question in the minds of some people as to the amount of time an individual should be in residence at this institution in order to run for student council positions. Well, there should not be too much discussion about this matter. It is a fact that a freshman at this institution cannot run for the presidency of the student body, and to us it seems logical that a person who has been here no longer than a freshman should not be allowed to run either. It is conceivable that a freshman would be better qualified to hold the position than a senior-transfer student would be, for there is the possibility that the person who is a senior and has not been here any longer than the freshman would know less about the institution than a freshman.

Freshmen are required to take a course in freshman orientation in which they are supposed to learn certain basic things about the institution. The transfer student is not required to do this.

It would be a sad case in the history of our institution if we allowed a person to be elected as our student body leader who knows nothing about the objectives, aims, traditions, history and operations of the institution. What would he have to tell a visitor who asked him a question concerning these matters?

Although the constitution that we have to go by makes no limitations as to the length of time an individual has been at the institution in order to run for president of the student body, the student body can decide at the polls whether or not the length of time spent at this institution should be a factor in his being elected.

ELECTION CHANGES!

EDITOR OF THE REGISTER:

About a month ago, the Student Government appointed a committee to handle the campus elections for the 1963-64 school year. This committee swung into immediate action; letters were sent to all the campus organizational heads and to the college newspaper with the aim of informing the student body of the election rules and the changes that would take place in the forthcoming elections. In addition to this, signs were posted, and the student body was informed at a mass meeting before one of the Saturday evening movies.

The election date was set for Wednesday May 8; the deadline for receiving the applications for the Student Government positions and the class elections (included this year in the Student Government elections) was set for Wednesday, April 17, at 6:30 p. m.

The deadline arrived and passed. Twenty-one positions in the three classes and five in the Student Council were open.

EIGHT APPLICATIONS

By 6:30 on Wednesday, only eight applications had been received, enough for two Student Government positions and two of the class officers. The freshman and sophomore classes had not even bothered to apply for any of their offices for next year, and we were faced with the problem that we would not have a treasurer, secretary in our Student Government or Miss A&T next year!

What has happened to the Aggie Student body? I can remember the time when the Student Government was flooded with applications for offices.

When people were asked if they were interested enough in them-

selves and their college to run, they would point their fingers at the other person — "Let him do it, I am not qualified enough; I am not interested in politics . . ." "Such were the silly and fragile excuses expressed by the student body, almost to a man.

The Student Government, at its meeting on Wednesday night, was faced with the problem of what to do. Should the deadline be extended, or should the elections be held on the positions applied for, and have the other officers appointed?

WHAT DO STUDENTS WANT?

What does the A&T student body want? Should we have no Student Government? To whom would the students appeal when they have problems that the administration does not necessarily have to deal with? Who would be the intermediary between the students and the administration? Would you prefer the administration or the President of the Student Government to appoint persons to fill these offices? People tend to trust persons that they themselves appoint, and the right to vote should not be neglected.

It is quite evident that the students of the A&T College do not really care what happens.

POLITICALLY SHY

We tend to shy away from politics; often we don't exercise our right to vote. There are several drives being conducted at this time called "voter registration, or voter education drives". Before we step off this campus trying to educate others, let us begin here with an A&T College voter education drive.

Many of us will be stepping out into our respective communities, and, as college graduates, will be looked upon as leaders by others not fortunate enough to have taken this step towards higher education.

The Wash-And-Wear Student

For once, says a letter to the editor of THE WESTERN MISTIC, Moorehead State College, Moorehead, Minn., let us ignore the scholarly, the literate, the intelligent and the ambitious. Let us look at the average, everyday, wash-and-wear college student. What is he?

Why is he here? There is, of course, the over-riding, vital reason. A college degree is a key to a good job and a good salary for the ordinary person. It is almost a certain way to gain security. This, for the insecure, makes the pain of getting a college degree bearable. Not only that, college is the place to go after high school.

His intellectual qualifications are rarely considered when it is decided that he shall attend college. Here in the United States the education is required for the man, not the man for the education.

The ordinary college student treats classes as a necessary evil. He goes at the beginning of a quarter (to turn in his class card) and once in a while he goes to find out how much has been covered since the last time he went. He realizes he is in college to get a degree, and this means passing exams. Since he usually rides a curve, he does the minimum amount of work necessary to get over, with perhaps a small margin of safety.

He little knows what a student commission is or what it does. He knows there is a convocation since he was asked to leave the library lounge. He is aware of a college paper with its comic strip. But he would never read this article.

He knows little and cares less about subcommittees. He does not participate in anything unless he is dragged to a social affair sponsored by students.

Since such a fuss is made over such organizations as fraternities, he is determined to join one. His chief concern then will be girls and sex. He probably will see movies that the censor board has not even had a chance at.

He is an enthusiastic member of some group of hard drinkers — or says he is — and tends to get stoned on weekends — or says he does.

His standard of an educated, well-informed person is one who reads "Time." He prefers "Life," "The Saturday Evening Post," "Sports Illustrated" and publications not on the "family reading list." He has never watched the news on TV but likes the western and detective series. He knows more about the "Pondorosa Ranch"

than about his own community.

He is an expert at producing reason (instead of assignments) on time. He is incapable of writing two complete sentences with correct spelling, punctuation and grammar. The foresight necessary to write a whole paragraph — namely, having the idea of where you begin — is beyond him. If it weren't for true-false and multiple choice questions, he would be at a loss.

He is an expert on sports but doesn't participate in any.

His 21st birthday will be spent in a noisy pub, defying bartenders to throw him out. He hopes to get out of college as quickly as possible, find the best-paying job with the longest holidays and highest pension available, and settle down to raise a family.

He wants to marry a girl not quite as intelligent as himself and one whom he suspects has never allowed herself to be kissed twice the same night by anyone but himself.

He hopes he won't have to think once he leaves college.

He probably will tell his children about the exciting, stimulating life he led at college. He will say, "It was the place that made me the man I now am."

Work In Europe

MORE TRAVEL GRANTS

Apr. 19, 1963 — The American Student Information Service, the only authorized placement service for American students seeking summer jobs in Europe, has increased from 1500 to 2000 the number of travel grants it will award students applying for positions in Europe.

Job openings now available in Europe include positions at factories, resorts, hospitals, farms, summer camps and in offices. Applications are received until May 31.

Interested students may write (naming your school) to Dept. H, ASIS, 22 Ave. de la Liberté, Luxembourg City, Grand Duchy of Luxembourg, for a 20-page prospectus, a complete job selection and application. Send \$1 for the prospectus, handling and an airmail reply.

The first 5000 inquiries receive a \$1 premium for the new student travel book, Earn, Learn and Travel in Europe.

Colleges and universities are the training grounds for future leaders. If we do not avail ourselves of the opportunity we are given in these institutions to orientate ourselves in such important matters as politics, where will we, as a race, or America as a nation, stand in the years to come? Khrushchev has predicted, "We will bury you." Aggies, are you trying to help him to fulfill this dream? At this rate he should not have any trouble in annihilating us.

WHITE PAPER

Certain persons who prefer to remain anonymous, for obvious reasons, have taken it upon themselves to publish a so-called "White Paper." The right of freedom cannot be denied; hence, I will exercise my right by making a few observations.

Dean Rankin, "Dean against students", as he was called in this paper, was viciously attacked. The conference between the dean and members of the Election Committee was asked for by the chairman of the committee. The changes that have been made in the election rules, were, for the most part, suggested by the committee members, and agreement reached by all parties. Nothing was forced down their throats. This does not necessarily mean that everyone agrees with all of these changes. The Election Committee realizes that to answer any questions properly that may arise, a ratified constitution, inadequate as it may be, is the only authority on such matters.

As I said before, one has the right to freedom of expression — with reservations. One of the rules of the elections that will be strictly enforced — is that no candidate should start his or her campaign until he or she is officially notified by the Committee. One paragraph in this "White Paper" strikes out at one of the prospective candidates. This is entirely in order once the campaigns have begun — officially, until then, other prospective candidates may take this as due warning.

DISTRUST OF COMMITTEE

Next comes the biggest complaint of all — complete distrust in the Elections Committee. Certain persons have taken it upon themselves to go to the administrators with complaints without even first consulting any members of the Committee or the Student Government. Utter confusion resulted. One young man has even taken it upon himself to inform fellow students that the elections were "rigged" and that the Elections Committee was "crooked." Stander has its place; so does a suit for libel. Should anyone be dissatisfied with the actions of the Committee so far, face us and voice your complaints like a man. We aren't perfect, and will gladly resign if our services are lacking.

Summing up, I would encourage you to take full part in a fair, hard-fought elections. This is our college, not Harry's or Tom's. It is mine and your and Harry's and Tom's.

The Elections Committee

NOTICE

REGISTRATION FOR THE 1963 SUMMER QUARTER WILL BE HELD THROUGH APRIL 26 IN THE OFFICE OF THE DIRECTOR OF SUMMER SCHOOL, DUDLEY BUILDING, BETWEEN THE HOURS OF 9:00 A.M. AND 5:00 P.M.

Johnny Robinson, Greensboro, a freshman in fine arts at A&T College, stands before one of his productions in a One-Man art exhibit being displayed this month at the Greensboro Summit Shopping Center, Patio Craft Shop.

Stroud

(CONTINUED FROM PAGE 1)

Described as a "happy blending of the sanest and most constructive Southern thought on the issue of human relations," the work includes views expressed by such distinguished persons as Hodding Carter, Leroy Collins, Harry S. Ashmore, McNeil Smith, Frank P. Graham, Benjamin E. Mays, F. D. Patterson, Gerald W. Jackson, and Henry B. Trimble.

In Quest of Freedom is not the first literary effort by Dr. Stroud. His writing ability was displayed during his tenure here at A&T when he served as editor-in-chief of THE REGISTER during his senior year. Also as an undergraduate, Dr. Stroud worked on a committee which prepared the sketch on the life of Dr. James B. Dudley, second president of the college, which appears in *Five North Carolina Negro Educators*.

Dr. Stroud has also had three articles to appear in *The Quarterly Review of Higher Education Among Negroes*. Among these are "The Negro Voter in the South" in the January 1961 edition, "The Populist - Democratic Vice - Presidential Imbroglio" in the April 1961 edition, and "The Sit-ins and the Fabric of the South" in the October 1961 edition. Another article, "Voter Registration in North Carolina," appears in the spring, 1961 edition of the *Journal of Negro Education*.

The son of Reverend and Mrs. C. A. Stoud of Greensboro, Dr. Stroud is a member of the Phi Beta Sigma Fraternity, Alpha Kappa Mu Honor Society, Pi Sigma Alpha Honor Society, the American Political Science Association, the Association of Social

Science Teachers, and the Association of University Professors.

Elections

(CONTINUED FROM PAGE 1)

According to the official requirements, the remaining officers shall be in full standing in their respective classes at the time of the election and during the term of their incumbency. This clause affects the positions of treasurer, secretary, and NSA coordinator and supersedes the original rules which required that these candidates meet the same requirements as the president.

Although not covered by any provisions in the constitution, candidates for Miss A&T must have a 2.00 average record and be a member of the incoming senior class. Earlier requirements had placed the average at 2.75.

Rules governing eligibility of candidates for class positions remain the same. These include a 2.10 average and paid membership in their respective class. Further, to seek a position, a freshman must have been in attendance at this college for two quarters, a sophomore for five quarters, and a junior for eight quarters.

In addition, no candidate for any position can have a condition or failure against him in a required course; he must also be in good standing with the administration and the student body.

All other rules governing the elections, including the date for the election, May 8, remain the same as those released prior to the Easter holiday.

Did you win in Lap 4?

IMPORTANT! If you hold any of the 20 winning numbers, claim your Pontiac Tempest LeMans Convertible in accordance with the rules on the reverse of your license plate. *Girls!* You may choose instead a thrilling expense-paid 2-week Holiday in Europe—for two! Plus \$500 in cash!

All claims for Tempests and Consolation Prizes must be sent via registered mail, postmarked by April 27, 1963 and received by the judges no later than April 29, 1963.

If you hold a Consolation Prize number, you win a 4-speed Portable Hi-Fi Stereo Set, "The Waltz" by RCA Victor. Or, you may still win a Tempest! (See official claiming rules on reverse of your license plate, and observe claiming dates given above.)
