A&T College Will Celebrate 73rd Anniversary

Various Events Are Scheduled For Homecoming

A full program of activities has been arranged for the observance of annual homecoming at A&T College in Greensboro.

Jimmie L. Beaver, dean of men and chairman of the observance committee, said the four-day program will be observed Monday through Thursday from Monday, October 29, and concludes on Sunday, November 4.

The annual observance ceremonies, set for Thursday evening at the Moore Gymnasium, will take place at 7:00.

The Friday program lists a mock funeral for the Macon State College Bears, in the Holland Bowl Stadium at Washington, D.C., and a giant, specially-baked, bone-shaped roast at the athletic field beginning at 7:00.

The Saturday events include: a pre-dinner dance, all-american breakfast, a luncheon for college alumni, the football game — the A&T College Aggies versus the LSU Tigers, the annual homecoming at the athletic field, the meal of furfurter roast at the athletic field beginning at 7:00.

The Sunday events include: a pre-dinner dance, all-american breakfast, a luncheon for college alumni, the football game — the A&T College Aggies versus the LSU Tigers, the annual homecoming at the athletic field, the meal of furfurter roast at the athletic field beginning at 7:00.

Are Scheduled...

November Dates Are Announced For Recruiters

November will be a busy month for the colleges in the industry and government, according to Dr. Barbour. The college's director of Placement.

Dr. Barbour recently released a list of dates in November on which representatives will visit to interview prospective employees. The November dates are designed to give recruiters and recruiters will come from private individuals as well as government.

Two days later, on November 2, representatives from the General Electric Company, Milwaukee, Michigan, will visit the campus. The college representatives will interview majors in engineering and mathematics.

Two days later, on November 4, engineering and mathematics majors employed by the representatives of the National Aeronautics and Space Administration. A representative of the National Aeronautics and Space Administration is a young lady interested in engineering and mathematics.

On Wednesday, November 6, the college representatives will interview electrical engineers, mechanical engineers, mechanical engineers, and automobile engineers.

Completed Forms Are Required For Nat'l Exam

Less than two weeks remain for prospective teachers who plan to take the National Teacher Examination. All A&T College students on December 10, 1984, to submit their registrations for the test, in the Massachusetts Institute of Technology at Cambridge, Massachusetts.

The test is set for Thursday evening at the annual Founders' Day Convocation Thursday, November 9, 1984. The program is scheduled to commence at 7:00 A.M. in Charles Moore Gymnasium.

Dr. Edward W. Brice, director of the Education Branch of the United States Office of Education, will deliver the main address.

The former president of Clinton Junior College, Rock Hill, South Carolina, Dr. Brice is a founding member of the Adult Education Association of the United States, serving as its first vice president.

Prior to his present assignment, he served in foreign assignments with the United States Department of State and the International Cooperation Administration in Liberia and Nepal. He has also served as an adviser to the Bureau of African Affairs.

The former dean of Tuskegee Institute, he holds the M.A. and Ph.D. degrees from the University of Pennsylvania.

Founders' Day was formerly known as Dudley Day. Prior to the one-day test session a candidate may take the Common Examinations, which includes tests in Professional Education and General Education, and one of the 33 Teaching Area Examinations which are designed to evaluate his understanding of the subject matter and methods applicable to the area he may be assigned to teach.

Each candidate will receive an Admission Ticket advising him of the

Retired Urban League Official Keynotes Opportunities Confab

Dr. Thomas described the "instant Negro" as a new type job seeker, denied all the life the opportunity to gain experience at the mid-management level, but like instant tea or coffee, upon a moment’s notice, is ready to perform in top-level positions.

"We, in the Urban League," he said, "must get the word out to Negroes who have served as its president.

Dr. Turner advised the students that, as difficult as the assignment is, they must work that much harder to meet the new challenges and opportunities now available to them.

He listed three important developments which he said are certain to affect the lives of the young people in college today.

The student explosion, he said, will create new and big social-economic problems. "The solution of these problems requires the best thinking of trained people.

Dr. Turner said, "The nation has been plain, simple in discrimination against a group of people, but there is the power on which it has spent much money in training," "The industries and the federal government are taking a new hard look at this situation, he said, "and you, and people like you, are certain to gain.

English Dept.'s Kelley And Turner Author Books

Mrs. Carrye H. Kelley, associate professor of English, is the author of a recently published book, PIECES OF FIVE ADMINISTRATORS.

Copyrighted in August, the work is submitted the Agricultural and Technical College HISTORICAL and the college's administration of five A&T presidents which were to advertise his understanding of the subject matter and methods applicable to the area he may be assigned to teach.

The book is being published as a part of the College Bulletin.

Mrs. Kelley, who was promoted to undertake the task of writing the book by the lack of any published work on the growth of the college, begins the book with a discussion of the institution's history. The book covers the period up to 1944.

As an graduate: Mrs. Kelley is the author of another book, A GUIDE TO WRITING, which for some years was used as The book is now English 100.

The author has been a member of the A&T faculty since 1939. One of the first women to graduate from A&T College in 1928, she

DR. DARWIN TURNER

Published during the summer by Wellesley Press, the book is a small volume of poems entitled KATHARIS. The volume sells for 50 cents.

One of the best men on campus Dr. Turner has managed to combine his writing with a host of other activities. He is currently serving on a committee of the Math Department of Education to establish Livingstone College, a college for the ages.

During the summer, Dr. Turner attended conferences at Wellesley.
Early Autumn

What's Your Excuse?

November 23, 1964

What's Your Excuse? Are you fresh out of excuses. Do you need a good one for Monday? Well, maybe it's not too late for you after all; perhaps you've been conditioned on your instructor. Besides, you may want to make your life more interesting and gain a little sympathy as you go along! If you can, go ahead and do something before you are asked to chaperon the next school dance. Of course, you may be told that you are suffering from hypnophobia. Of the two, you may end up in more trouble than you can handle. Or acting as a normal individual should. If you can prove that you are suffering from hypnophobia, you may end up in more trouble than you can handle.

Your condition has improved. Always keep a bag full of ideas.
New Program Prepares Students For Careers In Foreign Service

A bold new program designed to prepare students from minority groups for careers in the foreign service has been launched through a grant from the Ford Foundation. Officially known as the Foreign Affairs Scholars Program, the program was launched last spring with the blessings of high government officials, including Carl Rowan, director of the United States Information Agency, and William J. Crockett, Deputy Under Secretary of State for Administration.

The program is an outgrowth of the recognized need to include a greater representation of all segments of the American population in the Foreign Service and the small numbers from minority groups who had qualified in the past. Although the program is primarily geared toward the nation's three agencies concerned with foreign relations, some participants are expected to enter other agencies.

There is no question that the Foreign Service Officers will depend upon them and their performance. The program represents the first of, hopefully, many steps toward the right direction. Moreover, it opens new vistas and new opportunities for these and others who will follow from America's diverse minority groups.

In the final analysis, much is left up to the students themselves. The success or failure of the program will depend upon the number who successfully pass the Foreign Service Entrance Examination and meet the specified age, educational, and other requirements. In the end, no exceptions are being made for them. Their race and sex are not automatic and is predicated upon the opportunity that presents itself.

So the big job really lies ahead and being accepted for the program was probably the easiest part of their educational journey. The assistance provided will go far in preparing these participants for their ambitions, and within the next four years, the ranks of America's Foreign Service Corps will be entered by an increased number of citizens from minority groups.

ANNOUNCEMENT

Students who plan to do student teaching either during the spring or summer quarter must register with the Department of Education by April 30. To register with the Department of Education, go to the Dean's Office.

The Aggies really got off to a dismal start Saturday afternoon at Fort Eustis 37-12 and Tennessee could explain why. Fort Eustis was quite some time and nobody seemed explicable.

The Aggies looked impressive during fall drills and everyone at the camp expected them to break from the starting gate just as they did last season, with a bang. Aggie fans were really disappointed when the Fort Eustis Wheels came to town and swamped the Aggies 37-12. The Aggies had defeated the Wheels the last season and Aggie fans were expecting the same this season.

The Wheels did have ideas, however, and they were turned out by Dave McDonald, soundly defeating the Aggies.

Booster spots for A&T were Cornell Gordon, Cliff Matthews, Willie Beasley on the offensive unit, and Conrad Lattimore, Haywood Merck, Melvin Phillips, and Bettie Smith, on the defensive unit. Dave McDonald, soundly defeated the Aggies.

Well, Tennessee came and went and lo and behold they brought along their southerners Coach Mellor and a band of hungry Tigers who completely annihilated the Aggies by the tune of 45-12. Aggie fans don't care to remember this one except to say that maybe this will pull us together for better days ahead.

The J. C. Smith Bulls were next and they were really fired up. They had heard about the Aggie misfortune and were ready to capitalize on all Aggie let downs and misfortunes and try to make it a three in a row.

The Aggies had different ideas and time and again changed the J. C. Smith Bulls ideas about the outcome of the game. The game got on the winning trail with the conference 6-0 thumping of the Bulls. The Bulls were a replacement for the Morgan Bears who, after sustaining two losses to the Aggies the last two years, decided to lower the F.Y.B.

The Bulls did manage to make it a better battle on the field of play and it was obvious to the Aggie fans that they had expected the same of the Aggies. It was the game in which the Aggie offensive line started to roll.

Gordon started the ball rolling with a 15 yard scoring strike to the Aggie punt returner, added scoring jaunts of 25 and 30 yards and totaled over 100 yards for the night. Gordon was to miss the next game against a very rough and tough Tennessee team that was still smarting over a 20-18 defeat last season.

COMING GAMES

The T.C. Rams are next and they always play up a pretty close game. This season the Rams are weaker than ever. Looking for another Aggie run away in this one.

Perhaps the most important game of the season is next and that happened to fall on homecoming; our foes, the Morgan Bears.

The Bears really shelled us last year 21-0 and are expecting to do more of the same this year.

The Aggies knew that a victory over Morgan could very well mean the CIAA Championship for A&T, and you can bet your last that it will be all stops out in this one.

In spite of Morgan's impressive record to date and the fact that the Aggies are off to a slow start, I pick A&T by 6 in this one. All this corner says is that all Aggie fans come out and support our team in this one.

Good Grades

America's automobile industry is in the midst of a challenging era, with prospects of an even more exciting and demanding tempo in the years to come. Ford Motor Company is determined to achieve leadership in all phases of its operation. This leadership promises to bring lasting success to the company, its employees and its stockholders.

It will take people to accomplish this objective. Engineering, finance, styling, marketing, product planning, sales—all require people with the knowledge, judgment and personal drive to avail themselves of the unprecedented opportunities offered by a great industry.

The automobile business is growing. More cars are being bought now than ever before. With increases in population and consumer buying power, even more will be bought in the future. Realizing this, Ford Motor Company seeks to attract college graduates who have the capacity to grow with the company and the market.

Right now, our plans call for employing about a thousand of the best 1965 college graduates we can find, with all types of educational backgrounds. We need specialists, but we also need persons with broad liberal-arts training who can handle a wide variety of assignments. Actually, in our company, many graduates we can find, with all types of educational backgrounds. We need specialists, but we also need persons with broad liberal-arts training who can handle a wide variety of assignments. Actually, in our company, many graduates grow into jobs totally unrelated to their degrees. They have discovered that Ford offers intellectually challenging opportunities for those with the ability to seize them.

Contact your Placement Office and arrange to see our representative.

STEP FORWARD WITH FORD MOTOR COMPANY

An Open Letter to the 1965 College Graduate

from Donald N. Frey, Assistant General Manager, Ford Division of Ford Motor Company

Donald N. Frey was awarded a bachelor's degree in mechanical engineering by the University of Michigan in 1947 and a master's degree in 1953. One year later he joined Ford Motor Company as manager of the Metalurgical Department in the Scientific Laboratory. In 1962, Dr. Frey was appointed assistant general manager of the Ford Division, responsible for all engineering, product planning and purchasing activities, for all new Ford products.
