MERRY CHRISTMAS; HAPPY NEW YEAR

As Each Nation Follows Own Custom

In Scandinavian countries the Christmas begins on Christmas Eve and ends in a twelve-night party. On Christmas Eve the family gathers around the lighted Christmas tree. There is a visit from the Tontar who are a man and woman dressed like elves and come to the family bearing gifts. After carols and songs, they eat their special St. Lucia cake. In Germany, St. Nicholas fills them with toys and candies. If they have been bad, than colored lights because they will be punished.

Will the 1963 Christmas season be a merry and bright one for you? We are hoping that it will be. We realize that there may be those who will not have a happy Christmas, but we are confident with God's hand in yours and return safely to our beloved college community in the New Year.

ST. LUKE 2:11 “For unto you is born this day in the city of David a Saviour, which is Christ the Lord.”

As we go our several ways looking forward to the forthcoming of the birth of Jesus, the Christ, I pray that you may find in your celebration of His coming the peace which God our Father desires for all His children. May your faith in Him and His mission give you re-"blessing and courage throughout the coming year. Walk confidently with God's hand in yours and return safely to our beloved college community in the New Year.

1964 In Retrospect

We are once again at the threshold of a new year. Very soon the year A.D. 1964 will be a thing of the past.

This year, as any other year, has had its own unique features. For many people, 1964 has been a success, but to many more it has been a year characterized by failure. As students, we may set ourselves goals for our academic and non-academic pursuits. In our efforts to achieve our goals, we encounter conflicts which left us frustrated and unable to solve our difficulties.

But, can we be content with crying over split milk? No! One can find comfort in the words of Aldrich who said, "They fail and are not made; they lose their value; they have not derived.

This statement should not be misconstrued, however. It does not mean that all academic or non-academic goals should be given up. It does mean that one cannot expect success if one has not made any attempt.

It may be a temporary set-back which we have suffered. Let us not lose heart. As Dean of Student Activities, I like to quote, "Never say die; up man and try.

So far the A&T Aggies have taken the season's football championship in a fight for the first time, Swahili, the most widely spoken language in Africa, is being taught here. These and many other unmentioned features have characterized the A&T community during the year.

On the national level, the Civil Rights Act, the most comprehensive legislation aimed at eliminating segregation and discrimination, was passed. The anti-poverty bill was passed.

President Lyndon Baines Johnson was re-elected as President. He is the first Negro President of the United States.

In North Carolina we have a new Governor in the person of Dan K. Moore. We shall soon see what he will do to better the lot of the people.

Sanford has been one of the most progressive governors in the Union — surely, in the South.

In International Science, 1964 has seen the humiliating ouster of Soviet Premier Nikita M. Khrushchev, the explosion of an atomic bomb by the Republic of China, and the election of Sanford who has been one of the most progressive governors in the South.

A spirit that moves people around something maybe positive or build a dam, or forty seven bridges or a brand new alphabet.

Aspirin, band-aids, butter pears, palm oil, Peace Corps is time to know more rather than memorize.

From which side of the dream do you come? Who'd total life into a three-act sum — from which side of the dream do you come? Now I wonder where I could have been when the carriage windows were being decorated for Christmas? Oh! it must have been when I was in Frazer Hall taking courses in design and lettering.

Four steps to becoming a dizzie senior: (1) He looks forward to that very special day when he can call himself a senior. (2) He plans his course schedule so that he might graduate in the FOUR-YEAR PROGRAM sponsored by A&T College. (3) After getting his schedule and having it made at the end of this fall quarter? They must have been at the alphabet convention held by the Campbell Soup Company.

Do you notice the increase in the number of students majoring in “Cantonology”? Could this be where some A's have been made?

DOOMING THOMAS?

Christianity has more to offer than hope, it has positive proof in the form of a MIRACLE which was foretold, demonstrated and is interred. Leaders or send me a card marked ESP-17. My reply is free, non-Demonstrative. Christian, Marilyn W. Hurt, Box 53, Glen Ridge, N.J. 07028 (USA).

Yuletide Season

By EULA M. BALL

The Christmas season is fast approaching us; yet, many of us are too busy or too far removed from the true meaning of Christmas. Usually oe is in a hurry to see whether the values and aspirations we set for ourselves were desirable and attainable with the minimum of conflict.

Let us, therefore, as students, teachers, administrators, and non-academic pursuits. In our efforts to achieve our goals, we encounter conflicts which left us frustrated and unable to solve our difficulties.

But, can we be content with crying over split milk? No! One can find comfort in the words of Aldrich who said, "They fail and are not made; they lose their value; they have not derived.

This statement should not be misconstrued, however. It does not mean that all academic or non-academic goals should be given up. It does mean that one cannot expect success if one has not made any attempt.

It may be a temporary set-back which we have suffered. Let us not lose heart. As Dean of Student Activities, I like to quote, "Never say die; up man and try.

Students Needed For Diet Research

A&T College in the Spring of 1965.

Students are requested to come to

A&T College Traffic Safety Club as to

achievements.

Miss Geneva Holmes, adviser to foreign students, and Dr. F. A. Williams, director, Department

Chairman. The Army cadets surrendered 350 pints of blood; and the Air Force yielded 244 pints, for a total of 594 pints from the KIVC.

The facility and staff added another 73 pints. An additional 12 pints were added by special donors for a grand total of 667 pints, which is an all-time record.

A&T rolled up its sleeves and gave 430 pints of blood on November 23, 24, and 25 in the Cooper Hall Lounge.

The annual project was sponsored by the Army and Air Force Reserve Officers Training Corps, with Col. William Goode as chairman.

NoDoz™ keeps you mentally alert with the same safe relief of tension and headache found in coffee. Yet NoDoz is faster, handle, more reliable. Absolutely no habit-forming. Next time monotony

UNDENEFTE IN CONFERENCE

SPEAKING OF SPORTS

WITH HAME

The A&T Aggies led by Big Irving Mulcare and playmaker Robert Saunders really put on a show as they almost climbed the Fayetteville Broncos 100 to 68.

With Mulcare and Saunders leading the way the Aggies put on a display for the first time this season. Their potential Aggie fast break to reel off unanswered baskets was amazing.

That was quick, however, as late in the first half they cut the Aggies' lead and cut A&T's margin to 15 points. The score there was 30 to 25, five point A&T margin.

At this point, the Aggies led by Saunders steadily and at the half the score was 40 to 37.

Starting the second half, the Aggies promptly went to work on the Broncos again. Saunders led the break and helped Mulcare to the basket. And the Aggies were off to the races. About midway through the second period the score was 75 to 55 and Aggie fans were chanting for the home team. Coach Cal Irvin, as things looked okay, began to unload his bench and his reserves showed no mercy on the hopeless Broncos.

Tony Skinner, a much-improved junior, led the way pulling rebounds and helping Mulcare score points. Indeed, the Aggies were scoring in the magic work. This objective was reached when Lawrence Yates, a sophomore from Washington, D. C., pumped in a free throw to raise the second time for the Aggies 15 points. The score here was 95 to 79.

Leading scorer for the Aggies were Irving Mulcare with 26 points and Robert Saunders with 25 points, and a brilliant floor game by James Webber with 13, and Carl Hubbard, a freshman from Danville, Virginia, with 8.

The game turned out to be a much better showing for the Aggies as they were hard pushed in their 100 victory over Hampden-Saint Augustine's Falcons 104-98.

Irvin's board men, but Saturday night's game was his finest hour.

The Bulls have always been tough on the Aggies and they along with the Aggies should provide a close margin in this one.

FORD MOTOR COMPANY BUILDS A TOUGH ONE

IT SWIMS

Ford Motor Company's new military truck floats A-nil-fused sea.

And internal air pressure keep the body and mechanical components dry. Its water speed is 2.5 mph.

IT CLIMBS STEPS

In fact, the Army's new truck goes almost anywhere.

Early in 1963, Ford Motor Company received a contract from the U.S. Army to design and develop a 5-ton cargo truck for use in tactical military operations. Before the end of the first test run, the truck had been designated C. S.

This new vehicle, called the XM656 cargo truck, was sent to the Aberdeen Proving Grounds, a proving ground of 50,000 acres, for testing.

The Aggies' switching zone defense completely confused the Falcons' offense and managed to confine them until the game was out of reach, which was long before the final buzzer sounded.

The Aggies shot at a 47 percent range and the Falcons at a 41 percent shooting clip for the evening.

The Aggies' shots were just what the doctor ordered to spark good morale before the holiday meet for the Aggies and their next encounter on January 1 and 2.

The Aggies' shots were just what the doctor ordered to spark good morale before the holiday meet for the Aggies and their next encounter on January 1 and 2.

(continued from page 1)...action of upper-classman's medical reports would free the health staff to work with the medical problems of freshmen and students of other classifications who need special attention.

After some debate on the proposal, the council referred it to a sub-committee for further study before putting it to a vote.

A&T won the ball game 73-60.
