Nine Achieve 4.00 As 178 Make Honor Roll

Nine students compiled 4.00 point averages to lead a fall quarter honor roll which listed 44 A's and 134 B's.

Of these nine students, six were seniors; two, juniors; and one, a sophomore. According to schools, one was in Agriculture; two were in Education and General Studies; five were in Engineering; and one was in Nursing.

Twenty-seven seniors made the A honor roll; twelve juniors, and five sophomores. Seventy-one seniors made B; thirty juniors, sixteen sophomores, fourteen freshmen, and three whose classifications were not given.

With 4.00 point averages were Shirley A. Feaster, Martha A. George, Ralph E. Greenlee, Gladys C. Ingram, Martha J. Linton, Thomas R. Murphy, Robert Patterson, Alfred C. Waddell, and Linwood Burney.

Following are the A and the B honor rolls:

"A" HONOR ROLL

SENIORS

Shirley A. Feaster, Greensboro, 4.00; Martha A. George, Sherwood, Maryland, 4.00; Ralph E. Greenlee, Greensboro, 4.00; Gladys C. Ingram, Greensboro, 4.00; Martha J. Linton, Durham, 4.00; and Thomas R. Murphy, Greensboro, 4.00.

Alice Y. Withers, Ruffin, 3.84; Alfonso Charles, High Point, 3.81; Thomas Redding, Oxford, 3.81; Melvin Degree, Shelby, 3.80; Lillian A. Lacewell, Riegelwood, 3.79; Bernard White, Greensboro, 3.79; Frankie Woodle, Asheboro, 3.77; James Hoyle, Shelby, 3.76; Gerald E. Rogers, Covington, Virginia, 3.76; Emerson Whitted, Castle Hayne, 3.72; and Theodore L. Caul,

Covington, Virginia, 3.68.

Franklin McCain, Greensboro, 3.67; Lynwood Tharrington, Henderson, 3.67; Robert E. Newsome, Norfolk, Virginia, 3.57; William E. Newell, Atkinson, 3.56; Walter Thompson, St. Albans, New York, 3.56; Felton Armstrong, Candor, 3.50; Ethelean C. Canada, Greensboro, 3.50; David R. Smith, Clinton, Maryland, 3.50; Rose M. Stanfield, Greensboro, 3.50; Mollie C. Walker, Newport, 3.50.

JUNIORS

Robert Patterson, Lenoir, 4.00; Alfred C. Waddell, Greensboro, 4.00; Joe McFadden, Rock Hill S. C., 3.86; Winnie D. Webb, Bolton, 3.85; Brenda M. Richardson, Westbury, L. I., 3.80; Marion V. Staples, Greensboro, 3.63; Wilhelmina Lindsay, Charlotte,

3.60; Carolyn E. Jones, Moyock, 3.58; Hubert T. Wagstaff, Greensboro, 3.55; Ida Taylor, Rocky Mount, 3.50; Charles E. Thompson, Rocky Mount, 3.50; and Alton S. Wallace, New Bern, 3.50.

SOPHOMORES

Lindwood Burney, LaGrange, 4.00; Diane Banner, Lenoir, 3.68; Charles Elmore, Beaufort, 3.60; Joyce D. Burke, Hickory, 3.52; and Lorease Lewis, Greensboro, 3.50.

"B" HONOR ROLL

SENIORS

Ollen A. Dupree, Jr., Clinton, 3.47; Thomas H. Brown, Norfolk, Virginia, 3.44; Charles D. Stevenson, Statesville, 3.40; Leon Thomas, Garner, 3.33; Joyce Johnson, Hartford, Conn., 3.32; Helen Atkinson, Walstonbury, 3.31; Arthur

Newell, Jacksonville, 3.31; Gloria A. Brooks, Jamesville, 3.28; Marvin A. Loritts, Roanoke, Virginia, 3.28; Hilda M. Smith, Durham, 3.28.

Andrew Johnson, Jr., Greensboro, 3.25; Patricia A. Lawson, Blairs, Virginia, 3.25; Reginald G. Mitchiner, Durham, 3.25; Nicholas S. Bright, Washington, 3.21; Thomas Diggs, Paterson, New Jersey, 3.21; Cosmas D. Eaglin, Fayetteville, 3.20; Clifton Parker, Mt. Gilead, 3.20; Ola Mae Sneed, Columbia, South Carolina, 3.20; Anna M. Bowling, Greensboro, 3.19; Genevieve L. Jones, Teaneck, New Jersey, 3.19; and Thomas R. Woodson, Columbia, South Carolina, 3.19.

Christine F. Barbour, Greensboro, 3.17; Stephen Bullock, Battle-

"The Cream of College News"

When the A&T College Richard B. Harrison Players present "Tea House of The August Moon" in two performances on January 21 and 22, the play will carry an authentic background, thanks to the assistance of Kazue Tabaru, left, of Naha, Okinawa. Miss Tabaru, a student at the University of North

Carolina, Greensboro, and whose native home is in the vicinity where the play is set, is serving as consultant in the upcoming production. She talks with cast members who will handle lead roles: Regina Bass, Roxboro, and Cheryl Derrickson and Sandra Hampton, both of Greensboro.

A&T College To "Open War On Poverty" With Grants Totaling \$261,000

Dr. Pinckney Will Direct Project

A&T College last week received grants totaling \$261,000 to execute an experimental and demonstration retraining program for heads of families who are educationally and culturally disadvantaged.

The program, a part of President Johnson's "open war on poverty," will provide for training of approxi-

mately 200 such persons who have a regular history of under employment or unemployment and whose formal education does not exceed the fifth grade.

Participants in the program will include persons between the ages of 22 and 50, who are either heads of families, white or Negro, living in urban or rural communities, or are members of farm families, with annual incomes of less than \$1,200.

Dubbed "Project Uplift," the program will be open to residents of Guilford, Stokes, and Davie counties. The latter two counties are a part of the Appalachian Region, already listed as a depressed area.

The project has been authorized to operate nine months with the first month to be used in orientation of staff and recruitment of participants; the next six months for actual instruction, and the final two months for job placement, and project evaluation.

The instructional program will include training in basic educational and vocational training in eight occupations.

The vocational courses to be offered are auto body repair, auto mechanics, bricklaying, cooking, custodian, janitor, nurses aid, and waiter and waitress.

"Project Uplift" will receive \$151,000 from the U. S. Department of Health Education, and Welfare, and \$110,000 from the U. S. Department of Labor, Office of Manpower, Automation, and Training.

A&T Gets Grants For Chemistry From N S F

A&T College has been awarded grants totaling \$119,849, by the National Science Foundation for the operation of two institutes for high school teachers of chemistry beginning this summer.

Announcement of the awards was made this week by Dr. Lewis C. Dowdy, president of the college. The announcement stated that Dr. Gerald A. Edwards, professor and chairman of the Department of Chemistry, will serve as director of both institutes.

One of the programs, an Academic Year Institute for High School Teachers of Chemistry, to be operated at a cost of \$75,200, begins with a summer quarter on June 14, 1965 through August 14, and continues on September 13 and ends June 4, 1966. The year-round program will be open to 10 participants.

(CONTINUED ON PAGE 4)

R B H Players To Give Drama Next Week

The "Teahouse of the August Moon" by John Patrick will be presented by the Harrison Players during the winter quarter. The play, adapted from a novel by Vern Sneider, tells the story of the economic recovery of an Okinawan village called Tobiki.

Introducing the play will be Anne Mitchell in the role of Sakini. Anne, a freshman sociology major from Greensboro, said, "Playing the role of Sakini (a man) is both challenging and interesting." She was last seen as Madge in the play, "Picnic."

With the introduction of Colonel Purdy, (James Wilder) and Captain Fisby (James Pettiford) the play begins to move.

Both Wilder and Pettiford are veterans of several seasons with the players. Wilder, a senior English major from Wilmington, was the winner of the Most Promising Actor Award for the 61 and 62 school year, while Pettiford, a senior history major from Creedmoor, is the holder of the Best Actor's Award for 63-64.

"Teahouse" gains impetus when Lotus Blossom, "a Geisha girl first class" is introduced. All types of complications set in because of Captain Fisby's misunderstanding of what a Geisha girl does.

College Schedules Religious Programs New York Rector To Serve As Speaker

Dr. Richard B. Martin, rector of the Brooklyn, N. Y., St. Phillips Episcopal Church and recently appointed archdeacon for the Protestant Episcopal Church of Brooklyn, will conduct the annual Religious Emphasis Week Observance at A&T College January 17-21.

He will deliver two main sermons, the first at the regular Sunday vesper hour, 6:30 P.M. January 17 and at a Town and Gown community-wide session January 18 at 7:30 P.M., both at Harrison Auditorium. He will also deliver the main address at the college's winter quarter convocation set for the Charles Moore Gymnasium January 19, at 9 A.M.

Dr. Martin will appear at five seminar sessions, four sponsored by student groups and one for faculty and staff, during the observance.

The Rev. C. M. McCoy, director of the A&T Chapel, said the public is invited to attend the general assemblies.

A native of South Carolina, Dr. Martin received his training at the following institutions: Allen University, Columbia, S. C.; Bishop Payne Divinity School, Petersburg, Virginia; University of The South Sewanee, Tennessee and at the Union Theological Seminary, New York City.

After serving as rector for 19 years at the Norfolk, Virginia, Grace Protestant Episcopal

Church, Dr. Martin accepted the Brooklyn assignment in 1962. He was appointed December 21, the first Negro to become an archdeacon in metropolitan New York. In his new post he will supervise the activities of 57 parishes.

Among the dignitaries who participated in contract-signing ceremonies for "Project Uplift," were from left to right: Dr. Lewis C. Dowdy, president of the college; Horace R. Kornegay, Greensboro, congressman for the Sixth District; Robert H. Frazier,

Greensboro attorney, chairman of the trustee board; Dr. A. C. Mallory, project officer, Office of Manpower Automation and Training, U. S. Department of Labor, Washington, D. C., and Dr. C. W. Pinckney, local director of the project.

The New Year

We have just witnessed the beginning of a brand new year — 1965.

It is customary, at some time preceding or immediately following the entrance of any new year, for people to pause to take stock of past achievements and failures and to make resolutions for the future.

Some stock taking, planning, and proposing have taken place on our campus; and some major changes can be expected this year.

One of the major changes in the planning department will be the shift from the quarter to the semester system, beginning in September.

Student opinions vary regarding this change. Many are apprehensive about the new financial schedule and the amounts. Others are concerned about the possible loss of accumulated course credits and a possible increase in the number of college dropouts. Still others fear change — any change.

Among students who favor the change are those who feel that they need more time in courses, especially major courses; that they could study at a more leisurely pace; and that they would be required to register only twice per school year.

In the final analysis though, the semester system will probably be acceptable to most students; and in three years, at the most, the quarter system will be either re-instituted or forgotten.

The College's participation in President Lyndon B. Johnson's "War on Poverty" through "Project Uplift" will be a major undertaking.

Of the "Project" Dorothy Benjamin, *Greensboro Record* staff writes, noted "The project, if successful, could become a model to be used throughout the United States in preparing the educationally and culturally disadvantaged to become assets to their communities, families, and themselves."

Except for student assistants' providing tutoring in the basic skills, the effect of such a program on the regularly enrolled students here has not been determined. It is certain, however, that the total institution will be more closely scrutinized by local, state and national officials as the project gets under way.

In the proposal department, the College Council has been requested to recommend to the administration that the college dispense with the yearly health screening of upperclassmen on the grounds that their health reports are superficial and of no value to the infirmary staff.

Construction of a biology building to begin in the immediate future, continued efforts to improve the instructional program in all areas, and increased emphasis on scholarly performances by all students will certainly characterize 1965 on this campus.

What Happened To The Honor Roll?

Last year in the January 17, 1964 edition of the REGISTER in which the fall quarter honor roll was printed, there was carried an editorial entitled, "WHAT HAPPENED TO THE HONOR ROLL?"

Last year's editor of THE REGISTER saw fit to raise this question because, out of a student population of 3,005, only 180 persons made the honor roll. Out of a class of 895 freshmen, only 19 were included among the 180 persons. Two freshmen made the "A" Honor Roll, and the other 17 fell into the "B" category.

This year finds us faced with the same question — What Happened To The Honor Roll? One hundred and seventy-four Aggies out of the 3,227 who enrolled for the past fall quarter rated the honor roll, with 44 making the "A" Honor Roll and 134 making the "B". Out of the 44 rated as "A" or excellent students, not one person from the well-over 1,000-member freshman class is listed.

Why is it that, with an increase in overall enrollment and an increase in the size of the freshman class, six fewer Aggies made the past fall quarter's honor roll? And why is it that no freshman made the "A" Honor Roll?

Comparing the 174-member fall quarter honor roll with the approximated 1,404-member failing list, what conclusions can one draw?

We, the present editors of the REGISTER, cannot state it any better than did last year's editor who said of the similar situation, "From all indications, we are in the midst of an academic depression, one which neither the institution nor its students can afford. It is high time that we heed the cries of academic excellence and the challenges hurled our way. It is high time that we raised our level of performance above the common and the mediocre. It is high time that we became the community of scholars which an institution of this nature professes to be."

HAPPY NEW YEAR! 1965

Political Roundtable

By L. A. HOUSE

OLD and NEW — With the close of 1964 and the arrival of 1965 one finds that the wheels of the political world turn forevermore, however cumbersome. The axis of the dominant political wheel has balanced, in '65, its main points of coordination between the big five: United States, Russia, Great Britain, France, and Red China. In all probability the co-ordinates of action will retain their claims to fame for 1965.

Using the past as a prologue to the future the curious political enthusiast may either gloomily or enthusiastically await the following predictions.

As one peers into the hazy, but somewhat informative, crystal ball, he may find that the following will occur in the political world, among the big five, in 1965: Don't be surprised to hear of the United States' increasing aid to South Viet Nam. We can't do anything nuclear, you know, but certainly we can not "lose face" (being the great protector) over such a "trivial" matter.

Ladies, whether it's your womanly intuition and, men, whether it's your manly foresight, you may not be wrong if however reluctantly you are thinking that DeGaulle is to become an agreeable diplomat and allow France to develop into a bona-fied ally, rather than a haphazardly frightened foe in 1965. You must know that Red China may open full blast an all out effort to become the number one Communist Whip. No one has said that this dramatic attempt is going to climax in 1965, but keep your eyes bulged; anything can happen. Of course, this foresight on Red China may be a wild one, but who expected her to explode a nuclear bomb in '64?

Great Britain has had a shift in her gift of government, but who knows, maybe the Labor Party has much potential. Prime minister Wilson may strive to show Lord Home and the Conservatives that the Labor Party is a better axis on which the British Government should turn.

Surely the crystal ball has been rather hazy, but so lurks the roundtable of politics old and new. Keep your ESP (extra sensory perception) concentrated upon the big five and share in the breathless happenings of '65.

Narrowing the scope a bit, let us tread upon North Carolina's political avenue. Did you know that Governor Terry Sanford has been one of the most liberal governors North Carolina has ever seen? Remember the emphasis placed on education, poverty, construction, and even civil rights, by our own Governor Sanford?

As Summarized by the renowned Governor himself, the purpose of the Sanford Administration was to make North Carolina one of the most civilized communities in America and, hence, the world. In harmony with the foregoing purpose it was also a chief aim of the administration to make North Carolina tremendously strong by educating, retaining, and benefiting from the talents of its youth.

Yes, regret plagues the intelligent citizen who realizes that the term of office for the outstanding North Carolina, Governor Terry Sanford drew quickly to a close. Yet, despair is not the only ultimatum. Who knows, maybe the Honorable Dan K. Moore will execute the long-lived North Carolina Motto, "To Be Rather Than To Seem."

(CONTINUED ON PAGE 4)

\$250,000 Center To Be Memorial To CORE Workers And Volunteers

A \$250,000 community center, designed as a memorial to CORE workers' Michael Schwerner and James Chaney and student volunteer Andrew Goodman, will be constructed in the town of Meridian, Mississippi by the CORE Scholarship, Education and Defense Fund. Meridian is the site of the community center started in late 1963 by Rita and Michael Schwerner, and was the headquarters from which Schwerner, Chaney and Goodman left on the morning of June 21, 1964, when they were murdered.

Plans for the center, built both to meet the expanding needs of the Meridian Negro community and to withstand possible bomb or gunfire attack, were announced in detail by Andrew Norman (Chairman of the tax-exempt CORE Scholarship Education and Defense Fund) and Nathan Schwerner and Robert Goodman (fathers of the two martyred young men) Jackie Robinson (a co-chairman of the project) and Paul Willen (architect of the structure).

A ten room, L-shaped building, the center will be built in Meridian,

with a ten foot retaining wall protecting the street-exposed sides of the building. Some of the programs scheduled for operation within the center include an auditorium-gymnasium, library areas designated for welfare and civic service instruction, typing classes, hygiene clinics and a child care center.

CORE Scholarship Education and Defense Fund is in the midst of a nationwide fund-raising drive to finance the project which will be the first of a series of such centers throughout the deep South. Also acting as co-chairman with Jackie Robinson for the Center is Ralph Samuels, chairman of the Board of Directors of the Federation of Jewish Philanthropies of New York City.

Fashions

By BRENDA MOORE

Spring promises to bring about a refined and softened look for the female. Everything will be delicate from head to toe.

The hair will take on a shorter bubbly look which will do away with those long droopy lines, which have been in far too long. Make-up will be sheer and natural. By the way, Revlon has a new lipstick which promises not to change colors, moon drops moisture bath. Jewelry takes on a delicate and precise look; pins will be worn in pairs; bracelets are more slender than ever with a touch of pastel on gold; and necklaces will contour and flow smoothly around the neck. Textured nylons are still holding on, only accentuated with the palest of colors and more designs, everything from rosebuds to butterflies. Navy promises to be big in the textured nylon also. The hand will be covered by a pale glove with a suggestion of suede in either fabric or leather. The hand bag will be just as dainty and small in suede and soft leather; some of the bags are being featured with the

Office work in Europe is interesting

SUMMER JOBS IN EUROPE

Grand Duchy of Luxembourg — You can earn \$300 a month working in Europe next summer. The American Student Information Service is also giving travel grants of \$390 to the first 5000 applicants. Paying jobs in Europe include office work, resort, sales, farm, factory, child care and shipboard work just to mention a few. Job and travel grant applications and complete details are available in a 36-page illustrated booklet which students may obtain by sending \$2 (for the booklet and airmail postage) to Dept. J, ASIS, 22 Ave. de la Liberte, Luxembourg City, Grand Duchy of Luxembourg. Interested students should write immediately.

DOUBTING THOMAS? HOPEFUL AGNOSTIC?

Christianity has more to offer than hope, it has positive proof in the form of a MIRACLE which was foretold, described and is intensely personal. Ask the Religious Leaders or send me a card marked ESP-17. My reply is free, non-Denominational, Christian. Martyn W. Hart, Box 53, Glen Ridge, N. J. 07028 (USA).

Eight graduating seniors who completed their academic requirements at A&T College at the end of the fall quarter are commissioned as second lieutenants in the U. S. Army. Lt. Col. William Goode, professor of military science, administered the oath.

The new officers are from left to right: June Foy, Fayetteville; Wylie Harris, Charlotte; Joseph Duckett, Philadelphia, Pa.; Willie L. Gore, Southport; Robert Riddick, Windsor; Willie Skinner, Grifton; Robert Newsome, Norfolk, Va., and William Burton, Fuquay-Varina.

R B H Players

(CONTINUED FROM PAGE 1)

Playing the role of Lotus Blossom will be the novice, Cheryl Derrickson. Cheryl is a sophomore French major and drama minor from Greensboro.

Another Greensboro girl participating in the play is Sandra Hampton. Sandra is playing the role of Miss Higi Jiga the president of the Women's League for Democratic Action.

Others in the cast are Jim Hamlin, a freshman electronics major from Mill Valley, California — Sergeant Gregory; Harold Marley, a freshman electrical engineering major from Whiteville — Mr. Selko; Stanley Hanks, a freshman biology major from Henderson — Mr. Oshira; Mrs. Zoe Parks Barbee, an instructor in the English Department — The Old Woman; and James Wagoner, a sophomore English major — Captain McLean.

Also in the cast are Elizabeth Lee — old woman's daughter; Willie Randolph — Mr. Omura; William McCrary — Mr. Keora; Stanley Johnson — Mr. Sumata.

The Women's League for Democratic Action — Eula Battle, Patricia Lanier, Regenia Bass, Linda Russell, Elizabeth Lee, and Virginia Johnson.

James Thorpe, a sophomore agricultural business major from Rocky Mount, will be seen in the dual roles of the Ancient Man and Mr. Hokaida. Thorne was last seen

as Howard in the play "Picnic." Also appearing for the first time with the players will be Sybil and Heidi Stevenson and Charma Kinney as the children.

Assisting the director, Dr. John Marshall Stevenson, will be Sandra Daye, a freshman business major from Greensboro. She made her debut as Rosemary, the old maid school teacher, in "Picnic" last quarter.

There are only two plays remaining on the schedule for this year. They are "Inherit the Wind" and a musical "Bye Bye Birdie." Exchange dramas are also scheduled with Fayetteville State College and Elon College.

Fashions

(CONTINUED FROM PAGE 2)

shoulder strap for day-time wear. The show takes on a rounder and wider look at the toe line, being featured in a number of new styles. Suit lines will be skinny, and some will be double breasted with the swiny skirts.

Color is rampant, ranging from bright pastels and pale neutrals to dark darks with a bright print for accentuation. Stripes and plaids in any color and pattern imaginable are the biggest highlight of the season.

Graduation was only the beginning of Jim Brown's education

Because he joined Western Electric

Jim Brown, Northwestern University, '62, came with Western Electric because he had heard about the Company's concern for the continued development of its engineers after college graduation.

Jim has his degree in industrial engineering and is continuing to learn and grow in professional stature through Western Electric's Graduate Engineering Training Program. The objectives and educational philosophy of this Program are in the best of academic traditions, designed for both experienced and new engineers.

Like other Western Electric engineers, Jim started out in this Program with a six-week course to help in the transition from the classroom to industry. Since then, Jim Brown has continued to take courses that will help him keep up with the newest engineering techniques in communications.

This training, together with formal college engineering studies, has given Jim the ability to develop his talents to the fullest extent. His present responsibilities include the solution of engineering problems in the manufacture of moly-permalloy core rings, a component used to improve the quality of voice transmission.

If you set the highest standards for yourself, enjoy a challenge, and have the qualifications we're looking for — we want to talk to you! Opportunities exist now for electrical, mechanical and industrial engineers, and for physical science, liberal arts and business majors. For more information, get your copy of the Western Electric Career Opportunities booklet from your Placement Officer. And be sure to arrange for an interview when the Bell System recruiting team visits your campus.

Western Electric MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM

Principal manufacturing locations in 13 cities □ Operating centers in many of these same cities plus 36 others throughout the U.S. Engineering Research Center, Princeton, N.J. □ Teletype Corp., Skokie, Ill., Little Rock, Ark. □ General Headquarters, New York City

THE SAFE WAY to stay alert without harmful stimulants

NoDoz™ keeps you mentally alert with the same safe refresher found in coffee. Yet NoDoz is faster, handier, more reliable. Absolutely not habit-forming. Next time monotony

makes you feel drowsy while studying, working or driving, do as millions do... perk up with safe, effective NoDoz Keep Alert Tablets.

Another fine product of Grove Laboratories.

Aggies Win Over Broncos In CIAA Game

The A&T College Aggies last week breezed past the Fayetteville State Broncos, 100-69, in a CIAA basketball game played here at the Charles Moore Gymnasium.

The victory, plus another over St. Augustine's College later in the week, sent the Aggies home for the holidays with a 3-0 conference record, a 5-1, overall.

After pushing ahead by 15 points at 10 minutes of the first half, the Broncos, rallied and at 5:10, had reduced the gap to five points with the score at 30-25, A&T.

The bristling pace set by the Aggies in the first half took its toll in the second and final stanza, as A&T easily moved away.

Big guns in the Aggie blitz were Irving Mulcare, who jumped in 26 points and pulled down 15 rebounds, and Robert Saunders, the star playmaker, who scored 25 points.

Roy McNeill and Ray Baker, with 12 points each, were high scorers for Fayetteville.

Robert Saunders (52) star playmaker for the A&T College Aggies, drives around the guard of James Winters (23) of Fayetteville State College, in a basketball game played last week in Greensboro. The Aggies won the ball game, 100-69.

Project Uplift

(CONTINUED FROM PAGE 1)

Dr. Lewis C. Dowdy, president of the college, has announced the appointment of Dr. C. W. Pinckney, chairman of the Industrial Arts Department, as director of the project. Mr. Samuel C. Smith, dean of the Technical Institute, will serve as associate director.

The project proposes an intensive program of vocational training, basic education, vocational counseling, job development, placement and supportive services for the participants.

1. It provides for a mobilized staff to seek potential trainees and encourage participation in the trainees' home area. It will concentrate the recruitment effort in the geographically hard-to-reach areas of the three counties.

2. It will utilize existing facilities at A&T College to provide services much needed by the group including opportunities at social and cultural advancement, and

3. The project will conduct a specialized testing program geared to the educational and cultural deficiencies of the participants, aimed at suggesting remedial techniques to be employed in the instructional program and at measuring progress at periodical intervals.

The program envisions special services for the family of the participant, recognizing that maximum results can be obtained only through a total understanding and acceptance of the project objectives by the family unit.

At the time of selection of a trainee for this project, his family will be asked and encouraged to participate in one of the improvement groups to be established as part of the project services. These groups have two purposes: (1) they will attempt to educate the families of the participants in those skills necessary to upgrade their way of life, and (2) they will provide an economical mechanism for family counseling both during training and in the follow-up phase. Special training in homemaking education, family life and community life is proposed for these group sessions.

Applications for admission to the training sessions may be made to Project Uplift, A&T College, Greensboro, N. C., 27411, Phone 273-1773.

Roundtable

(CONTINUED FROM PAGE 2)

The roundtable of politics would certainly be lacking this week without mention of the magnificently impressive State of the Union Message delivered by the President of the United States, Lyndon Baines Johnson. Assuredly you not only noted the content of Mr. Johnson's address, but his most dynamic delivery as well.

Keynoting Mr. Johnson's address were his references to the unification of Americans, the maintenance of a thriving economy, foreign hospitality, with emphasis on the Soviet Union, preservation of American culture and beauty, and the "American Dream": land of the free; home of the brave. Mr. Johnson also mentioned medicare, poverty, taxation, etc. If you missed the State of the Union Message you deprived yourself of approximately fifty-five minutes of the most intelligent arrangement of American political, economical, and social facts you will possibly ever hear in similar format.

"The good citizen is the informed citizen" is a priceless statement; therefore, since politics play a leading role in the life of an informed American, won't you be informed? Welcome to the Political Roundtable.

Chemistry Grant

(CONTINUED FROM PAGE 1)

The second program, a Summer Institute in Chemistry for Secondary School Teachers, for which a grant of \$45,640, has been allocated, will be operated for nine weeks beginning on June 14, 1965 and extending through August 13. The program will include thirty participants.

Dr. Edwards said that applications to enter either of the Institutes should be filed on or before January 20, 1965, and announcement of the selections will be made on February 15, 1965.

Speech Contest

The annual public speaking contest opened the first week of the winter quarter. The theme, this year, is "Our Changing Contemporary Society and Its Significance."

There will be three or four cash prizes awarded. The semi-finals of the contest will take place during the last week in January.

The speech subjects should interpret the theme. A contestant may word his own speech subject or he may choose one from a suggested list. The speeches should vary in length from 5 to 7 minutes.

Any student interested in entering this verbal competition should contact Mrs. Pearl G. Bradley, director of the contest.

Olds

442

was here!

Whoosh! What you almost saw above was the wooliest number in years: Oldsmobile's 4-4-2. Sporting (and standard) equipment includes a 400-cu.-in. 345-hp V-8 mill backed with 4-barrel carb and acoustically tuned, chambered twin pipes. And "sticky" red-line tires. And front and rear stabilizers, heavy-duty frame, springs and shocks that make lean and sway mere memories. Three transmission availabilities, too, including 3-speed synchromesh, 4-on-the-floor and Jetaway automatic. Better hurry over to your Olds Dealer's. The 4-4-2 is a restless beast! (And it's the lowest priced high-performance car in America!)

'65 **OLDSMOBILE**
