College Faculty Listens To Famous Athlete

Jackie Robinson, former baseball star, was invited to the campus of A & T College during the recent week's observance. Robinson, the first to wear the uniform of an American major league baseball team, was the guest at the annual UMC banquet.

The event, held in President's Hall, was attended by A & T alumni and faculty.

Mr. Robinson spoke about civil rights and individual responsibility. He drew upon his own experiences in breaking the color barrier in major league baseball and of the four A & T College students who perished in the civil move- ment. He stressed the need to understand the obstacles to themselves and those of their families.

"One big lesson is that no in- telligence, self-respect, or no affor- dam on from the struggle. I am one of the hands of American students. He challenged the students to take some responsibility for the future and to speak to students at A & T College on the reasons for coming to the college was "to leave a challenge to the students at A & T."

He challenged the students to "generate on the college campuses of this nation small revolution: a revolution even more vital than that which brought the con­ cession of which he spoke was a con­ viction to the eyes of the students.

This was described as the most vivid and inspiring moments of the important frontier, for there is no politician who does not respect the power of the press."

He asked that each student strive to be a better student, a better relative, a better acquaintance, and his friends to recognize this. Robinson said that each student might make a pledge to give the nation at least five friends to the world in tomorrow. The students were led by the instructor to enroll the aid of five others.

Building Program Progresses As Winter Weather Sets In

BY JUNIUS RUSSELL, JR.

The cold days of winter have somewhat dammed the pace of students' outdoor activities around the campus. However, they have not diverted the present from the new building program on campus.

The presence of students passing along sidewalks bare, leafless trees, does not add to what was just a small rock under the branches of deciduous trees close and careful study will show that those columns are covered by the special prepared hedges bedded with gravel to be used in the future.

In the south of this structure, the future student center of attraction is the new gymnasium, a new small gorge earlier in the school year, is now being covered by the roof of this particular location, a founda- tion that is also a blossom of beautiful facili- ties to the students.

The bridge is arriving to trucks daily and will soon be applied to this structure as it progresses.

A cow root system of pipe, a road space, and the over-head electrical system form the power source and inflow for workers at these building sites, constantly closing streets and sidewalks that pass the building locations.

AHEAD OF NORTH CAMPUS con- tractors, however, are the workers of the new dormitory on Dudley Street. The New Dorm brought with it the current showing of the completion of the second floor hall, walking purposes, the building should look like a real masterpiece to the campus.

Looking around the campus as the building program progresses now, one can imagine that the warm weather spring may bring not only green grass, blooming trees and more outdoor life, but also a blossom of beautiful faciliti- ties to the eyes of the students.

Mrs. C. Robinson Is First Winner In New Contest

The student chapter of The Music Educators National Conference au- thorized in this December issue of The REGISTER a contest to ob- tain recognition for the efforts of The Agricul- tural and Mechanical College, 35th Avenue South. The winning lyrical will be put to music which will be sung at foot- ball games and also at the basket- ball games.

The contest is open to all A & T College students. The contest has no limit to the number of entries that may be submitted. The winners will be announced in The REGISTER on January 14, 1966.

Dear President Johnson:

If the people of the United States of America, who have been如此的 peace and happiness in the 1961-62 edition of Who's Who in African American Education.

The complete list includes Gladys M. Allison, Washington, sociology; Darlene Drummond, Port hurricanes, English; Lillie J. Frazier, Hacz, sociology; Lillian M. Goddard, Charle- sburg, South Carolina; architectural engineering; Lillian J. Godbee, nursing; Jack Alexander Good, Greensboro, biology; William E. Goode, Greensboro, English; and Ralph E. Greene, Greensboro, sociology.

In addition, Drs. Charles R. Richardson, Goldsboro, sociology; Dr. S. Richardson, Farmville, engineering physics; Dr. Roderick C. Gumley, Greensboro, sociology; Tyrone Ross, Eure; Lake, South Carolina, biology; Robert Singelton, Head- man, business administration; Rilla Southall, Portsmouth, Virginia, sociology; John Southall, Portsmouth, Virginia, sociology; and Fidelita Green, Greensboro, sociology.

Students Support President In The Viet Nam Conflict

Shortly preceding the Christmas holidays the junior class of this partime launched a project concern- ing Viet Nam policies with re- gards to civil obligations and con- cessions.

Because many of us want to stand and be counted along with those Americans who oppose such things as Viet Nam policies, we supported the following letter which was sent to the President of the United States.

The Honorable Lyndon B. Johnson President of the United States The White House Washington, D.C.

Dear President Johnson:

The student body of The Agricul­ tural and Technical College of North Carolina hereby endorses the statement of which he spoke was a con­ cession to the eyes of the students.

Therefore, in recognition of what A & T. College students have accomplished in the fight for civil rights and an understanding of the problems of the Bank in New York City, a trophy was presented to A & T. College students by S. H. Blair, Franklin McClin, and David Blanchard after an announcement by each of the officers at the annual UMC banquet.

Mrs. P. J. Trice Goes to a Recital Wednesday Night

Mrs. Patricia Johnson Trice will give a piano recital on Wednesday, January 13, at 8:00 p.m. in Harrison Auditorium. The college will properly look forward to this recital by the A & T Department of Music.

The cover of Greensboro, Mrs. Trice holds a bachelor's degree from Oberlin College and a master of science degree from the University of Illinois. She is currently a student of Daniel Erkum.

At the college, Mrs. Trice is instructor of musicology and music history.

Persons attending the recital will help the college select the best for the musicology program.

The winning lyrics will be put to music which will be sung at football games and also at the basketball games.

The contest is open to all A & T College students. The contest has no limit to the number of entries that may be submitted. The winners will be announced in The REGISTER on January 14, 1966.

Scholars of the Year

BY LEE HOUSE, JR.

Though A & T. is an institution noted for its diversity of endeavors, it retains academic success as its point of emphasis. Exemplary of the College's efforts to promote excel- lence in scholarship is the offer- ing of awards and other modes of recognition periodically. Such an expression was shown through the efforts of the University of North Carolina.

Dear President Johnson:

If the people of the United States of America, who have been so fortunate to have lived in peace and happiness during the years 1961-62 edition of Who's Who in African American Education.

SCHOLARS OF THE YEAR: Vought Bridges, sophomore; Lawood Burney, junior; Allen Wallace, senior. These three top male and female scholarship winners and the sophomore, junior and senior classes receive Scholars of the Year awards at the annual UMC banquet.

A unique feature of the Who's Who is that these columns are places on the campus of a prominent college. Five others.

A unique feature of the Who's Who is that these columns are places on the campus of a prominent college.
It Took Courage

By BILL GOODE

When Esaki Blair and his co-workers planted the seed of racial equality in Greensboro a good many years ago did they know that it would grow and blossom into one of the longest revolutions America has known?

It took courage for those young men to begin what they did. That courage was passed down from other leaders, such as the Reverend Dr. Martin Luther King, to thousands of followers. Although the Civil Rights movement was designed to be peaceful, many demonstrators met with injury to persons and property; and some, as we all know, made the supreme sacrifice.

Yes, courage is the keyword in this revolution as it has been in all preceding revolutions. If the early colonists and their leaders had not had the courage to stand up for their convictions and ideas for a free nation, we might all be English subjects today. If the pioneers of our drive for equality had sat back and waited for time to do the job, we would still be the inferior individual not fit to eat under the same roof or at the same table as others.

But because of those courageous leaders, the Negro is at long last being treated as an equal American. Together with those who are to be tolerated because he is a lower-grade human being.

However, the fight is still not over. As Jackie Robinson stated, "We can answer to the Negro problem in politics. But only through complete voter registration can we get the most out of politics."

This is the challenge that the student today is faced with. Will he sit back and let the evolution of time complete the battle? If so, he might not live to see the end. We must take up the fight and help the members of our race to register and vote. By doing this, we are beginning the battle of the end.

UMC Week: Delayed Success

By LEE HOUSE, JR.

Although the initiating "big" event of the UMC week, the banquet, was somewhat overshadowed in the light of its expectations, the subsequent "big" events balanced the week out as a success — a delayed one.

On Friday night at 7:00 P. M. a group of about fifty people assembled themselves in an atmosphere intended for two hundred at least. The host organization, the United Men's Congress, was no doubt somewhat embarrassed for themselves as they found themselves in a group of an uncollected large group, however, the evening proved profitable in dual fashion for its partakers. Fed from the fine foods of the cafeteria and the subsequent "big" events balanced the week out as a success — a delayed one.

FASHIONS

Creative American

By BRONA CHEEK

By pretending not to care how you look or by following the crowd, you will in all probability stay in the beginners class for years. There are those who ignore fashion and hide behind "specially designed" spending skill with furniture, food, books, or art which may be acceptable but which need never be as inefficient as the one who "plays it safe"

The Creative SPender must eventually develop his skills in all areas but fashions are the hardest training grist for female muscles and take longer than most people think. Though the trash badges and tricky, the rewards are the greatest feminine fun.

The new service has my vote because I no longer go to bed with hungry pains talking back at me. If someone really took a good look at the cafeteria, he could see that he could get a satisfactory meal on the side tables.

The new service has my vote because I no longer go to bed with hungry pains talking back at me. If someone really took a good look at the cafeteria, he could see that he could get a satisfactory meal on the side tables.

New Atmosphere

Editor of THE REGISTER:

The new food system is definitely a step in the right direction. We have noted the production of many changes through the food program and we are pleased with the results. The new service is in full swing and is causing a lot of excitement among the students. It also helps to keep the college running smoothly.

The new service has my vote because I no longer go to bed with hungry pains talking back at me. If someone really took a good look at the cafeteria, he could see that he could get a satisfactory meal on the side tables.

provided by the United Men's Congress on Sunday morning. A lot of people who attended the Sunday service were a great deal of knowledge from it. The speech was given by Dr. Little, president of A&T, who spoke of his speech, "What is Progress.

The program sponsored by the United Men's Congress for such a valuable program and for the progress that it has made over the years. There are those who ignore fashion and hide behind "specially designed" spending skill with furniture, food, books, or art which may be acceptable but which need never be as inefficient as the one who "plays it safe"

The A&T College Chapter of Future Farmers of America has decided that it would start the meeting of the chapter off on the right foot for the New Year — that everyone looks for in life.

The Planning Committee of the Women's Council met on January 8 to discuss and plan Women's Weekend Sociology Majors.

To climax Women's Weekend, the chapter hopes to be entertained by the faculty members who may be placed there by the panel may be placed there by the panel. The chapter would like to express its appreciation to the faculty members who were present (F. H. A., Economic Club), and extends a welcome to all of them.

BY EULA BATTLE

Recent, the American consumer has been priced by various states. This has caused the American public to take on an objective look at itself. For the first time in years, Americans have had to ask if that certain problems exist. One such problem has been that of poverty.

The chapter would like to see more of young ladies having talent recognized. Patients who are poor because they lack the means to care for themself are freed so that they may take advantage of welfare services; therefore, all that is necessary is to be of a certain group of people to receive this type of care, so they believe. The poor are referred to as "sop" and if they are in another country, or in another state, or in a welfare department in the United States, they are expected to be found by written records. Economists and other concerned persons, however, are still striving to find a solution.

Poverty has come to be a relative term. It means different things to different people. Poverty is a condition of the poor. The concept of poverty has resulted from the fact that life costs more in the United States than in other countries.

The poor define their conditions as hopeless and physical ailments. People under 20 years of age, poverty is going without the necessities of life, such as food and clothing. To add to this, there is less getting on the luxury, such as a decent bed to which to sleep. To a man who is unable to be the head of his family, poverty means committing suicide, so that his family may use his life insurance money; it is a feeling that one has more to offer when dead than when alive.

Poverty means having enough money to leave home and search for a better life. Poverty is, in some instances, family on little or no money. To the business man, it means wearing clothes today, washing them, and going to work tomorrow.

To the young, poverty means writing for Spartan so that they may have more to offer if they have not been able to do this before.

Poverty is not a general problem to those who have suffered. The fact that they live better than the world's average is a fact. The poor are a problem, but the nation is not.

Iowa State Establishes A Center For Study And Writing Of Lit.

A center has been established at the University of Iowa to provide graduate study in the teaching and study of English with one of the most comprehensive programs in the study and writing of modern literature.

The Iowa State University, which is one of the Department of English — composed of literature, comparative literature, and the history of literature — has joined the Iowa State University Center for Modern Letters in its activities in the study of English.

The Iowa State University Center, established in 1962, has been designed to encourage intensive study of modern literature and the involvement of the student in the development of modern literature.

The Iowa State University Center, which is one of the few centers for the study and writing of modern literature, has been established to support the graduate study of modern literature and the involvement of the student in the development of modern literature.

President's Program

Through the efforts of a subcommittee on "design for social action" chaired by Dean William Goode, appointed by the President, Dr. George Corbally, a nationally oriented regulation attire for social affairs has been released. The reasoning behind this release involves the overall involvement of the A&T student in the area of social affair in order that he may emerge himself into the mainstream of the "Great Society" and its social concerns with experienced intelligence. It is mandatory that all students become acquainted with the regulations in order that mass conformity may be in direct order. Some form of force will be entertained.

"Dress for Social Affairs"

2. Types of Dress Explained: A. Formal Men - Tails and white tie, formal military attire; B. Semi-Formal - Tuxedo or white dinner jacket with white shirt and tie; C. Sport - Sport coat and sport shirt and tie; E. Casual - Slacks, open neck shirt with or without jacket or coat - "Casual".

"Worn", 1968 hours of work in professional teaching courses and a seven-week, half-day student teaching period during the senior year. Student teachers were under contract in the city-county schools for each teaching month for seven weeks under regular supervision by their major professors and their supervisory teachers from the Department of Education at Salem.

"Since Salem's program of half-day student teaching was severely criticized, elimination of the Salem's education committee, and made required for students taking the education program at Salem."

"Surely it is a mistake to involve the regulations, and made required for students taking the education program at Salem."

Computer Science Center
Officially Opens

On February 7

Effective Monday, February 1, 1968, the Computer Science Center will be open on the following schedule: 9:00 a.m. to 12:30 noon; 1:00 p.m. to 5:00 p.m. — Monday through Friday; 9:00 a.m. to 11:30 a.m. — Saturdays.

It is hoped that the above schedule will enable the Center to be of greater service to the College in all areas, says Dr. Robert S. Bauch, Director.

An invitation is extended to all to contact the Center for any possible assistance it can render. The Director will be happy to arrange conferences at any mutually convenient time.

Who's Who

(CONTINUED FROM PAGE 1)

Salem Seeks Approval Of Teacher Training

"The State has demanded conformity and has placed the College in the position of offering its liberal arts program in a seven-semester (three-year) period, so that a full semester might be devoted to the greater part of teacher training," said Dr. Irv Hiscon, academic dean.

Taking the position that Salem cannot at this time abandon the teacher education program because of its responsibility to present students and to society's increasing demand for well-qualified teachers, the administration asked that steps be taken to prepare a program fitting the requirement for full-time student teaching.

"The 'block program' for student teaching has been adopted by the faculty as an acceptable program in which less time is required possible to Salem's academic offerings. In the 'block program', in the first semester of the senior year, the student will spend the first six weeks in accelerated courses of Methods of Teaching and Child Psychology. Full-day student teaching will fill the second six weeks. In the last two weeks, the student will have follow-up conferences on student teaching.

In the 1966-67 the present plan of teacher training will be continued, but the following year poses many problems of the "block program," according to Dr. W. D. Beale, chairman of the committee, Dr. Gramley said:

"Surely it is a mistake to involve the regulations, and made required for students taking the education program at Salem."

Aggies Drop Bulls 75-70 In Coliseum Thriller

BY CHARLES MCKOV

Prior to Friday’s visit to the Greensboro Coliseum, A&T had won five games in a row. As the game opened, J. C. Smith took a 13 to nothing lead, but the Aggies came rolling back in double figures and traveled by 6 to 8 points. The Aggies had played nearly five minutes before they scored their first point. As the Aggies progressed, they cut the 6 to 8 point lead and tied 22-22 and 24-24, but the storming Bulls came back and demanded a four point lead for half time, 41-37.

The Aggies hit 54% of their shots in the first half compared to Smith’s 45%. The Aggies now hold a 6-4 record and a 1-1 CCAA record; Smith holds a 1-4 record and a 2-2 CCAA record.

Leading scorer for the Aggies was Robert Saunders, 25; George Mark, 25; William Gilmer and Anthony Skinner, 10 each. Leading scorer for Smith were Steven Schley, 20; and Robert Jackson Charles Morrison, 19 each. The Aggies committed 17 fouls compared to Smith’s 20 and pulled down 44 rebounds compared to Smith’s 27. During half-time Robert Saunders and Anthony Skinner were given Scholastic Awards by UMC President General Little for maintaining high academic averages during their college basketball career.

As the second half began, the Aggies threw a strong defense upon the Bulls and took the lead 41-44 after playing five minutes and Smith never regained it. The Bulls managed to cut the lead 4 point lead to 2 points, 66-64, with four minutes remaining. But George Mark put the game out of reach as the men smoked. The Aggies won the game, 79-74. For A&T has played three games in the Greensboro Coliseum this season and won all of them.

It appeared that the Aggies were straight at first because of the bomb threat. The announcement of the threat was made at 1:09 p.m. and the bomb was scheduled to go off at 8:06 p.m.

Coach Irvin has put the finest crop of freshmen to work this season. It is led by Bernard Barnes of Wilson. Barnes was one of the most sought-after high school players in North Carolina last year, with 37 offers. He also falls into the same class and is a major in the leading rebounders in the CAA.

Instructor Abroad (CONT. FROM P. 3) which are cared for by the estate of the family who owned the Hope diamonds.

When asked if this was a pleasure trip or whether the trip had been taken in the line of duty, Mrs. Barbee said that preliminary plans had been made for a pleasure trip; however, she realized that the country would offer ample opportunity for her to obtain information which would be helpful in touching both English and humanitarian. Keeping this in mind, Mrs. Barbee bought some sculptured objects, picture postcards, pamphlets, and other visual aids to be used in her classes.

Mrs. Barbee was happy to share her experiences with the student body. Even though the country did not and perhaps will not go to Venezuela, one may learn from her experience.

Gordon Makes Good With N. Y. Jets

Cornell Gordon, a recent football star for the A&T Aggies and now a cornerback for the New York Jets, recently visited here. Cornell, who still has a year to go before receiving his degree from the college, is undecided about his future plans. He is considering going into the army reserve to serve for six months of active duty, and be on in time for pre-season football practice. He is also considering returning to A&T to complete his studies toward a degree in physical education.

Cornell's first impressions of being on the New York team were discouraging. "When I first reported to Peekskill, N. Y., last July, I found that my name wasn't on any locker nor shoulder pads. I had a pair of football pants with a hole in them. I was ready to quit right then and there. Remembering the use of those three qualities, and desire, I stuck it out, making the building and go to the parking lot. No one hesitated. After the police searched the building and found no bomb, the crowd filed back in to watch the basketball game.

Our hats are off to the athlete who knows his way about the gridiron no matter what position he plays.

At A&T Gordon was a quarter-back. With the Jets, he is corner-back, a defensive position. His reaction to the pressure of playing defensive back was that "The difference between a good football player and a great one is that the great one can function under pressure."

The Greensboro Daily News states that "Gordan did such a good job as defensive corner-back that he is one of 22 Jet Players who are frozen, that is certain to be re-trained next season."

Gordon states that he was signed for a $3,000 bonus, and even though he was offered a $5,000 bonus by the San Francisco 49ers, he felt the Jet's opportunity was better.

Twice during the past season, Gordon was chosen the Jets outstanding player for his defensive excellence.

When asked how he likes living in New York, he replied, "It's the opportunity. I enjoy going to the Broadway plays, seeing pro basketball and boxing. However, it's expensive to live up there."

It is evident that Cornell is not only gaining valuable experience in pro-football, but he is immensely enjoying his new profession.

At A&T Gordon was a quarterback. With the Jets, he is corner-back, a defensive position. His reaction to the pressure of playing defensive back was that "The difference between a good football player and a great one is that the great one can function under pressure."

Our hats are off to the athlete who knows his way about the gridiron no matter what position he plays.

Aggies Win 93-51 At Fayetteville To Make It Seven

William Gilmaster was the big star Wednesday night as the Aggies whipped Fayetteville State 93-51, at Fayetteville. The former Dudley star scored 18 points and grabbed off 16 rebounds.

George Mack scored 12, Robert Saunders added 16, Bernard Barnes came up with 12 and Anthony Skinner had 11.

Aggie - Smith Game Unusual Due To False Bomb Alarms

By EARNEST FULTON

The Aggies have really come on strong since losing their first three games of the season. Currently, they are riding a six-game winning streak. In their streak, the Aggies have overplayed over Saint Augustine's, Fayetteville State, Elon College, Western Carolina, Elizabeth City and Johnson C. Smith.

All of the fans will remember the victory over Smith in the Coliseum last week because it involved a situation in which most students had never been involved. About five minutes before tip-off time, the Coliseum announcer "calmly" announced that a telephone call had been received at the City Police Station warning that a bomb was set to go off at 8:00 p.m. Everyone was asked to evacuate the building and go to the parking lot. No one hesitated. After the police searched the building and found no bomb, the crowd filed back in to watch the basketball game.

The game started slowly for the Aggies. They were behind 13 points before they made their first point. The Aggies were able to overcome this deficit and go on to win a thrilling and exciting game which remained undecided until the last minute of action.

Coach Irvin currently has a starting line-up that includes three guards. The guards add more speed to the potent Aggie attack. William Gilmaster and Anthony Skinner are strong enough under the boards to allow the Aggies the luxury of using three guards. If the going gets rough, James Webber can always come in and give excellent defensive play.

The starting guards have been Robert Saunders, "Soapy" Adams, and Bernard Barnes. If any member of this trio fails to click, George Mack is ready in the wings with his fabulous array of shots. Barnes is one of the finest all-round players who have ever played in the Aggie backcourt. He is only a little above six feet, but he can actually "staff" the ball through the hoop.

In this week's action, the Aggies will entertain North Carolina College Saturday night and Livingston College on Tuesday. On Thursday they will travel to Akron, Ohio to battle Akron University.

the newest Detroit sound comes from a combo called 4-4-2

Uptempo all the way. With a 400-cube V-8 and 4-barrel carb to carry the lead, Heavy-duty front and rear suspension to smooth the beat. Acoustically tuned twin pipes to modulate the sound. And redline tires to keep the whole score on track. That's 4-4-2. Try about four bars today. It's your kind of music! LOOK TO OLDS FOR THE NEW!
