February 12-20 Is Negro History Week

A&T College will observe Negro History Week from February 12 through February 20. The theme is "Freedom From Racial Myths and Stereotypes Through Negro History".

The first official function of the week will be Vesper Services Sunday, February 12, at 3 p.m. with Dr. William B. McLaunghlin, a professor of history at Winston-Salem State College, as guest speaker. Two films — "The Negro Soldier" and "Goodbyes to Carolina" — will be shown at 6:30, in Harrison Auditorium.

Committee Completes Plans Of Negro History Week

Committee completes plans for College's observance of Negro History Week.

The Negro History Week committee has been meeting regularly over the past several months. The committee members were Ellis Robbins, Brenda Reed, and George Stovall. Other members were Mrs. Robert McCray, Mrs. Frances Parks, Mrs. Ann Davis, Mrs. Julia White, H. B. Phillips, Mrs. Henrietta Hill, Dr. A. M. Battle, Dr. William McNeill Bell, Dr. John C. Kinney, Mr. M. T. Alexander, Mr. E. George Gray, and Dr. Samuel D. Jones.

The committee chairman, Dr. Robert McCray, is a former state senator.

A&T Student NEA To Hear Speech

By Mrs. N. Coley

Mrs. Nicle Coley, instructor of English at Dudley High School, will speak at an A&T Student NEA meeting on February 15 at 6:30 p.m. The topic for discussion will be "The Negro Writer:

Aesthetics and the Pulitzer Prize Eviction from the Critic's Bedchamber". The meeting will be held in A&T's Moody Student Center, Room 101.

The meeting is open to all A&T students and faculty members.

A&T College Library Plans

The A&T College Library has been working on a number of projects this year. In addition to the usual collection of books, the library has also been acquiring audiovisual materials, including films and recordings.

On February 12, the library will open a new exhibition, "The Dreams of College News". The exhibition will feature photographs and articles from the college newspaper, "The Dream of College News".

Several librarians will be on hand to answer questions and provide information about the library's services.

Library Plans To Curtail Loss Of Needed Books

The A&T College Library is experiencing a significant loss of needed books, and the library staff is working to combat the problem.

According to Library Director Dr. Robert McCray, the library has lost over 100 books in the past year. The loss of these materials is a major concern, as they are often difficult to replace.

In an effort to prevent further losses, the library has implemented several measures to control the situation.

First, the library has increased its efforts to purchase necessary materials. In addition, the library is exploring the possibility of borrowing materials from other institutions.

Second, the library is working to improve its record-keeping systems. By ensuring that all materials are properly accounted for, the library can better track their whereabouts.

Finally, the library is expanding its use of electronic resources. By providing access to a wider range of materials online, the library can reduce the need for physical books.

Both former presidents have out- standing educational backgrounds as well as academic credentials. Dr. Massie, a graduate of Ohio State University, holds degrees from the University of Illinois and the University of Wisconsin. He is a former Ford Fellow, holds many honorary degrees and is re- known in his profession. In like manner, Dr. Player holds Bachelor's, Master's, and PhD. degrees from different universities.

Both former presidents have had an interest in the problem of health, physical fitness, and recreation who has organized boys' awards congresses.

Dr. McCray, a former Ford Fellow, she holds many honorary degrees and is re-known in her profession. In like manner, Dr. Massie holds Bachelor's, Master's, and PhD. degrees from different universities.

The most recent success of the Ramsey Lewis Trio is not limited to the musical charts. In November, the group performed at Carnegie Hall in a packed house.

The present Ramsey Lewis Trio is not a group of assassins. It is a group of musicians who have established a unique sound. Their music has been described as a mix of jazz, R&B, and pop.

Their first album, "Gentlemen of Swing," was instrumental in establishing their reputation in the music industry. The group has been praised for their rhythm and groove, as well as their ability to mix different musical styles.

Their music has been described as "soulful" and "soul-stirring." It is a reflection of the culture and sensibilities of the time in which it was created.

The group has been recognized with several awards, including the Grammy Award for Best Pop Vocal Performance by a Group. They have also been nominated for the album of the year award at the 52nd Annual Grammy Awards.

The group has been featured in several films and television shows, including "The Cosby Show" and "The Fresh Prince of Bel-Air.

The Ramsey Lewis Trio continues to perform sold-out concerts around the world, showcasing their unique sound and style.

Gayle Forrest, a professor of history at North Carolina College, was elected president of the college. She is a native of Greensboro, North Carolina, and has a Bachelor's degree from North Carolina A&T and a Master's degree from the University of North Carolina at Greensboro.

Miss Forrest's interest dates back to 1945. She once taught a triple amputee to play the piano. She now teaches American history and is working on a new book about the Civil War.

Remove The Shadow

BY EULA BATTLE

Most of his life, the Negro has lived in the shadow of racial myth and stereotyping. In the world of education, the shadow is most apparent. To forge ahead, the Negro must take advantage of educational and interracial experiences.

The challenges which face the Negro today is one of combating the educational standard. If the Negro is to have real equality in the future, he must meet the demands of today's rapidly changing society.

The Negro is striving to separate himself from the labels which have plagued him in the past. He wishes to be known only as an American citizen and to enjoy the privileges accorded to him. He cannot accomplish this if he is constantly living in the past.

The Negro has received a lot of attention. Yet, he must take the responsibility of living up to this attention. He must achieve the challenges of tomorrow as well as the present. The Negro must be more responsible.

The Negro must be responsible. He must make his own future. He must take advantage of his educational opportunities. The Negro must be responsible for his education. He cannot rely on others to take care of his future.

The future is coming. It is up to the Negro to prepare for it. He must take advantage of his educational opportunities. He must learn to discipline himself. He must be responsible for his education. He must be responsible for his future.

The Negro is the future. He must prepare for it. He must be responsible for his future. He must take advantage of his educational opportunities. He must discipline himself. He must be responsible for his education. He must be responsible for his future.

Possible Solutions

There is, on A&T's campus, a complete turning of backs by students upon their responsibility. Students refuse to do assignments, tests, or even read the textbooks. This is a very serious situation.

Uncle Sam proposes to do this by drafting young men of the ages 18 to 22, but the Negro community has had its share of these things before. It is time that we take responsibility for ourselves and our education.

Tops The Heads

The "C. D." Cap

Of Aggie Males

After frequently reading in the REGISTER about what the girls are wearing in college nowadays, it is time to get a look at what the men are wearing on campus, particularly at A&T.

The kitsch dress is a good place to start. Kitsch, quite simply, one sees what is sometimes referred to as the "C. D." cap. This type cap is the modern version of the type cap worn during the 20's. It stands up in back and slants downward in the front. The most popular pattern of this type cap are the colors of the school and the place.

Another popular fashion on the campus is the decorative type bow-tie and handkerchief. There is a good use of "F"s for "F's" and by securing substitutes for "F's" which would be acceptable to the student, that would be the best way to get rid of "F's". When this is done, there is no alternative but to give such students the right to apply self-discipline which is the foundation of any educational institution.

Pros and Cons

What's Happening

BY STANLEY JOHNSON

Jazz Trio

It seems that we may well see someone other than the original cast members of the Register's "Who's Who" on February 17.

The Register has revealed that Young, hasid, and hot, drummers, were fired from the Register's "Who's Who". At this time, no one has been heard. At any rate, the Register's "Who's Who" continues to be a popular subject of discussion among students.

Anonymous Assumer

The end of the semester brought many different reactions from students at A&T. Judging from the size of the failure list, one could venture to say that some students were not in agreement with the Register's reaction to the semester's ending with a bang. As a result, many students experienced a mild sense of gloom.

What's Happening

BY RICHARD J. PEACE

How's Your Attitude?

In this age and time, when we are all faced with problems and decisions, which will affect our present and future lives, it is no wonder that we might be a little "snapper:"-ish towards the obstacles from our path. Each day will bring new challenges. To insure future generations of a "shadow-free" environment, the student must discipline himself to the hardships of life, take the good with the bad, and continue to strive for success.

The future is coming: and, with it, new generations; therefore, there should be no apprehension regarding the obstacles from our path. Each day will bring new challenges. To insure future generations of a "shadow-free" environment, the student must discipline himself to the hardships of life, take the good with the bad, and continue to strive for success.

The time for pampering is past. It is imperative that "F"s be prevented by removing the causes for "F's" and by securing substitutes for "F's" which would be acceptable to the student, that would be the best way to get rid of "F's". When this is done, there is no alternative but to give such students the right to apply self-discipline which is the foundation of any educational institution.

Harvard Paper Breaks Tradition With New Edition

CAMBRIDGE, Mass. (AP) — The first announcement that Miss Linda C. McVeigh, 33, had become the managing editor of the Harvard Crimson was made by the Harvard Lampoon, printer for the occasion on piano form.

Miss McVeigh, a Radcliffe student from Amstoltz, Calif., was not upset by the lampoon's lampoon. "The man of Harvard are taking it in stride, too." "I think it's a grand idea," said C. M. C., a senior editor of the publication. "The old all-male traditions of Harvard have lasted long enough."

"Life is competitive," Miss McVeigh said, explaining why she went after the managing editor's post. "I would feel much better comfortably. I don't want to end up in some easy job and making easy choices." She said the once had wanted to be a lawyer but now aspires to journalism.

As managing editor, Miss McVeigh will run a staff of 30, about a third of whom will be girls, and be responsible for the news pages. The Crimson is published every Sunday, has a circulation of 4,200 and usually runs six to eight pages.

Initiators Of
BY BILL GOODE

Six years ago this February, four A&T College freshmen initiated the Civil Rights Movement that expanded the whole country. They began in Greensboro in the lunch counter demonstrations at local lunch counters. The four young men were Ezell Blair, Jr. and David Richmond, both freshmen at A&T and actively involved in the "sit-in" movement which they initiated.

Sittin' Down: Seeks Members

For Judging Team

The A&T College Animal Industry Department is now seeking candidates for the 1966 Southern Regionals. A petition also asks that a sideboard be installed between the eastern section of Lindsay and present Oakmont between Edgehill and present Oakmont.

The petition also asks that a sideboard be installed between the eastern section of Lindsay and present Oakmont between Edgehill and present Oakmont.

Lt. Colonel Herbert G. Parker, right, assistant professor of military science at A&T College, was named chairman of the installation committee which includes Darlene Drummond, Ann E. Edwards, Evangeline Johnson, Carolyn Agosa, Virginia Lyles, Margarete Mitchell, and Isaac Burrell.

Lindsay Street May Get New Name

A petition to rename the portion of Lindsay Street between Cumberland and Luther Streets to Battlefield Street will be presented to Greensboro Planning Board at its meeting Monday at 3:30 p.m. in council chamber of Municipal Building. Kenneth Lee, local attorney, said today.

The change, if approved, presumably would remove one of the main objections to a proposal to name a street across the north business district Lindsay for its entire length. The street now bears name.

The petition, signed by approximately 45 persons, will be handled to the board during its public hearing, continued from earlier meetings, on a single name for the east west street.

The street, joined by construction over a period of years, now carries the name of Price, Bishop, Lindsay and Oakmont between Edgewood and Byrd streets and runs into an unintentional alignment with Arlee to the east. Arlee will be squeezed from the list when the street is extended later to ORD to join with Oakmont there. It also will be extended west to Spring Street.

A group, led by James W. MacLamroc, county historian, is seeking preservation of the Lindsay name to honor an early family there.

The Stained name would honor the late F. D. Shmidt, professor of mechanical science at A&T College from 1905 to 1935. The eastern section of Lindsay runs along the college property and the name change has the endorsement of the college.

The petition also asks that a sidewalk be installed between the eastern section of Lindsay and present Oakmont along the alignment of Lindsay and Oakmont a through street.

Students from A&T use this area in walking to the downtown area and in bad weather the path is muddy.

In Last Seconds Of Game

By EARNEST FULTON

A T & T defeated North Carolina College in Durham with a fantastic rally in the final seconds that gave them a 66-65 win.

The Eagles of N. C. College were leading 65-64 with ten seconds remaining. Then Robert Saunders hit a 20 footer to narrow the margin to 66-65, with less seconds remaining. Dewey Williams intercepted an in-bound pass by N. C. College. He passed off to George "Mack-the-Knife".

Just as he crossed the mid-court line, "Mack the Knife" let fly one of his potent jump shots from 30 feet. The shot was true with a swish for the final two points.

"Mack the Knife" led the Aggies scoring with 16 points. He had help from Tony Skinner with 17 and Robert Saunders with 12.

Bethel, a member of the A & T College track team, last week won the national championships in the shot put event at the first annual National Association for Intercollegiate Athletics (NAIA) Indoor Track Meet held at Kansas City, Missouri, with a toss of 63 feet, 9 inches.

A&T Defeats Morgan State 110-71

As Wilt Chamberlain Looks On

A&T gained sweet revenge Tuesday night as they annihilated Morgan State by a score of 110-71. Morgan State was the only CIAA team that held a victory over the Aggies.

The way the Aggies played Tuesday night seemed hard to believe that same Morgan State beat "the mighty men from Aggieland." From the opening tip-off, it was clear that Morgan was out of the game.

The Aggies were supposed to be a little "nervy" after a long lay-off because of examinations and bad weather. But they came on the floor and put on the best basketball show in quite a while.

Maybe the presence of one of the greatest basketball players in the world inspired the Aggies to such great performance. With Wilt Chamberlain, all-pro center of the Philadelphia 76'ers of the N. B. A., was in Greensboro with his team to play the St. Louis Hawks. George Black led the Aggies with 30 points. Ted Campbell contributed 19 points, Robert Saunders had 12, and Dewey Williams had 11.

"Mack the Knife" was hurtling all over the court as he scored in every possible way. He took several set shots from beyond the charity circle, then he maneuvered into the corners and proceeded to other shots even with his back on the floor. He also scored on driving layups and taps.

Ted Campbell and Dewey Williams had their best games of the season, Campbell maneuvered well under the basket and was in position for a tap-in or a rebound. Williams scored mostly on tap-ins and blocked several shots.

As Morgan players drove in for layups, Campbell and Williams would slap the ball back into their faces. That was quite a terror for Morgan to face.

Here And There

In Sport's News

With E. Fulton

What is an under-rated basketball player? An under-rated basketball player is a fellow who goes out each game and plays a top-notch game offensively and defensively. Also, he is a good student. Earlier this season he, along with Bob Saunders, was presented an award by the United Men's Congress for being named "Athlete-Scholar of the Year".

My congratulations to Anthony Skinner for being a "dependable" man on the basketball court and in the classroom, and I feel that he shares the accomplishments of many Aggies. He is certainly a credit to the team and to the college.

The Aggies played three games last week. They beat Morgan State at home and North Carolina College in Durham. However, they lost their first home game of the season in the Rams from Winston-Salem State played "whoopee" with them in Charles Moore Gymnasium.

The CIAA, kept the fine shooting of Tony Skinner who also passed off to George "Mack-the-Knife." His team would have a better record. He "hogs" the ball and plays as though he has never heard of the phrase "pass-off."
