YES, IT'S US . . . . . . . APRIL FOOL!

All Fools' Day Inspires Staff
To Use Humor

The REGISTER staff wishes its fellow Aggies a happy April Fool day and a hearty "April Fool."

In this ever-changing hectic world of today, we find it wouldn't hurt to try something a little different from our regular trend of publishing. After all, why can't we have a little clean, honest fun every now and then with the "April Fool"?

We hope that you will enjoy and we would like any comments from the form of letters in the "April Fool."
This picture shows Michelangelo, a local artist, as he prepares to paint the Sistine Chapel. In an interview, he stated that before he begins the actual painting, he has to overcome his fear of height. The temporary scaffolding used by our photographer collapsed right after this picture was taken, throwing the artist into a headlong fall. I just went to show what extent he’ll go to get a good picture.

Crack-Pot Math Professor To Face Drunk Charge

Caught Dropping Metal Balls Claims It’s An Experiment

PALOS, 1492 — A question that has been on everybody’s lips the past few days is: Did the Queen really put her jewels to raise money for Columbus’ so-called “voyage”?

Some citizens did protest the ar­

To Durham Confab

BY JESSE M. LANIER

Members of Phi Beta Lambda will represent Theta Pi Chapter at the annual state convention to be held at A&T College, April 1 and 2. This is the first time that the chapter, which has participated in this competition since it was charted at A&T College, November 1964.

Members participating in different events are: 1) Lois Griffin, programming officer; 2) Betty Mooney, record secretary; 3) Cassandra Fleming, Greater Continental awards officer; 4) Donnalad Hartfield, a junior agriculture student, to represent Theta Pi Chapter at the annual state convention.

The Student Government of A&T College has sponsored a state convention in Durham, North Carolina, Incorporated, Ryynolda. "Learning to live in a real world without evading or distorting facts." To begin the logic close to home, Arizona Hartfield, a junior agriculture education and general business administration major from Wilmingtontown, North Carolina concluded the discussion by stating that "Being responsible human is one of the secrets of success, a true man and woman." Today's modern society requires responsible human beings. To survive the so-called "rat race."
April Fools' Day

By STANLEY JOHNSON

"Hey, Sam, how about going to the airport and picking up a crop duster and we'll play a prank on the King. Do you want to do it at night? I know you haven't heard about it yet, it's going to be a surprise. Thanks, pal."

Not to be a surprise all right enough. More than likely poor Sam is on his way to becoming the biggest fool April has ever had, for today marks that once-a-year time when everyone plays jokes on one another.

It is an interesting thing to know how this observance came to be. Considering that if you play a joke on someone he is going to react one way or the other about the joke. The origin of the observance is obscure, but it is usually said to have originated in France. The French were the first to admit the Georgians before, New Year celebration began on March 21 and ended on April 1. However, when New Year's Day was changed to January 1 April Fools' Day became a separate observance, coming to be known as April Fools. The custom of fooling friends and relatives became popular in France and spread to other countries.

In France, the victim is called an April Foi,. In Scotland, he is called an April Fish. In English speaking countries the custom of fooling friends and relatives became known as April fools. The custom of fooling friends and relatives became popular in France and spread to other countries.

It is nothing enlightening to know that a specific day has been set aside for playing tricks and jokes on our friends, because he is going to react one way or the other about the joke.

After poor Sam has waited for the Supremes at the airport for a few hours, it may dawn upon him that the victim is the victim of tomfoolery. I don't know how Sam might take it, but, as for me, I'd...well, we need not go into that.

The most interesting story is the custom of the day that a new type of fool has developed and he is a historian because he is going to react one way or the other about the future. In the shop of the future, the month of the date of the month, will come up on April 2 trying to pull a trick. He's sure to be greeted by the statement: "April Fool's Day is past; you're the biggest fool at last!"

Rev. Forbes Tells Audience Of "A Humanizing Encounter"

Reverend I. A. Forbes, Jr., Pastor of the St. John's United Church in Richmond, Virginia, spoke at the Vesper services in Christ Church in Richmond, Virginia, on the subject of faith and the meaning of the day of faith. He stated that we are a part of the church and that we should be united in seeking to live life to its fullest.

Several thought-provoking questions were raised by Reverend Forbes as he delivered his sermon which resembled an informal discussion. Two of the most interesting questions follow: "Is life on earth the summit of God's plan? Must we, as Christians, push God to depend on God until they can find solutions for themselves?"

Neither of these questions can be answered accurately. They are personal questions which must be answered individually. Each person should be true to himself in the evaluation of the church life. It must not show irresponsibility toward society at large.

The second question is even more personal than the first. When one accepts God, he loses an "old self." He must achieve a new viewpoint. Responses to God's questions can be notes to be shared as we come to know the one who is living on the earth at the present moment. The purpose of the church is to assist in the growth and development of the individual. This is the purpose of our meeting today.

News Bits

ATTENTION ALL GRADUATING SENIORS: ! ! !

The Placement Office would like to urge all graduating seniors who are interested in finding jobs after graduation to come by the Placement Office to register for interviews. It is important that you begin your interviews now if you haven't already begun. The placement is just around the corner.

The Placement Office will be at the Placement Office to let us help you find a place in this changing society of job opportunities. The Placement Office is located on the second floor of Dudley Building.

ATTENTION YOUNG LADIES:

The Filene of Carolina Girl Scout Council, Inc., is seeking prospective camp counselors for the 1967 summer positions. Interested young ladies should contact the Placement Office for further information and for applications.
