MARSH CAMPBELL

Three Students Receive Scholarships To Study At Ivy-League Schools

Three of A&T's students have been selected for the Harvard-Yale-Columbia Intensive Summer Studies Program. These students are Diane Banner, Marsh Campbell, and Lee House, Jr. They were chosen on the basis of the following criteria: capacity for vigorous, creative, and scholarly work; interest in graduate work; financial inability to procure similar pre-graduate work, and a capacity for benefiting from a summer of intensive study, both in gaining admission to graduate schools and in performing the work in the graduate curriculum.

The program is supported by the Carnegie Foundation which will provide full expenses, including transportation and scholarship grants of \$500 to each of the students to be used in their senior year at A&T.

The three students chosen were selected from a list of 500 nominees of which only 105 were selected. The students selected were chosen from both predominately Negro and white southern colleges and universities.

Diane Banner, an English major, is the daughter of Mr. and Mrs. Charles A. Banner of Lenoir. Diane was recently inducted into Alpha Kappa Mu, an honor society. She is a member of the Student NEA, the Register Staff, the College Council, and the Woman's Council. She is a student counselor and holds the position of reporter for Student NEA. Diane's main ambition is to become a teacher.

Marsh Campbell, a political science major, is the son of Mr. and Mrs. Marshall L. Campbell of Kings Mountain. He has a twin brother attending the University of North Carolina at Chapel Hill. Marsh received a meritorious certificate from the Air Force ROTC his freshman year. He was also on the committee to select the colors and interior design of the Student Union presently under construction. Marsh holds the position of president of the Men's Council. He is also affiliated with the Student Government, the Dormitory Improvement Council and the Intercultural Council of Colleges. It is Marsh's ambition to become either a college instructor or lawyer.

Lee House, the son of Mr. and Mrs. Lee Andrew House, Sr., is a political science major and English minor. House hails from Scotland Neck. He is affiliated with the Register of which he is a typist and reporter; the College Council; the Committee for the Student Union Building; the Fort-

nightly Club; and the Beta Epsilon Chapter of Alpha Phi Alpha Fraternity. House was a member of the executive committee of the sophomore class, and a recipient of the Tribune Trophy for Scholar-

ship and vested interest in the Air Force ROTC Program. He is also the president-elect of the junior class for the next school year. It is House's ambition to become a lawyer or governmental diplomat.

Sports Editor Receives Award As Outstanding Sophomore Cadet

Cadet 2nd/Lt. Earnest L. Fulton, sports editor of *The Register*, was named the outstanding Sophomore AFROTC cadet at the annual Mother's Day Program on Dudley lawn. The award was the Outstanding Achievement Award in the Air Force Reserve Officer's Training Corps. It was presented by the General Dynamics Corporation.

Cadet Fulton was recently promoted to 2nd/Lt. along with 20 other sophomore AFROTC cadets on the completion of the officer-training session. He was the top-rated cadet in the O. T. S. program.

Cadet Fulton is from Kingstree, S. C. and he is majoring in economics. In addition to being the sports editor of *THE REGISTER*, he is a member of the Arnold Air Society. The Society recently elected him to the position of Information Officer for the next school term. His hobbies are sports and assembling model jet planes.

Other cadets who received awards were Cadet Capt. George Board, the outstanding junior AFROTC cadet, and Cadet Col. John Smith, the outstanding senior AFROTC cadet. From the Army

ROTC, Cadet Col. John Metz received the outstanding senior cadet award; Cadet 1st/Lt. Linwood Burney was awarded the outstanding junior cadet award; Cadet Robert Sinclair was named as the outstanding sophomore cadet; and Ronald Tate was named as the outstanding freshman cadet. Also Otis Rousseau was named as the most valuable member of the rifle team.

Faculty Members Deliver Papers On Research

During April and May, members of the A&T College faculty presented scientific papers before three societies at their annual meetings.

Dr. Gerald A. Edwards, professor and chairman Department of Chemistry, presented a paper entitled "Binding of Methionine to Plasma Proteins" before the meetings of the American Institute of Nutrition held with the Federated Societies for Experimental Biology in Atlantic City, New Jersey in April. Co-authors with Dr. Edwards on this paper were Dr. Naiter Chopra, Robert Flannigan, and Dr. Cecile Edwards.

Dr. Cecile Edwards, professor of Nutrition and Research, Department of Home Economics, discussed research findings from studies at A&T College at the National meeting of the American Association of Cereal Chemists in New York, also in April. The paper was entitled "Nitrogen Metabolism of Adult Men Fed Diets Containing Wheat and Wheat Supplemented with Pinto Beans, Rice or Peanut Butter". Dr. Seetha N. Ganapathy, Mrs. Lovie Booker, and Mrs. Cordella Rumph of the Department of Home Economics co-authored this paper.

At the meeting of the American Institute of Nutrition, Dr. Cecile Edwards presented a paper entitled "Effect of Diets Containing Wheat and Wheat Supplemented

Spring Elections Disclose Roy White As SG President Nannie Kearney As Miss A&T

With a little less than one third of the student body voting, Roy White was elected Student Government President and Nannie Kearney was selected Miss A&T for the school year 1966-67. Roy White won out of a field of three candidates with 646 votes while Richard Jackson polled 350 votes and William Crawford, 280. Nannie Kearney was opposed by only Jackie Jeter with the totals reading, Kearney-862; Jeter-373.

Other student leaders elected were Robert Scales as Vice President of the Student Government with 606 votes, and Earlene Oates and Barbara Blackmon, each polling 310 votes. Raymond English, the incumbent in the race for treasurer, was defeated by Richard Womack who polled 606 votes to 349 for English and 359 for Robert Fulp, Jr. Two students were elected as secretaries for the Student Government: Gloria Diggs was elected recording secretary with 633 votes and Navair Cathcart was elected corresponding secretary with 262 votes. Jean Lipscomb and

Willie Washington were the other two candidates polling 170 votes and 119 respectively.

The proposal to change the average for students seeking Student Government offices was defeated because a two-thirds majority vote was necessary and the voting was 631 in favor of the change and 479 not in favor of the change.

In the senior class, the members elected Bobby Palmer as president over John M. Smith with 197 and 116 votes respectively. There was only one candidate each for Vice-President in Otis Hairston, and for Secretary, Da-Renne P. Azant. Bernard Cockerham was elected treasurer over Linda Blackman and L. Johnson with 102, 100, and 90 votes respectively. Margaret Price was elected as Miss Senior with 139 votes over Delcie Johnson, Brenda Whitsett, and Carrie Williams.

John Harrington was successful enough to become president of the junior class, winning over Linwood Harris by 225 votes to 109. Lee House was elected vice president over James Rhodes with 229 votes and 88 votes respectively. Miss Junior is Ophelia Graves out of a field of three girls including Priscilla Glenn and Jacqueline Brown. Representation in the Student Government will be given by Linwood Harris, James Rhodes, Richard Womack, Gregory Weeks, and Jean Lipscomb.

The sophomore class will be led by Roy Scales as president, who won over Jerome Massenburg, and George Thompson with 246, 50, and 92 votes respectively. Donald Jones polled 219 votes to lead the field of vice-presidential candidates which included Leander Forbes with 99 votes. Barbara Gore and Ronald Boyd were unopposed in their bid for Secretary and Treasurer of their class. Virginia Massey was selected as Miss Sophomore with 151 votes over Joyce Bryant with 130 votes and Mary Humphrey with 84 votes. Student Government representatives include Sandra Carlton, Donald Jones, Jerome Massenburg, and Barbara Gore.

Less than one-third of the student body went to the polls to cast votes in the spring elections, supervised by the Student Government.

Atty. Henry Frye Addresses Staff At REGISTER Banquet Saturday

Henry C. Frye, Greensboro attorney and former assistant U. S. District Attorney, will be the guest speaker at the Awards Banquet sponsored by the Register Staff on Saturday, May 14, at 8 P.M. in Brown Hall.

Frye, a 1953 graduate of A&T College, received his law training at the University of North Carolina at Chapel Hill. While at U. N. C., he was a member of the staff of the North Carolina Law Review and was awarded the Doctor of Laws degree in 1959.

In 1959, he was admitted to the North Carolina State Bar and Federal Court. He operated a private law practice in Greensboro from 1959 through 1962.

Frye held the position of assistant U. S. Attorney for the Middle North Carolina District in 1963, resigning in 1965 to return to private law practice. He is serving as professor of law at the North Carolina College Law School in Durham during this year.

Following his graduation at A&T,

Frye was commissioned as a Second Lieutenant in the U. S. Air Force and served as an ammunition officer in Japan and Korea. He presently holds the rank of Captain in the Air Force Reserve. He is a Judge Advocate General Area Representative.

Frye is a member of the Board of Management of the Hayes-Taylor YMCA, of the Board of Directors of the United Fund of Greensboro, and of the Executive Committee of the A&T College General Alumni Association.

He holds membership in the following organizations: Greensboro Chamber of Commerce, Greensboro Community Fellowship, and the Kappa Alpha Psi Fraternity.

Frye is married to the former Miss E. Shirley Taylor of Fremont and is the father of two sons.

The Awards Banquet is an annual affair designed to announce the staff and give recognition to those who have contributed greatly to the publication of *The Register*.

Campus Y. M. C. A. Schedules Show For Sat., May 14

On Saturday, May 14, 1966, the Y.M.C.A. will present the final talent show of the year in Harrison Auditorium at 2 P.M.

The Talent show will feature the melodious sounds of Richard "Jerry" Butler and the Sidewinders.

All Y.M.C.A. members with National affiliation cards will be admitted free. Admission for the general public will be the nominal fee of 25 cents.

What's Your Schedule?

By EULA BATTLE

May 30 has been set aside for a Reading Day. Since poor budgeting of time is a major cause of student difficulty in academic achievement, one should start preparing now for his final examination.

The mid-semester evaluation should have been a sufficient warning and/or stimulus to each student. This provided one with an academic mirror in which his true reflection was revealed not only to his instructors but, in many cases, to his parents.

Perhaps some students needed to do additional reading. One may note that individual research is invaluable in clarifying facts gained from textbook reading. Taking note on classroom lectures and participating in class discussions are quite valuable. These are some of the most important aids in preparing for an examination.

If one prepared sufficiently as the semester progressed, he has little to fear when he takes his semester examinations. On the other hand, students who have allowed themselves to relax during the course of spring semester may have difficulty in passing their final examinations. These students will probably have difficulty in disciplining themselves to study.

The most apt solution to this problem is a time budget. Some experts feel that two hours of study are required for each hour in class. This may not hold true for each class. While the assignment for remedial English may be completed in an hour, the trigonometry assignment may call for three or more hours per class period.

A similar situation may present itself in one's studying for final examinations. One should not wait until May 30 to begin studying. A fairly rigid time-study budget should be drawn up to now. However, it is not enough to formulate a plan of study. One must be able to follow his plan if it is to be profitable.

What's your schedule?

Election Aftermaths

By PRYCE BALDWIN

Now that elections are over and our new officers for the next school year have been elected, it seems that there were many wonderful and horrible experiences as a result of this election. First, there was not enough interest taken by the student body in the election, with the exception of the few students who found it necessary to relieve many of the posters of their pictures. However, the posters that were displayed on campus were well representative of what one can do if one wants to.

There was no reason given by the Student Government for the proposed change in grade point average listed on the ballot; therefore, the proposal was defeated because students did not really know what it was all about. There were two secretaries elected when the student body was aware of only one secretary and supposedly voting for only one secretary.

In totalling the votes that were cast, one could see that the freshman class led the way in every major category of officers for the student government; and the senior class showed up the poorest at the polls. This seems quite odd and out of place, especially since it's always the freshmen who are getting "pushed around" by seniors. Still, the representation of the student body was not great enough for one to be content with the election results. Out of approximately 3200 students, only 1256 voted (This figure represents the number of votes cast for President of the Student Government; the figure was even smaller in other cases) or about one third of our student population.

NOTE: Student journalists responsible for this edition were James Wilder, Patricia Lanier, Pryce Baldwin, Dorothy Moore, and Otis Hairston.

BOOK REVIEW

The Wild Cascades

By HARVEY MANNING

By BILL ADAMS

With Lines From Theodore Roethe
Sierra Club, San Francisco, 1964
128 Pages, Illustrated

This is a beautiful book with a beautiful purpose. It is a publication by the Sierra Club. The club, a non-profit organization, was organized in 1892 and has devoted itself to the study and protection of national service resources, particularly those mountain regions. Therefore, it is the purpose of the Club, by means of this book, to seek renewed stirring of love for the earth, to urge that what man is capable of doing to the earth is not always what he ought to do, and to plead to all Americans that they determine that a wide, spacious, untrammelled freedom shall remain in the midst of the American earth as living testimony that "this present generation had love for the next." What could be a more beautiful or unselfish purpose?

To begin, the Wild Cascades is a region in the northern section of Washington State. Photographs of this section were taken, and selected lines from the poems of Theodore Roethe were added to the pictures, and both were compiled to make this book.

The pictures range from the smallest leaves to gigantic glaciers. Clouds seem to rest upon their peaks as though they are resting while on a long journey. Drops of water make the most refreshing pictures when they seem to find their home upon the green, shiny leaves of the forest. What is more breathtaking than pregated mountains studded with winding rivers, tall pines, and caps of snow?

One of Roethe's lines is "I long

KAMPUS BEAT

By PRYCE

"INSIDE THE CORNER OF 'BLUFORD AND LAUREL STREETS'"

A big truck rolls up in front and puts off a big machine, and the people on the outside go inside to see what it's all about.

Following them one can see that it is probably a modernized Victrola with pictures and signs on it. The people, all of a different kind, are either lounging around or just passing the time away. Some have the latest novels in front of their eyes (not necessarily reading them) while others move chessmen on a square board.

It's all very exciting to watch; yet, on the other hand, one could easily become too relaxed in such a society as this. A fellow who walks through the door seems to be of the detective type, especially after he walks over to one of the fellows standing at the window and pats him down as if searching him. Much to my surprise, he's only trying to get a cigarette and a match.

A few students move around, but none in a direct or positive direction. Someone goes over to the big machine and drops something in it, and pretty soon a sound comes out, something like "You Blew a Good Thing." Right away some fellow who looks like a modern-day Hercules gets up and begins to do a tribal dance while the remainder of the people cheer him on. The machine stops, and the fellow sits down and almost as if timed, two nurses poke their heads through the door not to see if anyone has collapsed from the preceding act, but to look for one of their friends.

The dress of these people is terrific — from ballerina dresses to Tarzan pants. One could easily mistake this place for a ghetto (of fads, that is). They wear something on their feet that has a sole with a strap on it much like something someone would see in the Orientals. Their hats and hair styles are of the latest styles, that's if you call a sombrero the latest style. Anyway, there are enough different styles to confuse Mademoiselle and her whole crew.

About ten minutes before the hour (any hour), a goat bell or perhaps a cow bell rings for about thirty seconds and everyone goes out the door; however, a few still remain. Then, to my surprise, another group comes in looking even more weather-torn than the others and they fall into the same trance that the others were in. I think to myself that I really must find out what this place is supposed to be. I walk out to the corner from which I came to listen to some of the chatter, and one of the fellows says to the others, "Let's go in the canteen and dig some of the latest sounds." I run home to get my dictionary to find out what a canteen is supposed to be and Mr. Webster tells me that it is a place similar to a post exchange on an Army Base. I was right all along, it was an exchange, a place where people exchanged places every hour. By the way, have you been to one lately? It's one on the corner of Bluford and Laurel Streets.

"Window On Main Street"

By IDA VYCTORIA SELLERS

Solemn, expressionless faces, quick, anxious footsteps, healthy, happy laughter, occasional cries of pain, silly feminine giggles, casual chatter, serious talk . . . All of these things I see from my little window.

Hundreds of individuals with numerous character types: natural devils, pseudo-devils, perfect angels, those foxes in lamb's skin . . . It's funny how they look from here like performers on a stage and I merely a spectator, looking from a distance. Each is an individual, too often, unmindful of this very fact, striving in some way to become a computerized "item." They speak of individuality, freedom and equality, but each within himself is afraid of some unknown. Perhaps they do know, only too well that this feared thing may be. Perhaps it is death or life itself. It may be

sorrow or yesterday's joy. It may be the past or the future with its untold promises or the moon and the stars with their unlimited mysteries.

Yes, these are the faces that pass me by, unmindful of my inquiring gaze and detesting anyone who dares to interrogate theirs. These faces are yours — mirroring your thoughts, transplanting your deepest wishes, disclosing your every secret. Yours are the faces that pass me by at my window on Main Street, Holland Square, Aggieville, North Carolina.

Announcement

The National Teacher Corps, a service agency to provide better education for poverty youth, has been authorized by Congress under the Higher Education Act of 1965. All graduating seniors, Class of 1966, are eligible for pre-service training. The teacher-intern will receive an allowance of \$75.00 per week during the pre-service training period. Additional payments of \$15 per week per dependent will be paid during this time. Married couples with families are eligible, although both members need not join.

If you wish additional information or need an application form, please contact:

Mr. C. R. Wyrick,
Co-ordinating Recruiter
Room 214, Hodgin Hall
Campus

Deadline for mailing applications: Midnight, May 31, 1966.

FASHIONS

Little Boy Suit

By DIANE BANNER

The suit for summer in town, country, or anywhere else in the world is definitely the "little boy suit." The "little boy suit" features a side zip slim skirt with a jacket in both single and double breasted styles.

The jacket is fully-lined with a notched collar; and the skirt features a bonded lining.

The "little boy suit" is the wonderful casual today-look. Of particular interest is the fact that the "little boy suit" is crease resistant, completely washable, and needs little ironing. It is made of floral printed cotton.

Johnnie Jones, III Receives Award For Leadership And Scholarship

By JUNIUS RUSSELL, JR.

Johnnie Jones, III, president of the A&T College Chapter of the American Society of Agronomy, received the Scholarship Achievement Award for 1966. The award was made on May 5 at the Seventh Annual Achievement program. This award was presented by the organization to the member who had displayed top leadership, both in scholarship and student contributions to his club, co-workers, faculty, and staff.

Jones is a 1962 graduate of Jones High School, Trenton, and has participated in the student trainee program with the Soil Conservation Service for the past two summers. His first summer's training period was in Edenton; and during the summer of 1965 he was assigned to the Lillington area.

Recently at an achievement program presented by the Agriculture Department, Jones was presented a plaque for his participation on the college livestock judging team. This achievement was presented by the Regional Livestock Judging Association.

While at A&T, he has participated in college affairs with the

Local Student NEA Releases Plans For Coming Year

The president of the local chapter and the state chapters of the Student NCTA-NEA, Eula M. Battle, an English major from Whitakers, has announced the tentative Student NEA schedule for next year.

Eula was elected State President of the Student NEA on April 16, 1966. She is holding the positions of associate Editor of the Register, reporter for the Harrison Players, and Liaison Officer for the NCTE in addition to the offices of state and local Student NEA President. Eula is a prospective member of Lambda Iota Tau, the National English Honor Society.

The tentative schedule for next school year for the James B. Dudley Chapter of the Student NEA of A&T College was announced as follows:

- October 27, 1966 — Rush Party
- November, 1966 — Film to be shown at regular meeting; sponsoring pay movie on campus
- December 9, 1966 — Annual Christmas Party
- January 26, 1967 — Speaker on the subject of Professional Rights and Responsibilities
- February, 1967 — Film or discussion on Problems of Student Teachers to be held as a Professional Forum
- March, 23 1967 — A Talent Show (Student and Teacher participation)
- March, 1967 — Installation Services
- April, 1967 — Teacher Career Month; Closed Social
- May, 1967 — Picnic

Although tentative plans for the State Chapter of the Student NEA are not complete, it is hoped that the plans for a Weekend Retreat, Talent Show, visits to Local Chapters, and Annual Quarterly Reports of Local Chapters will be successful.

YMCA, Agronomy Club, and the Livestock Judging Team.

Jones starts work in June with the Soil Conservation Service in Raleigh as a Soil Scientist and plans to attend graduate school to further his study in agronomy and soils.

Bluford Library Gives Statistics On New Hours

In a recent report from Mr. B. C. Crews, acting librarian, to President L. C. Dowdy, it was noted that because of extended weekend library hours the Bluford library is now open 89 hours per week.

In checking the North Carolina library source book, Mr. Crews found that only one other senior college library is open longer than A&T College and that is East Carolina College which is open 90 hours per week. The statistics on the attendance for three weekends are as follows:

Friday	43
Saturday	56
Sunday	195
	294
Friday	101
Saturday	56
Sunday	358
	515
Friday	84
Saturday	129
Sunday	301
	514

According to the number of patrons that have used the library during the extended hours, Mr. Crews feels that there may be a justification for longer hours, especially if the trend continues.

S. G. Constitution Makes Changes In Policies

Because of a recent change in the Student Government Constitution, class representation to the Student Government will be chosen on the basis of the number of members in each class. Therefore, the freshmen class will have nine representatives, sophomore class will have seven, and the junior and senior classes will have five and four representatives respectively. The Student Government is to be composed of one president, one vice-president, two secretaries, one corresponding and one recording, one treasurer, all class presidents and twenty-five representatives from classes.

Also brought to mind by the last election is the proposed amendment which was defeated which would have lowered the requirements for students seeking offices in the Student Government. This proposal was submitted because of the desire to have more students participate in seeking offices and because of the lack of male students with grade point averages over 2.7 to seek offices.

Class Of '66 Began Under Freshman Program

It has been brought to the attention of The Register that the graduating class of 1966 is the first class to have undergone guidance through the Freshman Studies Office under the direction of Mr. S. J. Shaw.

Mr. Shaw, the present director of Freshman Studies, is the first to have been appointed to this position. He was appointed as the director of Freshman Studies during the summer of 1962 by President Dowdy, who was acting president during the absence of former president, Dr. Samuel D. Proctor.

Mr. Shaw received his B. S. Degree in Education with a specialty in Administration and Psychology from Fayetteville State College, Fayetteville, his M. A. Degree from North Carolina College, Durham, a certificate in Administration from the University of Minnesota, Minneapolis, Minnesota. He has done further study in his chosen field at Hampton Institute, Hampton, Virginia; A&T College, Greensboro, and the University of Paris, Paris, France. He is presently working toward his doctor's degree at the University of North Carolina at Chapel Hill.

Mr. Shaw spent 14 years in the public school system as a junior and senior high school classroom instructor and principal. He was director of Teacher Education at A&T for five years and served as director of Evening Classes for two years prior to his present position.

The program of Freshman Studies was originated as a result of a self-study made at the college in 1958. This study revealed that beginning students at the college were not receiving the kinds of academic programs and personal guidance services that were needed as a result of these findings; therefore, Acting President Dowdy appointed Mr. Shaw to administer the program of the Freshman Studies Office.

Since the beginning of the program, the director indicates that it has been generally successful in terms of the purposes it set up. These purposes are (1) to isolate academic problems of freshmen and pair experiences to

Dr. Nathan Hare Makes Study On Teachers

"Negro teachers exceed white teachers in the number of years of education completed," Dr. Nathan Hare, of Howard University, said at the ASST Friday in his talk on "Characteristics of Negro Teachers: A Demographic Analysis."

"It has often been said that the education earned by Negroes is inferior to that earned by the white," Dr. Hare told the group. He also pointed out other analysis such as 54.36% of Negro female teachers marry professional men, whereas 32.42% of white female teachers marry professional men. Of this number, more Negroes than whites marry other teachers. Negro female teachers break up more so than do the white female teachers, especially those with children. Negro female teachers who are less than thirty-four years old have old children, "mainly because they make their mistakes early and learn from experience."

Dr. Hare also pointed out that most white female teachers stop working early after marriage whether there are children or not, whereas the Negro female teacher has to work anyway. He concluded his discussion by saying "The Negro dream in education conflicts with the Negro nightmare."

A Special Announcement From Your College Placement Office
Your local N. C. Employment Security Commission offers its job placement services to college graduates and undergraduates seeking employment locally, out-of-town or out-of-state and undergraduates seeking part-time or summer employment are urged to contact, as soon as possible, the Greensboro office of the Employment Security Commission at 229 North Greene Street for job placement and other services. Office hours are from 8:00 A.M. to 5:00 P.M., Monday through Friday.

dissolve these problems; (2) to set up curricula designed for the academically talented, the average and the academically deficient; (3) to design curricula which will give the students a broad general education with special guidance in the preparation for the selection of a major field of study; (4) to coordinate all freshman activities on an institutional-wide basis in order to care for problems unique to freshmen; (5) to plan both curricula and extra-curricula activities to accommodate the needs, interests, and abilities of those students who enter with advance placement.

In the light of continuous changes taking place in higher education, it will be necessary to make adjustments in this program, Fresh-

man Studies, consonant with these changes.

The academic deans choose the academic advisers who will serve as consultants to the freshmen. These advisers work under direct supervision of the Freshman Studies Office. The Freshman Studies Office operates with the assistance of the Testing and Counseling Office, the Admissions Office, the dean of students, and all academic deans. Freshman Studies is under the direct supervision of the dean of instruction.

The Freshman Studies Office has been responsible for the Summer Visitation Program for parents and incoming freshman students. This portion of the program had its beginning during the summer of 1963.

American Meteorological Society Announces Annual Awards Program

By LEE HOUSE

The Father James B. Macelwane Annual Awards were established by the American Meteorological Society to honor the late Rev. James B. Macelwane, S. J., geophysicist and dean of the Institute of Technology, Saint Louis University, until his death in 1956. Father Macelwane was a world renowned authority on seismology.

The purpose of these awards is to stimulate interest in meteorology among college students. All registered undergraduate students of a college or university in the Americas are eligible to participate. The only restriction is that no more than two students may enter contest papers from any one institution.

The Society encourages original student papers concerned with some phase of the atmospheric sciences. Award stipends are supported by Weather Corporation of America, private meteorological consultants, Saint Louis, Mo. A stipend of \$150.00 is awarded to the author of the paper deemed most worthy by the judging committee. Additionally, stipends of \$100.00 and \$50.00 are awarded to second and third place winners.

Deadline for submission of entries is June 1, 1966.

The Howard T. Orville Scholarship in Meteorology honors the late Howard T. Orville, Head of the Naval Aerological Service 1940-50, when he retired as Captain, USN. He later served in key industrial post and as Chairman of the Advisory Committee on Weather Control in 1953. A graduate of the U. S. Naval Academy, his service was marked by many commendations. Capt. Orville was president of the American Meteorological Society, 1948-49.

Through a bequest from the estate of Howard T. Orville, the Society's third annual student scholarship is being announced.

ATTENTION YOUNG LADIES:
The Pines of Carolina Girl Scout Council, Inc., is seeking prospective camp counselors for the 1966 summer positions. Interested young ladies should contact the Placement Office for further information and for applications.

These members of the class in clothing are participating in a Fashion Study Week this week, visiting Fashion Shows and shops in New York City as part of class requirements.

The group, accompanied by Mrs. Ann Lamb Davis, left, associate professor of Clothing, includes from left to right: seated, Dorothy McBroom, Burlington; Ann C. Sidberry, Wilmington; standing, Lena Harris, Dunn; Regina Bass, Roughmont; Penny Edwards, Chapel Hill; Betty Williams, Hodges, South Carolina; and Willie McKoy, Leland.

College Honors Mothers Of The Year

(1) Mrs. Rogers receives an orchid from Mrs. L. C. Dowdy at the Mother's Day convocation.

(2) Mother of the Year reviews ROTC Cadets.

(3) John Metz receives outstanding senior Army Cadet for 1965-66.

(4) Otis Rousseau receives the Clifton O. Howell award for marksmanship from Mr. and Mrs. Clifton O. Howell.

(5) Mother of the Year and her children. Not pictured is her husband, Mr. Gathier Rogers.

On Sunday, May 8, A&T's campus was enhanced by the presence of mothers visiting their children on the day set aside nationally to honor mothers. The atmosphere of such a day was brought out as it should have been with the beauty and the sunshine of the warm spring season.

Charles Moore Gymnasium was the scene of the services held by the college to pay tribute to the Mother of the Year, Mrs. Lillie F. Rogers of Pittsboro. Mrs. Rogers holds the B.A. Degree from Shaw University and has been a teacher in Special Education at Horton Public School at Pittsboro for twenty-seven years. She is also a diligent worker in the Mitchell Chapel AME Zion Church near her city. In the church, she has organized a church school which has developed into a progressive institution.

The program included scripture and prayer rendered by Reverend Cecil Bishop of the Trinity AME Zion Church of Greensboro. Mrs. Lucille Piggott, dean of women, read a tribute to all mothers. Mrs. L. C. Dowdy then presented Mrs. Rogers with a certificate from the school, as Debra Johnson, Miss A&T, presented her a gift. Dr. L. C. Dowdy, president of A&T gave additional remarks and introduced the speaker, Dr. Bennetta B. Washington, director of

the Woman's Job Corps, Office of Economic Opportunity, Washington, D. C. to the audience.

Dr. Washington took the text of her speech from Esther 4:14, "For if you keep silent at such a time as this, relief will come from another source, but if you and your house will perish, who knows whether you have not come to the kingdom for such a time as this?" She spoke of the active role played by women today in the ever-changing world. However, she made it clear that the role of women will not change. Dr. Washington cor-

related today's female efforts with Esther as there are sins of silence as well as sins of speech, since women do talk a great deal. "Do not neglect your duties, for dire consequences will bring your children to worship things instead of values", said Dr. Washington to the audience filled with mothers and future mothers.

The remaining events were highlighted by a Ceremonial Review of the Air Force and Army ROTC Units on the front lawn of the main campus.

Dr. K. R. Keller Emphasizes Research As Agronomy Club Hold 7th Meet

By JUNIUS B. RUSSELL, JR.

Dr. Kenneth R. Keller, director of tobacco research at North Carolina State University, was the principal speaker for the seventh annual agronomy achievement program held here last Thursday evening.

Dr. Keller directed his speech to the youth present, and compared their opportunities with his

during the time when he was a small boy growing up on a farm in South Dakota. He emphasized the importance of tobacco research and its place in the economy of North Carolina.

"Just as the horse and buggy of yesteryear have changed to the automobiles and the means of transportation today, so has the research program in tobacco changed today's competition in production", the speaker said. He followed production from the seed can to the consumer, explaining the need for agricultural economics, agronomists, agricultural engineers, biologist, and specialists in the many fields of agriculture.

Dr. B. C. Webb, dean of the School of Agriculture, and Johnnie Jones, III presented the certificates to new members and honorary members of the organization.

Dr. A. P. Bell, associate professor of agricultural education, presented guests from some sixteen high school F.F.A. chapters and urged them to return home with a desire for agricultural research for better production.

The Jazz Side

(CONTINUED FROM PAGE 2)

one take one of the singers mentioned and look into what he has been "doing" lately. How about Lou Rawls?

Lou's latest release is entitled "Lou Rawls Live! (Capitol LB2459)." And "live" it is. Accompanying Lou on this fine effort are James Bond, bass; Earl Palmer, drums; Tommy Strode, piano; and Herb Ellis, guitar. The group has a musical message which it well communicates. The twelve tunes range from the hard driving "Stormy Monday," "I'd Rather Drink Muddy Water," and "In the Evening When the Sun Goes Down" to a very personal reading of "The Shadow of Your Smile." There are also two rollicking selections called "Lou's Monologue" where each song is narrated to musical background. Likewise, "Going to Chicago Blues" is "bluesy"!

The entertainer is thoroughly in command of his audience on this record, and everyone has a good time.

For Men Only

By GRACIE MEBANE

All male students presently enrolled at A&T College desiring housing for the Summer School Session of the school year 1965-66 must complete their reservations by June 3.

Graduate and undergraduate students for the Summer Sessions will be housed in Scott Hall.

Each applicant for housing for the Summer School Sessions, as well as the regular sessions for the school year 1966-67, must present to the director of Scott Hall a copy of his receipt from the Cashier's Office showing that he has paid the required fees.

All dormitories for male students will open for the summer session on June 12, 1966, at 8:00 A.M. Reservations for the regular school session should be completed before departing the campus during the current session.

"The Wild Cascades"

(CONTINUED FROM PAGE 2)

for the imperishable quite at the heart of form." The "quite" is the beauty, the wild, primitive beauty, that has been carved, shaped, and majestically colored through years and years by the hands of nature.

Roethe calls the wild "living space." What is it like to "stare into the after-light, the glitter left on the lake's surface. When the

sun has fallen behind a wooded island?" Here are many illustrations of the sun's shadowing the trees and mountains so that they are reflected into blue-green bodies of water. The poet, being well familiar with the wilds, associates himself with the environment.

"I would be a stream, winding between great straited rocks in late summer; A leaf, I would love the leaves, delighting in the redolent disorder of this mortal life. This ambush, this silence, Where shadow can change into flame, And the dark be forgotten."

Often, everyday occurrences are taken for granted. Many people do not have "time" to see and notice a setting sun with its bars of colors streaking through clouds, or flowers and birds returning in early spring to announce that once again the earth is ready to bear its fruit, or what about a proud tree displaying its leaves? The Wild Cascades is the type of book one should read if

he has forgotten or just does not care about a beauty that cannot be bought in a store and put into place by spending many laborious hours in front of a "reflector."

For example, one may begin by noticing the lovely willow tree that is located beside Hines Hall near the parking lot. This writer refrains from saying "Weeping Willow" because it is the pair of eyes that view the tree that weeps, not the tree. The grandeur of The Wild Cascades and A&T's Willow tree tells one that there is someone greater than he. It is a pity that laws must be passed in order that such splendid magnificence be conserved.

Ed Roberts, Bethea Gain Track Wins

Evander Gilmer, left, Greensboro, and Frankie Patterson, Fairmont, both students at A&T College, will get an opportunity to compete in the regional eliminations of a national TV talent contest, sponsored by the American Broadcasting Company.

Both vocalists, the pair won the local eliminations held in Greensboro last week.

The program will be viewed on WGHP, Channel 8, at 8:00 P.M. Saturday evening, May 14.

Nat'l 2nd Vice President Visits A&T Chapter Of Gamma Sigma Sigma

Gamma Sigma Sigma National Service Sorority began on the Agricultural and Technical College Campus, October 30, 1963. Maggie S. Hines along with the Alpha Phi Omegas, called together thirty young ladies dedicated to service. From this meeting the Girls Service Sorority was formed.

The purpose of Gamma Sigma Sigma is "to assemble college and university women in the spirit of service to humanity."

The essential principles of Gamma Sigma Sigma are service, friendship, and equality.

Membership in Gamma Sigma Sigma is based on Service. It is the policy of the sorority to include both social sorority members and non-members, of all races and creeds, who are duly enrolled, and in good standing, in their respective colleges and universities, and who have been elected by their respective chapters upon fulfilling the requirements prescribed by the National Sorority and the chapter.

On April 30, 1966 Mrs. Susan Glass, 2nd Vice President, from East Brunswick, New Jersey visited this campus. Mrs. Glass gave the girls some wonderful ideas on how they could enlarge their group.

She also gave the girls some ideas on making rush party enjoyable, and various projects that would be of aid to the college and community. During her short visit, Mrs. Glass and Mrs. M. K. Brimage, local adviser, enjoyed a wonderful luncheon at the Hayes-Taylor Y. M. C. A.

During the year Gamma Sigma Sigma National Service Sorority has sponsored several things to enlighten the students; a Benefit Dance, to collect items for the O'Berry Mentally Retarded Children, Goldsboro; dolls for the children's ward, L. Richardson Hospital; and during the week of May 21-28, 1966, the girls will be working with N.A.A.C.P., Voter Registration Drive.

The officers are as follows: Lula Noriega, president; Lillie R. James, 2nd vice president; Moselle R. Rice, secretary; Lillie Robbins, corresponding secretary; Sandra Spruiell, dean of pledges; Blondie Yvette Smith, assistant dean of pledges.

The advisers to the Gamma Sigma Sigma National Service Sorority are Mrs. M. K. Brimage, and Mrs. Ruth Gore.

They join the officers and members in extending an invitation to young ladies to join them.

North Carolina College's Ed Roberts streaked to a record-breaking 100-yard dash victory and A&T's Elvin Bethea captured the shot put as Tar Heel college aces starred in the Quantico Relays Saturday.

Roberts, an Olympic star, ran the 100 in 9.3 seconds to break the record of 9.4. It was a repeat victory for the NCC star.

Bethea heaved the shot put 58 feet, 10 inches to win that event by two feet.

Roberts also anchored his col-

lege's 440 relay team to a record win in the time of 41.1.

Bob Beamon of A&T College was second in the triple jump.

Other record-setters included hurdler Pat Pomphrey of Tennessee, William Skinner of the Delaware Track and Field club, Mike Manley of the Quantico Marines and Kentucky State's sprint medley relay quartet.

Roberts, reinstated to the North Carolina College team this week, overcame a two-yard deficit as he led an Eagles' quartet that includ-

ed Percy Crisp, Ed Watson and Charles Copeland to a 41.1 clocking in the 440 relay, wiping out the 41.3 mark they set Friday.

Earlier, Roberts retained the 100-yard dash title by a one-yard margin over John Moon of the Seth Weekly track club.

A 1:49.4 half-mile anchor leg by Jim Kemp led Kentucky State to a 3:21.1 record in the sprint medley. The foursome that also included Marsh Glover, Bobby Bailey and Clarence Ray, knocked seven-tenths of a second off the record set last year by the Quantico Marines.

In the 120-yard high hurdles, Pomphrey equaled the best time he had ever run, 13.7, for a narrow victory over Leon Coleman of Winston-Salem and Villanova freshman Irvin Hall, both of whom did 13.8. Coleman had set a 440-yard intermediate-hurdles mark of 51.2 Friday.

Skinner threw the javelin 248 feet for another mark, adding slightly over three feet to the record set by Phil Conley.

with Pinto Beans, Rice or Peanut Butter on the Lipid Metabolism of Adult Men". This paper was also co-authored by Dr. Seetha Ganapathy, Mrs. Cordella Rumph, and Mrs. Lovie Booker.

On May 7, Dr. Surjan S. Ratwalay, Research Chemist Department of Home Economics, gave a paper before the North Carolina Academy of Science which held its annual meeting at Catawba College. The presentation entitled "Incorporation of the Methyl Carbon of Methionine into Taurine" was co-authored by Dr. Cecile Edwards and Dr. Gerald Edwards.

Dr. Gerald Edwards and Dr. Seetha Ganapathy will also present papers before the Seventh International Congress of Nutrition which convenes in Hamburg, Germany in August. The paper to be

presented by Dr. Ganapathy will cover another phase of research in the Wheat Project sponsored by the Human Nutrition Research Division, Agricultural Research Service, USDA. It is entitled "Plasma Amino Acids of Young Men Fed Diets Containing Wheat and Wheat Supplemented with Pinto Beans, Rice or Peanut Butter", and co-authored by Dr. Cecile Edwards, Mrs. Lovie Booker, and Mrs. Cordella Rumph.

The paper to be given by Dr. Gerald Edwards culminates a phase of work on the research project sponsored by the National Institutes of Health, co-authored by Dr. Cecile H. Edwards and Dr. Surjan S. Rawalay; its title is "Formation of Methylthioadenosine and Other Sulfur-Containing Compounds from Methionine-S35 in the Rat".

SUPPORT THE AGGIES IN BASEBALL AND TRACK

We set out to ruin some ball bearings and failed successfully

The Bell System has many small, automatic telephone offices around the country. The equipment in them could operate unattended for ten years or so, but for a problem.

The many electric motors in those offices needed lubrication at least once a year. Heat from the motors dried up the bearing oils, thus entailing costly annual maintenance.

To stamp out this problem, many tests were conducted at Bell Telephone Laboratories. Lubricant engineer George H. Kitchen decided to do a basic experiment that would provide a motor with the worst possible conditions. He deliberately set

out to ruin some ball bearings by smearing them with an icky gunk called molybdenum disulfide (MoS₂).

Swock! This solid lubricant, used a certain way, actually increased the life expectancy of the ball bearings by a factor of ten! Now the motors can run for at least a decade without lubrication.

We've learned from our "failures." Our aim: investigate everything.

The only experiment that can really be said to "fail" is the one that is never tried.

ALL STUDENTS WHO WISH TO BECOME MEMBERS OF THE REGISTER STAFF ARE URGED TO COME TO CARVER 169 MONDAY, MAY 16, AT 7:00 O'CLOCK.
