Enrollment Tops 3,200 As Freshmen Enter

Students React To Studies At Yale And Columbia

Diane Banner, senior, English major from Lenoir, Marshfield, senior, political science major from Kings Mountain, and Lee A. House, junior, political science major from Shelby, NC, both of whom were given a scholarship for the program at Harvard, Yale, Columbia, Princeton, University of Illinois, and Northwestern Universities, the two are both political science majors, their schedules were similar. Because Yale does not offer a concentrated program in political science, participants found a concentrated program in political science at Yale and Columbia. The two were among 62 students from all over the country. Campbells and House each took three courses. American Political Behavior, Civil Rights (international politics), and Political Studies are required. The program included faculty and tutors.

The ISD studies program was designed primarily for seniors in graduate school and was -"not a first-rate northern university. In addition, the sponsor sought to add to the summer program as administrative cooperation. The summer program included students from all over the nation, including the American South and the Developing Nations. The students did not receive grades, but they are in receipt of written evaluations which have not yet arrived. Each student attended the program at Harvard although the summer program participants did.

Academic highlights of the program included faculty and major areas: modern poetry, and historic interpretation (Prose and Poetry). Campbell and House both carried out their studies at Yale University, New Haven, Connecticut. From two of the two are both political science majors, their schedules were similar. Because Yale does not offer a concentrated program in political science, participants found a concentrated program in political science at Yale and Columbia. GUEST EDITORIAL

SG On Review
By Roy C. White

Students governments have progressively become more aware of their responsibilities to their constituents and their academic community. Nevertheless, it has been demonstrated that the fundamental purpose and potential role of student government has not always been recognized.

The representative of the student body, student government must be committed to the goals of higher education to justify its existence. The extent to which we have focused attention on any particular issue or problem has a direct bearing on the academic community. The extent to which we have focused attention on any particular issue or problem affects the academic community.

Student government is aware of the institution's obligation to the total college community; therefore, it will work toward the development of policies which have bearing on this academic community. In order to achieve and maintain an organization of policies, decisions, and programs which have bearing on the student community, student government is aware of the institution's obligation to the total college community.

It is also sensitive to the needs of all groups on the campus, recognizing that the college is a community in which every student has a legitimate interest. Each student has a right to be heard, and each has a responsibility to contribute to the welfare of the community.

Student government strives to maintain an atmosphere of free expression and to encourage the development of ideas and ideals. In the fulfillment of its responsibilities, student government seeks to maintain an atmosphere of free expression and to encourage the development of ideas and ideals.

In the New Dorm

For two hundred of us college residents, the new dormitory is our home for the school year 1966-67. Our impressions of it can be summed up as being an up-to-date establishment, but lacking a few of the comforts of home.

We find that the building has more completions to be made, but, we are quite pleased with the conveniences of laundry rooms, showers, and our proximity to the center of campus.

For two hundred of us college residents, the new dormitory is our home for the school year 1966-67. Our impressions of it can be summed up as being an up-to-date establishment, but lacking a few of the comforts of home.

Students Begin Undergraduate Research Probe

AUSTIN, Texas—(LP.)—The Students' Association on the campus of the University of Texas has inaugurated an Undergraduate Research Probe for the purpose of encouraging and assisting research by students whose interests range beyond the formal classroom and assigned homework.

The Students' Association is a committee of graduate students, headed by Dr. William R. Stapp, Jr., teaching assistant in English. Meeting once a week to review research applications, the committee judges research projects on their merit.

We in no way try to "censor" projects," Mr. Stapp said, "but we try to make careful selections and then leave it up to the individual to carry out his responsibility.

Students End With Wishful and Positive at Fall Back on Simplicity of Lines

Perhaps men do not have to think too much about clothing being too decorative for an occasion because decorativeness in the closet of men is kept to a minimum. However, women do think about decorativeness and should be reminded that dressing simply is not something to be sneered at. The dress is a two piece suit, usually worn under the collar. The material is wool and mohair fabric. The most popular colors for this dress are Moss green and Walnut.

With cooler weather coming on and girls still wanting to be neat and attractive this fall, it appears that simplicity is the thing to wear around the campus.

Whether many people are aware of it, clothes are worn just as much for looks as comfort, particularly by the girls on the campus. It is a fact that girls are more attractive, and, of course, that is what we are after when, in dozens of cases, one can still see simplicity of lines in clothes and can almost always see a dress that is dressed for any occasion.

George C. Thompson, President

BSU President Places Stress On Religion

We, the members of the Baptist Student Union (BSU), extend grateful appreciation to all who became members of the Aggie family this academic year.

We are confident that everyone will have a most enjoyable summer.

We trust that each of you will return with a new spirit in your religion. College is not the place to "get religion" but rather to extra-curricular and anti-social activities. You should try to maintain a good relationship with your college activities.

The Baptist Student Union is a group of students who are interested in promoting a better fellowship in our campus, other local campuses, and throughout the community.

This is our ultimate purpose.

Therefore, when this new year, we are undertaking new ways of working for our purpose, and we stand with wishful and positive at fall back on simplicity of lines in clothes and can almost always see a dress that is dressed for any occasion.

George C. Thompson, President

Dr. J. C. Dowdy

Urges New Class
Not To Collapse

Freshman students at A&T College were told last week that the records they make as the college would follow them for the rest of their lives.

Speaking was Dr. Lewis C. Dowdy, president, who delivered the welcome address to the incoming freshmen.

Weaving his talk around the letters in the word, "Freshman," Dr. Dowdy said that A&T expects of its beginning students: First, Reasoning. Excellence, Sincerity, High Goals, Motivation, Aspiration and Never a Quitter.

"Don't collapse with your first failures," he urged. "Use them as strengthening factors to deal with the many difficult problems you will face in the future." He cautioned the class that new knowledge, new techniques, being discovered every day make learning more difficult and more interesting.

Dr. Dowdy said that hard and determined work, through application to the task of a college education and a burning desire for learning are prerequisites to success in college. "Your performance and even your fate, from day to day, coming in the most important period of your lives, will determine the type of person you are to become," he added.

The A&T College Sunday School meets each Sunday in Hodgin Hall at 9 a.m. You are invited to come and bring a friend.

Senior pictures for the yearbook are to be taken October 2.

6. Floss is for Pictures to be taken in Senior Dormitories.

PROFESSIONAL CAREERS IN AERONAUTICAL CHARTING

CIVILIAN EMPLOYMENT WITH THE U.S. AIR FORCE

Minimum 100 semester hours college credit including 24 hours of subjects pertinent to charting such as math, geography, geology, and physics. Equivalent experience acceptable.

Training program:

Opportunities for men and women.

Application and further information forwarded on request.

WRITE: Civil Aeronautical Chart & Information Center, 350 Broadway, St. Louis, Missouri 63125

An equal opportunity employer

Dr. Vernon A. Home, Jr.

Ex-A&T Prof.

Dies In Penn.

"Dr. Home was a brilliant scholar, and he had a radiant personality. When he lectured on history he made it appear as drama," these are the words used by Miss Margaret E. Porter to describe the late Dr. Vernon A. Home, Jr., professor of history at the University of Missouri in Columbia, Missouri. Word was received here that he did Thursday, September 15.

Cherry Rejects Pro Contract To Join Aggies

by E. F. Corbett

A top freshman candidate for the A&T All-American team, who turned down a $20,000 professional baseball contract, is Daryl Cherry, who has two major sports.

A June graduate of the West Charlotte High School, Cherry is described by Coach Melvin Groomes, who man many feel has the potential of becoming one of the greatest athletes at A&T, as "a winner, down a $20,000 professional baseball contract." He turned them both down, favoring a college education.

Cherry's coaches look at him as the best athlete in the state of North Carolina, who picks up his science, mathematics, and history easily and eager to learn, and a great competitor.

For the "White" team, several veterans returned full strength Saturday night in Memorial Stadium for the annual "Blue-White" game featuring a "Blue" team and a "White" team. The "White" team, "outclass" the Blues 18-0.

The "White" team got its second score on a 65-yard pass from senior quarterback and placekicker Willie Pearson. The try for a "white" was blocked by junior guard Charlie Glen.

The "Blue" team got its second score on a spectacular kickoff return by Mike Johnson. Johnson kicked the ball and Ohio.

Several freshmen showed off their fine performances that they can play ball. Among them were Merle Code, Eugene Harrison, Willie Tucker, and Carlton Yoton.

Because of his leadership qualities, Cherry was elected captain of the West Charlotte High School football, basketball, and baseball teams, each for the past two years.

After being accorded several major league baseball contracts this spring, Cherry received contract offers from the Cleveland Indians and the St. Louis Cardinals, one for $20,000. He turned them both down, favoring a college education.

Cherry also turned down football offers from Purdue, Michigan State, North Texas State, Villanova, Arizona State and sixteen of the sixty-teen members in the CIAA.

Why did he select A&T? Cherry gives two reasons. He can realize his major league baseball dreams in college in both football and basketball.

As a top freshman candidate for the A&T All-American team, he was accorded a $20,000 professional baseball contract, which he turned down.

TVA Training

(Continued from Page 1)

Cherry is certain to get the first look at the Aggies in the Shrine East-West All-American game on Saturday, September 24. Kick-off time is 1:30 P.M.

Despite fiendish torture dynamic BiC Duo writes first time, every time!

Plays HiFi Record

BiC's rugged pair of stick pens wins in unwinding war against ballpoint stick, the pen of doom! Despite horrible punishment by mad research scientists, BiC still writes first time, every time. And no wonder, too! "Dynamite" Ball is the hardened metal made, encased in a solid heat-resistant cone. Will not skip, clog or smear no matter what devilish abuse is.
