## Aggies Squash Bulls In Big Victory

By EARNEST FULTON

Aggies registered their biggest victory of the year last Saturday night when they CRUSHED the Golden Bulls of Johnson C. Smith University by the score of 108-85 in Charlotte.

The game was a complete rout from the beginning as the Aggies

gained revenge for an earlier loss. The Golden Bulls were never in the game as the Aggies hit their first five shots and maintained the lead throughout. At one stage of the game the Aggies were leading by 27 points (74-47).

This was the best offensive game the Aggies have played in some time. They hit on an eye-popping

57 per-cent of their shots.

The scoring punch of Teddy Campbell on the inside and Soapy Adams on the outside was too much for the Bulls to handle. Each scored 22 points. Soapy has proven to be a real outside scoring threat in the last several games with his amazingly accurate jump shot.

The other high scorers for the Aggies were Carl Hubbard with 19, James Montgomery with 13, William Gilmer with 12, and George Mack had 11. There were six Aggies scoring in double figures.

### A&T

## Early Applications Are Sought For March And April SSCQT

Applications for the March 11 and 31 and April 8, 1967 administrations of the College Qualification Test are now available at Selective Service System local boards throughout the country.

Eligible students who intend to take this test should apply at once to the nearest Selective Service local board for an Application Card and a Bulletin of Information for the test.

Following instructions in the Bulletin, the student should fill out his application and mail it immediately in the envelope provided to SELECTIVE SERVICE EXAMINING SECTION, Educational Testing Service, P. O. Box 988, Princeton, New Jersey 08540. To ensure processing, applications

must be postmarked no later than midnight, February 10, 1967.

According to Educational Testing Service, which prepares and administers the College Qualification Test for the Selective Service System, it will be greatly to the student's advantage to file his application at once. By registering early, he stands the best chance of being assigned to the test center he has chosen. Because of the possibility that he may be assigned to any of the testing dates, it is very important that he list a center and center number for every date in which he will be available. Scores on the test will be sent directly to the registrant's local board.

## Open House Draws 85 Students 30 Observe Agricultural Plant

Approximately 85 high school seniors visited the College last week by special invitation from the School of Agriculture. The occasion was an Open House Program keyed towards high school agricultural students who graduate in June.

The purpose of the visit was to help the students to become informed about the opportunities in agriculture and related sciences, with emphasis on what A&T College has to offer in this area.

Arriving around eleven o'clock on Thursday, the groups and their advisers assembled in Carver Hall where Dean B. C. Webb and seven department heads discussed careers in animal science, plant science, ornamental horticulture, agricultural education, agricultural economics, and dairy processing. They were also made aware

of the many types of student aid available at the College.

After lunch the visitors were shown around classrooms and laboratories by agricultural students in their specially related fields. The seniors witnessed demonstrations performed by A&T students and asked questions about many aspects of laboratory experiments in Animal Husbandry.

Finally, the high school groups and their advisers toured the campus and visited the new building sites.

The visiting students represented seven school conducting programs in vocational agriculture. The Open House Project was labeled a "Great Success" by the members of the staff in the School of Agriculture.

Mr. C. E. Dean served as chairman of the Planning Committee.

## Mrs. C. Harper Joins In Panel On Federal Aid

Mrs. Carrie W. Harper, student aid officer at A&T College, was in Charlottesville, recently, to participate in a panel meeting to review applications for Federal student aid programs.

Mrs. Harper was at the Office of Education in the Region III headquarters of the United States Department of Health, Education, and Welfare, where she met with panel members from institutions in other Region III States to study over 600 applications from 225 colleges and universities that are applying for school year 1967-68 funds.

The funds were requested under three Federal programs: the Educational Opportunity Grants program, the National Defense Student Loan program, and the College Work-Study program. Grants are awarded on the basis of such factors as the amount of the request, the total enrollment in the college, the number of students participating in loan and work grant programs, the cost of attending the college, the amount of aid the institution has from its own sources, and the level of support in the past.

This was the first time that the complete application review process, including funding decisions, was made in the Regional Office. Announcement of the actual dollar amount granted to each institution will be made later in the year.

Region III of the Department of Health, Education, and Welfare serves Kentucky, Maryland, West Virginia, Virginia, North Carolina, the District of Columbia, Puerto Rico, and the Virgin Islands.

# Special Luncheon Honors N. C. Stars In Pro Basketball

By LEE A. HOUSE

Alvin Attles, former Aggie basketball star (class of 1960) and Sam Jones, former Eagle "net" star (class of 1957) were honored at a luncheon in lower Murphy Hall on Monday. The famed Boston Celtic great Bill Russell was expected, but was unable to attend. Attles currently stars with the San Francisco Warriors; and Sam Jones, with the Boston Celtics.

Dr. W. M. Bell, A&T athletic director introduced Dr. L. C. Dowdy, president of the college, as the host of the affair. Dr. Dowdy extended greetings to the gathering and announced Mr. Corbett as the "work horse" of the luncheon program. Mr. Corbett, public relations officer, proceeded to introduce distinguished guests: Mr. Henry Isaacson, president of the Greensboro Junior Chamber of Commerce; Woody Helm, of the Greensboro Daily Record; Woody Durham, of Channel Two sports; Gene Warren, of the Greensboro Daily News; Charlie Harville, program director of Channel 8; Dr. Young, athletic director at North Carolina College; Dr. Leroy Walker of the N. C. College governing interim committee; Ralph Johns, Greensboro merchant; and Mr. Howard Barnhill, president Alumni Association, among others.

Coach Cal Irvin introduced members of the 1966-67 basketball squad who were present: Teddy Campbell, Carl Hubbard, William Gilmer, William Hines, and Lawrence Dunn. Coach Irvin made a few remarks with reference to his hav-

ing coached Al Attles and the games he witnessed between Al and Sam. Mr. Irvin emphasized the fact that, even if young athletes get their start in small colleges like A&T and N. C. C., they still have a chance to accelerate to the top in accordance with their ability as the careers of Al Attles and Sam Jones witness.

Dr. Dowdy presented plaques to Attles and Jones in recognition of their accomplishments in the world of sports. The president called upon the star athletes to further earn their plaques by making a few remarks. The honorees both responded with brief comments. Notable was Sam Jones' comment on the value of receiving the basis of a good education by attaining the Bachelor's Degree before embarking upon a professional sports career.

Dr. Walker of the governing interim committee of North Carolina College extended greetings from the Eagles and recognized Sam Jones as one of N. C. C.'s most outstanding graduates.

Several students, while on semester break, attended the luncheon. They included Elvin Bethea, famed A&T Letterman; Jo Ann Elliott, president of the Woman's Council and the only young lady present; Lee House, a member of The Register Staff; and James Shoffner, sophomore political science major, among others.

Dr. Dowdy closed the luncheon, remarking that in sports, as in all other facets of education, A&T strives for the superlative, as Sam Jones and Al Attles well demonstrate.

These students, who were among 750 students who did not go home for semester break, spend part of their leisure time reading THE REGISTER, the college's weekly newspaper. Beginning with the young coed nearest the camera and continuing counter-clockwise, they are Marilyn Simpson, sophomore from Wilmington; Doris Littlejohn, sophomore from Edenton; Herbert Griffin, junior from Washington, D. C.; Barbara Foster, sophomore from Macon, Ga.; Richard Swinton, junior from Washington, D. C.; Edward Garner, senior from Pleasant Hill; and JoAnn Beasley, sophomore from Laurens, South Carolina.

## Dr. C. Edwards Joins Husband For 19-Month Stay In India

Dr. Cecile Hoover Edwards, professor of nutrition and research at A&T College, left Greensboro on January 28 to join her husband in India. The couple will reside in Mysore for a period of nineteen months. Dr. Gerald Edwards has been in India since September, 1966.

In India, Dr. Gerald Edwards is serving as consultant in the physical sciences with the Ohio State University Agency for International Development Program. He is stationed at the Regional College of Education in Mysore.

Dr. Cecile Edwards will be a member of the staff of the Central Food Technological Research Institute at Mysore and will complete research papers covering work conducted at A&T College on two research projects.

The Edwardses have been members of the A&T faculty for 10 years and during this period have contributed actively to nutrition and chemistry through research

and participation in professional organizations. Dr. Cecile Edwards is a member of the Guilford County Nutrition Committee, the North Carolina Dietetic Association, American Institute of Nutrition, and the North Carolina Academy of Science as well as other national organizations in her profession.

Dr. Gerald A. Edwards, on leave as chairman of the Department of Chemistry, has been active in the North Central Section of the American Chemical Society and the Advisory Committee on Atomic Energy of the State of North Carolina.

Both members of the Edwards team plan wide travel in Europe and Asia during their leave to observe science and nutrition projects in progress.

Their three children, Gerald, Junior; Adrienne Annette, and Hazel; and Mrs. C. Ruth Edwards, mother of Dr. Gerald Edwards, will accompany Mrs. Cecile Edwards.

Visiting high school seniors in vocational agriculture listen to Mr. J. E. Grier (extreme right) as he explains the field of poultry husbandry. The groups and their advisers were guests of the School of Agriculture at its Open House Program held last Thursday.

# Hours Questionable

The upcoming spring semester will mean many different things to many different people; but it will mean a selection of classes for all students. This brings to mind a matter which someone should give some concentrated thought, and that matter is student class loads at A&T College. Often it is the case that A&T differs from the majority of colleges, and many students fail to realize this until their applications to graduate are rejected.

There appear to be many inconsistencies in graduation requirements; and, as each new year begins, requirements are created or destroyed causing confusion for students and others alike.

The number of semester hours that a student decides to carry should be based on his ability and on his past experience.

In order to decide what a heavy class load is, perhaps one should first consider what constitutes an average load.

At many universities and colleges throughout the nation, between 13 and 16 semester hours are considered an average class load. Any more than these would be considered a heavy class schedule, and usually a student must obtain special permission to take more than 16 semester hours. Some universities have been noted to go as far as charging students extra fees for all classes over 18 semester hours, in an effort to prevent students from carrying excessive class loads.

Generally speaking, if a student is carrying between 13 and 16 semester hours, he is carrying an average class load; if he is carrying more than 18, he is definitely carrying a heavy class load.

The next point under consideration is the factors that bear upon the number of class hours a student decides to take. First and foremost, he keeps his eye on graduation day. In order to graduate from A&T in the usual four-year span, one must complete a certain number of semester hours set by the college. In the college catalogue it is recommended that a certain number of semester hours for each semester be carried by students in order to complete the required number of semester hours for graduation.

A quick glance at the college catalogue would reveal that for many departments, A&T recommends 19, 20, and even 21 semester hours per semester for the four-year programs.

What it boils down to is that if a student is registering for the spring semester and has had trouble with a heavy class load, but he is recommended to take 19, 20, or 21 hours so he will graduate in a decent length of time, then, that student has a "PP" (personal problem). He may eventually fall into the fast-growing group referred to as "Super Seniors".

Perhaps, in the fast attempt to change from quarter to the semester systems and "become more like the larger universities and colleges," someone has overlooked the students' position in this change.

It is reported that the college is conducting a self-evaluation. Perhaps, a re-examining of the over-all curriculum program with respect to graduation requirements and student class loads will be considered in this evaluation effort. Some action in this direction may yield better students, who will in turn make better grades, and subsequently become more productive and grateful graduates.

## Hero Returns 'Home'

Alumni are always greeted warmly when they return to A&T; but, when the alumnus is Al Attles, the college rolls out the red carpet.

Such was the case Monday when Al and a former Aggie rival, "Sad" Sam Jones, former NCC Eagle, came to Greensboro. Both athletes, who are professional basketball players for the San Francisco Warriors and Boston Celtics respectively, were given plaques at a luncheon in lower Murphy Hall.

In true Attles fashion, the response by Al was simply a reflection of the gentleman he has always been, the scholar and the athlete, probably in that order. Al was happy to be "home"; and Aggie fans did not hold past Eagle records against Sam.

Love for Al is not a new thing here. During his undergraduate days, the Newark, N. J. native was a campus hero, and he has not been affected by his success as a professional. He is a teacher, and he has done graduate work at Seton Hall. Furthermore, he advises basketball players "to get as much education as they can before doing anything else. Education is what counts."

An outstanding feature about Al is that he likes to give credit to those who have helped him - Coach Irvin and Vince Miller, an Aggie teammate who recommended Al to the Warriors.

Yes, Al came home; and in spite of semester break, he received the honors due a returning hero.

## February 1 Marks Seventh Anniversary Of Sit - Ins

While many students are going about registration procedures after a peaceful semester break, it is interesting to note that this has not always been the case for the A&T student. Seven years ago during this same week in February, students were not returning from a semester break or a quarter break, but were busily becoming involved in the activities of four freshmen - Ezell Blair, David Richmond, Joseph McNeil and Franklin McCain.

Blair, McNeil, McCain, and Richmond started what was first termed a "passive demand for service" at a downtown five-and-dime store. It turned out to be one of the most active and controversial movements in the nation - the Sit-in Demonstrations.

The freshmen staged their original sit-in on February 1, 1960; however, by February 7, the movement had caught like wildfire and had hit more than five other major North Carolina cities. It soon spread across the nation in many variations and methods, but the original spark was started here in Greensboro by four freshmen of A&T College.

Although the College has been

very slow in erecting any significant memorial to these four students and other A&T students who participated in the movement, the memoirs of the history-making occasion still remains intact in the minds of many students, the majority of the staff and faculty, and the citizens of Greensboro.

The Register takes great pride in commemorating the anniversary

of an event which marks such an important interval in the history of A&T College. And because it would be impossible to name and give credit to all the A&T students who were responsible for the success of the sit-ins and subsequent demonstrations, we salute the four freshmen who ignited it - Blair, McNeil, McCain, and Richmond.

Ezell Blair, Jr., Lt. Joseph McNeil, David Richmond, and Franklin McCain, on February 1, 1960, initiated the lunch counter sit-in movement which later spread across the nation, and they this year celebrated the seventh anniversary of the sit-in.

### MEN'S FASHION TIPS

## Spend Less Money For Expensive Clothes

As we look around the campus, we see quite a few young men who possess many clothes of fine taste and quality. Those men who like to be admired should be aware of the fact that proper care for their clothing is most important.

Why put money into expensive clothes if you are not going to take care of them? It's the same thing as spending less money for expensive clothes. Therefore, the care of your clothes will determine their quality and lasting ability.

As many of you look through your closets, you will probably find a few wooden clothes hangers. These are the ideal things to hang your suits on to maintain the shape. However, be sure to remove items from the pockets, remove the belt, zip the fly and button the middle button on the jacket. Nothing can beat this for holding the shape while in your closet.

For those of you who don't like or cannot afford regular cleaning, there are the brushes and spot removers. The suit should be brushed after wearing to prevent stray particles from getting into the material and causing damage that could have been avoided. Use a long bristled brush for tweeds and a piece of adhesive tape for fabrics that have a tendency to draw a great deal of lint. A spot remover can be used to remove a spot, but it should not be done before the material is completely dry. One must be sure that grease and other penetrating substances are removed because they could contain harmful hidden components.

One thing that really bothers many young men is the sheen around the seat and back of the thighs. To some men this is embarrassing. This sheen is caused by the pressure put on the trousers while the young man is sitting. This is a recurring thing and can be avoided by sitting on a seat pad, covered with cloth.

Most young men on the campus have very little trouble taking care of their shoes because quite a few wear sneakers, but those who know the art of dressing should be reminded of a few pointers.

One of the main things to do in caring for the shoes is to polish them regularly, if they are leather, because leather has a tendency to crack when it dries. However, one should wash the shoes off before polishing so that there won't be too much old polish caked on the shoe. Suede shoes can be kept clean simply with a stiff-bristled brush or perhaps a plastic one.

No matter whether we are speaking of suits, sweaters, shoes, hats, neckties, or shirts, always make it a habit to take good care of your clothing.

## Abolish All Women's Hours

(ACP) - Coeds living in dormitories have long been victims of an hours policy which treats them as immature children who cannot be expected to use their time responsibly, comments the University of Minnesota Daily.

They are denied the right of coeds living off campus and working girls in this age group to do whatever they wish with their time.

And the trend at the university is toward even less restrictive rules. Since 1960 there have been no restrictions on women over 21 and recently the dean approved a policy granting junior and senior women in three dormitories permission to regulate their own hours.

There is no evidence indicating that coeds will suddenly become irresponsible if they are granted freedom. At Comstock Hall, for

example, junior and senior women use the no-hours policy an average of only twice a month.

And current policies, ironically enough, do not prevent a girl from staying out late if she really wants to. Instead of returning late and risking a penalty, she simply stays out all night.

Yes, there might be some adverse public reaction if all women's hours are eliminated, but hardly as much as administrators fear. The public has shown itself to be remarkably tolerant in other controversial matters. Besides, the university should take the lead in correcting society's weaknesses - overprotectiveness certainly is a weakness - and educate the public on them. We hope the administration will seriously consider the abolition of women's hours this year.

**The A & T College REGISTER**

Published weekly during the College year by students of A&T College.

Subscription rate \$5.00 per year. Address all communications and checks to THE REGISTER, A&T College, Greensboro, North Carolina, 27411.

The U. S. Pavilion at Expo 67 is a \$9.3 million Geodesic Dome designed by R. Buck Minister Fuller. It has a plastic skin and windows geared to the sun's progress; solo-operated cells open certain windows at certain times of the day.

### Dr. L. C. Dowdy Receives Posts On 2 Boards

Dr. Lewis C. Dowdy, president of A&T College, has been named to membership on two important boards.

By appointment of Governor Dan K. Moore, he becomes a member of the North Carolina Atomic Energy Commission, to fill an unexpired term.

Dr. Dowdy was also named a member of the Board of Directors of the Greensboro Chamber of Commerce. He becomes the first Negro to hold such a position with the Greensboro Chamber.

Dr. Dowdy, also serves as president of the North Carolina Association of Colleges and Universities, chairman of the Higher Education Committee of the Southern Association of Colleges and Schools and a member of the Executive Committee of the Association of State Universities and Land-Grant Colleges.

### Fellowships Offer New Opportunity To The Negro Graduate Student

Two-year fellowships are being offered to qualified Negro college graduates who wish to prepare for managerial careers in business in a unique graduate program being organized by Indiana and Washington Universities and the University of Wisconsin.

Applicants need not have studied either business or economics. Each recipient of a fellowship will receive \$2500 a year plus free tuition, and \$500 a year for each dependent up to a maximum of two. The fellowship will be renewed for a second year upon successful completion of the first year of study.

Financial support for this undertaking will come from a \$300,000 Ford Foundation challenge grant to be matched on a one-for-one basis by contributions from industry under terms of an announcement made public last December. The three Midwestern universities have formed a consortium to implement the program, and hope to recruit as many as 50 students for the academic year 1967-68.

Those awarded fellowships will be enrolled at one of the schools in a course of study leading to a master of business administration degree. To prepare those accepted for specialized study leading to an M.B.A. an eight-week pre-graduate program will be held this summer on the Washington University campus. In addition to regular

course work, students in the summer session will attend seminars and visit industrial plants in the St. Louis area. A fellowship plus tuition costs will be awarded to all candidates for this period of study.

The program also includes a business internship to be undertaken generally during the summer months between the first and second years.

Those matriculating in June as well as young Negro college graduates with a few years experience are eligible for the program.

Negroes interested in this new project are urged to write immediately to Dr. Sterling H. Schoen, program director, Consortium for Graduate Study in Business for Negroes, Washington University, Box 1132, St. Louis, Missouri, 63130.

Formulators of the new M.B.A. program at Indiana, Washington, and Wisconsin are well aware that the shortage of Negro youth available to enter the managerial ranks is not an accident, but rather the result of decades of discrimination against Negroes in business. From parents as well as teachers, Negro students in the past learned that they could find little opportunity in industry. Now, however, the picture has changed dramatically, and business organizations have suddenly begun to seek out Negroes for well-paying jobs.

## Expo 67 Looms High In Summer Plans

MONTREAL, Canada (Expo 67) — There will be a new "in" place to go next year: Montreal, Canada. College students from all parts of the United States, are expected to cross the nation's northern border, attracted by Expo 67, the Canadian Universal and International Exposition of 1967.

This event will be the first exhibition of the first category ever held in North America. No idle boast or promotional gimmick, the rating is quite official; it's handed down by the Bureau of International Exhibitions, in Paris, an international agency set up in 1928

to establish rules for world's fairs. Expo 67 will have two basic goals in mind when its gates open for a six-month run next April 28. First, it wants to be educational — that's the purpose of the national pavilions being put up by nearly 70 participating nations — and second, it wants to be entertaining.

Expo 67 has provided for college students. Its Youth Pavilion, for instance, will offer free cultural, social, and dancing facilities for youths — ages 15 to 30. And then there are the youth rates. An admission ticket — they are known as passports, and designed in that

style — for seven consecutive days is \$12 for adults, \$10 for those aged 13 to 21, and \$6 for those 12 or younger. The season passport will be \$35 for adults, \$30 for those 13 to 21, and \$17.50 for children. For a daily admission, a youth would pay \$2.50, the same as an adult.

# RJR

AN EQUAL OPPORTUNITY EMPLOYER

# Here's your application for the 13th Annual National College Queen Contest

I would like to submit the following name for The National College Queen competition. Kindly mail full details and an official entry blank.

MY NAME \_\_\_\_\_ AGE \_\_\_\_\_  
(or, my candidate's name)

I ATTEND \_\_\_\_\_  
(or, my candidate attends) (name of college or university)

I AM  FRESHMAN  SOPHOMORE  JUNIOR  SENIOR

MY MAILING ADDRESS \_\_\_\_\_  
(or, my candidate's address) (no. and street)  
\_\_\_\_\_  
(city) (state) (zip code)

I obtained this application when it was published in: \_\_\_\_\_  
(write in name of college newspaper in which this application appeared)

If you are nominating someone other than yourself, please sign your name in the space opposite. The entry blank will be mailed to her. \_\_\_\_\_

MAIL THIS APPLICATION TODAY TO: NATIONAL COLLEGE QUEEN CONTEST COMMITTEE  
P.O. Box 935, New York City, N.Y. 10023

Deadline: This newspaper application must be received in New York City within 10 days from the date of this issue.

## You can win more than \$5,000 in prizes and earn recognition for your school.

It's nomination time again! Colleges in all 50 states are nominating their candidates in the 13th Annual National College Queen Contest. And the time is right now—the nominations close soon.

### Send in your name—nominate a friend

Lots of girls send their own names, so don't be shy! Freshmen, Sophomores, Juniors, Seniors—all are eligible. And anyone can make a nomination... campus groups, fraternities, sororities, friends. Just fill out the application blank.

### Not a "Beauty" contest

Those who entered last year will tell you that this is neither a "glamour" nor a "genius" contest. Can-

didates are judged on their all-around abilities... they're questioned on current events, fashion, home economics, career goals and the like.

### 50 state winners

Every state elects its own College Queen in April. As a state winner, you'll come to New York City (all expenses paid) for a 10 day visit and the National Finals. You'll appear on a National Television Special, and attend a reception at the United Nations, theatre trips, backstage visits with Broadway stars, and the formal Coronation Ball.

### More than \$5,000 in prizes

The new National College Queen will tour Europe

from London to Paris to Rome. She'll win a wardrobe of the newest styles, worth \$500—and her own car, a brand new sports convertible. She'll discover America—travelling from New York City to Disneyland, including featured appearances at the Rose Bowl Game and the traditional Tournament of Roses Parade.

### Enter Today

It's easy to enter, fun to nominate. Take a minute right now to fill out the application yourself. And how about your club, fraternity or sorority nominating someone? Remember, this is not a typical "Beauty Contest." It's for the real girl, the all-around girl—it's for you!

## The National College Queen Contest is sponsored by Best Foods:

Makers of: Bisco Milk Amplifier, Best Foods / Hellmann's Real Mayonnaise, Best Foods / Hellmann's Dressings, Kara Corn Syrups, Knorr Soups, Mazola Corn Oil, Mazola Margarine, Nucoa Margarine, Skippy Peanut Butter, Niagara Spray Starch, NuSoft Fabric Softener, Rit Tints and Dyes, Shinola Shoe Polishes and Waxes. Best Foods is a division of the Corn Products Company.

(coupon for bashful girls)
