**Grad Record Examinations Will Be Given January 11th**

"No, the date has not been changed for the administration of the Graduate Record Examinations under the Dispersal Testing Program at A&T State University, Greensboro, North Carolina," replied Mrs. Ruth Gore, director of Testing and Counseling Center.

Mrs. Gore stated that Saturday, January 12, 1968, was the date that was decided on at the time that the overall testing programs on campus were scheduled. This was done during the first week of June, shortly after the close of school.

**Young Pup Was Rented For Homecoming**

Prior to homecoming, a plan was made to each student to contribute something toward the purchase of a young pup. The student responded to this request in large numbers.

The students thought no more about the young pup they were watching, wondering where the dog was kept. However, upon inquiry, it was discovered that the dog used for homecoming was rented.

It is not known what happened to the money that was collected for the purpose of purchasing a young pup. Was it used to rent the dog that was "on display" for homecoming purposes?

These questions should be answered and the students made aware of the response.

**Continental Army Briefing Team To Visit University January 9th**

By ANDRE LENNON

If you would like to be in the know, attend your briefing programs that are being advertised in the Register, many students thought so much about the young pup they were watching. The Continental Army Briefing Team from the Continental Army Command headquarters will visit the University January 9th.

Visiting our campus is a unique opportunity to meet officers who are experts in their field and bring a new perspective to the classroom experience.

The Continental Army Briefing Team will discuss the roles of the Continental Army, the American Revolution, and the impact of the war on modern society. This program is designed to engage all students, regardless of major. The program is scheduled to last approximately 90 minutes and will take place in the Student Union Ballroom at 2:00 PM.

**SCHEDULE OF LYCEUM PROGRAMS**

| JANUARY 8 | Natalie Honduras, Concert Pianist |
| FEBRUARY 16 | Alpha and Omega Players in "Saint Joan" |
| MAY 11 | Freddie Hubbard and His Modern Jazz Orchestra |

---

**Night Courses To Be Offered**

Next semester the School of Engineering will open its doors to the Greensboro Community. Beginning in February, the School will offer night courses to those individuals who would like to add to their technical background and skills, but are discouraged from a full time venture because of family and other commitments. "We are becoming aware of the fact that there are people in the Greensboro area who would like to take the necessary courses but are faced with the requirement of course or personal improvement that is "on course" for homecoming purposes.

Mrs. Gore noted the fact that such students would receive an individual letter stating the time, date, and title of the test.

Also included will be brochures describing the nature and purpose of the examinations. Students will be requested in the letter, to study and make preparations for taking the test.

---

**The Christmas Season: What's The Meaning Of It?**

The Christmas holidays are fast approaching, and already there are those who are anticipating the festivities associated with the Christmas. There will probably be some who are not interested here on campus and elsewhere. At home, we will, more than likely, find the holiday atmosphere which is always characteristic of home.

Christmas is that time of year set aside for the remembrance of the birth of the Messiah. The real message of Christmas is carried in the benevolence of God who has "anointed Jesus of Nazareth, with the Holy Spirit and with power, according to the Holy Ghost of God, in whom the heavens and the earth were made." It is a time of rejoicing and celebration for all who believe in the true meaning of Christmas.

The Boycott
Was It Illogical?

Student Government Association's unprecedented boycott of classes was unreasonable and unproportional, although the complaints, which were compiled during the two-day period, were well founded. All that was obtained could easily have been brought to light by a student committee devoted to compiling students' needs and grievances. The matter concerning the faculty could have long been considered if SGA had created its faculty evaluation committee at the beginning of the year, as it had planned.

Why was not a systematic approach to the seemingly burning problems used? First of all, SGA has few officers and members who can work and think as well as they can talk. Thus, during the past few months the Association has done neither as much as it could. Then, no officer or member has not really had anyone to insure the body of well-planned meetings, which are attended by a sufficient number of representatives to make needed decisions, so that the only thing that could have resulted was frustration.

Second, SGA allowed itself to be propelled along by the general mood of disillusionment across the country. Leading members and officers of SGA know all administrators of the University. They know what administrators will do to avoid outright contention. SGA did not use the channels of redress because logical systematic approaches, seemingly, are becoming out-dated by student disenchantments of our educational institutions.

Following the national trend was illogical because SGA was still failing in presenting to the administration and the faculty, students' needs and problems. In this sense, it was failing the student body, too.

SGA Needs Constitution

By RICHARD T. NEWBER

Earlier this semester, representatives of the Student Government Association went to the Board of Trustees. Since that time, however, nothing has been said about the constitution.

It was noted by a member of the Board that the constitution entitled a tremendous responsibility. However, the Board members seemed to be quite confident that the students were capable of handling their own affairs. In fact, Representative Charles Phillips, one of the trustees, sent each student a letter congratulating him on such a splendid presentation. He further stated: "... It seems to me that you have cut out for yourself a real job, but you indicated that you recognize that fact and can meet the demands that are to be made upon you."

Perhaps these responsibilities were accepted and recognized verbally, but it remains to be seen whether or not they will be carried out. The students who spent their summer working on the revisions for the constitution must feel that their efforts were useless since it has not been adopted or put into action.

As students, we are quick to say that we should be given the right to make our decisions. However, once the privilege is given to us, we seem to shirk the responsibilities, or at least, to not live up to them. If, and only if "the constitution is put into effect will the Student Government regain the faith of the students who are concerned about their welfare on this campus.

Student Continues Gripes
In Portrait Of Institution

By VINCENT S. MCCULLOUGH

The modern institution is now faced with some problems concerning the modernization of an institution. It is a true fact that the modernization of an institution is becoming increasingly difficult because of the student's lack of interest in the institution. A recent survey of student opinion has revealed that only a small percentage of students are interested in the institution's problems. This may be due to the fact that the students are not being properly informed about the institution's problems.

Faculty Should Be More Sincere

Editor of THE REGISTER:
Monday, December 9, Stanley Carmichael, one of the foremost activists of his day, wrote in a 1969 article on the A&T situation in his college history, and even after Stanley's arrival, the number of names that appear on the most memorable page on the campus. Teachers who have used doses of nervine, complained. Some of them have used doses of nervine or more painful than the nerves. One would have expected them, or even thinking at all. And this case has been no different.

Betty Harris

Community Involvement

Editor of THE REGISTER:
Many of us are so busy criticizing without ever being involved in community affairs. I was impressed by a recent article in a Greensboro newspaper and have been talking with several college students and universities who are participating in community programs in Greensboro, particularly through Student Action with Willard's Soup Kitchen. In the past, people have been more involved in community affairs. In the past, people have been more involved in community affairs.

Mabel McCray

Some Lights

Please!

Editor of THE REGISTER:
How it ever occurred to "The Register" to be able to see where they are going? They do not contribute anything to the university. They are not the reasons for this organization. The function of this organization is to provide fellowship for women students. They are not also members of student government. They are not involved in the activities of the university.

Jaunita Bush

Unsuitable Meal Schedule

Editor of THE REGISTER:
The dinner dining hall schedule at A&T is unsuitable for many students. Breakfast is served from 6:00 to 7:00 A.M., and lunch is served from 12:00 to 1:00 P.M. If you were to eat dinner at 6:00 P.M., you would have to go without food for three days a week. Students feel that they are not being fed properly. They must go elsewhere to eat, which is inconvenient and expensive.

Our Priceless Jewel

By FRANCES PARKER AND JASPER WOODS

What goes into the making of a good teacher? Whatever the qualifications, the most important thing is that a teacher be able to relate to her students. It is very difficult to find a teacher who has the ability to understand and anticipate the needs of her students.

Christmas Isnt What It Used To Be

By JOEY FIELDS

Christmas was once symbolic of the pure and peaceful Christmas child. It was a time of giving. A time of family togetherness. What has happened to the Christmas that I once knew?

Remember how jubilant and excited the children were, especially the tip-toed down the steps on Christmas morning to see what Santa had left for them? Today, the average child receives the gift of Christmas every day, so Christmas is just another day.

Whoboles to go Christmas cartoon, restaurant? I can remember the little children going from neighborhood to neighborhood with lighted candles singing familiar carols. Today, it's too dangerous to even be out on the streets after dark without police protection.

Remember how each member of the family took great pride and pleasure in decorating the big evergreen tree? In today's modern homes, it's fashionable to have a smaller tree set in plastic. And in the church, school, or university, a stranger state, and city's Christmas tree is just another day.

The physical aspects of Christmas are gone; the true mental aspects have faded away. Is the whole idea of Christmas becoming old-fashioned? Well, one thing's for certain Christmas isn't what it used to be.

Christmas Carols Are A Twentieth Century Tradition

New York (NAIS) — Called noels in France, as natural in Italy and Wechsfielder in Germany, carols are everywhere the welcome sound of Christmas. Groups of friends and relatives gathered around a piano as they sing Christmas songs are a common annual tradition. Yet few of these who hear and sing these songs know their surprising history — a tale well worth remembering.

When was the first carol sung? According to authorities, carols began in the early church when the Apostle John wrote: "And the Word became flesh and dwelt among us, and we beheld his glory, the glory of the one and only Son, of God, full of grace and truth." This beginning helps us to see the origin of the carol as a Grecian ceremonial in praise of the moon. The carol, however, took on more meaning as the centuries passed. It is said that the first Christmas song was sung in the Middle Ages when groups of people went from house to house to sing for simple food.

By JOEY FIELDS

I pray you masters, be merry, and let us sing and dance. The custom of outdoor carol singing is many hundreds of years old. The Baldwin piano, for example, made its first appearance in 1810. The plate — tone-producing elements — is made of finely ground granite. The Baldwin piano, for example, is one of the finest in the world. The Baldwin piano, for example, is one of the finest in the world.

It is difficult to pinpoint when the first Christmas carol was written. Some authorities believe it was written in only a few hours by a minister as a surprise for his pupils.

Christmas songs are a tradition that has been passed down through generations. The carol is a reminder of the joy and peace that Christmas brings to our lives. It is a time of reflection and remembrance of the true meaning of Christmas.

And I pray you masters, be merry. The custom of outdoor carol singing is many hundreds of years old. The Baldwin piano, for example, was written in only a few hours by a minister as a surprise for his pupils.
We happen to be involved in one of the fastest growing fields in the world—Communications.

And because we also happen to be growing right along with it, we need people who can think for themselves when they are handed responsibility, not become confused by it.

Individuals. The kind of people to whom a challenge is a goad, not an excuse. Who won't be content to just sit around until they get a gold watch and a pension. There's a lot to be done. Interesting, provocative work for almost every kind of engineer and scientist.

For example, in our Applied Research Laboratory, the newest sectors of theoretical and applied research in the areas of mathematics, physics, computer systems, electro-optics, information systems, and operations studies are explored.

Whether you lean toward designing electronic switching systems for our telephone companies or the development of electroluminescent devices for Sylvania, we think we have a place for you.

On one condition.

That there are no strings attached.

General Telephone & Electronics
The flashy flanker, a candi­honors, scored 10 touchdowns to an 8-1 mark for the season. Salem, Pearson led the Aggies Stanley Jacobs. able mention were tackle Les­ter Moore, linebacker Henry ter Moore, a 228-pounder from Bryant, a 228-pounder from Franklin, a native of White Plains, Ga., played in a driving rain. Even with the 81 record (7-1 in CIAA play), Akron dominated Morgan State, a team that had gone 31 games without a loss, and Florida A&M, a team A&T had not faced in 31 years. What can A&T expect from Howell next year? "I really don't know if we can expect the same kind of season next year," he said. "A coaching change brings a change in the game."

NAIA, CIAA Pick Howell As "Coach Of The Year"
The football players called him "Ivan the Terrible." He drove them hard with sprints after practice and, except for a meal a day, he had them in shape for the season. Willie Pearson, A&T's All­CIAA flanker, has been named to the All­State football team picked by the Greensboro Daily News. Pearson was named co­captain of the first unit, along with center Carey Metts of North Carolina State.

Another Aggie, sophomore tackle Dempsey Bryant, was also named to the first team. A&T players earning honor­able mention were tackle Lester Moore, linebacker Henry Hipps, defensive halfback Meri Code, and quarterback Stanley Jacobs.

A senior from Winston­Salem, Pearson led the Aggies to an 8-1 mark for the season. The flashy flanker, a candi­date for Little All-American honors, scored 10 touchdowns and caught 31 passes for 561 yards. He added another 264 yards in 44 rushing plays.

Bryant, a 226-pounder from Cleveland, Ohio, gave an out­standing performance on de­fense for A&T.
