Many of the students left the ROTC program at A&T in search of more efficient officers as well as more popular classmates. Some who stayed in the program continue at this institution because they had already enrolled in the ROTC program and fail to have an interest in the total elimination of the campus.

On the other hand, non-compulsory ROTC has affected the Air Force program. Lt. Col. Graves, professor of Aerospace Studies, indicated only a decrease of 60 men as a result of the non-compulsory restriction. Since 1947, the Army ROTC program has been active at A&T and once it diminishes because of the restriction, the figures show that there are dubious chances of its recovery.

Slices A-ROTC Is Unaffected

Lt. Col. Graves would very much like to see the Army ROTC program continue at this institution. However, there is no chance of lowering the present standards to increase the enrollment once again. Since 1947, the Army ROTC program has been active at A&T and once it diminishes because of the restriction, the figures show that there are dubious chances of its recovery on the campus.

On the other hand, non-compulsory ROTC has affected the Air Force ROTC only slightly. Lt. Col. Robert Bennett, director of Aerospace Studies, indicated only a decrease of 60 men as a result of the non-compulsory restriction. However, the Air Force program is not very popular on campus primarily because of the liberalized policy. A-ROTC has been a considerable decrease if one doesn’t possess an open mind.

By FRANKLIN C. TURNER

Many of the students left the ROTC program, where Lt. Col. Graves, professor of Aerospace Sciences, indicated only a decrease of 60 men as a result of the non-compulsory restriction. Since 1947, the Army ROTC program has been active at A&T and once it diminishes because of the restriction, the figures show that there are dubious chances of its recovery on the campus.

David James Says AROTC Has Improved

Recently 2nd/Lt David James made some interesting remarks about AROTC's ROTC program that should make any Army man take a second look at the possibility of joining the advanced ROTC.

James, who recently received his commission as 2nd/Lt in the U. S. Army, is a political science major and also received his B. S. degree in this capacity.

"Realizing that you have a possible military obligation," James advised, "if you can measure up to the standards, be sure to consider fulfilling those obligations as an officer rather than as a regular enlisted man."

James feels that the quality of the instructor as well as the cadet-instructor relationship has improved tremendously here at A&T.

Better advancement in industry, good experiences, travel, and encouragement from officers in the program are just a few reasons why James finally decided to join the advanced ROTC.

A native of Murfreesboro, Carl J. E. James, and will begin to fulfill his military obligation at Ft. Knox, Kentucky, in March. He plans to attend law school once his military obligation is complete.

David C. James of Murfreesboro, and approval as A&T cool Miss Frankie Fauling, Winnsboro, S. C., pins on second Lieutenant bars. James was commissioned in ceremonies held at A&T last week. He will serve in armor.

A Look At Science And Religion In America

By MARK CAMPBELL

To be a conscientious thinker today, it is interesting to note the great importance of the two almost diametrically opposed. intellectual disciplines have on the life of the average person in America. Are there science and religion.

It is important to note that both are equally important in the daily life of the typical American. Considering this significance, however, it is best not to put science and religion in proper perspective with regard to the American way of life.

What most Americans like to think of as the beginning of American civilization was the landing of the Pilgrims at Plymouth Rock, Nasa, in 1620. The Pilgrims were religious fundamentalist Puritans who were seeking freedom to worship God as they wanted. The Pilgrims set up a theocratic democracy to rule over themselves, and it is important to note that the laws of the civil law that governed them were the ten commandments that were given to Moses on Mount Sinai over three thousand years ago.

The American way of life that the Pilgrims at Plymouth Rock established has continued to evolve as American democracy. What is called the establishment in America or that group in each city and community who controls and manages the political and economic affairs of that community lives by the Biblical 10 Commandments and rigorously enforces them as the de facto basis of civil law for that community.

But, as the American ideal of equality has continued to evolve, the discipline of science has increased so greatly in the past fifty years in the United States that the colony that the Pilgrims originally established has become the most advanced society in the history of world civilization, because of its scientific and technological achievements. Yet, this same science that has made the U. S. of America the world's richest, most powerful society with its military rule over half of the world's three billion people, respects the very law that forms the basis for this society as unscientific mythology.

Some may say this situation is dilemma, but it is self-evident that a nation which prides "In God We Trust" on its monetary currency and requires its leading citizens to be orthodox Christians must find a way to reconcile this scientific discipline which has given it the highest standard of living the world has ever known and the civil law as expressed in the 10 Commandments which governs that living.

An Equal Opportunity Employer
The Lovely Story Of Valentine’s Day

New York (NAPS) — Cynical bachelors and little boys aren’t the only ones who think Valentine’s Day is for the birds — even romantics thought so.

In fact, at one time nearly everyone believed that February 14 was the day most birds mated. And though fact proved fancy 14 was the day most birds mated. (Even so, that didn’t stop enthusiasts, who must have become your loved, one for the year — same true. So heartache or aggravation for them.

Nor for the women, who like one 19th century lady, “lay in bed and shut my eyes all morning until he came up with these two amusing come true. No heartache for the inartistic competitors, but a burden to the mailman — nearly 18th century lady, “lay in bed and shut my eyes all morning until he came up with these two amusing

And since neither mail service nor envelopes existed, “captured” hearts began penning and decorating cards, some so elegant and beautiful, they are virtually museum pieces today.

But you probably don’t remember a 19th century game called “Progressive Proposals”, where young girls at Valentine’s Day parties proposed to each boy in the room. The boys rewarded the offer with either a heart or a kiss! The latter being an acceptance, the former a rejection. When the piece was over the girl with the most hearts won a prize, and the girl with the most nutshells got — warm hands.

The Navy's Corporate Laboratory—NRL is engaged in research embracing practically all branches of physical and engineering science and covering the entire range from basic investigation of fundamental problems to applied and developmental research.

Naval Research Laboratory WASHINGTON, D.C.

As an Equal Opportunity Employer

The Laboratory has a continuing need for scientists, engineers, and technicians in all fields of physical and engineering science.

Candidates for positions must have earned a bachelor’s degree in any of the fields of science and engineering, and should have had at least two years of experience or the equivalent in work of a character directly connected with the work to be done.

To apply, write: Personnel Office (Code 181S-1), Naval Research Laboratory, Washington, D.C. 20390.
Go Home, Willie; Go Home Or Shut Up!

Willie Drake and his fellow SGA members must not be allowed to speak for the student body of this University again. These students, who claim to be advocates of quality education, have not only failed to represent 95% of the students here, but they have brought shame and disgrace to the entire student body. This must be the end to Drake’s and his blind followers’ indecent acts. Students must say to them openly, go home or shut-up; and he still, less silence will go as consent. Student leaders, who seek reform with such limited insight, are not needed in these capacities and must be made to feel so.

The agreements reached by the Faculty Senate and SGA members prove how misguided the vice-president is, on seeking solutions to grievances set forth by students. For instance, seniors will be permitted to add courses and must be made to feel so.

Everyone knows that there are problems here, but the simple approaches of Willie Drake’s by-pass the best solutions. After nearly four years, is the best that he can do is to make hasty demands and lead a disorganized sit-in? The average person can reason and judge rightly if given access to the facts:

Has SGA failed in this area?

Think, black students, for every one! The universality of problems and grievances is rare in any social setting. Don’t be so quickly influenced by the thinking of others. We have worked hard thus far to establish our present institution. Let’s try for a better institution with less extremism and more brotherly love in our hearts. The grievances put forth by the SGA are desirable; however, let us as students accept some responsibility and show we are capable of good leadership. Can we project all our shortcomings to the President and the SGA? How will we blame after we leave SGA? Let’s be wise and work to evaluate ourselves and obtain a philosophy which we will be able to make progress where progress can be made instead of defeat. We as students should support SGA, but only as a governing body which displays insight and thorough organization before initiating a plan. The SGA has not had your interest in mind by making quick decisions and acting without consideration of the best possible means to achieve these priorities that are the most effective ways to deal with the system.

Establishment of priorities and consideration of the best possible means to achieve these priorities are the most effective ways to deal with the system.

Do We Need This Type?

(EDITOR’S NOTE: THE A&T REGISTER reprints this article from the STUDENT VETERANS ASSOCIATION’S NEWSLETTER. IT REPRESENTS AN END TO THE STUDENT BODY’S RESPONSE-TOE THE SGA’S ACTIONS.)

SGA governs by emotions, and is changeable and unpredictable. The change price tag can rebound and judge rightly if given access to the facts:

Has SGA failed in this area?

Think, black students, for every one! The universality of problems and grievances is rare in any social setting. Don’t be so quickly influenced by the thinking of others. We have worked hard thus far to establish our present institution. Let’s try for a better institution with less extremism and more brotherly love in our hearts. The grievances put forth by the SGA are desirable; however, let us as students accept some responsibility and show we are capable of good leadership. Can we project all our shortcomings to the President and the SGA? How will we blame after we leave SGA? Let’s be wise and work to evaluate ourselves and obtain a philosophy which we will be able to make progress where progress can be made instead of defeat. We as students should support SGA, but only as a governing body which displays insight and thorough organization before initiating a plan. The SGA has not had your interest in mind by making quick decisions and acting without consideration of the best possible means to achieve these priorities that are the most effective ways to deal with the system.

Establishment of priorities and consideration of the best possible means to achieve these priorities are the most effective ways to deal with the system.

Are the actions of the SGA a representation of the student body?

Does the SGA represent you? (Is the language of the SGA representative of that of intelligent leadership? How much insight and thought do you think the SGA places on the decisions that affect you and your education?)

What kind of decisions do you think a person who does not have a commitment to the English language makes when it comes to consideration of benefit to the student?

Who is making the decision that is affecting your academic progress?

In the President of the Student Government a stable individual who has the interest of the entire student body in consideration?

What type of leaders do we have who cannot control situations after they have made decisions?

Do we need this type of leadership?

The President of the SGA should explain some of his actions to you, don’t you think? Let’s all deliberate speed to eliminate unnecessary disruption. Our representatives and government leaders to make decisions in hasty manners.

Let’s find out what is making the SGA function as it does. The black man wanted integration and it was only used as a tool to hemlock him. The Anti-Riot Bill recently passed by Congress is a means to silence those who have been active in protest movements. Spend some time and read about Operation Dragout. Some people want complete segregation from the so-called white people, others want to stay in and fight the system. If you destroy the entire system, where do you go from there? Some advocates going back to Africa. What will that accomplish? Then you have to fight power in many of the black organizations. Everyone wants to be a leader and no one wants to follow.Think students! Think! Education is the key that will help you understand what you mean when you say “I’m Black and I’m Proud!” Beyond the above paragraph and it will not be difficult for you to see how close you are to slavery in the twentieth century.

Every organization or institution has a system and a chain of command. Our representatives and leaders are not representing the students in an effective manner. It’s time for the Student Government Association to start establishing some justification for their personal attitudes which are affecting the entire student body. Students, let’s re-evaluate these officers and find out if they are the true leaders we need. Who have been active in protest movements? What type of people we want to represent us... if not, let’s act with all deliberate speed to eliminate those who have unwise attitudes positions to express personal attitudes at the expense of the entire student body.
Choir Returns After Southern Tour

GEORGE ADAMS
Staff Writer

The A&T State University Choir has returned from its Southern Tour. The choir departed from Greensboro to Dayton Beach, Florida. The members spent three weeks at the Black Hawk Baptist Church in Chester, S.C. and then went to Sumter, C. S. and Cheraw, S. C. at Morris County College and Long High School, respectively. Upon their return, they played a concert at the Magnolia High School in Gresham. They also played at the Carver Hall Conference Room in Chapel Hill. Then the choir went to the town that was known in making a name for itself and where Eisenhower used to tee-off, Augusta, Georgia. Their concert in Augusta was under the auspices of Mr. A. Reese.

Six Flags To Hold Auditions

Six Flags Over Georgia Live Show Department will hold a talent audition Monday, February 24, at 3:30 P.M. and until mid-opening of holy Saturday, when the penal period is officially ended. The singers again returned to South Carolina to harmonize at Six Flags.

Fashions: The Jersey Is Popular; Going Back To The 30's

By PAMELA JO WALL

The fabulously new clinging jersey suit really shows off the top look of this season which originally was derived from the popular sheath and shirter look at the 1930's. The jersey suit's clinging quality enables it to have that feminine close-to-the-body fit and yet it is bone and swing with the active girl-of-today's every movement. Jersey is popular in all categories of clothing this season, whether it is a leaping outfit, a pastel suit or a dress suit. These are permanent positions that offer high professional challenge and the benefits of career Federal employment. Starting salaries are attractive and opportunity for advancement is excellent.

A&T Gets $113,000 in Grants
For Two Summer Institutes

A&T State University this week received two federal grants totaling over $100,000 for institutes to be held at the University next summer.

Dr. Lewis C. Dowdy, president, announced that the National Science Foundation has awarded $72,000 for an institute of high school biology teachers and $32,000 for an institute in linguistics.

Dr. Artis P. Graves, chairman of the Department of Biology, will be open to persons with three years of teaching experience. Teachers who attend the institute for three consecutive summers will be eligible to earn the master of science degree in education with a concentration in biology.

"The aims of the institute," said Dr. Dowdy, "will be to strengthen and enrich the subject matter background of these high school teachers so they can inspire their students."

The second federal grant, received by A&T, was $41,000 from the Department of Health, Education and Welfare for a summer NDEA institute in linguistics. This program will be open to college teachers, supervisors, and other persons who are involved in teaching high school teachers.

Directing the institute in linguistics will be Dr. Norman E. Beckard, professor of English. The institute program will deal with the application of linguistics to the teaching of grammar, composition, reading, speech, and literature.

Your Opinion May Be Worth $500
In "Silver Opinion Competition"

During the months of February and March, Reed and Barton, America's oldest major silver manufacturers are conducting a "Silver Opinion Competition," in which valuable scholarships and prizes are being offered to only enrolled students in a selected colleges and universities.

A&T State University has been selected to enter this Competition in which the First Grand Award is a $1,000 scholarship; Second Grand Award is $800 scholarship; Third Grand Award is a $500 scholarship; Fourth, Fifth and Sixth Awards are $100 scholarships; and Seventh, Eighth, Ninth, Tenth, and Eleventh schol­arships are $50 scholarships. In addition, there will be 1000 cash awards consisting of sterling silver, fine china and crystal with a retail value of approximately $75.00.

In the 1969 "Silver Opinion Com­petition," in an entry form illustrated, twelve designer's of sterling silver designs of both chairs and crystal. The contest simply list the three best combinations of sterling silver, fine china and crystal from the patterns illustrated. Schol­arships and awards will be made to those entries matching or coming closest to the unanimous selections of Table-setting editors from three of the nation's leading magazines. Linda Hairston is the Student Representative who is conducting the "Silver Opinion Competition" for Reed and Barton at A&T State University. Those interested in entering the "Silver Opinion Com­petition" should contact Linda Hairston at 36 Morrison Hall for entry blanks and for complete de­tails concerning the Competition rules. She also has samples of 12 of the most popular Reed and Barton designs so that entrants can see how these sterling patterns actually look.

Through the opinions on silver designs expressed by college women competitors for these scholarships Reed and Barton hopes to compile a valuable library of expressions of young American taste.

Summer Job
Directory Is Now Available

The new edition of the 1969 annual edition of SUMMER JOBS, the largest and most comprehensive listing of actual summer jobs, com­pressed projects, awards, internships and permanent jobs is now available. This unique DIRECTORY has been completely revised and updated for each year by over 100 colleges and copies can be examined at most University Placement or Dean's office, college libraries, public libraries, school editors, and high school superintendents' offices, and U.S. Employment office. The unique DIRECTORY, completely revised and updated every year, is for anyone who is seeking summer jobs, especially college stu­dents, teachers, professors, librarians who need summer jobs, etc. Jobs for which high school students also apply are clearly indicated. Some of the over 50,000 unusual summer earning opportunities loc­ated throughout the United States and over 26 foreign countries in­clude the following: summer jobs in Den­mark, France and Spain, fruit picking in England, hotel work in Germany, and Latin America. This year's DIRECTORY offers many special student training programs and over 7,000 permanent openings in hundreds of firms with American Potash and Chemical Corp., Bendix Corp., ITT Semiconductors, P. I. DuPont De Nemours and Co., Gillette Safety Razor Co., Emery Wash Keokuck Com­pany, Xerox Corp, Kendall Refin­ing Co., Leopold, Inc., and the Green Giant Company. In addition to thousands of summer camp jobs throughout the United States and Canada, follow

Veterans' Questions Get Answers

Q: For some time I have had the Veterans Administration retain my G.I. insurance dividends, but I just got a letter saying I should apply for reinstatement of my policy. I know that I have enough dividends to cover the premium due. What happened?

A: With your present option, the dividends you have left on deposit with VA are to be drawn on in the event that you have to pay the insurance premiums in advance, as they accrue. You will be furnished a statement each time dividends are applied toward payment of any G.I. insurance premiums. I am told that my non-service-connected pension payment will be increased soon. When will I receive my increased payment?

A: The VA non-service-connected pension program was restructured effective January 1, 1969. Approximately 1.3 million beneficiaries under this program will receive increased pension payments at the end of the fiscal year. These increased payments also went into effect January 1, so if you qualify for an increase, you should receive your higher pension check around February 1.

College Student Poetry Anthology

THE NATURAL POETRY PRESS announces its
Spring Competition

The closing date for the submission of manuscripts by College Students is
April 10

Any student attending either junior or senior college is eligible to submit his verse. There is no limitation as to form or theme. Short works are preferred by the Board of Judges, because of space limitations.

Each poem must be TYPED or PRINTED on a separate sheet, and must bear the NAME and HOME ADDRESS of the student, and the COLLEGE ADDRESS as well.

MANUSCRIPTS should be sent to the OFFICE OF THE PRESS
NATURAL POETRY PRESS
3210 Shelby Avenue
Los Angeles, Calif. 90034

How to Recognize a Real Wrangler.

You have to look for the “W” because it’s plain.

Most Wrangler® jeans have the “W” stitched on in plain sight, but other kinds of Wranglers are a little more modest. They’re made just as well and they fit just as well, but the “W” is tucked away on a tag or label. You’ll find it’s worth looking for.

These Wrangler® jeans and sportswear of Dacron® polyester and cotton. Permanently creased shirt slacks, $5.00. Jacket, $7.00. Sport shirt, $4.50 each. Tapered, permanently pressed jeans, $5.25.

Wrangler® Jeans and Sportswear with Dacron®.

Aggies Thump JCS “Bulls” And TC “Rams”

The ever-potent Aggies rang up two more thrilling and enjoyable victories as they outlasted the Golden Bulls from John

sen 2.4, 295-190, and soundly licked the ever dan­

gerous Winston-Salem Rams 85-69'. The two victories gave the Aggies an unassailable 2-1 record in the Carolina Intercol­

legiate Athletic Association. However, victory number 12 really was a shocker to many fans.

With the Rams ratings coming to town with an average national ranking of A&T, 132, nearly everyone figured A&T would just breeze past them. In never happen­

ed fashion, from the beginning the game was nip and tuck with the 7-5 holding 2 to 1 point leads period­

ically. However, with Smith holding up so well and finally playing even, for the first 11 minutes, Coach Irvin inserted Lawrence Jones, and right away the pace picked up. With his ball-handling ability and scoring prowess the played, A&T leaped to its biggest lead of the night as late as 42-34. However, this was a night Smith was not to be denied, as they con­

tinued to tuck in buckets one after another. It seemed almost as if Aggies didn't mind either as they strode up and down the court right along with them, over 90% of their shots, as did Smith. At the end of the half, the two teams were all even, 50-50; and Dunn's 12 straight points proved to be ab­

solutely essential. To show how the half really was beginning for theAggies ahead for good. Charles Green was top point maker with 23 (1 below his average), and Elmer Austin the only one in double figures, with Smith holding the upper hand.

However, this was a night Smith was not to be denied, as they con­

solutely essential. To show how the half really was beginning for theAggies ahead for good. Charles Green was top point maker with 23 (1 below his average), and Elmer Austin the only one in double figures, with Smith holding the upper hand.

Then Lonnie Kluttz entered and on, with Bill English and his smooth ball-handling and 4 quick points sparked the Aggies and, off and running again. Another spurt and quickly got their biggest lead of the half at 68-59. Down the stretch, Green, who had a hot hand almost the entire night, kept piling them in and Cherry and Smith by his own account had an off night dropped in 13 during this time. Still the same wasn't decided until some last minute heroics by Tom Blackmon finally put the Aggies ahead for good, Charles Green was top point maker with 23 (1 below his average), and Elmer Austin the only one in double figures, with Smith holding the upper hand.

Summer Job

(SUMMER OPPORTUNITIES for TEEN-AGERS which provides surprising, rewarding opportunities for employment, educational advancement and social service throughout the country)

Many branches of the U. S. Gov­

ernment throughout the country include the Bureau of Land Management, U. S. Naval Research Laboratories, Atomic Power Ground, U. S. Atomic Energy Commission, The National Science Foundation, have requested their special opportunities included. There are also jobs for the middle-graded with the Air Force Missile Complex and the White Sands Missile Range.

All openings have been submit­

ted directly to the limitations for pub­

lication and include specific job descriptions, dates of employment, necessary qualifications, number of openings, salaries, and the named and addresses of personnel directors and employers. Helpful information is also given on how to apply for the various positions that are seeking.

The SUMMER OPPORTUNITIES DIRECTORY is a companion guide for another companion guide, SUMMER OPPORTUNITIES for YOUTH by the Libraries which provides comprehensive listings worldwide with authoritative information on them and includes the names and addresses of all the individuals, businesses, and organizations offering opportunities for employment, educational advancement and social service throughout the country.

The annual SUMMER JOB DIR­

ECTORY can be obtained direct­

ly from the ADVANCEMENT AND PLACEMENT INSTITUTE, 10 North 9th Street, Brooklyn, N. Y. 11231 for $6.00. The INSTITUTE has been a vocational information and advisory service since 1952.

In a couple of months, you've got a date with the big, wide world.

What are you doing next

Interview Date February 19

We're Avco Lycoming. We're scouting for engineers, technicians, and other potential leaders in the engine industry. We're looking for bright, ambitious young men and women. We're interested in your education, your goals, and your aspirations. We believe in giving our employees the best possible training and development, so that you can reach your full potential. We also believe in providing a challenging work environment where you can learn and grow. We offer competitive salaries, comprehensive benefits, and opportunities for advancement. If you're interested in a career with us, please contact us for more information. We look forward to hearing from you.

We're a company with extra benefits like nothing you've ever seen. We could string them out in this ad, but there'd be scant room left.

We'll be interviewing on campus. Check the Placement Office for the exact time and location. And in case you can't make the date, take note of this: write College Relations Coordinator, Dept. 195, Avco Lycoming Division, Stratford, Connecticut.

We'll open up that big, wide world.
