Is ItLiteral Fact Or Fiction?
By MARK D. CAMPBELL

In a previous article this writer discussed the disciplines of science and religion and the great influence that they exert on the life of

New Cafeteria
To Be Built
Says Prexy
By BARBARA M. JOYNER

"Our request for $6 million for a new cafeteria has been approv-
ed," These were the words of President L. C. Dowdy at his Monthly Chat with the presidents and vice-presidents of all student organiza-tions held February 10 in the Memorial Union Ball-room.

The location for the cafeteria has not yet been decided. Dr. Dowdy asked that members of the Assem-bly of Organizational Presi-dents and his other staff volun-teer to serve on a committee to decide on the location and type of cafe-te-ria wanted. The new cafeteria will serve up to 4,000 students. It is estimated that it will take fifteen months to complete the cafeteria beginning from the time that the architect and committee have de-cided where it is to be constructed.

Any students who would like to serve on the committee may sign up at the President's office.

It was stated that Graham Hall will be renovated and made a part of the School of Engineering. It will have a complete Computer Center with the equipment on campus. This would make possible the use of the computers by remote-control.

The Laboratory has a continuing need for pointees, who must be U.S. citizens, receive financial assistance and receive training and experience in many branches of the physical and engineering sciences.

The Naval Research Laboratory is an Equal Opportunity Employer.

The Laboratory has a continuing need for physicists, chemists, metallurgists, radio-technicians, oceanographers and engineers (electronic, electrical, and mechanical). Applicants, who must be U.S. citizens, receive competitive salaries and benefits.

International Placement Guide
For Educators Now Available

Now is the best time to begin
application procedures for foreign education positions. Many educators wait until it is too late to investi-gate the opportunities available to them overseas. As a result, they often have to wait an entire extra year in order to be accepted for a foreign assignment.

The Advancement and Placement Institute urges all American educators who are able to do so to take advantage of the many opportunities to teach in foreign lands both for the contributions they can make in interpreting our country abroad and for the enriching experiences in international understanding they can bring to our stu-dents in this country upon their return to the schools of the United States.

The Institute, a non-commercial professional information and ad-visory service for the field of edu-cation, has been publishing for

SIGNATURES, POSITIONS AND INSTITUTIONS NOT AVAILABLE.
Mankind passes through the same stages of growth as the individual: infancy, childhood, adolescence and maturity. Today mankind is in the turmoil of adolescence. By the year 2000, the political peace will be established and then the stage of maturity will dawn.

This is the Way It Is

By SYDNEY HARRIS

Editor's note: This article was taken from the GREENSBORO DAILY NEWS.

A note for a new commencement speech.

There are three ways to be young and two of them are dumb. The first way is to be young — simple — trusting, accepting, believing, hoping, along with the crowd.

The second way is to be young — cynical — doubting, resisting, despising whatever the majority does or thinks as sane. This way to be young is the only smart way — and, the one way the fist is a combination of the other two ways.

And this is to be trusting when young, and cynical when they are older. You should accept what has to be accepted, and reject what ought to be rejected.

To go along when it doesn't matter much, and to stand alone when it does.

To be young — simple today is to be a sap. To be young — cynical is to be a sicker for cracks and cracks and cracks of all sorts.

This is the way it is, baby — a mixed-up world of black and white and gray. With phonies on both sides of the fence — on the Establishment side and on the Rebel side. With those who talk like leaders and bozos of foolishness, and huge globs of indifference between them.

How do you know when to trust, and when to go double, when to accept and when to reject?

You know in two ways — by looking into yourself, and by looking outward, comparing and contrasting on yourself, you're a fool if you can't.

If you concentrate on the world, you're wrong. It's that simple. And that hard.

Life is, if anything, the art of compromise and indistinguishable of choosing between microscopically different, yet related things.

You must choose. But there are no certainties in choosing, for the alternatives are never black and white and gray.

You must choose, and that means you must live. And you must live, and that means you must learn. And you must learn, and that means you must grow.

Do not be confused — for many of the things you learned were wrong.

And this is to be trusting when young, and cynical when they are older. You should accept what has to be accepted, and reject what ought to be rejected.
In the United States, universities are largely sources of honest criticism and broad vision by which the society might be served. Beck observed. "In fact, universities are largely sources of the means of oppression and neglect for the further demilitarization of people who are expected to fill the positions of leaders in society.

Change is "imperative and urgent." Beck said, although he doesn't believe it is justification for some of the tactics used.

Both groups are obligated to consider the issue as it relates to Beck. He believes, "We cannot hide behind procedural rules." His inclination is strongly to nonviolent resistance and protest.

WHAT KIND OF PROTEST IS BEST?

PROTEST — ACTION

(ACP) — The Henderson Oracle, Henderson State College, Arkadelphia, Ark. Protest through respectability is the best way to express opinions. This can be done at the on-campus table by "peaceful protest." Beck suggested an editorial in the Henderson Oracle.

Admittedly this is difficult to accomplish because neither students nor administrators realize the need for it.

However, it is much better than violence or "that other kind of protest often faced by a small college — Apathy." Apathy is the most dangerous threat faced by a college. It is as the most dangerous threat in the development of any small and insignificant position.

Only responsible student action can combat this threat. The students should take the lead in the situation. This can be done by a protest of this nature. The protest will issue legal notice to the group and the school.

STUDENTS SHOULD HAVE VOICE

Student Energy And Talent Must Be Channeled

Dr. Butler lists the following conclusions reached in dealing with campus protest: 1. Security plans should be developed by each institution for many possible protest situations as can be anticipated. 2. Many universities will be required to return to city and state police protection when rioting, violence and disruption occur. Unfortunately the press, radio, and televisiondo tend to exaggerate campus problems and issues. Students will continue to take advantage of the mass communications media to promote their causes. 3. Universities must update as quickly as possible their campus rules and regulations in association with legal counsel. Such matters as due process in disciplinary procedures, rules governing demonstration, searches of students, seizures of handbooks and student organization or any other campus group, should be mutually agreed upon. 4. Greater effort must be put forth by the colleges and universities to develop a meaningful program for handling community problems being faced by large institutions. Moreover, universities must redouble their efforts to transfer students from every segment of our society where intellectual talent appears. 5. Universities in the past have been both educational and equitable institutions. They have been expected to do both and some perceive to be responsible for each student's personal conduct — specifically, conduct involving drinking and sex. However, research shows that college drinking problems are really not different from the drinking problems of the community at large and, generally speaking, the sexual behavior of students is better than that of the community. Consequently, I feel that we need to move away from the provincial sexual role as rapidly as possible. 6. We need to find ways to "personalize" as much as possible human relationships within the total university community. This would include not only students, faculty and administrators, but staff members as well — secretaries, clerks, campus police, janitors — all who work within the academic community. 7. We certainly need more research on the impact that college life has on the development of students' personalities. Little clinical research has been done in this area. 8. Students need to be more meaningfully involved in the operating government of their universities. Last year, at a midwestern University with an enrollment of 75,000 it was reported that only 158 students were appointed to University committees. Compare this with the University of Maine where we had 2,130 students sitting on 7 committees. For enrollment was 10,000 students. 9. Problems of the new generation will not be resolved by force, or by overreacting. The new radical left should not be deprecated, nor student behavior with rules and regulations alone. 10. Greater effort must be put into the development of a new society at the University of Miami, where intellectual talent appears. Can we of the older generation be flexible, creative and adaptable enough to respond to the challenges of our youth who represent the new generation? 11. Due process in disciplinary matters should not be viewed as necessary to protect the rights of the community. The new radical left should be viewed as necessarily bringing about the student leadership of the future. 12. Yet, Dr. Rober concludes: "If the classroom is a place where important matters are discussed or where the search for values goes forward, so too must the campus be. The two must, in fact, be one, demonstrating a consistent relationship that is close to the student."

Colleges and universities must opt for a program of student involvement. As so aptly stated in the report, "We must all learn to listen attentively to what our young people are telling us. We must listen carefully to their views, have regard for their feelings, and do our best to understand their attitudes. We all know that we cannot, control student behavior with rules and regulations alone."

"The real task is to direct student efforts in a meaningful, constructive, and creative way. The idealism of our young people should not be deprecated; nor should young campus be crushed. Their energy should certainly be directed toward social reform, but along pathways which are socially and politically acceptable."

"And educators we must channel the talents of students along lines compatible with the values stated by our founding fathers. This, then, is our challenge. Can we of the older generation be flexible, creative and adaptable enough to respond to the challenges of our youth who represent the new generation?"

COLLEGE REVUE AUDITIONS FOR SIX FLAGS OVER GEORGIA

If you're a singer, dancer, musician, have an act or a performance of any sort — come try out! This could be your big year . . . at Six Flags Over Georgia.

This great Atlanta family amusement center needs fresh new singers, dancers, novelty quartets and trios, individual talent for the Crystal Palace, and strolling entertainers. You'll work for a full season at a minimum of $2000 per week, under top-notch production direction — a great chance, a great season, great fun. Hordes of thousands of people see these shows every week. So why not play in your show — show your skills? Who knows, when the next star is born, it might be you. Sort out no instrumental groups needed this season.

Singers, record players, and tape recorders will be provided at each audition session. Auditions for persons 16 years and older.

Monday, February 24, 3:30 P.M. / Carolina Inn, Pine Room / Campus of University of North Carolina / West Cameron Avenue / Chapel Hill, North Carolina.
Men's Week
Is Planned
For March 9-16

Harold B. Glover, president of the Men's Council, announced last week in a meeting with their Executive Council that we will be observing Men's Week here at the University March 9-16. To reach more students on campus, especially its members, the organization has scheduled its events over an entire week, which is integrated with the activities of other organizations on campus.

The University Male Singers will give the week a kick-off on Sunday, March 9, at 6:00 P.M. in Harrison Auditorium with their Annual Spring Concert. The Male Singers' organization, under the direction of Dr. Howard T. Pearsall, plays a vital role to the male populous of the Student Union with their offerings of live entertainment.

During the week of March 9, arrangements have been made to bring to the campus, "The Split," starring Jim Brown and Diahann Carroll, and "Chamber of Horrors" starring Patricia O'Neal and Suzy Parker, to the members of the Men's Council and her guests.

To enhance student relation between our University and other Black colleges along the Atlantic Seaboard, representatives from the following schools have been invited to share in the finale of Men's Week Activities: Morehouse and Clark College of Atlanta, Georgia; Johnson C. Smith University, Charlotte; Winston-Salem State College, Winston-Salem; North Carolina College of Durham; Hampton Institute, Virginia; Norfolk State College, Virginia; Morgan State College, Baltimore, Maryland, and Howard University, Washington, D.C.

Closing activities will consist of the Annual Men's Council Ball and Coronation Ceremonies for Miss Men's Council and her Court in the Memorial Union at 9:00 P.M. on Saturday, March 15. Also, during that Saturday will be a luncheon Sunday, March 16.

Sure, Sun Oil Company needs a lot more people in Exploration, Production, Manufacturing, Research, Engineering, Sales, Accounting, Economics and Computer Operations. But there are unusual attractions. Besides excellent pay, generous stock plan, and especially good and economical living conditions in the Philadelphia, Toledo and Dallas areas, Sunoco is an exciting company to work for.

This is the company that is pioneering with Great Canadian Oil Sands Ltd., the famed Alkali Lake oil sands project in Northern Alberta—a $500 million project that can multiply the world's petroleum resources. Also—that sponsors "Sunoco Specials" and the Penske/Donohue team in major auto racing championship to competition-prove and develop Sunoco products for the public; that is planning a new $125 million processing facility in Puerto Rico; expands its Toledo Refinery to the tune of $50 million; pursues a continuing program for air and water pollution control; beautifies Sunoco service stations throughout the land; and recently broke through the billion dollar a year barrier in sales! Sound interesting? Sun is geared for growth. Perhaps we could use you.

Write us for an appointment, write for our book "Sunoco Career Opportunities Guide," or contact your College Placement Director to see Sun's representative when on campus. Sun Oil Company, Industrial Relations Representative; call 10:00 P.M. in Harrison Auditorium.

A reception will follow the Address in the Basement Lounge of Cooper Hall.

Hey, that's our job! ... and unless somebody is trying to tell us something, we don't think we're doing too badly.

Aggies Subdued By Elizabeth City

BY PAUL JONES
Sports Editor

Seemingly inexorable Elizabeth City, which made a quick getaway to wrap up the CIAA Validation title last Saturday, had the Aggies holding on for dear life Tuesday night. The Vikings handed the Aggies their second loss of the season by a 20-point margin.

But the Aggies would not go down without a fight. They took the lead again for good on the next play, an A&T player at the end of the shot clock was called for holding Oliver to the tune of 16 seconds, but relinquished it as time ticked away until A&T took the lead again for good. Giving into the closing minutes, A&T had a 20-point lead that allowed them to defeat the Aggies in Cartoon City.

A comeback attempt by the Aggies was not enough as EC went into the lead which it never relinquished. Vernon Walker went up for a short and the Vikings retired to the half. The game with Fayetteville State, which was preceded to the Aggies, was a thriller too as the Bronchos were attempting to make their attacks known. The Bronchos five opened up hot and were leading by as many as eight points in the first half. But after a revamped Aggie attack put the damper on the Broncho lead, sparked by eight big points by Vernon Walker and a steal by the Aggies, the contest was tied and a steal by the Aggies made the easy layup.

The game was played with a sense of involvement. The Aggies fans who witnessed the spectacle in hopes that A&T would avenge its only loss against the Aggies, who led the game in rebounding from its only contest. Both losses have been thoroughly disappointing as A&T fell victim again to its only contest.
