McSwain: SSL New President

Lawrence Calvin McSwain, the first black student ever elected to head the North Carolina Student Legislature, said his election to the post came as a complete surprise. He was completely surprised," said McSwain, "because both of the white candidates were strong. I am happy because this is the first student group of any size in the nation to elect a black president.

McSwain, a native of Kings Mountain, won the post on the second balloting. His election followed a refusal by the A&T delegation to share with East Carolina University an award for the best large delegation at the conference.

Willie Drake, chairman of the A&T group, said the joint award represented "tokenism." McSwain is a graduate of Conk­art High School, Kings Mountain, and has served for three years in the 82nd Airborne Division. He is also represented "tokenism." McSwain, a native of Kings Mountain, won the post on the second balloting.

His election followed a refusal by the A&T delegation to share with East Carolina University an award for the best large delegation at the conference.

McSwain is a political science major and plans to attend law school following graduation.

The student legislature, composed of some 240 delegates from North Carolina colleges and universities, elected Saturday evening, controversial congressional bills at the adopt all of their legislature's bills. This was opposed by A&T which would establish an A&T in the secondary school system.

Other bills which passed inclusions.

A bill introduced by Greenboro child by drink. A bill to legalize the sale and consumption of alcoholic beverages on state-supported campuses, sponsored by East Carolina University and passed in the second ballot.

Racist Exposure In U. S.

By HILLIARD B. HINES, JR.

James Farmer, who will assume duties as assistant secretary of the Department of Health, Education, and Welfare on April 1, spoke to the students at the conference.

"I was completely surprised," said McSwain, "because both of the white candidates were strong. I am happy because this is the first student group of any size in the nation to elect a black president.

Lawrence Calvin McSwain, the newly elected President of N. C. State Student Legislature.

University Should Benefit From Student Involvement

By DAVID LEE BROWN

The Seventy-Seventh Founder's Day Convocation was held in Charles Moore Gymnasium Thursday, March 9. President Lawrence C. Dowdy delivered the address.

Drake exclaimed that it was not for the benefit of preserving because two land-grant institutions had to be established in our own country." This reference was made to the nature of the establishment of the A. and M. College for the Colored Race in 1891.

Drake exclaimed that it was not because the students have used all of the changes and activities that he wants to carry out.

In answer to the question of exactly what he did advocate, Drake said, "I guess the main difference in my philosophy and that of the other student government leaders is that they believe in going to meetings and I believe in action." Drake is not necessarily an advocate of violence, but admits that he feels it might eventually take a day more school segregation than there was a decade or so ago. Farmers have been known to carry band on his arm indicating that he is a full-time "disciple" of "The Righteous had to be established in our own country." This reference was made to the nature of the establishment of the A. and M. College for the Colored Race in 1891.

Students Will Participate In Games At Emory U.

By BARBARA JOYNER

AggiesChester Dixon of Bur­rington, John A. Marshall of Choc­rook, S. C. and Eddie Mills of Soprona, S. La., were among two classmates of students from 10 college­­es, who will be in Atlanta Georgia March 6-8 to make man­agement decisions in the Fourth Annual Intercollegiate Business Game and Conference at Emory University.

The idea of the conference is to allow students the opportunity to make business decisions in a simulated business environment where they establish corporations, operate and determine how firm assets shall be dis­­-porations, operate and determine.

Back Home

The University Placement office has announced that it will bring a number of A&T's gradu­­ates back here to participate in the "New Career Opportunities Program," which is sponsored by College Placement Services, Inc., is scheduled for March 25, 36, and 27.

The purpose of the New Career Opportunities Program is "to bring young black graduates of traditionally Negro colleges back to their alma mater and to give them graduate maximum exposure to students and faculty members in order that an exchange of information about the accessibility of new career fields can take place."

Harold Laster, assistant placement manager, says faculty members and administrators are subject to participate in the planning of the program so that it will be suitable to the entire University. Laster is also consultant for A&J, C. Smith University, and S. St. College.

James Farmer

(CONTINUED FROM PAGE 1)

develop this respect for him?

Farmer emphasized that there is no difference between black studies in America, for white students as well as black students.

He urged black people, "Be what you are, remember who you are."

In closing, Farmer said, "One cannot love humanity, unless he loves himself．"

Farmer was also a guest at the Hayes/Taylor YMCA while he was in Greensboro and was a luncheon speaker at New Variety, "Willie Leland (19 Morrison Hall), Mildred Moore (312 Gibbs Hall), Sue on Grace (170 Holland Hall) and Bill McIlhine (320 Holland Hall).

The REGISTER staff met every Monday night at 6:00 P.M.; interested students are welcome to attend these meet­ings.

Do You Know Who Is The Boss?

(Continued from page 1)

(You can become a member of The A&T Register staff now. There is no initiation period and no special skill is required. All that is asked is that you be interested in serving the student body by contribut­ing to the publishing of The A&T Register.

Students are currently participat­ing in a workshop, but participation is not required for maintaining membership. The workshop is held every Wednesday, Monday afternoon in Hodgin Hall. The workshop is open to everyone.

The A&T Staff will be meeting at 5:15 P.M. every Monday in Hodgin Hall. Students are encouraged to come and discuss "Who is The Boss?" during the meeting."

Testing Testing Testing

AT THE WORLD'S LARGEST OUTDOOR LABORATORY.

EG&G's Las Vegas facility is engaged in test support operations involving nuclear rocket development and nuclear weapons underground testing.

Our rapid growth pattern is continuously creating new and exciting career opportunities for ELECTRICAL ENGINEERS and MECHANICAL ENGINEERS. If you would rather be a "shirt-sleeves engineer" out working in the field instead of sitting at a desk, you would like the environment at EG&G.

EG&G's Las Vegas facility is engaged in test support operations involving nuclear rocket development and nuclear weapons underground testing.

A senior sociology major from N.C., is a student newspaper editor and has written extensively for the Register. She is also a member of the A&T Student Council.

Willie Drake

(CONTINUED FROM PAGE 1)

once a course has been satisfactorily completed.

Drake says that the suit brought against him by Frederick Griffin, assistant professor of mathematics, did not have too much effect on him since he did not lose Griffin, has never had a class under him, and was not responsible for either placing his name on any list or making any statement concerning him personally. He has also said that since taking office, he has been accused of a few things that he knows nothing about.

A sociology major from New York, Drake plans to attend law school at the University of Iowa.
Performance Reveals Great Talent

BY WILLIE M. LEACH

Dr. Howard T. Pearson, director of the university's Opera Ensemble, produced an exciting spring concert that will have Dorm and campus communities buzzing for several weeks to come.

"I hope we can hear the university's Opera Ensemble in its entirety," said Dr. Pearson, "but as of now, the performance will be Barbara Cobb, soprano, each sang a solo. Yvonne Cooper, soprano, and James Western, tenor, sang a number from the forthcoming production of "The King and I."" The performance will be March 30 at six in the evening.

Choir Director Plans Spring Concert, Tour

Most Wrangler jeans have the “W” stitched on in plain sight, but other kinds of Wranglers are a little more concealed. They’re just as well and good but fit just a little bit better. The “W” is tucked away on a tag or label. You’ll find it’s worth checking for a variety of Wranglers.

WILLIE M.

Leach

Flee

Audrey Harris, tenor, in the role of Turridu; Ramona Payton, soprano, in the role of Santuza; and Dorothy Moye, soprano, in the role of Lola. Budino appends a number from "Missa Luba." Also included in the performance are performers from the opera "Rusticana," "Cavalleria Rusticana," "Cavalleria Africaine," and "Mister Banjo," arranged by Norman Luboff; a Nigerian laulaby, "Ye Ke Omani," arranged by Hukari, a long-haired graduate student; and "Ye Ke Omani," arranged by Thompson. The four-part program also features "Teffilin," "Gloria," and "Kyrie." The performing groups include "Amen," "Lives a Little Light of Mine," "O Holy Night," and "It's a Grand Night for Singing." Two early works by Paul Dukas and a piece by Samuel Barber are also included.

The Spring Concert is scheduled for April 13 at that same time.
The Nurses Had Their GripeS

By MARK D. CAMPBELL

In last week’s column this writer discussed the prophecy that Jesus Christ made while on earth concerning the power of an individual who could destroy all mankind and the thermometer that historians believe we will have to await for many years before that conspiracy could destroy every living thing on earth. 

In that article the modern prophet Dr. Zussman was reported to use the support this prophecy Jesus made and a thousand years ago by citing a prophecy she has made that there will be a thermo-nuclear war between the United States and Russia against Communist China. Scientists who have studied the prophecy or being able to look into the future believe that the nation or abbreviation for extra-sensory-perception, or ESP, is ready.

It is evident from the number of people who have read the paper “would” and not the essential facts that had real importance in that particular column: “No student, and I repeat, no student in that class,” and “The instructor should be the contrary.”

Pantzer said that he deciphered “instructor of course.” He was able to speak the opposite of what the class told him they felt the essay “That paper is misleading,” and the instructor handled it in a very faultless manner. But he added that the essay was the best he had ever written.

The University Is In Healthy Condition

Mississippi, Mont. (T.F.)—University of Mississippi President Robert E. Brown said last week that his university was in healthy condition, although he said the campus and faculty experience some problems in recent years.

Pantzer said that the students said he felt the essay “That paper is misleading,” and the instructor handled it in a very faultless manner. But he added that the essay was the best he had ever written.

Honor Society Initiates New Members

By LILLIE MILLER

Eleven students — three juniors and eight seniors — were initiated into the Gamma Tau Chapter of the Alpha Kappa Mu Honor Society March 3, 1969.

They are as follows: Jean Bradley, senior French major from Greensboro; Luther Brown, senior English major from Williamston; Constance Caldwell, senior nursing major from Durham; SandraCarlton, senior English major from Warsaw; Lorine Little, senior English major from Raleigh; Japhet Nkonge, senior economics major from Kenya, East Africa; Inez Perry, junior nursing major from Raleigh; Leroy Roberts, senior biology major from Lynchburg, Va.; Ronald Tate, senior electrical engineering major from Morgantown and Sandra Washington, junior accounting major from Vero Beach, Florida.

Founded in 1937 by Dr. George W. Gore, dean of Tennessee A&M State College and presently president at Florida A&M University, Alpha Kappa Mu has as its purposes the following:

"To promote high scholarship; to encourage sincere and zealous endeavors in all fields of knowledge and service; to cultivate a high order of personal living; and to develop an appreciation for scholarly endeavors in others."

The Society is open to all who meet the following criteria: scholarship overall 3.3 average, and a good record in department and moral character.

With the new members, the Gamma Tau Chapter of the Alpha Kappa Mu Honor Society has a membership of seventeen. The other six members are La Vera Joyner, Curtis Spencer, Naomi Hagwood, Barbara Jones, Larry Davis, and Velma Simmons.

If Chevrolet can't haul it, maybe you'd better leave it.

Under Chevrolet's hood you'll find the biggest standard V8 in its field - 327 cubic inches of it. Or, you can order all the way up to our 390-hp 427-cubic-inch V8. And if that won't haul it, see our truck line. We have the right connections for your trailer too. Like body/frame trailer hitches and trailer wiring harnesses. So drop down to your Chevrolet dealer's and get a load off your mind. And put it in a Chevrolet.

General Electric is looking for qualified people in engineering, manufacturing, quality control, logistics planning, product support, business systems and programming, finance operations and personnel, and many other areas, too.

We invite you to consider our company in planning your career. If you join us, you'll be helping to develop new jet engines like the ones we're building for the huge new C5 Galaxy Transport, the Supersonic Transport (SST), the commercial and military helicopters and business jets.

You'll be helping to develop your own future, too. Our in-house education programs can broaden the scope of your skills, prepare you for greater responsibilities. Our policy of continually reevaluating people can offer recognition and reward for your talent.

It's the talent we care about. And the man.

If interested, send the coupon, attach a brief outline of your educational background and professional experience, and mail to Mr. R. K. Olsen, Aircraft Engine Group, GE, West Lynn, Mass. 01905.

We're talking man to man. No need to walk on eggs. Or be offensive. Or paternal.

OK, so you're black. We'd like to address you as a man.
SUNDAY, MARCH 16
3:00 P.M.
SPECIAL PROGRAM — presented as a culminating activity for Men's Council Week. The principal speaker will be Mr. Clarence Coleman, Southern Regional Director of NATIONAL URBAN LEAGUE. The place: Richard B. Harrison Auditorium. Adm: FREE. The campus and community public are cordially invited.

Like To Poke Holes in Engineering Theories?

We're looking for M.E.'s, E.E.'s, and I.E.'s who will come up with something better — like our automatically controlled circuit that monitors the speed of machinery with 800 electronic "pecks" per second.

All kinds of challenges are waiting for you in hydraulics, pneumatics, mechanics, electromechanics, thermodynamics, electronics, fluidics, automated production techniques, instrumentation and controls, manufacturing processes, and materials handling systems.

N. C. State Coed is Selected As Little Colonel

Cadet Cordell H. Parvin was the coordinator aided by Tech's Arnold Air and Angel Flight members. Maj. William Connor of Capt. Dyck Boles was the Air Force advisors who monitored preparations.

Cadets and Angel Flight members from Duke University, East Carolina University, A&T, North Carolina State University, and the University of North Carolina attended.

Business meetings were held Saturday afternoon and Sunday morning. The Conclave concluded with a banquet Sunday afternoon at which Dr. James W. Dean, Vice President of Student Affairs at Tech, was the keynote speaker.

Coleen Holden of NC State was selected as the Area B-2's Little Colonel and will represent the area in the Little General contest at the National Conclave.
Aggies’ Cherry, Walker Make NAIA All-Star

Daryle Cherry, leading scorer on the A&T basketball team and Vernon Walker, the Aggies’ top rebounder, have been named to the 1969 NAIA All-District 26 team. The 10-man team was selected by the 17 district coaches.

Cherry, a junior from Charlotte, enjoyed his finest season and averaged 20 points per game. Cherry’s showing was one of the reasons A&T compiled a 17-4 record, in a year the Aggies were supposed to be rebuilding.

Cherry is a star end on the A&T football team and a starter on the baseball team.

Walker, also a junior, is a native of High Point. Both he and Cherry were named earlier this season to the All-CIAA team.

Walker won the conference rebounding title, averaging nearly 19 grabs per game. He also averaged 13 points per game and was a top defensive star.

Fashions: What To Wear This Spring

By PAMELA JO WALL

Fashion Editor

Spring is rapidly approaching, and with it will come a fresh new “airy” look for this special season of love and romance. Individuality, as before, plays an important role in spring fashions. But since there is such a wide variety of styles to choose from you will have no problem looking chic or unique.

The bare midriff is a strong feature in sportswear this spring. The casual dresses that sport the peek-a-boo cut-out holes at the midriff couldn’t look more breezy. The sharpest pantsuits, long and short, have midi tops that expose just enough to make you appear more of the girl you are.

Sandals are no longer confined to sports or tourister wear. With spring comes the entrance of the fabulous city sandal to be worn just about anywhere you wear dress shoes. Compliment this new footwear with the revived nude stockings.

The layered look is still big in fashion news, so the new sleeveless coat of this spring couldn’t have come at a better time. Outfits are still belted, but belts are still somewhat wider. The beret is still the best hat look.

The most popular colors of this spring are our patriotic hues — red, white and blue.

Find Your Perfect Date

Are you tired of the frustrating trial and error tactics of blind dates and going from club to club, dance to dance? You owe it to yourself to get into the loveseat.

Evaluate Compu-Date:

A dating service that uses extensive psychological testing and scientific analysis by the latest IBM computers to determine mutually perfect matches. A dating service corporation covering the North Carolina educational complex with its headquarters in Raleigh. Extensive participation has already begun at Bennett College, Shaw University, North Carolina at Durham, Fayetteville State Teachers College and Elizabeth City College.

A dating service formed for adventurous people who like to meet people but rarely seem to meet the “right” people. Find those members of the opposite sex who interest and excite you, and who find you interesting and exciting.

Please send me your comprehensive questionnaire — and one for a friend. I understand there is no obligation or charge in requesting a questionnaire.

MORE THAN TIN-DEEP

Sure. You like a sharp-looking car. Clean lines. Gleaming sheet metal. The whole beauty bit. So do we. But there’s more to an Olds than a coat of paint or a few hunks of chrome. A solid Body by Fisher, for instance. Rugged frames. Bump-gobbling suspensions. Engines that really know how to stretch a gallon or get you there in a hurry. And all the goodies. Stereo. Buckets. Sport wheels. Whatever you want in your package, you couldn’t find a nicer package to put it in.

OLDSMOBILE
A&T Dumped, 102-84
In District Playoff

For the second time in less than a year, the Aggies ran into difficulty early in a championship tournament. 

This time, second-seeded A&T was topped by fourth-seeded Elon College as the Aggies made their first appearance in the NCAA playoffs in Greensboro, a championship tournament.

The score was tied three times before the Christians moved out for good at 14:13 on two free throws by Bowes at 8-6. The Aggies ran into difficulty early in the game and found themselves behind by 2-0 lead as Charles Greer missed both free throws by Bowes at 8-6.

The foul line did it. I don't complain about the officiating but the officiating we got was very strange. This is not to take anything away from Elon. They played a great game, and their shooting from the foul line was phenomenal. Walker led the Aggies at scoring with 15 points, while Ronnie Kinlaw added 13 and Darrel Cherry, 14. Walker also snagged 17 rebounds. McGeorge topped Elon's scoring with 25 points.

The 5 billion dollar corporation you probably never heard of.

Funny how big you can get and still remain virtually anonymous. Somewhere we've managed to do it. We're a group of over 60 companies, making everything from microwave integrated circuits to color television. And we rank number 9 in the top 500 corporations in the nation. Pretty hot stuff for a nobody.

But though you may not recognize our name, maybe the name Sylvania rings a bell. It's one of our companies.

You may even live in one of our telephone company areas. We operate in 53 states. So here we are, 5 billion dollars strong, growing all over the place, and looking for engineers and scientists to grow with us.

Why don't you think we over with your Placement Director? Incidentally, we are known in the communications field as General Telephone & Electronics.

Activities On Campus

FRIDAY, MARCH 14 6:30 P.M.
PAY MOVIE — sponsored by AOCAP, Curtis Specker, 1st vice-president. "Jubal" starring Rock Hudson and George Peppard, at Harrison Auditorium. Ad join ID cards are to be checked by leaders of sponsoring unit.

SATURDAY, MARCH 15 6:30 P.M.
PAY MOVIE — sponsored by AOCAP, Curtis Specker, 1st vice-president. "Jubilant" starring Michael Crawford, at Harrison Auditorium. Ad join ID cards are to be checked by leaders of sponsoring unit, who are expected to enforce the "No Smoking In Theater" fire regulation.

WEATHER — sponsored by A&T Chapter of Greensboro United Tutorial Service, Herman Newborn, president, at UTS office.

FREE MOVIE — sponsored by Student Government Association, Willis Drake, vice-president.
