YEARBOOK EDITOR SAYS

‘3900 Criticize And Speculate’

By CONNELLIA SCHOFIELD

WASHINGTON, D.C. (AP) — The criticisms and speculations about the possible eruption of the 3900 yearbook have been increasing rapidly. Some students believe that the yearbook will be a huge success, while others think it will be a disaster. The controversy is heating up, and it is possible that the yearbook will be delayed or even cancelled.

In keeping with the tradition of early publication, the yearbook is scheduled for release on August 15. However, some students have expressed concern that the yearbook will not be ready in time for the new school year. The yearbook is a significant event for students, and it is important for it to be released on time.

The yearbook is produced by the Student Publications Committee, which is made up of students from various classes. The committee is responsible for planning and executing the publication process, and they are currently working hard to ensure that the yearbook is produced on schedule.

Some students have expressed concern that the yearbook may not be as high-quality as in previous years. They have noted that the yearbook has been delayed in the past, and they fear that it may not be ready for publication on time.

In conclusion, the yearbook is an important event for students, and it is important for it to be produced on schedule. The Student Publications Committee is working hard to ensure that the yearbook is produced on time, and they are taking steps to address the concerns of students.

Looking At The Real Meaning Of Easter

Easter is a time of renewal and hope, a time to reflect on the events of Jesus’ life and the impact they have on our lives today. At the end of the day, Easter is a celebration of the resurrection of Jesus Christ and the promise of new life.

For many Christians, Easter is a time to celebrate the death and resurrection of Jesus Christ. It is a time to remember the sacrifice that Jesus made for us and the hope that he brought to the world.

The story of Easter is one of the most well-known stories in the Bible. It is a story of love, sacrifice, and redemption. It is a story that has inspired people for centuries and continues to inspire people today.

As we celebrate Easter, let us remember the message of Jesus and the hope that it brings. Let us remember that love and sacrifice are the keys to a better world.

By CORNELIA SCHOOLFIELD

Sigma Rho Sigma Inducts 9 Members

At the annual induction ceremony held at the Sigma Rho Sigma headquarters on April 15, 1969, nine new members were inducted into the society. The ceremony was attended by the chapter’s members and guests.

The new members are:

- Mary Anne Bass, senior, political science major
- Brenda Guild, senior, history major
- Woodrow Harding, junior, history major
- LaVera Joyner, senior, history major
- Gilbert Botsford, junior, journalism major
- William Royal, junior, sociology major
- Alvera McLaughlin, junior, education major
- Alfie McLaughlin, senior, political science major
- Cheryl Cundiff, senior, education major

The new members were selected based on their academic achievement and their commitment to the goals of the society.

The Sigma Rho Sigma is a national honor society that recognizes students who have achieved academic excellence in a variety of fields. The society’s mission is to promote scholarship and to recognize the achievements of its members.

The ceremony was conducted by the chapter’s president, Carole Matthews, who welcomed the new members and thanked them for their dedication to the society.

The chapter’s advisor, Dr. Gibbs, was also present and congratulated the new members on their achievement.

The Sigma Rho Sigma is an excellent opportunity for students to be recognized for their academic excellence and to be a part of a community of scholars.

The ceremony was a great success, and the new members were welcomed into the chapter with enthusiasm.

A TRIBUTE TO

Dr. M L King

Dr. Martin Luther King was a man who dedicated his life to the cause of justice and humanity. He was a leader who fought for civil rights and equality, and his legacy continues to inspire people today.

Dr. King was born on January 15, 1929, in Atlanta, Georgia. He was the son of a prominent pastor and attended Morehouse College, where he majored in sociology. He later attended Boston University, where he earned a Master of Divinity degree.

In 1953, Dr. King returned to the United States and began his work as a pastor in Montgomery, Alabama. He became involved in the civil rights movement and led the Montgomery Bus Boycott, which was a successful protest against segregation on public transportation.

Dr. King was a powerful speaker and a skilled organizer, and he was able to mobilize large numbers of people to support his cause. He was a man who was willing to sacrifice himself for the greater good, and his commitment to justice inspired people around the world.

In 1964, Dr. King was awarded the Nobel Peace Prize for his work in the civil rights movement. He was a man who believed in the power of nonviolent resistance, and he was a man who believed in the importance of education and the need for economic equality.

Dr. King was assassinated on April 4, 1968, in Memphis, Tennessee. He was shot by a sniper as he stood on the balcony of the Lorraine Motel. His death was a shock to the nation, and it marked a turning point in the civil rights movement.

Today, Dr. King’s legacy continues to inspire people around the world. He is remembered as a man who was dedicated to justice and equality, and he is a symbol of hope for a better world.

Light Holders:
Luther Brown
Sandra Carlton

The selections of Luther Brown as a Woodrow Wilson Fellow and Sandra A. Carlton as a Danforth Fellow have come in a period in which the University is being criticized tremendously by student reformers. The honor which comes to these Aggies and our institution have much meaning to all students, but especially to those who are inclined to say "A&T can do little for me."

Academic excellence, perhaps, has never been given its fair share of emphasis by students and, accordingly, students have never realized the full rewards that could be reaped from it.

Outstanding performances by students, can contribute significantly toward focusing the public's eye on the University. Students, as well as faculty members and administrators, can counter what is being employed to promote desire among the government. Financial gifts and instructional equipment go to institutions that show the greatest promise; no other segment of society could bid for its students.

The selection of Brown and Carlton was in its own right the build up for across-the-board support and having nothing to do with the boycott in terms of its importance. It is quite apparent that the change in admission and having nothing to do with improving the educational system — was in its own right the build up for across-the-board support for the Zoo.

It may serve as a student example to the administration and public in general that despite previous actions A&T students can and do work within the existing system to promote change with that very system.

Its effectiveness may also serve as a catalyst to retard the violent desegregation that happens here and there, also used as a means of revolutionizing our changing society.

However, as always, nothing works according to the laws of perfection. So in accordance with the laws of imperfectness came the marring incident to the boycott — the breaking of the University can do more than the student body in this area.

Luther Brown and Sandra Carlton have worked diligently; and, consequently, they have received the greatest honors that were open to them. They have made us stop and think and determine whether we have been travelling in the right direction. They are truly light holders and they ought to be followed.

Or Cafeteria Strike

By LILLIE MILLER

Cafeteria workers were indeed successful in getting their demands by a most effective method — the nonviolent boycott. I'd say this approach — so deviant from the ones that proportion and having nothing to do with the boycott in terms of its importance. The blackman is caught up in a continuous open season on him. So­

The SELECTED is establishing a protest school which is a catalyst to retard the violent desegregation that happens here and there, also used as a means of revolutionizing our changing society.

However, as always, nothing works according to the laws of perfection. So in accordance with the laws of imperfectness came the marring incident to the boycott — the breaking of the University can do more than the student body in this area.

Luther Brown and Sandra Carlton have worked diligently; and, consequently, they have received the greatest honors that were open to them. They have made us stop and think and determine whether we have been travelling in the right direction. They are truly light holders and they ought to be followed.

Destructive Thinking

Editor of THE REGISTER:

The students here at A&T State University, proficient in the art of destructive thinking, have shown no concern for the rate of education. But, when it comes to the question of what they are doing to destroy our university, they are not concerned. They are truly light holders and they ought to be followed.

But especially to those who are inclined to say "A&T can do little for me."

Whiley controls the purse strings in the field of education. "We have to do what the people want. They have money. They have influence. They have power. We have to do what they want."

But, I don't mean that the black student is no more important than the white student. We are all one big family here at A&T. We are all helping each other. If one thing destructive occurs, there are enough others to help it from happening.

Delta Sigma Theta Goes to Lead 'Mountain-Valley' March

For Community Services

This year, Alpha Mu chapter of Delta Sigma Theta Sorority decided to devote its year's activities to bring volunteer's community services. The Delta Sorority, which is particularly strong in areas of the state, opened its doors to new members.

The program initiated was for the Pyramid Club. The pledgees trained and then took over volunteer nurses aides at the Carolina Nursing Home three days a week. Upon their entrance into the hospital, they immediately began work of the hour. The pledgees show several patients being clients.

Then the sorority as a unit adopted 30 children (the oldest being away in college) in the predominantly Negro areas, which accepts the responsibility of educating them, taking them in to the home, and teaching them other articles and just correspondent with them in their home. The Delta's also take the children to chaura classes. There are also classes, sponsored by the graduate chapter of Delta Sigma Theta Sorority.

Also, as a group, the sorority has volunteered to send gifts for the University nursing school and kindergarten. The Alpha Mu chapter worked several weekends consecutively in making clothes for children. The Sorority also mapped out the non-profit Negro areas for the recent elections to permit the students to vote.

In addition to these large projects, the Delta Sigma Theta Sorority has been serving the community in various ways. Jane Perry is a French teacher of girls in one of the predominantly Negro schools which is directed by the city. Debrah Wirk is working with special education and the mentally retarded classes at a nearby elementary school which is directed by the city.

Geraldine Horton and Linda Rankin were selected by the Delta Alumnae chapter to attend the recent event in the group of Black high school girls who specialize in cultural and artistic activities. Florence Jones is given the responsibility of creating dance classes for the community, which is predominantly Negro section of the county. The Delta Sigma Theta Sorority has sent its children and skills in a sector of ballet which usually these girls will have never have a chance to obtain.

The law schools have been recently reigned as Miss Greek, has been very active, engaged in the LUTS (the Greenbriar United Teaching Service). Alpha Mu provides coaching in academic class work and gives assignments to the non-profit Negro students who are interested in making a direct impact.

The sources of Alpha Mu are the college placement and the minority college placement offices at many schools. They will also sponsor the non-profit Negro schools for the recent elections.

A&T To Train Aides To Work In Ghettos

Two grants totaling $11,000 have been approved for A&T to operate a paid program to train aides for work with economically disadvantaged preschool children.

The University will receive $5,600 from the U.S. Department of Health, Education, and Welfare under the Education Professors Development Act and $4,500 from the Southern Education Foundation.

The new A&T project will get underway next summer and will be directed by Dr. L. Myra Davis, associate director of the Institute for Research and Human Resources. The program will continue during the fall and following spring.

She said that 40 persons will be selected from the community to receive training in such areas as child-rearing practices, child development and children's games. These participants will also spend a great deal of time observing children of A&T's demonstration nursery. Selections such as "yesterday" and "not on the outside" were sung by members of the group — Chasity Morgan, Patricia Wilson, Jimmy Pearman, Fred Taylor, and Willie Ware. Evening and "after 5" apparel was worn by Jackie Jackson who modeled a gold metallic slack set.

Prospective Teachers Take The Field

Sumpter, and Jacquelyne Wright, Lowe, Richard Newkirk, and Sheila Johnson, Theresa Jones and education; Wilton Bennett, Henry Rooks, and Phil Up Weeks, physical Doris Pickett in business education; Cleon Currie, music; Barbara Daniels, Miltrine Jenkins, Virginia the largest in the history of the university. They are Helen Anthony, Daniels and Brenda McCoy, and Brenda Thiels, business education. James Carroll, physical education, and Georgia Harrington, biology, are in Summersville. Many students are out of the state in Martinsville, Virginia. They are Marvyn Cuyler and Harry Miller, history; Barbara Foster and Gloria Littlejohn, business education; and Helen Jameson, vocational education. Among those in the Queen City, Charlotte, are Larry Cronard and Johnny Johnson, physical education; Demetria Bivens, art; Lona Daniel and Leo McQuiston, business education; and Leslie Perry, vocational and technical education are in Nolensville. When in the twin city, Winston-Salem, are Jean Robinson, art; Mary Harris Johnson, English; Eugene Moore, business education; and James Norris, industrial education. In the city of Raleigh, where all shall live, is the University Choir. Easter Sunday is on April 14. These student teachers observed during the week of March 17-23 and began teaching their respective classes on March 27. Their field experience ends on May 16.

Whitney

(Continued from page 1) control them? Shall I be bold that as blacks are a rogue of the white man? I have no idea for which I was brought to school. Will we destroy it eventually and demand more? I think that, if each student would evaluate his own thought and be guided by his own conscience, he could understand the value of his work and the purpose of the twenty-five students. Think it through.

Brenda Thompson

Teacher Education Program

Deadline for Application, Monday, April 14

Application forms and further information on TEP may be picked up at Dr. Jones' Office at 211 Hodgin Hall. All students should fill out the required information and submit it to their department chairmen. Students are also asked to read pages 184-188 of the current University Bulletin.

Is This You

I am opposed to the Viet Nam War (and any such war that is not based on defense of our country). Please send me application to the Ministry of our church, as well as information as to its beliefs and membership throughout the world.

I am a student, desiring to participate in any military involvements not directly concerned with the defense of our country. I further understand that training will not interfere with my normal work or academic schedule, and — I choose the option to have more of my own leisure. Write MCRB, The Register, UNC-CH.
Seyon Harrell Causes Stir

By RICHARD MOORE

Speedy Seyon Harrell is performing so well on the track this season that his coach is about to have him "tested." He and his wife, the former Grace E. Lorentz, live at 716 Second Ave., Bethellege, Va., and have five children: Janet, 15; Arthur III, 12; Brian, 10; Audrey, 11; and Terri, 7.

From Bethlehem for the Pan-American Games.

Army. In addition to the degrees he holds from A&T, Statum has done graduate work at Springfield College.

At Lafayette College, it was announced today by President R. Rudi Bergenheim. He will begin his duties September 1.

Statum, the first Negro to be appointed as a faculty member of Lafayette faculty, will serve as an instructor in physical education and assistant freshman football coach. He was a part-time assistant freshman football coach last fall.

"We've been pleased with Art's work at the college and with his demonstrated ability in work with young people," Olav B. Kollevoll, director of athletics, said. "He has excellent rapport with students as well as the faculty. We need additional personnel in the department and he's a logical selection." A native of Bethellege, Pa., Statum has been a public school teacher there for five years. He was an assistant football coach at Liberty High School and coached soccer and football at Northeast Junior High School.

Statum was the first Negro to receive the Martin Grace Brown Award, presented annually to an outstanding individual or team from Bethlehem for achievement in amateur athletics. He graduated from A&T in 1953. While in college, Statum was the first Negro named "Athlete of the Week" in North Carolina. He was also honored at "Art Statum Day" and presented the key to the city of Greensboro.

At A&T, Statum was named three times to the Central Intercollegiate Athletic Association (CIAA) All-Conference football team. He earned All-America honors as a senior.

He won one NCAA heavyweight boxing championship and was a semi-finalist twice. He was the CIAA heavyweight champ three times.

Statum served in the Army from 1955 to 1955 and was heavyweight champion of the 4th Army Tournament. He was a runner-up in the tryouts for the U.S. boxing team for the Pan-American Games. Statum was also picked as the outstanding softball player in the 4th Army.

From 1953 to 1958 Statum was Director of Intramural Activities at Western Electric, W. Va., and served as a trainer and assistant coach there during the 1954-55 season. Statum served as head coach of basketball and an assistant in football and track at Allen University from 1962 to 1966. Since returning to Bethlehem he has coached boxing at the Boys-Club and wrestling at the YMCA.

Seyon Harrell, a junior from Winfall, caused quite a stir at the annual Florida A&M Relays when he ran five races in good time. A look at the schedule reveals that he hardly had time to catch his breath between some of the events.

Harrell, 18, finished off an impressive 1:35.8 880-yard run as his portion of the mile relay, which the Aggies won. He ran a leg on the 440 relay at 1 P.M., then sprinted to a 47.5 victory in the open 440 at 1:30.

At 2:45, Harrell ran another quarter mile on the sprint medley team, this time at 46.7. He climax ed the day at 3:30 P.M., with a 9.5 effort on a leg of the mile relay team.

Harrell's performance has his coach Murray Neely thrilled and delighted.

"I think that I am going to have to limit him on that machine they have in the physical education department," said Neely. "I want to see what he can do on that machine." Astonishingly, he is gifted with a vital capacity and an outstanding ability to recover.

The bold nacle that Harrell ran in Florida was the first one that he has ever run in competition. Last season he was a topflight quarter-miler and this season he is rated by Track and Field News as one of the fastest performers in the nation.

"The only reason I let him run the half mile," said Neely, "was to strengthen him for the quarter mile. But now that he has made such a good showing as a half-miler, I really don't know where to put him!"

Harrell has already bettered his last year's time in the 440 at this stage of the season. In the first meet last year, he ran a 49 quarter-

You'll never get anywhere without it.
