Moon Samples Shown On University Campus

Samples of rocks taken from the moon and some of the equipment used in the Apollo moon landing missions were part of a display and lecture presented last night on the campus of the College of the University of North Carolina at Chapel Hill, said a professor of chemistry for the college.

A Tidwell, a junior professional biology major from Ellicottville, said, "On a whole these are not necessary. Most of the time when grievances come up, the students haven't talked it over with the administration heads.

Angela Green, a junior accounting major from Washington, D.C., said, "I think it is the most effective way because the administration listens to us. We talk to them more than they would if we had discussed it with them."

When asked, Ross Graham said, "Basically, I think that when I was a freshman, we found it necessary as the only way to get our grievances known."

Graham Hall In Process Of Renovation

By William Johnson

"Graham Hall is being renovated for engineering laboratories," says J. M. Martineau, Dean of Administration. He is in charge of the college engineer in charge of all construction occurring campus.

He stated that Graham Hall was constructed in 1939 at an initial cost of $120,000. The cost for renovating this building is $291,000, over twice the original cost for the building.

The building will house courses in Architectural and Mechanical Engineering, and computer science courses. Dean Martineau stated that the building is slated to get a new roof, doors, and the interior will be painted.

Graham Hall will also be air-conditioned; as a result of this the windows on the south side of the building are being replaced with brick. Some classes in sets are yet still being built in the building on basement floor.

Construction is scheduled for completion in April, 1971.

SGA Outlines Plans For Progressive Year

By Cohen N. Greene

The Student Government Association held its first general student body meeting last night in Harrison Auditorium. Matthew Simpson, SGA president, outlined future plans and goals of the SGA for the year. Simpson expressed concern over lack of student support for our "volunteers" and over the role played by the administration.

The plans and reorganizations for the year include:

- All letters and correspondences concerning the student body will be sent to the A&T Register for publication.
- A Research Team has been organized to investigate registration procedures, cafeteria conditions, and procedures for helping incoming students. This team will be under the leadership of Delphine Johnson, personnel director.
- A Draft Counseling Team has been established to counsel male students on the Selective Service System and the draft. Paid Favors will be in charge of the Center and plans are being developed to make it a permanent center on campus.
- A Department of Student Services has been formulated to expedite matters involving the student body in general that were previously delayed by numerous committees. This department will be chaired by Walter Glover.
- New regulations and stipulations for making student loans will be instituted and guidelines will be drawn up to become part of the SGA Constitution, SGA treasurer, William Whitford, will initiate plans for drawing up these guidelines.
- Workshops, to begin November 19 and every Thursday from 7:30 p.m., will be held to help bring Aggies closer together, and to exchange ideas concerning education and entertainment on campus.

Gail Thomas, SGA vice-president, "expressed concern over attendance at the meeting. "I am disturbed about the attendance (20%) and this is not indicative of a progressive student body. We can't get a crowd together unless there is a catastrophe," she stated.

Gail also announced the formation of a Black Women's Association.

University Obtains $20,000 For Program In Leadership

A&T last Friday received a grant of $20,000 from the North Carolina Leadership Institute, Inc. for a program designed to identify and develop future leaders for business, government, and industry.

In announcing the grant, Dr. Lewis C. Dowdy, president of the University, said A&T will be the first black institution in the state selected to participate in the North Carolina Fellowship Program, which has operated since 1967 at UNC Chapel Hill, Davidson College, North Carolina State University, and East Carolina University.

Dowdy said that the A&T program will be directed by William C. Parker, Jr., associate dean of student affairs. "We are pleased to be a part of this unique program which will serve to eliminate some of the stumbling blocks which potential leaders/sometimes face," said Dowdy.

The initial leadership program was developed in connection with the Smith Richardson Foundation.

Parker said the initial project at A&T will involve 15 students throughout the 1970-71 school year. He also said 25 students will be added next year.

"We will try to tailor this program to the individual needs of the participants," said Parker. The emphasis will be placed on informal meetings, on-campus seminars and personal contact with leaders in different fields.

During the year, the participants will receive career placement, and personal counseling; and once during the term a special off-campus retreat will be conducted.

At the end of each year, participants will have the opportunity to take part in an internship program, either in an educational institution or in a business or governmental facility. The students will be encouraged to try a different field each summer.

In addition to Parker, who will be employed by the central office of the North Carolina Leadership Institute will serve as consultants for the students.

Parker said students will not receive direct scholarships nor receive formal university credit for being in the project.

"This high-level program is designed to supplement and contribute effectively and positively to the undergraduate experiences of each participant," said Parker.
More Lights Please

With the expansion of this university campus, one would expect the acquisition of more outside lights to enable students to move from one point to another with a feeling of security. However, Aggies are finding that this is not the case, lights are becoming fewer if anything. Many students would also appreciate not having to "feel" their way while walking on some parts of the campus.

The campus would be much happier if there were more lights. This would mean that they could move about on campus without much of the fear that they have when there are no lights.

A coed remarked yesterday that she remembers the time when she could walk to "the block" without being frightened, but that it is a different story now. Her statement leads one to believe that many of the lights that formerly worked are not working at present. This fact coupled with the fact that only a limited number of lights have been added to our physical facility, is all we need to realize that lights are badly needed on campus.

Particular attention is drawn to the Communications Building, the rear entrance of New High Rise, the parking lot and adjoining area behind the student newspaper office, and the circle beside Bluford Library. These areas of our campus remind a student of Poe's line, "Black as a night where there is no moon to light the way while walking on some parts of the campus.

It is hoped that The A&T Register can take another survey this week by The A&T Register on student opinions about the necessity of confrontations clearly indicates the direction of the minds of college students on this issue.

It is a horrible thing when man moves to the state of mind that makes him believe confrontation is the only solution to problems on hand.

Students can not be completely blamed for the frame of mind that exists in most students' minds. It is the years of disappointment by college faculties and administrators that has brought about this condition to a confrontation.

These faculties and administrators have joined hands in an effort to solve all problems without the necessity of confrontation. Many students would also appreciate not having to "feel" their way while walking on some parts of the campus.

College students have not learned to master job interviews and, as a result, many of them are denied good paying positions, according to W. J. Morris, director of placement services.

In an effort to reverse this trend, three A&T successful graduates are sponsoring a job interview clinic on campus that begins today and will continue through tomorrow for the University's undergraduates.

The project is the idea of James Brannon, a commercial under-write with Liberty Mutual Insurance Company in Boston. Brannon, who has spent a number of years as a college recruiter for his firm, will be assisted by James Spurlock, an employee relations specialist with Appalachian Power Company in Roanoke, Va., and Mrs. Carol Pinkett of Humble Oil Corporation of Houston.

Also working with the team will be Phillip Bell of IBM's Research Triangle facility in Durham and Miss Pat Joyce of General Electric Corporation in Philadelphia, and Mrs. Dorothy Jones, assistant placement director at A&T.

"The main point we will be trying to get across to the student is that he must sell himself to the interviewer," Brannon pointed out. "Detailed answers are very important. The student must tell of his experiences and background. Simply answering questions with a 'yes' or 'no' is not sufficient.

"An interviewer becomes much more interested in a person who can talk about himself and his experiences because that person can adapt to a position much more quickly."

One of the most important parts of the clinic, according to Brannon, are mock interviews where the student is "hurt by the interviewer's weaknesses are.

"What we are going to do is tape these interviews and then play them back, showing the student where his weaknesses are.

"I found that often students had difficulty in selling themselves and that in many instances their abilities were much greater than what was indicated in the interview. This clinic can be a great help to those students."

Student Opinions Of Yearbooks Varied But Not Too Favorable

By Diane Bell

On Tuesday, the Ayantee staff issued the 1969-70 yearbooks to sophomores, junior, and senior students in Room 210 of the Administration Building.

Many students remained in the Union viewing their yearbooks; others voted theirs in the dining halls and the privacy of their dormitories. The A&T Register was on the scene to catch the student comments.

"S...I..." boldly exclaimed one young man.

"I don't like the cover," remarked another coed.

"Tell me something," requested a male student.

"I can't assure you that you will get your yearbooks on time," assured the staff photographer.

A&T's only female barber returned to her chair performing her job of cutting and trimming the hair of men. This barber, Mrs. Helen Donnell, is shown here shaping the hair of Ronald Payne, a senior physical education major.

A&T's only female barber returned to her chair performing her job of cutting and trimming the hair of men. This barber, Mrs. Helen Donnell, is shown here shaping the hair of Ronald Payne, a senior physical education major.

According to Mrs. Donnell, the Afro has hurt barbers financially because those who wear them require only shape ups, whereas other men need a complete haircut. She is undecided on whether the Afro is here to stay, but, being a barber, she stated "I hope not." "An Afro is beautiful when it is well groomed," she says, however.

Occasionally she has a male customer who is a little skeptical of a woman barber, but she can usually talk him into a haircut. Mrs. Donnell is married to retired Sergeant Sydena Donnell, and they have two children both attend Dudley High School. They presently reside on 191 Drakemore Avenue.

Impressions Check Out Minds In Moore Gym Show

By Jacqueline Corpening

The Impressions from Chicago, definitely checked out the minds of the Aggies at Moore Gym. Singing their all time greatest hits, "It's All Right", "I've Been Trying", "My Country", "People Get Ready", "We're a Winner", "Check Out Your Mind", "Can't You See", "Choice of Colors", and their latest hit "Baby Turn On".

The members of the group are Sam Gooden, Leroy Hutson and Fred Cash.

The crowd seemed spell bound as they sang one of their oldies "I'm So Proud", with the sweet and mellow voice of Leroy Hutson, the newest member of the group. Leroy is a recent graduate of Howard University and he's been singing with the Impressions for two months.

When asked what they thought the role of black entertainers is today, both Hutson and Cash agreed that it was Curtis Mayfield, "he has a message to black people and all entertainers should do the same in trying to convey a thought to their black brothers and sisters." "We're what's happening also," commented Hutson.

The group has been together approximately twelve years and Curtis Mayfield who recently left the Impressions still composes the majority of the songs for the group.

Cash expressed his opinion of Greensboro as being a "hip city" and "A&T is really together." The group agreed that it enjoys entertaining college students, especially black students.

The band which backs up the Impressions has only been together two months. The band members are Lucky Scott, bass; Tryone McCallon, drums; Craig McCallon, guitar; and Deacon Jones, organist. The band enjoys playing "funky and love music" according to Deacon Jones who served as M.C. for the show.

The Impressions have had many hits but it is very hard to determine what has been their largest selling record stated Cash. "We've had so many hits that we can't narrow it down to just one."

The Impressions truly left a lasting impression on the Aggies that will be remembered for times to come.
Campus Beauties

Pictures for the Homecoming Edition of the Register will be taken in and around the Student Union Monday, October 5 from 12:00 noon to 5:00 p.m., and Tuesday from 10:00 a.m. to 2:30 p.m.
All campus queens must take pictures on these two days in order to be included in the Homecoming Edition.

Placement Office Moves

The Career Counseling and Placement Office has moved from Room 201 Dudley Building to the Second Floor of East Hall.
Our physical facilities are much more adequate, and we are looking forward to providing more efficient service to our students, faculty and staff.
Please come by to see us and let us be of service to you.

Caucus. This organization will unite black women here on this campus and on other campus, she explained.

Benny Mayfield, assistant to the Dean of Student Affairs, announced that the Pre-Dawn Dance for Homecoming will feature the Delfonics, Intruders, Viberations, Ojays and Brenda and The Tabulations.

Mayfield also announced that Dr. L. C. Dowdy has appointed a chairman of a Registration Committee to work out better registration procedures. The committee will include members of the student body.

Oscar Beale, Acting Attorney General and Master of Ceremonies, expressed concern over justice for students in the eyes of the administration. "This year the students will be their own judges," he commented. "When the Judicial Council begins to function, students will no longer have to fall victims of faulty administrative justice."

By Dreusilla Dunn

Sebastian Infirmary is a self-sustaining University service that operates from student fees 24 hours a day.

A nurse is on duty at all times who handles minor complaints of students and with a physician on call during normal off-duty hours. Medication is administered in accordance with orders from the college physician.

Clinics are held twice daily, Monday through Friday from 10 a.m. to 12 noon, and from 2 p.m. to 4 p.m.

The staff includes the University Physician, Dr. Theodore Brutto, who is also the chief administrative officer, a part-time physician, one head nurse, six general duty nurses, two secretaries, a janitor and a maid.

Due to the inadequate number of full-time positions, there should be six full-time physicians and four additional Registered Nurses.

Hopefully by 1980, based on a projected enrollment of 6,180 full-time students, there should be six full-time physicians and four additional Registered Nurses.

The main floor contains the primary working area which consists of two wings with a total of 34 beds, including four 2-bedroom, two single isolation rooms, and four 6-bed wards. The basement of the Infirmary houses the kitchen and storage area.

The Infirmary was completed in 1952 and covers a total floor space just over 9,000 square feet, with a 2,000 square feet basement.

Brightly Birthday

Jim Jackson

Aggies Fall To Rattlers
In Florida Give Away

A&T's faltering Aggies made the long journey down to Florida A&M for the Rattlers' opener and everything went fine until the game started. As a result the Aggies had only a 33-10 lead to bring back home.

Playing before a capacity crowd in lovely Florida weather, A&T won the toss and began on their own 45 and scored after being held back by behind the 30. As a result the Rattlers were forced to punt. One of the officials added a 15-yard personal foul to the running back.

Rattler defensive back Charles Sasser intercepted Charles Middleton's pass intended for Willie Wright at the 30 and returned it to the A&T 28. Middle­ton went back to pass, and they saw to sunlight.

Alfred Dixon, Scruggs got the ball to run the 28 yardline which was the closest the ball free and recovered the fumble. This drive was in the final quarter as the A&T machine going as he tipped the PAT was off although too late as A&M boosted its lead to 20-0. Due to a strong rush and being held back, the Rattlers were unable to run on A&T, getting only 31 yards to the Aggies' 98 on the ground.

"Our front line defense did a good job, except for a few people," said Howell. "I also thought Blacknall, our linebacker and tackle Billy Wiseman played well. But other than that, there are going to be some changes made.

Positive Thinking Henry Walker
Still Has Confidence In Team

Head Coach Hornsby Howell Says
Changes Are Going To Be Made

You got a feeling that A&T football fans put their names on the list to watch out for Saturday's game against Florida A&M. It was the worst game since the Aggies were knocked out of the Florida A&M by arch-rival Florida A&M. It was the worst game since A&M boosted its lead to 20-0. Due to a strong rush and being held back, the Rattlers were unable to run on A&T, getting only 31 yards to the Aggies' 98 on the ground.

Even as the Aggies' football fortunes seem to take a turn for the worse, Walker exudes confidence.

"It's just a matter of putting it all together now," he said. "We have the material and the coaching and we just have to cut down on the mistakes and we can win."

A junior from South Hill, Va., Walker himself has gotten off to his best start yet. In the Aggies' first three games, he has averaged better than four yards per carry. "I had set some personal goals for myself during the past summer," said Walker. "And one of them was to have the best season for Sat­urday's tough game against Florida A&M."

With the contest wrapped up Scruggs went out of the game and was relieved by Tallahassee's own in freshman Rodney Montgomery. The humiliation of a loss was evident. He had just pranced the sidelines for 60 harrowing minutes as his Aggies were outscored huddling at midfield. The 75-yard punt play was completed as A&T defenders were too many yardage and touchdown. He was the most explosive player in the game.

The humiliation to Howell was evident. He had just pranced the sidelines for 60 harrowing minutes as his Aggies were outscored 33-10 by arch-rival Florida A&M. It was the worst game since A&M boosted its lead to 20-0. Due to a strong rush and being held back, the Rattlers were unable to run on A&T, getting only 31 yards to the Aggies' 98 on the ground. "Our front line defense did a good job, except for a few people," said Howell. "I also thought Blacknall, our linebacker and tackle Billy Wiseman played well. But other than that, there are going to be some changes made."

Johnson C. Smith.

"We're not talking about giving up," he said. "I know the kind of young men we have and I know how they think. I feel shocked when we lose because I didn't expect it to happen. But I also know that we can win."
work cut out for aggie players
in J. C. Smith game tomorrow

by paul Jones
sports editor

the aggies of a&t will have
their work cut out for them this
weekend as they tangle with last
year's CIAA Champions, the
Golden Bulls of Johnson C.
Smith.

having the home advantage,
Smith will have speed to burn
in equipment. Also back to run
the swift Golden Bull offense
will be mythical Eroy Duncan
who, for the previous three
years, has been tremendous.
Coach Al McGirt probably
will waste no time in launching
its potent ground-to-air attack
against A&T after routing the
Aggies in Florida.

The Bulls will rely heavily on
the sweep running of HB Beamer
and the "bomb" to Johnson.
Split End Freddie Harris,
6'3-230, has good speed for his
size and can definitely catch the
ball. Depth will be another im-
portant factor as the Golden
Bulls can again go to speed which
is a constant threat.

On defense the Golden Bulls
will be solidly anchored by the
likes of James Fairley and Larry
Jones. A real battle should de-
develop at the tackle spot as Fair-
ley will battle up against A&T's
All-American candidate Mel
Holmes, who is 6'4" and 250
pounds.

With an obvious weakness in
the secondary, the Aggies will
make some adjustments and
possible personnel changes. The
take on the game will be in the
pass defense which has already
given up seven aerial TD's in only
three games.

After the showing in Florida
which was a 23-0 shut out, A&T
can expect anything as the Gol-
den Bulls may open up running
instead of passing.

With Thad Jones and William
Duncombe missing, the Aggies
will have to play a wad-end-see
game. Despite little success at
Florida A&M, Charles Middleton
will probably start at the quarter-
back spot which should present
some exciting action.

Willie Wright, who is one of
the leading pass receivers on A&T's
CIAA, will also be instrumental
in A&T's game plans, but will
draw a strong challenge from the
Bull secondary.

Since Smith has won only one
game in the last 21 years which
was last year, this annual rivalry
promises to be a real thriller.
