On Thanksgiving Remember . . .

Physical Plant Soon To Move To New Home

By Floyd Weatherpoon

Movement into the new physical plant service building is scheduled to begin this week, after inspection, according to Marvin B. Graeber, associate director of physical plant. Graeber said there were only two things he would have preferred done differently which were the office complex and the maintenance shed. He said he felt that there would have been more operating space if the walls could have been left out between offices for more open space.

The building now in use was converted from an old boiler room, and many pumps, valves and manholes remain making a bad situation for storage. In the old building they are also cramped for operating space, according to Graeber.

However the new building will provide more room. There will be numerous shops located within the building such as electrical, plumbing and carpentry shops. There will also be an easier accessibility to equipment. At present equipment is scattered "all over campus," Graeber said. More storage area is available in the new building than the entire size of the old building, he said.

A preliminary program of architectural requirements for a physical plant service building was first drawn up in March 1963.

Arts And Sciences

Committee Searches For Dean

By Cynthia Shipley

A search committee has been formed to find a dean of Arts and Sciences. Dr. Wendell P. Jones, chairman of the Mathematics Department, has been appointed head of the committee by Dr. Lewis Dowdy.

The committee will be made up of one member of the Board of Trustees, three students, members of the faculty and staff, and administrative personnel, Chief of the department, SGA President Marilyn Marshall has been selected, and Mrs. Velma Sprague Jones, an active alumna.

The committee will be looking for, requested qualifications for the position of dean. Dr. Jones said that this will be . . . (See Dr. Jones Page 3)

Appeals Court Decision Arouses Speculation

By Rosie A. Stevens

Since the decision handed down by the Appeals Court Tuesday, speculation have been going on about the impact of integration upon A & T. Questions have been raised concerning the elimination of dual programs which were part of the original plan which was submitted. Questions have also been raised about the integration of the administration, faculty, and students which the letter from HEW calls for.

The original plan, "A State Program To Enlarge Educational Opportunity In North Carolina," which was submitted does call for the elimination of programs which duplicate such other. This is in keeping with the overall specialization of academic toward which the University of North Carolina System is moving. A & T and UNC-G and A & T and NCSU all-Raleigh were two of the institutions which were cited as "historically racially based duplication."

The duplications of programs at A & T and UNC-G are the schools of Agriculture and Engineering. With UNC-G the duplication was not specified.

The HEW letter, however, stated that "comparative, particularly those of the more traditional disciplines, may be retained at all locations, while the more specialized or technical (See A&T's Page 3)
The Man Behind The Projector Really Runs The Picture Show

By Cynthia Shipley

When viewing a film, and a mishap occurs involving the film, some students have the tendency to think it is the operator’s fault. They blame their annoyances in assorted ways, by telling off the operator or simply grumbling, but almost always blaming the man in charge.

However, Evander Gilmer, in charge of operating the projector in Harrison Auditorium, said, “Operators face a great many problems because we aren’t allowed to make large repairs on the machinery. We must wait for the Theater Supply men to work on them.”

Gilmer said a film operator must have gone to school for some training in order to make what general repairs possible, such as changing tapes, bulbs, and carbons.

Gilmer said the projectionist must also be a union member.

“Another student of Scott Hall, Kervin Mack of Section A, a major from Freemont, residing in Pollocksville, had complaints concerning adequate heat and adequate lighting.

In reply to a question concerning the relevancy of the grading system, Mack said that he was in all the right courses, Mack said that he wasn’t interested in taking any courses other than those required in his major.

Education Broiled In Concerns By Students Over Heat And Water

By Betty Holman

A survey of the freshman class revealed that they were more concerned about the regulation of the heat and water facilities than the execution of the educational process.

The survey was conducted to get an idea of some of the problems members of the freshman class were experiencing during their first year in Aggieland.

Ronald Lamb, a resident of Clinton, in the area of health and physical education; and a resident of Scott Hall, Section C, wanted to know, “Why is the heat turned off so often?”

A freshman nursing major from Freemont, residing in New High Rise Dorm said she was not concerned about the State Nursing Board exam. She stated, “It came here to learn.”

A resident of Gibbs Hall, Angela Montgomery, a social service major from Chattanooga, Tennessee, asked, “Why aren’t we supposed to cook in our rooms?”

Walter Brinkley of Scott Hall Section A, a business administration major from Trenton asked, “Why does the dining hall close so early on Sunday?”

His next question was directed to the maintenance and janitorial service. Brinkley asked, “Why are the bathrooms cleaned every day except Sunday?”

Brinkley next asked why wasn’t another men’s dorm constructed on campus and why there was a delay in the new gym.

120 Students Are Expected To Practice Teach In Spring

By Cassandra Wright

Dr. S. O. Jones, director of students teaching, stated that presently there are 35 student teachers on the field and the estimate for the spring semester is somewhere in the range of 120.

When asked how are the non-vehicle owners accommodated transportation was replied that it was basically their responsibility; but, when placing students on the field, consideration was given as to placing the students without cars at a school with a student parking permit.

Another student of Scott Hall, Kervin Mack of Section A, major from Freemont, residing in Pollocksville, had complaints concerning adequate heat and adequate lighting.

When asked about the relevancy of the grading system, Mack said that he was in all the right courses, Mack said that he wasn’t interested in taking any courses other than those required in his major.

Internship Available

By Sandra Midgett

How would you like to spend the summer working as a paid intern for the food editor of a major daily paper? Sounds thrilling, doesn’t it? Well, the opportunity has now arisen.

Here are the minimum qualifications: You must be a junior or senior majoring in home economics or journalism and attending an accredited university. You should be planning a career in newspaper journalism.

This summer internship is sponsored by Tupperware Home Parties in affiliation with the Newspaper Food Editors Conference and the American Association of Newspaper Representatives.

The deadline for entry is February 1, 1974. To enter, all you have to do is obtain an entry blank from Mrs. Clara Evans in Benbow Hall and write an item (not more than two typewritten pages, double spaced) pertaining to one of the following: 1. A newspaper food story consisting of a recipe and appealing feature copy. The recipe will not be judged solely on copy.

An interview with an interesting person whose story might be used in newspaper food pages. However, a mock interview may be used; 3. A consumer interest article that might offer buying, storing, preparing, and serving tips to homemakers; telling how money can be saved on food purchases; or a description of consumer protection programs by companies.

Entries must also submit a letter describing why they would like to win the internship and what they hope to gain from the internship.
A&T-NCCU Talent Show Exposed Singers, Groups And Dancers

By Yvonne McDonald

The Fellowship Gospel Choir opened Saturday night's post game A & T-NCCU Talent show moved by Sigma Mike Cole and Doug Minor a 16-year old disc jockey with WRQK-F.M. Radio. "Show Me the Way" and "I Must Tell Jesus" were the opening selections.

The program moved along to "Smokey" band's doing "Don't Mess With People", Utopia, a five members Apple group doing "You and I" by Black Ivory.

"Mr. Romance (Lloyd Nance) sang "Baby Come Close" by Smokey Robinson. A 6'9" 260 lb. Barry White (Dwayne) then did "Never Gonna Give You Up". "Little Jesse" (Jesse Johnson) did "People Get Ready" by Impressions.

Glady's Knight (Ruth Chapman) then appeared doing "Where Peaceful Waters Flow". Bennett Underground, an all-girl band, fanned, opening with "Lose, Lose", then "That's the Way It Has to Be". "I want to Know Your Name", "Midnight Train to Georgia" and closed with the message "Keep your Head in the Sky". The only other talent was Ronald Speight, an instructor, doing Marvin Gaye's "Let's Get It On".

Other talent included the Versatile Gents, a professional group from Greensboro, who will soon release a record, and the Cosmos dancers, a local dance group appearing weekly at the Cosmic Club.

Kool And The Gang Performed Friday Night In Moore Gym

By Dexter O. Barie

"Kool and the Gang", was a major attraction for the Aggies' and Eagles' classic. A pre-football game show and dance, the group came on with music that made Moore Gymnasium "rock" with more soul.

Kool and the Gang closed out with their hit, "Funky Stuff", which left the flame dancing high and little ole Moore Gymnasium rocking with more soul.

Dr. Jones States Requirements For Dean

(Continued from Page 1)

Dr. Jones stated that the committee will keep its records well, in case of a need for scrutiny or if there is a question raised as to why a particular person was chosen.

"The first meeting will be an organizational meeting, and it will be held before the semester ends and soon after Thanksgiving. If possible, I want to meet certain absolute qualifications," Dr. Jones concluded.

Turkey Is Dangerous To Your Health

Caution:

Campus Haps

Sigma Gamma Sigma meet, 8:30 p.m. Morris Hall Tuesday at noon

Debate Club Meets in the Union, Rooms 213-4-5, Tuesday at noon.

Presidential Scholars Meet, Room 100 in the Memorial Union at 3 p.m. Tuesday.

A & T Sociology Club Meets at 7:00 p.m. Tuesday
Thanksgiving—probably America's most propagandized holiday. Why must we paint pictures of happy turkeys gladly giving up their lives so that they may make someone’s Thanksgiving enjoyable? Why must we sing of overly-idealistic celebrations? Why must we create such artificial images only to compare them to not-too-idealistic “real-life situations”?

Real-life Thanksgiving is usually a day of watching continuous parades and football games instead of continuous soap operas; sisters arguing about who is going to wash dishes; hostesses wishing their overly-relaxed guests would hurry up and leave; the playing of a ball game among friends and cousins; or the praying of silent prayers to God asking that your relatives not become numbers in the holiday's death toll.

Thanksgiving is just another day called by a more prestigious name, a somewhat special day, in a very human way. Filled with natural occurrences which we are forced to wash dishes, hurry up and leave: the playing of a ball game among friends and cousins; or the praying of silent prayers to God asking that your relatives not become numbers in the holiday's death toll.

Why must we sing of overly-idealistic celebrations? Why must we paint pictures of happy turkeys gladly giving up their lives so that they may make someone’s Thanksgiving enjoyable?
White Colleges Love The Athlete Not The Black Man

The following is the final article in a two-part series on Blacks in sports.

The elevation of school integration in the U.S. has not only brought upon many areas of America's favorite pastime, but oppression has been the least notable in the sports programs of the predominantly white colleges. Instead athletic departments of the various institutions have found a new, and in some cases, life itself in building around the names, and on the talents of the Black superstars. I mean who would have thought that, at this time of year the University of Pittsburgh could be in a position to accept a post-season bowl bid thanks to Tony Dornet?

•••

White college football could no longer be defined as "Three yards and a cloud of dust," because three yards is counted as a love for Anthony Davis, Archie Griffin, Lawrence C. Munson, and Black college football, cannot be defined as "Three yards and a cloud of dust." The entire U.S. white college scene has become more tolerant of integration, because it comes with talent and natural skill. No major sport program need be grilled as long as these Black institutions have the capital and know how to tap the Black resource.

Take away his basketball skills and his problems equate those of any other Black on a White college campus. The thunderous applause that Bob Gibson received during the years '67 and '68 when he led the St. Louis Cardinals to the World Series could have been translated as "White" love, but when Gibson moved into a previously all-white middle class neighborhood, his house was "bombed" by some term. But we will never be without the excitement; Black halfbacks just don't do things according to ability instead of color. But the correct analysis of this is that the "Old South" has learned to accept ability in all colors. And the entire U.S. white college scene has become more tolerant of integration, because it comes with talent and natural skill. No major sport program need be grilled as long as these Black institutions have the capital and know how to tap the Black resource.

Sports in white schools began to mean excitement and money. Box offices were busy because most of the schools had installed box office attractions, namely a Black star. Black college sports began to suffer the reverse effects. But we will never be without the excitement; Black halfbacks just don't do things according to ability instead of color. But the correct analysis of this is that the "Old South" has learned to accept ability in all colors. And the entire U.S. white college scene has become more tolerant of integration, because it comes with talent and natural skill. No major sport program need be grilled as long as these Black institutions have the capital and know how to tap the Black resource.

Students Express Feelings Concerning Thanksgiving

By Sylvia Talford

Most people are familiar with the thought of Thanksgiving as being a day that was originally set aside for giving thanks to God. However, as the years have passed and traditional customs have changed, so has the meaning of Thanksgiving. There is now a general attitude that Thanksgiving is "just another day" when everyone can eat and enjoy himself.

How do the Aggies feel about it? Linda Bonnette, a freshman from Rowood, said, "It should be a day for giving thanks but most people look forward to it simply for the purpose of eating. We no longer have a special Thanksgiving sermon at church anymore as we once did. Now we only say a short prayer before eating."

One's attitude toward the subject of Thanksgiving depends on individual past experiences and personal perceptions. Thanksgiving season, it seems, are simply to take the time to think, we would soon re-discover the real meaning of this holiday and realize that it is not "just another day.

Write A Letter

The following is an open letter to the student body:

To all boarding in Brown and Murphy Hall Food Service Department:

The Food Service Department will offer help and assistance to all boarding students whenever it is requested. The staff wants to cooperate in every way to make the dining environment pleasant and rewarding. The following are only a few policies that we have governing our service rendered to our boarding students and cash customers.

Policies governing service on the cafeteria lines:

Do not get so involved with your serving that you forget there are "people" on the other side. Try to look each person in the eye and smile. Make everyone feel welcome. Try to learn individual students and have a friendly words for each one. Fill individual requests when they are reasonable and not against our policies.

When you have to say "no," say it as pleasantly as possible. Serve plates neatly and make them as attractive as possible. Do not serve gum, eat or drink on the serving line. Do not carry on extended conversations with your fellow workers. Your whole attention should be on the people you are serving.

Do steer neatly with a clean apron and hair covered. Men must wear caps down over their ears. Female workers must be clean shaven. Women must wear hair nets. Do not lean on the counter and look bored while on the serving line. Always show an interest in everyone that you serve.

Do not tell the residents exaggerated falsehoods about the food. Know what is on the menu and what it contains so you can answer questions correctly.

Try to interest the residents in trying new items. If we are temporarily out of a menu item, explain the situation politely and inform those in line what to expect.

Be alert to anything missing on the line such as silver, trays, salads, butter and either take care of the matter or tell the supervisor.

When serving food, keep an eye on items which move slowly such as cream, soup or milk and do not let any of them overflow their dishes. Do not chew gum, eat or drink on the serving line.

Do not chew gum, eat or drink on the serving line.

The Food Service Department can be staffed during all evening hours. This includes on the main floor and in the main building including the food center (TEMC) is open from 9 a.m. to 10 p.m. and during all weekday hours by qualified reference librarians.

Student reactions to the increased staffing is welcomed. Suggestions boxes provided for this purpose and for the purpose of providing other student input have been placed prominently in several library locations. The library is open 92 hours per week. This includes 19 hours on weekends. Also, the "Teach" Education Materials Library (TEMC) is open 9 a.m. to 6 p.m. each weekday excluding Friday when all library service is provided.

Other services offered in the main building include film and music center and the image center. These points provide service 40 hours per week and are located in the basement of the main building.

Eagles Fly Away With MEAC Championship

By Blannie E. Bowen

As the final seconds of the 1973 football season slowly ticked away from A&T Saturday, the Aggies were glad that 1973 was over and hopefully, quickly forgotten by the fans.

North Carolina Central came into the home of the Aggies needing a victory to retain its MEAC crown. The Eagles would have no part in giving up their crown and they rolled past the Aggies 16-6 to capture their second consecutive MEAC crown.

Playing before their second capacity crowd of the year at Memorial Stadium, A&T had its hopes of defeating the defending champs smashed by a 6-1, 220 pound running back from Winston-Salem who gained 151 yards.

With the opening kick-off, the Eagles rolled 72 yards in only eight plays. In these eight plays, James Smith rushed six times, with the last rush going for 45 yards and a touchdown. With Tyrone Boykin adding the extra point.

Central had a lead that was not to be relinquished. A&T, meanwhile, had trouble with the evening kick-off and never really got its offense rolling. Quarterback Paul McKibbins rushed twice for 10 yards. George Ragsdale hit the hole for eight, and Al Holland bullied for six more yards, but Central closed the door from there.

A&T, meanwhile, had trouble with the evening kick-off and never really got its offense rolling. Quarterback Paul McKibbins rushed twice for 10 yards. George Ragsdale hit the hole for eight, and Al Holland bullied for six more yards, but Central closed the door from there.

With massive 6'5 1/2" and 250 pound defensive end Charles "Bubba" Smith shifting to the defensive tackle position, A&T was not about to run up the middle. Smith, 6-11, 280 pound James Gravitt and Ronald McNeill kept the heat on McKibbins all evening long by forcing bad passes and poor hand-offs.

On a drive that started from its own 22-yard line, Central drove down the field with some bruising running. But the drive stalled on the A&T eight-yard line when the Aggie defense rose to the occasion with some tough tackling.

Boykin then added a 25-yard field goal to end the first half scoring with Central leading 10-0.

On a drive that started from its own 22-yard line, Central drove 79 yards in six plays to score again. Smith rushed three and two yards to cop the drive with his second touchdown of the day.

Being behind 16-0 and with time running out in a game with their arch-rivals, the Aggies relied on Ragsdale's 46-yard punt return to set-up their only score. Following this long return, McKibbins scored from one yard away, but the Eagles were going to stay number one on this day.

BLOODSTONE
Gold Swamps Blue In Intra-Game: May Be On Way To Third Crown

By Bonnie E. Bowens

The 1973 Blue-Gold football game was a reliable basis upon which a judgment may be made about the upcoming season for A&T, then the Aggies may be on the road toward their third MEAC crown in succession.

The final score of the game was the Grooves 26 over BOSS. The score was set up on a 65-yard pass from Morton to Ron Johnson, who also scored on a 26-yard scoring run.

South Carolina State

TALLAHASSEE, Fla. (AP) — Florida A&M picked South Carolina State on Monday as its opponent in what could be the most heated battle of the year.

The nexi action for the Aggies will be in Charlotte and Wilson for 1973. The other two games will be on December 1 in Greenville and November 30 at Fayetteville. In the Fayetteville Invitational Karate Tournament, the men were blanks.

Grooves Float Over Quess 26-0

By Robert Brooks

By Robert Brooks

Last week Groove Pto Groove defeated Quess 26-0 before one of the largest crowds ever to witness a flag football game in Holland Bowl. The attendance was estimated at 500 plus for the thrilling ball game.

The Grooves received the opening kick-off and drove 82 yards with the score coming on a 15-yard run by quarterback Steve Morton.

The Grooves threatened to score on their next drive, but Morton killed it with an interception of a Michael Patterson pass on the Groove nine-yard line.

From that point, it was all Grooves as Morton connected with Donnie Wardell for 25 yards for another touchdown. Morton swept around right end for the extra point to increase the score to 30-0 at the intermission.

The final score of the game came on a punt from Morton against this time to "Mingo" Russell covering 35 yards. The score was set up by a 40-yard punt to Ron Richardson.

Excellent defense and ball control were the determining factors of the ball game for the Grooves. Richardson, Napoleon Turk, Morton and the rest of the Groove "ganging" defense played an excellent game for their second consecutive shut-out while Morton and Robert Mack, along with the defense, had key receptions set up most of the Groove scores.

The only other game was the completion of a suspended game won by the Grooves 22-0 over BOSS. Mack was the leader as he scored both touchdowns. One came on a 5-yard pass from Morton and the other on an interception of a George Hand pass down the sideline for 55 yards.

Turk and Mack led the Groove defense, the latter had three interceptions. Richard Brumfield kept the score close for BOSS with two interceptions.

A&T's Karate team tasted victory again this weekend in Fayetteville. In the Fayetteville Invitational Karate Tournament, which was sponsored by Captain Wilton Bennett, a former A&T Karateka, the team faced one of its most heated battles of the year.

Because of financial problems, the team was represented by only three participants and one beginning student who went along in a token action, but this was in no way a reflection of the quality of the Aggie group.

The trend of the Karate finals as he scored an undisputed victory in the semifinals, just short of a five-point tie during the finals. After judging and refereeing all competition during the finals, the Hayes-Taylor YMCA to sponsor the tournament.

The next action for the Aggies will be in Charlotte and Wilson for 1973-74 with the start of the season on November 10 at Fayetteville State.
TED MOODY IS LEARNING HOW TO FLY

“He’s a classy guy. Always went all-out.” These are the words of one of the Dartmouth football coaching staff about Ted Moody, a former star linebacker. Ted graduated from Dartmouth College in ’72 with a degree in Economics and a mission in mind... to be a pilot... A Naval Aviator.

Now Ted Moody is going all out again. This time in Pensacola, Florida as a Naval Aviation Officer Candidate. He is finding out what it takes to be a Naval Aviator. He is finding it takes a lot of classroom work and long hours studying. It takes a lot of work on PT fields and obstacle courses. It takes special training like the parachute slide and the land survival mission in which you must hunt your own food and erect your own shelter. It takes a lot of time in a cockpit and even some old fashioned close order drill. And it takes a lot more. But, most of all, it takes the right kind of man.

No, you don’t have to play football to be a Naval Aviator, but you do have to have a college degree and a lot of drive. And, when the time comes for you to wear your “Navy Wings of Gold” you will know what it takes. It takes your best!

For more information on what it takes to become a Naval Aviation Officer Candidate call, toll free: 800-841-8000. (In Georgia, call 800-342-3853) or mail in the attached coupon. Be someone special.
