Women's Counselors Fail To Show In Court

By Benjamin Forbes

Under the guidelines set by the university, a person being accused of an offense has the right to face his accuser during his hearing, but according to John Kern, attorney general of the SGA, a number of counselors failed to show up for the hearing. When the counselors failed to show up for the hearing, it deprived the students of the right of due process.

Kerns stated that he wrote a letter to Dr. Waverly N. Rice, judge of student courts, expressing his concern about the counselors who failed to report in court. In turn, Rice wrote a letter to Mr. Lucille Piggott, dean of women concerning the matter.

In cases where the dorm counselors fail to show in court, the case is usually sent back to the dean of women, because action against the student cannot be taken since the offender is not present.

Kern was concerned about the use of drugs by students, mainly marijuana. He stated that three cases concerning the use of drugs have come up this semester.

In closing, Kerns mentioned that, about two weeks ago he had a backlog of approximately 90 cases (including last semester).

The last meeting of the University Tribunal will be Thursday, April 16.

Institute Will Award Stipends

The Transportation Institute of A&T State University announced that ten or more student stipends of $2,000 each will be awarded for the 1975-76 academic year. Applications for these grants are available in Room 302, Merrick Hall.

Students must be rising sophomores, juniors, or seniors with high academic ratings and a commitment to transportation as a career to qualify for a stipend.

Each selected student will be assigned as an assistant to a faculty member to help conduct transportation research or training projects. Approximately 20 hours of work per week will be expected of assistant students.

Hours and work assignments will be worked out with the faculty member in charge of the project. Student assistants will be required to complete at least two courses in transportation per year. They may not hold any other jobs on or off campus during the academic year except during school vacations.

Student assistants will participate in many of the Transportation Institute activities including field trips and conferences as well as their assigned projects. In addition to the financial benefits, the student assistants will have an opportunity to obtain valuable work experience in the field of transportation.

There are many exciting and rewarding job opportunities in the transportation industry. Employees seeking students with a background in transportation include mass transit operators, transportation consultants, railroad and trucking firms and local, state and federal agencies concerned with transportation.

Complete applications should be returned to Room 302, Merrick Hall, by April 30, 1975.

Vernon Jordan, executive director of the National Urban League, will address the 83rd Baccalaureate-commencement exercises of A&T State University Sunday, May 4, at 11 a.m. in the Greenville Coliseum.

Degrees will be awarded to a record 900 undergraduates and 180 graduate students during the ceremony.

The graduation exercises will climax a weekend of alumni and student activities. The annual alumni national meeting, the alumni awards dinner and a series of class reunions.

The concluding activity will be the chancellor's reception for graduates, alumni and friends in the Blue Room at the coliseum following the commencement exercises.

During the services, a $500 teaching excellence award will be presented to a member of the faculty and the alumni excellence award will be given to one of the university's graduates.

Jordan, 39, is a graduate of Howard University Law School. He began his fast-rising career as a civil rights activist in the South.

He helped journalist Charlayne Hunter and Hamilton Holmes integrate the University of Georgia and later headed the highly successful Voter Education Project of the Southern Regional Council.

Under Jordan's guidance, the Urban League has generated employment for more than 68,000 men and women over the past several years.

Construction Of Road Continues On Schedule

By Benjamin Forbes

In a statement released yesterday by Gerald Gray, director of physical plant, Benbow Road is approximately 49% complete. According to Gray, construction of the road is on schedule and should be completed by June 13, 1975.

It is expected that construction of the new gymnasium will begin when contract documents for construction submitted by the architect have been approved by the Property Control and Construction Division Department of Administration of the State of North Carolina.

After the documents are submitted and approved, bids are then received and the university selects a contractor.

Completion time for the new gymnasium is set for 70 to 75 weeks, approximately one year and five months, after construction begins.

The document also stated, "Any increase in cost may have adversely affect the building site has apparently been offered by the actions of the administration in acquiring additional funds so that plans to provide swimming pool, basketball court, and other related facilities are expected to materialize."

Benbow Road, when relocated, will pass to the east of the new gymnasium.

It Seems Rather Dumb

The proposal by a state senate appropriations subcommittee to increase tuition at state supported universities is absurd. The proposal calls for a $200 per year in-state student increase and a $300 per year out-of-state student increase. The recommendation to increase tuition came about because the General Assembly was notified that its budget had to be cut by approximately $200 million to meet revenue losses. This meant that the UNC System's budget had to be cut in those areas related to expanded enrollment.

It is evident that the subcommittee doesn't know how hard it is already to meet tuition requirements. With thousands of parents and students out of work due to the present economy, the subcommittee's proposal seems rather dumb.

It would seem sensible for the General Assembly to cut the budgets of other state agencies, instead of cracking down on one particular agency.

If the proposal is passed and tuition increases, it would hurt more than help the UNC System. Those students who can hardly foot today's tuition (most of us) may be forced to drop out of school. This will not only affect Black institutions but predominantly white ones as well. Economic conditions of today make it virtually impossible to meet additional tuition increases.

Here at A&T, an additional $200 in tuition could send enrollment to near rock-bottom levels. That $200 increase to other schools would mean $429 extra for A&T students since the A&T board of trustees approved a $229 increase earlier this year. If my calculations are correct, students here would be paying $1741.50. (This is for in-state students only.) For out-of-state students, tuition would be $3274.50 per year. (Both of the above rates are for students living on campus and taking meals).

It is rather ironic that Sen. Scott's proposal and the subcommittee's proposal all happened in a short span of time.

If the General Assembly knows what's best, it will vote down both proposals.

Benjamin Forbes

Crisis Comes To An End

This column is being written by this columnist for close to the last time. Next year, with the responsibilities of the Student Government as a priority, I don't think that it will be feasible nor desired (by the press) to resume the role of columnist.

The letter created a problem simply because it was nine pages long and thus had to be chopped up into a series of articles.

Then when response started to identify with my name, the three editors Ronald Toppping, asked me to continue and "Crisis" was born. During the three years since its birth the column has been misunderstood, misrepresented, complimented, and even reprinted (by NCCU's newspaper), all of which is good and the bane for progress.

Older Blacks would see me and say "That's the boy that writes all that Black stuff," sometimes even accuse me of "hate," and say "That's that boy that writes all the Black stuff." Sometimes they would pull three inches out, you don't think him for what he is, one kick, one hit to get the other three inches out." And as I still before my articles were intended to be informative and thought provoking, other editors are better at "enjoyable articles." "Crisis," within the next weeks, will come to a close on paper, but as long as Aggies respond to the needs of Black people, both in and outside of Aggieland, things more important than "Crisis" will be taking shape.

(Thanks to all of you)

A meeting sponsored by the CONCERN STUDENTS TO SAVE A&T will be held prior to tonight's movie in Harrison Auditorium at 6:30 p.m. You be there!
SPORTS

Tennis Team Is Having Problems

The way A&T's tennis team has been performing of late, Coach Matt Brown will not have any hair left by the end of this season.

His squad received another sound defeat from North Carolina Central yesterday afternoon at Memorial Stadium by a 7-2 count.

Earlier last week, Central blanked the Aggies 9-0 in Greensboro, and you'll find it only at

Truly the finest apartment value in Greensboro, and you'll find it only at

Creekbend

Some brand new apartments are still available, and you will find such outstanding features as:

1 bedroom townhouse style; carpeted throughout; spacious kitchen with abundant cabinets; centrally air conditioned; beautiful swimming pool; all electric; range & refrigerator; washer-dryer connections and more.

Model apartment with representative on duty 1 to 5:30 7 days a week.

Turnoff Burlington Rd. (E. Market St.) in front of Evergreen's Rest Home, onto Franklin Blvd. & go ¾ mile.

Howard University Appoints New Coach

By Craig Turner

Morris McKee, the senior All-America A&T defensive back, has come to terms with the National Football League's Washington Redskins. McKee and the Washington franchise made the announcement late Friday.

The 6-3, 215 pound strong safety was selected by the Redskins in last week's Select Draft and will report to training camp Aug. 1.

McKee, who was the North Carolina A&T graduate came to Eastern in 1968 as a physical education instructor. In 1972 he received his master's degree in administration from Bowie State College. He has served as a group leader at Lefty Driesell's summer basketball camp an an instructor at Howard Garrett's camp in Pennsylvania.

"We're delighted to have Morris with us," said Miles. "He helped to thar the offensive backfield, however, I think that overall we will be stronger on defense than we were last season."

Due to a lack of a line or an aggressive defense, back-up quarterback Steve Ryan had a long afternoon.

A Washington Redskins' two-game winning streak was eliminated by the University of Washington, 27-13, yesterday afternoon at Memorial Stadium.

The 6-7, 215 pound strong safety was selected by the Redskins in last week's Select Draft and will report to training camp Aug. 1.

“It’s hard to top the challenge and reward NUPOC offers.”

It’s true. The opportunities you’ll have as a Nuclear Propulsion Officer Candidate are far from ordinary. Just ask Lieutenant Junior Grade Charles Collier, from Baltimore, Maryland. Chuck’s a nuclear trained Naval Officer taking advanced studies in the field of nuclear submarine operations. It’s tough, but he thinks it’s worth it. Because Chuck’s next assignment will be in a nuclear powered-Polaris submarine. Destination: the world.

Do you think you have what it takes to become a NUPOC? First, you have to be a college senior, or graduate with a good knowledge of math, physics, or engineering. You’ll also need talent...ability...and character. All the things it takes to be a leader of men and to deal with the challenges of "innerspace".

The graduate level training you’ll receive in our NUPOC program will prepare you for supervising the operation of our nuclear propulsion plants on either nuclear surface ships or submarines. You’ll work alongside a hand picked crew of experts. And remember, it’s a Nuclear Age. The knowledge you get today will be in demand tomorrow.

You get a lot in return, too. You receive a Naval Officer’s commission. Have a guaranteed income while you’re learning. And a chance to travel and have some fun. Talk with your Navy Officer Recruiter today about our NUPOC program, or call toll free 800-841-8000. (In Georgia, call toll free 800-342-5855). NUPOC: it means Nuclear Propulsion Officer Candidate. But it spells opportunity!

The opportunity is for real...and so are we. NAVY

CAPTAIN Robert W. Watkins, U.S. Navy
Navy Opportunity Information Center
P.O. Box 2000 Pelham Manor, New York 10803

Gentlemen:
I am interested in learning about the Nuclear Propulsion Officer Candidate Program.(ON)
