THE A&T REGISTER

"COMPLETE AWARENESS FOR COMPLETE COMMITMENT"

VOLUME XLVIII NUMBER 5 NORTH CAROLINA AGRICULTURAL AND TECHNICAL STATE UNIVERSITY, GREENSBORO SEPTEMBER 14, 1976

Dr. Gray, Totten and Grier inspect twins on farm of Dr. Best.

Mrs. Martin Luther King Fails To Show Monday

By Daryl E. Smith and Craig R. Turner

The announcement printed in The A&T Register, September 10, saying that Coretta King will speak in Harrison Auditorium, turned out to be a mistake when Mrs. King failed to appear Monday.

The occasion was designed to be a platform speech by Mrs. King and John Lewis, executive director for the Voter Registration League, on soliciting students to register and vote in the upcoming elections, in North Carolina and the national election.

Jimmie I. Barber, Greensboro City Councilman, opened the program by telling those present to "participate broadly and effectively in the political process."

Rev. Cleo McCoy offered prayer to the audience, followed by Barber's introducing the Honorable Henry Frye, Representative from the State House of Representatives in Raleigh.

Representative Frye informed the audience on how important John Lewis' voter registration drive has been toward developing participation from Black people across the country. "I credit the work of his organization for a lot of registered voters," he said.

Dr. Lewis C. Dowdy, chancellor, told the attentive audience that he welcomed the action for obtaining increased voter registration.

"We believe in the Declaration of Independence and the Bill of Rights. All we are doing is trying to get America to believe in that, by going to the polls and making America believe it,"

he said.

Dr. Dowdy said, "Instead of the old phrase 'liberty and justice for y'all, we want liberty and justice for all.'"

Barbara Kamara, director of LINC., then introduced Mrs. Lillian Lee, wife of the Democratic candidate for Lieutenant Governor, Howard Lee.

Mrs. Lee told the audience that she was there to represent half of the team of Lee and Lee. "I'm not the woman that stands

behind Howard Lee, but the woman that stands beside him, working beside him," she said.

Continuing she said, "We are going to work for all of the people of North Carolina, and I can proudly say Howard Lee is the most qualified for this position."

Mrs. Lee stressed upon the audience the ability and opportunity that students have today for voting.

"Two hundred years have passed us by, 200 years from now we won't be able to take advantage of this opportunity," she said.

Mrs. Lee ended her comments by saying, "We only have one life to live."

Bert Hall, vice chairman of the Guilford County Board of Commissioners, then introduced John Lewis, the guest speaker.

Lewis then told the audience that Mrs. Coretta King would not be at the program because she had personal problems with her children.

(See Lewis, Page 3)

A&T Professor Receives Grant

If a \$364,000 A&T State University research project proves to be successful, there will be more twins born in North Carolina. Twin cows, that is.

Dr. Richard C. Gray, a professor of animal science at A&T, has been funded by the U.S. Department of Agriculture to seek improvement in the rate of twinning in beef cattle.

"This project could be very important to the small or part-time farmer in North Carolina," said Gray. The emphasis now is on intensifying the production of beef in order to give these farmers additional income.

"If we come up with a desirable rate of twinning in beef cattle, this will mean a more economical way of producing beef and it could increase beef production in the state by 25 per cent," said Gray.

Gray is being joined in his study by colleagues, J.E. Grier and A. S. Totten, both teachers in the Animal Science Department here.

The three-year study will be conducted on A&T's 600-acre farm and research laboratory of McConnell Road.

Gray said he got the idea for the new project from a conversation with Dr. James Best, a Greensboro pediatrician and part-time raiser of Charolais cattle on his Guilford County farm.

"About a year ago," said Gray, "Dr. Best noted 20 per cent twinning in his small herd of cattle. He had six twins out of 30 cattle and that is significant because the normal rate of twinning for Charolais cattle is about one percent."

Gray and the other researchers admit that their

project is an ambitious one.

"There has been work done with sheep on multiple births, but no one has tried to do it from a genetic standpoint," he

said. "We want to examine the chromosomes and study the mechanism which controls twinning."

Continuing, Gray said, "If we can identify combinations of hormones which give us multiple ovulations, we could select

There is always time for the cause of refreshment.

Two Durham Businessmen Face Conspiracy Charges

By Benjamin T. Forbes

John S. Stewart, president of Mutual Savings and Loan Association of Durham and chairman of the A&T board of trustees, was scheduled to go on trial here today in U.S. Middle District Court.

Stewart was to go on trial

along with Walter J. Dozier, a real estate executive in Durham, to face charges of conspiracy and misapplication of funds for two Durham savings and loan companies.

Stewart, Dozier, and four other men were indicted last month.

NTE To Be Given Three Times

Students completing teacher preparation programs may take the National Teacher Examinations on any of the three different test dates announced by Educational Testing Service, a nonprofit, educational organization which prepares and administers this testing program.

Dates for the testing of prospective teachers are November 13, February 19, 1977, and July 16, 1977. The tests will be given at nearly 400 locations throughout the United States, ETS said.

Results of the National Teacher Examinations are used

by many large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the examinations.

On each full day of testing, prospective teachers may take the Common Examinations which measure their professional preparation and general educational background and an Area Examination which measures their mastery of the subject they expect to teach.

Prospective candidates should contact the school systems in

which they seek employment, or their colleges, for specific advice on which examinations to take and on which dates they should be taken.

The Bulletin of Information for Candidates contains a list of test centers, and general information about the examinations, as well as a Registration form. Copies may be obtained from college placement officers, school personnel departments, or directly from National Teacher Examinations, Box 911, Educational Testing Service, Princeton, New Jersey 08540.

Williams Holds Library Position

By Craig R. Turner
Ms. Alice D. Williams has been

named the administrative assistant to the director of the F. D. Bluford Library.

Ms. Williams is a 1975 Summa Cum Laude graduate of A&T and was also a member of the Alpha Chi National Honor Society in the field of Political Science.

She expressed great pleasure at her appointment to the library. "I am proud to be a graduate of A&T. It follows that I am equally proud to be an employee of the University."

Ms. Williams explained some of her duties as an administrative assistant. "In this capacity, I hope to contribute to the already existing and expanding services now being offered by the library to the University family.

In addition to her academic career at A&T, Ms. Williams also served as intermediate computational clerk for Blue Bell, Inc., and as a recreational assistant in her hometown of Washington, D.C.

A&T Register Staff Workshop, Saturday, September 18

Time: 10a.m.-12 p.m. 1p.m.-3p.m.

Graham Hall Auditorium Staff members must be there!**

Sweet Chariot.

I'm an Air Force officer and this is my sweet chariot. When I visit home people are happy to see me. And proud. They say I'm doing my part in the community by showing the young people and the adults that you really can make it. You really can get your share of the good life.

I also feel good about my position in the Air Force community. I'm a leader there, too. I'm someone the other brothers and sisters I meet in the service can look to. And it reassures them to know they have a voice in Air Force matters that concern them.

The Air Force needs more leaders...pilots...aircrew members...math majors...science and engineering majors. You might be one of them and the best way to find that out is in an Air Force ROTC program. There are two, three, and four-year programs. Scholarship and non-scholarship. Why not look into all of them and see if one fits your plans? It's worth it, brother.

Lt Col. Summers Joins AFROTC As Commander

Lt. Colonel Charles E. Summers assumed command of AFROTC Detachment 605 on 23 August 1976. He replaced Lt. Colonel Thurmon Deloney, who was detachment commander from 1972.

Lt. Col. Summers is a native of Greensboro and a 1957 graduate of A&T. He was commissioned as a Second Lieutenant through this ROTC program and received a Bachelor's degree in Electrical Engineering. Lt. Col. Summers is the first commissionee from this detachment to head this unit.

Lt. Col. Summers also holds a Master's Degree in Computer Science from Texas A&M University.

Foundation To Award Fellowships

Inquiries about the Danforth Graduate Fellowships, to be awarded by the Danforth Foundation of St. Louis, Mo., in March 1977, are invited, according to campus representative, Dr. Theodore Mahaffey, administrative assistant.

The Fellowships are open to all qualified persons who have serious interest in careers of teaching in colleges and universities, and who plan to study for a Ph.D. in any field of study common to the undergraduate liberal arts curriculum in the United States.

Approximately 60-65 Fellowships will be awarded to seniors and recent graduates who are considered "Early Entry" applicants in the Program. Another 35-40 awards will be made to postbaccalaureate persons who are called "Late Entry" component to persons 30-40 years of age.

Applicants for the Early Entry awards may not have undertaken any graduate or professional study beyond the baccalaureate and must be

nominated by Liaison Officers of their undergraduate institutions by November 15. The Danforth Foundation does not accept applications for the Early Entry Fellowships, directly.

The Foundation is currently making a special effort to bring qualified persons from the racial and ethnic minorities into the profession of teaching. Approximately 25 percent of the awards are expected to be awarded to American Indians, Blacks Mexican-Americans and Puerto Ricans.

The Danforth Foundation, established by the late Mr. & Mrs. William H. Danforth in 1927, is a national, educational, philanthropic organization, dedicated to enhancing the humane dimensions of life. Activities of the Foundation emphasize the theme of improving the quality of teaching and learning. The Foundation serves the following areas: higher education nationally through sponsorship of staff administered programs; precollegiate education nationally through grant-making

and program activities; and urban affairs in St. Louis through grant-making and program activities.

The Danforth Graduate Fellowship is a one-year award but is normally renewable until completion of the advanced degree or for a maximum of four years of graduate study. Fellowship stipends are based on individual need, but they will not exceed \$2275 for single Fellows and \$2450 for married Fellows for the academic year, plus dependency allowances for children. The Fellowship also covers required tuition and fees.

Weather

NORTH CAROLINA: Considerable cloudiness through Tuesday with a chance of rain in the southern portion of the state Tuesday and over the remainder of the state Tuesday night and Wednesday. Lows Tuesday night in the 60's except 50's in the mountains. Highs Tuesday and Wednesday in the low and mid 80's except 70's in the mountains.

Trustee Board Chairman Faces Charges In Court

(Continued From Page 1)

Chancellor Lewis C. Dowdy said yesterday Stewart was still chairman of the board of trustees here. He also stated that the Board of Governors for the University of North Carolina system, who appointed Stewart will not take any action on his status until after the trial. The chancellor was quick to point out that, "a man is innocent until proven guilty."

According to reports, the four

men involved in the case with Stewart and Dozier pleaded guilty on one count of the indictment. The four are scheduled to be sentenced here September 20.

Dowdy did not care to speculate on Stewart's guilt or innocence, but said he plans to be at the trial.

The first meeting of the board of trustees for the fall semester is scheduled for Wednesday, October 20.

Lewis Urges Citizens To Register And Vote

(Continued From Page 1)

Continuing, he said, "This program is part of a total effort to encourage all of our people to register and vote."

Lewis informed those present that Black and white people will have to give all they can to the political process this year.

"We fought long and hard for the right to register and vote," he said. Lewis said, "As citizens of a democratic society, we must use our right to vote. With that ability, we will be able to build a new North Carolina, a new south, and a new America."

He continued by saying, "With the vote we'll build not just a good South, but a beloved South for human justice."

Lewis said to the audience that thousands of white people are going to the polls and voting.

"The only way that the health and welfare of the democratic process will be strengthened, is by Black people marching by the hundreds and thousands, to the voting booths and voting," he said.

Lewis ended his comments to those present, by saying, "Our's is a struggle of a lifetime."

Entertainment:

Nelle's Corner

By Lynelle Stevenson

It was announced by Dave Glew, senior vice president of Marketing for Atlantic Records that fourteen new albums were released in late August.

The second LP by Manhattan Transfer, "Comin Out" led the release. The LP was produced in Los Angeles and New York by Richard Perry. The first album for Big Tree Records by England Dan and John Ford Coley is "Nights Are Forever," featuring the hit single "I'd Really Love To See You Tonight."

Another new LP in the August release is the original cast recording of the musical, "Selma," a new play based on the 1965 march from Selma to Montgomery, Alabama, by Dr. Martin Luther King Jr.

Broadway's Tony-award winner Dee Dee Bridgewater (of "The Wiz") put out an album co-produced in New York and Muscle Shoals by Steve Scheaffer, and in Los Angeles by Jerry Wexler and Gene Page.

At the same time famed Muscle Shoals guitarist Pete Carr, composed, arranged and produced his instrumental LP for Big Tree "Not a Word on It."

The Jimmy Castor Bunch introduced their fourth album with "E-Man Groovin," while WMOT's Blue Magic did the same with "Mystic Dragons" featuring their hit single "Freak-N-Stein."

Delivering third albums are: Abba, whose "Greatest Hits" includes their newest single "Fernando," Bryan

is sponsoring a

National College Poetry Contest

-- Fall Concours 1976 --

open to all college and university students desiring to have their poetry anthologized. CASH PRIZES will go to the top five poems:

\$100 First Place	\$50 Second Place	\$25 Third Place	\$10 Fourth \$10 Fifth
----------------------	----------------------	---------------------	---------------------------

AWARDS of free printing for ALL accepted manuscripts in our popular, handsomely bound and copyrighted anthology, AMERICAN COLLEGIATE POETS.

Deadline: October 25

CONTEST RULES AND RESTRICTIONS:

1. Any student is eligible to submit his verse.
2. All entries must be original and unpublished.
3. All entries must be typed, double-spaced, on one side of the page only. Each poem must be on a separate sheet and must bear, in the upper left-hand corner, the NAME and ADDRESS of the student as well as the COLLEGE attended.
4. There are no restrictions on form or theme. Length of poems up to fourteen lines. Each poem must have a separate title. (Avoid "Untitled"! Small black and white illustrations welcome.)
5. The judges' decision will be final.
6. Entrants should keep a copy of all entries as they cannot be returned. Prize winners and all authors awarded free publication will be notified immediately after deadline. I.P. will retain first publication rights for accepted poems.
7. There is an initial one dollar registration fee for the first entry and a fee of fifty cents for each additional poem. It is requested to submit no more than five poems per entrant.
8. All entries must be postmarked not later than the above deadline and fees be paid, cash, check or money order, to:

Scratched mahogany woodwork can be repaired by painting the scratches with iodine and polishing.

Students Show Rudeness

Many students were anticipating hearing Mrs. Coretta Scott King in Harrison Auditorium Monday afternoon, but she failed to appear and dozens of students simply walked out of the auditorium. They walked out just as Mrs. Barbara Kamara began to speak and as Mrs. Howard Lee was speaking.

The student's disappointment is understandable but their disappointment does not excuse their rude behavior toward Mrs. Kamara, Mrs. Lee, John Lewis and the others on the platform.

Although Mrs. King could not come, there were other speakers and they too had an important message to impart.

A&T students probably have a reputation throughout the community for simply walking away from disappointments. Students have rudely walked out on other speakers over the years and they often walk away when we are losing in sports.

By now, as college students, we should be mature enough to be able to handle disappointments.

If the students who left yesterday had stayed, they surely would have learned something. Instead they acted childishly because they didn't get what they wanted and they ran away.

'What a coincidence. He's the guy who made up Nixon!'

Which Is More Important ?

By Maxine McNeill

After a long wait, the suspense concerning whether a new gymnasium would be built on A&T's campus has finally been lifted. The framework for the new gym has already been started.

When finished, this new gym will benefit A&T students a great deal; but, more specifically, it will be beneficial to the A&T Basketball team. Of course the gym will benefit the physical education majors but it will give the basketball players the satisfaction of knowing they are playing ball in a new gym that seats 7,400 spectators whereas the old gym seated only 2,000.

If I were a basketball player, that would make me feel good also--but I'm not. I, like most of the students here, will only be a spectator.

The only gripe I have is, if the administration had the interest of the largest number of students in mind, it would first alleviate the overcrowded situation in the dormitories before focusing its attention to the athletes' needs. This could be done very easily with the construction of a new dormitory.

Faculty members and administrators, I'm sure, would not live in the crowded conditions some of the girls on campus live in from day to day. Putting three people in a room which is meant for two is definitely a mistake.

Instead of trying to relieve that problem, the administration would rather comply with the basketball coaches' and players' wishes and build a new gym. I am a student just as the basketball players are. I, for one, feel a new dorm at this point is more important than a new gym.

Will Election Bring Change?

By Daryl E. Smith

President Ford's option on the veto has led the news agencies to tabulate the number of times that he has utilized his veto power. At the last count, Ford had utilized the veto 53 times, with the Democratic Congress overriding his vetoes nine times. The Republican party has manifested the office of the presidency into an image of a hard-nosed executive struggling to keep the fiscal budget in line, the gross national product stabilized, and the number of people on unemployment rolls at a conservative estimate.

On the other hand, the Democrats would like to give the appearance that the office of the presidency has become almost an imperial presidency. The Democrats would love to approach the presidential elections with gusto and a fresh approach to the ills that plague this nation. What about the independent candidates? Men like McCarthy have ideas and solutions that need to be listened to, if not acted upon. What is frightening about this election year is the realization of both parties, that people are starting to become apathetic about the democratic process. A growing number of people are switching party lines when voting and seeking other organizations to express their opinions on the critical issues that exist today. The Democratic organization feels that the Republicans are on the way out of the White House, and they are on the way in. Just what will this election year bring? Will the Republicans and their party pull a fantastic upset in the November elections? Will the 'grits and fritz' team, if elected to the White House, lead this nation into a new era of productivity and increased co-operation between the minority races and the powers that be in this country? All of the questions are abstract in nature, and the only reasonable projection that can be assumed, is the fact that, whoever wins the presidential election, the country is ready for a change. Hopefully it will be a better one.

Library Worker Voices Opinions

Editor of The Register:

Your editorial in the September 10 issue of *The Register*, expressed quite adequately I'm sure, the feelings of the students who attempt to use F.D. Bluford Library. But has it occurred to anyone what impact the frequent and various changes might have had on the personnel who work in the library? Most assuredly it has not been easy.

Many of the workers who are quite aware that, if it were not for the students they would not be here, have met with nothing but frustration—frustrated with moving books and people just to have it done all over again at the whim of each new person who assumes the leadership "because this is the way its being done now;" frustrated with being

given directions to do one thing today only to be directed to do another tomorrow; frustrated with trying to fit what is being done at another university (usually much larger and "white" where financing is no problem) into an inadequately financed program; frustrated with the lack of communication as to just what has happened, is happening, or is going to happen.

Imagine the embarrassment to a staff member who has been here for some time to meet a person in a work area and ask, "May I help you," and then be informed that the person also works in the library; or to give a student directions to locate something only to have him return and say it is no longer there; or to direct him to a person who is in charge of a

particular area and he finds that the person not only is not in charge but no longer works in the area.

One can be made to feel terribly inadequate and at times as if one is losing his mind. (Perhaps this is the ultimate purpose). But I cannot help but feel that the ones who are losing the most is the library patrons—whether students, faculty, or visitors.

As I see it, time may take care of the problems but it might be resolved a lot faster if the administration, faculty, students, library personnel, and even the alumni took an interest in what should be the "heart" of the university.

A Concerned Staff Member

Campus Haps

The A&T Concert Choir will sponsor a car wash at Ronny's Sunoco, 1103 Summit Avenue, Saturday September 18th, from 8:30 a.m. to 4 p.m. The price is \$2.00, which includes cleaning the windows and vacuuming the interior of the car. Come out and support the Choir and have a clean car.

Future Alumni Activity Committee will meet Wednesday, September 15th, in Room 212, in the Student Union. The meeting is scheduled for 8:00 p.m.

There will be a meeting of all Mass Communication majors (including professional English and journalism majors) Wednesday, September 16th, at 6:30 p.m. in Room 228, Crosby Hall. The purpose of the meeting is to collect information that will be helpful in setting up media internships and obtaining financial aid, awards and scholarships. All media students are urged to attend and also information seekers are welcome.

The Senior Class will hold its first class meeting on Wednesday, September 16th, at 7:00p.m. in Hines Auditorium. We are asking that all seniors please be present at this meeting. Items on the agenda to be discussed are planning activities for the year and introducing the senior class officers.

A reward of \$10 is being offered to anyone finding an identification card and a set of keys belonging to Cynthia Watson. Miss Watson can be located at Morrison Hall, or by calling 373-9747.

Omega Psi Phi Fraternity proudly presents the ultimate battle of the bands, with Funkhouse, Trussel and Nebulus, Saturday, September 18th, in Moore Gymnasium after the football game. Admission is \$2.00 with college I.D. and \$3.00 for general admission.

Alpha Kappa Mu will hold its first meeting of the year, Wednesday, September 15, 1976, at 8:30p.m. in Room 109 Hodgin Hall. All members please be present.

Applications are now available for seniors wishing to apply for Who's Who Among American Colleges and Universities in the dean of women office on the ground floor of the Dudley Building. Deadline for returning applications is September 23.

Capt. Boozer Joins AFROTC Staff

Captain Steven G. Boozer has joined the AFROTC staff as an Aerospace 400 instructor. He stated that his job as an ROTC instructor is to insure that the Air Force receives highly competent and qualified personnel to be commissioned through the AFROTC program.

He later gave his opinion of what he thinks of the Air Force "I think that the Air Force is a rewarding career in regard to both compensation and job satisfaction."

"I expect to achieve a great deal of personal satisfaction by influencing and helping others to

attain a commission as an officer in the United States Air Force," stated Boozer.

Capt. Boozer received his B. A. degree in Aviation Management from Auburn University in December 1969. He was commissioned as a Second Lieutenant in the Air Force, in June 1970, and attended Pilot Training School at Del Rio, Tex. from August 1970 to August 1971.

He was assigned to the 908th Air Refueling Squadron at Kincheloe AFB, Michigan. While at Kincheloe, Capt. Boozer served as a co-pilot in KC-135 Aircraft from August 1971 to

August 1973, and also functioned as Aircraft Commander of KC-135 Aircraft from August 1973 to August 1976.

Capt. Boozer received his M. A. degree in Management and Supervision from Central Michigan University, June 1976.

He is married and the father of a daughter, age 11, and a son, age 8.

Capt. Boozer

Student Leaders Form Task Force

Student body leaders from Howard University along with student body presidents from 14 Black colleges and universities were scheduled to meet in Washington, D.C. Monday for the formal signing of a Unity-Alliance Pact.

The signing of the pact was to take place during a scheduled press conference held at 11:00 a.m. on the campus of Howard University.

This Unity-Alliance Pact was a major effort by Black institutions to establish the framework and guidelines in organizing, on a national level, to alleviate critical problems which threaten the survival of Black institutions of higher education.

The initial work on the pact began in July when the Howard University Student Association initiated a survey to 114 Black

colleges and universities to ascertain if there was a need for a national thrust to deal collectively with the problems facing these institutions and their preservation.

As a result, a core group of seven colleges met at a summit meeting in Atlanta to explore the possibility of organizing on a national level. In August, a second summit took place which increased the size of the core group from seven to fifteen members forming the Task Force for the Survival of Black Institutions of Higher Education.

The present task force, which is now working to recruit other Black colleges and universities, include student body representatives from Alabama A&M University, Alabama State University, University of Arkansas at Pine Bluff, Dillard University, Florida A&M

University, Howard University, Jackson State University, Kentucky State University, Morgan State University, Morris Brown College, A&T, Southern University, Tennessee State University, Texas Southern University, and Tuskegee Institute.

The task force, headed by Co-Chairpersons Cheryl Mobley from Florida A&M and Luther Brown from Howard, will also address itself to the need for maintaining lines of communications between Black institutions and to facilitate the exchange of vital data which are needed to monitor and assess the progress of each institution if they are to prevail.

Living conditions in Scott Hall will improve, someday.

A&T Researchers Will Buy Cows

(Continued From Page 1)

animals on the basis of these hormones and mate them with bulls with desirable combinations of hormones. We could then produce a more desirable way of producing beef."

The A&T researchers will purchase 40 cows and 40 bulls for their experiment. Half of the herd will comprise a control group and the other half will be the experimental group.

In addition, Gray said the researchers will also study some of the animals from Dr. Best's

herd. In trying to come up with a better understanding of twinning in beef cattle, Gray said he will study such things as blood levels chromosome karyotypes, physical characteristics and physiological characteristics of the animals.

Gray is hoping that the team will be successful in discovering something important about the correlated predictors of breeding value for twinning.

"Effecting improvement of the rate of product reproduction offers one of the greatest opportunities for increasing the

efficiency of beef production," he said. "In addition to the direct economic impact of more calves on profit, increased size of the calf crop allows greater selection intensities for other traits and has an important impact on overall genetic improvement."

SPORTS NOTEBOOK

By Craig R. Turner

South Carolina State completely and utterly disposed of Delaware State 30-0 in Dover, Del., this past weekend; and it was no surprise. The Bulldogs controlled the contest from beginning to end and were never really challenged.

Coach Willie Jeffries' club used a doomsday defense which allowed the Hornets a minute 24 yards total offense. That's right, 24 yards.

To get an idea of how far that is just take 24 normal steps forward. That's all. It is beyond any kind of realization as to how anyone could virtually stop an entire football team in the course of a normal game, running somewhere in the neighborhood of 45 offensive plays.

It reminds me of last season when the Aggies went down to Orangeburg, S.C., and picked up a minus two yards rushing and lost 7-0. Now, after watching the Aggies having their heads swollen this past week into believing that they can't be stopped, it is little reason why so many folks think that the Bulldogs will do the same to A&T. They may be right.

A&T can move the ball against State. They can also shut off the South Carolina offense as well. For that matter, A&T can win the ball game, but only if some of those "fat heads" deflate between now and Saturday night.

It's a little early but the professional basketball season will have a different look at least for the New York Nets. Kansas City dealt Nate Archibald, the best pure guard now playing in the NBA, to the Nets for Brian Taylor, and Jim Eakins and two future draft choices.

Julius Erving and "Tiny" Archibald on the same squad? How about Los Angeles picking up Sidney Wicks to go along with Kareem Jabbar? It should be a fun season.

A&T will use this week to adjust to the South Carolina State style of play in their practice sessions. It will also be a time for the Aggies to refine some of their not-so-sharp techniques. South Carolina will roll into Greensboro around Friday and will work out that same afternoon here.

Fans will get to see one of the best football games that will be played in this city in a long time. I would advise all those who plan to go to this game to be at Memorial Stadium early. You may not get a seat.

The A&T offense will be the key against S.C. State.

Season Begins With No Upsets

By Craig Turner

Saturday marked the first big weekend of college football in this area and surprisingly enough there were no upsets of any note.

Action was hot and heavy in the Black collegiate ranks this week as all the top rated teams saw action except for A&T. The MEAC, considered by many to be the strongest football conference this season, fared well against outside competition.

North Carolina Central put on an awesome display of offense as the Eagles blasted CIAA foe Elizabeth City 34-0 in Durham. Morgan State fell behind early, rallied, and then held on to capture a 28-23 win over Virginia State in Petersburg, Va.

In the only conference game on tap last week, South Carolina State manhandled Delaware State defensively and used a vastly improved offense to annihilate the Hornets 30-0 in

Dover, Del. The Bulldogs allowed a mere 24 yards total offense to Delaware.

Maryland-Eastern Shore seemed unable to show any signs of life and extended its losing streak to 18 games by dropping a lopsided 30-0 score to Towson State.

In other action around the country, Hampton stopped Winston-Salem, 27-22, J. C. Smith outlasted Lenoir Rhyne

20-17, Livingstone buried Virginia College 44-0, and Fayetteville State romped past Fort Bragg 29-0.

Elsewhere, Elon managed a field goal early in the game to upend Norfolk State 3-0. Bethune-Cookman outscored Texas Southern 27-22, Albany State bumped Kentucky State 26-20, and Virginia Union shut out Fisk 14-0.

Lawrence Runs 98 Yards In NCCU Win Saturday

Fullback James Lawrence ran for two touchdowns and piled up 98 yards rushing to lead North Carolina Central to a 34-0 victory over Elizabeth City State in N. C. Central's opening football game of the season Saturday.

Lawrence broke for both his touchdowns on one yard runs in the second quarter after the teams battled without scoring in the first quarter.

Wide receiver Reginald Smith broke lose in the third quarter on third down and five yards at the Central 25 and scampered 75 yards for the third score.

Smith compiled 136 yards with six punt returns and Lawrence's first touchdown on a 43-yard return.

N. C. Central quarterback Ricky Moore scored from nine yards out on a keeper in the fourth quarter.

The final score came when reserve quarterback Alvin Cauthorn scored from the one on a roll out.

The win came in the opening game of the season for Central, and dropped Elizabeth City's record to 0-2.

A&T Aggies To Play South Carolina State

By Craig R. Turner

Fresh from a convincing 30-0 victory over Delaware State last Saturday, South Carolina State will do battle with A&T this coming Saturday night at Memorial Stadium.

The 7 p.m. conference game will match the two co-champions of MEAC of a year ago. Last season South Carolina defeated the Aggies 7-0 in Orangeburg, S.C.

The Bulldogs lost later into the season to North Carolina Central. A&T went on to win the remainder of its conference

games to give both clubs identical 5-1 league marks.

Head coach Willie Jeffries welcomed back 19 starters from his 9-1-1 team of a year ago.

The Bulldogs ranked tenth last season among all teams in total defense and first against rushing by allowing only 36 yards per outing.

The main stay of the defense is Robert "Micky" Sims. Sims, a 6-6 295 pound tackle, was All-America last season and has been All-MEAC the last two years.

(See Bulldogs, Page 8)

At least it won't take 58 cents a gallon to get up this hill.

S.C. State Bulldogs Are Second Rate Aggies!!!

Bulldogs Have Tough Defense

(Continued From Page 7)

All-America Harry Carson is gone via graduation. Taking over the end spot will be Johnny Moore (6-4, 225). Teaming at the other tackle is 6-1, 260 Larry James.

The linebacking core also has its share of All-MEAC players. The best of them and perhaps the best in the conference is senior Jerone Edwards (6-2, 200).

The middle man is Charles Haynes (6-3, 235) and the weak side coverage will belong to Rudolph Bryant (6-2, 220). Bryant was the key to State's stingy rushing defense last year.

The secondary is rarely tested; but, when it is, three All-MEAC picks wait on hand. Leonard Duncan (5-10, 175), Stan Clinkscales (6-1, 200), and Bruce Jackson (6-2, 195).

But the best of the deep backs is All-America candidate Anthony Evans. Evans, at 6-1, 198 pounds, led the squad in interceptions and punting with a 38.8 yard average.

He has been All-MEAC for three seasons and should be one of the top return men that the

Aggies will face this season.

However, South Carolina State did not put 30 points up on the scoreboard against Delaware with just defense.

The Bulldogs have the best rushing attack in the conference. One reason is tailback Charlie Burgess. Burgess rushed for 687 yards and set a Bulldog single game record with 219 yards against Howard.

Burgess (6-2, 190) will be flanked by fullback Jackie Reed (6-1, 210), who averaged 4.8 yards per carry. Both have considerable speed and power.

The quarterback situation has settled on junior Jesse Prather (6-0, 180), who took over at mid season and did a considerable job. Backing him will be veteran Arbie Lagoon who started three games in 1975.

The other reason for the superb rushing of the Bulldogs is their offensive line. They are large and quite experienced.

Larry Simpkins will start at tackle. The 6-2, 270 pound tackle will double with Milton Glover (6-2, 255).

Guard Luther Dixon (5-11, 225) was the only Bulldog to make the first team all conference squad.

The pass catching duties will belong to tightend Keith Franklin (6-4, 215) and wide receiver Lewis Pinkston.

Bulldog coaches are very high on the sophomore Franklin and think he will be vastly improved this season.

Pinkston caught 20 passes for 294 yards for a ground oriented offense.

The kicking game may prove to be the difference and this is where State is the strongest. Leroy Mason (6-1, 200) kicked 66 punts, 16 extra points, and connected for six field goals last year. Scouting reports point out that Mason will be much improved.

Gametime for the crucial MEAC affair is set for 7 p.m. at Memorial Stadium.

Coeffield and Holland look on as Aggies defeat Virginia.

Aggies Express Opinions About Division I Ranking

By Archie B. Bass

A&T athletically has proven itself to be a dominant powerhouse in all sports. As an end result athletically, we lack top-notch rankings, or Division I rankings in football.

Several Aggie students were asked to comment on the topic, - should A&T go to Division I?

Shafter Manuel, a sophomore Industrial Technology major

said, "I think we should because we can get more publicity as a tough athletic foe."

Alden Richardson, a senior physical education major, stated, "I most definitely think we should go Division I because the potential and talent are here."

Angela Watson, a junior, physical education major, stated her opinion on the subject by saying, "A&T should because it gives us an opportunity to face good competition."

Intramural Sports Need More Women Desperately

By Michael R. Davis

Ernest Gaskins, assistant intramural director, announced Thursday that this year's program is in desperate need of more participants, especially women.

"At present, this year's intramural football program consists of only six male teams, as compared to ten or more teams last season," he replied.

"Powder-puff football" will be the main type of winter game

played in the women's league for the first time in A&T intramurals.

The entire program will be equalized, allowing women to compete in the same competition men compete in.

"Even though, there will be separate leagues in football intramurals, there will be a few coed games throughout the season.

"Horseshoe throwing and rolling hockey will possibly be

added to the list of intramural games," Gaskins reported.

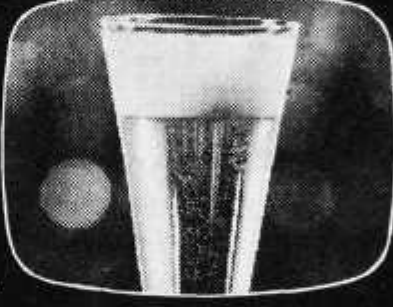

Concluding, he said, "Participation on behalf of all students both male and female, is the key to a successful intramural program.

Ernest Gaskins

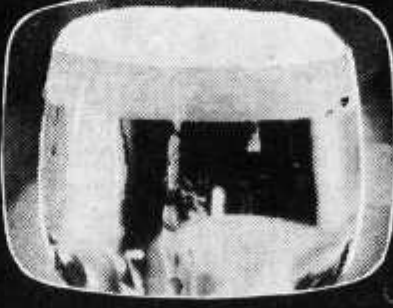

Should you sip beer or what?

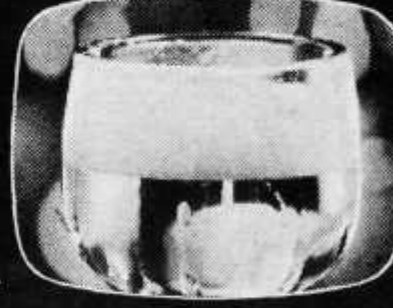

1. Sip ... by sip ...

2. ... by sip. That's one way to drink beer — and it's fine.

3. But when it's Budweiser®, why not try a good, l-o-n-g drink?

4. Ahhhh. That's the best way to enjoy Bud's rich Beechwood Aged flavor and aroma.

5. Of course, long swallows might empty your schooner sooner ...

6. but look at the bright side: it sure was great while it lasted!
