Alpha Chi Honor Society Inducts 57 Members

The N.C. Theta Chapter of Alpha Chi National Honor Society inducted fifty-seven new members in an afternoon ceremony Sunday in the Student Union.

Alpha Chi is a general honor society which invites juniors and seniors of all majors with a 3.3 grade point average to join.

In addition to the induction of new members, the seniors who will graduate in the fall were honored with plaques. Also new officers were installed and Mrs. Martena Wooten was given a plaque as a gesture of appreciation by the group.

Hilda M. Pinnix was installed as president; Brenda Banks, vice-president; and Jeanette Johnson, as secretary. Mrs. Lucille Piggott is the society's advisor.

The members inducted Sunday were Charles Arnold, Henti Baird, James Barber, Vincent Blackmon, Vickie Blount, Wanda Brown, Lorenzo McCann, Morris Carey, Beverly Chambers, Sharon Copeland,

James Courts, and Aaron Daye.

The list continues with DeRome Dunn, Asugus Ebiana, James Farrior, Ernest Fleming, Earlene Fuller, Camelina Graeber, Bynum Hancock, Sabryna Hamilton, Patricia Hardy, Gloris Heath, Harvey Hilderbrand, Freda Jackson, Maxie James, Carolyn Jenkins, Michael Jenkins, Patricia Johnson, Jerry Kennon, Rita Lester and Yolanda Lipscomb.

Also inducted were Annie Mackie, Lee Kin Man, Jeannette Marks, Bennett Martin, Carol Mathis, Janet Maye, Charlotte McKoy, Ivy Moody, Mrylin Murphy, William Murray, William Nance, Melvin Parker, and Katrina Platt.

The list concludes with Geraldine Russ, Janice Shird, Israel Springs, Milton Tucker, Priscilla Walker, Alexia Wallace, Jacqueline Webb, Masaru Williams, Monica Williams, Charles Williamson, and Evelyn Wooten.

Rainy days and Mondays will really get you down.

Researchers Study Cattle Feed

Two A&T researchers believe that some traditional dairy beef can be made more acceptable for table use by a special feeding process.

"We have proven that Holstein steers can be fed to produce quality beef," said J.E. Grier, director of the federally funded research project. "This will have to be further proven by some special taste panels."

Grier, an assistant professor of animal science in the School of Agriculture at A&T, is being joined in his two-year study by

A.S. Totten, R.C. Gray and W.W. Boone.

Normally, said Grier, dairy beef, because of its coarseness, goes into corned beef, processed beef and for use in soup.

With the dairy cows used in his experiment, Grier has come up with beef that is average good. "That means that we have a dairy beef which could be used as block beef; that is, used for steaks.

Grier and his associates believe that the feeding process might have something to do with the quality of meat achieved. His experimental cows, which were fed on drylot (without pasture and grain), achieved weights of up to 1,100 pounds in 355 days. This group was fed strictly with mild replacer, protein, corn oil meal and soybeans, but never in pasture.

The control group, which had been fed in pasture, averaged about 795 pounds, around 300

pounds less than the experimental group.

Grier also noted that the per-pound cost of achieving the big gain in weight for the experimental group was around 29 cents. This, he said, is four cents less than it usually costs for such weight gain.

Even with the early results, Grier said he can't conclude yet that the drylot method of feeding is least expensive. His control group, which was initially fed on pasture, is now being subjected to drylot feeding.

"It might mean that a person with pasture might keep his cows longer, but that this might turn out to be cheaper in the long run."

At any rate, Grier believes that success of his project might encourage some small or part-time farmers in the state to begin producing dairy beef as a supplemental source of income.

International Pianist Will Perform Tonight

Internationally acclaimed concert pianist, Natalie Hinderas, will present a free public concert in the Richard B. Harrison Auditorium tonight.

Miss Hinderas' works will include "Sonata No. 3 in B Minor, Opus 58" by Chopin; "Impromptu in C Minor, Opus

90, No. 1" by Schubert; "Mephitto Waltz" by Liszt; and "Chromatic Fantasie and Fugue in D Minor" by Bach.

Born in Ohio, Miss Hinderas was a child prodigy and performed her first recital at the age of eight. Shortly afterwards, (See International, Page 3)

Another day comes to an end.

A&T Music Department Holds Opera Workshop

The sixth annual A&T Opera Workshop will be presented in the Richard B. Harrison Auditorium on Thursday and Friday at 7:30 p.m.

Sponsored by the Music Department, this year's presentation will be entitled "A Night at the Opera."

The program, directed by Mrs. Sheila Carver, will consist of performances of individual scenes from a variety of operas.

The students, performing as soloists and in duets and larger groups, will present famous arias from such works as "La

Durham Businessmen Get Prison Sentences

By The Associate Press

Six men involved in Durham's savings and loans scandal were sentenced in federal court Monday to prison terms ranging from 18 months to five years and assessed fines.

Judge Eugene Gordon sentenced C. Paul Roberts, Durham developer, to five years and fined him \$5,000 for misapplication of a \$1.2 million loan from the Home Savings & Loan Association of Durham.

Walter A. Biggs, former president of Home Savings & Loan, was fined \$5,000 and sentenced to three years for misapplication of a \$17,646 loan from Homeco, a service organization of Home Savings & Loan.

Biggs' son, Thomas A. Biggs, was sentenced to two years and fined \$10,000 for falsifying a loan application at Mutual Savings & Loan of Durham.

Thomas C. Upchurch, a former president of Home Savings & Loan, was given 18 months and fined \$10,000 for benefiting and profiting from

seven loans of Home Savings & Loan of Durham totaling \$224,000.

Walter J. Dozier was sentenced to three years and fined \$5,000 on two counts and two years and \$5,000 on two more counts, the sentences to run concurrently.

John S. Stewart, on leave from his post as president of Mutual Savings & Loan and A&T Trustee Board member was sentenced to three years and fined \$10,000 on one count of falsifying a loan application and two years on a second count to run concurrently.

Walter and Thomas Biggs, Roberts and Upchurch pleaded guilty. Stewart and Dozier pleaded innocent and were convicted. They have filed notice of appeal. The other four are scheduled to report to a federal prison as yet undetermined on Feb. 1.

U.S. Atty. N. Carlton Tilley said he feels the current emphasis on white collar crime is in the right direction and that the six men were an example of people who occupy positions of responsibility and who abuse it.

In a final plea of innocence, Stewart said, "Regardless of your decision and even though I've been mistreated and discriminated against most of my life, I'm going to keep the high road."

Brrrrrr!! When the temperature gets down in the teens, it's c-c-c-cold!!

Disturbances Occur In Union

By Maxine McNeill

Because of several disturbances which occurred in the Memorial Student Union, a campus police officer was assigned to patrol the union two weeks ago. There have been no problems in the union since then.

Norwood McMillan, security director, said he was asked to assign an officer to the union

after a series of events occurred. The window on the south side has been broken three times, and outbreaks in the game room and at dances are a few of the incidents cited by McMillan.

McMillan plans to do a feasibility study to see if the officer really needs to patrol the union. He said this is because he

has only a limited staff but numerous requests for officers. This way, he will be able to determine where security officers are needed most.

"This is not just for the union," said McMillan. "I will do a study for all requests made on campus to see if they are feasible."

According to McMillan, the (See McMillan, Page 5)

A&T Architecture

Program

Presents Exhibit

The landscape architecture program at A&T will present the American Society of Landscape Architects Professional Awards exhibit in the Clinton Taylor Art Gallery December 5-15.

The exhibit of award winning paintings and drawings from across the nation is being co-sponsored by the National Endowment of the Arts. The exhibit will be shown Monday through Friday from 9a.m. to 5p.m. and on Sunday from 2 to 5 p.m.

The exhibit will include public projects, renovations such as the Eastside State Park project in Raleigh; the Treetops Development in Hilton Head, Island, S.C.; the Beaufort County Regional Development Plan and the Children's Zoo in Akron, Ohio.

FRESHMAN AND SOPHOMORES

Next year you could be on scholarship.

* An Air Force ROTC 2-year scholarship. Which not only pays your tuition, but also gives you \$100 a month allowance. And picks up the tab for your books and lab fees, as well.

And after college, you'll receive a commission in the Air Force...go on to further, specialized training...and get started as an Air Force officer. There'll be travel, responsibility, and a lot of other benefits.

But it all starts right here...in college...in the Air Force ROTC. Things will look up...so look us up. No obligation, of course.

* 3 YEAR SCHOLARSHIPS

ALSO AVAILABLE

AIR FORCE ROTC
CAMPBELL HALL
NCA&T STATE UNIVERSITY

Entertainment:

Nelle's Corner

By Lynelle Stevenson

The High Point Theatre and Exhibition Center will be presenting a series of entertaining programs this month.

The first is "Look Homeward Angel", a play adapted from the novel by Thomas Wolfe. *Look Homeward Angel* is an autobiographical-fiction story of a young writer in North Carolina.

The play is the winner of the Pulitzer Prize in Playwriting and the New York Critics Award for best American play of the 1958 season.

"Look Homeward Angel" will be directed by Richard Altman, a well known professional actor and director. His directing credentials include major productions in London and New York with such major stars as Liza Minnelli and Carol Burnett.

Tickets may be bought at the Theatre Box office: \$3.00 adults and \$2.00 for senior citizens and students.

Show time will be December 10 and 11 at 8:00p.m.

The second program will be "The Harvesters and Cathedrals Quartets", on Saturday, December 18, at 8:00 p.m.

The Harvesters Quartet consists of Richard Coltrane, baritone; Bob Thacker, bass; Pat Brown, tenor; Richard Lee, lead; and Earl Brewer on piano.

The Cathedrals are Gospel singers from Stow, Ohio. Members of the Cathedrals are Haskell Cooley, pianist; Glenn Payne, lead; Toy Tremble, tenor; George Webster, baritone and bass guitarist, and George Younce, bass singer and group M.C.

Reserved seats will be filled on a first-come, first-serve basis and will cost \$3.00 for the main floor and \$2.50 for the balcony.

The last show will be the Christmas Film Festival presented on December 28 and 29 at 7:30p.m.

On Tuesday "The Great Race" will be shown along with a short cartoon of the Road Runner.

On Wednesday, "Oliver Twist" by Dickens will be presented. This captivating musical was the winner of six academy awards and features a superb British cast and unforgettable musical score.

Tickets will be available at the door for \$1.50.

Here it is, folks, a whole month of entertainment for you to enjoy. Try it; you might like it.

Freshman Class Sponsors 'Sun'

by Lynelle Stevenson

The freshman class is sponsoring a show and disco featuring SUN in Moore Gymnasium on Saturday, December 11.

The show will begin roughly at 10p.m., immediately following the A&T/Winston-Salem State game and last until 2 a.m.

Freshman Class President, Bobby Henry from Washington, D.C., said, "Seeing that nothing else was planned on campus for this weekend, we the freshman class want to do our fair share."

Admission will be \$2.00 with I. D., \$3.00 without.

This will mark the third function sponsored by the freshman class. The first was a very successful donut sale and the second a disco in Moore Gymnasium.

The freshman class' ultimate activity for the year will be a formal class ball in April. According to Henry, the ball will be for freshmen and their guests. Plans are still in the making.

In conclusion, Henry made this statement for his fellow

classmates: "If you need assistance in classwork or would like to participate in the functions sponsored by the freshmen class, contact any of the officers."

International Pianist To Perform Tonight

(Continued from Page 1)

she was enrolled in the Oberlin Conservatory of Music and became that college's youngest graduate.

She continued her studies with the famed Olga Samaroff at Juilliard and with Edward Steuermann at the Philadelphia Conservatory of Music.

Miss Hinderas made her debut at Town Hall. Since then she has performed with virtually every major symphony in the United States.

On two occasions, she has been selected to represent the U.S. State Department as an American cultural ambassador.

Miss Hinderas is a professor of music at Temple University and a trustee of the Oberlin Conservatory. She also serves on the Pennsylvania Council of the Arts, the National Endowment of the Arts, the All Star Forum

in Philadelphia, and the Afro-American Music Opportunities Association.

Don't Let This Happen

The North Carolina State Legislature for years has insisted that the state supported schools cut down on spending. Yet a group of those same legislators are wasting the taxpayer's money by supporting a feasibility study for a sports arena in the Research Triangle area (Durham, Raleigh, and Chapel Hill).

According to reports, some of the members of the legislature wanted a 48,000 seat indoor arena for basketball, football, track, etc. The estimated cost of such a facility would be approximately \$50 million. Considering where the proposed arena would be located, only three schools would benefit from the project. Those schools are N.C. State, Duke, and UNC-Chapel Hill.

Last year the General Assembly appropriated close to \$4,000 just to study other arenas. As a result of that study, two experts in the area of coliseum management have said the idea of building a sports complex in the said area would not be feasible.

Even though the experts said the complex would not be feasible, reports have it that the legislature still has the "intent on building some type of facility in the future." Anyone who would insist on building the facility now should not be a representative of the people of this state.

The arena is only wanted by a certain segment of the population. According to the Greensboro Daily News some had complained that "current arenas on individual campuses didn't provide enough seats for persons including lawmakers—who wanted to attend games." Well, if the lawmakers want seats, then they should get to the games well in advance. It's as simple as that. That is the best solution and it wouldn't cost the taxpayers \$4,000.

Surely there are others who feel the same way—especially Blacks. Everyday we hear, eat, sleep, and breathe Carolina, Duke, and State from the media. This we can tolerate. But we can not tolerate letting the legislature push an unwanted sports arena down our throats. Besides, the Black schools in that area, (especially St. Augustine's Shaw, and NCCU) would hardly get a chance to use it.

We can not sit by and let this happen.

Marines Face Pretrial Hearing

Three Black Marines charged in a raid on a barracks party in which six whites were injured faced a pretrial hearing yesterday at Camp Pendleton.

The raid occurred November 13 at a beer party thrown by seven white marines. A group of

Blacks invaded the barracks with pipes and screwdrivers, sparking speculation that their aim had been to disrupt a Ku Klux Klan meeting.

However, the Klan meeting was being held in an adjoining

barrack.

Since the raid, officials at Camp Pendleton have tried to ferret out Klan members, and 16 whites known to have belonged to the white supremacist organization have been transferred to other bases.

Let's Keep Our Home Clean

By Maxine McNeill

Some administrators favorite words seem to be, "you students are not as responsible as you should be." What have students done now, you ask? Well, it seems that students pollute the campus with garbage which could be thrown in the waste baskets around campus just as easily as it is thrown on the grounds.

This is true of students, visitors and administrators as well; but, since students live on campus, it seems they should take special pride in seeing that it is free of litter. Sure, this problem is not one unique to A&T; but Aggies should be too proud to compare themselves with other colleges when discussing an issue like this one.

Representatives from the physical plant are responsible for seeing that the grounds are clean but one administrator said it does not do them any good to clean up if

students litter; the grounds again immediately after they finish cleaning. That statement is true.

If the maintenance workers do clean the campus as it is said they do, it should be the responsibility of each student to see that it stays clean. Students can do that by placing all their litter in the waste baskets instead of on the floor or ground.

As one administrator said, "Students ought to demand a clean campus." That is almost acceptable because administrators should demand that their place of residence during the day be clean, also.

With the cooperation of everyone who says he respects A&T, this problem will be resolved shortly. No one wants visitors on campus to think of A&T as a pig pen, so lets take pride in our temporary home. Please do not litter.

Campus Haps

There will be a staff meeting of the A&T Register Wednesday at 7:30 p.m. An editorial meeting will follow at 8:00 p.m.

The SNEA is currently recruiting new members for its organization. The member that recruits the most members will be given a prize. Anyone interested in joining should contact E. Harper, Room 213, Hodgin Hall.

Alpha Kappa Mu Honor Society will hold its monthly meeting, Wednesday, December 8, 1976, in Room 109 Hodgin Hall. All members, please be present.

Looking for someone to share an apartment.. Located at 3208 Palms Apartments, Apt. F on Lawndale Drive. Contact Josephine Furgerson at the Department of Social Services between 8 a.m. to 5 p.m. Must have own transportation.

The Agronomy Club will have a meeting December 8 at 7:00p.m. in Room 112 Carver Hall. Joel Miller will give a report on ASA Convention in Houston.

Lost in Hodgin Hall Tuesday.: A brown wallet containing driver's license and student I. D. If found, contact Larry Thomas in Room 304-C, Senior Dorm. A reward is being offered.

Supreme Court To Review Appeal

Supreme Court yesterday agreed to review an appeal from Black voters in South Carolina challenging the constitutionality of the state senate's reapportionment plan.

The court said it will study what appeared to be conflicting rulings between a three-judge district court in South Carolina and the U.S. Circuit Court of Appeals in Washington.

The controversy began in 1972 when South Carolina passed a reapportionment plan for its state senate that called for multi-member districts.

Candidates in each district were required to run for numbered posts, and, if not obtaining a majority of the vote, enter a run-off.

The state submitted the plan to the U.S. attorney general's office, which noted that the plan was being challenged before a three-judge federal court and did not comment on the plan's merits.

The federal court, in an opinion by Judge Clement F. Haynesworth, found that the reapportionment plan was not discriminatory in its effect on Black voters in the state.

The circuit court agreed, and ordered the attorney general to object on grounds that the plan did not comply with regulations of the Voting Rights Act of 1965.

One of the Black plaintiffs in that case took his objections to the U.S. Circuit Court of Appeals in Washington arguing that the attorney general should have objected to the redistricting plan.

South Carolina argued that it had complied in good faith and that the attorney general had failed to reject the plan in the required 60-day period.

McMillan Plans Study Of Campus Security

(Continued from Page 2)

officer in the union really serves as a monitor. If outbreaks occur, he will inform the officers patrolling outside the union.

McMillan plans to have his feasibility study completed by the first of January. Then he will

decide whether it is necessary for an officer to patrol the union.

"A lot of little things cause problems and need attention," said McMillan. "I feel we should stop them before they get started."

Aggies Open Season 61-57 Over Livingstone

By Dennis Bryant

The A&T Aggies, led by Charlene Henderson and Cheryl Armwood, opened the 76-77 basketball season with 61-57 victory over Livingstone.

In the first six minutes of the game, the Aggies just couldn't get things together. Livingstone led 6-5 and opened the lead to 22-15 as they outscored the Aggies 16-10.

The Aggies finally saw the light as Charlene Henderson scored nine of the last ten points to bring the Aggies to a 26-26 tie. The half ended at that point.

In the second half, the fire was lit to burn. The Aggies, led by Cheryl Armwood's seven points, outscored the Bears 13 to 7 to give the Aggies a 39-33 lead. Aggie Lillie Pratt scored three points to make it 46-35 with 8:50 to go.

The Aggies lost their momentum and the Bears slipped to within six at 47-41. From there the bench picked up the scoring. Mamie Jones played superb ball with her great

ball-handling and scored four points. With her at the quarterback position, the Aggies opened a 58-47 lead. Natalie Roger's basket ended the scoring for the Aggies.

Charlene Henderson scored 19 points followed by a 15-point performance by Cheryl Armwood. The main factor was the bench; it never let the game get out of hand. Coach Spruill was able to shuffle players in and out without worrying.

The Aggies slowed down from there and with the dazzling moves of Henderson, sparked the crowd of about 1,000.

The Aggies look good; and, as the season progresses, they are bound to become champions. The Aggies play Durham Business College in Durham Tuesday. They have a game Saturday in the Coliseum against Winston-Salem State at 6:00 p.m.

7:00 p.m.-TuTh	Friday, December 17, 4:00-6:00 p.m.

Classes that meet "on the half hour" are to use the earlier hour for the purpose of determining time of examination.

A common examination for Chemistry 100 will be held Monday, December 13, 6:00-8:00 p.m. A common examination for Chemistry 101, 104, 105, 106, and 107 will be held Tuesday, December 14, 6:00-8:00 p.m.

Lab classes in Chemistry will have their final examinations during the last week of regular classes.

Night classes meeting in three-hour blocks of time will have their final examinations the regular meeting night during examination week.

Classes meeting on Saturday only will have their examinations at the regular meeting time Saturday, December 18.

All examinations will be held in the regular classroom unless notified otherwise by the instructor.

If it is necessary for an instructor to give a final examination at a time other than as scheduled above, the instructor is to get approval from the school dean. In such cases, the school dean is to inform the Office of Registration and Records of the change in time prior to the day the examination is given.

SPORTS NOTEBOOK

By Craig R. Turner

The scores are large and one sided these days for the A&T basketball team and there is no immediate relief in sight.

Losses, either through graduation or academic troubles, have taken almost all the zip out of the A&T attack.

Why hasn't A&T come within twenty points of its first three opponents? There are three essentially obvious reasons that most observers can tell you after watching A&T play.

First, there is no point guard. At present there is no one that can effectively run the offense, make defensive adjustments, and deliver some outside shooting.

The now graduated Raymond Perry was a master of this position.

Second, there is no scoring forward to speak of. Last season's seniors, Ron Johnson, and Dexter Boone, both contributed points and assists.

Should James Sparrow return next month to the lineup, some of the problems of low-point production should be solved. But he will need help.

But third, and most important, is the fact there is no dominating big man in the middle.

Sinclair Colbert, the 6-10 All-America and All-MEAC center, destroyed the rebounding marks last year and shot well from the floor. He was the real key to A&T's success.

With his graduation, the intimidating factor left and so did A&T's real offensive strength. A&T relies on the fact that the opposition gets only one shot.

This year that advantage is being stomped to death as both forwards L.J. Pipkin and Steve Cassell have not adjusted well to the pivot.

A lot of the problems at center could disappear if one of the new freshmen could materialize into an adequate big man but that seems unlikely this year.

So what can you expect? Nothing more than you have seen before until Sparrow can return to the lineup.

A lot of pressure will be on him to initiate, score, and even run the offense until the younger players can adapt to Coach Reynolds's system.

If not, then the season will get a lot rougher before any smoother road comes along.

A&T Entertains Western In Greensboro Coliseum

By Craig Turner

A&T, in the midst of its worst start in basketball history, will try to regain some measure of respectability as it entertains Western Carolina here tonight.

The Catamounts are budding into a highly competitive basketball power in the Atlantic Region.

Coach Fred Conley will bring his club to the Greensboro Coliseum hoping to move its record up against A&T.

There are 21 Division I games on the Western schedule and marks the first time for Western in Division I.

The Catamounts are almost exact copies of 1975-76. All five starters return from an 18-5 team.

The big addition was junior college transfer John Guilford. Guilford (6-9) shores up the one weakness in the Western attack.

Ike Mims (6-6) averaged 16.7 points per game and stands as the top player on Conley's squad.

Lee Gibbs, Tom Wilson, and Mike Meadows are the other

returning starters thus giving Conley a super nucleus of people returning.

The Western Carolina game is set for 8 p.m. in the Greensboro Coliseum.

Wrestlers Suffer Defeat At Hands Of Marshall

by M. Tyrone McLean

The Aggie Matmen met with stiff competition Saturday in Boone, with Appalachian State and Marshall College in a triangular match.

In the first match, the matmen faced Marshall College and they suffered their first defeat of the season. The score was 28-20.

The score of the match was certainly no indication of the caliber of wrestling which the

Aggie Team Lacks Experience

By Craig R. Turner

"We haven't had the leadership nor the shooting to play well. Our inexperience at this point has killed us early."

Those were the words of a dejected Warren Reynolds, as his A&T club just finished an unsuccessful, junket to the Norfolk doubleheader this past weekend.

A&T lost two non-conference games to CIAA opponents Virginia State and Norfolk State by rather lopsided margins.

In the 107-57 loss to Virginia State, A&T was never really in the contest at anytime. The Aggies' down-hill slide was obvious with its incredible mark of 41 turnovers against State.

"We were down by four points but they got us into a running game and really ran away from our younger kids," explained Reynolds.

Norfolk rolled to a 28 point

win over the Aggies Saturday night as A&T could not seem to get untracked offensively.

"We were in the game as well, trailing by a couple of points and then our inexperience caught us. We started taking outside shots with only one man underneath to rebound."

Ray Epps, a 6-4 forward, was the main source of the Spartan offense. Epps ran through the much maligned A&T zones with relative ease.

"Epps is a super player and took advantage of a lot of things. Their obvious experience and ability to execute stood out," said Reynolds.

Reynolds cited the fact that transition has been a key problem for the basically freshmen club.

"Our players have never played on this level before and even our returnees did not have that much experience."

"L.J. Pipkin has really had a tough time moving from inside to the outside. He reminds me a lot of Ron Johnson as a sophomore."

Steve Cassell has been moved to the pivot and that has been one of the few bright spots.

"Steve has done well playing the low post and has improved a great deal offensively."

"Right now we're looking for some people to fulfill the roles we need to be strong at."

Reynolds pointed out that the Aggies are seeking a strong point guard, a scoring forward, and a defensive minded swing man.

This week A&T will face Western Carolina Tuesday and arch rival Winston-Salem State Saturday.

"These games are really important and a couple of victories at home can turn our entire season around," stated Reynolds.

Intramurals Offer Recreation

By Joe Faust

For every A&T athlete with super-physical skills, there are twenty students who are not quite so endowed.

The talented student-athlete is given a full scholarship to participate in the sport in which he excels. The average student, in many instances, is relegated to watching and cheering in the stands.

The intramural program at A&T has helped to fill the void for students not gifted enough to participate on varsity teams.

"The purpose of the intramural program at A&T is to offer organized recreation to students that are unable to participate in varsity athletics and are still interested in competing in sports," said Ernest Gaskins, assistant director of intramural athletics at the university.

"The program has been helpful in developing some athletes who were good but not quite good enough to make a varsity team. Terry McGinnis played intramurals for three seasons before moving up to the varsity team last season.

"Before the girls started playing a varsity schedule, all of their participation was in the intramural program."

The biggest concern of Roger McKee, the director of intramurals, and Gaskins is the participation of women. Both believe female participation will pick up during the basketball season.

"Basketball is big in the intramural program for males and females," Gaskins said.

"We already have six women teams with an average of thirteen players per team. In all, we have 48 teams signed up for basketball.

"Attendance for these games has been good in the past and we expect good attendance this year."

Other intramural sports include co-ed volleyball, roller skating, co-ed riflery, football, and a new sport, wrist-wrestling.

"Wrist-wrestling was a big hit and the championship was won by Joe Bloomfield," Gaskins said. "We are always looking for new suggestions and ideas that would bring about more student participation."

The intramural office is located on the main floor of the Student Union.

The Aggies will take Western Carolina to the hoop tonight.

Tony Dorsett Wins Coveted Heisman Trophy

NEW YORK (AP)—When Pittsburgh's Tony Dorsett cradled the bronze Heisman Trophy in his arms Tuesday, there wasn't a prouder smile in the house than that belonging to graying, bespectacled Herbert P. Douglas, Jr.

Another Black had made good.

"I have a lot of reasons to be happy," the 54-year-old New York wine and spirits importer said. "My alma mater, Pittsburgh, at last has won a Heisman. The Black football

player now has come to full stature."

Douglas, bronze medalist in the long jump in the 1948 Olympics, was one of two Black players who broke the color barrier at Pitt in 1945. He experienced the early knocks and frustrations of athletes of his race shut out of big time college and professional sports for so many years.

"There were only 39 Black players on major college squads in the entire country in 1945," he recalled. "Buddy Young and I once went over the list, man for

man.

"Now we have hundreds. We have our sixth Heisman Trophy winner in the last 16 years—our seventh if you count Archie Griffin twice. We have come a long way.

"My only regret is that most Black players, admittedly recognized for their great athletic ability, still are being shortchanged in the fringe areas—endorsements, TV, off-season opportunities and things like that. Only O.J. Simpson has succeeded in this

category."

Douglas recalled how he got his first football opportunity at Pitt while World War II was winding down and Clark Shaughnessy was coaching a team that traditionally was one of the East's best. It was not until two years later—1947—that Jackie Robinson broke in with baseball's Brooklyn Dodgers and still three more years—1950—before Chuck Cooper made his historic bow with the Boston Celtics of the National Basketball Association.

"It's hard to believe," Douglas mused. "Now they say pro football is 40 per cent Black, basketball 60 per cent, and baseball 30 per cent. Blacks make up 30 per cent of the major college football personnel, aggressively recruited even in the South."

SNOW !!

Five Du Pont plants depend on me for design of electrical equipment and instrumentation.

—Rodney Haynes BS, Electrical Engineering

"I've been an energy control design engineer since shortly after my graduation in 1974 from Lamar University. At the moment, I'm working on projects totaling almost a quarter of a million dollars.

"What I like most about my work is the variety...getting into other phases of engineering...plus the responsibility for everything I do."

Rodney worked part time while in high school in a Du Pont-sponsored Minority Manpower Resources Project. Today, he is helping to recruit blacks through the MMRP at Texas Southern.

Rodney's story is typical of many Chemical, Mechanical and Electrical Engineers who've chosen careers at Du Pont.

We place no limits on the

progress our engineers can make. And we place no limits on the contributions they can make—to themselves, the Company or to society.

If this sounds like your kind of company, do what Rodney Haynes did: talk to the Du Pont representative who visits your campus. Or write: Du Pont Company, Room 25243, Wilmington, DE 19898.

At Du Pont...there's a world of things YOU can do something about.
