Match Ignites Fire In Curtis

By Karen F. Williams

"All I heard was some girl say, everybody get out of the building," exclaimed Cindy Swan, a resident of Curtis Hall. This statement was one of the many responses that were stated concerning the fire that occurred in Curtis hall, Tuesday evening. "The fire started in the basement between 7:30 p.m. and 8 p.m. when someone dropped a match on a couch," said Norwood McMillan, director of security. The sofa immediately went up in flames. McMillan stated that he received a call concerning the fire and sent Officer Cynthia Cole to check on the matter. Cole, seeing that there was a lot of smoke involved, requested that the fire department be called.

In addition to Cole, there were six other officers, three of them off duty who assisted during the fire. The smoke from the fire accumulated on the second and third floors making it impossible to breathe in the dorm.

Cole inhaled too much of the toxic fumes and was sent to the hospital for treatment along with another student. Eight other Curtis Hall residents were sent to the infirmary for treatment. "There would have been a lot more injured students had it not been for Officer Cole," stated McMillan. "She really went above and beyond her call of duty." Whether or not the fire was intentional is still under investigation by the police department.

"The response from the campus police shows that the department is concerned about the students' welfare on campus," replied McMillan. "However the students generally feel that the police do not care about their security." Several of the Curtis

hall females stated that, after 12:00, the doors are locked from the inside as well as outside. Therefore, if the fire had occurred late at night, they would have had no means of escape. McMillan contradicted this statement by

saying that the doors do not lock from the inside, and the girls are able to get out after dorm hours. "There is a need for more aware and conscientious students who will take safety rules and hazards more seriously," replied McMillan.

A&T's Career Day Program Features Business Agencies

A&T State University's third annual career day program will be held September 27 and 28 in Moore Gymnasium. The program will feature companies from across the nation.

Mayor Jim Melvin, A&T's Chancellor Lewis C. Dowdy and the A&T National Alumni President and City Councilman Jimmie L. Barber will head the panel of dignitaries who will extend the official welcome. Two hundred representatives of 70 major industries, businesses and government agencies are expected to attend.

W. I. Morris, director of the Placement Center, said, "The 1977 annual affair will host some of the most prestigious companies ever this year to attend colleges or universities

between Washington, D.C. and Houston, Texas. The main purpose of the program is to expose students to the availability of jobs in business, industry and government now and in the future with companies such as Ciba-Geigy, Western Electric Co., Johnson Wax, Tennessee Eastman, Southern Bell, Rockwell International, Touche Ross and Co., U.S. Steel, Carrier Corporation and many others. Morris encourages all students to attend the activities. Free samples from the various companies will be distributed.

Says UNC-CH President Friday

Lower Standards Not Solution

CHAPEL HILL (AP) - President William C. Friday of the University of North Carolina system reserved specific comment Tuesday on the Carter administration's position on minority admissions, but said he believes a successful desegregation solution cannot include lowered standards.

Friday said news reports of the 70-page statement, filed by the U.S. Justice Department as a "friend of the court" brief in a California desegregation case, have both positive and negative elements in relation to North

Carolina's position.

The brief puts the Carter administration on record endorsing the concept that disadvantaged minorities legally can be given special consideration in university admissions. However, the brief also says "reasonable goals or targets" rather than rigid quotas should be permitted in desegregation plans.

Friday said he would have to study the 70-page brief before forming opinions on how the administration's statement might affect the five-year plan for North Carolina.

Friday and the University Board of Governors rejected the percentage quotas for minority enrollment outlined by the Justice Department in college desegregation guidelines handed down recently for several southern states.

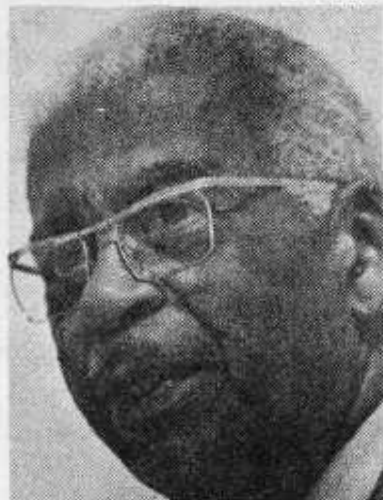

Asked about the concept of special consideration or lowering of admission standards for minority applicants, Friday said in a telephone interview: "I don't believe that lowering standards will be helpful in what we are trying to achieve."

"By expanding education opportunities, we want to do everything possible to guarantee the success of that student. That

remedial programs and evaluation services," he said.

"For every student-Black and white, male and female-the main thing is to help him find a level at which he can achieve."

The administration's brief was filed in the case of Allan Paul Bakke, a white man who successfully argued before the California Supreme Court that he was unconstitutionally denied admission to medical school while less-qualified Black applicants were accepted under a minority admissions plan. The brief urges the U.S. Supreme Court to vacate the California ruling and support the medical school's minority enrollment plan.

President William C. Friday

English Department Lecture Will Feature Dr. Barksdale

The 1977-78 English Department Lecture Series will get underway on Tuesday evening, September 27, with a lecture by Dr. Richard Barksdale, a prominent educator and writer from the University of Illinois. The lecture is entitled "Jazz, Blues, and Langston Hughes," and will be presented at 8 p.m. in Merrick Hall Auditorium.

Dr. Barksdale is presently professor of English and associate dean of the Graduate School at the University of Illinois. He is the author of many articles and books, and with Kenneth Kinnamon, is the author of *Black Writers of America*.

A Phi Beta Kappa graduate of Bowdoin College, he received Masters Degrees from both Syracuse University and Harvard University and a Ph.D. from Harvard University. He is a past president of the College Language Association and is presently a member of several commissions and boards, including the North Central Association Commission on Institutions of Higher Education.

Before going to Illinois, he was dean of the Graduate School at Atlanta University, and before that was chairman of the Department of English at Morehouse College. He is currently working on a book on Langston Hughes.

Communications Sponsors Lecture Series

A new mass communications lecture and teaching series, featuring several outstanding broadcasters, teachers and journalists, will be initiated at A&T State University this month.

Sponsored by the university's mass communications program, the series will be opened on Tuesday, September 27, with a talk by Dr. Pam Johnson, a journalism teacher from the University of Wisconsin in Madison.

Other participants in the series this semester will be Bill Heitz, producer-director of WTTW-TV in Chicago, Illinois; Dr. James Hoyt, professor of journalism at the University of Wisconsin; Mal Goode, correspondent for the National Black Network in New York; Mrs. Marion Hayes-Hull, associate director of telecommunications research at the Center for Public Policy Research, the Booker T. Washington Foundation in Washington, D.C.; and Dr. Sherrie Mazingo, assistant Bureau Chief for the NBC News Bureau in Atlanta.

Already scheduled for the spring semester is Professor Melvin Mencher, a professor of journalism at the Graduate School of Journalism of Columbia University.

Dr. Johnson, one of the few Black female holders of the Ph.D. (See Communications, Page 6)

Dr. Barksdale has served as a consultant for the Ford Foundation, the U.S. Office of Education, and the National Endowment for the Humanities. He has been to A&T three times in the last two years as consultant for the English Department's NEH Consultants Grant, advising the department on improving and expanding the humanities program. The English Department Lecture Series, now in its third year, will also include lectures this semester by Professors Mabel Dillard and Lee Goebel, and next semester by Professors Wallace Peppers, John Crawford, and Ernest Bradford.

**Your personal growth
at John Deere
is our strength**

People have always been one of John Deere's greatest assets. Engineers, accountants, marketing specialists, scientists... whatever their specialty, each has helped this \$3-billion-a-year company become one of the world's leading manufacturers of equipment for farmers, foresters, contractors, and consumers.

And we continue to attract capable individuals... qualified new talent that has a bright future. Those who apply ability, intelligence, and imagination are encouraged with challenging new assignments. Their growth adds to John Deere's strength and success in the marketplace. Are you our kind of professional?

JOHN DEERE

Entertainment

The Leach Line

By Albert Leach

I have three new books for you this week.

First, from Ballantine, there is **Apple Tree Lean Down** by Mary Pearce.

The story begins in the middle 1880's in the English Midlands. It tells of four generations and their loves, land and passions which kept them alive.

Next there is **The Leaning Tower** by Maria Talwick.

The Leaning Tower is a story set in post World War II Pisa, Italy, where its romantic saga about the love-hate relationships among a group of memorable Italians are ironic and profoundly moving.

The tower in the novel is a symbol of the fragility and endurance of the human spirit, but challenging it for dominance is the menacing figure of Luigui Volterra, a retired tax collector.

Volterra is known for torturing his first and second wife and now is trying to do the same to his daughter, Marisa.

From Holloway House, there's **Walking Black and Tall**, by Omar Fletcher.

Walking Black and Tall tells about Malcolm Lumumba. Born Tyrone Abraham Jones, Lumumba changed his name after the riots that burned Newark half way to the ground.

Lumumba's wife and children were completely incinerated by a police sniper squad.

To get revenge on what had happened to his wife and child, Lumumba gets the aid of the Muslims, headed by Husan, a military machine from the past, who has a mind like a steel trap.

The result of the incident is a three-way vendetta that rocks the city.

These are three books I hope you'll find enjoyable.

From ABC Records, **The Dramatics** are on a national tour which includes several headline dates following the popular success of their latest album, "Shake It Well."

"Shake It Well" is currently in the top 20 of the National R&B charts, and has jumped an average of ten points per week on the R&B singles chart since its release in August. "Shake It Well" has recently crossed over into the pop charts.

The Dramatics tour will bring them to the Charlotte Coliseum, October 23.

NOTICE!!!

All organizational queens are urged to come by THE REGISTER office to have their pictures taken for the homecoming edition of THE REGISTER. Pictures will be taken any Tuesday (10-2) and Thursday (11-4) until October 1. No excuses. No show, no picture.

Lyceum Series Open Tuesday

The Lyceum Series at A&T State University will open on Tuesday with a concert by the distinguished young violist, Marcus Thompson.

The free public program will be held in the Richard B. Harrison Auditorium at 8 p.m.

Thompson's program will include Bach's "Sonata No. 1 in G Major," Hall Marina, Overton's "Sonata for Viola and Piano," Persichetti's "Infanta

Marine, Opus 83," and Paul Hindemith's "Sonata for Viola and Piano, Opus 11, No. 4."

Thompson currently holds the doctorate from the Massachusetts Institute of Technology. He has appeared frequently as a soloist with the National Symphony at the Kennedy Center in Washington, with the Boston Pops under Arther Fiedler, with the Symphony of the New World, the Greenwich Philharmonia and the St. Louis Symphony and with the Hudson Valley Philharmonic.

He has also participated in the Marlboro Festival, the Santa Fe Music Festival and the Spoleto Festival in Italy. He has performed with the Chamber Music Society of Lincoln Center.

Thompson first attended the Julliard School and studied under Walter Trampler. He is currently a professor of humanities at the Massachusetts Institute of Technology.

He made his mark in the music world 10 years ago when he won the Young Concert Artists International Auditions and the

Hudson Valley Philharmonic Young Arts Artists competition.

Thompson will be accompanied by pianist, Seth C. Carlin, who has appeared with the Boston Pops, the New England Chamber Orchestra and the Harvard-Radcliffe Orchestra. He holds the master's degree from Julliard.

Department

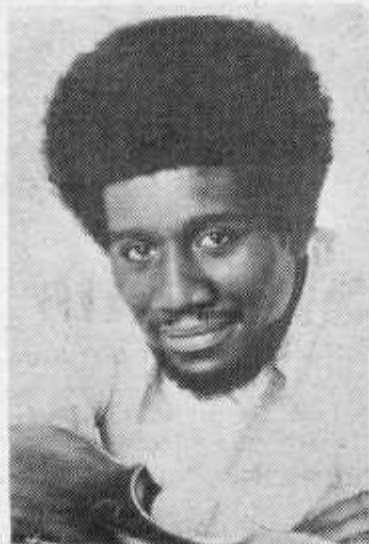

To Conduct Workshop

By Richard B. Steele

Eighteen colleges and universities will participate in a transportation institute workshop Monday, September 26, in Merrick Hall, Room 110. The workshop which begins at 9:00 a.m. is being sponsored by the Office of University Research, U.S. Department of Transportation.

The workshop will be conducted by Mrs. Clarrissa D.

Aggies Can Work Together

Though we all mourned over the fire which occurred in Curtis Hall Tuesday night, there was a positive element gained from the incident.

When the females who had to evacuate the building spoke of the incident later, they all said that everyone worked together to see that no one was left in the building. They said even some males came up to the rooms and told them to get out of the building. One female said she would not have known what was happening if a male had not told her.

At the final meeting of the Student National Education Association last semester, S. Joseph Shaw, dean of the School of Education, was asked to speak to the students. During that time, the publicity concerning A&T's Nursing School overshadowed the school. In reference to that situation, Dean Shaw said, "The Aggies operate as a whole. When you bother one, you bother all."

This statement that Dean Shaw made at that meeting at that time seemed like nothing but words, but Tuesday night some students proved those words to be true. Not only did females of Curtis work together, but some other students even volunteered their services at the infirmary to help care for those students who were injured. It was heartwarming to witness Aggies working together, not for praise or personal gain, but just for the sake of helping.

Even administrators were at the scene of the incident. Mrs. Lucille Piggott, dean of women, said she returned to campus as soon as she received the message about the fire. Everyone seemed concerned about the welfare of the females.

Who said Aggies cannot work together? That goes to show you that you cannot believe everything you hear. A&T students, proved Tuesday night that Aggies can work together as a whole.

Students Receive Awards

Twelve students are recipient of the mass communications awards through the Kellogg Foundation's grant.

Dr. Frank White announced the students as Constance Hammond, Gibuel Kamara, Patricia Owens, Lila Washington, Kenneth Fouts, Robert Spruill, Johnny Hunter, Archie Bass, Kathy Anderson, Marilyn Baggett, Nagatha Dixon and Gail Boone. These awards are the initial mass communications

scholarship awards that were made possible by special grants, by the W.K. Kellogg Foundation in Battlecreek, Michigan.

These awards were made for outstanding scholastic achievement and interest in the field of mass communications. "This is a part of our effort to encourage students to think about our lucrative field and take pride in high attainment," said Richard Moore, director of

information services.

The mass communications program at A&T is designed for those students who are interested in pursuing a career in some phase of broadcasting or print journalism, teaching, or in mass communications.

The new program is offered through the departments of English and Speech and Theatre Arts but is available to students enrolled in any other department at the University.

Advantages Of Campus Life

By Catherine Speller

Living on Campus has many advantages for college students but then there are problems that arise from group living.

When a person lives in a dormitory, he or she is never quite alone. The lobbies are always filled with people studying, watching TV or just hanging out.

If you missed a class, there's no problem about finding some one with notes because there's at least one person in the building who has the same course and instructor.

If there is an important test coming up and you have to study for it, don't attempt it in the dorm, without first checking your TV guide. If not, the yelling and screaming that are sure to be heard will do more than distract you from your work.

This reporter has no desire to buy a record album when at night there's wall to wall music especially the latest top ten. Some may disagree that their dormitory isn't noisy, but then they are minority.

The Buck Has Got To Stop

By Sheila Williams

A&T is a bureaucratic system of government, which is run by officialism and too much red tape. It is a body or system which cannot move without the o.k or say so of another leading us in a circle.

Somehow, somewhere the buck has got to stop. It should be the specific duty of all administrators to "know" their jobs. That's what they're hired for, to help the students in any way possible. We don't know everything; that is why we ask questions.

We're given an unconcerned or I-don't-care attitude; and, in turn, they wonder why students become angry. Some of A&T's students' attitudes may not be a bed of roses, but the average Americans often gets upset when he is treated in a

snobbish manner.

All of the administrators are not that way. It's just one or two, but one does not need an army to start a war. Many students feel that A&T is not concerned with their welfare, but with the well-being of the administration. Getting an education under these conditions will just become mechanized drudgery.

Will this circle continue to spin with no evidence of slowing down or "squaring" off? Students will not be able to continue in this manner.

Won't someone stop and at least try to answer questions, listen to our comments, and not automatically tune students out?

The buck has got to stop.

Wilson Speaks On Interviews

By Larry Jenkins

"I consider it essential that you be prepared by campus interviews to become familiar with the company prior to the interview," said Phil Wilson, certified public accountant recruiter from Peat, Marwick, Mitchell and Company.

Wilson spoke to the Alobeam Society Tuesday on the topic "Campus Interviewing Skills." He stated that the main objective of interviewing "is to evaluate the candidate." Many firms look for definite qualities in their prospective candidates. These qualities range from a high grade point average to a positive attitude.

With the aid of video equipment, Wilson explained that there are five steps in interviewing for a job. He listed them as establishing rapport, encouraging talk, following up key thoughts, presenting the firm and closing. He noted that most interviews last between 20 and 30 minutes. Wilson continued by saying the most common question asked during interviews is "Why have you chosen accounting for a major?"

Universities To Participate In Workshop

(Continued From Page 3)

Drye, a representative from One America, Inc., a Black-owned consulting firm based in Washington, D.C. One America has been contracted to conduct meetings with minority colleges as a follow-up of OUR's efforts to increase contracting with minority colleges.

Topics for discussion include Benefits of Contracting with OUR-DOT, Analysis of Successful and Unsuccessful Proposals submitted by Minority Colleges and Proposal Development Problems and Recommended Solutions.

Discussion leaders will include Gordon Alexander, Dr. Matthew Whitehead, and Mrs. Joyce Johnson.

Mrs. Johnson is acting director of A&T's Transportation Institute.

The Transportation Institute has been at A&T officially since 1970, housed under the School of Business and Economics.

Participating colleges and universities include Barber-Scotia, Concord; A&T and Bennett, Greensboro; Fayetteville State, Fayetteville; Hampton Institute, Hampton, Va.; Johnson C. Smith, Charlotte; Kentucky State, Frankfort, Ky.; Livingstone, Salisbury; and Knoxville, Knoxville.

In addition are Martin Technical Institute, Williamston; Norfolk State, Va., North Carolina Central, Durham; Saint Augustine's, Raleigh; Saint Paul's, Lawrenceville; Shaw, Raleigh; Winston-Salem State, Winston-Salem; Virginia State, Petersburg, Va.; and Virginia Union, Richmond, Va.

Students were encouraged by Wilson to attain all information about the firm before interviewing and to have a good idea of a location preference.

As for future accountants, Wilson stated that the "market is going to be equally good this year."

David Byrd, president of the Alobeam Society, said, "the overall thing was a success. I think that the students not only learned about interviewing but they also learned about certain facets of public accounting. The students now will feel more at ease in an interview situation,

hopefully," he concluded.

Phil Wilson

Buildings Receive 'A' Rating

By Anthony Boyd
A&T State University this summer underwent a rigorous sanitary inspection of all

Photo by G. Marrow

The laundry room in Scott Hall was cited for lack of ventilation.

facilities. The bi-annual inspection was conducted by the North Carolina Department of Human Resources.

The inspectors submitted two separate reports. One included all academic, residence, and utility buildings. The second report covered only the dining facilities. Buildings are rated on a numerical formula similar to those used in classrooms, on a scale of A to C. A&T received an overall rating of A.

The inspection deals mainly with construction, equipment, storage and cleaning of facilities, and materials. Pests and waste control also come under the scrutiny of inspectors.

The inspectors cited various health hazards in the resident halls, especially Scott Hall. Ventilation in recreation rooms and bathroom is a serious problem. They also cited a need for improvements in badly cracked walls, broken floor tiles in badly cracked and gouged out walls, broken floor tiles in showers, non-working lighting fixtures and crawling insects.

The laundry room of Scott Hall was cited for the lack of ventilation and excess dust on the floor.

The problem of flooding which has plagued laundresses since the beginning of the semester has not been solved. Julius Morehead, of the physical plant attributes the problem of leakage to the upstairs showers.

Campus Haps

The Cadet Welfare Council will sponsor its annual fall picnic Saturday, Sept. 24, 1977 at Battleground Country Park Shelter Number 4. All AFROTC Cadets are invited to attend. Anyone that has a ride or needs a ride to the picnic is asked to meet at Campbell Hall at 12:30 p.m.

The Business Administration CLUB will have a snack table set-up on Monday, Wednesday and Friday of each week.

Attention!! Senior yearbook pictures have been cancelled until October 13-14 in the Student Union.

The Sophomore Class will sponsor a car wash at the Cosmos I from 11-5 Saturday, September 24. All cars are \$1.50, vans and trucks will be \$2.00

I.C.A.R.E. meeting Monday, September 26, in the Memorial Student Union Room 100, 8 p.m.

Communication Lecture To Feature Journalists

(Continued From Page 2)

degree in journalism from the University of Wisconsin, will speak on September 27 at 4 p.m. in Room 201 Crosby Hall.

Dr. Johnson has worked for CBS Network News, WHA Educational Television, WISC Channel 3, the Chicago Tribune, The Capital Times, The State Journal and the Negro Press International.

Hoyt has worked for NBC News, the Daily Herald - Telephone in Bloomington, Ind.

Mal Goode was the first Black to serve as a correspondent on a national TV network.

Mrs. Hull formerly worked for the U.S. Justice Department and directed the mass communications program at Shaw University. Mencher was a prize winning reporter for the Fresno Bee.

SPORTS NOTEBOOK

By Archie Bass

It's another football game this weekend for the Aggies; and, hopefully, McKinley has the gridironers spunky enough to show some signs of promise.

To show some sign of promising potential against the Wildcats of Bethune-Cookman would enhance the young Aggies' confidence and overall team enthusiasm.

Can the Aggies afford to suffer another "down-to-earth", crushing, trouncing defeat?

This shouldn't be hard to figure out.

No!! ... No!!

A&T is in the process of building a football stadium with an initial seating capacity of 15,000 to 25,000 and a possible future expansion to 50,000.

Believe it or not ... another embarrassing defeat could bring about a brand new stadium with no spectators to occupy the 25,000 seats.

That's the strange thing about fans; when you win, they parade the stadium; but, when you are losing, they want to take the excuse of being young and inexperienced. If they pay \$5.00 to see a game, then they expect to see razzle-dazzle excitement and not embarrassment.

Think about it!

The searching Aggies are looking for a win to hold on to the trademark of "Aggie pride" and identity.

Andy Hinson steps into his second season as head football coach at Bethune-Cookman with 33 returning lettermen and high hopes of blitzing the Aggies.

The Wildcats are coming off a super year with a 9-2 record and as SIAC champions. The man with the plan for Bethune-Cookman is Reginald Beverly, a senior (5-5 - 150). Says Bethune-Cookman's sports publicist "There's magic in his little frame; and, with that magic, come zeal finesse and raw playing prowess."

Just how true this statement is will be judged by the outcome of the game Saturday night. It was definitely true last year, as Beverly was selected to the All-Conference roster.

Will Turner out-clash Beverly at the engineering position? Tune in for the game Saturday night and be your own judge.

Unfortunately, it's prediction time again and, to me, that spells a long ride back from Florida.

Hopefully, the game won't be a laughing slaughter for the Aggies. However, if the Aggies don't fall behind quickly and hang in there defensively, we'll blow Maryland-Eastern Shore away! I love the Aggies, but I like Bethune-Cookman by 18 points.

Aggies Look For First Win

By Craig R. Turner

A&T will seek its first win of the season against Bethune-Cookman this Saturday in Orlando, Florida.

The Tangerine Bowl is the setting for the first meeting between the two schools. Bethune took Livingstone 14-7 last week while A&T was annihilated by top ranked South Carolina State 52-0. "They are probably a better team than S.C. State and larger defensively. Bethune is a multiple offensive club with a lot of power in their ground game," said A&T coach Jim McKinley.

Most of the attention will be centered on linebacker Earl Inman (6-5, 225) and All-American changes in our defense that should provide us with a lot more quickness," said McKinley.

Dwaine Board (6-5, 230) will move back to his old end position from his linebacker post. That will move freshman Dennis Coit (6-1, 185) to the corner. Another reserve, Mike Cardwell (5-9, 190) will also see action.

"We'll probably go with seven freshmen in our lineup and that is a lot. Right now, the quicker they play, the sooner they will become veterans," he stated.

McKinley addressed himself to the feasibility of switching the Aggies' veer to a pro set or a power I formation.

"If I thought that would help

I'd do it but it wouldn't. At the present, we simply need to execute properly. To switch now would mean reteaching a whole new system all over again. Right now everyone is under a great deal of pressure. If

this were a senior team I'd be more worried about letdowns after South Carolina. This team has a lot of character and we'll be fine before the year is out." Game time is set for 7:30 p.m. in Orlando, Florida.

Kascher Is Newcomer To Volleyball Program

By Dennis Bryant

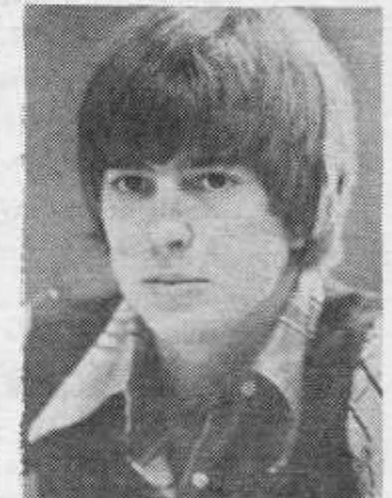

At the conclusion of the 1976-77 season, the A&T Aggiettes became well known for their competition in women sports in North Carolina. Sue Kascher, a newcomer to the staff, hopes to help them improve that status.

Miss Kascher is a native of Rochester, New York. She attended Irondequoit High School where she was active in varsity volleyball and basketball.

An all-conference player, Miss Kascher attended Saint Andrews Presbyterian College in Lauringburg where she served as director and choreographer for synchronized swimming. She starred in volleyball, tennis and basketball.

"A&T is on the upsurge in the sport of volleyball," stated Miss Kascher. "The volleyball team has a good chance of winning a majority of its games because of its strength and depth. The team is highly motivated and together when it comes to playing."

There are nine returnees from last year's team which finished fourth in the state. The team includes three talented newcomers. The most promising of the three is Karen Dickerson. The Aggiettes play their first home volleyball game Tuesday, September 27, in Moore Gym at 6:30.

Board Moves To Defensive End

There were more than a few eyebrows raised at the conclusion of the 1976 football season when North Carolina A&T defensive end Dwaine Board was named to the first team Mutual Black Network All-America squad.

The 6-5, 235-pound Board had an outstanding year for the Aggies; however, he was totally left off the first and second All-Mid-Eastern Athletic Conference teams.

Board, who has been timed in the 40 yard run at 4.7 seconds, felt that he deserved All-Conference honors but was surprised by his All-American award.

"I think I had a good year in 1976; however, it is difficult to build a big name for yourself in one year," said Board, a junior Industrial Technology major. "We don't get the big coverage a lot of All-Americans do, so in our league you have to build a reputation over a period of time."

"During the last part of the '76 season the other teams were aware of my presence and ran their plays in the other direction."

Board was shifted to linebacker at the beginning of the current season to take advantage of his speed and agility. Because of recent developments, Coach Jim McKinley has decided to move Board back to defensive end when the Aggies take on Bethune-Cookman College in the Tangerine Bowl this Saturday night at 7:30 p.m.

"I really think I can help the most at the defensive end position," Board said. "I'm a little disappointed that I didn't adjust as quickly as I would have liked to linebacker but I've only been playing there for six weeks."

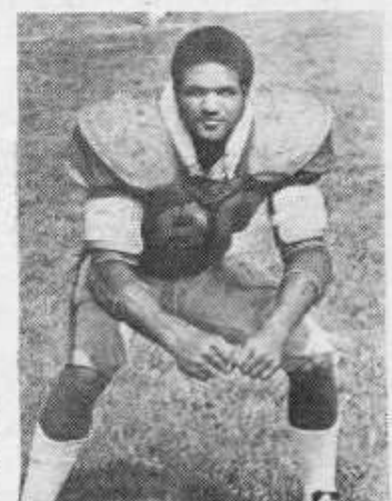

Bethune-Cookman won the SIAC championship last season with a 9-2 overall record. The Wildcats are 1-1 this season, losing to Texas Southern in

Houston and narrowly defeating an improved Livingstone team in Salisbury, 14-7.

"We know that Bethune-Cookman is a good football team with good size and speed," Board said. "They have gotten off to a slow start but they have been playing some good teams."

"We have been working hard in practice, reviewing game film, and we all know what we have to do in order to get in the win column."

Despite the notoriety of being an All-American, Board doesn't feel his presence or that of any other star player will significantly change the opposition offensive game plan.

Dwaine Board

COMING UP AT A&T
WEDNESDAY, SEPTEMBER 28, 1977
EVERY (*We really mean E-V-E-R-Y*)

STUDENT CLASS DEPARTMENT
SCHOOL
STAFF MEMBER

ADMINISTRATOR, DEAN INSTRUCTOR

AND ALL MEMBERS OF THE AGGIE FAMILY

should participate fully in A&T's 1977 CAREER ACTIVITIES Program, September 28 (ONLY) in MOORE GYMNASIUM, when 150 Key Representatives of Business Industry and Government will man professionally installed booths from which they will discuss, demonstrate, distribute brochures, and show samples of their products while counseling with our students about worthwhile careers to pursue. These consultants are most knowledgeable about Career Planning. They will be at A&T from 9:00 a.m. to 4:30 p.m. only on Wednesday, September 28, 1977.

Students are invited to visit and register with counselors during the one-day affair. Each time a student talks and registers with a consultant, he may place his name in the booth. At the end of the CAREER ACTIVITIES, all names will be placed in a big box in the gym, and very valuable door prizes (on display in the gymnasium) will be awarded to more than 20 students. There will also be class prizes awarded in the same manner to instructors and their classrooms.
