State Instructs A&T To Reimburse Salary

By Maxine McNeill

A&T State University has been instructed to repay all of the $17,315 paid to John Zeigler, former vice-chancellor for fiscal affairs, during the 1976-77 school year.

Matthew King, vice-chancellor for fiscal affairs, said in a press interview this morning that the funds will be repaid through non-state, and non-federal sources. As of yet, Chancellor Lewis C. Dowdy has not decided where the money will be taken from.

King stated that Dowdy was aware of this matter prior to the state auditors' visit and that steps were being taken to remedy the problem. Other weaknesses cited by the auditors were record keeping and the need for more meaningful reports.

"Our records do not indicate any money has been lost," King said. "I deem them official."

King informed the media that some changes were made in October 1975 when he first assumed that position. According to King, A&T did not hire him because of any bookkeeping problems. He is also not in any danger of losing his job. Dowdy has expressed only encouraging words to him, King said.

In reference to the question of more money being spent to curtail A&T's present deficiencies, King stated, "We work overtime but not to correct any deficiencies."

Though the chancellor has not decided where the money to repay the $17,000 paid to Zeigler will be taken from, King said repaying the money will not hinder the functions of other funds.

Career Day Attracts 5,000

By Anthony Boyd

The Annual Career Day was held September 27-28 in Moore Gymnasium.

The placement center estimated that over 5,000 people came to talk with over 170 representatives about their companies. The university placement center labeled its Annual Career Day as a total success. People from surrounding high schools and colleges attended the program throughout the day.

All the companies were present for the activity, and even some extra companies were present. "The purpose of the career day was to make the students more aware of the opportunities in different fields," said Leon Warren, assistant director of the placement center. He also stressed the fact that this was not a job interview and that another career day is planned for the spring.

Johnson Speaks On Journalism

By Catherine Speller

"Good basic experience on a paper can lead you to any field in journalism," stated Dr. Pam Johnson.

Dr. Johnson is a journalism teacher from the University of Wisconsin in Madison and this week she has been lecturing to the Mass Communication classes on techniques and careers in professional journalism.

Wednesday night, Dr. Johnson held a workshop at the A&T Register Office.

Dr. Johnson encouraged all students to treat their story assignments as if they were professionals and "never come back without your story," she said.

Her basic topic was the makings of a good reporter and emphasis was placed on interviewing techniques, finding news sources, and writing up the final story.

"The typewriter should be as familiar to the reporter as his pencil. Everything must be typed," insisted Dr. Johnson.

Gordon Feels Council Lacks Support Of Men

By Larry Jenkins

"Only men who are seriously fed up with the way things at A&T are being run need attend," stated Richard Gordon, president of the Men's Council. "The Men's Council is making positive moves this year to function to its fullest capabilities but the organization lacks one main ingredient-the support of the men."

Of the approximately 1200 males on campus about 25 attended the meeting held Tuesday in Scott A Hall. Gordon noted those males who missed the meeting are the ones who complain the most.

The laundry problem was the major issue discussed at the meeting, Philip Boone, head dean of Scott hall, informed the males.

Byline: Richard Gordon
From 28 Countries
A&T Enrolls Foreign Students

By Flora Weaver

"About eight years ago, there were 18 students and all of them were from Africa with the exception of one from India," said Mrs. Anne Graves, advisor to the foreign students. Last year, 156 foreign students from 28 different countries were enrolled at A&T.

According to Mrs. Graves, the pre-eminent complaint from the students has been housing adjustments. Some find it hard to study in the dormitories because of the noise. Those males living in Senior Dorm find it a conducive studying environment.

Another problem Mrs. Graves said the students face is the absence of a place to live during some holidays. "The dorms close and they have no where to go," Mrs. Graves said. "They can't go home because they're too far away. So many of them try living off-campus and find that many of the landlords and realty companies take advantage of them.'

Foreign students feel there should be some consideration taken regarding their dietary needs. Mrs. Graves says, "Basically they do adjust to the food."

Mrs. Graves feels that the international students' cultural resources should be utilized. "They bring all kinds of cultures with them when they come over here," she said. The Greensboro Public School System's Board of Education hires international students to instruct classes at night in their native languages to students on the elementary level.

When asked how she liked her position as advisor to the foreign students, Mrs. Graves said, "It's a very cultural and educational challenge."

Lab Supports Black Colleges In State

By Delilah Perkins

"Bell Laboratories support the six Black colleges in North Carolina through the assignment of visiting professors," said Harry Rosier, electrical engineering professor from Bell Laboratories.

He said that Bell also supports the universities through the donation of equipment.

Rosier, the latest Bell representative to be assigned to A&T, has designed a laboratory computer system for mechanical engineering students. The system will offer independent study programs and performances testing the engineering students.

"Since some courses at A&T may have as many as 60 students, the computer system should aid students who desire more instruction than professors can offer during class hours," Rosier said. Besides the laboratory system, Rosier will assist in designing new university courses, curriculum developments and bringing industrial experience and guidance into the classroom.

Rosier is involved in designing and constructing non-commercially experimental apparatus. He said his assignment is satisfying and challenging.

Study Shows Programs Below Standard

Five of the 16 University of North Carolina campuses with teacher training courses offer substandard programs, a consultant study has concluded.

The worst of the lot is Elizabeth City State, the report found, where 83 percent of the teacher education programs were rated below satisfactory.

The other four schools cited were UNC-Asheville, 78 percent of programs below satisfactory.

The Homecoming tickets are now on sale. The October 15 groups have been changed to C. J. and Company and Michael Henderson.

Men's Council will meet Monday night at 7 p.m. in the Union Room 212. All male students are urged to attend.

Study sessions for the National Teachers Examination (NTE) are being held every other Thursday in Bluford Library Auditorium from 5-7 p.m. The next session will be held October 6.

All organizations that wish to have pictures taken for the yearbook must turn in applications. If you don't have one, come by the yearbook office Room 210 in the Student Union.

The Department of Elementary Education will hold a meeting for all interested students. The meeting will take place in Room 309, Hodgin Hall, Thursday, October 6.

There will be an Economics Club meeting Wednesday, October 5, in Merrick Hall at 4 p.m. All Economics and Transportation majors are urged to attend.

IBM NEEDS OUTSTANDING PEOPLE

And we can offer outstanding career opportunities in a wide range of fields.

We will be interviewing at

To find out about IBM and let us find out about you, sign up for an interview at the Placement Office or write to: C. F. Cammack, College Relations Manager, IBM Corporation, 400 Colony Square, Suite 1111, Atlanta, Georgia 30361

An Equal Opportunity/Affirmative Action Employer
**Campus Haps**

Attention, Seniors! Pictures will be taken Monday October 3, 5:30 p.m. in Room 212 of the Student Union.

All Entertainment Reporters please meet at The Register office at 7:30 on Tuesday night, October 4. It is urgent that you attend.

There will be an animal science club meeting on Tuesday, Oct. 4. All animal science majors and interested persons are asked to attend.

The Sociology/Social Service Department will sponsor a lecture presentation on "The Conflict in the Middle East" Tuesday, October 4, at 7:30 p.m. The address will be delivered by Dr. Fashshuddin Ahmad, assistant professor in the department.

A&T Home Economics Club will have a meeting Wednesday 7 p.m. October 5 in Room 207 in Benbow Hall.

The Veterans Association is sponsoring a Big Brother program. For more information contact Johnie Lee at Veteran Affairs Office (379-7765) or p.m. at 837 Castlecourt Drive.

**Planetarium Closes For Change**

By Albert Leach

Although closed for major renovations, the Morehead Planetarium in Chapel Hill is accepting advance reservations for weekday enrichment programs primarily for schools and for senior citizens groups.

**Tuesday:**
- Noon; Wednesdays and Thursdays at 11 a.m.
- Fridays at noon; Thursdays at 11 a.m.

**Wednesday:**
- Noon; Wednesdays and Thursdays at 10 a.m.

For grades 1-3 there is "Space Pioneers." Children watch through the glass eyes of a new age as revealed by modern astronomy with special attention to concepts of space-time and star evolution. Tuesdays and Fridays at noon; Thursdays at 11 a.m.

**Thursday:**
- Noon; Wednesdays and Thursdays at 10 a.m.

For grades 1-3 there is "Space Pioneers." Children watch through the glass eyes of a new age as revealed by modern astronomy with special attention to concepts of space-time and star evolution. Tuesdays and Fridays at noon; Thursdays at 11 a.m.

**Friday:**
- Noon; Wednesdays and Thursdays at 10 a.m.

For grades 1-3 there is "Space Pioneers." Children watch through the glass eyes of a new age as revealed by modern astronomy with special attention to concepts of space-time and star evolution. Tuesdays and Fridays at noon; Thursdays at 11 a.m.

**Women's Art Project**

The Women's Art Project will be held on Tuesday, October 4, at 7:30 p.m. in the school auditorium. It is open to all students and faculty. The theme is "The Unerving Experience in Space," in a descriptive survey of the universe as revealed by modern astronomy with special attention to concepts of space-time and star evolution. Tuesdays and Fridays at noon; Thursdays at 11 a.m.

**Famous Dancers Will Perform At N.C. State**

By Albert Leach

Twelve of the world's most brilliant dancing stars will appear in North Carolina State University's Stewart Theatre to present the New York City Ballet film of "A Midsummer Night's Dream." This is the first full-length ballet to be produced as a motion picture.

"A Midsummer Night's Dream" will be shown at 7:30 p.m. Thursday October 6 at 6; $1.25 for students through age 11 or grade six; $1.25 for students through college and senior citizens; and $1.50 for other adults.

**Entertainment**

**The Leach Line**

By Albert Leach

This week from Columbia Records I have information on some of your favorite recording artists.

First, the Manhattan Ten are starting to smile because their single "Kiss and Say Goodbye" was certified Platinum. This is the second certified platinum single in the history of the RIAA.

Next, the Emotions are in the same mood as the Manhattan Ten because their single "Best of My Love," from their gold "Rejoice!" album, was certified gold and is now Platinum.

Nona Hendryx, formerly of Labelle, is scheduled to debut her new solo act on September 2.

She is scheduled to appear as a special guest star on the Peter Gabriel "European tour the same night.

Nona Hendryx is the first of the legendary three ladies to leave the group.

Nona has said, "It's a new look and a different sound. The look could be described as outrageous and funny and the sound is definitely R"."

In conjunction with the tour, Epic Records rush-released a single, "Winning" b/w "Take a Chance," on the European Continent.

The single will be followed by an...
'I Have Not Decided'

Though the pace of this semester finally seems to be speeding up, there is still nothing concrete to make students feel unified.

Tony Tyson, last year's SGA president used as his theme "Unity Conquers All." That theme is something to think about.

The first priority of student government leaders should be to be geared toward uniting the students. It is no wonder that students are not cohesive this year because, as of yet, there has not been one SGA meeting for the entire student body. There was one a few weeks ago which was called to introduce the SGA members to the freshman class.

Introducing the leaders to the freshman class was a splendid idea but, if students are not informed periodically about the SGA's activities, knowing their student leaders is not serving any purpose.

Tony Graham, SGA president, was asked when the first SGA meeting would be held. He replied, "I don't know. I haven't decided yet."

With the homecoming activities planned for the week of October 10, the entire student body needs to be called together. Students need to be informed of the upcoming budget, and Miss A&T's theme should be explicated because too many students and faculty members have said they do not know what "Returning Home With A Touch Of Class..." means.

In fact, students have asked exactly what the SGA is doing. None of us knows because we have not been informed.

Surely, we elected you as our representatives, but we have a right to know what is going on as well. Anytime you feel it is our business, just let us know.

The 'Plan' Must Not Work

By Sheila Williams

It seems as if the HEW (Health Education and Welfare) issue with the merging of UNC-Greensboro has quieted down, but it "definitely" has not!

HEW and the proponents of merger have just gone into "hiding" to acquire more ammunition. They want us to believe that they've forgotten about it, but let's not allow them to pull the wool over our eyes.

There are incidents going on around us which appear to be the match for the fire—the Teacher's Education programs and the audit situation. It appears to be a part of their "plan" to undermine the university.

We must work together to iron out this situation because, if we just give up and let go, it will be like giving candy to a baby.

Recommendations have been made to eliminate 45 teacher education programs within the university system; 11 of these are at A&T. If these 11 programs are to be dropped, the reasons for which many of us attend this university, then we will be left with nothing. Students will have to change their majors or transfer to another university. It will then come to the point that we will no longer have a university.

Let's not give them a chance, or a reason to point their finger at us and say "I told you so."

We have got to work together to rally and fight for our major cause "A&T State University."

Metric System: On Its Way In!!!

By Margaret L. Brown

Many of you may realize that the world and life are steadily changing. For better or worse, this reporter refuses to say.

The latest change is the metric system. A number of manufacturers have already begun to put the metric system measurements on their products along with the United States' system of measuring. By 1980, this reporter believes that only the metric system will be printed on merchandise.

So we, as citizens, must get on the bandwagon to learn the metric system. A&T's Mathematics Department has several courses dealing with converting United States' system to metric system. These courses are on the 600 level which are considered to be upper undergraduate and graduate courses.

Dr. Wendell Jones, chairman of the Mathematics Department, feels that any student who can perform the basic functions of multiplication, addition, subtraction, and division should have no problem in these courses.

Some firms have said that the metric system makes it easier to trade with foreign countries.

Can you imagine going shopping for a size 75 dress, 35 size shoe, 30 decagrams of butter, 10 liters of milk, and five hectares of ground beef?

Now is the time to face that reality because the metric system is on its way in!
FFA National Officers To Visit Ag. Ed. Department

The Agricultural Education Department will host two national Future Farmers of America officers October 3 and 4. The officers will become acquainted with the new trends and developments in A&T's Agricultural Department. Bruce Maloch and Danny Schiffer, the two FFA officers, will visit A&T for two days. During that time, they will attend and participate in agricultural education classes, discuss FFA activities and programs with the staff, attend meetings of agricultural education groups on campus, and meet the majors, educators and administrators.

Bruce Maloch, diversified livestock farmer from Emerson, Ark., is secretary of the FFA. He served as local president of his FFA chapter for two years and as Arkansas FFA president in 1974-75. He has been an active participant in FFA judging contests, winning high individual awards in the state, and participating in the National FFA Livestock Judging Contest.

Danny Schiffer, a 20 year old agricultural mechanic from Orlando, Fla., is vice-president of the Southern Region. In the FFA, Danny was president of his chapter and federation. Danny served the Florida FFA as secretary in 1974-75. He has participated in public speaking contests on the local, district, and state levels.

Installation Of New Lights Begins Improvement Program

The university in its ongoing improvement program, has begun the installation of lights on the tennis court and plans for a new social science building to be constructed in 1978.

The funding for the project is from state funds totalling $18,101 and the work scheduled to be completed December 1.

Requests for lights on the tennis courts came from students and the staff in the physical education department.

Gerard Gray, director of the physical plant, stated that, "with lights on the courts, university students and those in recreation and physical education may use the courts other than during daylight hours."

The proposed new social science building will be designed to accommodate the following programs: psychology, political science and history.

The building will include classrooms, laboratories, offices, air conditioning and an elevator. It will be located between old and new Market Street on Laurel Street, where the old oak tree is located.

Construction will begin in 1978 and it will be state funded.

Another noticeable campus improvement is the construction of a new short street as an extension of Salem Street. The street is located directly in front of the recently acquired Bryan House which is across from Moore Gymnasium.

The construction of the street is being done by the city of Greensboro as a part of city development and improvement.

Epic Records in mid-September. Current plans are for Epic Records to release the album in the United States the end of September and for a national tour the latter part of October.

Next, CBS Records was host at a reception for the 7th Annual Congressional Black Caucus in Washington, D.C., Saturday, September 24, at the Washington Hilton.

More than 3,000 supporters of the Congressional Black Caucus participated in this year's annual dinner and legislative weekend. "The Federal Connection" was the theme of the September 23 workshops on Capital Hill.

The September 24 night dinner theme was "Economic Justice: The Next Chapter" and included personal greetings by President Carter, and a special guest address by Alex Haley, the author of Roots.
Gordon Seeks Participation

(Continued From Page 1)

The council decided to meet every Monday at 8 p.m. in the Student Union Room 212. Future projects include raf sessions on such issues as dorm policy, education and the cafeteria meals. Last Wednesday the Men’s Council presented a video tape entitled, “Mary Jane Grows Up.”

This tape was dealing with the use and abuse of marijuana.

Gordon concluded by saying, “The Men’s Council is looking for at least 100 men to help get the show rolling in full swing. We will never solve our problems if we continue to watch television or the revolutionary, patriotic to rule our lives. The Men’s Council is only asking for a half hour of your time each week.”

UNC-CH Receives High Rating in School Study

(Continued From Page 2)

Board of Governors committee recommended last week that teacher training courses be cut by 10 per cent next year and more after that.

UNC President William C. Friday said one important reason for the cutbacks, aside from the ratings, was the assessment by school officials that without such trimming teacher schools will produce a 15 per cent teacher surplus over the next five years.

**General Admission: $5.00**
**General Admission: $7.00**
The turmoil that has plagued the Aggies the first three games this season finally appears to be shaken this weekend, as the favorite Aggies attempt to bombard winless Johnson C. Smith.

Both teams are in desperate need of a victory to assure positive team motivation and to build self-confidence. Despite a heart-breaking defeat a week ago, practice this past week has been teaching and not preaching. However, one would think that the coaching staff would be very rough after three consecutive losses.

Ironically, the coaches have been cool, calm, and very collected. Many regard the initial quality of a coach as being able to raise his voice to the disapproved and athlete. One would think that the coaching staff would be very rough after three consecutive losses. May be the coaches are saving their voices for the victory....celebration! *************************

The Golden-Bulls of J.C. Smith of the CIAA are led by hard nose running back Earnest “Warhorse” Williams (5-10, 190) who is recognized as one of the top runners in the CIAA. They are an extremely young team with some good athletes,” said McKinley. “They are a pass-oriented team and will probably come at us the same way.”

The game has been designated as “blue and gold day.” But a few others, are referring to it as “our first victory day.”

Hopefully, the out-come of the game will enhance the glare of the Aggie blue and gold. It will outshine Smith’s blue and gold.

This speculation will be resolved Saturday at 1 p.m. at Memorial Stadium.

Three or four years ago, the CIAA was regarded as a push-over for the MEAC schools. Now, CIAA has good talent players that equal up to the fame of the MEAC players.

The worst thing that could happen Saturday afternoon would be for the Aggies to take Smith lightly. To view shades of the Winston-Salem State game could be a dreadful experience for the Aggie gridironers.

With all intentions, you can rest assured that McKinley has the team spunky enough to evade another prejudgeting of a team to the point that enthusiasm is not needed. Right Coach McKinley! *************************

It’s prediction time again and this time around ‘hurr! for the Aggies! The Aggies should crack the winning column with a 10 point slide over Smith. Don’t forget to wear your blue and gold.

By Archie Bass

By Dennis Bryant

Coach Joyce Spruill entering her third year as Women’s Coordinator, sees a good all-round year for the women.

Coach Spruill’s talent on the 1977 basketball team will include 6’2” center LaVerne Williamson from Page High in Greensboro. Williamson averaged 19 points, 15 rebounds and eight blocked shots a game. Next is Michelle Blalancing, a sophomore from Kinston, South Carolina.

“Cookie,” as she is known, played for State 3-A Champions Kinston High where she averaged 18 points. Her junior year, she played with the AAU-1, Olympic team of Cookie a walk-on, was recruited by such great powers as South Carolina State and Clemson for her great jumping ability. Coach Spruill praises her play.

Another player, 6’4” center Carolyn Hallums, has caught the eye of Coach Spruill. Hallums, a sophomore from Winston-Salem, will contribute a lot to the team in rebounding and scoring. With her size, she will help fill the inside ability that the Aggiettes need.

Barbara McPhail, a 5’9” forward will also add depth to the team. McPhail averaged 16 points and ten rebounds a game at Lakewood High. She will also play softball, for which she batted .397 in high school.

“Depending on the weather,” Spruill said, “we have moved up to Division I in Basketball and Division II in Softball. Now we need only the publicity to fill the male sports. The publicity is small. Therefore, we are looking for some recognition. Now A&T can be known for its women’s program.”

With the talented newcomers, the basketball and softball seasons look good. The basketball team hopes to improve its 19-4 record and second-place state finish. The softball team, moving up from a 17-4 record and third-place state finish, looks very good for the 1977-78 year.

Calton Pride

Friday, September 30, 1977 THE A&T REGISTER Page 7

Spruill Expects Good Year

Pride Feels Aggie Team Will Improve With Time

When Clayton Pride signed an athletic grant to attend A&T after his graduation from Charlotte’s West Mecklenburg High School, many observers felt the Aggies got one of the top offensive linemen in the state.

Pride, an All-County and All-State choice his senior season, didn’t disappoint those football experts as he saw considerable action his freshman season and earned a starting role his sophomore year. But, just when everything seemed to be going his way, a serious injury occurred.

With A&T romping over Morgan State in Baltimore late in the third quarter, Pride sustained numerous torn ligaments in his right knee, a dislocated knee cap, and some leg damage.

It was doubtful whether the leg would totally heal enough for Pride ever to play football again.

“CALTON PRIDE"
Now comes Miller time.
