THE A&T REGISTER

"COMPLETE AWARENESS FOR COMPLETE COMMITMENT"

VOLUME XLIX NUMBER 16 NORTH CAROLINA AGRICULTURAL AND TECHNICAL STATE UNIVERSITY GREENSBORO, N.C. TUESDAY, OCTOBER 25, 1977

Dr. Stefanakos Receives Funds To Study Crystal

An A&T State University researcher, Dr. Ellas K. Stefanakos, has been funded by the National Science Foundation to study alternative methods of developing crystals.

Stefanakos, also coordinator of research activities for the new Rockwell Solid State Electronics Laboratory at A&T, has been granted \$64,700 for a three year study of electronic devices such as transistors, solar cells and semi-conductor diodes.

"Generally, scientists and engineers use a temperature controlled method of developing crystals," said Stefanakos. "Our method will be the use of currents, and we feel that, if this is successful, this process will be useful commercially and scientifically."

Stefanakos said that, in initiating this solid state research, A&T becomes only the fourth college in the nation to study in this field. The others, he said, are Cornell University, Massachusetts Institute of Technology, and the Phillips Laboratory of New York City.

"We sincerely hope that this research will lead into better and improved electronic devices," said

Stefanakos.

Stefanakos recently joined the A&T faculty as an associate professor of electrical engineering after serving as a faculty member at the University of Idaho. He holds three degrees from Washington State University.

The Rockwell Laboratory was funded initially by the huge Rockwell International Corporation, and the initial research grants came from the National Aeronautics and Space Administration (NASA). Cornell University will be assisting A&T in complementary projects in the laboratory. Dr. Winser Alexander is director of the laboratory.

Dr. Ellas Stefanakos

Participants in the Philadelphia Alumni Chapter's celebration are, from left to right, Joseph D. Williams Sr., Mrs. Carolyn J. Rhinehardt, and Claudius Hackney.

Philadelphia Alumni

Chapter Celebrates 50 Years

The oldest alumni chapter of North Carolina A&T State University, the Philadelphia chapter, celebrated 50 years of existence last weekend in an elaborate anniversary banquet and dance in the Marriott Motor Lodge in Philadelphia.

The chapter marked the

observance by honoring Dr. Lewis C. Dowdy, chancellor of A&T, for his longtime service to the University.

It was indeed a nostalgic evening when the A&T alumni recalled the founding of the Philadelphia chapter, even before A&T had a national alumni organization. On hand to lead the celebration was Claudius Hackney, the only living survivor of the founders.

The Philadelphia chapter was founded on October 6, 1927, when seven A&T graduates got together in the City of Brotherly Love. The University now has more than 77 chapters throughout the nation.

The chapter has produced two national presidents of the alumni association, Mrs. Julia S. Brooks, the first female to lead the organization; and Eugene H. Preston Jr., who now resides in Washington, D.C.

Dowdy was cited for his longtime leadership role in higher education in North Carolina and the nation. The sixth chief administrator of A&T, he formerly served as president of the National

Association of State Universities and Land Grant Colleges.

Dowdy came to A&T in 1951 and he has served as director of student teaching, dean of instruction, acting president, and now chancellor.

He was presented a special award by the chapter.

Other honorees included Ms. Mozelle Battle, Frank Buie, Ethel Byram, Pearl Daniel, Daisy Dial, Florence Madison Hill, Florence Hackney, Susie Howell, Susie Snowden, Alice Smith and Gretchen Young, and Caudius Hackney.

In his address, Dowdy commended the Philadelphia chapter for their long and distinguished service to the university and to the city. "Today is just the dawn of a new development," he said.

Others present from the Greensboro area included Jimmie I. Barber, national president of the alumni association; Joseph D. Williams, director of alumni affairs at A&T; Dr. Albert E. Smith, vice chancellor for development and university relations; Tony Graham, (See Alumni Page 2)

Board To Attend Convention

The editorial board of *The A&T Register* will attend the 53rd Associated Collegiate Press-National Council of College Publications Advisers Conference (ACP-NCCPAC) in New Orleans, La., October 27-29.

"Sharpen your skills...broaden your horizons...build your career...as you meet, listen to and learn from some of the college journalism world's brightest and most knowledgeable people," is the explanation the ACP Convention booklet gives for the purpose of the convention.

About 70 sessions are scheduled for the staff

members to attend including workshops and panel discussions covering a wide range of subjects. This year Dr. Robert L. Kerns, professor

at the University of South Florida at Tampa, will conduct a short photography course. Photography techni- (See Newspaper Page 8)

AYANTEE Works Hard To Meet Fall Deadlines

By Richard Steele

The 1978 edition of the AYANTEE yearbook is well under way. The staff, consisting of 34 members from each classification, is working very hard to meet the color deadline which is due November 30.

Over half of this year's book is in color. The cover,

which was designed by one of the staff artists, is completed. The book is being sent to Delmont Publishing Company, in Charlotte, in units of 16 pages called signatures. Approximately 12 signatures are due November 30. The weather delayed scheduling of color (See Yearbook Page 3)

Alumni Celebration Hosts Many Dignitaries

(Continued From Page 1)
president of the Student Government Association; W.I. Morris, director of placement at A&T; and Mrs. Lewis C. Dowdy.

Other program participants included Mrs. Marion Tasco, past president of the Bennett College National Alumni Association; Howard Barnhill, past president of the A&T alumni association; Dr. Charles L.

Hayes, president of Albany State College, and Howard Barnhill of Charlotte and Elmo Daughtry, a past president of the Philadelphia chapter.

The long remembered days of sitting outside and talking will soon be over.

"I help develop data for decision-making in the \$6 billion plastics market." —Judy White

Judy has her BA in Mathematics from Fisk. Since her graduation in 1973 she has been working as a Systems Analyst in Du Pont's Plastics Department.

In her job, Judy has already realized two of her most important career goals. First, she works daily with computers developing data for marketing development and planning that is vital to our plastics business. Second, and even more importantly, she works with people ... people she cares about, and people who care about her and her future.

So, if you'd like to work for a company that will help you realize your career objectives, take Judy's advice. Talk with your campus Placement Officers. Go to your Career Conferences. And, interview with the Du Pont Representative when he visits your campus. We have opportunities for graduates in Math, Physics, Chemistry and Computer Science.

Du Pont Company, Employee Relations Department, Room 24766, Wilmington, Delaware 19898.

At Du Pont...there's a world of things you can do something about.

An Equal Opportunity Employer, M/F

Last Friday, in the Greensboro Coliseum, the Isley Brothers performed in concert. Also performing with them was Mass Production.

Entertainment

The Leach Line

By Albert J. Leach

Ballantine has released some of its books for the month of November which include books by authors like John Steinbeck, Alan Dean Foster, Lester del Ray, C. R. Eddison, Frederick Pohl, and others.

The first book is entitled "Understanding Your Man: A Woman's Guide," which is explaining a comprehensive guide to male sexuality written for women.

The book is written by Theodore Isaac Rubin, M.D. He believes that the one-sided approach has been due to simplistic and erroneous notions that men as the initiators are more experienced and self-assertive, and are better able to comprehend anatomy, physiology and sexual gymnastics. Also by Dr. Rubin is "Compassion and Self-Hate" which is said to be one of the most complete compendiums on how to break through neurotic living to greater well-being.

The book examines the causes of self-hate and discusses the most effective therapy for it.

Dr. Rubin also shows how an individual can learn to recognize the attitudes and behavior that stem from a poor image of oneself.

For science fiction minded people there is "The End of Matter," by Alan Dean Foster. This is the trilogy begun in "The Tar-Aiyam Krang" and taken up in "Orphan Star."

Accompanied by Pip and a troublesome Alien Abalamahalamatandra, Flinx (the main character) sets out for Alaspin, home planet of the minidrags.

(See Leach Page 6)

Patti LaBelle Stars As Soloist

By Ralph Shaw

Those of you who attended the Homecoming Convocation heard dynamic address by Dr. Alvin Pouissant, and you might have made notice of his mentioning Patti LaBelle's name when he was commenting on entertainment. Perhaps the Dr. Pouissant was in New Jersey last week-end at Rutgers Univ. on Rutgers' campus.

The performance was Patti's first since the demise of the group Labelle, and marks the beginning of her new tour. Patti commented to the audience that she was a little apprehensive about performing and being accepted as a solo phenomenon; but, by the end of the show, all of her fears were eradicated.

The show consisted mostly of songs that are featured on her "Patti LaBelle" album, released in August by Epic Records. The first half of

the show had the audience jamming, (if you'll pardon my colloquialism), with tunes like "Joy to Have Your Love," "You Can't Judge A Book by Looking at Its Cover," and "Dance with Me". The Lady kicked off her shoes and, being relieved of the pain in her feet, prepared to do some serious entertaining; and that's when the action really started.

The show was interrupted by a bomb scare and the auditorium was evacuated; but, when the patrons returned from the cold, they found that it was worth the wait. Patti had made a costume change and was wearing an outfit resembling the one she wears on her album cover, only in white. She then had the task of building the mood back up to its previous level. That, for a performer like her, who specializes in high energy performances, was

quite easy to do. In fact, at one point when she was jumping around on the stage, the cut of her outfit almost enabled her to give herself a black eye. By the end of the show both she and the audience were exhausted, but the crowd came alive when she left and had not sung "You Are My Friend." Patti came back and sang that song.

Patti LaBelle will be opening in two weeks at the Music Academy in Philadelphia for two days.

Yearbook Staff Sets Color Photo Deadline

(Continued From Page 1) pictures which are presently being rescheduled. All color pictures for organizations are to be in the yearbook office by November 10.

"Our staff's advisor, Miss Mitzi Bond, gives the book a more professional touch. She was selected from the English Department to work with staff members and company representative," said James E. Wood, advertising editor.

Charles Freeman, editor-in-chief, said, "With the cooperation of students, faculty, and administration, there will be more progress

towards completing the AYANTEE."

Sophistication vs Education

We could quote Webster all day on his definitions of the words education and sophistication, but that would not mean we understand the definitions.

An English instructor once said that educated people, in a sense, have to exhibit those educated qualities so that the uneducated can use that person as a model. This instructor said the uneducated would respect the educated.

That instructor might have been correct in saying that, but the statement could have been misunderstood.

The question this reporter would like to address is the correlation between the words education and sophistication.

It seems that in A&T's superficial world, along with our degree, some of us eventually gain an air of sophistication. This air is supposedly part of their educational process. This is the air which causes a person who had for the past 19, 20 or 21 years changed his/her whole personality after eight, six or even four weeks of pledging.

This was not the type sophistication the instructor had in mind but a wisdom is gained from pledging. An epiphany about life that they before were unable to see.

Maybe in the traditional respect education and sophistication do correlate but in the pledging world is sophistication a part of that education?

Why Isn't Food Ready

By Catherine Speller

A special breakfast was held October 15 at 5 a.m. by the Williams Cafeteria as a new addition to this year's homecoming activities.

Many students were waiting outside of the cafeteria; and, when the doors were opened, the lines were filled very quickly. Even though the lines were extremely long, they moved rather fast.

There was no waiting for food or glasses. Everything was ready and the food still hot.

If the cafeteria can be open at 5 a.m. and be ready to serve at least 500 people at once, why do students have to stand in line and wait as long as 15 minutes at lunch and dinner time for food which they say isn't ready?

If the cooks could have a predawn

breakfast ready that early in the morning, it seems as though they could have other meals on time also.

Another problem that students have complained about is the salad bar and vegetables that students serve themselves. The containers are always empty. If the serving bowls are going to remain empty, students feel that they should not be there at all.

The cafeteria itself and the workers aren't the reasons that students complain; it's the service or the lack of it.

Many students only have a half hour to eat in between classes or before going to work; and, if the service were faster, there would be more students eating the meals that they paid for and less complaining.

Are I.Q. Tests Fair?

By Margaret Brown

The question of whether I. Q. tests are fair to Black children cropped up again this week. This time the focus was on a legal battle in San Francisco, California.

James Lannigan and five more Black students are suing the city and state boards of education for deliberate discrimination with the I. Q. tests.

If this case is won, it will be a great victory for Blacks, not only in public schools but on all levels of education.

These tests, according to Dr. Asa

Hilliard, dean of the School of Education at San Francisco State University, "the I. Q. test can have more than one correct answer or different patterns."

None of the authorities of the intelligence test can come to an agreement about the definition of intelligence, so how can someone who can't agree have worthwhile meaning? The I. Q. test deals with social and cultural backgrounds of people and is designed for the middle class white society.

This reporter urges everyone to watch the results of this case.

'Youthgrants' Offers Support

"Youthgrants," a program designed to support projects in the humanities, carried out by young people, is sponsored by the National Endowment for the Humanities.

The National Endowment for the Humanities is a federal agency established by Congress to promote research, education and public activity in the humanities.

The Youthgrants program places emphasis on projects initiated, planned and run by high school students, college undergraduates and out-of-school young people of comparable age.

Youthgrants supports a wide range of activities within the general area of the humanities—that is, in fields such as history, literature, language, philosophy and archaeology.

These activities can take the form of individual and group research projects, films, exhibits, and curriculum development projects.

Although adults may participate as advisers or consultants, ultimate responsibility for initiation, development, and implementation of the project must lie with the young people

themselves.

The majority of Youthgrants awards to individuals are less than \$2,500, ranging up to a maximum of \$10,000 for groups of young people. The program can not provide financial aid for tuition or scholarship

support, but it does provide young people with the opportunity to carry out independent research on a topic of interest to them.

For further information contact the vice chancellor of Student Affairs before the end of October, in Room 100 of Murphy Hall.

Lack Of Space Limits Bookstore Selection

By Karen Williams

"We do not have the sufficient amount of room; therefore, we only have the required books," said James Meachem, manager of A&T's bookstore.

Meachem, who has been manager of the book store since 1965, said that very few students purchase the paperback books on the shelves. They only purchase those books that are required by their instructors. He said that nonrequired books are ordered in small quantities, however.

Though Meachem contends that he would like to

have a section in the bookstore where the best sellers and other novels would be located, he admits that the inadequate space allotted will not allow this.

"The bookstore gets a 20 percent discount on most books," Meachem stated. "Thus, if they were sold at the list price, we would lose money. The discount covers the operating expenses," he concluded.

According to Meachem, 50 percent of the students purchase greeting cards and book supplies. He also said the candy items are good sellers.

If you study now, you don't have to go through the trouble of dropping later.

Overseas Mail Group Sponsors Holiday Program

Editor of The Register:

With Christmas again rapidly approaching, we at Military Overseas Mail are concerned about the many thousands of our military personnel who will be away from their homes and families during the holiday season. For many of these young men and women this will be the first Christmas away from home.

Readers of **The A&T Register** can help make this holiday season a little less lonely and a little more enjoyable for many of these young people by joining in the collection of Christmas mail sponsored by Military Overseas Mail. This is an ideal project for school classes, clubs, and other groups as well as individuals and families. For more information, please send a stamped, self-addressed envelope to Military Overseas Mail, Box 4330, Arlington, Virginia 22204, and mention that you read about M.O.M. in the North Carolina A&T University Register. Thank you.

Lee Spencer
Coordinator

The Program of the Year isn't on TV. It's in the Air Force ROTC.

Look into Air Force ROTC. And there are 4-year, 3-year, or 2-year programs to choose from. Whichever you select, you'll leave college with a commission as an Air Force officer. With opportunities for a position with responsibility... challenge... and, of course, financial rewards and security.

The courses themselves prepare you for leadership positions ahead. Positions as a member of an aircrew... or as a missile launch officer... positions using mathematics... sciences... engineering.

Look out for yourself. Look into the Air Force ROTC programs on campus.

GREENSBORO, NC 27411

Put it all together in Air Force ROTC.

Poetry Contest

A \$1000 grand prize will be awarded in the Poetry Competition sponsored by the World of Poetry, a monthly newsletter for poets.

Poems of all styles and on any subject are eligible to compete for the grand prize or for 49 other cash or merchandise awards.

Says contest director, Joseph Mellon, "We are encouraging poetic talent of every kind, and expect our contest to produce exciting discoveries."

Rules and official entry forms are available by writing to World of Poetry, 2431 Stockton Blvd., Dept. A, Sacramento, California 95817.

The Leach Line

(Continued From Page 3)

There he hopes to find the mysterious man with a gold earring who somehow holds the key to Flinx's parentage and to the strange powers he possesses.

Alan Dean Foster is the author of the popular "Star Trek Logs" and is presently putting the finishing touches on the sequel to Star Wars.

Also in science fiction is the book from the movie Star Wars called "The Marvel Comics Illustrated Version of Star Wars, introduced by Stan Lec.

Marvel comics originally ran the Star Wars story in six separate comic books which became overnight collector's items.

There is the entire Star Wars story, complete with the fabulous illustrations from all six sell-out Marvel comics.

These are just a few of the books released by Ballantine for the month of November.

Campus Haps

The Ivies of the Alpha Phi Chapter of the Alpha Kappa Alpha Sorority Incorporated, invite each and everyone to attend their annual fall fashion show. Immediately following the fashion show, there will be a disco. Time, 7:00 pm, Student Union Ballroom, Sunday Oct. 30. Donation \$.50.

The Brothers of Omega Psi Phi Fraternity will present Anglo-Saxon Brown, Wednesday, October 26, at the Cosmos I. Admission will be \$1 with student ID and \$3 without.

All organizations taking their own pictures-pictures must be in yearbook office by Nov. 10.

Friends of the African Heritage Center will sponsor an African Potpourri on Saturday, October 29, from 9-5 p.m. in the Mantleworks, 324 S. Elm Street.

A discussion of Laundry and Linen problems, sponsored by the Men's Council, will be held Wednesday, October 26, at 8 p.m. in the second floor lobby of Scott A Hall. Guests will include Albert Crawford, laundry manager; James Garfield, director of auxiliary services; Gerard Gray, physical plant director; and William Goode, dean of men. The public is invited.

Dalton Speaks At Meeting

By Johnny O. Hunter

Mrs. Roberta Dalton, supervisor of housekeeping for dormitories, addressed Monday night's Men's Council meeting in the Student Union. She announced her hopes of making Scott Hall a model dormitory as far as cleanliness is concerned. "We (her staff) would like to reach a performance level where all of us, including the students, will be proud of how the dormitories look," stated Mrs. Dalton. Along these lines, Dalton is training her staff to do the best job possible and to "think clean." Student participation was referred to as a supportive element in the success of the clean-up program.

Mrs. Dalton has held her position since March of this year. She gave a general explanation of her duties and responsibilities, which include inspecting dormitories regularly to see if the

housekeepers are having any problems performing their tasks. Also she is seeking to eliminate any unsanitary conditions including rodents and insects. Any student can have his room exterminated by contacting the dean. When the exterminator comes, the room will be sprayed.

Mrs. Dalton suggested ways for the students to contribute to the cleanliness of their "home away from home."

"We need the help of the entire student body to make life more pleasant in the dorms. The best way is to try to keep the dorms clean once they have been cleaned. Paper on hall floors could easily be eliminated with a little effort. If each student using the bathroom showed consideration for the person who followed him, it would eliminate a lot of bad odors and inconveniences," stated Mrs. Dalton.

Mrs. Roberta Dalton
Supervisor of Housekeeping for Dormitories.

When asked why some areas are not cleaned daily, Mrs. Dalton explained that the high absenteeism of some housekeepers created that problem.

She closed by thanking the Men's Council for creating "outstanding improvements in the dormitory appearance since last March."

Presiding over the meeting was Richard Gordon, president of the Men's Council. Other guests were Troy Wadell, area supervisor of housekeeping, and Charles Ingram, adviser to the Men's Council.

Isley Brothers Present Below Standard Concert

By Albert Leach

It has been said time and time again that the Isley Brothers can not perform in concert, and Friday night they lived up to the tradition.

First, there was the introduction of Mass Production which performed a few selections from their new album "Believe." Not only was the crowd small but the group couldn't be understood.

The music was too loud for the crowd, and it seemed that most of the audience was on their way to sleep.

Then came the group everyone was waiting for, the supposedly fantastic Isley Brothers.

The group came out with a series of smoke bombs and singing one of their million

seller hits: "Fight The Power," from "The Heat Is On," album.

The group performed most of the songs from their latest album "Go For Your Guns."

Not being able to sing was not the group's only problem. The group did not have any steps or certain rhythm to follow with the music.

The Isley's also used too many smoke bombs in their performance Friday night, along with letting the lead guitarist take over the show.

Most of the people that attended the show said that it was the worst show that has been in the coliseum in quite a while.

Puzzle

SPORTS NOTEBOOK

By Archie Bass

Even though the Aggies defeated the Howard Bison 34-10 Saturday afternoon, the big plus of enthusiasm was not present.

"We weren't fired up at all for Howard; but, next week against Morgan State, the players will definitely be fired up," said Jim McKinley.

Despite not being fired up, the Aggie offensive ground attack, paced by Bill Joyner, and the defensive secondary, keyed by Thomas Warren, managed to make it four in a row.

"The defense looks better and better and the secondary is super-aggressive," stated McKinley.

"Howard stunts, so they constantly threw our offensive line off," said McKinley. The Howard game was the first game since the S.C. State game that the defensive front four stayed in the backfield with quarterback Ellsworth Turner.

Whether, because of inexperience or just not being up for the game, Darwin Valentine, offensive line coach, may head back to the drawing board.

The Aggies are into the 1977-78 basketball practice. This year's promises to electrify the state.

Joyce Spruill, head-coach, signed sought-after recruits to fill in for her frontcourt performers. Sharon Upchurch, a 5-8 forward from Sanford, averaged 20.8 points per game and 5 rebounds in high school while Ethel Simmons, a 5-11 frontcourt player from New Bern, averaged 16 ppg and 16 rebounds during her prep career.

Spruill is also confident that Greensboro native, 6-2 LaVerne Williamson, will provide much of the inside strength needed to play the center position.

"We will be playing a much tougher schedule this season with opponents like Wake Forest, South Carolina, UNC-G, and High Point College," Spruill said.

Kareem Abdul Jabbar, perhaps basketball's most talented player of all times, made big news last week. Jabbar, after taking punishment his entire pro career from centers throughout the NBA, finally put his fist into action saying, "That's enough."

And Kent Benson was first victim in that he caught a right blow to the eye.

There has been controversy over the one blow by NBA commissioner and several other sports announcers; but, when Jabbar used to take it, there was nothing said.

If that had been Nate Thurmond that Jabbar hit, then there would have been no "lip" by the NBA commissioner.

The quiet Jabbar now becomes Muhammad Ali, Jr.

Reggie Jackson, the man who stirred the drink, made it a champagne cocktail. With three magnificently dramatic home runs, he gift-wrapped the New York Yankees' 21st World Series championship.

"I am the straw that stirs the drink," said Jackson.

Whether hitting homeruns or just "running-off-at-the-mouth," the name Reggie Jackson made baseball this year.

Who says "big mouth" is not worth it? Not me!

Quarterback Ellsworth Turner (10) of A&T carries the ball in for a touchdown as Ron Scott (34) follows. A&T defeated Howard University 34 to 10 last week in Memorial Stadium. Photo by Love

A&T Demolishes Howard

By Craig R. Turner

Back in early September, Coach Jim McKinley gave his team a "road map" to follow to have a successful record. The Aggies misread the map in the early going and fell to three nationally-ranked teams before finding the right road.

The Aggies used that map and now appear a runaway course for a possible 8-3 season after demolishing Howard 34-10 before 9,000 fans last week in Memorial Stadium.

"The score should have been higher. Somewhere in the forties," said a relaxed McKinley in a postgame interview. "We had three chances inside of their ten-yard line and came up empty handed, but it really didn't matter. We played another good game especially our defense."

"Howard does a lot of stunting on defense so we knew going in that some of our plays would look weak while others would break for some points." The Aggie defense and another outstanding day defensively limited the Bison to a mere 47 yards rushing and 132 passing.

A&T muffed its initial chance for a score early after recovering a Howard fumble on the opening kickoff. However, the Aggies stormed in on Howard's punter Lamont Ward on a fourth-down play and dropped him at his own five-yard line.

Quarterback Ellsworth Turner carried it in on the next play on an option play to give A&T the lead as Nolan Jones added the point after at 10:10 in the first quarter.

Following a Thomas Warren interception, the Aggies scored on Nolan Jones'

43-yard field goal with just under a minute to go the first period.

Howard got on the board on a 43-yard Ward field goal midway in the second quarter. But A&T shut the door for good at that point and turned what was a close game into a one-sided affair.

Return specialist Lon Harris returned a Howard punt 52 yards before being knocked out at the Bison five. Turner again ran it in, this time from five yards out to give A&T a 16-3 half-time lead.

The Aggies took the opening kickoff and went 60 yards for the clincher as Turner connected with a wide open Frank Carr down the middle of Bison secondary for a 49-yard touchdown pass early in the third quarter to push the score to 23-3.

Howard put a 34-yard touchdown pass of its own together when Brian Thomas found Tim Wilson behind the A&T coverage. But the A&T defense put the

stops on the Howard passing game with a ferocious pass rush and some devastating tackling.

William Joyner closed out the shock wave with a 42-yard touchdown with just two minutes remaining to polish off A&T's fourth straight win. Joyner gained a 167 yards while Turner completed 8 of 13 passes for 181 yards. A&T's secondary, tops in the nation, picked off two passes to raise its total to 21 for the year.

"We really weren't up for the game and it bothered me at first but our kids were pretty much in control the entire game. I was a little disappointed that we lost some containment on their rollouts but we will correct that this week," McKinley stated.

"What surprised me was that Howard usually runs a lot of misdirection and traps.

Today they stayed with the power plays and threw to their backs. I believe we got some things down out there today."

Top-Ranked S.C. State Ties With Newberry

College football is heading into the home stretch and several conference races are beginning to tighten up around the country. Perhaps the most interesting is the Mid-Eastern Athletic Conference.

A week ago it had appeared that the South Carolina State Bulldogs, ranked first in everyone's college division poll, was well on its way to the championship following a lopsided win over Morgan State.

However, the bulldogs ran into a fired up Newberry club this past weekend and had to come from behind to salvage a 21-21 tie in a non-conference clash. The key plays were two blocked S.C. State field goals late in the fourth quarter by the Newberry defense that preserved the deadlock.

Delaware State and Morgan clashed up in Dover, Del., and the results were both unexpected and crucial.

Delaware Upsets Morgan 20-6

(Continued From Page 7)

The Hornets broke open a 6-6 deadlock late in the third quarter to post a 20-6 win over Morgan State before a capacity throng. The lost eliminated Morgan hopes.

A&T posted its fourth straight victory with a 34-10 thumping of Howard. Ellsworth Turner ran for two touchdowns and threw for another while William Joyner rushed for a career high of 167 yards including a 42-yard touchdown gallop. The win moved the Aggies into a second place tie with Delaware behind S.C. State.

Maryland-Eastern Shore climbed out of the cellar and left hapless North Carolina Central to that distinction with a 14-6 triumph over the Eagles. Trailing 6-0 in the third period, Jerry Hamilton tossed a 31-yard scoring strike to James LeSane. Hamilton later added a six yard touchdown run to

secure the Hawks' second win of the year. Central dropped to a 1-6 mark, its worst in some 20 years.

In CIAA action, Winston-Salem continued its winning ways with a 23-9 win over Elizabeth City State, Virginia downed Hampton 45-22, Virginia Union stopped Norfolk 21-15, Livingstone slipped

past Fayetteville 23-12, and J.C. Smith crushed Shaw 26-13.

The rest of the nation went the way of the favorite. Grambling over Jackson 34-7, Texas Southern defeated Mississippi Valley 35-33, Florida A&M beat Tennessee State 31-28, and Alcorn shut out Southern 23-0.

Newspaper Conference To Cover New Methods

(Continued From Page 1)

ques from the basics to the newest in photojournalism will be covered in this session.

The staff members attending this conference are Maxine McNeill, Margaret Brown, Catherine Speller, Sheila Williams, Pamalin Cherry, Robert Beasley, Charles Perry, Larry

Jenkins, Terrence Marable, Albert Leach, and Jackie Alston.
