Black Caucus Member To Speak At Nat'l March

The North Carolina Alliance Against Racist & Political Repression announced today that Black Caucus Chairman Rep. Marvin Graeber will be a featured speaker at the National March on the White House, March 18.

The two representatives participated in a six-member congressional delegation which traveled to North Carolina in December to meet with Gov. James Hunt. Gov. Hunt, however, refused to meet with them, citing the need to keep Sunday for his family.

Rev. Ben Chavis, co-chairperson of the National Alliance, announced the March on the White House at a press conference held by the Wilmington 10 defendants January 24, following Gov. Hunt's January 23 announcement that he would not pardon the 10 defendants.

Anne Mitchell, N.C. Alliance state co-ordinator, stated, "North Carolinians of conscience have raised their voices to tell Gov. Hunt 'we cannot and we will not forget.' Now, we go to Washington to tell Pres. Carter we must have human rights at home, in North Carolina. The Wilmington 10 must be free." Ms. Mitchell continued, "Buses will be leaving from 8 cities in North Carolina. We urge all who can participate to join in this pilgrimage for justice."

The N.C. Alliance is coordinating the effort for the noon demonstration in Washington for this state. The organization can be reached at N.C. Alliance POB 26221, Raleigh, N.C. 27611.

Who's Who Prints 2nd Book

"Who's Who Among Black Americans," the most comprehensive reference volume on Black achievement in the United States, will be published in early March, 1978. The book contains biographies of more than 13,000 Blacks, all living, who have attained high levels of achievement in the arts, athletics, business, education, government, law, the media, engineering, labor, fraternal organizations, associations, religion and the sciences.

The first edition of "Who's Who," published in 1976, contained biographical information on 10,000 Blacks. It was named one of the most outstanding reference volumes of 1976 by "Who's Who" (See Black, Page 2).

Instructor Leaves A&T After Two Week Stay

Mel Jackson, a new instructor in the Mass Communications program, has resigned from his post. Jackson cited budget problems as the main reason for his leaving. Jackson told his class that just because he was leaving there was no reason for the class to stop functioning. He had been at A&T for only two weeks.

Jackson felt that he was not accomplishing what he wanted to get across to his class. "If a camera breaks down, there is no back up equipment to keep the class going," he said.

Jackson told his class that, (See Jackson, Page 2)
Howard Professor To Visit A&T

Dr. Donald Coleman, director of urban systems engineering program and associate professor of engineering of the Howard University, will be at A&T Wednesday, March 1, between 1-4 p.m. He will lecture and hold informal conferences with students, classes, and staff members of the Economics Department.

The possibilities of the development of a jointed Research Applied National Needs (RANN) proposal will be discussed.

Dr. Coleman earned his B.S. degree in Mathematics, Masters and Ph. D in Electrical Engineering all from the University of Michigan.

Dr. Coleman will be Black Scholar Recognizes Notable Book

(Continued From Page 1)

the American Library Association and was one of the nineteen “notable” books recognized by “Black Scholar” that year.

According to editor William C. Matney, Jr., "The enthusiasm on the part of business, government, educational and other research organizations which greeted our first edition proved the need for a primary reference volume on Black achievement; and the addition of more than 3,000 biographies to our second edition reflects the book’s universal acceptance.

"In the two years since the first edition was published, we have up-dated information on all biographies and have worked to improve the volume’s research value," Matney continued.

In addition to an alphabetical listing of biographees, the 800-page volume contains indexes listing those included by geographical area and occupation.

"A wide variety of organizations and individuals have cooperated to help make the book as comprehensive as possible," Matney said. "Thanks to them the volume gives an excellent overview of contributions Blacks are making to American life in occupations ranging from art to zoology and in all geographic areas of the country."

Jackson Says In TV World Knowing Job Important

(Continued From Page 1)

in the world of television if you do not know your job, you will not keep it. He stressed that time is money in television, and nobody has the time to teach you your trade.

"I do not want my class unprepared in a cut-throat business," he said. "Jackson’s class did not want him to leave even though most of the students considered him as their toughest teacher."

Good Luck Martial Artist!!!

"I wonder if I’m punching this right.”

SOPHOMORES! IS THERE LIFE AFTER COLLEGE?

You’re aiming for a college degree. And with that in hand you’ll be looking for a job offer. You may find it won’t be automatic. For that reason it’s important for you, as a sophomore, to make the most of your last two years in college. Whatever your career choice, you’ll want to become competitive and marketable. It won’t be easy but you’ll find yourself better prepared if you look ahead.

Arm yourself with the “Life After College” packet on the job outlook, the job search, career statistics. Learn what increases your career potential. Sophomore, you can do something about your life after college.

Stop by the Army ROTC Department for this informative packet.

Smiley To Appear In Harrison

By Eric Howell

William C. Smiley and Dr. Michael Greene will appear in recital Wednesday, March 1, in Harrison Auditorium at 8:05 p.m. This is one of a series of faculty recitals being presented this semester by the Music Department.

Smiley is a graduate of Jackson State University's Department of Music and is assistant professor of music at this university. He teaches woodwinds, woodwind ensembles and theory.

He has studied clarinet with Dollye M.E. Robinson, Blaine Edlesfien, Austin McDowell and Denny Gold. Smiley received his S.M. degree from the University of Illinois and has done further study at the University of Arizona and the University of North Carolina at Greensboro.

Prior to joining the music faculty here in 1970, Smiley served as band director at Alcorn State University at Lorman, Mississippi, and Stillman College at Tuscaloosa, Alabama. He has also directed bands at various high schools.

Curtis Hall Picks Ingram As Sweetheart Ball Queen

By Charlene Middleton

"It was a great honor to be crowned Miss Sweetheart," said Kim Ingram, a senior business administration major from High Point. Ms. Ingram and her escort were dedicated the first dance after her walk. Other contestants were Debra Berryman, a junior, Veronica Cooper, a sophomore; and Penny Herndon, a freshman. They were also presented with boxes of candy.

A box of Valentine's candy was raffled off during the festivities. The winner Larry Barham, a resident of Scott Hall, was the recipient. Music was furnished by the well-known disc jockey Larry Gee.

In Honor Of Black History Month, We Bring You:

Black In The News

Washington, D.C. - Mary McLeod Bethune, daughter of slave parents who became farmers, is Black and the first woman ever to serve as an advisor to the President of the United States, will be given additional recognition with the help of two grants totaling $56,669 from the National Endowment for the Humanities.

The award will be used by the National Council of Negro Women (NCNW), an organization founded by Mrs. Bethune in 1935, to develop programs to make the public more aware of the achievements of this remarkable lady.

A Humanities Endowment Media grant in the amount of $35,309 will help the NCNW develop and produce a film for television highlighting the accomplishments of Mrs. Bethune. After establishing herself as an educator and activist for the rights and welfare of young people, Mrs. Bethune was tapped by President Franklin Roosevelt to advise him of the plight of Blacks in America. Impressed with her work, President Roosevelt, in 1935, appointed her director of the newly established Office of Minority Affairs.

Not only was she the first Black woman ever to hold such a post, she became one of the most influential and powerful Blacks in the country.
With Purpose In Mind

When one speaks of studying Black History or celebrating Black History month, too much can never be said about the four A&T freshmen who sparked what they termed as a “passive demand for service” at the lunch counter at downtown Greensboro’s Woolworth’s Five and Dime Store.

The four freshmen—Ezell Blair and David Richmond who are Greensboro natives; Joseph McNeill, a Wilmington native; and Franklin McCain from Washington, D.C., started their sit-down demand February 1, 1960. Because of these males’ organized non-violent protest, A&T students, as well as any other Blacks who choose to, can be served in public eating places all over the country.

Joseph McNeill, when speaking about their action at the time of the actual event, said, “We have a definite purpose and goal in mind; and with God on our side, then we ask, ‘Who can be against us?’

When A&T students are heard making remarks like “I want to see the conditions on campus bettered but I’m only one person,” this makes one wonder. How were these males able to change the views of the entire nation?”

Last year, while talking with David Richmond, one of the original four, he made some interesting statements about A&T now and A&T in retrospect.

He said that, though there have been some drastic changes as far as the atmosphere around campus is concerned, the students during his day resembled the students of North Carolina Agricultural and Technical State University.

The past history of A&T proved a point that we all should remember. As first these males were small in number, but the purpose was overwhelming.

Participate In Activities

By Catherine Speller

What activities other than homework and classes have you participated in lately? This writer can safely guess, not many and some of you not any. Why?

You can’t use the excuse that there isn’t anything happening on campus anymore because, for the last month, there has definitely been planned campus activities.

It’s good that there are dedicated workers; for, without them, “the show wouldn’t go on,” but that is not enough.

Others should be recruited and asked to participate or even persuaded to take part. If we are to have a school for the entire university family, then we must encourage more of our fellow students to take an active part in campus activities.

Nothing will ever change if you don’t stop sitting in your rooms and talking about the things that are noticeably wrong on campus.

Start right away. Take an active part; participate in some activities every week and, if possible, every day.

Support Aggies In MEAC

By Sheila Williams

Here it is MEAC weekend and the Aggies go into the conference number one. It will even be more exciting to see A&T go all the way.

This is it; the time has arrived for you to put that apathy away and go out to the games to give the team moral support. And with you, the number one Aggie out there cheering your little heart out, it will make the team feel on top of the world.

The rough has gotten tough, and the tough plans to ‘derail’ anything that gets in its way.
HEW Dispute To Hurt A&T

Editor of The Register:

The editorial writer also makes some points that I feel are unwarranted. He seems clear to me that UNC-CH and NCSU will also suffer if federal funds are cut off. Despite the fact that they have more alumni than A&T and thus could potentially contribute more, it does not mean that they could contribute the many millions of dollars each year necessary to replace the lost federal funds. The statement that the UNC-CH alumni contributed for the stadium I believe is irrelevant. First, this is a one-time contribution, not the continuing one that would be required to replace federal funds.

Second, the same people who might be willing to contribute to an athletic program (especially a successful one!) might not be willing to fund research.

As the editorial writer notes, the Board of Governors has set up an ad hoc committee to study the possibility of fighting the HEW rulings in the courts. Does the editorial writer seriously believe that these committees would be taken if only A&T were to be affected by the ruling? Past history suggests otherwise.

Donald Scherer
Department of Economics

Basketball Merits More Support Than Choir

Editor of The Register:

Please allow me a space to comment on Mr. Leslie E. Whitfield's article captioned "Student Commends Aggies' Support of Gospel Choir" published in The Register on February 17.

In my candid view, I feel the basketball team needs the support of the university family (Gospel Choir included) in all its endeavors as our worthy ambassador to the MEAC championship contest. As such, all activities on campus, especially those which are not obligatory, should be scheduled in such a way as to eliminate conflicts of interest.

I do not dispute the fact that we all need spiritual enlightenment, but still the religious program has to be planned in a way that it will attract even the most flexible student around. The attendance during the Gospel Choir's Anniversary would have been more pronounced if a second thought had been given by the leadership before fixing the date.

According to Mr. Whitfield, he said that he looks forward to the choir's anniversary each academic year to bring the students closer to each other. This purpose was defeated by the mere fact that the date of the anniversary was fixed on the same day that the basketball team needed our support most, not only to defeat the Boons who are our traditional rivals but also to win the regular conference championship crown.

Mr. Whitfield, the basketball team needs the support of the choir. After all, the Almighty Father has nothing against basketball.

Eddie E. O Oman

A&T Seeks Help From City

by Anthony Boyd

Should things go right, not only will A&T athletes take pride in the new stadium, but also Greensboro area youths as well. A&T has asked the city of Greensboro for $950,000 to complete the new athletic complex.

The money will be used to purchase artificial turf and electric lighting. Artificial turf will provide a more durable playing surface and lighting will aid night play.

"We are not asking the city to use tax money, only revenue sharing and public works funds, said Mrs. Shirley Frye, assistant director of development and university relations.

"The idea was that this was a community project, in that the University was using the Memorial Stadium, which was designed specifically for baseball," said Mrs. Frye.

To present the plan, a special committee was selected with Representative Henry Frye as its head. Mrs. Frye said, "It is composed of interested citizens of Greensboro who felt Greensboro and the University should join hands in completion of the stadium."

Mayor Jim Melvin has referred the proposal to the financial director, city manager, and parks and recreation director.

Construction of the stadium, which will house track, football, and other physical education facilities, is pending acquisition of all necessary funds.

CAREER OPPORTUNITIES

UPJOHN BEGINS WITH YOU

Representatives from The Upjohn Company will be on campus Tuesday, February 28 to interview in the following areas:

CHEMISTRY. B.S.-M.S. chemists for positions in chemistry laboratory assistants and laboratory analysts.

BIOLOGY. B.S.-M.S. biology-microbiology majors for positions as lab assistants or lab analysts.

ENGINEERING. B.S. mechanical, and electrical engineers for entry level project engineering slots.

Why interview with Upjohn?

The Upjohn Company is an employee-oriented pharmaceutical-chemical firm with corporate-research production headquarters in Kalamazoo, Michigan, and with various other chemical, pharmaceutical, agricultural and laboratory operations throughout the U.S. All Upjohn businesses fall under an umbrella of improving the quality of life for humanity. Research is given a top priority with nine percent of sales, or $32,565,000 being reinvested in Research & Development in 1976. Our efforts in such areas as Infectious Diseases, CNS, Diabetes, Asthma, Hypersensitivity, Diabetes Research and Cardiovascular Diseases are resulting in extensive product lines and exciting new product systems.

We have over 6,000 employees working in Kalamazoo and another 6,000 or so working at other U.S. sites. A great many of these are professional specialists, thus affording a stimulating atmosphere for work and growth in a multi-disciplined environment. And although we are fairly large, our internal job-posting system, rotational training programs (in some areas), and friend career paths enhance mobility and growth potential.

Upjohn offers excellent salaries and a comprehensive benefits package including life, medical, and dental insurance plans, assistance for continuing education and a Christmas Bonus Program.

If unable to interview, please forward your resume to:

An Equal Opportunity Employer M/F

Friday, February 24, 1978 THE A&T REGISTER Page 5
Smith Endorses Senate Bill

Raleigh — U.S. Senate hopeful McNell Smith endorsed the Humphrey-Hawkins "full employment" bill in a press conference on February 20. Calling the bill a "fitting memorial" to the late Hubert Humphrey, Smith said it is a "major step toward achieving the goal of a fully producing society."

The Humphrey-Hawkins bill is a national commitment to full employment and holds the executive and legislative branches of government accountable for seeking full employment.

Earlier this month, Smith received the endorsement of the AFL-CIO's political arm, because of his strong stand on the 'bread and butter' issues affecting working people—jobs and the economy. "Every American should be entitled to the freedom, security and dignity that comes from having a job. Full employment must be more than an empty promise."

Building

Aids

Department

(Continued From Page 5)

According to Dr. Elias K. Stefanakos, associate professor of engineering and research director of the program, the estimated cost of the building is $20,000. Dr. Stefanakos says that the building is to be used to aid the Department of Electrical Engineering with additional members and to support the Rockwell Solid State Electronics Program.

NASA joined the Rockwell International on February 1, 1977, for the enhancement of the Rockwell Solid State Electronics Program. The Graham Annex Building serves as an aid in facilities for the Electronics Program.

AES Designs T-Shirts For Semester Project

By Richard B. Steele

The Architectural Engineering Society, in collaboration with instructors Paul Petiei and Reginald Whissett, has come up with a semester project that will benefit all students, the tee-shirt design project.

Practically anything one would like to have printed on a tee-shirt can be done at the cost of $5.00. If one has his own tee-shirt, the cost is only $2.50. Keith Person, president of AES, said, "All monies received as a result of the project will be used for field trips and other activities."

The job is done in Cherry Hall where the students set up the printing machine, a task of approximately three hours. The actual printing process is from three to five minutes.

Winston says, "Very good results are accomplished by the activeness of the program. Hopefully by the summer the program will be under-way again, to aid in the success of the program, engravers are brought in to mark students' merchandise. Counselors will, as a part of their meetings, allow a few minutes to be used as a rap session on crime."

Smith highlighted the history of unemployment during the last forty years and the legislation enacted to combat it. "Today, we still have unemployment," he said, "around 6.4 percent, with joblessness among Black youth running over 40 percent. There are also unacceptably high levels of unemployment among women and people living in rural areas."

There will be an Editorial Board meeting of The A&T Register Sunday, February 26, at 3 p.m. All members "must" be present.

Attention: Women's Council Officers will have an executive board meeting on Wednesday, March 1, at 7 p.m. in the East lobby of High Rise.

There will be a Men Inclined Alpha (MIA) meeting in Hines Hall, Wednesday, March 1, at 7:30 p.m.

The Biology Club will meet at 6 p.m. on March 1, in Barnes Hall.

The Kappa Alpha Psi Fraternity are sponsoring a twin bill disco this weekend Friday at the Cosmos I from 2-6 a.m. and Saturday at the Carlotta Club from 11-until.

The Sisters of Swing Phi Swing and the Brothers of Groove Phi Groove Social Fellowships will have an after game Jam Friday, after the game, at the Carlotta. Admission is $1 with ID and $2 without.

The Student Alumni Council will be selling pom-poms on Friday and Saturday nights at the game. Please support them.

There will be a meeting of all Co-op students on Wednesday, March 1, at 8 p.m. During this meeting officers for the Co-op Club will be selected. All co-op students are urged to attend.

Every Wednesday from 5-6 p.m. in Room 210 Crosby Hall there will be a tutoring session for the NTE and the GRE.

Attention all potential graduates planning to participate in the commencement exercise in May. Please pay for regalia at the cashier's office and bring your receipt to the bookstore for your measurements to be taken.

Your cap, gown, and tassel will be ordered and available for commencement. If you fail to meet the graduation requirements, your money will be refunded.

The deadline for measuring for the regalia is April 1.

The Brothers of Omega Psi Phi will sponsor an MEAC Jam Saturday night at the Cosmos II from 10-6 a.m. Admission is $2 with ID and $3 without.

Unheralded Littles Gets Award

By Dennis Bryant

Mutual Black Network Sportscaster Ron Pinckney in his effort to make sure Coach Gene Littles received some credit for his outstanding achievements in guiding the 1977-78 men's basketball team to an 18-8 record from a dismal 3-24 record last season, officially announced that Littles was the Mutual Black Network's 1977-78 Coach-of-the-Year.

The MEAC coaches voted Marshall Emery 1977-78 coach-of-the-year in the MEAC. Pinckney criticized the coaches' choice. He stated, "Coach Littles didn't receive the recognition he should have for a very well-done job on the team. Area sports figures have given their opinion about the choice. They include Jim Pritchett, WBIG, who said "the coaches in the MEAC rank on the top of stupidity." Charlie Harville, WPMY-TV, said, "I feel the award should have gone to Coach Littles because he has done an outstanding job." Harville stated that he knew Emery took his team a long way, but Littles took his team even further to the top.

Greensboro Daily News Sportscaster Bill Hass, said, "Color the MEAC embarrassed-thoroughly and undeniably with the of-the-year." The Mutual Black Network's selection is based on all the predominantly Black schools.

MEAC Tournament scheduling

South Carolina State used a pressure defense and a running tempo to blow out Delaware State 64-50 in the opening round of the MEAC Tournament.

The Bulldogs and the Hornets battled to a near draw in the first half in a slow down by both teams. Delaware took a 27-26 halftime lead.

Coach Tim Autry released his Bulldogs in a second half running game along with some devastating rebounding to outscore the Hornets 18-3.

After that, SCSC spread the offense to its 16th win against 11 defeats. Willie Brown was the high scorer with 18 points, Harry Nickerson had 14 points, and Arthur Snipe had 13 points.

Delaware finished at 10-15 overall. Isaiah Faulkner had 16 points for the Hornets. SCSC will meet A&T tonight at 9 p.m. in the Greensboro Coliseum.

S.C. State Blows Away Delaware

Eric 'The Pencil' Evans fires for two. Morgan State defeated NCCU 79-69 in a game which followed South Carolina's 69-50 victory over Delaware State.

Aggies Enter Tourney

The A&T Aggiettes under their first year of Division II status will enter the state NCAAW-Division II Tournament in Raleigh Friday.

The team has found the road tough after a sparkling 19-4 record from the 1976-77 season.

The tournament will consist of schools like High Point, Pfeiffer (the number two seated team), Lenoir Rhyne and Campbell College. All of these have defeated the Aggiettes during the season by very large margins. Other teams involved in the three day tournament will be Western Carolina (seated first), Mars Hill (seated fifth), Elon and A&T tied for the sixth seat.

The Aggiettes lost four of their last five games of the season. (See Aggiettes', Page 8)
Aggiettes' Team Consists Of Talented Players

(Continued From Page 7)

season. Their record of 16-11 position them in the same place as they stood in the 1976 season when they bowed to Shaw in the first round.

The team consists of a lot of talented young players. At the starting guards position are Mamie Jones and Charlene Henderson. The duo provided the needed output for the team.

Jones, the most valuable player on the team, used her inside drives to pep the team. At 5'4", she was the team's leading scorer with a 14-point average. She also led in assists with five per contest.

Henderoror, at 5'6", is playing perfect, all-round ball. Jones, the most valuable player on the team, used her inside drives to pep the team. At 5'4", she was the team's leading scorer with a 14-point average. She also led in assists with five per contest.

The starting forwards are Cheryl Armstrong and Michelle Blanding. Armstrong, at 5'10", has to be one of the top forwards in the state. After a shaky start, she has provided the team with some strong inside scoring and rebounding. She averages a little under 14 points and eight rebounds. Blanding, at 5'7", has to be the most improved player on the team. At the start of the season, there seemed to be pressure on her. She is presently shooting very well and scoring almost 11 points a game.

The starting center is LaVerne Williamson. Williamson, a 6'2" freshman, hasn't lived up to the coach's preseason expectations. She averages almost four points per game and eight rebounds. Back-up center Deborah Williams has played an important role in the latter of the season.

Other key players are, first at the guard positions, Ivy Moody, Tamily Garner, Trina Graves and Vickie Gardner.

Die, Dogs, Die!
