VOLUME XLIX NUMBER 42 NORTH CAROLINA AGRICULTURAL AND TECHNICAL STATE UNIVERSITY GREENSBORO, N. C. FRIDAY, FEBRUARY 24, 1978

Black Caucus Member To Speak At Nat'l March

The North Carolina Alliance Against Racist & Politcial Repression announced today that Black Caucus Chairman Rep. Parren Mitchell and Congressman Don Edwards will be featured speakers at the National March on the White House, March 18.

The two representatives participated in a six-member congressional delegation which traveled to North Carolina in December to meet with Gov. James Hunt. Gov. Hunt, however, refused to meet with them, citing the need to keep Sunday for his family.

Rev. Ben Chavis, cochairperson of the National Alliance, announced the March on the White House at a press conference held by the Wilmington 10 defendants January 24, following Gov. Hunt's January 23 announcement that he would not pardon the 10 defendants.

50

Anne Mitchell, N.C. Alliance state co-ordinator, stated, "North Carolinians of conscious have raised their voices to tell Gov. Hunt 'we cannot and we will not forget.' Now, we go to Washington to tell Pres. Carter we must have human rights at home, in North Carolina. The Wilmington 10 must be free." Ms. Mitchell continued, "Buses will be leaving from 8 cities in North Carolina. We urge all who can participate to join in this pilgrimage for justice."

The N.C. Alliance is coordinating the effort for the noon demonstration in Washington for this state. The organization can be reached at: N.C. Alliance POB 26221, Raleigh, N.C. 27611.

Although the snow that fell over Aggieland is gone the "hawk" plans to stay.

Says Marvin Graeber

A&T Has No Security Problem

By Freda D. Dunston

A&T has no problems concerning security on campus according to Marvin Graeber, acting director of security. Since July of last year three new officers have been added to the staff bringing the number to 20. The staff of 20 officers, he feels, is adequate to satisfy all needs of the university.

Graeber says the officers have many duties. Issuing of tickets is one of the many performed by them each day.

Security officers also provide protection, which he states is their main purpose, along with security for personnel and property. But, tickets are a necessity to keep traffic under control.

All monies which accrue

from registration and violation fees are placed in trust accounts to be used to defray cost of administering and enforcing regulations, and to develop bus service or other transportation systems serving university students, faculty, or employees, as a pledge to secure bonds for parking facilities, and other purposes related to parking, traffic and transportation on the campus.

Strict policies are enforced only when absolutely necessary. "My philosophy," says Graeber, "is to show a friendly relationship and image between the department and personnel." Security, he feels, is a part of the education process of students.

Lieutenant Lynn Winston says much of the security officers' attention is focused on crime. The Campus Awareness Program (CAP) (See A&T, Page 6)

Marvin Graeber

"Who's Who Among Black Americans," the most comprehensive reference volume on Black achievement in the United States, will be published in early March, 1978.

The book contains biographies of more than 13,000 Blacks, all living, who have attained high levels of achievement in the arts, athletics, business, education, government, law, the media, engineering labor, fraternal organizations, associations, religion and the sciences.

The first edition of "Who's Who," published in 1976, contained biographical information on 10,000 Blacks. It was named one of the most outstanding reference volumes of 1976 by

(See Black, Page 2)

Instructor Leaves A&T After Two Week Stay

By Melvin Paige

Mel Jackson, a new instructor in the Mass Communications program, has resigned from his post. Jackson cited budget problems as the main reason for his leaving. Jackson told his class that just because he was leaving there was no reason for the class to stop functioning. He had been at A&T for only two weeks.

Jackson felt that he was not accomplishing what he wanted to get across to his class. "If a camera breaks down, there is no back up equipment to keep the classgoing," he said.

Jackson told his class that, (See Jackson, Page 2)

HowardProfessor To VisitA&T

Dr. Donald Coleman, director of urban systems engineering program and associate professor of engineering of the Howard University, will be at A&T Wednesday, March I, between l-4 p.m. He will lecture and hold informal conferences with students, classes, and staff members of the Economics Department.

The possibilities of the development of a jointed Research Applied National Needs (RANN) proposal will be discussed.

Dr. Coleman earned his B.S. degree in Mathematics, Masters and Ph. D in Electrical Engineering all from the University of Michigan.

Dr. Coleman will be

Black Scholar Recognizes **Notable Book**

(Continued From Page 1)

the American Library Association and was one of the nineteen "notable" books recognized by "Black Scholar" that year.

According to editor William C. Matney, Jr., "The enthusiasm on the part of business, government, educational and other research organizations which greeted our first edition proved the need for a primary reference volume on Black achievement; and the addition of more than 3,000 biographies to our second edition reflects the book's universal acceptance.

"In the two years since the first edition was published, we have up-dated information on all biographies and have worked to improve the volume's research value," Matney continued.

In addition to an alphabetical listing of biographees, the 800-page volume contains indexes listing those included by geographical area and occupation.

"A wide variety of organizations and individuals have cooperated to help make the book as comprehensive as possible," Mayney said. "Thanks to them the volume gives an excellent overview of contributions Blacks are making to American life in occupations ranging from art to zoology and in all geographic areas of the country."

"Who's Who Among Black Americans" is published by Who's Who Among Black Americans, Inc., a wholly-owned subsidiary of Educational Communications, Inc., Northbrook, Ill.

speaking to Dr. Julian Benjamin's class at 1 p.m. in Room 303 Merrick Hall. His topic will be "Simulation Model for Evaluation of Level of Service of Jitneys."

Jackson Says In TV World **Knowing Job** Important

(Continued From Page 1)

in the world of television if you do not know your job, you will not keep it. He stressed that time is money in television, and nobody has the time to teach you your trade.

"I do not want my class unprepared in a cut-throat business," he said.

Jackson's class did not want him to leave even though most of the students considered him as their toughest teacher.

Good Luck Martial Artist!!!

SOPHOMORES!

You're aiming for a college degree. And with that in hand you'll be looking for a job offer. You may find it won't be automatic. For that reason it's important for you, as a sophomore, to make the most of your last two years in college. Whatever your career choice, you'll want to become competitive and marketable. It won't be easy but you'll find yourself better prepared if you look ahead. Now.

Arm yourself with the "Life After College"packet on the job outlook, the job search, career statistics. Learn what increases your career potential. Sophomore, you can do something about your life after college.

Stop by the Army ROTC Department for this informative packet.

ARMY ROTC. THE TWO-YEAR PROGRAM.

Smiley To Appear In Harrison

By Eric Howell

William C. Smiley and Dr. Michael Greene will appear in recital Wednesday, March 1, in Harrison Auditorium at 8:05 p.m. This is one of a series of faculty recitals being presented this semester by the Music Department.

Smiley is a graduate of Jackson State University's Department of Music and is assistant professor of music at this university. He teaches woodwinds, woodwind ensembles and theory.

He has studied clarinet with Dollye M.E. Robinson, Blain Edlesfsen, Austin McDowell and Denny Gold. Smiley received his masters degree from the University of Illinois and has done further study at the University of Arizona and the University of North Carolina at Greensboro.

Prior to joining the music faculty here in 1970, Smiley served as band director at Alcorn State University at Lorman, Mississippi, and Stillman College at Tuscaloosa, Alabama. He has also directed bands at various high schools.

SHAME

Smiley holds membership in Alpha Phi Alpha Fraternity Inc., and Phi Mu Alpha Sintonia Fraternity.

Dr. Greene is a graduate of Duke University and Indiana University. He is chairman of the humanities committee in the Department of English. He is also an accompanist in the Greensboro area.

The program will include works by Sphor, Debussy, and Povlenc. The public is invited

Curtis Hall Picks Ingram As Sweeetheart Ball Queen

By Charlene Middleton

"It was a great honor to be crowned Miss Sweetheart," said Kim Ingram, a senior business administration major from High Point. Ms. Ingram was presented with red carnations and a large box of Valentine candy at the Sweetheart Ball, sponsored by the Curtis Hall Council.

Ms. Ingram and her escort were dedicated the first dance after her walk. Other contestants were Debra Berryman, a junior; Veronica Cooper, a sophomore; and Penny Herndon, a freshman.

They were also presented with boxes of candy.

A box of Valentine's candy vas raffled off during the festivities. The winner Larry Barham, a resident of Scott Hall, was the recipient. Music was furnished by the well-known disc jockey Larry Gee.

Kim Ingram

The refreshments consisted of a Valentine cake, punch, mints, peanuts and peppermint twirls.

Curtis Hall hopes to make this an annual affair.

* Lanita's Rap * * Lanita Ledbetter *

She promises to be sweeter. This candid statement can be found in the tune "This Time I'll Be Sweeter," on Roberta Flack's new LP "Blue Lights In The Basement."

"Blue Lights In The Basement," is strictly one of mellowness and deep emotions. Unlike most recording artists, Roberta Flack basically sticks to one set pattern rather than a variety of different styles. Good or bad? Judging from the opinions I've heard, the lady definitely possesses a certain knack that keeps her listeners satisfied.

She cannot be compared to any other singer(s) for she has certainly proven to many that her style and tune place her in a unique category.

Another recording on the LP "Why Don't You Move In With Me" is a concise statement of what the song is about.

The bluest song on the album is the "25th of Last December". Warning: If you are deeply emotional, overly sensitive, or just down and out, put your "box" on reject and jam with...

Bootsy! Everybody say Bootsy! It's guaranteed to wipe away all blues. The new LP "Bootsy? Player of the Year" has fun and games for everyone. The best example of this can be quickly recognized in the tune "Hollywood Squares." If you wind him up just right, he'll sing you Bootzilla, funky? No question but can you take it? I know you can and until then, as Bootsy says, "May The Forces Be With You"!

From mellow to F-u-n-k-y--how about something that implicates a little of both. Think about the weekend and see if there is really anything to that Saturday Night Fever Soundtrack.

First, let's top at the store and pick up a "Fifth of Beethoven" so we can party, next we'll spend the "Night On Disco Mountain". Please, don't forget your "Boogie Shoes" or you may catch "Night Fever". You won't tell me "How Deep Is Your Love".

Let's get off on the "Calypso Breakdown"; you're shamming, "You Should Be Dancin". Well, the "Night On Bald Mountain" finally ended and the weekend of "Saturday Night Fever" was a success.

So, until next week, play it safe and concentrate on "Staying Alive".

Arts Day To Be Celebrated

By Margaret Brown

Black Arts Day will be observed Tuesday, February 28, from 9-5 p.m. in the Student Union Ballroom.

Mrs. Mattye Reed, director of The Heritage Center, will be working with the Student Alumni Council (SAC) to sponsor this affair.

A slide presentation consisting of slavery times, famous American Blacks, Nigeria festival, and International festivals will be shown. There will be three showing, one at 11:30 a.m., 2 p.m., and 3:30 p.m. Frederick

Stocks, president of SAC

Air Force ROTC Searches For 1978-79 Queen

Air Force ROTC is looking for a charming young lady to reign as its new 1978-1979 queen. Applicants may come from any of the Greensboro Consortium Schools: A&T. UNC-G, Bennett, Greensboro Coilege, Guilford College.

Applications are available

from Capt. Dula at Campbell Hall from 8-5, until February 27.

She will be expected to speak fluently before an audience and attend any ROTC functions requested of her. The new queen will be crowned at the annual Air-Force-Army Military Ball. said, "These slides should be very exciting and educational."

Various types of African costumes, masks, artifacts, and shears will be on exhibit from various countries.

Stocks encourages everyone to see the exhibit.

In Honor Of Black History Month, We Bring You:

Blacks In The News

Washington, D.C. - Mary McLeod Bethune, daughter of slave parents who became the first Black and the first woman ever to serve as an advisor to the President of

the United States, will be given additional recognition with the help of two grants totaling \$56,669 from the National Endowment for the Humanities.

The award will be used by the National Council of Negro Women (NCNW), an organization founded by Mrs. Bethune in 1935, to develop programs to make the public more aware of the achievements of this remarkable lady.

A Humanities Endowment Media grant in the amount of \$35,309 will help the NCNW develop and produce a film for televison highlighting the accomplishments of Mrs. Bethune.

After establishing herself as an educator and activist

for the rights and welfare of young people, Mrs. Bethune was tapped by President Franklin Roosevelt to advise him of the plight of Blacks in America. Impressed with her work, President Roosevelt, in 1935, appointed her director of the newly established Office of Minority Affairs. Not only was she the first Black woman ever to hold such a post, she became one of the most influential and powerful Blacks in the country.

With Purpose In Mind

When one speaks of studying Black History or celebrating Black History month, too much can never be said about the four A&T freshmen who sparked what they termed as a "passive demand for service" at the lunch counter at downtown Greensboro's Woolworth's Five and Dime Store.

The four freshmen-Ezell Blair and David Richmond who are Greensboro natives; Joseph McNeill, a Wilmington native; and Franklin McCain from Washington, D.C., started their sit-down demand February 1, 1960. Because of these males' organized non-violent protest, A&T students, as well as any other Blacks who choose to, can be served in public eating places all over the country.

Joseph McNeill, when speaking about their action at the time of the acutual event, said, "We have a definite purpose and goal in mind; and with God on our side, then we ask, 'Who can be against tus?'

When A&T students are heard making remarks like "I want to see the conditions on campus bettered but I'm only one person," this makes one wonder. How were these males able to change the views of the entire nation?

Last year, while talking with David Richmond, one of the original four, he made some interesting statements about A&T now and A&T in restrospect.

He said that, though there have been some drastic changes as far as the atmosphere around campus is concerned, the students during his day resembled the today's students. According to him, students during his day made frequent visits to Moms Variety Store for their nightly snacks and whatever else they needed but that during his day they put things in the right perspective.

The past history of A&T proved a point that we all should remember. At first these males were small in number, but the purpose was overwelming.

Participate In Activities

By Catherine Speller

What activities other than homework and classes have you participated in lately? This writer can safely guess, not many and some of you not any. Why?

You can't use the excuse that there isn't anything happening on campus anymore because, for the last month, there has definitely been planned campus activities.

It's good that there are dedicated workers; for, without them, "the show wouldn't go on," but that is not enough.

Others should be recruited and asked

to participate or even persuaded to take part. If we are to have a school for the entire university family, then we must encourage more of our fellow students to take an active part in campus activities.

Nothing will ever change if you don't stop sitting in your rooms and talking about the things that are noticeably wrong on campus.

Start right away. Take an active part; participate in some activities every week and, if possible, every day.

Support Aggies In MEAC

By Sheila Williams

Here it is MEAC weekend and the Aggies go into the conference number one. It will even be more exciting to see A&T go all the way.

This is it; the time has arrived for you to put that apathy away and go out to the games to give the team moral sup-

port. And with you, the number one Aggie out there cheering your little heart out, it will make the team feel on top of the world.

The rough has gotten tough, and the tough plans to keep going. The Aggie Express plans to 'derail' anything that gets in its way.

HEW Dispute To Hurt A&T

Editor of The Register:

The editorial "We Will Suffer" (Tuesday, February 14) makes two points that, to my mind, at least, are quite correct. First, A&T will suffer if HEW does cut off federal funds. Second, UNC-G probably will not be affected nearly as much as A&T.

The reason behind both of these points is quite simply that A&T receives much more federal funds than UNC-G. In fact A&T is third in the university system with respect to amount of federal funding, trailing only UNC-CH and NCSU.

The editorial writer also makes some points that I feel are unwarranted. It seems clear to me that UNC-CH and NCSU will also suffer if federal funds are cut off. Despite the fact that they have more alumni than A&T and thus could potentially contribute more, it does not mean that they could contribute the many millions of dollars each year necessary to replace the lost federal

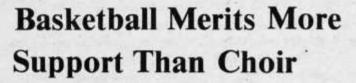

funds. The statement that the UNC-CH alumni contributed for the stadium I believe is irrelevant. First, this is a one_time contribution, not the continuing one that would be required to replace federal funds.

Second, the same people who might be willing to contribute to an athletic program (especially a successful one!) might not be willing to pay for research.

As the editorial writer notes, the Board of Governors has set up an ad hoc committee to study the possibility of fighting the HEW ruling in the courts.

Does the editorial writer seriously believe that these strong measures would be taken if only A&T were to be affected by the ruling? Past history suggests otherwise.

Donald Schaefer Department of Economics

Editor of The Register:

Please allow me a space to comment on Mr. Leslie E. Whitfield's article captioned "Student Commends Aggies' Support Of Gospel Choir"published in The Register on February 17.

In my candid view, I feel the basketball team needs the support of the university family (Gospel Choir included) in all its endeavors as our worthy ambassador to the MEAC champoinship contest. As such, all activities on campus, especially those which are not obligatory, should be scheduled in such a way as to eliminate conflicts of interests.

I do not dispute the fact that we all need spiritual enlightenment, but still the religious program has to be planned in a way that it will attract even the most flexible student around. The attendance during the Gospel Choir's Anniversary would have been more pronounced if a second thought had been given by those concerned before fixing the date.

According to Mr. Whitfield, he said that he looks forward to the choir's anniversary each academic year to bring the students closer to each other. This purpose was defeated by the mere fact that the date of the anniversary was fixed on the same day that the basketball team needed our support most, not only to defeat the Bison who are our traditional rivals but also to win the regular conference championship crown.

Mr. Whitfield, the basketball team needs the support of the choir. After all the

Almighty Father has nothing against basketball.

EE Department Supports Annex Building

By Angela V. Niles

The Electrical Engineering Department of A&T is giving much support to the Graham Annex Building, the small brown building sited right next to Graham Hall on A&T's campus. The building is financed and constructed by Rockwell International. It will be used in the Rockwell Solid State Electronics Program, headed by Dr. Winser E. Alexander, department chairman and program manager.

(See Building, Page 6)

A&T Seeks Help From City

by Anthony Boyd

Should things go right, not only will A&T athletes take pride in the new stadium, but also Greensboro area youths as well. A&T has asked the city of Greensboro for \$950,000 to complete the new athletic complex.

The money will be used to purchase artificial turf and electric lighting. Artificial turf will provide a more durable playing surface and lighting will aid night play.

"We are not asking the cityto use tax money, only revenue sharing and public works funds, said Mrs.

Shirley Frye, assistant director of development and university relations. "The idea was that this was a community project, in that the University was using the Memorial Stadium, which was designed specifically for baseball," said Mrs. Frye.

To present the plan, a special committee was selected with Representative Henry Frye as its head. Mrs. Frye said, "It is composed of

interested citizens of Greensboro who felt Greensboro and the Univer-

sity could join hands in completion of the stadium." Mayor Jim Melvin has

referred the poposal to the financial director, city manager, and parks and recreation director.

Construction of the stadium, which will house track, football, and other physical education facilities, is pending acquistion of all necessary funds.

CAREER OPPORTUNITIES UPJOHN BEGINS WITH YOU

Representatives from The Upjohn Company will be on campus Tuesday, February 28 to interview in the following areas.

CHEMISTRY. B.S.-M.S. chemists for positions as chemistry laboratory assistants and laboratory

BIOLOGY. B.S.-M.S. biology-microbiology majors for positions as lab assistants or lab analysts.

ENGINEERING. B.S. mechanical, and electrical engineers for entry level project engineering slots.

Why interview with Upjohn?

The Upjohn Company is an employee-oriented pharmaceutical-chemical firm with corporate-research-production headquarters in Kalamazoo. Michigan, and with various other chemical, pharmaceutical, agricultural and laboratory operations throughout the U.S. All Upjohn businesses fall under an umbrella of improving the quality of life for humanity.

Research is given a top priority (with nine percent of sales, or \$92,565,000 being reinvested in Research & Development in 1976). Our efforts in such areas as Infectious Diseases, CNS, Diabetes & Atherosclerosis, Hypersensitivity Diseases, Fertility Research and Cardiovascular Diseases are resulting in extensive product lines and exciting new product potential.

We have over 6,000 employees working in Kalamazoo and another 6,000 or so working at other U.S. sites, A great many of these are professional specialists, thus affording a stimulating atmosphere for work and growth in a multi-disciplined environment. And although we are fairly large, our internal job posting system, rotational training programs (in some areas), and tiered career paths enhance mobility and growth potential.

Upjohn offers excellent salaries and a comprehensive benefits package (including life, medical, and dental insurance plans), assistance for continuing education and a Christmas Bonus Program.

If unable to interview, please forward your resume

An Equal Opportunity Employer M/F

Smith Endorses Senate Bill

Raleigh - U.S. Senate hopeful McNeill Smith endorsed the Humphrey-Hawkins "full employment" bill in a press conference on February 20.

Calling the bill a "fitting memorial" to the late Hubert Humphrey, Smith said it is a "major step toward achieving the goal of a fully producing society."

Smith highlighted the history of unemployment during the last forty years and the legislation enacted to combat it. "Today, we still have unemployment," he said, "around 6.4 percent with joblessness among Black youth running over 40 percent. There are also unacceptably high levels of unemployment among women and people living in rural areas."

The Humphrey-Hawkins bill is a national commitment to full employment and holds the executive and legislative branches of government accountable for seeking full employment.

Earlier this month, Smith received the endorsement of the AFL-CIO's political action arm "because of his strong stand on the 'bread and butter' issues affecting working people--jobs and the economy."

"Every American should be entitled to the freedom, security and dignity that comes from having a job. Full employment must be more than an empty pro-

A&T Sponsors Program In Crime Prevention

(Continued From Page 1) which he sponsors is presently inactive because of overwhelming work set up on investigations.

When the program is in action, its purpose once again will be to enlighten the university community's awareness of crime. This program will help students prevent larceny and pennythefts.

Winston says, "Very good results are accomplished by the activeness of the program. Hopefully by the summer the program will be under-way again. To aid in the success of the program, engravers are brought in to mark students' merchandise. Counselors will, as a part of their meetings, allow a few minutes to be used as a rap session on crime."

AES Designs T-Shirts For Semester Project

By Richard B. Steele

Architectural Engineering Society, in collaboration with instructors Paul Pettie and Reginald Whitsett, has come up with a semester project that will benefit all students, the teeshirt design project.

Practically anything one would like to have printed on a tee-shirt can be done at the cost of \$5.00. If one has his own tee-shirt, the cost is only \$2.50.

Keith Person, president of AES, said, "All monies received as a result of the project will be used for field trips and other activities."

The job is done in Cherry Hall where the students set up the printing machine, a task of approximately three hours. The actual printing process is from three to five minutes.

KANTANIAN TUKAN KUNCAN TUKAN KUNCAN TUKAN T

Building

Aids Department

(Continued From Page 5)

According to Dr. Elias K. Stefanakos, associate professor of engineering and research director of the program, the estimated cost of the building is \$20,000. Dr. Stefanakos says that the building is to be used to aid the Department of Electrical Engineering with additional members and to support the Rockwell Solid State Electronics Program.

NASA joined Rockwell International on February 1, 1977, for the enhancement of Rockwell Solid State Electronics Program. Graham Annex Building serves as an aid in facilities for the Electronics Program.

Campus Haps

There will be an Editorial Board meeting of The A&T Register Sunday, February 26, at 3 p.m. All members "must" be present.

Attention: Women's Council Officers will have an executive board meeting on Wednesday, March 1, at 7 p.m. in the East lobby of High Rise.

There will be a Men Inclined Alpha (MIA) meeting in Hines Hall, Wednesday, March 1, at 7:30 p.m.

The Biology Club will meet at 6 p.m. on March 1, in Barnes Hall.

The Brothers of Kappa Alpha Psi Fraternity are sponsoring a twin bill disco this weekend Friday at the Cosmos I from 2-6 a.m. and Saturday at the Carlotta Club from 11-until.

The Sisters of Swing Phi Swing and the Brothers of Groove Phi Groove Social Fellowships will have an after game jam Friday, after the game, at the Carlotta. Admission is \$1 with ID and \$2 without.

Beta Kappa Chi National Honor Society will meet on March 1, at 6 p.m. in Hines Hall Room 101. All persons wishing to join should attend.

The Student Alumni Council will be selling pompoms on Friday and Saturday nights at the game. Please support them.

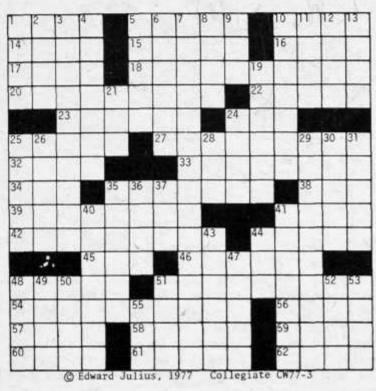

There will be a meeting of all Co-op students on Wednesday, March 1, at 8 p.m. During this meeting officers for the Co-op Club will be selected. All co-op students are urged to attend.

Every Wednesday from 5-6 p.m. in Room 210 Crosby Hall there will be a tutoring session for the NTE and the GRE.

Attention all potential graduates planning to participate in the commencement exercise in May. Please pay for regalia at the cashier's office and bring your receipt to the bookstore for your measurements to be

Puzzle

Sports Notebook By Archie Bass

The process of not voting Gene Littles as the obvious choice as the conference Coach Of The Year turned out to be the biggest farce in the seven-year history of the confused MEAC.

Meanwhile, the same coaches that voted against Littles brought their troops to the MEAC Tip-Off Banquet Wednesday night and were once again coated with artificial smiles. True, all the conference coaches were rejoicing during the social fellowship of the banquet hour, but the tension which displayed itself in conversation and in actions left this columnist with the obvious conclusion that this conference is at a standstill because of pure envy on the part of coaches.

This league, as a whole has great aspirations but lacks professionalism. And, as a note of thought from the Tip-Off Banquet, the only point that should carry each coach back to his respective university is the logical thought of "positiveness". This should be reflected in thinking with the conference in mind so that decisions that are made will truly be indicative of positiveness and not jealousy.

Once again the tournament has gotten off on a positive note with Johnny McClendon doing his usual outstanding job of instructing children of all ages on the game of basketball.

McClendon's character is a prime example to follow for all the enthusiastic children that participated in the clinic.

"I like working with children better than anything," said McClendon who coached on the collegiate level for 25 years. "Listening to the children during the clinic, they should make good athletes."

The opening round of the tournament between S.C. State and Delaware State was not exactly a spectator pleasing game. The league's top coach this year-- Marshall Emery--displayed the type of coaching that hopefully the crowd of 1300 fans would never consider as prime coaching.

The job the coach did the first half was only commendable on the grounds that S. C. State was not playing what any avid fan would say smoking basketball. Luckily, the coach led his troops to the dressing room at half with a slim one-point lead, 27.26

But, when the Bulldogs found themselves, the challenge for Emery was put on the line to demonstrate some skillful coaching. To show the fans his ability, the coach neglected to call a time-out whenever his team was on the verge of getting blown out. Subsequently, his players took the same nonchalant attitude and ended up the first team to be eliminated from the tournament.

So, that wraps things up for the conference Coach Of The Year. His ability represented the coaches that voted for him for that honor.

Aggies NIT Bound

Unheralded Littles Gets Award

By Dennis Bryant

Mutual Black Network Sportscaster Ron Pinckney in his effort to make sure Coach Gene Littles received some credit for his outstanding achievements in guiding the 1977-78 men's basketball team to an 18-8 record from a dismal 3-24 record last season, officially announced that Littles was the Mutual Black Network's 1977-78 Coach-of-the-Year.

The MEAC coaches voted Marshall Emery 1977-78 coach-of-the-year in the MEAC. Pinckney criticized the coaches'choice. He stated, "Coach Little didn't receive the recognition he should have for a very well-done job on the team."

Area sports figures have given their opinion about the choice. They include Jim Pritchett, WBIG, who said "the coaches in the MEAC rank on the top of stupidity."

Charlie Harville, WFMY-TV, said, "I feel the award should have gone to Coach Littles because he has done an outstanding job." Harville stated that he knew Emery took his team a long way, but Littles took his team even further--to the top.

Greensboro Daily News
Sportscaster Bill Hass, said
"Color the MEAC
embarrassed-thoroughly and
undeniably with the
of-the-year."

ed for Thursday, Friday and Saturday in the coliseum, the league must wish it could have cancelled its announcement of the basketball coachof-the-year.

S.C. State Blows Away Delaware

South Carolina State used a pressure defense and a running tempo to blow out Delaware State 64-50 in the opening round of the MEAC Tournament.

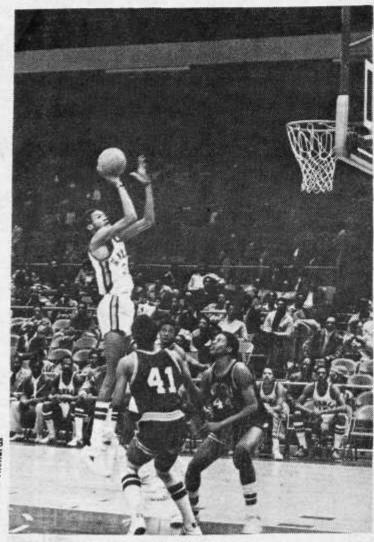

The Bulldogs and the Hornets battled to a near draw in the first half in a slow down by both teams. Delaware took a 27-26 half-time lead.

Coach Tim Autry released his Bulldogs in a second half running game along with

some devasting rebounding play to outscore the Hornets 18-3.

After that, SCSC spread the offense to cop its 16th win against 11 defeats. Willie Brown was the high scorer with 18 points, Harry Nickens had 14 points, and Arthur Snipe had 13 points.

Delaware finished at 10-15 overall. Isaiah Faulkner had 16 points for the Hornets, SCSC will meet A&T tonight at 9 p.m. in the Greensboro Coliseum.

Eric 'The Pencil' Evans fires for two. Morgan State defeated NCCU 79-69 in a game which followed South Carolina's 69-50 victory over Delaware State.

Aggiettes Enter Tourney

The A&T Aggiettes under their first year of Division II status will enter the state NCAIAW-Division II Tournament in Raleigh Friday. The team has found the road rough after a sparkling 19-4 record from the 1976-77 season.

The tournament will consist of schools like High Point, Pfeiffer (the number two seated team), Lenior Rhyne and Campbell College. All of these have defeated the Aggiettes during the season by very large

margins. Other teams involved in the three day tournament will be Western Carolina (seated first), Mars Hill (seated fifth), Elon and A&T tied for the sixth seat.

The Aggiettes lost four of their last five games of the (See Aggiettes', Page 8)

Aggiettes' Team Consists Of Talented Players

(Continued From Page 7) season. Their record of 16-11 position them in the same place as they stood in the 1976 season when they bowed to Shaw in the first

round.

The team consists of a lot of talented young players. At the starting guards position are Mamie Jones and Charlene Henderson. The duo provided the needed output for the team.

Jones, the most valuable player on the team, used her inside drives to pep the team. At 5'4", she was the team's leading scorer with a 14-point average. She also led in assists with five per contest.

Hendersori, at 5'6", is playing perfect, all-round ball.

The starting forwards are Cheryl Armwood and Michelle Blanding. Armwood, at 5'10", has to be one of the top forwards in the state. After a shakey start, she has provided the team with some strong inside scoring and rebounding. She averages a little under 14 points and eight rebounds.

Blanding, at 5'7", has to be the most improved player on the team. At the start of the season, there seemed to be pressure on her. She is presently shooting very well and scoring almost 11 points a game.

The starting center is LaVerne Williamson. Williamson, a 6'2'' freshman, hasn't lived up to the coach's preseason expectations. She averages almost four points per game and eight rebounds. Back-up center Deborah Williams has played an important role in the latter of the season.

Other key players are, first at the guard positions, Ivy Moody, Tamilyn Garner, Trina Graves and Vickie Gardner.

The reserve forwards are Renee Alford, Barbara McPhail, Daphne Lee and Janice Hooker.

Die, Dogs, Die!
