Blacks On Television, Are Distorted In Theatre

"The images of Blacks on television and in the theatre are being greatly distorted," a noted Black author said in an interview this week.

Dr. Darwin Turner, chairman of the Department of Black Studies at the University of Iowa and a former dean of the Graduate School and chairman of the English Department at A&T, made the remarks in a telephone interview from Iowa.

Turner will be a keynote speaker at the annual meeting of the North Carolina Conference on Black Studies on Saturday, October 14, at 7 p.m. in Brown Hall. He will speak on "Images of Blacks in Visual-Auditory Media."

"It seems that this distortion is most pronounced in whichever medium is most popular at the time," said Turner, who is the author of "Black American Literature".

"It used to be the movies; now it is television."

Turner stated that there are noticeable distortions even in the very serious television

productions such as "Roots" and "King," the story of the late Martin Luther King, Jr.

Turner believes that some of the distortions of Black images are by design and that some are to create a source of laughter.

"In television," said Turner, "some of the distortions occur because some producers seem to feel that the show won't work unless there is a white person on the show with whom the audience can

empathize."

In "Roots", he said, "playing up the love affair of Kinte suggested that he ran away in order to find the girl, rather than to be free."

Turner, who was initiated into Phi Beta Kappa at the age of 15, said that there is still a need for black studies programs on college campuses, but only the strong programs are surviving.

"I don't think there is as much money going into these programs as there was a few years ago," said Turner. "As long as the campuses are quiet, a lot of administrators remain indifferent".

When asked whether or not there is still commitment by the colleges to offer black studies programs, Turner replied that his answer to that question hinges on several things.

"There is a fear that, because of the Bakke decision, some college administrators would abdicate their efforts for affirmative action," he

Dr. Darwin Turner

said.

Turner said there is still as much need for black studies programs as there is for programs leading to a degree in philosophy.

Turner also said that some

of the black studies programs may not be working because they were really trying to accomplish too many things. "A black studies program could not do all of those things," said Turner.

An Attractive A.E. Major To Reign As "Miss A&T"

Paulette Breeze, an attractive architectural engineering major from Hillsborough, N.C., will reign as "Miss A&T" during the coronation and annual homecoming activities at the university Oct. 23-28.

Serving Paulette Breeze as attendants will be D. Michele Berryman, an architectural engineering major from Washington, D.C.; Belinda F. Garrison, a business administration major from Somerset, New Jersey; Crystal D. Akins, an accounting major from Hillsborough; and Rhonda Barnes of Atlanta, Ga.

Theme of the homecoming celebration will be "Aggie Essence: A Superior Quality." More than 20,000 persons are expected to participate in the week's activities.

The coronation, a homecoming highlight planned by the students, will be held on Thursday, Oct. 26, at 8 p.m. in Moore Gym.

The A&T National Alumni Association will conduct a number of events beginning on Friday, Oct. 27.

These will include the A&T Sports hall of Fame press luncheon at 1 p.m., a reception at 6:15 p.m., the induction ceremony and banquet at 7 p.m. and the Aggie Queens' pageant and disco at 9:30 p.m., all in the Royal Villa.

Saturday's events will include the chancellor's buffet at 9 a.m., the annual mile-long parade at 10 a.m., the homecoming football game between A&T and Morgan State at 1:30 p.m., the alumni association's soul food buffet at Ranch Restaurant at 4 p.m. and the alumni ball at 9 p.m. in the Royal Villa.

The events will be concluded on Sunday, Oct. 29, with the alumni worship service at 11 a.m. in Harrison Auditorium. The speaker will be the Rev. Morris Tynes, pastor of Monumental Baptist Church in Chicago.

Paulette is the daughter of Mrs. Parthenia W. Johnson, 531 N. Nash Street in Hillsborough. She is active in the Architectural Engineering Society, the Student Alumni Council, and the Student Government Association.

Moore Is Acting Chairperson

Dr. Mary Moore, a native of West Palm Beach, Florida, has been named acting chairperson of the Department of Speech Communication and Theatre Arts at A&T.

A former instructor at Michigan State University, Dr. Moore also formerly held an administrative position with the U.S. Labor Department in Florida.

She once taught in public schools in Pontiac, Michigan.

A specialist in language and language development, Dr. Moore holds a B.S. degree in speech and hearing therapy from Hampton Institute, a master's degree in education from Marygrove College in Detroit, and a Ph.D. degree in speech pathology from the Michigan State University.

Dr. Moore said her department is now in the midst of evaluations to determine the priorities for the next few years. The department cur-

rently offers options in speech pathology, speech education, professional speech and theatre arts and mass communications with an emphasis on broadcasting.

Dr. Moore is a member of the Negro Business and Professional Women's Organiza-

tion, the Alpha Kappa Alpha Sorority, the Michigan Speech and Hearing Association and the Michigan Linguistic Society.

"I like working with people," she said, "and I have long been interested in speech and drama."

By Loretta Gallishaw

The first induction of Alpha Lambda Delta was held on October 8, at 3 p.m., in the Memorial Ballroom.

Alpha Lambda Delta is a national society which honors scholastic achievement during the first year in college. The purpose of the organization as stated in the constitution is to encourage superior scholastic achievement among students

in their first year in institutions of higher learning, and to assist women and men in recognizing and developing meaningful goals for their roles in society.

Officers are Jesse C. Thompson, president; James M. Vincent, vice-president; Jo Ann Wilson, secretary; Edward P. Harding, treasurer; Glenda George, historian-parliamentarian; Loretta

Gallishaw, editor; Terrence E. Franklin, advisor; Helen D. Williams, advisor. The other members include Terigena Basnight, Wanda L. Campbell, James E. Ferrell, Clarice Gooding, Michael Hansby, Edward Hollingsworth, Jannie L. Jones, Johnny Lancaster, Willie P. McCauley, Mary Marie Monk, Darlene S. Stevens, Paul Travernier, Barbara Thomas, Sharon K.

Thorpe, and Shelia A. Tobias.

Following the induction a reception was held in the Memorial Ballroom.

Honorary members are Dr. L.C. Dowdy, chancellor; Dr. Jesse E. Marshall, vice chancellor for student affairs; and Mrs. Lucille J. Piggott, dean of women. Mrs. Marva Watlington and Mrs. Marteen B. Wooten are faculty advisors.

Alpha Lambda Delta Inducts 26

Promising Future For Mass Comm. Majors

By Priscilla Smith

Big promising futures are projected for mass communications majors, according to Richard Moore, director of mass communications at A&T. An upward trend of employment opportunities in newspapers, radio, television and public relations is opening up for minorities and women.

Moore said, "This is one field where minorities can still get jobs. Each week I get requests for qualified persons in public relations. Right now, there aren't many Blacks in newspapers, radio and public relations, so there are numerous internships and jobs available in these areas. We haven't even scratched the surface for radio. Very few minorities are in radio."

This accelerated employment surge in broadcast and print journalism is advancing not only in North Carolina but throughout the nation as well. Documented incomes range

anywhere from \$10,000 to six figures a year. Already graduates of the journalism concentration program are working on newspapers in Shelby, Burlington, Wilmington, Winston-Salem and Charlotte.

Black Enterprise Magazine recently reported that "Blacks are woefully underrepresented

in the communications industry, particularly radio...Recognizing the great disparity, the FCC has moved decisively to increase the share of minority jobs. One course of action taken by the FCC to encourage this is a tax credit program. Employers of stations will get a tax certificate

allowing them to defer capital gains taxes if they hire minorities."

The director of the mass communications program said, "There is a lot of interest in the program. It's grown greatly in the past three years."

Approximately 150 students

are enrolled in the interdisciplinary program, offered through the departments of English and Speech. Moore anticipates the Board of Governors will give A&T permission to plan an official department in Mass Communications by the fall of 1979.

Wheat Germ, Lecithin Banish Wrinkles

By Charma Kinney

People are becoming more concerned about food. People no longer believe the larger a person is the healthier he is.

Food manufacturers taking advantage of this trend now are producing so-called "Health Foods". Health food fans claim that, by eating them, you will add years to your life as well as banish wrinkles, stay energetic, and,

of course, keep healthy.

"Health Food" is any type of food that is high in protein, nutrients, and low in calories. This may be in the form of sunflower seeds, soybeans, wheat germ, brewer's yeast and a host of other foods.

Health foods are really nothing new. Just the trend of really watching what you eat is. Wheat germ, brewer's yeast and lecithin are food concentrates which some people add to their diets for nutrients they may have missed. Wheat germ is very popular among health food "nuts". It is a rich source of unsaturated fats, Vitamin A, minerals and proteins. It is

usually sprinkled over cereal, salads, or in soups.

Soybean products are another favorite for believers in health foods. Soybeans contain amino acids, and lecithin which helps to reduce high cholesterol levels in the blood.

Lecithin is a water-soluble granular powder made from defatted soybeans. It breaks up large fatty deposits into smaller ones which the body can utilize easily.

Angeline Hairston, a student from Bennett College, feels that health foods are very beneficial to one's well being. "I'm definitely very much into health foods," Angelina

stated. "Every morning I make sure that I sprinkle a little wheat germ over my cereal, and I've stopped eating beef completely."

There are some people who have not totally abandoned their former favorite foods, but now eat mainly food with a high concentration of protein. Joe Chavis an A&T student, falls into this category.

"I really try to watch what I eat because I feel that it's important. I don't eat any kind of beef or seafood unless it's fish," Chavis said. Although he admits he does eat "junk food" occasionally, Chavis feels that his diet as a whole is pretty good.

SUAB Claims Responsibility

By Rudi Noble

Have you ever wondered who is responsible for the block-parties, backgammon tournaments, the video setup and a lot of the other activities that occur inside the Memorial Union? Well, the moving force behind the action is the Student Union Advisory Board.

The purposes of the Student Union Advisory Board are as follows (1) to present the expressed feelings and the concerns of the student body on matters on policy and program to the executive committee and the staff of the Union, (2) to set the guidelines by which committees shall organize and develop their programs, (3) to set the guidelines by which committees shall establish their annual program budgets, (4) to review with possible recommendations for revisions of all annual programs and program budgets submitted by committees, (5) to consider the desires of alumni as they relate to their use of the Union during the on-going school year and on special occasions, (6) to establish and administer a general program fund to be

available for use by committees in emergency situations and upon request.

There are also different committees which organize, develop and promote programs relative to their respective areas. The committees are social affairs committee, cultural affairs committee, rules and regulations committee, publicity committee, game and tournament committee, minority affairs committee,

and the decoration and environment committee.

These committees are operated by students and faculty.

The Student Union Advisory Board consists of seventeen student members, three faculty members, and one alumnus named by the National North Carolina A&T State University Alumni Association.

African Heritage Center To Appear On Television

By Reginald McNeill

The African Heritage Center, on A&T's campus, was the site last Monday of a filming for a television program.

Susan Kidd, news director at WFMV-TV in Greensboro, and crew members filmed pieces of slavery artifacts and African artwork. The pieces were needed for an upcoming story on the PM magazine program.

The story focuses on a

former slave who taught himself to write. He wrote poetry and eventually sold it to UNC-CH students.

The program will be aired Thursday, October 26, at 7:00 p.m.

Matty Reed, director of the Heritage Center, added, "This is the type of exposure our center needs. Maybe students will see this show and visit the center to learn more about their heritage."

Winston-Salem State University will start this year's homecoming festivities with a concert to begin on October 14 at 8 p.m. in the Winston-Salem Coliseum. Featured performers include Quazar, relatively new, Mass Production and Crown Heights Affair.

Taking it east to Durham, we find North Carolina Central University partying hard October 14, with Lonnie Liston, Evelyn "Champagne" King, and Peabo Bryson. Tickets are \$6 for students, \$7 for non-students, \$8 on the day of the show.

Our own here in Aggieldand will feature New York Community Choir, Mass Production, Cameo, Green Ice, Funkadelic and The Brides of Funkenstein.

Glamour Searches For Ten

A&T students are invited to participate in GLAMOUR Magazine's 1979 Top Ten Col-

lege Women Contest. Young women from colleges and universities throughout the

country will compete in GLAMOUR's search for ten outstanding students. A panel of GLAMOUR editors will select the winners on the basis of their solid records of achievement in academic studies and/or in extracurricular activities on campus or in the community.

The 1979 Top Ten College Women will be featured in GLAMOUR's August college issue. During May, June, or July, the ten winners will be invited to New York to meet the GLAMOUR staff and will receive a \$500 cash prize.

Anyone who is interested in entering the search should contact Dick Moore, director of information services for more information. The deadline for submitting an application is December 15.

Make-up Very Rewarding, If Correct

By Angela V. Niles

Make up can be a very handy part of daily grooming, and, when used correctly, can be very rewarding. But, like everything else, there are a time and a place for everything. Bedtime is not one of them.

The removal of makeup is a must. It must be removed

nightly, before retiring. Reasons are that it allows the skin to rest and breathe while you sleep. Cleansing the skin after removing all traces of makeup alleviates dead skin cells which accumulate and clog pores. It relieves skin of all the impurities left by the atmospheric elements.

When the face is not cleans-

ed thoroughly and makeup not removed regularly, the build up of dirt and grime clogs the pores resulting in whiteheads, blackheads, pimples and even acne, all of which look terrible on the face.

When removing makeup, one should use cream or makeup remover of some type. This, however, does not

mean the skin is clean. Only the top layer of skin has been cleansed and the makeup is only partially removed. In order to thoroughly get down into the pores and clean away all traces of makeup, use a good soap and water or other cleanser.

*Often, facial scrub brushes, machines (such as the skin machine) are more harmful than beneficial to the skin. Needless to say, a person with extra-sensitive and problem skin should be careful and see a physician or dermatologist first. But persons with normal skin probably won't have any problems with such cleansing devices if they are used properly.

Eye makeup remover can be found in almost any drugstore or at any cosmetic counter. They come in all forms: creams, liquids, lotions, and pads. They may also be found in water or oil base. These are especially good for removing eyebrow pencil, eyeliner, eye shadow and undereye stick. They are non-irritating and soothing to the tender skin around the eye area.

Skin that has been properly cleansed and freshened is well prepared for a fresh application of makeup the following day. And healthy skin always shines through.

THE RING YOU WEAR FOREVER WILL SAVE YOU \$10 RIGHT NOW.

JOSTEN'S NATIONAL COLLEGE RING WEEK. OCTOBER 16-21.

If this is the year you want to start wearing your college ring, this is the best week to buy it. After all, a college ring may be forever and ever, but ten bucks—that's for right now. So be here for the third annual Josten's National College Ring Week and \$10 Discount, starting Monday, October 16 and running through Saturday, October 21. The \$10 discount applies to your school's entire selection of Josten's College Rings, the only ring with Josten's Full Lifetime Warranty. And besides saving \$10, you get these deluxe features included in the standard Josten's ring price—no extra cost! Choose: White or Yellow Gold • Synthetic Stone or Birthstone • Full Name Engraving or Facetite signature • Even Engraving, where ring design allows. *No extra charge. If you're going to do it, do it now. At the bookstore.

Learn To Cope

What are your plans after graduation? What a question to ask a senior in college who's happy to finally be a senior.

Graduation day seems quite a long way off right now, but in reality it's very close, too close if you aren't ready to face the responsibilities of life and supporting yourself.

As seniors we should be really trying to buckle down and pull those sagging grade points up, to a presentable score for resumes and graduate schools.

We should all start now to make plans to go the the placement office and register for upcoming interviews, the Graduate Record Exam (GRE) and the National Teacher Exam (NTE), or any other exam that applies to your major area.

They say time waits for no one and it surely doesn't wait for the seniors who don't apply themselves. Let's all work now, inquiring and applying for jobs so that, when May arrives, we won't have to beat the pavement along with the other 50,000 qualified college graduates in search of work.

We should take this time to follow the Boy Scouts motto, "Be prepared", because in May it just might be too late to start looking for that perfect job, with that fantastic salary.

After you land that job, you can really say that your four years of college really prepared you for a profession.

A&T Gives Run-Around

By Sheila A. Williams

Making something from nothing is what is having to be done these days. And you students, should definitely know what this writer is talking about.

An example is stretching two dollars to five, or scraping that empty peanut butter jar on that missing piece of bread.

Look, this columnist can't kid you, because we know for a fact that this kind of thing is totally impossible.

Well, that is what a lot of organizations, and educational departments are trying to deal with; no funds, or making something from nothing.

Being given the run-around is something A&T does quite well. This

columnist is sure that we have all gotten the feel of it during registration, or trying to get refunds from grants or aids.

We are continuously sent on one endless merry-go-round going absolutely nowhere.

No one really has to put up with this kind of nonsense. It should be seen to it that funds are appropriated for these organizations ahead of time, and that, if a questioned is asked, then it should be answered directly.

We have just as much right to this university as the officials or the administration, because, without us, they would not have a job.

THE A&T REGISTER

Published twice weekly during the school year by students of North Carolina Agricultural and Technical State University.

To receive THE REGISTER, please send \$8.50 for one year or \$16 for two years to THE A&T REGISTER, Box E-25, Greensboro, North Carolina 27411 to cover mailing and handling costs.

Is It Worth It?

by Florina G. Byrd

A young man walks around campus carrying a brick in one hand and his books in the other as he goes to class. This is a pledgee going through one of the procedures of pledging a fraternity.

Fraternities and sororities are preparing for semester pledging. Monday was the first day of pledging for several organizations on campus.

With pledging this semester, the question remains---how many pledgees' grade-point averages will drop? During this period, several pledgees will encounter this situation. A pledgee must obtain a certain grade-point average to pledge; but, during pledging, some grade-point averages have a tendency to drop.

"Actually, the pledgee is held responsible for his or her grade-point average. It is solely up to that individual to maintain a respectable average," said a member of an organization who wished not to be identified.

"Many people think that pledging causes a decline in grade averages; but, if that pledgee applies himself or herself academically as well as socially, there would be no decline in grades," he said.

As pledging continues on campus, so will the decrease of grade averages if pledgees do not apply themselves to their school work.

A&T Student Cuts Recording

By Richard B. Steele

Ever dreamed of cutting an album, making millions, or singing professionally? Rufus Thompson, a junior business administration major from Mebane, has such a dream. He attends A&T and currently lives in Greensboro.

"I always wanted to cut records" said Thompson. He

came up with some lyrics and step-by-step came in contact with Walter Grady, promoter of the Prayton label. Encouraged by friends and relatives, the disco cut "What's Happening to My World," was mixed and remixed by George Bishop (once owner of the Majors) and The Real Time Recorders

studio. Music is provided by Chocolate Funk and former Majors' vocalists "Mr. Mack."

The original 7-minute, 45-second version was cut to 3 minutes with part I vocals; part II instrumental and vocal. It will be aired probably next week at radio stations, discos, and nightclubs throughout North and South

Carolina and Virginia.

"If this goes well, we'll cut an album," said Thompson. "I would like as much support from my fellow students as possible to help me launch my new career."

The new recording artist suggests that any individual with what they consider quality poetry or lyrics to send

their works to the copyright office in Washington. A small fee of \$10 is required.

Often times people have good material and let it go without any recognition. By copyrighting one's work it could bring in profit at a percentage level of 1-2 percent, a million copies, or \$100,000.

"I've got Pabst Blue Ribbon on my mind."

CAMPUS

HAPS

Attention!! The deadline for submitting poetry of all types and themes for the fall poetry supplement entitled "Aggie Creations Express Emotions" is Monday October 16, at 6 p.m. Your cooperation in meeting our deadline will be greatly appreciated. The A&T Register staff.

Bible study is held every Wednesday night from 6-7:30 in Harrison Auditorium. Immediately following the Bible study, mid week services are held. Everyone is invited to attend.

Alpha Phi Omega Fraternity, Inc. will sponsor a disco skate party at the Holiday Roller Rink, High Point Road, Friday, Oct. 13, at 11:15 p.m. Admission \$2.

Wanted! Junior or Senior students to tutor Chemistry and Biology. Apply Special Services Office, Room 058, Bluford Library. Positions available immediately.

The Army and Air Force ROTC will sponsor a blood Drive Thurs. Oct. 26, from 10-3:30 p.m. in the Student Union Ballroom. For further information a booth will be set up in the Student Union Mon.-Thurs from 10 a.m. to 1 p.m. and 3 p.m. to 5 p.m.

Artis P. Graves Lecture Series in Biology will begin Monday, October 16, in Barnes Hall Auditorium at 7 p.m. Speaker is Dr. Benjamin A. Shepherd, associate professor at Southern Illinois University at Carbondale. He is presently on leave as a special assistant to the chancellor at LSU in Baton Rouge, La. The public is invited.

The Junior class will sponsor a "Mr. Aggie Pageant" in Harrison Auditorium on Wednesday October 18. The doors will open at 7:30 p.m. and the pageant will begin at 8 p.m. Admission is \$1.00 with ID.

Prayer hour will be held Saturday night at 7 p.m. in the basement of Harrison Auditorium. Everyone is invited to attend.

Social Service majors participating in the freshman interviews are to meet in the Student Union Lounge, Sunday, October 15, at 6:30 p.m.

There will be a Social Service Club meeting, Tuesday, October 17, in Room 100 of the Student Union at 7 p.m.

The Entertainment Editor is looking for five good reporters to help cover homecoming events. Meet at The Register's office Wednesday, Oct. 18, at 6:30 p.m.

There will be a Recreational Club meeting Oct. 16, at 7:30 p.m. in the Student Union, Room 212. All majors, please be present.

"Learn the faculties' secrets"-The sociology club is having a meeting Tuesday, October 17, at 3 p.m. in the reading room of Carver Hall. All sociology majors are asked to attend and to submit their dues of \$1.

The Brothers of Iota Phi Theta will hold the First Annual Pre-homecoming Cleanup Day, Saturday, Oct. 21, from 1-4 p.m. (one week prior to Homecoming).

Theme: "Stash That Trash in the Waste Basket."

All interested persons meet in front of Williams Cafeteria.

Cadet Trains With Reserve

By Dennis Bryant

The Ranger Unit under the assignment of Cadet Captain John Heyward will visit Charlotte this weekend to train with the Charlotte Reserve Special Forces Unit.

The unit, consisting of approximately 25-30 students enrolled in the Army ROTC, will leave on Saturday morning and return on Sunday. During those two days, they will go through the basic training exercises the Rangers are responsible for.

Cadet Heyward has been training the students prior to this trip. In it, he hopes every person participating gets some

kind of experience out of training. Cadet Major Terrence Lewis, along with cadet Captain Lewis Gillmore will go along to provide the Reserves with any help they need.

Lewis and Gillmore have the experience to present to these students attending. The ROTC is sponsoring this, along with other events, so

that the students can participate in activities outside school, as well as to gain experience for advanced camp.

The Charlotte Reserve Special Forces is a member of the Army National Reserve.

This unit, along with a number of others, will work throughout the year with the Army ROTC cadets. The units will take time out to work with A&T, away from their families.

A&T Aggies Will Travel To Newark, Delaware, To Play

The surging Aggies of A&T, winners of their last two games despite a number of injuries to key personnel will travel to Newark, Delaware, his weekend to play the University of Delaware.

The Delaware Blue Hens, a perennial power in the small college ranks, got off to a fast start winning their first three games. The team has come up on the short end of the score their last two weekends however, losing to Temple and Leigh.

"The teams they've lost to are far from mediocre as Leigh was ranked as number one in

the NCAA IAA and Temple who lost close games to national powers Pittsburgh and Penn State," said A&T head coach Jim McKinley, whose team defeated Norfolk State 39-28 last Saturday. "We will have to have a top-notch performance to win."

Last season the Aggies led Mid-American Conference power Eastern Michigan 20-7 going into the fourth quarter before losing 21-20. McKinley feels that playing schools like Delaware will enhance the football program.

"The only way you are going to get your program recognized around the country is to play a well-rounded schedule," he said. "The schools in the Mid-Eastern Athletic Conference are tough and some of our non-conference opponents like Delaware, Winston-Salem State, and Bethune-Cookman give us a very competitive schedule."

Aggie linebacker George Small, who has missed the last two games with a foot injury, is expected to return for the Delaware game. Defensive tackle Ulysses Thompson who did not play against Norfolk State is also expected to return to the starting lineup.

Saturday The Team Will Face Another Tough Opponent

By Dennis Bryant

Last year, A&T played a tough Eastern Michigan team and lost 21-20 on a missed extra point. This Saturday afternoon, the Aggies will face another tough Division II foe, Delaware.

The Blue Hens, 3-2, have lost their last two games to Division I teams. The game will be played in Newark, Delaware, where the Blue Hens have won six straight. In those games, they have given up only 17 points and scored over 225.

Delaware won its first three games outscoring its opponents 128-7. The team is led by senior Jeff Komlo (6-3, 210). Komlo has thrown for

(See Blue, Page 7)

A Player Can Get Lost In The A&T Publicity Blitz

Playing on a defensive unit with such ornamented performers like "Pee Wee" Board, "Too Tall" Thompson, and "The Greensboro Gang," it is not difficult to see how a steady, less flamboyant player can get lost in the publicity blitz.

But for the past two seasons, A&T linebacker Glenn Inman has been one of the team's steadiest performers as he led the team in tackles a year ago with 96 and is the current leader this season with 55 tackles after six games.

The lack of notoriety does not bother the 6-1, 210 pound Inman, who made the Aggie football team as a walk-on his sophomore year. He gets his satisfaction knowing that he is a valuable asset to the A&T team effort.

"The most gratifying thing for me takes place after a game when the opposing team linemen and backs search me out of the crowd and congratulate me on how hard I was hitting out there," said Inman, a health and physical education major.

"It doesn't bother me not to have the big publicity like some guys on the team, but they all know what I'm doing and what my value is to the team. Besides, sometimes I believe, if I had the big name, the opposing players would be

watching me as they do Dwaine Board and George Small.

"The way it is now, they don't really know what to expect from me until after a few plays of contact; then they know they must respect me."

Inman has had as many as 13 tackles in a single game, but is quick to point out that an individual making a lot of tackles does not necessarily mean the team is playing good defense.

"I love playing linebacker and the game of football so I don't mind the contact or making a lot of tackles," said Inman, a native of Fayetteville who played his prep ball at Terry-Sanford High.

"However, when you see one man making a lot of tackles, it could mean that the other players are not getting to where they are supposed to be quickly enough.

"Our defense is set up so that the linebackers can be involved in a lot of plays. The job of our linemen is to play off the offensive tackles just long enough for the linebackers to make a move and react.

"At the beginning of the season we were having problems; but, in the last few games, things have worked well. Looking over our defensive chart, the tackles are even-

Have you ever tried to move a mountain with a shovel or dip all the water out of the Atlantic Ocean with a glass? Well, believe it or not, that seems to be the Aggies' chance of beating Delaware Saturday afternoon.

The Blue Hens, ranked eighth in the Division II poll, will have the advantage of having to play A&T in its home stadium. With close to 18,000 people expected, the game may prove to be an exciting one. A&T will be out to stretch its winning string to three games while the Blue Hens will try to end a two-game losing streak.

Hopefully, the Aggies have been good this week. They will need more than just themselves this weekend. Who else can help them? Well, if Coach Jim McKinley can't, maybe the Great One over us all can.

Delaware is led by an outstanding quarterback, senior Jeff Komlo. Komlo is completing well over 50 percent of his passes this year. In the first five games, he has thrown for well over 200 yards per game.

Most of the week flanker Lon Harris has been limping with an injury. The Aggies may be without Harris for this game. If that happens, watch out A&T. Let's just hope the coach has another solution.

The offense will miss Harris. For the second consecutive week, he has received the MEAC "Offensive Player-of-the-Week" award. Defensive back Gerald Johnson won the MEAC "Defensive-Player-of-the-Week" honor. These two great players gave the Aggies a sweep in the awards. Congratulations you guys deserve a big hand.

What has happened to the supposed-to-be talented freshmen we were supposed to have on the team? You always hear of Charlie Sutton, Mike Joyner, Rodney Williams, Thomas Boone and Leon Byrd. But, what about the others?

I had the chance to visit the new gymnasium this week and it is a beauty. It is only a step away from the coliseum. The words "AGGIE COUNTRY" at the ends of the basketball court will let the opponents know the Aggies mean business this year.

Last week A&T won over an injury ridden Norfolk team. In that game, the defense tired out in the fourth quarter to give up 18 points. A&T has never met Delaware before and I'm pretty sure they would love to have this victory to get the morale up.

The Aggies will face a solid Delaware team this weekend and the defense will have to last four complete quarters. The team should pull an upset over the Blue Hens. As far as my prediction for this week, I see it as an even game. Therefore, I have to call this toss up as for me and the rest of the writers, all we can say is that Aggies may be getting ready for a pretty good whipping. But, then again, it could be close.

Blue Hens To Battle Aggies

(Continued From Page 6)
over: 3000 yards in three years.

The Blue Hens battled Morgan State last year to a 29-29 tie in Newark. Offensively the Hens run a wing-T, one of the rare formations in the country. In the backfield will be left halfback Ed Wood (6-1, 185), right halfback Ivory Sully (6-0, 188) and fullback Bo Dennis (6-3, 210).

The offensive line will consist of tightends Mike Mill (6-3, 255) or Gary Sterndale (6-0, 212). The tackles are Bill Ragni (6-4, 251) and Herb Beck (6-3, 243). The Guards are Andy Mihaly (6-0, 219) and John Morrison (6-2, 238). Top receivers will be Jaime Young (6-3, 215) and Lou Mariani (6-0, 188).

Defensively the Hens have ends Dave Hess (6-4, 224) and George Hays (6-2, 221). The tackles are Ed Braceland (6-1, 245) and Mike Bachman (6-2, 235). Linebackers Al Minite (6-0, 201), Steve Ponik (6-2, 215), and K.C. Keeler (6-0, 208) will look over the Aggie offensive line.

The secondary will consist of Rick Cowen (5-11, 185), Sam Dolente (6-1, 195), Guy Ramsey (6-2, 185), and Bob Woods (6-0, 185). Kickoff returns and punts will be run by Wood, Sully, Mariani and Cowen. The punter is Mike Schonewolf (6-3, 204).

The Aggie offense will consist of the usuals with Fred Freeman calling the signals. Linebacker George Small should be back in the lineup along with center Smitty Davis. A lot of other Aggie injuries have been nursed back to help and should see action. Flanker Lon Harris, who in

the last two games has rushed for 250 yards on only 17 carries, will probably see limited action. Harris received an injury during practice this week. He may or may not play. Harris leads the nation in kickoff returns with a 30-plus average.

The Aggies will have to stop the passing attack the Blue Hens have. In the first five games, they have completed over 50 percent of their passes.

A&T gave over 200 yards last week in passing. The secondary will have its work cut out for it.

The game will start at 1:30 p.m. (EDT) at the Delaware stadium. The game will be broadcast live over WEAL radio. The Blue Hens are coached by Harold R. "Tubby" Raymond. This will be the first meeting between the two schools.

ly distributed between the linemen and linebackers."

After gaining all-conference honors as an offensive tackle his senior year at Terry-Sanford, Inman was not besieged with college scholarships because of his size 6-0, 185 pounds.

Still determined to play college football, he enrolled at A&T without a scholarship in hopes of gaining a berth on the football team as a walk-on.

"When I tried out my freshman year, the coaching staff told me it was too late to come out and that they would be able to give me a better look in the spring," Inman recalled. "Coach Mel Pinckney invited me to come out for the wrestling team to stay in shape and to help with conditioning."

"I went out in the spring, made the team, and wound up starting three games that season.

"The next year under Coach McKinley, I started every game and led the team in tackles."

With George Small out of the lineup with a foot injury, Inman has been charged with calling the Aggie defenses. It is a responsibility he handled well in the Aggies' recent victories over Johnson C. Smith and Norfolk State.

"George called the basic defenses when he was in the lineup; and I was responsible for the stress calls, motions, and the positioning of the linemen," Inman said. "Now I do it all."

"It wasn't difficult for me to make the transition from offensive tackle to linebacker, but I am still learning the position. To play linebacker, you have to be very disciplined to protect against the run and the pass."
