THE A&T REGISTER

"COMPLETE AWARENESS FOR COMPLETE COMMITMENT"

VOLUME XLI NUMBER 14 NORTH CAROLINA AGRICULTURAL AND TECHNICAL STATE UNIVERSITY GREENSBORO NC OCTOBER 26, 1979 FRIDAY

A&T Alumna

Named Principal Of The Year

By Florina G. Byrd

Ruth Smith, an alumna of A&T, has been named North Carolina Principal of the Year. Smith, principal of Alamance Primary School was honored Tuesday night in Raleigh.

She was named Principal of the Year last year for the Guilford County School system by the county principals association.

Smith obtained a bachelor's degree in elementary education and a master's degree in administration while at A&T. She has also earned her Principal and Supervision Certification.

She is a member of the

Ruth Smith

North Carolina Association of Education, the National Association of Educators the Division of Principals, and the

Association of Early Childhood Education.

Smith and her staff have devoted much time in incorporating such beneficial programs as the Cultural Enrichment Program which has concentrated areas as crafts, language arts, music, drama, and foreign languages.

Some of the volunteers are teachers, professors, parents, and high school students.

In 1975, Smith opened Alamance Primary School, the only school in the County with an Early Adjustment Program. The program has two Child Aides and a Guidance Counselor.

Smith has also established a Volunteer Program which has health room volunteers, volunteers who read stories to students in the classrooms, and reading tutors.

She is the wife of Prince E. Smith, Title I Director Guilford County Schools. They reside in Sedalia and have two daughters, Priscilla and Felicia.

Student Legislature Helps SGA With Organization

By Trudy Johnson

The Student Legislature representatives are the behind the-scene workers for the Student Government Association. Representation covers all dormitories and off-campus areas.

Last year, there were two representatives from each dormitory, whereas this year there are five. The original two representatives, the hall councils' vice-presidents, and two more voted officers make up the five Student Legislature Committee members from each dormitory.

The speaker of the house for the Student Legislature is Cheryl Armwood, SGA vice president. She is in charge of the information presented to the hall and off-campus representatives and of keeping the officers up-to-date with last minute SGA business.

Some items discussed thus far in the three Student Legislature meetings have been guidelines for the representatives; the "entrance" key proposal for women students on campus; co-ed visitation plans (See Legislature, Page 5)

NOBUCS To Hold Nat'l Meeting

By Larry L. Jenkins

Featuring such dignitaries as Dick Gregory, Mayor Marion Barry, and Ivanhoe Donaldson, the National Organization of Black University and College Students (NOBUCS) will hold its na-

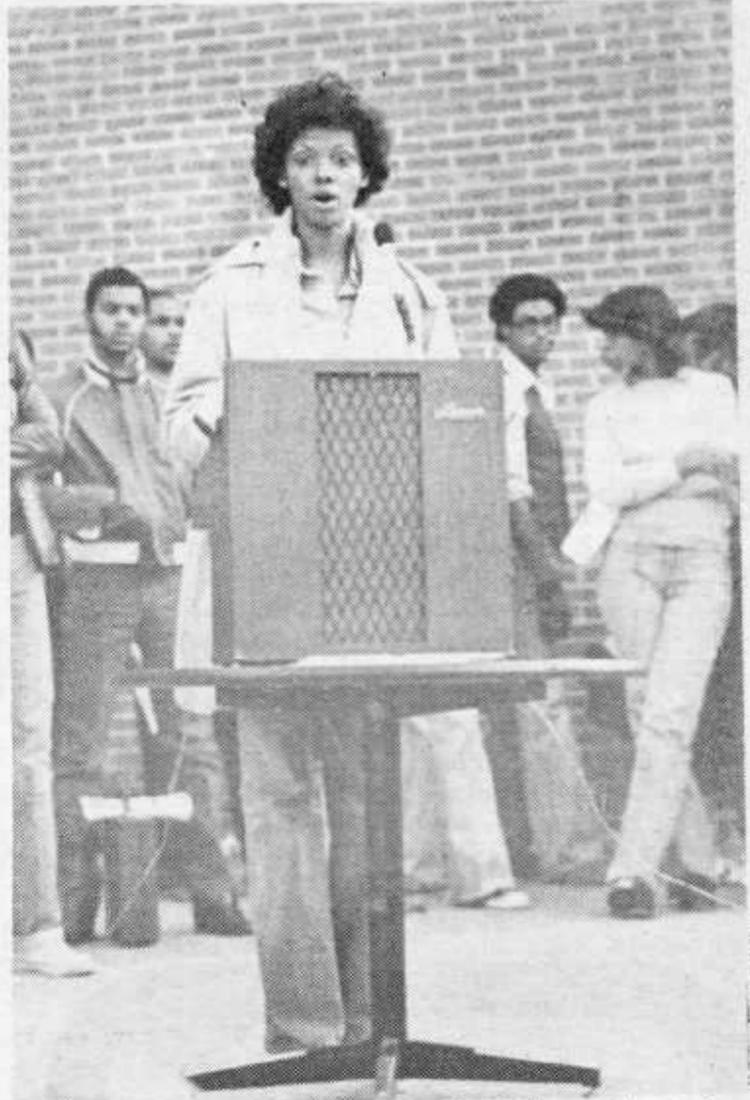

Photo by Miller

The students of A&T campus held a rally to inform students of the survival of Black universities.

tional conference November 8-11, in Washington, D.C. NOBUCS is an organization that was established to save and change historically and predominantly Black institutions all over the United States. It feels that Black institutions have been under attack by those forces which seek to destroy the future of Black people in America.

The conference will begin with a panel symposium on "Where have we been, where are we going?" Panel leaders will consist of Nelson Johnson, former chairman of Save and Change Black Schools; James Garrett, professor of political science and an activist; Ivanhoe Donaldson, former SNCC Activist and general assistant to the mayor of Washington; and Herbert O. Reid, distinguished professor of law with expertise on desegregation.

On Friday, November 9, seminars will be conducted

concerning quality Black education, African-American communication, international affairs, alumni affairs, and organization strategies. Sessions will also be held for newspaper editors and campus organizations.

Featured at the evening session will be Dick Gregory, Congressmen Ron Dellums and Parren Mitchell.

Marion Barry, mayor of Washington, D.C., will speak on Saturday morning and a rally will follow on the campus of Howard University.

The Student Government Association of A&T will sponsor several buses to the rally and students wishing to attend must sign up. A meeting will be held Tuesday, October 30, at 7 p.m. in the Student Union.

Realizing that administrators have not chosen to vehemently speak out in favor of Black institutions, NOBUCS feels that no one will save Black institutions but Black students.

Gifts To Colleges To Increase

Private gifts to the nation's major state universities and land-grant colleges jumped 13 percent in 1977-78, according to the most recent annual survey on private giving to higher education by the Council for Financial Aid to Education (CFAE).

The increase, based on data from 81 NASULGC institutions which provided comparable data, was almost as large as the overall increase of 13.3 percent shown by the total group of 822 colleges and

universities which provided comparable data for both 1976-77 and 1977-78.

All categories of institutions enjoyed a healthy increase of voluntary support in 1977-78. Total receipts from private sources reached a record level of \$3.04 billion, according to CFAE estimates. Data from the 1,065 colleges and universities which actually participated in the survey show total gifts to these institutions of almost \$2.35 billion in 1977-78.

The Council for Financial Aid to Education stresses that virtually all of the gains in voluntary support in the last three years have been significantly larger than the rate of inflation, whether inflation is measured by the Consumer Price Index or by the Higher Education Price Index.

Gifts to 86 responding public institutions which are members of the National Association of State (See Institutions, Page 2)

Institutions Only Receive 16.9% Of Total Support

(Continued From Page 1)

Universities and Land-Grant Colleges (NASULGC) amounted to \$569,997,467, accounting for 24.3 percent of the total voluntary support to higher education. In 1967-68, NASULGC member institutions received only 16.9 percent of total voluntary support to higher education.

In 1977-78, of comparable reporting institutions, public universities gained 13.7 percent over 1976-77, while private universities gained 13.1 percent. In 1976-77, public universities gained 17.1 percent over the preceding year and private universities gained only 9.6 percent. In 1975-76, private institutions gained 3.4 percent more than public universities did over the preceding year.

Gifts to higher education from each of the five primary sources--corporations and businesses, religious denominations, alumni, non-alumni individuals and general welfare foundations--rose substantially in 1977-78. The

lead source for 822 comparable institutions that reported in 1976-77 and 1977-78 was non-alumni individuals, up 18.2 percent. Non-alumni individuals accounted for slightly more than one-fourth of the total from all sources to comparable reporting institutions.

All other sources showed a healthy double-digit increase over the preceding year.

The lead source for 81 comparable public NASULGC institutions was corporations. Gifts from corporations in 1977-78 amounted to \$138,932,769, up 13.7 percent, which accounted for 25.5 percent of the total from all sources.

The second largest source of private support for NASULGC members was foundations, which contributed a total of \$105,425,735 in 1977-78, an increase of 15 percent over 1976-77. Contributions from alumni amounted to \$103,486,074, an increase of

1.3 percent, making alumni the third-ranking source of private support to NASULGC members in 1977-78.

The fourth largest donor category to NASULGC members in 1977-78 was other groups and sources, including non-alumni and non-church groups, which contributed \$101,203,719, an increase of 10.2 percent over 1976-77. The Council for Financial Aid to Education notes that most of the support reported in the other sources category represents assistance received from fund-raising collectives and other intermediaries, and that the amounts may be properly

attributable to other donor categories.

Non-alumni individuals, the fifth-ranking source, gave a total of \$95,440,674 to NASULGC members in 1977-78, an increase of 28.9 percent over 1976-77. Finally, religious denominations contributed \$442,964 to NASULGC institutions, an increase of 61.4 percent over 1976-77.

Gifts to 69 major private universities comprised 37.4 percent of the total voluntary support to higher education in 1977-78, the same percentage as in 1976-77. In 1977-78, major private universities received \$877,122,077 in gifts.

In 1975-76 and 1974-75, major private universities received 38.7 percent of the total.

A comparison of the percentages of support from each of the donor categories for major private universities and for NASULGC institutions reveals the traditional public/private pattern of voluntary support for higher education.

Corporations contribute the largest share of the voluntary support received by NASULGC institutions, while alumni contribute the largest percentage of voluntary support received by major private universities.

Diet Pepsi To Sponsor Run

The Diet Pepsi 10,000 meter run will be held November 3 for the benefit of the

American Lung Association. The Diet Pepsi series is the largest running event in the

country. There will be ten races in the state beginning simultaneously at 10 a.m. Saturday, November 3. The race for this region will be held in Greensboro.

The Diet Pepsi/American Lung Association road race has something for everyone. For serious runners, the AAU-sanctioned 10K series is the country's largest. Every race in each of the 10 cities will produce winners in four age categories: under 20, 21-35, 36-49, and over 50.

Each of these winners will receive awards and will qualify for the Diet Pepsi Southern Regional Competition where they may win expense paid trips to the national competition. Also, every participant in the 10K race will receive personal performance rating cards, comparing their results with the national standard. And there will be trophies or medals for the top three finishers in each age category. For beginners and casual runners, there will be a 2 mile "free run".

All participants in both the 10K and the "free run" will receive a special runner's packet, including a racing T-shirt and course map, and chances to win over 50 race-day prizes. Also, free refreshments will be provided, courtesy of Pepsi Cola.

The entry fee for the 10,000 meter race will be \$6. The "free run" fee is \$5. Registration forms will be available at local sporting goods stores, recreation departments, YM-CA's, as well as the A&T Register.

Aggies To Improve 12-10 Record, Says Coach Spruill

N.C.A&T's Aggie basketball team will attempt to improve last season's 12-10 record this year and, according to Coach Joyce Spruill, that feat should be accomplished.

"We will field a better team this year," stated Spruill. "We have so much depth; plus we'll improve defensively. Last year, lack of height was one of our basic problems, but this year we'll have three players who stand 5-11."

Their added height will come in handy when the Aggies face the N.C. State Wolfpack, which happens to be their first game of the season.

"We play State in a tournament at Elon College" said Spruill. "State has a very tall team, so we'll try to use a deliberate attack. But against other teams we will run."

The Aggies can run, and leading their attack will be senior guard Mamie Jones, who averaged 14.1 points per game last year. Mamie, a native of New Bern, is a super athlete who contributes so much to A&T's club.

"I can't say enough about the things Mamie does on a basketball court. Her game was changed somewhat from when I first saw her play," Spruill said. "She's shooting better, getting a ton of assists,

getting a lot of steals and can compete with almost anyone on the boards. She's such a great threat to go inside that we try to compliment her with a great outside shooting guard."

A&T has a couple of outstanding outside shooting guards in sophomore Karen Bryant and senior Charlene Henderson. Henderson led A&T's squad three years ago in scoring; but, since then, her scoring production has decreased.

Another player who can contribute greatly to the Aggies' program is senior guard-forward Lillie Pratt.

Probably the best athlete on the Aggie team is Shirley Hall, who led the team in rebounding last year.

The Aggies' other talented returning lettermen are Daphne Lee and Renee Alford.

Without a doubt, Coach Spruill had one of her best recruiting years, signing four talented freshmen. The Aggie freshmen include Marsha Simmons, Gloria Johnson, Wanda Austin, and co-Division 7 Player of the Year, Robin Ingram.

The Aggies' season looks bright and Coach Spruill is confident.

Les Notes

By Richard B. Steele

"Born Free"

Photo by Woody

An English monk's need to be on time for morning prayers helped Henry Ford develop the first assembly line, according to James Burke.

"The Wheels of Fortune," episode five of the t.v. series CONNECTIONS, will begin Sunday, Oct. 28, at 8 p.m. on the UNC-TV Network. Also, at 10 p.m. there will be a story of people who live and work in the shadow of the symbolic towers of Three Mile Island.

This program will be a look at the responses of the people directly affected by the accident, not of the cause or review of the actual accident. Rather this program will be an "after" effect based on the fears, that have not gone away, of the people. THE PEOPLE OF THREE MILE ISLAND, don't miss it. Wednesday, Oct. 31, or Halloween night at 10 p.m. UNC-TV takes you on an eerie journey of Bram Stoker's classic novel DRACULA. Portrayed by Louis Jourdan, the quality of this monster is better than that of former counts, Max Shreck (1927); Bella Lugosi, (1931); Christopher Lee (1958); and Frank Lagelia (recently on Broadway.)

If you're up to an attractive, seductively dangerous Dracula, this one's for you.

Fair Presents Exhibitions Of Piedmont Craftsmen

The 16th Annual Piedmont Crafts Fair will be held on Friday, Saturday, and Sunday, November 2, 3, and 4, at Memorial Coliseum in Winston-Salem, N.C., 10 a.m. to 9 p.m. on Friday and Saturday, and 1-6 p.m. on Sunday.

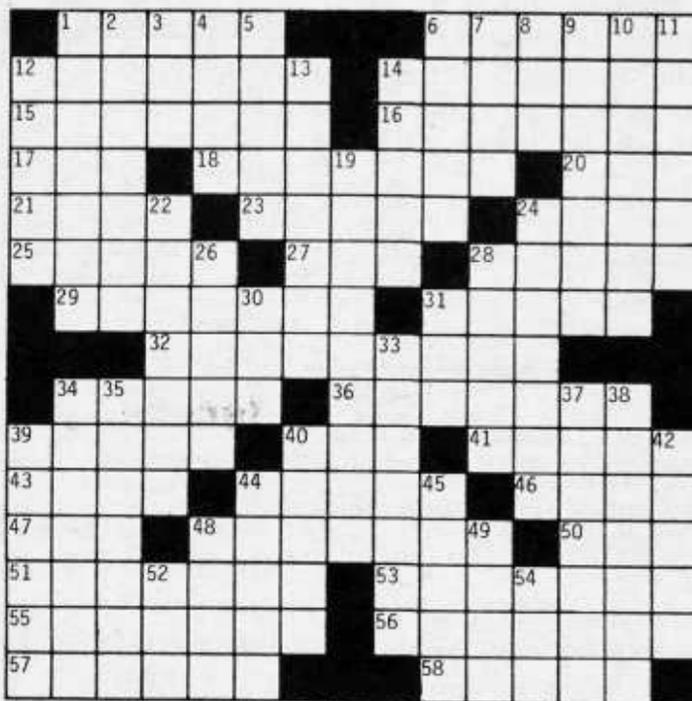

This 16th exhibition of crafts for sale, sponsored by Piedmont Craftsmen, Inc., is devoted to bringing wide public attention to the exciting, high quality work being created today in craft art.

Over 125 juried members of Piedmont Craftsmen, Inc.,

will exhibit and sell a broad range of contemporary and traditional craft work. Twenty of the exhibitors will be showing at this year's Fair for the first time. Also, more jewelry and clothing will be seen this year than at any time in the past. In all instances the booths will be manned by the craftsmen themselves, so spectators and buyers can discuss the crafts with their designers and creators.

The crafts represented will include pottery, glass, jewelry, wood, enameling, fiber, lapidary, photography, basketry, and stitchery.

The Power To Vote

At 5 o'clock p.m. Thursday in Holland Bowl, the SGA led a voter's registration rally. Its purpose was to bring attention to the efforts to save and change Black institutions and to also make the students aware of the mass voter registration campaign here on campus.

The qualification for registration is that you be a resident of Guilford county or have lived here for 30 days. This only applies, however, to in-state students. Registration will be Saturday, October 27, from 10 a.m. to 5 p.m. in the Student Union. After you have registered to vote the applications will be taken to the Board of Elections; then they will be processed and you will become a registered voter.

On your application you will see the question, "Do you intend to make Greensboro your home?" The word to watch for in the question is "intend", for as long as you remain in Greensboro or a student at A&T you can answer the question with a 'yes' even though at a later date you may choose to move elsewhere. As far as the question is concerned, residency is being based on intentions. However, if you are a registered voter in your hometown but wish to become a registered voter in Greensboro, then you must relinquish your voting privileges in that city.

This type of voter-registration is done at UNC-Chapel Hill and they can basically run the city when it comes to voting as far as the youth are concerned. Here at A&T it can be the same way. You won't even have to leave the campus because the voting precinct in this area is located in Cooper Hall, so transportation should not be a problem.

The right to vote is a privileges that during the civil rights movement many Blacks worked hard to achieve. We now have the right to choose our country's fate, but we don't even use the opportunity.

For example, Carter would not have won the presidential election, as this writer is sure we all know, without the Black support. We have a great voice when putting government officials in office. Taking out some time to use your vote as a weapon can be a powerful decision.

Leading editorials are written by the editor of the A&T Register. Such editorials will not necessarily carry a byline and will not necessarily reflect the opinion of the University or the entire staff. Staff members are free to write dissenting opinions.

Carter, The Good Samaritan

By Florina G. Byrd

It has been reported that President Carter has pledged at least \$30 million in emergency government support for Cambodian refugees.

These refugees are in Southeast Asia where they are faced with such dilemmas as starvation and death due to different diseases—one main disease being bubonic plague.

What kind of support is the leader of Cambodia showing for his people? Is he making any preparations to better cater to the needs of his people, or is he reluctantly letting America do his job for him?

The large sum of money that the President is pledging for aid to Cambodia actually should be divided so that the poor people of America can also be helped.

There is nothing wrong with the President and American leaders wishing to help other less fortunate countries, but have they seemingly

overlooked the problems of poverty and starvation here? Of course we are not as poor as other countries but there is much to be done as far as aid is concerned. There are families in America living in cars, tents, and other places for possible habitations of survival, but it seems as if the 'blanket' has been pulled over these problems by our 'willing to help those in need' leaders.

There is one good point that should be considered concerning our good 'samaritan' President. He has helped the people of America, but this help has been somewhat limited or curtailed. If the President would allot more "government aid" for unfortunate Americans, there would probably be no poverty or hunger in this country.

Helping the Cambodians is a good deed but aid should be 'pledged' here as well.

Plagiarism is No Game

By Larry L. Jenkins

Issues have risen concerning the validity of the writer of approximately two poems that appeared in the poetry section of the A&T Register homecoming edition. Though this writer was the recipient of these poems, it was never thought that anyone would submit one that he, himself, had not written. Why someone would do this bewilders this writer and should be of a major concern to the individual.

Besides the moral ethics of falsifying one's name to articles and poems, there is the legal aspect - plagiarism. Plagiarism is the act of passing another person's ideas or writings off as one's own.

From high school days, it was taught that one is supposed to use "his own words" instead of copying exactly from an encyclopedia or other type

materials. To the dismay of many students, this lesson did not end upon entrance to A&T.

Many students have failed their English classes, along with others, because of this act. Though many may think it to be trivial in reality it is not. No one should want another person to attain recognition from his own

works. Blessed with a brain, everyone should use it to their fullest capacities.

Students have to realize that the way they prepare themselves for college is a reflection of their preparation for entry into the world of work. Employers are looking for those students who have creative, original, and imaginative minds, not those who so expertly communicate the works of others.

THE A&T REGISTER

Published twice weekly during the school year by students of North Carolina Agricultural and Technical State University.

To receive THE A&T REGISTER, please send \$8.50 for one year of \$16 for two years to THE A&T REGISTER, Box E-25, Greensboro, North Carolina, 27411 to cover mailing and handling costs.

COMMUNICATION ADVERTISING SERVICES FOR STUDENTS (CASS)

6310 N. PULASKI ROAD CHICAGO ILLINOIS 60646

Legislature Plans Separate Entertainment Committee

(Continued From Page 1) including the extended hours; establishment of a separate Entertainment Committee from the SGA and SUAB-Student Union Advisory Board.

Other committees focused on the Library, Renovation, Community Affairs, and Traffic Safety Committees.

Meetings thus far have been September 24 and October 11 and 24. The next SGA meeting will be a student body meeting on November 9.

Semster meetings for the remainder of the semester are

November 20; and in December, an undecided open date.

One highlight concerning the Traffic Safety Committee is the large trailer in front of the African Heritage House.

"It is a hazard for pedestrians and drivers," said one committee member.

At an earlier meeting, Bob O. Henry mentioned the student activities monies.

Monies (\$120,000) were taken by the administration without the advisement/consent of the Student Allotment

Committee. "This is an indirect violation of the students' rights" Henry commented.

With this issue, the faculty/staff members and students must compromise at some central point.

The purpose of Men's and Women's Councils were mentioned. There is a stereotype labeled to the organizations as having only one spring ball in April for on-campus students and that's all.

During homecoming week,

the Council sponsored a reception for the hall queens after the coronation of Joyce Walker as Miss A&T.

In November and succeeding months the Council is presenting a Women's Council member-of-the-month award. Two members will be selected from dormitories by the way of the identification card number.

Also, the Council plans to present a Women's Council scholarship for the member with the highest grade-point average. The amount has not

been decided. The Men's Council does have one advantage that Women's Council does not have; the Men's Council has a coronation for its queen whereas Women's Council does not.

"It is an excellent idea to consider for next year," said one Women's Council member.

The Student Legislature meetings represent the missing link between the SGA and Student body for informational purposes

Greeks Feel Left Out

Editor of the Register:

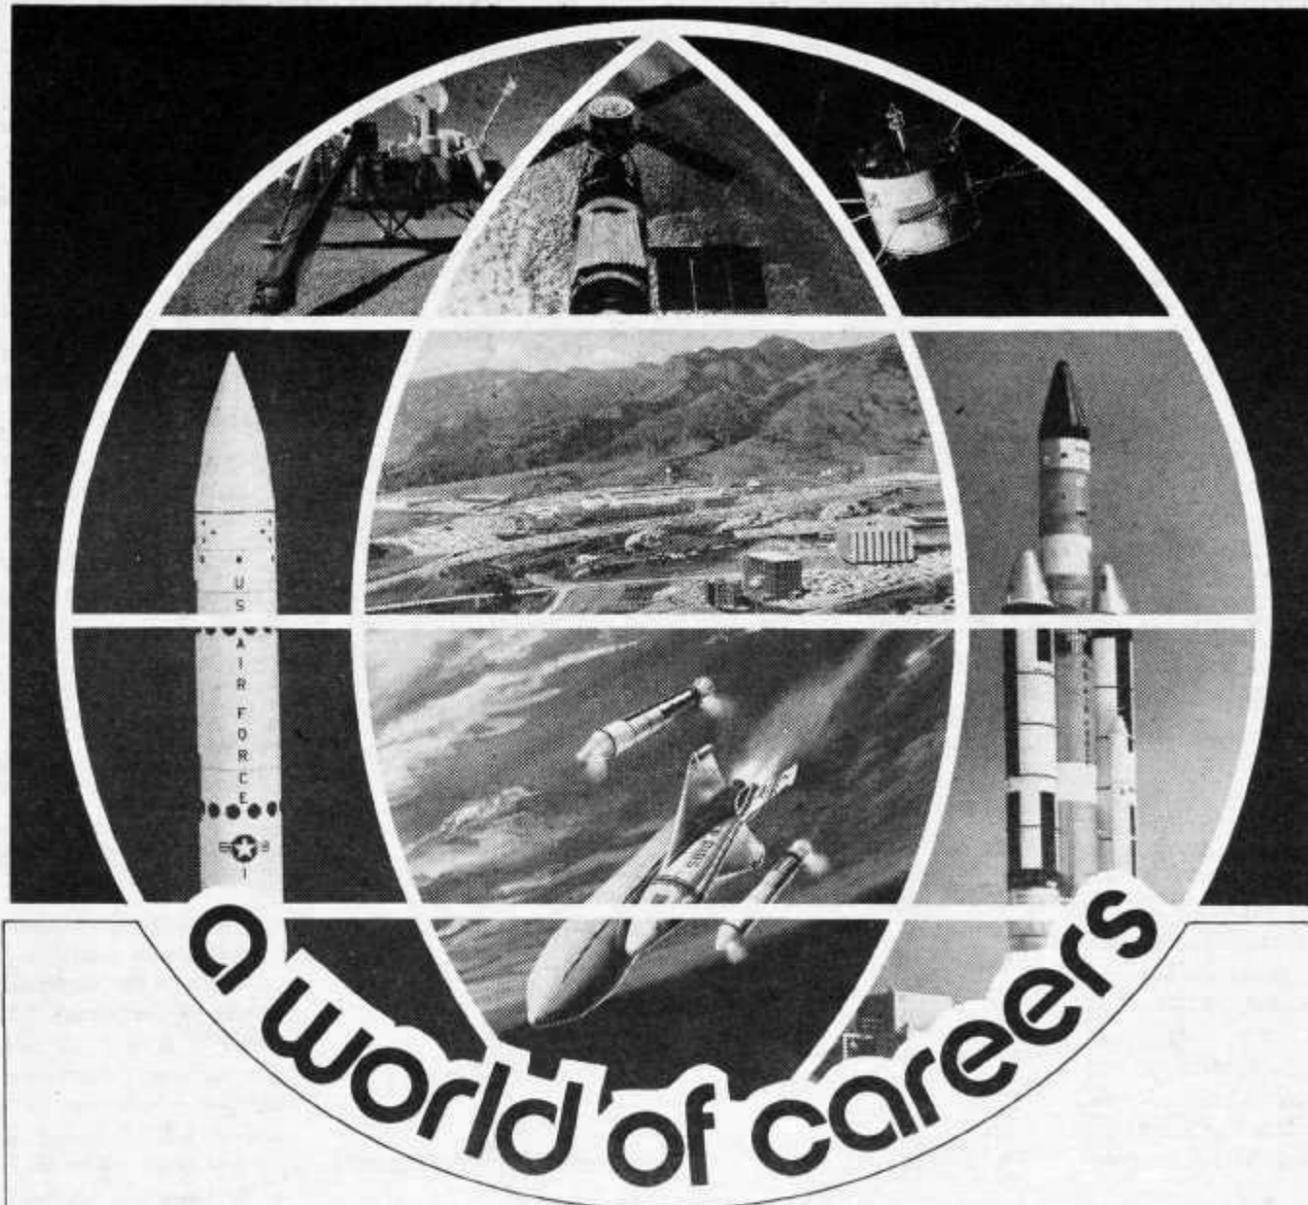

Greek letter organizations on this campus for many years have tried on numerous occasions to get news of our activities printed in this paper. In the past we were somewhat led to believe that it was a policy of **The Register** to ignore Greeks as well as any other campus organizations.

We were pleased to learn that the overlooking of organizations in the past was not a policy of **The Register**, but a decision of the Editor. This year's implementation of the organizational reporter's aspect to the paper is welcomed by the Pan-Hellenic Council. Furthermore, it brings about the realization of a past goal for us. **The Register** should be available to campus organizations as a medium of communication beyond the 'campus haps' section of the paper.

The organizational reporter provides for us a unique opportunity and communication with the student body from student organizations. Is there a more important type of communication needed on this campus? **The Register**, our medium, has provided for us an opportunity that has been denied in the past, so let us take advantage of it. Let it not be said that we are apathetic and did not take advantage of this opportunity.

Times change and people change, but we are Aggies forevermore. We commend the editor and staff for the implementation of the organizational reporter. The fact is one that was long in arriving and we are grateful. Continue the good work.

James Galbreath, president
Pan Hellenic Council

in aerospace awaits you at

MARTIN MARIETTA

SEE OUR REPRESENTATIVE ON CAMPUS NOV. 9

Our Denver Division has many new opportunities awaiting recent college graduates. Major facilities are located at Denver, CO; New Orleans, LA; Santa Maria, CA. Currently there are 365 contracts that involve work in such exciting areas as Space Launch Systems, Defense Systems, Command and Information Systems, Payload Integration, Space Satellites, Solar Systems, Space Shuttle and the new generation Missile System.

Opportunities Now
Within these areas are many entry-level growth positions that offer practical experience in the advanced state of the engineering art. Such fields as •

Software • Test • Propulsion • Thermophysics • Structures • Mechanisms • Dynamics • Stress • Materials • Mission Analysis • Product Development • Industrial Engineering • Logistics • Integration • Systems • Guidance & Control • RF Systems • Communications • Data Handling • Power Systems • Payloads & Sensors • Quality • Safety and Manufacturing.

Careers Begin Here
If you're considering a career in aerospace, you won't find the challenge greater nor the work more rewarding than at Martin Marietta.

In addition to job opportunity the com-

pany's comprehensive program of employee benefits has a financial value equivalent to approximately forty percent of the employee's income. Included are: Company-paid insurance, performance sharing plan, retirement plan, vacation, education reimbursement and long term disability plan.

Interested graduates please contact Martin Marietta Aerospace, Attn: College Relations, P.O. Box 179 (#D6310) Denver, CO 80201.

Martin Marietta is an Affirmative Action Employer actively seeking the Handicapped and Veterans. National Security regulations require United States Citizenship.

We are not worried about any jive dude bothering us.

Photo by Woody

CAMPUS HAPS

Toastmasters International, a non-profit educational organization, will conduct a seminar in Room 210 of Merrick Hall, Saturday, October 27, from 9-12 noon. Anyone interested in self-improvement can make good use of the communication and leadership opportunities offered by a Toastmasters Club. The university community is invited to attend, to participate, and to become more aware of the services of Toastmasters.

Proofs from Yearbook Pictures are back. They may be picked up in the Yearbook office Monday, October 29, from 9-8 p.m.

All Reporters for the A&T Register are asked to meet Sunday, October 28, at 7 p.m. at the Register House.

The Alobeaem Society will meet October 31, Wednesday, at 4 p.m. in Merrick Hall. The executive committee will meet Tuesday, October 31, at 12 noon, in Merrick Hall, Room 129.

The Community Affairs Committee of the SGA will meet Monday, October 29, at 7 p.m. in Room 212 in the Student Union. All interested persons are asked to attend. Those individuals interested in volunteering to assist in a tutorial service are asked to attend also.

Persons or organizations interested in serving as volunteers for the High School Promotion Day on November 3 are asked to please contact Florina Byrd at 373-9824 or 379-7700 for further information.

Halloween Has Pagan Origin

By Trudy Johnson

What's so "hallowed" about Halloween? The name, implying creepy goblins, ghosts and demons, witches, spiders and bats, jack-o-lanterns, and black cats, in actuality means "hallowed evening."

The origin of Halloween can be complemented by the mysterious thirteen best sellers, according to *Glamour* magazine.

The paperbacks are designed to terrify you on October 31. The price range is from \$2.25 to \$8.95.

Listed are the best sellers: *Allen* by Alan D. Foster, \$2.25; *The Amityville Horror* by Jan Anson, \$2.75; *The Amulet* by Michael McDowell, \$2.50; *Blood Secrets* by Craig Jones, \$2.25; *Cry For The Strangers* by John Saul, \$2.50; *Dracula*

by Bram Stoker, \$2.50.

Others are *The Entity* by Frank DeFelitta, \$2.75; *The Glass Flame* by Phyllis Whitney, \$2.25; *The Hypnotist* by Brad Steiger, \$2.25; *Love Kills* by Dan Greenburg, \$2.50; *nightwing* by Martin Smith, \$2.75; and *Wolf's complete Book of Terror*, \$8.95.

Publishing companies Warner, Bantam, Ballantine, Dell, Jove, and Pocket want you to keep the spirit alive.

Even though these books do not necessarily mention the origin of this celebration, the custom has been around for thousands of years, [i.e. before Christ]. Centuries ago, ancient Druids performed mystical rites/ceremonies in honor of the dead on Halloween.

History books and

enclopedias briefly discuss this pagan origin. Nowadays, newspapers and magazines open the doors of curiosity.

Oftentimes, the media discuss the pagan beginnings and their parallelism to modern customs.

Halloween has to be taken lightly. After all, celebrating death, devils, witches, and darkness contradicts life, goodwill, and, above all, religious beliefs/customs.

Trick Or Treat

SGA Sponsors Clean-up To Build School Pride

By Larry L. Jenkins

In trying to improve the appearance of the university, the Student Government Association will present an award to the cleanest dormitory on campus. According to Kevin Buncum, SGA president, this contest is an effort to "build up the pride and spirit on cam-

pus."

Recognizing good performances on behalf of buildings and grounds maintenance, Buncum feels that students are responsible, to a certain extent, for unsanitary conditions that plague this campus.

All dormitories will be automatically entered into the contest, and will be judged on an overall appearance. This includes the inside, as well as the outside surroundings of the dormitories. Judging emphasis will be placed on accumulation of trash and paper throughout the dormitories.

When asked if this was a one-time contest, Buncum replied that the SGA "plans to pursue this type contest throughout the school year."

The dormitories will be judged Monday, November 5, and the winning dormitory will be announced at the next SGA student body meeting. This meeting will be Tuesday, November 6, in Harrison Auditorium.

Judges for the contest will be comprised of the Public Relations Committee of the SGA.

SEMESTER IN SPAIN

****only \$2,189** Feb. 1--June 1, 1980**
Beginner or advanced. Study Spanish in beautiful Seville, Spain. Earn 2 full years college credit for about the same cost as a semester here.

FOR EVERYONE

Come experience the Old World with us in Spain. Fulfill your college requirements and have the time of your life in a tropical climate.

Whether you're a beginner or advanced, you'll learn Spanish much better than you could in a conventional setting. Standardized tests prove it. Spanish isn't all you'll learn. You'll experience the culture, make lifetime Spanish friends, and see this part of the world.

Our enthusiastic alumni write and tell us their semester in Spain was the highlight of their college career. Call us collect. We'll give you their names, addresses and phone numbers to contact for yourself.

Professor Barton Siebring, former Spanish professor at Calvin College for 10 years will lead the rigorous academic study.

Come with us Feb. 1-June 1, 1980. Round trip jet from Toronto, Canada, room, board and full tuition all for only \$2,189. (Government loans and grants apply.)

Live it! You'll learn more Spanish, and learn it better for about the same cost as sitting in a conventional classroom. We live in Spanish homes.

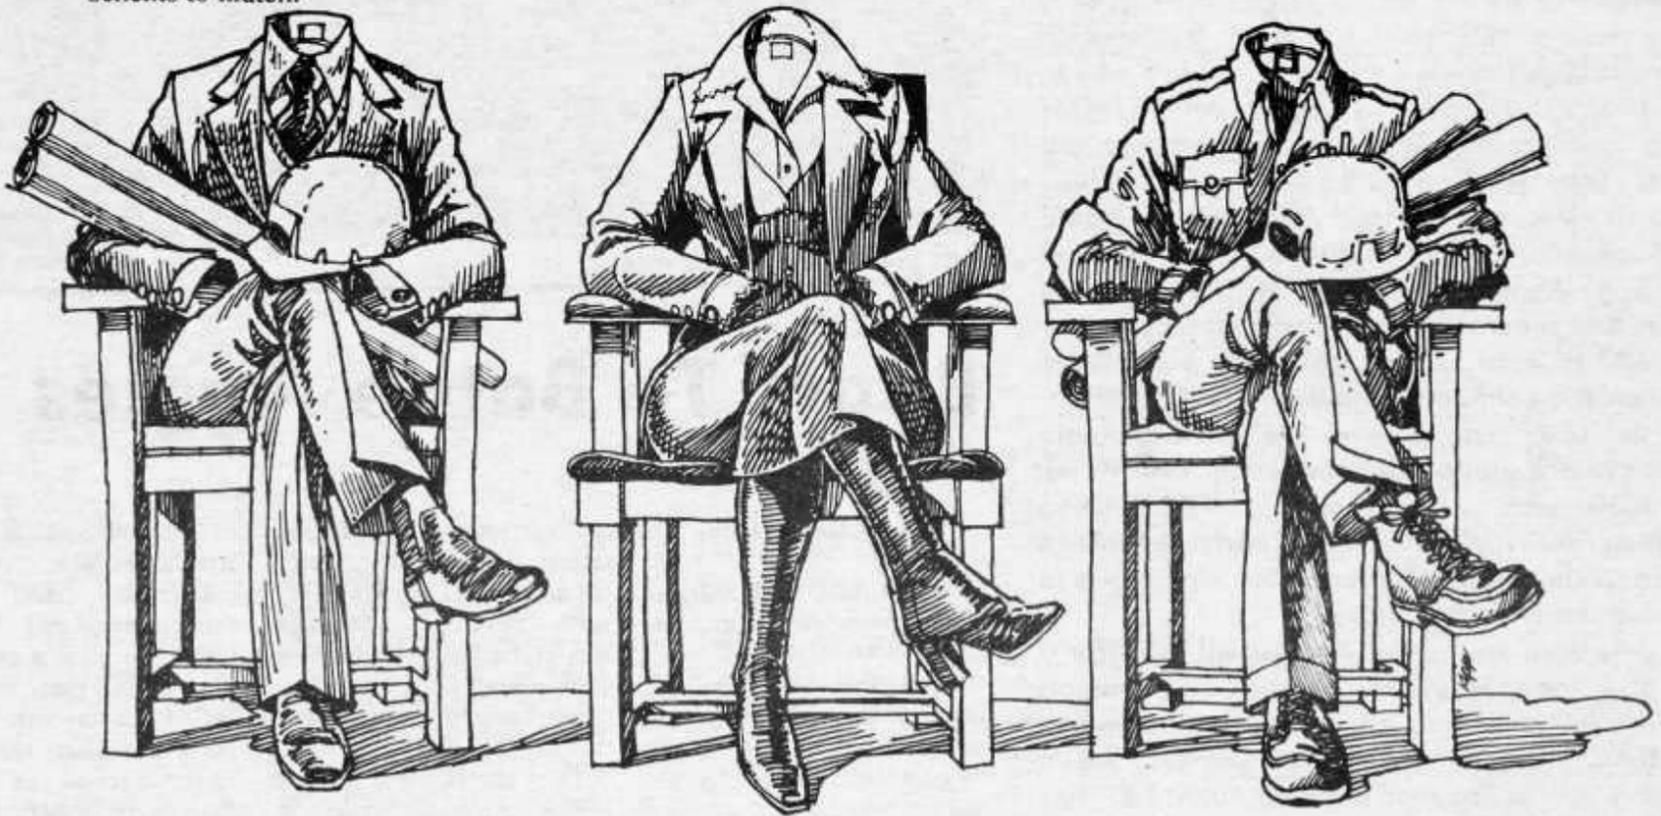

Don't miss this opportunity, space fills up fast. Call us collect at once for more details. Credits will be accepted by any college.

SEMESTER IN SPAIN, 2442 East Collier S.E., Grand Rapids, Mich. 49506
Call (616) 942-2541 collect - - A program of Trinity Christian College

We have positions to fill.

President Carter has called the fight for tomorrow's energy the "moral equivalent of war." The front-page industry that's tackling the nation's greatest challenge needs superior engineering graduates.

We can put your skills to work NOW. Kansas City Power & Light has choice career openings that place you now where your classmates will be in five years: at high levels of authority and responsibility with earnings and benefits to match.

Kansas City Power & Light Company is a billion-dollar utility and energy supplier to over a million people in a major commercial and industrial center encompassing 23 counties in two states.

Because of growing energy demand, expansion, and promotions, we need engineers with leadership capabilities to take over in these key areas:

Fossil Plant Construction and Engineering

Two Mechanical Engineers, one Electrical Engineer and one Civil Engineer are needed to review the work of and coordinate with Consulting Engineering firms involved in designing coal-fired power plants. These engineers will also design modifications to existing plants and at times will supervise contractors.

District Commercial Operations

We need two Service Engineers with degrees in Electrical or Mechanical Engineering (or Engineering Technology) to deal with representatives of our large customers and with Engineering and other departments of the Company. In addition to having good engineering skills, the graduates must be able to remain personable, articulate and poised under pressure. These positions require extra savvy.

System Planning

One Mechanical, Electrical or Industrial Engineer (or Engineering Technology graduate) is needed to perform studies of the cost benefit trade-offs of designated projects involving generation capacity. This individual will need course work in Economics and the ability to program in FORTRAN. Communication skills are also important as this involves interface with other departments. Familiarity with econometric modeling is an asset.

Energy Management Services

We need two Engineers with degrees in Mechanical or Electrical Engineering (or Engineering Technology) to explain electric heating, air conditioning, conservation techniques, and renewable sources of energy to customers, builders, contractors and consulting engineers. This involves constant research to remain current with the state-of-the-art. Candidates must communicate accurately and tactfully.

Generating Stations

Three Maintenance Engineers with leadership skills are needed for trouble-shooting, special studies, efficiency tests, and overseeing contract crews. This is a "fast-track" into supervision and management. Graduating students who will have degrees in Mechanical or Electrical Engineering (or Engineering Technology) are invited to discuss with us the following locations, some in congenial small town locales:

- Iatan Station — live in Kansas City
- LaCygne Station — live in Louisburg or Paola, Kansas, 20 to 40 miles from Kansas City
- Montrose Station — live in Clinton, Missouri, about 60 miles from Kansas City

Distribution Engineering

One Electrical Engineer who has taken power engineering courses is needed to design both overhead and underground distribution systems. Some field work is involved with opportunities to promote into Construction and Maintenance or technical supervision.

System Power Operations Staff

The Manager of Generating Stations is seeking an exceptional Mechanical Engineer for top level staff. Electrical Engineers as well as Electrical and Mechanical Engineering Technology graduates will also be considered. This person will assist in administration of the Preventative Maintenance and Efficiency Programs and the Materials Management Systems. Candidates must be good at planning and, due to the nature of the liaison work, must be persuasive. This is a unique and very challenging opportunity requiring a sharp individual able to work with all levels of the Company. It also affords good exposure to top management.

Our representatives will be interviewing on campus in the near future; please contact the placement office.
