THE A&T REGISTER

"COMPLETE AWARENESS FOR COMPLETE COMMITMENT"

VOLUME XLI NUMBER 18 NORTH CAROLINA AGRICULTURAL AND TECHNICAL STATE UNIVERSITY GREENSBORO, NC NOVEMBER 9, 1979 FRIDAY

Madison, Speaker For Annual NAACP Conference

Joe Madison, national director of the NAACP voter education department, will be the keynote speaker at the annual North Carolina NAACP state conference freedom fund dinner November 10 at 7:30 in The Golden Eagle Motor Inn.

Madison has directed several voter registration and

get-out-the-vote campaigns, including Philadelphia, Cincinnati, and Mississippi.

The NAACP voter education department is currently directing voter registration campaigns in twenty cities. The department has also introduced legislation authorizing high school principals as deputy registrars

Joe Madison

in an attempt to register over 3.5 million young adults in the

U.S. by the 1980 presidential election.

"One of the reasons that communities and its people are under seige in such cities as Cincinnati where the city council authorized its police officials to carry 357 magnums with hollow bullets, or Philadelphia where mayor Frank Rizzo's police department is sued by the justice department for excessive police force, is that more and more people are not going to the ballot box." Madison said, "When you

don't vote, you don't count, and elected officials then have a tendency to turn their attention and concerns to other resources that do not always have the best interest of their constituency in mind."

Joe Madison, former Executive Secretary of the Detroit National Association for the Advancement of Colored People, (NAACP), and a Detroit City Council candidate, returned to the NAACP as its National Director of Voter Education on February 1, 1979. Madison served as understudy to W.C. Patton, who retired December 31, 1978 after serving 26 years as the department's director.

Madison's first crucial test was to organize a voter registration and "Get-Out-The-Vote" campaign in Philadelphia where Mayor Frank Rizzo was the center of controversy regarding a public referendum allowing a mayor to seek more than two consecutive terms. What followed was a record 200,000 new registered voters (50 percent were Black and other minorities) and a massive city-wide "Get-Out-The-Vote" effort. The result was an 80 percent turn-out of voters and the defeat of the public referendum.

As director of voter education, Madison will be responsible for formulating the association's political action, citizenship education and voter registration efforts. He will also evaluate and fund voter education projects for the 1,700 branches across the country. Other duties include the monitoring of national legislation, regulations, and guidelines that ensure equal and easy access to the ballot box.

The 29 year old director was recently named by Ebony Magazine (a national monthly publication) as one of the Nation's 50 Leaders of the Future. He serves on the boards of several local and national organizations and was selected in 1976, 1977, and 1978 as one of America's Noteworthy Community Leaders.

A Washington University graduate with a degree in urban studies, Madison and his wife, Sherry, live in Detroit.

Pre-registration Begins November 12-16 For Spring

All students who plan to attend A&T the Spring Semester, 1980 are required to pre-register during the week of November 12-16, 1979. Pre-registration materials will be available in each academic department by Friday, November 9, 1979.

Please note that there is a change in pre-registration for the Spring Semester. The

Buncum Commend Student Turnout

By Trudy Johnson

Kelvin Buncum and Cheryl Armwood sparked the audience's attendance with "We are pleased to see as many students here, compared to last time's 230 students."

The SGA president and vice-president specifically commended all attendance.

The approximate number of students at the 7 p.m. meeting in Harrison Auditorium was about 400.

With the controversial happenings last weekend, apparently more students felt the need to get more information from SGA officials and other city officials.

The guest speaker, James Wright, director of human relations in Gate City, emphasized equal rights, peace for all, and especially interracial compromises (of peace) for Greensboro citizens, students, and visitors.

Wright raised questions: "Who's responsible for what?" and "How did the KKK-Workers Viewpoint Organization confrontation (See Jackson Page 6)

procedure, beginning Monday, November 12, 1979, is as follows: Students must obtain course cards consistent with the trial schedule and have confirmed by his/her Department Chairperson. The Chairperson will confirm and return to the student the set of course cards and the Registrar's Copy of the trial schedule. The student will take the course card and the Registrar's Copy of the trial schedule to the Computer Terminal Station in the new gymnasium according to the time-table for reporting to the (See Students Page 2)

A&T Instructors To Train Para-Professionals In Tanzania

A&T State University will step up its agricultural assistance training programs in Tanzania in East Africa beginning the first of next year.

Dr. Lewis C. Dowdy, chancellor of the university, said A&T has signed an agreement to assist Tanzania in increasing its agricultural

William Reed

yields.

Dowdy said the program will be concerned with adult education in Tanzania and will be coordinated by Dr. William Reed, director of international programs for A&T.

Reed said A&T's initial involvement will be the sending of several agricultural education professors from the School of Agriculture to the African nation. They will go abroad in January.

Visiting the university recently to firm up the cooperative program was Dr. John E. Mchechu, director of the manpower development division of the Ministry of Agriculture in Dar-Es-Salaam in Tanzania.

"The development of manpower is our biggest concern," said Mchechu, "and agriculture in the country is expanding very rapidly."

Mchechu said Tanzania has set as one of its priorities, the (See Agricultural Page 2)

English Dept. Offers New Course In Humanities

The English Department will begin offering a new course, Topics in the Humanities, English 204, next semester. The focus of the course will be on world mythology and the arts. It will be taught by Dr. Michael Greene, associate professor of English, on MWF 10-11.

"The course will begin with a look at what mythologies and religions around the world have in common. Then we will discuss the myths of many different cultures - ancient and modern, Western and non-Western, representing as many societies and ethnic groups as possible," said Dr. Greene.

This new course represents an attempt to broaden and diversify the English Department's curriculum, according to Dr. Jimmy Williams, chairman of the Department.

"We want to offer this course frequently,"

commented Dr. Williams, "and each time, it might have a different topic and be taught by a different instructor. The next time it might be on something such as Renaissance Humanism. We want to have more elective offerings in our department, courses that would be geared toward attracting bright students who would like to pursue ideas that they probably did not have time enough to deal with in the basic courses."

The English Department will recommend that English 204 be included in the list of courses which will satisfy the university's humanities requirement, but students may wish to check with their major departments to determine whether they will receive credit toward their humanities requirement or whether the course would count simply as elective credit.

All Universities Not Created Equal In a Literal Sense

By Trudy Johnson

The American Association of University Professors, (the AAUP) says, "All universities are not created equal"—in a literal sense. Financial discrepancies are obvious through the UNC school system, especially with the HEW-UNC dispute.

For Black university compensations, North Carolina Central University is highest paid, whereas North Carolina A&T is second.

The differences. What are the determining factors? The AAUP's national rating system is the main "label-maker."

The categories are Categories I, IIA, and IIB. Each constitutes different educational levels. The first—doctorate level, the second—master's level, and the latter rates bachelor's level.

Category I: UNC-Chapel Hill, UNC-Greensboro, and NC State University are doctorate level rated.

Category IIA: Appalachian State University, North Carolina A&T, NC Central University, UNC-Charlotte, Western Carolina University, and East Carolina University are master's level rated.

Category IIB: Fayetteville State University, UNC-Wilmington, UNC-Asheville, Winston-Salem State University, Pembroke State University, and Elizabeth City State University are bachelor's level rated.

Compensations range from \$27,000 annually at UNC-Chapel Hill to \$25,300 annually at Winston-Salem State University.

Chancellor Lewie C. Dowdy spoke Monday night at the President's Council question and answer dinner. (Photo by Love)

Burch Maintains Highest GPA In Class

By Florina G. Byrd

Charles Burch, Jr., a sophomore accounting major has maintained a 4.0 grade

point average, the highest average in his class.

Burch, a native of Detroit, Michigan, is the acting-president of Alpha Lambda Delta Honor Society at A&T.

"I consider myself a man of many facets. I'm not just a student who constantly stays in my books all the time. It's not about studying all of the time; it's how you budget your time. I am involved in several activities and I feel that a person must involve himself in extra-curricular activities in order to enjoy school.

Burch holds active memberships in the N.C. Fellows, Student Council, Alobeaom Society, NOBUCS, A&T Student Industry Cluster. He has also been

Charles Burch

recognized as being a member of the National Dean's List.

When asked how he 'felt' having the highest grade point average in his sophomore class, Burch stated, "It was a goal that I shot for when I came to A&T. I wish other students could follow this pattern and make good grades as their goal because many students do not realize that good grades are important once you graduate from

college.

Active in other areas of interest such as sports, Burch has participated in intramural football, basketball, and softball. "I show a genuine interest in A&T. I love this university and I'm proud to be a member of the Aggie family, I do my best to help other people when I can. In my hometown I try to attract many students to attend A&T.

Burch also stressed reasons for majoring in accounting. "I chose this field as my professional objective because I liked accounting in high school. It's a very lucrative field, especially after graduation."

Burch advises students that they should apply themselves academically, but time should also be allotted for social activities. "It's cool to go out and party but you have to realize that there must be time to study as well," he concluded.

Students To Receive Schedules For Spring Semester Courses

(Continued From Page 1)

new gymnasium.

The student will receive at the computer terminal a copy of his/her class schedule for the Spring Semester.

Seniors are to report to the new gym Monday, November 12, in the morning and Wednesday, November 14, in the afternoon.

Juniors are to report Monday, November 12, in the afternoon and Thursday, November 15 in the morning.

Sophomores are to report Tuesday morning, November 13 and Thursday afternoon, November 15.

Bennett Players To Present Two Plays

The Bennett College Players will present two one act plays "The Owl Killer" by Phillip Hayes Dean and "The Sirens" by Richard Wesley. Both plays will be directed by Elliott Moffitt, director of the Little Theatre at Bennett.

Moffitt is a graduate of both North Carolina A&T State University and New York University. The plays will be Moffitt's first venture since taking over as director of theatre at Bennett.

(See Bennett Page 6)

Freshmen are to report Tuesday afternoon, November 13 and Wednesday afternoon, November 14.

All classifications may report Friday, November 16.

More information pertaining to pre-registration will be forthcoming from the vice chancellor's office.

Agricultural Programs To Assist In East Africa

(Continued From Page 1)

reaching of self-sufficiency as far as food is concerned by 1981. He said one problem which has hindered his country's agricultural development is drought.

Reed said the A&T instructors will be training para-professionals in Tanzania. The para-professionals in turn will assist farmers.

A&T is currently involved in two projects in Tanzania, both sponsored through the assistance of the U.S. Agency for International Development (AID). One program is the Agricultural Manpower Development Project and the other is the Farmer Training Program.

Professors from the university who have already

spent time teaching and working in Tanzania are Dr. Will Getz, Dr. Richard Gray and Dr. Michael Kizer

Omega Psi Phi To Sponsor Seminar

On Wednesday, November 14, at 7 p.m., the Mu Psi Chapter of Omega Psi Phi Fraternity, Inc. will sponsor a seminar on medical issues that concern university students.

McArthur Newell, M.D., a leading Greensboro gynecologist, will serve as speaker. Venereal disease, contraception and other relevant subjects will be

(See Seminar Page 5)

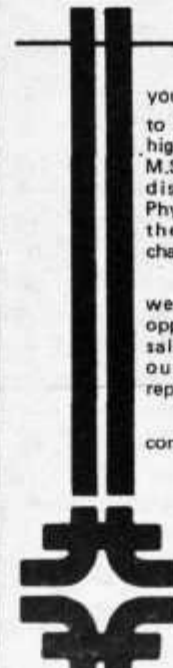

Fermi National Accelerator Laboratory is visiting your campus on **Monday, November 12** to interview students interested in pursuing a career in high energy physics research. We are seeking B.S. and M.S. level students who are enrolled in the following disciplines: Mechanical and Electrical Engineers, Physics, and Computer Science. We are operators of the world's largest accelerator and offer many challenges to an inquiring mind.

We are located on a 6,800 acre site in the far western suburbs of Chicago which offers the opportunity for both rural and urban living. Our salaries are competitive and our fringe benefits outstanding. We hope you will visit with our representatives on **November 12**.

To arrange for a convenient appointment, please contact the Placement Office.

Les Notes

By Richard B. Steele

Several years ago a male group out of Philadelphia got together on the United Artists label and produced an album called "Black Tracks". It was a beginning of a decade of hit albums and international fame.

Later, on the Stacs label, this group turned out "Meet The Moments" and became better received, yet not accepted.

Around the first few years of the seventies, the O'Jays, a soul group told the world how treacherous life could be in an LP entitled "Backstabber". Immediately they got on the "Love Train" and most importantly the doors swung open with "I Love Music." The songsters then proceeded to "Live in Philadelphia", "Money, Money" and "Ship Ahoy."

In the years to come these men of inspiration toured and gave headliner concerts highlighting their album "Family Reunion." This song alone touched audiences of all races, but seemingly centered around the Black family. Also on the album was the unforgettable "Stairway to Heaven". "Message In The Music" was a foretelling of the things to come and a plea to listen to the "words of right" in song.

The O'Jays then "Traveled at the Speed of Thought" and then produced the following: "Philadelphia Classics," "Collector Item" and on tour "Live In London."

Their next album "So Full of Love" caught the emotion and appreciation not to mention the harmonic perfection of this group in "Brandy" and together "We Cried Together."

After months passed the O'Jays surfaced once again with a new album, "Identify Yourself," with "Forever Mine."

"The O'Jays will be in concert this Saturday, November 10, at 8 p.m., in the Greensboro Coliseum. Also appearing will be GQ with "Disco Nights" and "I Do Love You." The Jones Girls will also appear singing "Who Can I Run To," and "You Gonna Make Me Love Somebody Else."

Tickets are \$8 and \$9.

Educational Loan Program Aid Students

Raleigh--Interested in going into the health care field? North Carolina's Educational Loan Program may be able to help you with education costs.

This is how it works. The Educational Loan Program provides loans for students going into medicine and other health related studies such as dentistry, medicine, optometry, physical therapy, nursing, dental hygiene,

pharmacy, nutrition and several others.

Loans range from \$500 to \$6000 per year per individual depending on the particular field of study. The loans are repaid through practice in medically underserved areas of North Carolina or in cash.

Interest, academic standing and motivation for service are examined carefully in selecting students to participate in the

loan program. Financial need is also a criterion when the number of applicants exceeds the availability of funds.

Janet Proctor, head of the Educational Loan Program, says, "This type of program is good because we can consider the needs of both the state and the student. We work very

closely with our students while they are in training as well as practice. We get to know each one of them and their parents, and they know us."

The loan program will begin taking applications and scheduling interviews in designated places across the state around December 1.

Interviews are limited and fill rapidly. If you are interested in the program and would like more information, contact the Educational Loan Program, Division of Facility Services, N.C. Department of Human Resources, P.O. Box 12200, Raleigh, North Carolina

Electrical Engineers Accountants Systems Programmers

Don't miss your opportunity to interview with a major manufacturer of computer systems.

How important is your career to you? If you want to start big in the second largest computer industry in the world, come talk with Burroughs. The Downingtown, Pa. facility Small Systems Group will be recruiting future graduates in the specified areas of concentration:

ELECTRICAL ENGINEERS - BSEE/MSEE or any engineering degree with programming experience. Responsibilities include specification of system architecture, detail logic design of the systems components, documenting and debugging systems components and participating in system testing. Other opportunities in engineering programming and power engineering.

ACCOUNTANTS - BS/Accounting with exposure to cost accounting and computer programming courses. Responsibilities for our accountant positions will include accounts payable, cost accounting, financial statements, inventory control and budget analysis.

SYSTEMS PROGRAMMERS - BS/Computer Science or BS/Math with Computer Science background. Responsibilities include design, implementation and debugging systems software such as compilers, diagnostics and operating systems as well as application programs such as APL, linear programming, data management systems and inventory control.

If you're stimulated by challenge and committed to your career you could progress to higher level positions within a few years. A flexible person will enjoy continued growth opportunities available throughout our corporate and group facilities.

We offer job related training to acclimate you thoroughly to Burroughs' procedures. Through presentations and special projects you can interface with management personnel at all levels.

Interested in learning more about Burroughs' career opportunities and company benefits? Include your name on our schedule so that we can provide you with the information to help you choose your career with...Burroughs.

MASTER OF SCIENCE IN TRANSPORTATION AT MIT

The new MASTER of SCIENCE DEGREE in TRANSPORTATION is based on an interdisciplinary, intermodal approach to transportation. The program is accessible to students with a wide range of undergraduate degrees including, engineering, the social sciences, architecture, management, planning and operations research. Students also participate as research assistants in a large variety of research projects focusing on the role of transportation in solving some of society's basic problems such as equity, energy, the environment, and economic development.

For more information on the program,

Clifton Presents Slide Lecture On Africa

Catherine Clifton, assistant professor of English, will present a slide lecture on her travels in Africa on Wednesday, November 14 at 7:30 p.m. in Merrick Hall auditorium. This lecture, the second in the annual series sponsored by the English Department, is entitled "On the Way to Timbuktu: Traveling in West Africa" and will focus partially on Mali and the Niger River route to the famed Timbuktu.

There will be an
(See Clifton, Page 6)

Don't Get Involved

To many this weekend, there will be a feeling of apprehension and maybe fear.

Sunday there will be a funeral procession somewhere supposedly down Market Street carrying the caskets of those that were killed in the tragic, Klan-Worker's Viewpoint Organization rally which occurred on last Saturday.

National Guard and tightened security forces other than the city police are preparing the city for the procession. Here on campus, facilities such as the Student Union, Bluford Library and the Cafeteria will close at 5 p.m. The side doors of all the dorms will be locked for security sake. It is also said that there will be no traffic allowed into the city after 4 p.m. this Saturday.

Things may seem to be growing out of proportion. Surely pre-cautionary measures should be taken, but is everyone concerned over reacting? The students of A&T should not become involved. This does not appear to be a Black-white issue, but a Communist oriented group who is against the beliefs of the Klan. They are trying to drive A&T students into a situation which they really have nothing to do with. They need some kind of identification to throw us off track as to the real-reason for what is going on. It is known that the Klan is anti-Black and anti-Semitic, so they, including the media in the city and all over the country, may not be looking at the situation from a reality of what may really be happening.

So, until you fully understand what is really going on, don't get involved.

Respect vs. Equality

By Florina G. Byrd

In several of the women's dormitories many incidents occur between the residents and some of the males who roam the halls inciting disturbances.

One incident that happens frequently in the dormitories is that a young lady receives a phone call or a page on her hall, and a sarcastic and disrespectful male responds to it.

These males should realize that a female dormitory is not their living quarters and they do not have the authority to infringe upon the rights of the females residing in the dormitories.

When a resident confronts a male found guilty of this unnecessary act, he becomes enraged and begins saying

harsh words to her.

Young men, those of you who are a part of this idiotic play, when are you going to respect yourself? Why don't you put yourself in these females' places who were victimized by your ill-mannered act. Just exactly how would you respond if a female were to 'disguise' her voice and answer your page or answer the telephone in your dormitory and it was for you? What if she didn't tell you that the telephone call was for you? Wouldn't this upset you very much? If so, then how do you think these females feel when it happens to them?

THE A&T REGISTER

Published twice weekly during the school year by students of North Carolina Agricultural and Technical State University.

To receive THE A&T REGISTER, please send \$8.50 for one year of \$16 for two years to THE A&T REGISTER, Box E-25, Greensboro, North Carolina, 27411 to cover mailing and handling costs.

Catsup, Straws Unique Duo

By Denise Burke

Have you ever had trouble getting the catsup out of the bottle? Read on and you will find out how to get the catsup out of the bottle as well as some more helpful inexpensive tips.

As for getting the catsup out of the bottle, insert a drinking straw, push it to the bottom of the bottle, and then remove. Enough air will have been admitted to start an even flow.

If you want hamburgers in a hurry, try poking a hole in the center of the meat when shaping. The center will cook quickly; and, when the hamburgers are done, the holes are gone.

To determine if an egg is fresh or not, note the appearance. Fresh eggs are rough and chalky in appearance. Old eggs are smooth and shiny. If you forgot that you boiled an egg and put it among raw eggs, here is how you can find that boiled egg. Spin it. If it spins round and round, it is hard-boiled. If it wobbles and will not spin, it is raw.

For all you coffee drinkers, here is a tip for you. To make a good cup of

coffee put a pinch of salt in the basket to remove some of the acid taste. Also for some good tasting coffee put the shells of eggs in after perking.

Winter is almost upon us, so here is a tip to prevent your doors and trunk from freezing shut. Saturate the rubber gaskets with a heavy coating of vegetable oil. The oil will seal out the water, but it won't harm the gasket.

The next time you try removing those out-dated bumper stickers from your car, try using either lighter fluid or nail polish remover.

Young men, are you always losing your wallet? The next time you find your wallet, wrap a heavy rubber band around it to keep it from slipping out of your pocket.

For those very sound sleepers, here is a bit of information that should be very helpful. Set your alarm clock in a tin pie pan. Even the soundest sleeper should be awakened by the sound.

Ladies, if you want your panty hose to last longer, try spraying them lightly with starch. This helps to resist runs and they will also go on smoothly.

To Receive Aid For Expansion Of Health Programs

Four U.S. Black health institutions will receive \$5 million in grants from the Agency for International Development to start or expand programs to help Africans solve public health problems in Africa.

The institutions--Howard University (Washington, DC), Meharry Medical College (Nashville, TN), Tuskegee Institute (Tuskegee, AL) and Charles R. Drew Postgraduate Medical School (Los Angeles, CA)--each will receive \$1.25 million over the next five years.

Howard will expand its program to provide improved research and advisory services to African countries and help solve public health problems such as malnutrition and health care for rural communities by working closely with African health specialists. Howard also will establish a health library and expand its curricula and training program for U.S. and African students specializing in health.

Meharry will focus on maternal and child health, family planning and applied nutrition. It will offer training and counseling to African countries.

Drew will expand its programs in health planning and management and rural and community development. It will exchange information with African health institutions and provide a faculty exchange program with developing countries.

Tuskegee will concentrate on programs of environmental health, endemic disease

control and rural health care. It also will begin exchange training program for U.S. and African students.

Although the four U.S. Black institutions will concentrate on different aspects of African health problems, they will exchange information and cooperate with each other.

The four institutions hope to solve some of the severe health problems that plague millions of Africans who

suffer from malnutrition, infectious and communicable diseases and population growth.

In Africa, life expectancy averages about 47 years, compared with 56 years in the rest of the developing world. Of every 1,000 babies born, 143 die within the first year of life compared to 28 in the more developed countries and 14 in the United States.

Up to 80 per cent of Africans are without basic health

services and medical facilities.

Eight officials from the Black institutions met in Washington Oct. 26 with AID Administrator Douglas J. Bennet, Jr. and Goler Butcher, assistant administrator for Africa.

The officials are J.A. Cannon, director of international health and development at Drew; M. Alfred Hayes, dean at Drew; Alonzo Gaston, director of international health at

Howard; Carlton P. Alexis, vice president, of Howard's Division of Health Affairs; Gladis Branic Hardy, director, of Meharry's International Center of Health Sciences; Charles W. Johnson, vice president for research and dean of the school of graduate studies at Meharry; Thomas Simmons, acting director of Tuskegee's Health Care Research and Demonstration Center; and Luther H. Foster, president of Tuskegee.

Seminar To Be Held In Student Union

(Continued From Page 2)

discussed. The seminar will also include a question and answer period.

Dr. Newell, a native of Jacksonville, N.C., obtained both his B.S. and M.S. degrees from N.C. A&T State University in 1965 and 1968, respectively, in biology. He received his doctorate in medicine in 1973 at the University of North Carolina at Chapel Hill. He later specialized in obstetrics and gynecology at the Medical College of Virginia.

Dr. Newell has also served as a researcher for R. J. Reynolds Industries.

The event will be held in the ballroom of the Memorial Union.

NOVEMBER 14

Jackson Gives Dorm Awards

(Continued From Page 1)
take place in a Black community?"

"These questions can not be taken lightly," Wright said. "They involve rights of all who make Greensboro home, as well as those who make it home-away-from-home."

According to Wright, the march was supposed to take place early (10:00 a.m.) Saturday morning, but it started later for unknown, controversial reasons. The actual occurrence took place between 11:23 and 11:26 a.m. Police, during this time, were in several places, but not the right one.

Wright also mentioned that, with the "funeral march" underway this weekend (Sunday morning), about 2,000 extra Greensboro persons will be here. A few common people, -KKK, NAACP, WVO, and others will be in attendance.

Other important issues included the treasurer's report

by Andre Best. Cheryl Armwood, vice-president, gave information on the new entry keys for female students-in effect during next registration; judging of dormitories; and a NOBCUS (National Organization of Black College Students) presentation was made.

Vivian Jackson, public relations chairperson of the SGA committee, gave a presentation of the dormitories awarded points for cleanliness.

The results were based on a 100 percent scale. Senior 97 percent; Morrison, 90 percent; Vanstory, 87 percent; Morrow (Gibbs renamed), 84 percent; and Barbee, 81 percent were the selected dormitories for cleanliness.

A plaque will be presented at the next SGA meeting for the winner-Senior dormitory.

Also, the committee plans to present a "Dorm-of-the-Month" award throughout

the school year. Its sponsors will be the SGA, and Men's and Women's Councils.

For additional dormitory news, the Renovations Committee announced renovations scheduled for November 27 for Scott hall. The process will begin in Scott A section.

The NOBUCS's brief meeting was headed by its president, William Harvey.

Bennett Players Production To Run Nov. 14-18

(Continued From Page 2)

personality Steven ("THE SMOOTH") Lipscombe.

The production will run November 14-18 in the Little

Theatre at the college. Admission is free for all Bennett students with I.D. and \$2.00 for the public.

Featured in the production will be WEAL radio

The Animal Science Club will meet Tuesday, November 13, at 6:30 p.m. in Room 168 Carver Hall. This meeting is very important.

Phi Beta Sigma is having a disco at the Nile Green Club, 2221 E. Market Street across from Tops Service Station, 10 until 2 a.m., November 9. All ladies admitted free. All males \$1.

There will be a Turkey Trot, November 15, sponsored by Army ROTC at 2:30 p.m. at Campbell Hall. It is a 5-mile course thru the city. Registration is now through November 14. For further details contact: Cadet Captain Roger Norrell and Captain R.A. Hill.

Men's Council will meet Tuesday, November 13, at 8 p.m. in Scott Hall Section A Lounge. All campus males are asked to attend.

The Biology Department will sponsor a seminar Monday, November 12, in A.P. Graves Seminar Room of Barnes Hall. Ms. Anita A. McCoy, instructor in the Biology Department will speak on "Serum proteins: significance and level of variation in Anas platyrhynchos." The seminar will be at 4 p.m.

SNEA members will take pictures Wednesday, November 14, at 7 p.m. in the Student Union Ballroom. Please be present and on time.

Humanities Endowment To Offer Youthgrants

The National Endowment for the Humanities through its newly-expanded Youthgrants program will offer more than 100 awards throughout the nation this fall to students and other young people in their teens and early twenties to pursue independent projects in the humanities.

The deadline for submission of completed applications has been extended to December 1, the only deadline during this academic year. Application forms should be on file in college offices which deal with federal grants.

These federal grants offer up to \$2,500 to individuals and up to \$10,000 to groups. They are intended primarily for those between the ages of 15 and 25 who have not completed academic or professional training. While the program cannot provide scholarship support or financial aid for thesis work, undergraduate work which seems assured of public dissemination can be supported. The humanities

include such subject areas as history, ethnic studies, folklore, anthropology, linguistics, and the history of art.

Clifton Serves Peace Corps

(Continued From Page 3)
accompanying exhibit of a few arts-and-crafts items collected by the speaker during the course of her travels. Clifton had an opportunity to travel extensively, crossing the African hump by land from Chad to Dakar, Senegal on the west coast. She has returned to the English Department this year after serving a two-year tour with the Peace Corps at the University of Chad, N'djamena, Chad in central Africa. A civil war erupted in that country last February and subsequently forced the evacuation of most of the American community.

NOW YOU CAN EARN OVER \$6,500 WITH ARMY ROTC.

Before you graduate from college! Because now, you can combine service in the Army Reserve or National Guard with Army ROTC. It's called the Simultaneous Membership Program (SMP). And, depending on your academic year when you enter, SMP can help you earn over \$6,500.

Here's how it works. If you qualify and a vacancy is available, you become a member of an Army Reserve or National Guard unit as an officer trainee and, at the same time, enroll in the Army ROTC advanced course at your college. Your Reserve or Guard membership will pay you at the minimum level of Sergeant E-5, and you'll receive \$100 a month during the regular school year as an Army ROTC advanced course cadet.

At the end of your second year of advanced ROTC, you'll be commissioned a second lieutenant and, assuming there's a vacancy, serve with a Guard or Reserve unit while you complete the requirements for your college degree. Upon graduation, you may continue service with a Guard or Reserve unit while pursuing your civilian career, or you can, if you prefer, compete for active duty as an Army officer.

So if you'd like to earn over \$6,500 while you're still in college, get into SMP. Because SMP can help you do it. You can bank on it!

For further information, contact the Professor of Military Science at your school.

ARMY ROTC. ARMY NATIONAL GUARD. ARMY RESERVE.

N.C. A&T and Delaware State play Saturday in Dover, Delaware, in a game to decide who will finish lower in the MEAC standings. The game has no significance for either team except for the fact that Delaware State will be seeking its first conference win of the season.

Delaware State has momentum entering Saturday's game against A&T, benefiting from an upset 17-15 victory over Bethune-Cookman last Saturday.

The Hornets feature an aggressive hard-hitting defense led by All-MEAC defensive tackle Greg Wright. Even though the Hornets have been giving up quite a few points this season, they are strong and capable of playing the Aggies' offensive unit tough.

A&T travels to Delaware attempting to end a two-game losing streak, which dates back to its 29-9 loss in Baltimore to the Morgan State Bears.

What can Coach Jim McKinley do to win these last two games? By no means will A&T take Delaware State and NCCU for granted. Sporting a miserable 3-6 record, the Aggies could finish 3-8, the worst record suffered by an Aggie football team in sometime. Should A&T play two consecutive impressive games in a row, a feat eluding them this year, it would salvage some of A&T's "Aggie Pride". It may even salvage some jobs.

N.C. A&T's wrestling team ventures to Pembroke Saturday to participate in Pembroke State's "Take Down" tournament. Last Saturday the Aggie grapplers hosted their "Take Down" tourney and while the results weren't overly impressive, Coach Pinckney seemed pleased with their performance. But I'm sure Coach Pinckney will be looking for some improvement in his squad's performance in Pembroke.

In A&T's New Gym Saturday, there'll be a basketball clinic conducted by Coach Gil Reynolds, varsity basketball coach at Laurinburg Institute. Reynolds is an excellent coach with a reputation of producing talented athletes. He's helped athletes in the past, such as Lloyd Free, Bernard and Al King, James Sparrow, Jeff Houston, and many more.

If you think you know basketball, come to the New Gym at 2 p.m., Saturday. I promise you'll learn something.

The intramural football championship was played earlier in the week. For the first time in four years, Son-of-Sam failed to win the championship.

The intramural department, headed by William Sheffield, crowned new champions. The new intramural football champions are Kappa Alpha Psi. The Kappas defeated DTX in the Holland Bowl for the crown.

MEAC Teams Improve Record

Durham, NC--There were no conference games last week, so four MEAC teams improved their records against outside competition, while three suffered losses. Morgan downed previously undefeated Virginia Union 14-7, South Carolina State whipped Morris Brown 41-14, Delaware State surprised Bethune-Cookman 17-15, and NC Central stopped JC Smith 14-10. Tennessee St. handed NC A&T a 37-14 loss, Southern blanked Howard 30-0, and University of Maryland-E.S. lost to Tuskegee Institute 17-12.

In one of the biggest games on the East coast, Morgan shocked the Virginia Union Panthers with a 78-yard scoring bomb from Darrell Coulter to Cornelius Johnson

on the first play from scrimmage, added a field goal four minutes later, and took a 9-7 lead at the half. Ron Fairley scored for VU late in the first period on a 2-yard run. Morgan's defense took over from there, recording a safety with 5:55 left in the game, and David Booker booted a 35-yard FG with 2:29 remaining. Both clubs are highly rated and the MSU victory pushes them closer to post-season play.

SCS kept its Gold Bowl hopes alive with the Homecoming thrashing of Morris Brown, as Chris Ragland scored three times in the initial quarter, and totaled 160 yards on the day. The 187-pound tailback went over 1,000 yards rushing for the year, becoming only the second SCS player to do so. Prince Phillips hit Marion Brown for a second-quarter 26-yard score before the visitors could get two TDs in the third period. SCS closed out the romp with one-yard runs from Nate Rivers and Victor McKinley.

In winning its second game in succession, DelSt fell behind 7-0 in the second period, but got the big play from Walter Samuels, who exploded for a 75-yard TD on a punt return. James Thomas tied the contest with the extra point, then the Hornets up at the half on a 21-yard field goal. Runningback Anthony Beamon, who rushed for over 100 yards on the day, ran a two-yard TD in the third quarter, and Bethune Cookman's James Preyer made it close with a short TD run with 4:34 left to play.

NC Central yielded a touchdown to the Bulls on the

games' opening series, but came back in the quarter to match the homesteaders on a Charles Yuille one-yard scamper, and took an 8-7 lead with Yuille scoring a two-point conversion. Both drives were 65-yarders, and JCS scored on Ed Jones' pass of nine yards to Nate McDowell. Smith regained the advantage later in the same period on a 42-yard FG by Ray Patterson. The Eagle defense allowed no more as they held the Bulls to just 23 yards rushing and 45 passing for the game. Central's winning TD came with only 3:24 left in the contest when Ken Pugh found Carl Sanders on an 18-yard pass play.

The final score in Greensboro does not tell the true story of the contests. Tennessee State did take a 17-0 first quarter lead, but A&T's William Watson hit Billy Mims and Ollie Davis for 12, and 22-yard scoring strikes in the second and third periods, before TSU could get a FG and take a slim 20-14 lead into the final stanza. It stayed that way until about five minutes left and A&T's hurry-up offense cost them 17 points. Highly-regarded quarterback Joe "747" Adams hit TSU receivers for 287 yards and two TDs on the day. He was named the Schlitz Player of the contest. Defensive back Tony Currie (A&T) was also chosen.

In Washington, Howard was shut down by a strong Southern U. defense, and succumbed to two Aaron Kent UMES displayed a valiant effort, but did not have enough to beat Tuskegee on its Homecoming day. Tuskegee Institute was coming off a big victory over Florida A&M.

Teachers Learn Traffic Safety

By David Puryear

Piedmont public school teachers will learn how to teach traffic safety to their pupils in a series of workshops to be conducted next year by A&T State University.

The A&T school of safety workshops will be funded by a \$16,000 grant from the Governor's Highway Safety Program to the university's department of safety and driver education.

Dr. Lewis C. Dowdy, A&T chancellor, announced the grant and said Dr. Issac Barnett would direct the project.

(See A&T Page 8)

Saturday Big Day For Delaware State Hornets

By Raymond Moody

Saturday in Delaware figures to be a big day for the Delaware State Hornets. The Hornets haven't had much success against A&T, even though they defeated the Aggies 9-6 last year, only, eventually to forfeit the contest because of an ineligible player used by Delaware. This is their final MEAC game of the season, so you know they'll want to end their conference season on a winning note. As of today, Delaware State holds a record of 3-5-0, 0-4 in the MEAC.

For the Aggies this year, it has been a year of transition. No longer is A&T the powerful football team and perennial contender of the MEAC. For the first time in five years, A&T will not be in contention for the conference crown entering the 10th week of the season.

Injuries have plagued Coach McKinley most of the year. In last week's game against Tennessee State, A&T had a total of six offensive starters nursing injuries.

A&T Develops Model Traffic Safety Curriculum

(Continued From Page 7)

A&T will develop a model traffic safety curriculum which can be used by teachers in grades K through 9. Then a team of part-time instructors

will conduct workshops in 12 selected school districts in the Piedmont to introduce the safety courses to the teachers.

Student assistants with A&T's Safety and Driver Education Center will produce videotapes of children's

behavior in typical traffic hazard situations, including school bus loading and unloading, bicycle riding and walking to school. The tapes will be used to illustrate safety problems to the teachers during the workshops, according to Barnett

Barnett said the traffic safety education workshop idea had been developed as a response to the increasing number of school bus accidents and fatalities in the state during the past five years.

"Unity"

Delaware State is led by All-America candidate Greg Wright. Wright leads the team with 92 tackles, 32 unassisted, two fumble recoveries and two quarterback sacks. Wright was the main reason A&T could manage only six points against the Hornets in Greensboro last year. Nose Guard Terry Graves (6-2, 265) is second in tackles with 42, 29 unassisted and one interception.

The key to the game could be A&T's offensive line against Delaware State's

defensive line. The Hornets rank last in the MEAC in rushing defense, while A&T ranks fourth in rushing offense. The Aggies' running game has been clicking recently; and, if the Aggies are to win, they must move the ball on the ground.

Leading the Aggie attack on the ground will be Roland Myers. Myers, being nagged by injuries for most of the season, is currently the top rusher and passer on the team.

Myers should be in top condition for this week; if so, Delaware State will certainly have their hands full.

The Hornets are coached by Charles Henderson, who is a 1969 graduate of Florida A&M University. This is Henderson's first head coaching job on the collegiate level. Henderson served as an assistant coach on the Delaware State College staff last season.

Combating Henderson will

be Joim McKinley, a 1965 graduate of Western Michigan University. Prior to joining A&T, he was the head football coach at Central State University and guided the team to a bid in the coveted Orange Blossom Classic in Miami, Florida.

Last season he guided the Aggies to a second place finish in the MEAC and an appearance in the Gold Bowl. Kick-off is scheduled for 1:30 p.m. in Dover, Delaware.

How a 19-year-old college sophomore can become a 21-year-old Army officer.

The Army offers college sophomores the opportunity to earn

Course in the fall. Do exceptionally well, and you may be heading back to college with a two-year full tuition scholarship.

For the next two years you'll learn what it takes to be an Army officer. You'll be challenged both mentally and physically. You'll get the kind of management and leadership experience that will be an asset to you in any career, military or civilian. You'll receive an extra \$100 a month, up to 20 months. And when you graduate, you'll have earned your college degree along with the gold bars of an Army officer.

The Two-Year Army ROTC Program. If that's the kind of challenge you're looking

for, you're the kind of student we're looking for.

an officer's commission in two years. It's tough, but the people who can manage it are the people we want to manage the men, money and materials of the United States Army.

You apply for the special Two-Year Army ROTC Program during your sophomore year. Then attend a six-week Basic Camp, with pay. Approximately \$500.

You'll learn what it takes to be a soldier—to have your body toughened, your confidence developed.

Do well and you can qualify for the Army ROTC Advanced
