Dear Prof. Simmons,

The communications that I have received from you during this period of time, that is since the beginning of school has been of much service to me in clarifying our five state objectives.

I am striving to have my boys put over a splendid program this year. Tomorrow, will bring to close our "Tobacco Week", in which each boy living on the farm has brought five pounds in on the busses to the school and about one third of it has been placed on the market already and a cash profit of seven dollars and twenty cents (\$7.20) has been realized for chapter funds. What do you think of the idea? If a good one pass it on to other individuals perhaps they can use another crop or the same crop. Our chapter has set for its goal this year for funds the sum of fifty dollars. We now have thirty-six per cent of it.

I appreciate very much your sending me the thrift books and I am sure that our chapter will use some form of thrift for each individual.

We have set as our chapter fair and corn show date, Nov. 24, 1933. It is rather late but it seems to meet with the approval of the chapter due to other conditions.

I have four of the books on the suggested list and I would appreciate very much forming an exchange with you. I hope to get a few more of them soon. Those that I have are:

1. Practical Methods in Vocational Agriculture by Lattig
2. Handbook of Teaching Skills by Lancelot
3. Education for a Changing Civilization by Kilpatrick
4. Life of Booker T. Washington by Washington

Do you still intend to hold the 3-1 corn contest dinner at A. & T. College December the 14th. I think it a splendid idea.

The Henderson boys' yield in a bit lower than last year but I seem to have a fine plot down to Sneed's. I will send the report soon. The corn is in the field at present but how long I am unable to say. But you can depend on me being correct with my estimation.

Enclosed you will find the names of those individuals that I saw at the Home-coming.

Yours truly,

F. A. Williams

Dear Prof. Simmons,

The communication that I have received from you during this period of time, that is since the beginning of school has been of much service to me in clarifying our live state objectives.

I am striving to have my boys put over a splendid program this year. Tomorrow, will bring a "Mr. Henderson Week" in which each boy living in the Henderson Institute has been placed in the market already and a cash profit of seven dollars and twenty cents (\$7.20) has been secured for chapter funds. What do you think of the idea? I need one more it on the other hand.

I want to thank you very much for your communication of November 2nd. The boys are very glad to hear of your work for that you have set up for your local chapter. I think your financial program is good. I had already prepared a letter informing the boys of the same. I am sure that you will be with you for your fair on the 24th or 25th. It is rather late but it seems to me with the approval of the chapter due to other candidates.

If nothing further turns up, I will be with you for your fair on the 24th or 25th. It is rather late but it seems to me with the approval of the chapter due to other candidates.

I have been very truly,
I appreciate very much having an exchange with you. I hope to get a few more of them soon. These that I have are:
